■ DAY CARE FACILITIES

The DEPARTMENT OF CHILDREN AND FAMILY SERVICES adopted amendments to Licensing Standards for Day Care Homes (89 IAC 406; 42 Ill Reg 8366), Licensing Standards for Day Care Centers (89 IAC 407; 42 Ill Reg 8369) and Licensing Standards for Group Day Care Homes (89 IAC 408; 42 Ill Reg 8372), all effective 1/1/19. These rules, which replace emergency amendments effective from 5/9/18 through 10/5/18, implement mandatory lead testing, by Illinois Environmental Protection Agency laboratories or IEPA-certified private labs, of all sources of drinking water in day care facilities built prior to 1/1/2000 that serve children up to age 6. If a facility's water tests positive for lead (2.01 parts per billion or higher), temporary and long-term mitigation plans must

be developed and submitted to DCFS within 120 days after the licensee is notified of the test results. The water must be retested within 6 months after the long-term mitigation plan is completed. Thereafter, annual retesting is required until 2 consecutive tests detect a lead level of 2.0 ppb or less. Retesting is also required if the facility changes its water source, water

A companion emergency rule, effective 11/13/18 for a maximum of 150 days, appeared in the 11/30/18 *Illinois Register* at 42 Ill Reg 21436. One program allows Tier 1 System members (State employees hired before 1/1/11) who retire prior to 6/30/21 to forgo a 3% compounded automatic annual increase (AAI) in exchange for a 1.5%, non-compounded AAI that begins on Jan. 1 following their 1st

within the facility. DCFS may also require testing if the agency suspects that the age of the building has been misrepresented, that false or altered testing results have been submitted, or that mitigation remedies have not been followed. Finally, the rulemakings require DCFS-approved lead safety training for all licensees, addressing mitigation plan strategies for positive test results and the impact of lead exposure. Since 1st Notice, DCFS has clarified the procedures and parameters for lead testing, defined "mitigation plan" and "water source", listed possible mitigation measures that can be undertaken if water tests positive for lead, and clarified that license enforcement action may be taken if a licensee fails to take "reasonable" mitigation action. Owners and operators of day care homes and day care centers are affected by these rulemakings.

Licensees who complete CE after that deadline but before the license renewal deadline (Nov. 30 of every even-numbered year for home inspectors, Dec. 31 of every even-numbered year for auctioneers) may still renew their licenses but must pay an administrative fee of \$100 for every credit hour

Provisions guaranteeing the public free access to meeting agendas, minutes of open meetings, and minutes of closed meetings that have been released by the Board are removed, but new provisions are added allowing public comment at meetings (up to 5 minutes for each person recognized by the Chairman) and allowing informal recording of meetings by any person present if this action does not interfere with the conduct or decorum of the meeting. Additionally, the rulemaking gives the CDB Executive Director and its Office of Legal Counsel authority to file a lawsuit or file an appeal without prior Board authorization if the action must be
