New Rules

■ 9-1-1 SERVICE

The DEPARTMENT OF STATE POLICE adopted 5 new Parts, all effective 5/27/16, titled Standards of Service Applicable to 9-1-1 Emergency Systems (83 IAC 1325; 40 Ill Reg 3196), Requirements for Private Business Switch Service to Comply with the Emergency Telephone System Act (83 IAC 1326; 40 Ill Reg 3232), 9-1-1 Emergency Systems Consolidation Grants (83 IAC 1327; 40 Ill Reg 3248), Standards of Service Applicable to Wireless 9-1-1 Emergency Systems (83 IAC 1328; 40 Ill Reg 3260), and Administration of the Statewide 9-1-1 Fund (83 IAC 1329; 40 Ill Reg 3272). These rules replace companion emergency rules that were effective 12/31/15. The rulemakings implement Public Act 99-6, which transfers authority to establish technical and operational rules for 9-1-1

systems under the Emergency Telephone System Act from the Illinois Commerce Commission to DSP, effective 1/1/16. Part 1325 sets requirements for operating and managing a 9-1-1 system and the standards of service that a 9-1-1 system must maintain, including: maintenance of records and reports, testing procedures, answering points, physical security, call handling procedures and outage notification. Part 1326 addresses private business switch services and their connections to public 9-1-1 systems, including requirements to enable automatic number and location identification, private answering points and call handling procedures. Part 1327 establishes an application, administration and evaluation process for State grants to defray the cost of consolidating 9-1-1

Proposed Rulemaking

DRIVER'S LICENSES

The SECRETARY OF STATE proposed amendments to Issuance of Licenses (92 IAC 1030; 40 Ill Reg 8039) abolishing issuance of permanent driver's licenses and State identification cards at SOS driver's license facilities. Instead, applicants will receive temporary licenses or IDs printed on secure paper, while the permanent license will be produced in a secure central facility and mailed to the applicant after fraud checks are completed. The amendments also allow applicants 45 days (currently, 30 days) to return to an SOS facility to have errors on a driver's license or ID corrected.

systems, as well as an appeals process for grants that are terminated for non-compliance. Part 1328 sets service standards, testing and authorization to operate wireless 9-1-1 systems. Part 1329 administers a Statewide surcharge fund to support establishment of wireless 9-1-1 systems; this Part addresses movement and allocation of monies, eligibility, duties, non-compliance, dispute resolution and other topics. Changes since 1st Notice to each of these Parts clarify various

terms and definitions. Those affected by these rulemakings include local governments and private and public telecommunication providers.

Questions/requests for copies of the 5 DSP rulemakings: Matthew R. Rentschler, DSP, 801 S. Seventh St., Suite 1000-S, Springfield IL 62703, 217/782-7658.

The ILLINOIS COMMERCE COMMISSION adopted amendments to Standards of Service Applicable to 9-1-1 Emergency Systems (83 IAC 725; 40 Ill Reg 438) effective 5/

25/16, implementing PA 99-6. Companion emergency amendments at 40 Ill Reg 961 were effective 12/31/15.
