Amends the Consumer Fraud and Deceptive Business Practices Act. Removes provisions requiring all new and used motor vehicle dealers to pay a percentage of certain repairs for power train components. Adds provisions regarding used motor vehicle dealers and auction companies. Provides that used motor vehicle dealers and certain auction companies may not exclude, modify, or disclaim an implied warranty of merchantability before the expiration of the 15th calendar day after delivery of the used motor vehicle or before the used motor vehicle is driven 500 miles after delivery, whichever occurs first. Replaces everything after the enacting clause. Reinserts the introduced bill with the following changes: Provides that any retail sale of a used motor vehicle made to a consumer by a licensed vehicle dealer within the meaning of certain provisions of the Illinois Vehicle Code or by an auction company at an auction that is open to the general public (instead of any retail sale of a motor vehicle made to a consumer by a used motor vehicle dealer within the meaning of certain provisions of the Illinois Vehicle Code) is made subject to the provisions limiting modifications to or a disclaimer of an implied warranty of merchantability. Provides that if the implied warranty of merchantability is breached, the consumer shall give reasonable notice to the seller no later than 5 business days after the end of the statutory warranty period (instead of if the implied warranty of merchantability is breached, the consumer shall give reasonable notice to the seller within 15 days after the date of the breach). Provides that an implied warranty of merchantability is met if a used motor vehicle functions free of a defect in a Power Train component (instead of an implied warranty of merchantability is met if a used motor vehicle functions substantially free of a defect that significantly limits the use of the used motor vehicle for the ordinary purpose of transportation on any public highway). Defines "Power Train component". Makes changes to provisions concerning: (i) the language required in a disclosure statement within an agreement for the sale of a used motor vehicle and (ii) express or implied warranties other than the 15 day, 500 mile implied warranty of merchantability. Removes a provision concerning remedies for an aggrieved consumer or seller.

Senate Committee Amendment No. 1

Provides that if the implied warranty of merchantability is breached, the consumer shall give reasonable notice to the seller no later than 2 business days after the end of the statutory warranty period (instead of if the implied warranty of merchantability is breached, the consumer shall give reasonable notice to the seller within 15 days after the date of the breach). Defines "power train component". Removes a provision concerning remedies for an aggrieved consumer or seller. Excludes vehicles with more than 185,000 miles. Provides that the University of Illinois at Urbana-Champaign is not required to offer admission to applicants who qualify for automatic admission in excess of the number required to fill 75% of the university's enrollment capacity designated for first-time resident undergraduate students in an academic year. Sets forth other provisions concerning the University of Illinois at Urbana-Champaign. Sets forth other provisions concerning admissions. Provides for additional preparation for college, student outreach, and rulemaking.

Fiscal Note (IL Board of Higher Education)

Assuming the provisions of House Bill 4565 would operate under existing capacity levels, it appears that the increased number of mandated entering freshmen students would off-set other eligible entering freshmen and the cost of instruction would generally remain the same. However, depending on the financial profile of the freshmen included under the guidelines presented in House Bill 4565, financial aid costs could increase, although specific estimates are undeterminable at this time. Illinois Board of Higher Education's FY 2016 Weighted Average Tuition report indicated an entering freshmen class of 34,760 for the current academic year.

If the appeal is by the State, upon the filing of the certificate, the court shall vacate the judgment and sentence of the trial court and the cause shall be forever abated. If the appeal is by the defendant, upon the filing of the certificate, the court shall immediately stay further action in the proceeding for 28 days. During the stay, the executor or administrator of the defendant's estate, the defendant's attorney on appeal, the Office of the Appellate Defender, or the Public Defender in the county in which the defendant was convicted, or other successor in interest shall have standing to petition the court for leave to intervene in the appeal for the purpose of pursuing the appeal in place of the defendant. If, after intervention, the appeal results in: (1) the entry of an order affirming the decision of the trial court, the intervenor may continue to pursue the appeal on the behalf of the defendant or seek post-conviction relief to the extent that further appellate or post-conviction relief would have been available to the defendant were he or she still alive; (2) a finding of error by the court resulting in the reversal of a defendant's conviction, the court shall vacate the judgment and sentence of the trial court and the cause shall be forever abated; or (3) a finding of error which would require the trial court to resentence the defendant, but does not require reversal of the defendant's sentence, the court shall vacate the sentence imposed by the trial court and the conviction shall stand. If no petition for leave of the court to intervene is filed, the court shall dismiss the appeal without disturbing the decision of the trial court or sentence it imposed.

Replaces everything after the enacting clause. Amends the Hearing Screening for Newborns Act. Changes the short title to the Early Hearing Detection and Intervention Act. Defines terms. Replaces current provisions related to mandatory hearing screening with provisions that provide each medical care facility shall conduct bilateral hearing screenings for each newborn infant prior to discharge unless there is a medical contraindication or the infant is transferred before a screening can be completed. Contains provisions concerning infants that are transferred, requiring all medical care facilities to make provisions for outpatient screenings for infants born outside medical care facilities, and reporting and follow-up requirements for hearing screenings. Provides that for infants born outside a medical care facility, the newborn's primary care provider shall make a referral to a medical care facility for a hearing screening. Provides that specified providers and programs (rather than hospitals) shall report all hearing testing, medical treatment, and intervention outcomes related to newborn hearing screening or newly identified hearing loss for children birth through 6 years of age (rather than positive hearing screening results) to the Department of Public Health. 20 ILCS 2630/5.2

Amends the Criminal Identification Act. Provides that records of charges that result in an acquittal or dismissal with prejudice, except for minor traffic offenses, may be immediately sealed after the final disposition of the case. Upon entry of judgment, the defendant shall be informed of this right and the proper procedures to follow to have records that are eligible be immediately sealed. A petition may be filed on behalf of the defendant by his or her attorney at the final disposition hearing, or by the defendant at any time. The State's Attorney may not object to an immediate sealing petition, and the presiding trial judge shall enter an order granting or denying the petition during the hearing in which the petition is filed. Effective immediately.

Land Conveyance Appraisal Note (Dept. of Transportation)

No land conveyances are included in HB4954; therefore, there are no appraisals to be filed.

State Debt Impact Note (Government Forecasting & Accountability)

HB 4954 would not change the amount of authorization for any type of State-issued or State-supported bond, and, therefore, would not affect the level of State indebtedness.

House Floor Amendment No. 1

Deletes language providing that no fees shall be charged by the circuit court clerk or the Department of State Police for processing a sealing petition for an arrest or charge not initiated by arrest that resulted in acquittal, dismissal, or a conviction when the conviction was reversed or vacated. Deletes language providing that the State's Attorney may not object to an immediate sealing petition.

Pension Note (Government Forecasting & Accountability)

HB 4954 will not impact any public pension fund or retirement system in Illinois.

Correctional Note (Dept of Corrections)

HB 4954 has no fiscal or population impact on the Department of Corrections.

Housing Affordability Impact Note (Housing Development Authority)

This bill will have no effect on the cost of constructing, purchasing, owning, or selling a single-family residence.

Judicial Note (Admin Office of the Illinois Courts)

This bill would neither increase nor decrease the number of judges needed in the State.

Fiscal Note (Illinois State Police)

If HB 4954 were to become law, the estimated fiscal cost would be $211,152 per fiscal year. This estimated loss of revenue is based upon Fiscal Year 2015 numbers. In Fiscal Year 2015 the Illinois State Police collected an estimated $211,152 for seal orders. The Illinois State Police does not have a separate line item for expungements and seal orders. Illinois State Police collected a total of $527,880 in sealing and expungement fees in Fiscal Year 2015. Seal orders average approximately 40 percent of the workload ($527,880 x .40 = $211,152). It should be noted, the $527,880 collected in fees fund the salary of 10 of the13 employees in this unit. These costs would no longer be supported by fee funds collected and would have to be shifted to General Revenue. The revenue stream that supports the functions of this unit would no longer exist. While preparing this fiscal note, House Amendment 1 was filed. House Amendment 1 would restore the Illinois State Police's ability to collect fees for most seal orders.

Balanced Budget Note (Office of Management and Budget)

House Bill 4954 would eliminate the current process in which the Illinois State Police collect fees for processing petitions and orders to seal records. These fees are used to fund the technology and support staff that implement and maintain the expungement and sealing system. While any costs for implementing this new process would be minimal the Illinois State Police would lose revenue generated from the current process at an estimated $211,000 per year into the State Police Services Fund.

Amends the Code of Criminal Procedure of 1963 and the Illinois Domestic Violence Act of 1986. Provides that in developing arrest procedure policies in domestic violence situations, each law enforcement agency shall (instead of "is encouraged to") consult with community organizations and other law enforcement agencies with expertise in recognizing and handling domestic violence incidents. Provides that in the initial training of new recruits and every 5 years in the continuing education of law enforcement officers, every law enforcement agency shall provide training to aid in understanding the actions of domestic violence victims and abusers and to prevent further victimization of those who have been abused, focusing specifically on looking beyond the physical evidence to the psychology of domestic violence situations, such as the dynamics of the aggressor-victim relationship, separately evaluating claims where both parties claim to be the victim, and long-term effects. Provides that the Law Enforcement Training Standards Board shall formulate and administer the training as part of the current programs for both new recruits and active law enforcement officers. Provides that the Board shall formulate the training by July 1, 2017, and implement the training statewide by July 1, 2018. Provides that in formulating the training, the Board shall work with community organizations with expertise in domestic violence to determine which topics to include. Provides that the Illinois Department of State Police shall oversee the implementation and continual administration of the training.

House Committee Amendment No. 1

Provides that the Law Enforcement Training Standards Board (instead of the Illinois Department of State Police) shall oversee the implementation and continual administration of the training.

House Committee Amendment No. 1

Deletes reference to:

705 ILCS 405/2-10.01 new

Replaces everything after the enacting clause. Reinserts the introduced bill with the following changes: Requires the Department of Children and Family Services to make reasonable efforts and accommodations to provide for (rather than grant) visitation privileges to a non-custodial grandparent or great-grandparent of a child who is in the care and custody of the Department. Provides that any visitation privileges provided (rather than granted) shall be separate and apart from any visitation privileges provided (rather than granted) to a parent of the child. Requires the Department to provide visitation privileges only if doing so is in the child's best interest, taking into consideration certain factors set out in the Juvenile Court Act of 1987 and other additional factors as specified (rather than requiring the Department to consider, but not be limited to, the following criteria in determining whether to grant visitation: (i) the wishes of the child, taking into account the child's maturity and ability to express reasoned and independent preferences as to visitation; (ii) the mental and physical health of the child; and (iii) the length and quality of the prior relationship between the child and the grandparent or great-grandparent). Provides that any visitation privileges provided shall automatically terminate upon the child leaving the care or custody of the Department (rather than providing that any visitation privileges provided before the filing of a petition for adoption of the child shall automatically terminate upon the child leaving the care or custody of the Department). Provides that if the Department determines that a grandparent or great-grandparent is inappropriate to serve as a visitation resource and denies visitation, the Department shall: (i) document the basis of its determination and maintain the documentation in the child's case file and (ii) inform the grandparent or great-grandparent of his or her right to a clinical review in accordance with Department rules and procedures (rather than the Department shall inform the grandparent or great-grandparent of his or her right to appeal the decision to deny visitation in accordance with the appeals procedure established by the Department). Removes a provision requiring the Department to adopt rules concerning the procedure for appealing a decision to deny visitation privileges for a non-custodial grandparent or great-grandparent and instead provides that the Department may adopt any rules necessary to implement the provisions of the bill.

305 ILCS 5/5-30.1

Amends the Medical Assistance Article of the Illinois Public Aid Code. In a provision concerning network adequacy for managed care organizations (MCO) contracted with the Department of Healthcare and Family Services, provides that each MCO shall (i) on a monthly basis, jointly validate with contracted providers any changes in provider information, including, but not limited to, changes concerning new providers, terminated providers, updated address information, hours of operation, or other information that is material to a Medicaid beneficiary in the enrollment and provider selection process; and (ii) be required to produce system reports that validate that all MCO systems reflect updated provider information. Provides that in situations in which an enrolled Medicaid provider renders services based on information obtained after verifying a patient's eligibility and coverage plan through either the Department's current enrollment system or the coverage plan identified by the patient presenting for services, such services shall be considered rendered in good faith. Requires the Department to create and maintain a MCO Performance Metrics Comparison Tool that provides periodic reporting, on at least a quarterly basis, of each MCO's performance in various administrative measures. Requires the tool to be accessible in both a print and online format, with the online format allowing for Medicaid beneficiaries and providers to access additional detailed MCO performance information. Effective immediately.

Land Conveyance Appraisal Note (Dept. of Transportation)

No land conveyances are included in this legislation, therefore, there are no appraisals to be filed.

Correctional Note (Dept of Corrections)

HB 5671 has no fiscal or population impact on the Department.

Judicial Note (Admin Office of the Illinois Courts)

This bill would neither increase nor decrease the number of judges needed in the State.

Pension Note (Government Forecasting & Accountability)

HB 5671 will not impact any public pension fund or retirement system in Illinois.

State Debt Impact Note (Government Forecasting & Accountability)

HB 5671 would not change the amount of authorization for any type of State-issued of State-supported bond, and, therefore, would not affect the level of State indebtedness.

Housing Affordability Impact Note (Housing Development Authority)

This bill will have no effect on the cost of constructing, purchasing, owning, or selling a single-family residence.

Fiscal Note (Dept. of Healthcare & Family Services)

It is estimated that the Client Enrollment Broker contract would need to be amended to add an additional $1.7 million in costs for this proposed legislation in FYI7. These estimated costs account for the additional quarterly and annual call center staffing, training and monitoring needs, additional enrollment packet and open enrollment packet materials and postage, and program website and translation requirement that would result from this proposed legislation.

Balanced Budget Note (Office of Management and Budget)

This bill will likely have a negative fiscal impact to the state's Medicaid program. The Department of Healthcare and Family Services estimates a cost of $1.7 million for printing the MCO Performance Metrics Comparison Tool, plus additional staffing costs related to creating and maintaining the tool. Medicaid MCOs could absorb additional costs due to the provider reimbursement provision; it is possible that such increased costs would be factored into future MCO capitation rates paid by the Department of Healthcare and Family Services. Passage of this bill without an accompanying source ofrevenue will result in an unbalanced budget.

Fiscal Note, House Committee Amendment No. 1 (Dept. on Aging)

Under both proposed changes, the cost of providing services to the aging population will rise significantly. During the next four fiscal years, the proposed rate increase is estimated to result in $1.1 billion in additional program and administrative costs. This estimate is predicated upon projected homemaker hours during the specified fiscal years. The costs incurred by this bill are not included in the Governor's introduced budget and are not in keeping with what the state can currently afford. Should the increases take effect, the sustainability of programs reliant upon Homemaker hours will be directly impacted.

Land Conveyance Appraisal Note (Dept. of Transportation)

No land conveyances are included in this legislation, therefore, there are no appraisals to be filed.

Judicial Note (Admin Office of the Illinois Courts)

This bill would neither increase nor decrease the number of judges needed in the State.

Pension Note (Government Forecasting & Accountability)

HB 5785 will not impact any public pension fund or retirement system in Illinois.

State Debt Impact Note (Government Forecasting & Accountability)

HB 5785 would not change the amount of authorization for any type of State-issued or State-supported bond, and, therefore, would not affect the level of State indebtedness.

Correctional Note (Dept of Corrections)

This bill has no fiscal or population impact on the Department of Corrections.

Balanced Budget Note (Office of Management and Budget)

House Bill 5785 will have a negative fiscal impact as it relates to bond sales and additional debt service. It will open up the Department of Commerce and Economic Opportunity to the risk of higher expenditures from the Build Illinois Bond Fund. This would require the Governor's Office of Management and Budget to sell more bonds, which would require additional debt service. This additional debt service will have a negative impact on the General Revenue Fund.

Housing Affordability Impact Note (Housing Development Authority)

This bill will have no effect to the homeowner on the cost of owning a single-family residence. However, the federal prevailing wage requirement, the increase in maximum grant award will cause fewer homes to be assisted under these programs.

State Mandates Fiscal Note (Dept. of Commerce & Economic Opportunity)

This legislation does create a State mandate.

Home Rule Note (Dept. of Commerce & Economic Opportunity)

This legislation does not pre-empt home authority.

Fiscal Note (Dept. of Commerce & Economic Opportunity)

Assuming a capital re-appropriation, use of Urban Weatherization Initiative (UWI) funding would require the sale of Build Illinois Bonds. This would increase the debt service of the State of Illinois and result in a negative impact on GRF funds.

Governor Amendatory Veto Message

Recommends amending the Urban Weatherization Initiative Act and the Energy Assistance Act by: inserting language providing that works financed or funded in whole or in part with grants awarded under those Acts shall not be considered public works for purposes of the Prevailing Wage Act; deleting language providing that employees hired under the Urban Weatherization Initiative shall be paid in accordance with the hourly wages associated with the federal prevailing wage rates for weatherization workers; and deleting language providing that individuals performing weatherization work under the weatherization program shall be paid in accordance with the hourly wages associated with the federal prevailing wage rates for such weatherization classifications as determined by the U.S. Department of Labor, until specifically superseded by additional standards and regulations.

Defines "front line personnel". Effective immediately.

Fiscal Note (Dept. of Human Services)

Fiscal Impact Supplement: The DSP rate increase to $15/hour will cost the state an estimated annual increase of $3301\1. (1) The current CILA rate model includes $10.71/hour for DSP wage rates. The proposed legislation would increase the DSP rates by 40.l %, increasing from $10.71 to $15.00. ICF/DD DSP current wage is $11.05/hour, an increase to $15 would be a 35.7% cost to the program liability. (2) The legislation does not only impact DSP, also requires commensurate rate increases across all staffing levels within the affected categories. As a result, all Community Integrated Living Arrangements (CILA) and Developmental Training (DT) staffing categories would increase by 40 .1% above current rates. Categories impacted by the proposed rate increase include DSP, Supervisors, Qualified Intellectual Disabilities Professional Course Coordinator (QIDP), Licensed Practical Nurses (LPN), and registered Nurses (RN). These amounts total an estimated $330M annual increase in costs that are not included in the Governor's FY17 proposed budget.

Housing Affordability Impact Note (Housing Development Authority)

This increase in costs is not included in the Governor's FY17 proposed budget. There are no proposed revenues or offsetting budget reductions to support these increased costs.

Fiscal Note (Financial & Professional Regulation)

Illinois Department of Financial and Professional Regulation (IDFPR) anticipates HB5957 to result in approximately $250,000 less in average annual revenue collected in variable quarterly fees and exam fees charged to Savings Banks. This $250,000 annual loss in quarterly and exam fee revenue would then be offset by the contingent fee charged by IDFPR in the subsequent fiscal year. Due to the offsetting nature of the contingent fee/credit back charge, net fiscal impact to IDFPR will be minimal and IDFPR would only be affected by the timing of cash flows which would provide more consistent quarterly fees to Savings Banks.

Provides that with respect to licensees and applicants under specified occupational Acts, the Department of Financial and Professional Regulation shall include formal complaints, including a refusal to issue a potential licensee with a positive conviction history for professions covered by the license, in its publication of disciplinary actions. In provisions amending the Funeral Directors and Embalmers Licensing Code, makes changes concerning grounds for disciplinary actions. Provides that the Department shall not deny a license to a potential licensee whose conviction history is directly related to the profession for which a license is sought if the Department has not considered mitigating factors provided in the Act. Removes a potential licensee that the Department of Healthcare and Family Services has previously determined is more than 30 days delinquent in the payment of child support as an individual the Department of Financial and Professional Regulation may refuse to renew or may revoke or suspend that person's license or may take other disciplinary action against that person based solely upon the certification of delinquency made by the Department of Healthcare and Family Services. Provides that the Department of Financial and Professional Regulation may not refuse to issue a license to a potential licensee who is an obligor because the obligor's child support arrearage equals or exceeds the amount of child support payable for 12 (rather than 6) months. Also, in the IMRF Article, extends application of a provision added by Public Act 87-850 to spouses of annuitants who die on or after the effective date of this amendatory Act. Effective immediately.

Land Conveyance Appraisal Note (Dept. of Transportation)

No land conveyances are included in HB 6021; therefore, there are no appraisals to be filed.

Housing Affordability Impact Note (Housing Development Authority)

This bill has no fiscal effect on constructing, purchasing, owning, or selling a single-family residence.

State Debt Impact Note (Government Forecasting & Accountability)

HB 6021 would not change the amount of authorization for any type of State-issued or State-supported bond, and, therefore, would not affect the level of State indebtedness.

Judicial Note (Admin Office of the Illinois Courts)

This bill would neither increase nor decrease the number of judges needed in the State.

House Committee Amendment No. 1

Adds reference to:

40 ILCS 5/15-139	from Ch. 108 1/2, par. 15-139

Deletes everything after the enacting clause and reinserts similar provisions. Changes the period during which the election may be made, from calendar year 2016 to a period of one year beginning 5 months after the effective date of the amendatory Act. In the State Universities Article of the Illinois Pension Code, adds an additional reference to repayment of the survivors insurance contribution refund or additional annuity payments. Effective immediately.

Fiscal Note (Teachers' Retirement System)

Administrative cost impact - Administering the provisions of this bill would not increase the administrative costs of TRS. Actuarial cost impact - No increase in State funding requirements is expected if this bill becomes law. The costs of the survivor benefit program are covered by the member's 1 percent survivor benefit contribution.

Judicial Note, House Committee Amendment No. 1 (Admin Office of the Illinois Courts)

This bill would neither increase nor decrease the number of judges needed in the State.

Land Conveyance Appraisal Note (Dept. of Transportation)

No land conveyances are included in this legislation, therefore, there are no appraisals to be filed.

Balanced Budget Note, House Committee Amendment No. 1 (Office of Management and Budget)

The net cost of House Bill 6021 (H-AM 1) to TRS or SURS cannot be determined at this time. IMRF could experience additional cost, but since IMRF receives no state funding, this portion of the bill has no impact on the state budget.

Pension Note, House Committee Amendment No. 1 (Government Forecasting & Accountability)

The fiscal impact of HB 6021 (H-AM 1) cannot be determined as the precise number of members who would be impacted by this proposal is difficult to discern because it is not known how many qualified members would make this election. The Teachers' Retirement System stated that the survivor contribution should cover the cost of the benefit program, and should not result in an increased cost. However, the Illinois Municipal Retirement Fund foresees a minimal fiscal impact, and the State Universities Retirement System stated that it is not possible to measure the extent of a fiscal impact from this bill.

State Debt Impact Note, House Committee Amendment No. 1 (Government Forecasting & Accountability)

HB 6021 would not change the amount of authorization for any type of State-issued or State-supported bond, and, therefore, would not affect the level of State indebtedness.

Amends the General Provisions Article of the Illinois Pension Code. Requires every pension fund or retirement system under the Code to develop and implement, by no later than June 30, 2017, a process to identify annuitants who are deceased. The process shall require the pension fund or retirement system to check for any deceased annuitants at least once per month and shall include the use of commonly accepted methods to identify persons who are deceased, which include, but are not limited to, the use of a third party entity that specializes in the identification of deceased persons, the use of data provided by the Social Security Administration, the use of data provided by the Department of Public Health's Office of Vital Records, or the use of any other method that is commonly used by other states to identify deceased persons. Amends the Vital Records Act to make a conforming change. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

House Floor Amendment No. 1

Deletes reference to:

30 ILCS 805/8.39 new

Adds reference to:

30 ILCS 805/8.40 new

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. Excludes pension funds established under the Downstate Police or Downstate Firefighter Articles of the Illinois Pension Code from the requirement of developing and implementing a process to identify annuitants who are deceased. Provides that the information contained in the vital records shall be made available at no cost to the pension fund or retirement system. Effective immediately.

Fiscal Note, House Floor Amendment No. 1 (State Retirement Systems)

HB 6030 (H-AM 1) has no impact on the 3 retirement systems administered by our organization. The primary reason for no impact is due to the fact that we are currently in compliance with such provisions.

Land Conveyance Appraisal Note, House Floor Amendment No. 1 (Dept. of Transportation)

No land conveyances are included in this legislation, therefore, there are no appraisals to be filed.

State Debt Impact Note, House Floor Amendment No. 1 (Government Forecasting & Accountability)

HB 6030 (H-AM 1) would not change the amount of authorization for any type of State-issued or State-supported bond, and, therefore, would not affect the level of State indebtedness.

Correctional Note (Dept of Corrections)

This bill has no fiscal or population impact on the Department of Corrections.

Correctional Note, House Floor Amendment No. 1 (Dept of Corrections)

This bill has no fiscal or population impact on the Department of Corrections.

Fiscal Note, House Floor Amendment No. 1 (State Universities Retirement System)

HB 6030 (H-AM 1) does not impose any additional costs on the State Universities Retirement System, as the System already complies with the requirements of the legislation. Further, to the extent that access to the State vital records granted in HB 6030 (H-AM1) enables the System to better identify and recoup overpaid amounts, it will result in a net positive impact to the System.

Pension Note, House Floor Amendment No. 1 (Government Forecasting & Accountability)

The fiscal impact of HB 6030 (H-AM 1) would be presumably minimal but confined to administrative expenses as every pension fund or retirement system implements a process to track down deceased annuitants.

Judicial Note (Admin Office of the Illinois Courts)

This bill would neither increase nor decrease the number of judges needed in the State.

Senate Floor Amendment No. 1

Provides that any information contained in the vital records shall be made available at no cost to any pension fund or retirement system under the Illinois Pension Code for administrative purposes.

HB 06128 Rep. Linda Chapa LaVia, Kelly M. Burke, Lou Lang and Jay Hoffman

105 ILCS 5/21B-20

Amends the educator licensure provisions of the School Code. Allows persons who have completed a comparable preparation program in another state to earn a Professional Educator License. Requires that certain required testing under the Code for applicants for a Professional Educator License who are holders of an Educator License with Stipulation includes an evidence-based assessment of teacher effectiveness, approved by the State Superintendent of Education in consultation with the State Educator Preparation and Licensure Board, and requires that testing to be completed by the end of the second year of employment as a teacher of record. Requires applicants for an Educator License with Stipulations to satisfy the requirements for a Professional Educator License.

House Committee Amendment No. 1

Adds reference to:

105 ILCS 5/21B-30

Replaces everything after the enacting clause with provisions of the introduced bill with the following changes: Provides that one requirement to gain a Professional Educator License is for a person to have successfully completed an approved educator preparation program and be recommended for licensure by the institution offering the approved educator preparation program in Illinois or a comparable preparation program in another state (rather than by an Illinois institution offering the educator preparation program or comparable preparation program in another state). Provides that a second requirement includes, for a first endorsement in a teaching field, successful completion of an evidence-based assessment of teacher effectiveness within the first 2 years of employment as a teacher of record with an Educator License with Stipulations (rather than successful completion of an evidence-based assessment of teacher effectiveness completed by the end of the second year of employment as a teacher of record). Provides that an individual with an Educator License with Stipulations who meets certain requirements, including an evidence-based assessment of teacher effectiveness within the first 2 years of employment as a teacher of record, shall be issued a Professional Educator License. Further amends the School Code. Includes candidates completing teacher preparation programs out-of-state with respect to passing an evidence-based assessment of teacher effectiveness. Makes other changes. Adds an immediate effective date.

30 ILCS 805/8.40 new

Amends the Illinois Pension Code. In the Cook County Article, deletes a restrictive date in a provision concerning establishing credit for military service. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

Pension Note (Government Forecasting & Accountability)

The fiscal impact of HB 6130 cannot be determined as the number of employees who will apply for the military service offered by this bill is unknown. According to officials with Cook County, as many as 30% of recently hired employees at the Cook County Jail have military service that would allow them to qualify for the additional service credit under the provisions of this bill, provided they work the requisite number of years and make the required payments. Higher rates of participation than those outlined in the Comments Section below could lead to additional costs to the pension fund. An actuarial cost study that contemplates several different rates of participation would be needed to assess the potential fiscal impact of HB 6130.

20 ILCS 2630/5.2

Amends the Criminal Identification Act. Permits the sealing of all felony convictions, except Class X felonies and except certain excluded offenses. Provides that the expungement of records that resulted in a successful completion of the supervision or qualified probation may be expunged after satisfactory termination of the supervision or probation (rather than after 2 or 5 years following satisfactory termination of the supervision or probation).

House Committee Amendment No. 1

Replaces everything after the enacting clause. Amends the Criminal Identification Act. Deletes provision that a petitioner who petitions the circuit court to expunge the records of his or her arrests and charges not initiated by arrest must have never been convicted of a criminal offense. Provides that no fee shall be required to be paid by the petitioner if the records sought to be expunged or sealed were arrests resulting in release without charging or arrests or charges not initiated by arrest resulting in acquittal, dismissal, or conviction when the conviction was reversed or vacated, except the sealing or expungement of records of minor traffic offenses.

Fiscal Note, House Committee Amendment No. 1 ()

House Bill 6328 (H-AM 1) would eliminate fees for expungements and sealing of records. Also, approximately 1.14 million additional people would become eligible to expunge their records under this bill. In FYI5, $527,880 in revenue was collected from associated fees. As written, this bill would eliminate that revenue stream which partially funds the personal services of ten employees, a total cost of approximately $1.015 million when benefits are included. Due to the increase in eligibility, an additional ten employees would be necessary at an approximate cost of $1.015 million . These services would be performed with no identified funding source, requiring the allocation of additional General Revenue funds annually in order to support the unit and related operations (approximate $2.03 million recurring annual impact to GRF).

Senate Floor Amendment No. 1

Deletes provision that a petitioner may petition the circuit court to expunge the records of his or her arrests and charges not initiated by arrest that have not resulted in a conviction, other than excluded offenses, only when the petitioner has never been convicted of a criminal offense. Provides that when a petitioner seeks to have a record of arrest expunged under this Section, and the offender has been convicted of a criminal offense, the State's Attorney may object to the expungement on the grounds that the records contain specific relevant information aside from the mere fact of the arrest. Deletes provision that the person whose records are to be expunged shall pay the clerk of the circuit court a fee equivalent to the cost associated with expungement of records by the clerk and the Department of State Police. Provides that no fee shall be required for filing a petition for expungement or sealing if the petitioner has obtained a court order waiving fees under Supreme Court Rule 298 or it is otherwise waived. Provides that for a period of one year from the effective date of the amendatory Act or until January 1, 2018, whichever is later, in a county of 3,000,000 or more inhabitants, no fee shall be required to be paid by a petitioner if the records sought to be expunged or sealed were arrests resulting in release without charging or arrests or charges not initiated by arrest resulting in acquittal, dismissal, or conviction when the conviction was reversed or vacated, unless excluded. There would be no additional workload on the State as a result of this Amendment. There is no fiscal impact on the State General Revenue Fund; the fiscal impact on the state is to ensure that the Public Utility Fund is self-supporting by ensuring adequate revenues to pay expenses.

Apr 19 16 H Resolution Adopted 066-041-000

HR 01023 Rep. Christine Winger-Michael P. McAuliffe and Camille Y. Lilly

Urges the Chicago Department of Aviation to develop a more comprehensive, aggressive Fly Quiet program, including the development of a Continuous Descent Approach, a review of Noise Abatement Department Procedures, the act of maintaining at least 2 operating runways and leaving a third runway open during Fly Quiet hours, including at least one diagonal runway, and the operating use of a Runway Rotation Plan, to disperse airport noise effects during Fly Quiet hours. Urges the Chicago Department of Aviation to revise and strengthen the Fly Quiet Program Manual and operating procedures to create a pathway toward partial compliance with Fly Quiet during non-optimal weather conditions, and better familiarity between air traffic controllers and Fly Quiet principles. Recommends that the Fly Quiet Program Manual should be studied and revised at regular, periodic intervals; these reviews should include, but not be limited to, the assessment of departure paths and headings from O'Hare's newest runways and determine the best runway configurations, with the goal of directing flights over less-populated areas and reducing population impacts. Urges that the stakeholders should work together to study and implement Fly Quiet Program Manual voluntary operating procedures outside of normal Fly Quiet hours. Urges the Chicago Department of Aviation to make every effort to work with its private partners to discourage and phase down the use of older and noisier aircraft, including but not limited to the MD-80 and DC-10 aircraft, on a 24/7 basis but especially during Fly Quiet hours. Urges the Chicago Department of Aviation to enhance the report card program to measure and publicly report on the noise mitigation performance metrics posted by airlines and air cargo operators throughout the 24/7 day, but especially with respect to operations during Fly Quiet hours.

Commends the generation of new CNEL data as a way for the communities around O'Hare International Airport to better understand the impact of airport noise on their communities and quality of life. Commends the City of Chicago for supporting P.A. 99-202 and calls upon it to continue to take steps to implement the law and generate the data mandated by this Public Act. Calls upon the Federal Aviation Administration to assist the City of Chicago in the implementation of P.A. 99-202, including the siting, re-siting, and re-equipping of noise monitoring stations, and the generation and publication of data generated by these stations in conformity with CNEL professional standards. Re-affirms the noise contour maps that cover areas surrounding O'Hare Airport, and describes that the impacts of noise upon these communities, should be based upon the best and newest possible data and technology. Calls upon the FAA to use new CNEL data to revisit the existing noise contour maps that cover areas surrounding O'Hare Airport, and to promptly redraw these maps as new airport noise data is submitted.

May 12 16 S Resolution Adopted

SR 01553 Sen. Laura M. Murphy and John G. Mulroe

Urges the Chicago Department of Aviation to develop a more comprehensive, aggressive Fly Quiet program, including the development of a Continuous Descent Approach, a review of Noise Abatement Department Procedures, the act of maintaining at least 2 operating runways and leaving a third runway open during Fly Quiet hours, including at least one diagonal runway, and the operating use of a Runway Rotation Plan, to disperse airport noise effects during Fly Quiet hours. Urges the Chicago Department of Aviation to revise and strengthen the Fly Quiet Program Manual and operating procedures to create a pathway toward partial compliance with Fly Quiet during non-optimal weather conditions, and better familiarity between air traffic controllers and Fly Quiet principles. Recommends that the Fly Quiet Program Manual should be studied and revised at regular, periodic intervals; these reviews should include, but not be limited to, the assessment of departure paths and headings from O'Hare's newest runways and determine the best runway configurations, with the goal of directing flights over less-populated areas and reducing population impacts. Urges that the stakeholders should work together to study and implement Fly Quiet Program Manual voluntary operating procedures outside of normal Fly Quiet hours. Urges the Chicago Department of Aviation to make every effort to work with its private partners to discourage and phase down the use of older and noisier aircraft, including but not limited to the MD-80 and DC-10 aircraft, on a 24/7 basis but especially during Fly Quiet hours. Urges the Chicago Department of Aviation to enhance the report card program to measure and publicly report on the noise mitigation performance metrics posted by airlines and air cargo operators throughout the 24/7 day, but especially with respect to operations during Fly Quiet hours.
