20 ILCS 2310/2310-431 new

Amends the Department of Public Health Powers and Duties Law of the Civil Administrative Code of Illinois. Requires the Department of Public Health to establish women's health clinics throughout the State to provide affordable health care for women. Requires the services provided at the women's health clinic to be offered at an affordable price and to include specified services, including women's health examinations, pregnancy confirmation, prenatal care, labor and delivery services, postpartum care, family planning examinations and birth control services, and care for sexually transmitted diseases and infections.

FISCAL NOTE (Dept. of Public Health)

The legislation does not specify the total number or geographic locations of women's health clinics so there is no way to calculate the costs for the State to establish facilities directed to provide the following services: annual women's health examinations, pregnancy confirmation services, prenatal care, labor and delivery provided by an obstetrician, postpartum care and support, family planning services, sexually transmitted disease care, doulas and childbirth consultants and childbirth education and breastfeeding care. The best example to look at is federally qualified health centers (FQHCs), where all of this care is already provided, except for labor and delivery (which needs to be done at a hospital due to the need for surgical/anesthesia services). According to the federal government, the costs of FQHCs in Illinois in 2017 were $968,572,482. This figure does not include the costs for construction or obtaining building spaces, or any of

the costs for the more costly care involving child birth, including surgical care, infant resuscitation teams, etc.

LAND CONVEYANCE APPRAISAL NOTE (Dept. of Transportation)

No land conveyances are included in this bill; therefore, there are no appraisals to be filed.

STATE DEBT IMPACT NOTE (Government Forecasting & Accountability)

This bill would not change the amount of authorization for any type of State-issued or State-supported bond, and, therefore, would not affect the level of State indebtedness.

PENSION NOTE (Government Forecasting & Accountability)

HB 6 amends the Department of Public Health Powers and Duties Law of the Civil Administrative Code in a way that does not impact any State pension fund.

CORRECTIONAL NOTE (Dept of Corrections)

There is no fiscal or population impact on the Department.

JUDICIAL NOTE (Admin Office of the Illinois Courts)

This legislation would neither increase nor decrease the number of judges needed in the State of Illinois.

BALANCED BUDGET NOTE (Office of Management and Budget)

Please be advised that the Balanced Budget Note Act does not apply to this bill, as it is not a supplemental appropriation that increases or decreases appropriations. Under the Act, a balanced budget note must be prepared only for bills that change a general funds appropriation for the fiscal year in which the new bill is enacted.

HOUSING AFFORDABILITY IMPACT NOTE (Housing Development Authority)

This bill will have no effect on the cost of constructing, purchasing, owning, or selling a single-family residence.

STATE MANDATES FISCAL NOTE (Dept. of Commerce & Economic Opportunity)

This bill does not create a State mandate.

HOME RULE NOTE (Dept. of Commerce & Economic Opportunity)

This bill does not pre-empt home rule authority.

35 ILCS 5/901 from Ch. 120, par. 9-901

Amends the Illinois Income Tax Act. Provides that, from February 1, 2020 through January 31, 2021, the amount transferred from the General Revenue Fund to the Local Government Distributive Fund shall be: (i) 8.5% of the net revenue realized from the tax imposed on individuals, trusts, and estates, and (ii) 9.355% of the net revenue realized from the tax imposed on corporations. Provides that, from February 1, 2021 through January 31, 2022, the amount transferred from the General Revenue Fund to the Local Government Distributive Fund shall be: (i) 9% of the net revenue realized from the tax imposed on individuals, trusts, and estates, and (ii) 9.57% of the net revenue realized from the tax imposed on corporations. Provides that, from February 1, 2022 through January 31, 2023, the amount transferred from the General Revenue Fund to the Local Government Distributive Fund shall be: (i) 9.5% of the net revenue realized from the tax imposed on individuals, trusts, and estates, and (ii) 9.785% of the net revenue realized from the tax imposed on corporations. Provides that, beginning on February 1, 2023, the Treasurer shall transfer each month from the General Revenue Fund to the Local Government Distributive Fund an amount equal to 10% of the net revenue realized from the tax imposed on individuals, trusts, estates, and corporations during the preceding month. Effective immediately.

FISCAL NOTE (Dept. of Revenue)

Although increasing the Local Government Distributive Fund (LGDF) diversion rate would have no effect on gross corporate or individual income taxes, there would be a decrease to the amount deposited into the General Revenue Fund and a corresponding increase to the amount deposited into the LGDF. Because the diversion rate would increase in February of each calendar year for four consecutive years beginning in 2020, the additional amount of money deposited into the LGDF would increase gradually for each of the next several fiscal years.

310 ILCS 10/25 from Ch. 67 1/2, par. 25

Amends the Housing Authorities Act. In a provision permitting a Housing Authority to refuse to certify or recertify applicants, current tenants, or other household members who have been convicted of a criminal offense relating to the sale or distribution of a controlled substance, provides that prior to refusing to certify or recertify such a person, the Authority shall make an individualized assessment and determine whether it is reasonable to conclude that the applicant, current tenant, or other household member would constitute a threat to those in the community where the applicant, current tenant, or other household member would reside; or whether it is reasonable to conclude that the applicant, current tenant, or other household member would otherwise engage in other unlawful activities in that community. Provides that during the individualized assessment, the Authority shall consider all mitigating circumstances, including, but not limited to: the nature of the crime; the time elapsed between the date of conviction and the date of certification or recertification; the applicant's, tenant's, or other household member's background; the incentive to litigate the criminal matter; and any evidence demonstrating rehabilitation. Requires the Authority to provide notice to the applicant, current tenant, or other household member that he or she may be denied certification or recertification because of a criminal conviction and that he or she has the right to an impartial hearing to demonstrate that he or she should not be denied certification or recertification because of his or her particular circumstances.

Amends the Downstate Public Transportation Act, the Metropolitan Transit Authority Act, the Local Mass Transit District Act, and the Regional Transportation Authority Act. Provides for free fares for veterans with disabilities, reduced fares for other veterans, and free fares for specified high school students on days when school is in session on public transportation. Provides for a continuing appropriation beginning in Fiscal Year 2020 to cover the free and reduced fares. Effective immediately.

FISCAL NOTE (Dept. of Transportation)

RTA currently has a Free & Reduced Fare program for seniors, students, and disabled. IDOT subsidizes $17.5 million out of the road fund (approx. 15% of the total proposed losses in revenue). IDOT does not have access to ridership numbers so is unable to project how the proposed legislation that calls for free rides for seniors and veterans with 70% disability, half fares for veterans with 30-70% disability, and certain high school students who meet eligibility requirements would increase the costs. Many veterans might take advantage of this program. Estimates for projected fare losses to include additional categories of ridership will need to be provided by the service boards. Collectively, the estimated FY19 revenue losses to the RTA attributable to eligible free and reduced fares is approximately $113 million. Actual revenue losses to the service boards to provide additional fare reductions will significantly increase the current amount from $113 million in FY 19. To reimburse the RTA (service boards) 100% of the proposed revenue losses that includes don't include that additional categories of ridership will take at least $95.5 million. The Road Fund does not have the cash. For the Downstate Transits Districts, the data needed to provide a fiscal cost is not available. Most of the recipients have no data to support a fact-based estimation of financial impacts. Disabled veterans covered in the new law, for example, are riding under the existing disabled free ride program but are not tracked separately or are using VA-sponsored transportation. Unfortunately, there are too many unknowns to speculate on impacts to ridership, service delivery, and the associated financial implications. Information that we have extrapolated provides an estimated financial implication totaling $4,698,498. We do not have much confidence in that number. The Road Fund does not have the cash to support this program.

Amends the Title Insurance Act. In provisions concerning choice of title insurance company, provides that it is the public policy of the State that parties to a contract for the sale of residential real property who are obligated to pay for certain products and services related to title insurance (rather than title insurance) have the right to also choose the independent escrowee that will provide those products and services. Makes conforming changes. Provides that for a county with a population not less than 500,000, a transaction for the sale and purchase or residential real property, the title insurance company issuing the owner's title insurance policy shall issue the lender's title insurance policy for that transaction if the policy is required by the lender. Provides an exception to that if the buyer and seller agree otherwise or the buyer or seller is offered a discount of fees as an inducement to split the title insurance policies, unless the title insurance company issuing the owner's policy agrees to offer the same discount of fees.

Amends the State Finance Act and the Charter Schools Law of the School Code. Provides that on July 1, 2020, the State Charter School Commission is abolished and the terms of all members end. Provides that all of the powers, duties, assets, liabilities, contracts, property, records, and pending business of the Commission are transferred to the State Board of Education on that date. Provides for transfer of authorization to a local school board or boards. Makes related changes. Removes the appeal process, and provides that final decisions of a local school board are subject to judicial review under the Administrative Review Law.

STATE MANDATES FISCAL NOTE (Dept. of Commerce & Economic Opportunity)
This bill does not create a State mandate
FISCAL NOTE (State Board of Education)
HB 2100 will result in a state fiscal impact of $460,000 based on a net reduction of $840,000 in state expenditures and a reduction in $1.3 million in state revenue beginning in FY 2021.

HOUSE FLOOR AMENDMENT NO. 3

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. Removes a provision requiring a charter school whose authorization has been transferred to the State Board of Education to, as soon as practicable after July 1, 2020, seek transfer of authorization to a local school board or boards for the remainder of the charter school's current term. Provides that at the end of its charter term, a charter school may (rather than must) reapply to the board or boards for authorization. Removes provisions allowing a charter applicant to submit a charter school proposal to the State Board if a local school board fails to hold a public meeting to obtain information or vote on the proposal, fails to grant or deny the proposal, or votes to deny the proposal (including because of the complexities of joint administration with another school district). Provides that no local school board may

arbitrarily or capriciously revoke or not renew a charter. Provides that, except for extenuating circumstances, if a local school board revokes or does not renew a charter, it must ensure that all students currently enrolled in the charter school are placed in schools that are higher performing than that charter school. Provides that in determining whether extenuating circumstances exist, a local school board must detail, by clear and convincing evidence, that factors unrelated to the charter school's accountability designation outweigh the charter school's academic performance.

HOUSE FLOOR AMENDMENT NO. 4

Provides that, beginning on July 1, 2020, the State Board of Education may charge a charter school that it authorizes a fee not to exceed 3% of the revenue provided to the school to be used exclusively for covering the cost of authorizing activities; specifies what the authorizing activities may include. Provides that no school board may revoke or not renew a charter unless it determines that doing so is in the best interests of the students currently enrolled in the charter school (rather than arbitrarily or capriciously revoke or not renew a charter). Provides that if a local school board revokes or does not renew a charter, it must ensure that all students currently enrolled in the charter school are offered placement (rather than placed) in schools that are higher performing than that charter school, as defined in the State's federal Every Student Succeeds Act accountability plan, and that they have reasonable options for transportation to those schools. Provides that the State Board may reverse a local school board's decision to not renew a charter if the State Board finds that the charter school (i) is in compliance with the Charter Schools Article of the School Code and (ii) is in the best interests of the students it is designed to serve. Provides that final decisions of the State Board shall be subject to judicial renew under the Administrative Review Law. Provides that if the State Board reverses the local school board's decision to not renew a charter, the State Board shall act as the authorized chartering entity.

Amends the Illinois Vehicle Code. Deletes language allowing the Department of Transportation to designate streets or highways in the system of State highways as Class III highways and makes changes governing the designation of Class II highways. Deletes language regarding: the maximum length of vehicles on all non-State highways; and the highways that vehicles not exceeding 65 feet in overall length are allowed to access. Provides that combinations of vehicles over 65 feet in length with no overall length limitation are allowed certain access if there is no sign prohibiting access and the route is not being used as a thoroughfare between Class I or Class II highways. Provides that the maximum length limitation on non-designated highways for a truck tractor in combination with a semitrailer is 65 feet overall dimension and 60 feet overall dimension for a truck tractor-semitrailer-trailer or truck tractor semitrailer-semitrailer. Provides that length limitations do not apply on legal holidays and for a tow truck in combination with a disabled vehicle or combination of disabled vehicles. Provides that a unit of local government shall affirm to the Department if it has no Class II designated truck routes. Provides that units of local government may report to the Department, and the Department shall post on its website, any limitations prohibiting the operation of vehicles imposed by ordinance or resolution in the unit of local government's non-designated highway system. Provides that, to be effective, an ordinance or resolution designating a Class II roadway need not require that signs be erected, but the designation shall be reported to the Department. Repeals a provision that requires local units of government to report to the Department all preferred truck routes, designated truck route networks, or whether there are no such truck routes.

HOUSE COMMITTEE AMENDMENT NO. 1

Requires the Roundtable on Educational Opportunity and Development to, in addition to other areas, study the ways to expand educational opportunities and sources of private funding for students by (i) developing a before-school, in-school, or after-school drama therapy program that is designed for vulnerable youth with histories of exposure to familial and community violence, school bullying, intolerance or hate crimes, maltreatment or neglect, disrupted caregiving, or any other life adversities and that focuses on the core components of complex trauma intervention, including, but not limited to, a student's safety, self-regulation, healthy attachments, discovery and development of his or her identity, self-worth, esteem, and competency and (ii) developing a school model for students in kindergarten through grade 6 that integrates an identity-affirming pedagogy with a rigorous, intentional curriculum that utilizes a no-nonsense nurturing framework and prioritizes an arts education.

FISCAL NOTE, HOUSE COMMITTEE AMENDMENT NO. 1 (State Board of Education)

House Bill 2549, with House Amendment 1, is estimated to have a fiscal impact of up to $1.1 million on the Illinois State Board of Education's (ISBE) budget. ISBE estimates that approximately $100,000 will be needed for administrative costs to fund one staff person to support and assist the Roundtable on Educational Opportunity and Development and all school districts and students wishing to utilize these opportunities. For purposes of this fiscal note, it is assumed that $1.1 million will be deposited into the new Educational Opportunity and Development Fund to promote and share opportunities through regional programming and professional learning supports to all school districts based on recommendations and priorities established by the Roundtable including the $100,000 in administrative costs.

55 ILCS 5/3-4013 new
Amends the Public Defender and Appointed Counsel Division of the Counties Code. Creates the Public Defender Quality Defense Task Force. Provides that the Task Force is established to: (i) examine the current caseload and determine the optimal caseload for public defenders in the State; (ii) examine the quality of legal services being offered to defendants by public defenders of the State; and (iii) make recommendations to improve the caseload of public defenders and quality of legal services offered by public defenders. Provides that the Task Force shall hold a minimum of 2 public hearings and at other times of its choosing. Provides that the Task Force shall prepare a report that summarizes its work and makes recommendations resulting from its study to the General Assembly and Governor no later than December 31, 2020. Repeals the provisions on December 31, 2021. Effective immediately.
FISCAL NOTE (Office of the State Appellate Defender)
If the only responsibility to the Agency would be to provide space for meetings, the cost would be minimal because meetings could be held in our Chicago or Springfield office. If the Agency was responsible for administrative costs, travel reimbursement for board members, preparation of meeting materials or research and analysis, the cost could be significantly more.
HOUSE FLOOR AMENDMENT NO. 1
Removes a requirement that the Governor appoint at least one Task Force member from the Legal Resources Division of the Office of the Cook County Public Defender. Provides that the Governor shall appoint 5 (rather than 3) public defenders or assistant public defenders to the Task Force from 5 (rather than 3) counties other than Cook County.

New Act

Creates the Safe Patient Limits Act. Provides the maximum number of patients that may be assigned to a registered nurse in specified situations. Provides that nothing shall preclude a facility from assigning fewer patients to a registered nurse than the limits provided in Act. Provides that nothing in the Act precludes the use of patient acuity systems consistent with the Nurse Staffing by Patient Acuity Act; however, the maximum patient assignments in the Act may not be exceeded, regardless of the use and application of any patient acuity system. Provides that the Department of Public Health shall adopt rules governing the implementation and operation of the Act. Provides that all facilities shall adopt written policies and procedures for training and orientation of nursing staff and that no registered nurse shall be assigned to a nursing unit or clinical area unless that nurse has, among other things, demonstrated competence in providing care in that area. Provides that the written policies and procedures for the training and orientation of nursing staff shall require that all temporary personnel receive the same

amount and type of training and orientation that is required for permanent staff. Provides that the Act's provisions are severable.

105 ILCS 5/2-3.176 new

Amends the School Code. Requires the State Board of Education to develop child opportunity zones as a means to deliver comprehensive and coordinated social services at or near schools in this State that are related to specific community needs and that will ultimately increase student performance in schools in the community; defines "child opportunity zone". Provides that a child opportunity zone must provide a means to integrate education, health, and social services into schools and link families to school and community resources. Provides that on or before August 1, 2020, and on or before each August 1 thereafter, the State Board must submit a report to the General Assembly on the number of children and families served by a child opportunity zone program and any other outcome data for each program. Requires the State Board to adopt rules.

STATE MANDATES FISCAL NOTE (Dept. of Commerce & Economic Opportunity)
This bill does not create a State mandate.
FISCAL NOTE (State Board of Education)
HB 2668 is estimated to have a fiscal impact of $15.1 million on the General Revenue Fund budget for the Illinois State Board of Education. This assumes approximately $80,000 to $100,000 in operational costs for one position to coordinate the child opportunity zone functions with school districts, community-based providers, other state agencies, local officials, community colleges, and other adult education and workforce training providers. The position would also complete required reporting. It also assumes $15 million in grant funds would be appropriated to the Illinois State Board of

Education to make funding available to provide assistance and supports to the child opportunity zones.

HOUSE FLOOR AMENDMENT NO. 1

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. Changes the definition of "child opportunity zone" to mean a coordinated system of early childhood education (rather than a site at or near a school that provides early childhood education). Provides that, subject to appropriation, the State Board of Education, in cooperation with regional superintendents of schools, school districts, and other State and community agencies (rather than only the State Board), must develop child opportunity zones as a means to deliver comprehensive and coordinated social services in this State (rather than delivering them at or near schools in this State) that are related to specific community needs and that will ultimately increase student performance in schools in the community. Provides that in addition to funds appropriated by the General Assembly, the State Board may use funds appropriated by the General Assembly for other grant programs to implement child opportunity zone programs. Makes other changes.

Amends the Public Utilities Act. Provides that the Illinois Commerce Commission shall determine that proposed construction will promote the public convenience and necessity only if the utility demonstrates, among other requirements, that for construction serving a discrete area, existing customers will not be required to subsidize the cost of new facilities in excess of any refundable or nonrefundable payments by customers to be served by the new facilities. HB-3115 MUSSMAN - HURLEY - KALISH, CASSIDY AND GABEL.

New Act

Creates the Customized Employment for Individuals with Disabilities Act. Requires the Department of Human Services' Division of Rehabilitation Services to establish a 5-year Customized Employment Pilot Program that serves a minimum of 25 individuals by the second year of the Pilot Program. Provides that the Pilot Program shall include certain components, including: (1) an intensive discovery phase during which the unique needs, abilities, and interests of each program participant will be explored; (2) a customized person-centered planning process based upon information gathered during the discovery phase that involves capturing, organizing, and presenting the information in a blueprint for the job search; and (3) an employer negotiation process in which job duties and employee expectations are negotiated to align the skills and interests of each program participant to the needs of an employer. Provides that community-based agencies serving persons with intellectual or developmental disabilities shall identify and refer individuals to the Department for participation in the Pilot Program. Requires program participants to reflect the geographical, racial, ethnic, gender, and income-level diversity of the State. Contains provisions concerning data collection and reporting, administrative rules, and other matters.

HOUSE COMMITTEE AMENDMENT NO. 1

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill, but with the following changes: Provides that the purpose of the Act is to assist individuals with intellectual or developmental disabilities or similar conditions resulting in a most significant disability (rather than individuals with intellectual or developmental disabilities and complex needs). Provides that the Customized Employment Pilot Program shall be implemented through an individualized plan for employment developed by the individual with a disability and the vocational rehabilitation counselor employed by the Division of Rehabilitation Services. Provides that the individual with a disability may choose to have a personal representative participate in the development of the individualized plan for employment. Includes the State Rehabilitation Council to the list of entities the Department of Human Services is required to seek advice and recommendations from concerning the creation, operation, and administration of the Customized Employment Pilot Program.
