## New Rules

### HOSPITALS

The DEPARTMENT OF PUBLIC HEALTH adopted amendments to Hospital Licensing Requirements (77 IAC 250; 41 Ill Reg 10257) and Sexual Assault Survivors Emergency Treatment Code (77 IAC 545; 41 Ill Reg 10292), both effective 11/27/17, implementing Public Act 99-454, which prohibits hospitals and other healthcare providers from billing sexual assault survivors for emergency treatment or forensic services. Both rulemakings require hospitals to provide written notice to sexual assault survivors that they should not be billed for any emergency or outpatient services and that they will receive a voucher to cover the cost of any needed follow-up care. The notice also must include phone numbers that the survivor may call if they are billed for emergency services, and the

hospital must keep a copy of the follow-up treatment voucher in the survivor's medical record. The Part 545 rulemaking also updates the definition of sexual assault to that of the Criminal Code of 2012. The Part 250 rulemaking also requires DPH to conduct an on-site inspection of any new construction, addition, or major alteration to a hospital within 15 business days after the project is completed and DPH has accepted all required certification for the project. Once the inspection is complete and the applicant has demonstrated substantial compliance, DPH has 5 business days to provide written approval for occupancy. If DPH fails to provide approval within this time frame, the project shall be deemed approved and may be occupied after any required health inspection is completed.

### ■ CHILD CARE

The DEPARTMENT OF HUMAN SERVICES proposed amendments to Child Care (89 IAC 50; 41 Ill Reg 14884) implementing Public Act 99-699, which exempts certain programs for school-age youth (e.g., after-school programs, summer camps) from licensure as day care centers. The rulemaking allows programs that serve only school-age children (ages 5-13, or up to age 18 in cases of special need) outside of school hours, and are not directly funded by the State or federal government, to receive Child Care Assistance Program (CCAP) subsidies without day care licensure if they meet staff education and training requirements outlined in the rulemaking. Staff, volunteers and

subcontractors serving programs for school-age youth must also complete appropriate background checks, including clearance from the DCFS Child Abuse and Neglect Tracking System (CANTS). Those affected by this rulemaking include municipal and non-profit agencies that operate before/after-school and summer youth programs.

### SNAP ELIGIBILITY

DHS also proposed amendments to Supplemental Nutrition Assistance Program (SNAP) (89 IAC 121; 41 Ill Reg 14898) implementing provisions of the federal Farm Bill of 2014 that expand student eligibility for SNAP to persons ages 18-49 who are enrolled at least half-time in an employment or training program offered by a community college, or are enrolled in remedial, basic adult education, literacy, or English as a Second Language courses intended to lead to employment.

### ■ ALCOHOL/DRUG TREATMENT

DHS also proposed an amendment to Alcoholism and Substance Abuse Treatment and Intervention Licenses (77 IAC 2060; 41 Ill Reg 14878) implementing a provision of Public Act 100-23, the FY18 Budget Implementation Act, that increases payment rates for licensed substance abuse treatment providers. The rulemaking states that DHS will establish payment methodologies specific to each Medicaid reimbursable service, except for those services for which provider specific rates are established such as certain residential or withdrawal management levels of care. Rate increases will be based on appropriated funds and on the need for services. Rates and rate modifications will take effect only upon approval by DHS and, for Medicaid reimbursed services, by the Department of Healthcare
