HOUSE RESOLUTION 561

Offered by Representative Kelly:

WHEREAS, Home fires are the leading cause of fires in the U.S., affecting civilians and first responders; and

WHEREAS, According to data compiled by the National Fire Protection Association (NFPA), of all civilian structure fire deaths, 78% occur in one- and two-family homes, with home fires causing \$8.6 billion in direct property damage each year; and

WHEREAS, According to the NFPA, residential structure fires account for 63.7% of firefighter injuries; and

WHEREAS, According to the NFPA, regarding firefighter fatalities, 53% occur while fighting structure fires, and 82% occur while fighting fires at a residential dwelling; and

WHEREAS, Home fires are deadlier today than in the past as a result of an increase in the use of unprotected lightweight construction material, open floor plans, and abundant synthetic furnishings, and these dangers are amplified when the properties contain lithium ion batteries and other emerging technologies, making homes burn faster and causing them to become deadly in two minutes or less; and

WHEREAS, The U.S. Fire Administration estimates that home fire sprinklers could save thousands of lives each year if more were installed in homes; and

WHEREAS, Fire sprinklers are a proven and cost-effective means of protecting lives and property from the threat of fire; and

WHEREAS, Fire sprinklers offer the highest degree of fire protection and are critical in saving lives and property; and

WHEREAS, A room can be engulfed in flames in less than three minutes; however, fire sprinklers can control fire and deadly smoke, saving the lives of occupants and first responders; and

WHEREAS, Residential fires without a sprinkler system have caused 3,667 injuries and 967 fatalities in Illinois since 2007; and

WHEREAS, There have been only seven injuries and zero fatalities in residential fires with sprinkler systems in Illinois since 2007; and

WHEREAS, The inclusion of fire sprinklers in local building codes and in community risk reduction plans helps support fire service resources, staffing, and budgets; when new housing stock includes sprinklers, those homes become safer, improving communities and allowing fire service resources to be directed to those at highest risk; and

WHEREAS, Stronger state and federal support of home fire sprinkler education will help address confusion and anti-code negativity and will encourage fire service advocacy in support of home fire sprinkler installation; and

WHEREAS, More installation of fire sprinklers in new homes will directly and indefinitely protect and improve communities of every size; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED THIRD GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we declare the week of May 12 through May 18, 2024 as Home Fire Sprinkler Week in the State of Illinois; and be it further

HOUSE RESOLUTION 579

Offered by Representative Evans:

WHEREAS, Illinois has the sixth highest cancer mortality in the country and is among the group of states with the largest socioeconomic, racial, ethnic, and rural disparities in stage at diagnosis, mortality, and outcomes in the nation; and

WHEREAS, The University of Illinois Cancer Center (UICC) has striven to reduce and eliminate inequalities in cancer outcomes through community-driven, scientific solutions for equitable outcomes in screening, diagnosis, treatment, and survivorship; and

WHEREAS, UICC and partners have addressed cancer disparities for more than 30 years in a variety of ways, including with basic science to identify mechanisms of disparities, in translational science to test new treatments that can eliminate disparities, and in population science to test multilevel strategies that address structural, social, and behavioral drivers of cancer disparities in communities, federally qualified health centers, and safety net settings; and

WHEREAS, UICC's demonstrated scientific excellence and capability for cancer health equity has always been centered in genuine, bidirectional relationships across community, healthcare, government, and academic sectors; and

WHEREAS, UICC is uniquely positioned to address cancer equity through outreach, practice, and science, given its Majority Minority Representation in Research, including possessing primarily minority and low-income participant representation through tissue biorepositories, clinical trials, and public health studies focused on ensuring innovations in prevention, early detection, treatment, and cures for cancer have equitable effects and access, which are made possible through quality, affordable cancer care available under the University of Illinois Hospital & Health Sciences System, from equitable, low or no-cost hereditary risk assessment and genetic services to equitable precision oncology treatments and survivorship; and

WHEREAS, UICC is committed to the expansion of its infrastructure throughout the State of Illinois, an infrastructure that is centered on eradicating disparities in cancer care access and outcomes, which leverages its application for National Cancer Institute (NCI) designation; and

WHEREAS, NCI designation is an accreditation given by the National Institutes of Health to elite U.S.-based medical and laboratory institutions to demonstrate that these institutions are leaders in addressing the nation's cancer burden through research; and

WHEREAS, NCI-designated cancer centers provide economic benefits for their communities, with the potential of over \$1 billion in economic impact, by creating thousands of middle and high-wage jobs, recruiting world-class physicians and scientists, partnering with private corporations, and attracting philanthropic donations and with the ability to secure millions of dollars in additional funding for cancer research through exclusive partnerships with the National Institutes of Health; and

WHEREAS, NCI-designated cancer centers offer significant benefits for communities, including federal funding that UICC would use for equity-driven, inclusive training and elevation of the next generation of diverse healthcare workers and researchers, providing education in STEM programs and

mentorship opportunities, and producing a diverse, stable, future healthcare workforce focused on historically underserved communities; and

WHEREAS, NCI-designated cancer centers benefit from additional funding and resources to optimize infrastructure for community outreach and engagement, including multilevel enhancements for cancer education of evidence-based information to communities, technical assistance for healthcare systems, including federally qualified health centers and safety net facilities to enhance the quality of affordable, accessible primary and specialty cancer care, and training for community members and leaders to be embedded in science as partners and decision-makers to characterize and eliminate cancer disparities; and

WHEREAS, Patients cared for by NCI-designated cancer centers have lower mortality rates, and said cancer centers are at the forefront of developing, testing, and scaling cutting-edge, novel tools, therapies, and innovations for their communities and beyond; and

WHEREAS, NCI designation for UICC would have the institution join the distinguished ranks of two existing NCI-designated cancer centers in the State of Illinois, Northwestern University and the University of Chicago; having three NCI-designated cancer centers, each with significant resources, would result in major cumulative growth and significant increases in the economic, educational, community, and health benefits for the State and its communities; and

WHEREAS, An additional NCI cancer center, unique in its focus on cancer disparities through community engagement, has significant potential to reduce cancer burden by increasing access to the continuum of quality cancer care through partnerships across the State and by the implementation of a community-to-bench model, where communities guide and partner with providers and researchers to ensure science is inspired by and reflects community needs, priorities, and strengths; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED THIRD GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we support the accreditation of the University of Illinois Cancer Center (UICC) as an additional NCI-designated cancer center in Illinois, which will be focused and driven to characterize and eliminate disparities in cancer outcomes; and be it further

RESOLVED, That a suitable copy of this resolution be delivered to the University of Illinois Cancer Center.

WHEREAS, The Centers for Disease Control and Prevention (CDC) estimates that CVD is arguably the most underappreciated public health crisis of our time; someone in the U.S. has a heart attack every 40 seconds, yet approximately 80% are preventable; and

WHEREAS, Low-density lipoprotein cholesterol (LDL-C), or "bad" cholesterol, is an easily modifiable risk factor for CVD; lower LDL-C is associated with a reduced risk of heart attack and stroke; and

WHEREAS, Heart disease is the leading cause of death in the U.S. among racial and ethnic minority populations; and

WHEREAS, The American Heart Association (AHA) has demonstrated that Hispanic Americans are at exceptionally high risk for cardiovascular disease and coronary heart disease, both of which can lead to a stroke or heart attack; and

WHEREAS, More than 80 million adults have high LDL-C; and

WHEREAS, The AHA indicates that CVD disproportionately affects minority populations; 52.3% of Hispanic males and 42.7% of Hispanic females over the age of 20 are affected by CVD; 60.1% of Black males and 58.8% of Black females 20 years of age and older have CVD; and

WHEREAS, A study published in the American Journal of Preventative Cardiology found cholesterol testing, an important preventive measure for reducing the risk of cardiovascular disease, declined during the COVID pandemic; and

WHEREAS, The resources needed to bend the curve in CVD exist, yet 71% of hypercholesterolemia patients at high risk of a CV event never achieve recommended LDL-C treatment guideline thresholds; and

WHEREAS, The LDL-C Action Summit, a consortium of the nation's leading cardiovascular stakeholder groups, seeks to cut cardiovascular events in half by 2030; and

HOUSE RESOLUTION 582

Offered by Representative Delgado:

WHEREAS, The Illinois Supreme Court administers the State's legal system, regulates the legal profession, and seeks to foster a diverse and inclusive legal system; and

WHEREAS, Despite more and more LGBTQ+ people and people living with HIV who are living as their authentic selves, the Illinois Supreme Court does not have a formal education requirement for attorneys, judges, and courtroom staff to be aware of and meet the social and cultural needs of LGBTQ+ communities and people living with HIV; and

WHEREAS, In 2023, more than 600 anti-LGBTQ+ bills were introduced in statehouses across the country, including initiatives to criminalize healthcare for trans individuals, to create licenses to discriminate against LGBTQ+ families, and to deny LGBTQ+ students the opportunity to experience the stories of people like themselves, and such anti-LGBTQ+ bills are contrary to the values of the State of Illinois; and

WHEREAS, As LGBTQ+ people and families visit Illinois to access reproductive healthcare and gender-affirming care or move to Illinois in order to escape the oppression of cruel and harsh anti-LGBTQ+ regimes in other states, attorneys, judges, and courtroom staff in Illinois will more frequently come into contact with and represent LGBTQ+ people who need legal services to defend their rights, freedom, and bodily autonomy; and

WHEREAS, The Movement Advancement Project's August 2016 report, entitled Unjust: How the Broken Criminal Justice System Fails LGBT People of Color, wrote that "Discrimination against LGBT people, particularly LGBT people of color, is pervasive, and it infiltrates the halls of justice", and that "Judges, prosecutors, and even defense attorneys tasked with representing LGBT people often rely on misinformation, stereotypes, and inflammatory language when interacting with LGBT people"; for instance, "LGBT immigrants frequently encounter judges who are unfamiliar with the challenges facing LGBT people in other countries or who use incorrect language to refer to transgender immigrants"; and

WHEREAS, Lambda Legal's Protected and Served? 2022 report includes data from a national survey about the experiences of LGBTQ+ people and people living with HIV when in courts and courthouses; and

WHEREAS, Of survey participants who had appeared in court, 22.2% of those who identified as LGBTQ+, women, or individuals living with HIV indicated that someone in the legal profession, including judges, public defenders, prosecutors, court clerks, court security, or other court employees, made negative comments to or about them relating to sexual orientation, gender identity or expression, or HIV status; and

WHEREAS, In that same report, 30.1% of transgender participants had their gender identity inappropriately revealed in court; in particular, transgender participants of color were more likely to have their gender identity revealed in court than were those who were white; specifically, 42.9% of Indigenous trans people, 42.3% of Black trans people, 34.5% of Latinx trans people, and 23.3% of white trans people reported having their gender identity inappropriately revealed in court; and

WHEREAS, The report additionally revealed that 25.0% of people living with HIV said that their HIV status, which is private health information, was inappropriately revealed in court; and

WHEREAS, According to the 2015 US Trans Survey, 13% of respondents reported negative experiences in a court or courthouse because of being transgender; additionally, 6% of respondents reported negative experiences when accessing legal services from an attorney, a clinic, or a legal professional because of being transgender; negative experiences include being denied equal treatment or service, verbally harassed, or physically attacked because of being transgender; and

WHEREAS, Reports by the Movement Advancement Project and Lambda Legal and the US Trans Survey highlight the pervasive harassment, discrimination, and exclusion that LGBTQ+ people and people living with HIV experience in law offices, legal clinics, courts, and courthouses; this harassment, discrimination, and exclusion contribute to the distrust of the legal system by LGBTQ+ people and people living with HIV; in fact, according to Lambda Legal's survey, 32.2% of LGBTQ+ people do not trust the court system at all while only 8.5% completely trust the court system; and

WHEREAS, The Illinois Supreme Court and relevant authorities have the authority to require that attorneys, judges, and courtroom staff be trained in LGBTQ+ and HIV cultural competency as part of continuing education; having such a requirement will increase the ability of attorneys, judges, and courtroom staff to meet the social and cultural needs of a diversifying state; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED THIRD GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we urge the Illinois Supreme Court and relevant authorities to require, as a consistent part of continuing education, LGBTQ+ and HIV cultural competency education for all attorneys, judges, and courtroom staff in the State of Illinois; and be it further

(House Rule 18)

18. Referrals to Committees.

(a) All House bills and Senate bills, after being initially read by the Clerk, are automatically referred to the Rules Committee.

(b) The Rules Committee may refer any such bill before it to a standing committee or a special committee. During even-numbered years, the Rules Committee shall refer to a standing committee or a special committee only appropriation bills implementing the budget and bills deemed by the Rules Committee, by the affirmative vote of a majority of those appointed, to be of an emergency nature or to be of substantial importance to the operation of government. The Rules Committee may, at any time, however, refer the legislative measure to a standing or special committee of the House.

(e) All committee amendments, floor amendments, joint action motions for final action, conference committee reports, and motions to table committee amendments, upon filing with the Clerk, are automatically referred to the Rules Committee. The Rules Committee may refer any committee amendment to the standing committee or the special committee to which the bill or resolution it amends has been referred for its review and consideration. The Rules Committee may refer any floor amendment, joint action motion for final action, conference committee report, or motion to table a committee amendment to the House or to a standing committee or a special committee for its review and consideration. Any floor amendment, joint action motion for final action, conference committee report, or motion to table a committee amendment that is not referred to the House by, or discharged from, the Rules Committee is out of order, except that any floor amendment, joint action motion for final action, conference committee report, or motion to table a committee amendment favorably reported by, or discharged from, a standing committee or a special committee is deemed referred to the House by the Rules Committee for purposes of this Rule.

(f) The Rules Committee may at any time refer or re-refer a legislative measure from a committee to a Committee of the Whole or to any other committee. If a bill or resolution is re-referred from a standing or special committee to a Committee of the Whole or to any other committee pursuant to this Rule, any committee amendments pending in the standing or special committee shall be automatically re-referred with the bill or resolution.
