Speaker Hoffman: "The House will come to order. Members, please be in your chairs. We are honored today to have a true American hero. We shall be led in prayer today by Reverend Willard L. Fruits, Chaplin at Roosevelt-Aurora American Legion Post 84 in Aurora, Illinois. Reverend Fruits is the guest of Representative Kifowit. Members and guests are asked to refrain from starting their laptops, turn off all cell phones, and rise for the invocation and the Pledge of Allegiance. Reverend Fruits."

Reverend Fruits: "All I can say right now is saying wow. I'm 90 years old. I served in Korea. I landed in Inchon in 1951. Left a lot of good buddies there, never came back alive. Bothered me for a while. I've spent 13 months, 21 days, and 21 seconds in Korea, and I'm glad to be out of there. My father was in World War I and came through Camp Butler right here. Took his basic training in Montgomery, Alabama. I had three brothers in World War II. I was in Korea. I have a brother that served in Vietnam and two other brothers that served in stateside during those years. I had two cousins that were twins that were captured by the Germans and prisoners of war for a little over two years. I've been through a lot, but God seemed fit to bring me here. And all I can say is, wow. I'm in awe. Let me pray for you. I'm going to be using George Washington's prayer. This touches my heart. We make our earnest prayer that Thou will keep the United States in your holy protection; that Thou will incline the hearts of the citizens to peace, a spirit of subordination, and obedience to our government, and to entertain a brotherly affectionate love for one another and for their fellow

citizens. And finally that Thou would almost graciously be pleased to dispose us of all our justice to those who have served in the United States service in every branch, and we thank you for those men... men and women that did not come back. We owe them a great honor, and their families. So, I pray for them. And we just ask that you would keep them in your heart, oh Lord. And we grant that you would ask this supplication in your name, through your Lord and neighbor. Amen."

Speaker Hoffman: "Thank you, Reverend. One more round of applause for the Reverend. We will be led in the Pledge of Allegiance today by Representative Kifowit."

Kifowit - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Hoffman: "Roll Call for Attendance. Leader Greenwood is recognized to report any excused absences on the Democratic side of the aisle. Leader Greenwood."

Greenwood: "Thank you, Mr. Speaker. Let the record reflect that Representative Barbara Hernandez is excused today."

Speaker Hoffman: "Leader Welter... Leader Welter is recognized to report any excused absences on the Republican side of the aisle."

Welter: "Mr. Speaker, let the record reflect that Representative Charlie Meier is excused for the day."

Speaker Hoffman: "The record shall so reflect. Have all voted who wish? Have all voted who wish? Have all recorded themselves who wish? Mr. Clerk, please take the record. There being 113

WHEREAS, In accordance with the established tradition of the Illinois House of Representatives, it is fitting that we honor our brothers and sisters who have given their lives in service

to our country as the guardians of our long-held freedoms;
and

WHEREAS, To honor those brave souls who were sacrificed long ago or to pay tribute to the those brave men and women of today who have continued that fight for freedom, no better words have been written than the Gettysburg Address; let us now recite those words so humbly said by our 16th President, Abraham Lincoln: "Four score and seven years ago our fathers brought forth on this continent, a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field, as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But, in the larger sense, we cannot dedicate - we cannot consecrate - we cannot hallow - this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note, nor long remember what we say here, but it can never forget what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us - that from those honored dead we take increased devotion to that cause for which they gave the last full measure of devotion - that we here highly resolve that these dead shall not have died in

vain - that this nation, under God, shall have a new birth of freedom - and that government of the people, by the people, for the people, shall not perish from the earth."; and

WHEREAS, Those words from long ago still speak to the sacrifice of the brave men and women whom we now honor; it is all together fitting and appropriate that we, with heavy hearts, again accept the honor of reading the Roll Call of those American soldiers, sailors, airmen, and marines from the State of Illinois who have made the ultimate sacrifice; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED SECOND GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that a copy of this resolution be presented to the families of the fallen heroes honored on April 6, 2022."

Speaker Hoffman: "Representative Ness."

Ness: "Sings *Amazing Grace*."

(Playing of *Taps*.)

Speaker Hoffman: "Representative Swanson."

Swanson: "Thank you, Mr. Speaker. On this Memorial Day service, I'd like to recognize two of my friends I lost 14 years ago today, served in Iraq. Colonel Stephen Scott. I worked with him every day. He was from Huntsville, Alabama. He was nearing retirement, didn't have to be there, but he wanted to be there. Colonel Scott's job was to coordinate for military sales of equipment from many different nations to bring it into Iraq and then it would be issued to the Iraqi soldiers. A great friend, and a great American. He died in a Katyusha rocket attack on our fitness center on a Sunday afternoon. With him, and another soldier who I worked with, Major Wolfer.

Major Wolfer served in Iraq. He was an Army Reservist. His unit was deployed. He was doing what his country had called him to do. Served in Iraq as a transportation coordinator. I relied on Major Wolfer to help me when I needed to travel across the country, whether by Black Hawk helicopters or ground transportation in up-armored Humvees. His operation shop was maintained 24 hours a day, 7 days a week, and always was there willing to serve. Major Wolfer was from Iowa, Iowa Reserve Unit. I still make contact with his mom, who has set up a special Major Wolfer organization to keep his memory alive. And just... it's hard today because 14 years ago these men were doing what they enjoyed doing, not only serving the military, but they were in the fitness center on a Sunday afternoon. That Katyusha rocket went through that... stripped through the tin roof on the building, killed them and injured many other. But I would like to pause today to remember them as they perished this day, April 6, 2008, in Baghdad, Iraq. Thank you."

Speaker Hoffman: "The Body shall observe a moment of silence. Thank you. Representative Avelar."

Avelar: "Thank you, Mr. Speaker. Point of personal privilege."

Speaker Hoffman: "Please state your point."

Avelar: "Today, I'm honored to have with us in the chambers the Jimenez family that owns and cofounded Carnicerias Jimenez. They're actually standing right there. Hirschauer: "Thank you, Mr. Speaker. A point of personal privilege."

Speaker Hoffman: "Please state your point."

Hirschauer: "Today, we are joined in the gallery by a group of AFS international exchange high school students. They are here with leaders Rolland and Robbin Lang from Batavia and Gandi Falcon from Aurora. The 10 students attend various schools in Northern Illinois this year, including St. Charles East, with two students from Egypt and Indonesia; Geneva, with three students from Lebanon, the Philippines, and Pakistan; one student from Batavia who is from Jordan; two students from Kaneland, from Germany and Malaysia; and one student from Rockford East, from Albania. Nine of the ten students are scholarship students participating for a program of the U.S. State Department. They are required to participate in a variety of program elements, including leadership, volunteering, government study, and diversity study. We are really fortunate to have them here today to observe our lovely Memorial Day ceremony. And behalf.. on behalf of those who represent their areas, Representative Ugaste, Representative Wheeler, Representative Keicher, Representatives West and Vella, and myself, I would like to extend a warm welcome to Springfield."

Speaker Hoffman: "Please state your point."

Collins: "Thank you, Mr. Speaker. I would like for my guests in the gallery to rise. As we enter into the last 72 hours of the Legislative spring Session, I want to take a timeout to acknowledge a very special group of individuals who have been in Springfield for the last several weeks tirelessly bringing awareness to the dangers of permanent punishments. The Fully Free Campaign under the Heartland Alliance works to dismantle the laws and regulations that govern permanent punishments, which are barriers that deny or restrict rights and opportunities for people with a record long after their involvement with the criminal legal system is over. In Illinois, 3.3 million adults who have been arrested or convicted of a crime since 1979 were people of color who are mostly impacted. There are 1,189 permanent punishment laws and regulations in Illinois, mostly denying... mostly denying people from housing, education, and employment. Currently, Illinois have over 600 thousand, and I repeat, over 600 thousand people of all races, ethnicities, and backgrounds with a felony conviction on their record. Most of these individuals have paid their debt to society and are law-abiding citizens who experience everyday hardships like you and me. One of these hardships involves serving out the last wishes of a loved one or a family member who has passed on. The Families' Right to Estate Equity, which is the FREE Act, also known as House Bill 4490, removes language in the

Illinois Probate Act that prohibits anyone with a felony conviction from serving as an executor of administrator of an estate. It brings Illinois one step closer to dismantling permanent punishment constructed from years of punitive and misguided policies. The Fully Free Coalition is also advocating for the SAFER Communities Act for Illinois that will remove barriers to employment and establish a living wage job creation program up to 20 thousand formerly incarcerated workers. House Bill 3215 is Sponsored by our very own Rep. Slaughter. I want to thank each and every one of you for doing your civic duty to come to your Capitol to advocate for change. The Fully Free Campaign is based in Chicago, that has partnered organizations across the state in Peoria, Rockford, Champaign, DeKalb, Bloomington, Joliet, Aurora, and Carbondale. You represent our neighbors, family members, colleagues, and friends. We salute your work, and I look forward to getting these Bills and many more over the finish line. I'd like the chamber to join me in a round of applause and welcome them to their Capitol. Thank you."

Speaker Hoffman: "Representative Mason seeks recognition."

Carl Sandburg College is located in Galesburg, Illinois. It has 1800 students. Of the current enrollment in Carl Sandburg, 150 of those students are international students coming from all across the world to Galesburg. Galesburg, last fall, had the... was ranked in the National Junior soccer competition, and they actually... the college went to the national competition level. With me, to my far right, is Josue Bashombe. Josue is from the Congo, one of those 150 international students. He's a second-year student. He came here by himself, not with a group, but he came here by himself. He's a student worker for Diversity and Inclusion Office at Carl Sandburg College, member of Blackhawk (sic-Black) Student Association, Captain of the Man of Distinction GLOBAL IMPACT Line. This is how much he's interjected himself in the community. He's a volunteer with United Way. Volunteers with the Illinois Department of Public Health. Volunteer with Galesburg City Council, volunteering at the 30th Annual St. Pat's Mexican Fiesta, volunteering as a crew member for the Great Balloon Race pilots. Helps at the YMCA Solution at Churchill High. Help set up the West South Street Block Party, which is a big party of... a great time. Helps sets up for Galesburg's own Big Bang Boom. Help set up for Galesburg's Chamber Annual Dinner. Participates in the Freezing for Food, Annual Kiwanis 'Shop with the Kids'. Participates with the WGIL Community Food Drive, a local radio station. Semester 2021, making the honor list. This fall semester, he rose that up to a 3.77 GPA, making the dean's list. He's an outstanding member reward of the Black Student Association, fall of 2021. His goal is to be an aerospace engineer. Wow. Thank you, Josue. To my immediate right is Jasmin McDaniel. She's from Galesburg, attends Carl Sandberg College as a freshman. She's a student athlete on the volleyball team, intern and student worker for Marketing and Public Relations Office at Carl Sandburg College, vice president of the Black Student Association, vice president of the Women of Character. She helps with grade school volleyball at Churchill, coaches freshman and sophomore AAU Club Volleyball team in Galesburg, volunteers for Christmas programs and bike rides, Ride for a Safer Tomorrow to help with violence within the community, volunteer counselor for Camp Kirk, which is a special needs camp, camp counselor for volleyball camps at Christ Lutheran School over the summer. She maintains a 4.0 GPA and is on the first semester dean's list. Her current part-time work is a Walmart cashier. She's also a Chick-fil-A crew member from 2018 to 2020. Her next step after college, junior college, is to go into pre-med sports medicine and physical therapy. Welcome, Jasmin. Thank you. And if I could have Anthony Law... he's the one up there taking all the pictures. Anthony Law, he brought these young men and women here. He's a coordinator of Diversity and Inclusion Student Services at Carl Sandburg College. He's one of the greatest mentors I know of the young men and women within the community. All their community work is because his philosophy is, if you're from a community, give back to that community.

So, I know it's... we've had national Severin be a Page for the day week, so we're finishing up with that. Emersyn Clark is from united... from the Unity Christian School. She's an 8th grader. She participates in the Junior Beta Club, newspaper, history club, softball, cheerleading, volleyball, track, science fair. Her community activities are she is very active in her local church, involved in service projects through her school. She also, I appreciate this today, and she got to participate and be a part of some interesting things on the floor today as far as for veterans. She volunteers at the local cemeteries to place flags on veteran graves. Her recognition is Junior Beta Club President, high honors earned superior at her school science fair, and then she moved on to the regional science fair and participated in that. She wants to be a lawyer, and so all you lawyers listen up. She is the catcher on her softball team, so she is one tough cookie. This is Emersyn Clark from Unity Christian School. Buckner: "Thank you, Mr. Speaker. Senate Bill 3096 is a version of a Bill that we've carried for the last two or three years. What it does is it asks the Illinois Secretary of State to go through the process of creating a system and apparatus to offer digital driver's licenses in the State of Illinois. There is a study that's attached to this and a effort to understand the technology involved to do this the right way. I will be happy to answer any questions, and I urge a 'aye' vote."

It has two components that work to improve mental health in our state. The first component focuses on the expansion of instruction on how and where to find mental health resources and specialized treatment. It provides that under the Comprehensive Health Education Program curriculum for elementary and secondary schools in the state are required to discuss how and where to access mental health resources. And the second is in regards

to the Children's Mental Health Partnership and the creation of an adjunct council, a student mental health council that provides recommendations to the partnership about youth mental health. The Bill passed the Senate unanimously, and I'm happy to answer any questions. I urge an 'aye' vote."

Could you let me know... I know that you adopted the Amendment. Could you turn to page 9 of the Bill, please? And I totally understand your intention of this Bill. We know that youth mental health is something that we need to address, but I have very specific concerns as it relates to page 9 of your Bill when we're talking about this partnership and the community-based organizations that you'll engage in them."

Stoneback: "Okay."

Bourne: "When we look at line 2 through 8, I have concerns about the legality of this. Have you gotten any legal opinions on whether or not this goes against anti-discrimination laws that we have in place?"

Stoneback: "Yes. We consulted with attorneys both in the House and Senate, and they're comfortable with the language. We added, as we discussed in committee, that there will be a fourth spot for a community-based organization that is at-large, opens it up to anyone with any ethnic criteria. So, they were both comfortable with it, and I'm sure..."

Bourne: "They're comfortable with it or they're sure that it's legal?"

Stoneback: "It's... it's legal. That's my understanding."

Bourne: "Is there any precedent for this in law already?"

Stoneback: "Not sure."

Bourne: "Okay. So, my concern, I understand wanting the council to be diverse and to represent the diversity of the state, and certainly understand and respect the fact that there could be groups that need to be represented that might be more impacted by mental health issues. However, I have a major concern with putting in state statute... I think this is important for the Body to understand. I have a major concern with putting into state statute the fact that the leaders of the organizations on this shall be led by an LGBTQ identified person, a person of color, and a woman. If we were to reverse that, if there were any Republican in the country who introduced a Bill that said the organizations on this board must be led by white men, there would be an outrage the likes of which we have never seen. And yet, when you write it this way, you say it's legally okay. I want there to be diversity on this board, and I actually think that the next line I'm fine with, that the partnership shall reflect the racial, gender identification, sexual orientation, ability, socioeconomic, ethnic, and geographic diversity of this state. Totally agree with that. But our concerns in committee were the fact that it's so prescriptive in the line before that I think it gets in discriminatory language. And so, my question is, why... why be prescriptive and discriminatory when

STATE OF ILLINOIS
102nd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

100th Legislative Day

4/6/2022

that next line, I think, covers the diversity request that we would all have?"

Stoneback: "So... we discuss many times here when Bills... about childhood trauma, adverse childhood experiences, or ACEs that are potentially traumatic events that occur in childhood. And they're linked to chronic health problems, mental illness, and there is actually a new study led by researchers of Vanderbilt University Medical Center that found that 83 percent of lesbian, gay, bisexual, and queer individuals reported going through adverse childhood experiences such as sexual and emotional trauma and worse mental health when they become adults. This study was just published in February. There are also studies that support that more females than males experience ACEs in their first 18 years of life and at... the same goes for racial discrimination. So, really, the intent of this Bill is to make sure that those voices are lifted on this adjunct council. The adjunct council is adjunct and also has children, which represent a wide diversity, and the council itself represents wide diversity. We just want to make sure that those voices are heard because they are impacted and have lived experiences that really are very important to capture when discussing their mental health. But I appreciate your question, absolutely."

Bourne: "Thank you, Mr. Speaker. To the Bill."

Speaker Hoffman: "To the Bill."

Bourne: "I don't at all question the intent. I think diversity on this board is important. And had you written it, the alternative that I pro... you know, said as a hypothetical, if you had said that it must be represented by all white men, I

STATE OF ILLINOIS
102nd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

would equally be as disgusted by this legislation. Because we need to make sure that the right people are on this board and that they need to represent the youth that need the help most. But by being so prescriptive to say that these organizations shall be led by people who are... it's discriminating based on the language in the law. I appreciate the request for diversity. I echo the request for diversity. But the means by which we are doing, I think, is unprecedented in the law. I think it goes against our anti-discrimination laws. And I would ask the people in this Body to recognize the fact that we are putting something into law that if it were done the opposite way, you would say is an affront to the way that we have anti-discrimination laws in this state. Please vote 'no'."

This is the Senate version of a House Bill, 5052, that this chamber passed on March 1. Basically, what we're doing to the Loan Guarantee Program is providing a streamlined option for administering the program by allowing the Treasurer to establish one or more loan guarantee accounts with a single financial institution. And it also clarifies that the Treasurer may withdraw funds from the loan guarantee account in the event an institution fails to comply with the program. I encourage an 'aye' vote."

Harper: "I think that some of the confusion on the part of the Members was about whether or not there are racial disparities in lending."

Harper: "Racial disparities in lending."

Batinick: "Okay. And how did you clarify that?"

Harper: "I would like to clarify that by saying that there are racial disparities in lending..."

Batinick: "Okay."

Harper: "...and that's why the Treasurer has this Loan Guarantee Program to help to get to some of that."

Batinick: "Okay. Yeah, I don't agree with you on that issue. I think some of the concern that I recall is how much of this is going to be set up by JCAR and rules as opposed to the Treasurer being able to determine what organizations get the guarantee and how much control does he have versus the Joint Commission on the Administrative Rules?"

Harper: "I am not sure."

Batinick: "Okay. I think that's an important question. To the Bill. I mean..."

Speaker Hoffman: "To the Bill."

STATE OF ILLINOIS
102nd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

100th Legislative Day

4/6/2022

Office was there helping you out a little bit on the prior discussion that we had on this. And some of the concerns that we raised were valid concerns about expanding scope of the Treasurer's Office outside of what he's supposed to do, putting money at risk at behalf of the Illinois taxpayers, and the underwriting process and premiums and how well we're leveraged on that. Do you recall some of those conversations?"

Harper: "Vaguely."

Keicher: "Vaguely. I love it. All right. So, my first and most important question is, this seems to stand in the place of the Community Reinvestment Act at the federal level that's currently being visited by the Comptroller of the Currency and the fed, can you tell me how this interrelates or stands at odds with that existing program?"

Harper: "Sure. So, despite more than 40 years of the Community Reinvestment Act, racial discrimination continues in the financial industry. Federal regulators are working to modernize the CRA, both to address changes and banking operations, including new technologies as well as to make it more effective in ending discrimination. So, this program compliments the work of the CRA. It provides a tool for banks and borrowers alike to increase access to capital in communities that have been overlooked and actively discriminated against, whether for their race, ethnicity, or income level."

Keicher: "Okay. So, I appreciate that. And I agree with you, the CRA has not met up to its mission, which is exactly why the Biden administration has asked that the Comptroller of the Currency and the fed come together to rewrite and evaluate

these rules. So, tell me how this Treasurer's program is going to be different than the process and protocols that are already in place."

Harper: "For this Bill, we're just trying to make sure that this program is workable."

Keicher: "Okay. So, and that's part of the other problem, is the Treasurer's Office also indicated that they were not going to take ownership of this because they weren't doing the underwriting. Do you remember that part of the discussion, Representative?"

Harper: "No, I do not."

Keicher: "Okay. So, when we had the initial discussion with the Treasurer's Office, one of my top concerns is that we're putting at risk the money that the Treasurer is supposed to hold on behalf of Illinois taxpayer. So, right now, what he's doing is, he's saying, I'm going to take some of this money, I'm going to put it at risk in very high-risk investments that I'm allowing a bank to go ahead and decide on the underwriting for. How comfortable do you feel trusting banking institutions out there to put the Illinois taxpayer on the hook for this investment?"

Harper: "Comfortable."

Keicher: "Treasurer. How comfortable do you feel allowing the Treasurer's Office to trust banking institutions to do the right thing to satisfy what you're saying you want to satisfy? Because I've heard a lot of distrust in that process."

Harper: "I have faith in the Treasurer's Office to administer the CRA."

Keicher: "Okay. And the Treasurer's Office said that they would not be doing any independent underwriting, that this protocol would be in place and they would backstop the banker's decision on who to lend to."

Harper: "All I know is what's in the Bill, and this Bill is making sure that the Treasurer is able to administer this program."

Keicher: "Okay. Do you remember the premium that we talked about that the banking institutions would pay as an assessment in order to participate in this program?"

Harper: "No."

Keicher: "Okay. So, the Treasurer's Office said that the premium that would be paid, that they would match for this program, would be up to five percent of the loan. Okay? So, let's imagine a scenario where we have a stand-alone banking institution that the Treasurer has committed to backstop. We have 10 loans of \$100 thousand a piece totaling a million dollars of exposure on behalf of the bank. Okay? We bring in \$5 thousand for each of those loans to backstop it, so we have \$50 thousand. One of those \$100 thousand loans collapses. The Treasurer has guaranteed the note. The taxpayers of the State of Illinois are on the hook for \$50 thousand of exposure. Now, I find the program worthy and I'm very excited about what the CRA is happening at the federal level. But do you think it's worth us trusting that the Treasurer's Office is going to find these loans fine without doing the underwriting themselves as being a good fiduciary steward of the taxpayer dollars?"

Harper: "Yes. I trust the Treasurer, and I trust the CRA."

Keicher: "Okay. To the Bill, Mr. Speaker."

Speaker Hoffman: "To the Bill."

Keicher: "Sorry to get you back up. So, Ladies and Gentlemen, I think this is a very important thing that we need to decide as a Body right here. The Treasurer's Office is expanding the scope of their office, putting our taxpayer funds at risk by going into programs that are arguably already preempted by federal discussions that are ongoing. I think we take a good and judicious look at this once the Office of the Comptroller of the Currency and the fed has finished their work. Because part of that work that's being undertaken at the direction of the Biden administration is to find how we repair these disparities and actually help our black and brown communities recover and have access to capital to be successful in this country. I strongly encourage a 'no' vote. Thank you."

Speaker Hoffman: "Thank you. The Chair would like to welcome to the House Floor the Treasurer of the State of Illinois, Mr. Michael Frerichs. Seeing no one seeking further recognition, Representative Harper to close."

Harper: "I just want to say, this Loan Guarantee Program will not solve all of these issues on its own, but this program will make a difference by increasing capital for borrowers in low-income communities and communities of color. So, I am proud that the Loan Guarantee Program is actually making the market freer. The Treasurer's Office is working hard to launch this program to increase access to capital to low-income communities and communities of colors throughout the State of Illinois. This Bill merely makes technical changes to an existing statute that we passed in January of 2021. There is no opposition to this Bill. I encourage an 'aye' vote."

Haas: "Thank you, Speaker. House Joint Resolution 84 designates the section of Illinois Route 50 from intersection of North Greenwood and Fair Street to North Hobbie and Brookmont Street as 'Trooper Glenn Gagnon Memorial Highway'. Trooper Glenn Gagnon was killed in an automobile accident while pursuing a car that had passed his patrol car at 80 miles per hour on Route 54 near Kankakee. As Trooper Gagnon and his partner attempted to overtake the vehicle, they crossed into the inside lane. As they rounded the curve, an oncoming car forced the patrol car to swerve to the other lane and lose control. The car struck a tree and both Troopers were thrown from the vehicle. Trooper Gagnon was killed upon impact with the ground. His partner was injured but recovered. His end of watch was Sunday, December 28, 1952. Trooper Gagnon was born in Clifton, Illinois on October 14, 1924 to Mr. & Mrs. David Gagnon. He attended Clifton School District and graduated from Clifton High School. He served in the United States Navy in World War II. Trooper Gagnon served in the Illinois State Police for six years and was assigned to District 6. Trooper

Harrisburg, Illinois as the 'Trooper Sutton and Chief Law Memorial Highway'. In June of 1932, Trooper James Grady Sutton and Chief Daniel Law of the Harrisburg Police Department were shot and killed during an arrest. As Trooper Sutton and Chief Law were escorting three suspects in a stolen car to jail, the violators drew weapons and opened fire on the officers. The officers stopped the vehicle at Poplar and Vine Streets, directing the driver to City Hall for further questioning. Trooper Sutton stood on the left running board and Chief Law on the right running board of the vehicle as the vehicle approached City Hall. The driver accelerated, and the men in the car drew weapons, killing both officers. Trooper Sutton was struck in the chest and fell to the street near City Hall, before being shot in the head and body. Chief Law was able to cling to the vehicle for four blocks, exchanging gunfire with the suspects and killing one of them until he was finally dropped from the vehicle. Trooper Sutton died from his wounds following emergency surgery shortly after midnight. The suspect killed by Chief Law was found in the abandoned vehicle 10 miles north of Harrisburg. The other two fugitives were later captured in the State of Virginia and returned to Illinois for trial, where they received life sentences. Trooper Sutton and Chief Law were buried in adjoining plots in Sunset Lawn Cemetery in Harrisburg. Trooper Sutton was a three-year veteran of the Illinois State Police and was survived by his wife. The service and sacrifice of Trooper Sutton and Chief Law to the people of Illinois should never be forgotten, and we ask that this Resolution be adopted."

Hernandez, L.: "So, it... what it essentially does is the legislation will establish two classes of school bus driver permits to conform the Vehicle Code to the way in which the Secretary of State has been processing school bus driver permit applications. And that is... they have established a separate permit for the first division, which are those vehicles that are like minivans, Suburbans. It's essentially for 10 people and under. And then the second division are the school buses, you know, the yellow big buses, which is more than 10 folks. So, the intent of this... the legislation is to

help shorten the overall turnaround time to process applications for the bus drivers in those two divisions."

Hernandez, L.: "It was always 21."

Batinick: "And then this might be a little bit dated. It said the Secretary of State and the Illinois Association of School Boards are neutral and currently waiting position from the Regional Superintendents of Schools. Have you heard back from any of those folks?"

Hernandez, L.: "As a matter of fact, yes. Talked to the folks from the ROE and... they're the ones, actually, that conduct the training, and they're working in collaboration with ISBE to get this done."

of ghost networks and transparency. It was an initiative of the Department of Insurance. Happy to answer any questions and appreciate an 'aye' vote."

Speaker Hoffman: "Chairman Jones."

Jones: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hoffman: "She indicates she'll yield."

Jones: "Representative, this Bill has gone through a couple of iterations. Can you explain the genesis of this Bill?"

Scherer: "Yes, what it does is it codifies into law what the Department of Insurance is and should be doing. And right now it's very gray, and this will make it very clear."

Jones: "What is your legislative intent behind this Bill?"

Scherer: "So, my legislative intent... and thank you for asking that question. I want to be very clear about it. While this Bill has an immediate effective date, the Department of Insurance will work with insurance companies in a collaborative fashion to ensure the implementation of the Bill."

Jones: "And, Representative, Illinois Life and Health Insurance is against this Bill. The IHIP is against this Bill. Illinois Chamber of Commerce is against this Bill. Illinois Manufacturers' Association is against this Bill. Have you worked to remove their opposition on this Bill?"

Scherer: "Yes, I have. I've had a subject matter hearing on it. I also had a committee hearing. I've also called every single person who ever called me. Some called me back, some did not. And I also offered a stakeholder's meeting, at which we invited everyone to the table that was interested. Some showed

up, some did not. Actually, two insurance companies showed up."

Jones: "Let's talk about that subject matter hearing that started this Bill. So, this Bill didn't come through an Insurance Committee. Can you explain why it didn't go to an Insurance Committee?"

Scherer: "Yes, I can. Because the Bill was brought to me by the Department of Insurance. And I understand that something happened, that when I asked you to have it as a subject matter hearing in the Insurance Committee, it had to be canceled. And then I never heard anything more about it being rescheduled. So, it was moved to State Government because the Department of Insurance actually wrote the Bill and brought it to me as their initiative and State Government oversees the Department of Insurance. So, I felt it was very appropriate. It could have gone either way."

Jones: "So, you were truthful at all the times with everyone involved why the subject matter got canceled, correct? All your actions were truthful when you did that and had the Bill removed, the subject matter hearing removed from Insurance? And you were truthful when you had this Bill moved to the State Government Committee, even though it's an insurance Bill?"

Scherer: "Yes, I was truthful. And I just explained why, and it can go either way."

Jones: "Okay. So, Representative, can you explain how many network adequacies has the Department of Insurance done in the last five years? Do you know that answer?"

Scherer: "I don't know. I can get back with you."

Jones: "It goes to the genesis of your Bills. You're claiming that the issue that you presented to this Body dealt with a issue in your community. Can you tell me the amount of times the Department of Insurance has gone through an adequacy review? In the last five years?"

Scherer: "At least one. We just checked with the Department of Insurance, and they said at least one."

Jones: "Can you tell me..."

Scherer: "But see that's private, and we're not allowed to... that's part of... thank you for asking that because that's part of what's going on in this Bill, is that right now... I went to the Department of Insurance and said, 'There are issues between Blue Cross Blue Shield and Springfield Clinic. Are you doing an investigation?' And in my three-plus hour meeting with them, they said, 'By law right now, we can't even tell you if we're investigating them or not.' And so, I'm like, well, that is totally not fair to my constituents because I can't even go back home and tell them if you're investigating. So, that's one thing that this new Bill will do. It will give us, in the General Assembly, the authority to ask the Governor's Office if they are investigating. And now, we get to have an answer."

Jones: "So, let me get this straight. The Governor's own department can't tell you when they're investigating and can't tell you and give you numbers that you're claiming that you're not getting from the Department of Insurance. So, you filed this Bill..."

Scherer: "That is correct. While the investigation is ongoing, it is against the law for them to tell us. Now, in the new Bill, they will be able to tell us. Now, I might add that..."

Jones: "So, Representative..."

Scherer: "...there's no confidentiality being released."

Jones: "...so, Representative, if it's against the law to tell them, then why are you seeking that authority in this Bill?"

Scherer: "Because Blue Cross Blue Shield got fined almost \$400 thousand because they did settle that issue in the midst of everything that's been going on with this subject matter hearing. That's something good that came out of this, was that they did get fined \$400 thousand, almost. It was less than that, and they did pay it. They also fired their president. They also have, just today, sent a letter from Springfield Clinic to all of our constituents, 110 thousand people, saying that you might be entitled to a premium reimbursement because you have paid for premiums and you did not get your service."

Jones: "You know, Representative... can you stop the long answers, Representative? I'm trying to get to the root of this because I asked you in the beginning if you were truthful in presenting this Bill, and I asked about stakeholders invited to the meeting, and I just got four responses. And the one from the IMA, that they were never invited to a meeting to discuss how this Bill does not even provide a solution to what you're asking this Body to do. And you're asking this Body to pass a transparency Bill and allowing the Governor to have emergency rulemaking authority, and you never invited the four stakeholders that you claim on this floor to the

meeting. So, were you... did you invite the IMA? Did you invite the Life Insurance Council? And this affects them. So, for the record, did you invite them to the meeting that you claimed you did earlier?"

Scherer: "Okay. The Life Insurance Council was invited and they did attend. And I would assume that anyone who would file in opposition to a Bill would pay attention in the committee. And in the committee, our Chairman Kifowit invited all stakeholders to the meeting, and I agreed very clearly to the stakeholders meeting. We spent a lot of time trying to get it arranged so that people would show up. And if any of those people called me, I would have called them back. Not one person called me that I did not return their call and that is the God's honest truth."

Jones: "Well, Representative, it's hard... you claim that this issue started in your district. Can you tell me how many times the Department of Insurance has issued and levied fines in the last five years and what those companies that they levied fines against?"

Scherer: "They levied a fine against Blue Cross Blue Shield for network adequacy that they said was not a major change. It was a major change. You and I discussed that, Mr. Chairman, and that's why they got the fine. And they paid the fine."

Jones: "So, has Blue Cross Blue Shield the only company that's been levy-fined against? So, you're calling for the Department..."

Scherer: "For network adequacy, which is exactly why we need this Bill. We need this Bill because right now it's very gray. Right now, in some areas, it'll just say that you can fine

them whatever you want. And we don't know what kind of Governor... we see what we've been through in the past and what we're going through in the future. We don't know what these Governors are going to do. This Bill... and I'm sure you would support this too, Chairman Jones. It spells it out very clearly. You do this, this happens. Instead of this gray of, well, you can do whatever you want. I'm a teacher. When I taught, those students knew on the first day..."

Jones: "Representative."

Scherer: "...you do this, that happens."

Jones: "This Bill is not about teaching, it's about insurance. So..."

Scherer: "I'm trying to teach the people here what's going on."

Jones: "...so, circling you back to the insurance issue, Representative. I asked you, just on the last question, about how many times the Department of Insurance has levied fines. And you just mentioned Blue Cross Blue Shield. In the last five years, the Department of Insurance has done its job. This Bill is not only overkill, but this Bill doesn't solve the problem that you're seeking to resolve, Representative. And, Mr. Speaker, to the Bill."

Speaker Hoffman: "To the Bill."

Jones: "We are all down here as Committee Chairmans, and we're down here for a reason. The Representative presented a set of facts that were not truthful, that had this matter taken out of the Insurance Committee, and had this matter sent to a committee, State Government Committee, that did not even vet the Bill and bring all of the stakeholders together. This is going to have an impact, not only on the insurance industry,

but's it's requiring the Department of Insurance, if you look in the fiscal note, it's going to cost \$836 thousand. That fiscal note was just ruled inapplicable, and it applies to this Bill that was passed. It's a shame that we're doing this at this point, where we're talking about insurance and how important it is to the lives. If the Representative's true intent is to save lives, she would take this Bill out of the record, work with the stakeholders, and make sure that we have a better Bill. I would ask that Members really look at your conscience. This Bill was taken out of the Insurance Committee and not vetted properly. Not all of the stakeholders were brought to the table with this. And I would definitely ask the Members to vote 'no' on this Bill."

Speaker Hoffman: "Leader Demmer."

Demmer: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hoffman: "She indicates she'll yield."

Demmer: "Representative Scherer, thanks for the answers to the questions so far. I have one question about... I worked on the Network Advocacy and Transparency Act a few years back when we passed it. I have been dismayed over the last few years to learn that there have not been any rules filed for the implementation of that Act. But in light of recent circumstances, the administration, through the Department of Insurance, has filed rules on the Network Adequacy Transparency Act. How does this Bill interact with those rules that are currently pending before JCAR?"

Scherer: "That's supplemental to this."

Demmer: "I'm sorry?"

Scherer: "We said that we wanted... in the stakeholders meeting, this was discussed. And I do feel in my heart of hearts that because we started calling for the subject matter hearing, I said to the Department of Insurance, 'You've had five years to get the rules written. When are we going to get them?' And they said they're coming out on April 1, and they came out on March 31."

Demmer: "No, agreed. And in the last JCAR meeting, several Members of JCAR, including me, pushed the Department for offering those rules. My question is not about your heart of hearts. It's about how does this actual legislation interact with the rules that have been filed by the Department of Insurance."

Scherer: "They work hand in hand. One compliments the other."

Demmer: "How so? How so?"

Scherer: "They don't offset each other. They work together. The rules help explain what's going on, and the Bill codifies those gray areas into law."

Demmer: "So, working hand in hand... let me ask, though. This Bill that we're looking at today is not law. They cannot put rules out that don't comply with existing law. So, they've written rules to comply with the existing Network Adequacy and Transparency Act. How does this Bill change or modify or expand or limit those rules?"

Scherer: "The rules implement what's in place now, and then the new Bill will expand on... from this point going forward. So, in a way, one is retrospective and one is prospective."

Demmer: "Well, one's not retrospective. The rules that have been filed are currently pending before JCAR. They've not been... there's been no review by JCAR yet. They're out for public

comment. We're going through an established and public and transparent rulemaking process. This Bill would make a pretty significant change to rules that have not yet even been implemented. Isn't that correct?"

Scherer: "I'll give you the... if you want to consider it not retrospective, that's fine. I mean..."

Demmer: "Well, it's not retro... they have not taken effect yet."

Scherer: "...Leader Harris put this Bill into law in 2017, and they had a lot of time to do the rules. And I'm not happy that the rules weren't done."

Demmer: "I agree with you on that, but the rules are currently..."

Scherer: "So, I'll agree on the... so, we'll call it current."

Demmer: "...the rules have been offered... the rules have been offered and not yet taken effect."

Scherer: "So, we'll call that current."

Demmer: "That's right. So, that's the current. So, my ask... my question is, in the current application, how does this Bill change, modify, make unnecessary, whatever, the rules that are currently before JCAR for review?"

Scherer: "It builds on the rules that are in JCAR review right now."

Demmer: "How so?"

Scherer: "I don't know how many more times I can say it."

Demmer: "How so, though?"

Scherer: "We're trying to spell it out and codify it in law, not just put it in rules. We have people dying, and that's the elephant in the living room that nobody talks about."

Demmer: "I think people talk about that."

STATE OF ILLINOIS

Scherer: "Well, I know somebody right now dying of cancer, and I haven't heard one person on this floor say that they give two hoots about someone who's dying of cancer or a woman that's pregnant that doesn't have a doctor. And it's time we mention the elephant in the living room."

Demmer: "Yeah, Representative... Representative Scherer, I think it's a pretty long stretch to suggest that when we're asking about how rulemaking and legislation interact, that that somehow discounts a person who's dying of cancer. That is an unfair accusation and one that I think is beneath the dignity of this House. Let me pivot, though, to ask you about... as we go through this established public and transparent rulemaking process, your Bill also allows for the application of emergency rules, meaning rules that take effect immediately before any public review."

Scherer: "Yes, I can answer that."

Demmer: "Okay. So, my question on the emergency rules is, does the provision allowing for emergency rules to implement this Act sunset, or is it permanent and ongoing?"

Scherer: "Let me read the explanation and maybe that will make sense to you. It creates the authority for the Department of Insurance to adopt emergency rulemaking to update time, distance, network adequacy standards, if necessary. And here's the key words, 'based on updated federal guidelines'. So, what we're trying to do is, if the Federal Government changes the guidelines, then we are allowing emergency rulemaking on... just on that from the Governor so that the two pieces match, so there's no conflict in understanding this."

Demmer: "Forever, though. There's no expiration to the emergency rulemaking authority?"

Scherer: "We wouldn't want that because we don't know when the Federal Government is going to change. It's only when the Federal Government changes."

Demmer: "But we're talking about emergency rules that take effect immediately without any public review or public comment or input, and we're authorizing that to happen forever. Not just one time."

Scherer: "Only when the Federal Government changes the guidelines."

Demmer: "Emergency rulemaking authority is something that this Body should guard very closely and not allow agencies of the Executive Branch to make immediate... immediately effective emergency rules without any public input. We only authorize that in very limited circumstances, usually with time limitations, sometimes to enact a Bill on the initial enactment of it, and not forever. Emergency rulemaking authority is something I think this House should be very, very cautious about authorizing. The last thing I'll ask you before I wrap up is just to say, there are some items in here that require, for example, that directories be updated by insurance companies in a timely fashion. And I think that's a reasonable thing to ask for. We want to make sure that the information they're sharing is up to date and accurate so somebody knows that that's the case. The question, though, is that... insurance companies aren't the ones who are managing these employees. The providers that are part of a hospital or health care system may not update the insurance company in a

timely fashion. What obligation is there on the provider... or what opportunity is there to go to the provider to require them to notify the insurance company in a timely fashion so they can comply with their requirements?"

Scherer: "I'm going to have somebody run over this fact sheet to you because you don't have it. So, I'll ask staff to run that over to you because most of these questions are answered on this, which some of your Members do have these fact sheets. So, in answer to your question, to update the provider network directory information is part of what this Bill does on both issuers and... I'll just read it straight out. 'Strengthen statutory requirements for both issuers and providers to provide updated network directory information.' This is something we learned in the subject matter hearing. The right hand didn't know what the left hand was doing. It's like nobody knew whose job it was to update the network."

Demmer: "This is the question I'm asking you. What happens..."

Scherer: "The job... this Bill... let me finish."

Demmer: "...what happens if a provider doesn't?"

Scherer: "This Bill will take care of that problem."

Demmer: "What happens if a provider does not provide updated information to an insurer?"

Scherer: "The Department of Insurance can enforce it. They have five days."

Demmer: "The Department of Insurance enforces it against a provider how? What authority does the Department of Insurance have over an M.D. in the State of Illinois?"

Scherer: "That's when they're allowed to implement the Network Adequacy Act, once this Bill becomes law."

Demmer: "On the insurer."

Scherer: "Right now, it's just willy nilly."

Demmer: "No, on the insurer. My question is, if I'm a doctor and I change where I'm practicing, I change what my office hours are, I change the days that I'm available, whatever, I'm the doctor and I don't report that to the insurance company, what happens to me? What authority does the Department of Insurance have, not over an insurance company, but over the providers who are actually part of that network?"

Scherer: "At that point, the Department of Insurance would have the authority to work with IDFDR to enforce it."

Demmer: "Okay. So, what? I'm going to get my license revoked?"

Scherer: "The Bill doesn't say one way or the other."

Demmer: "Exactly. Exactly. The Bill doesn't have any..."

Speaker Hoffman: "Leader."

Demmer: "...real authority for enforcing that."

Scherer: "Well, if it doesn't say, then they don't have the authority to do it."

Demmer: "Mr. Speaker, to the Bill."

Speaker Hoffman: "Representative Scherer. Representative Scherer. Representative Scherer. Leader."

Demmer: "To the Bill."

Speaker Hoffman: "To the Bill."

Demmer: "Thank you, Mr. Speaker. And I think we're pointing out some of the real problems in this. We don't even have an implemented Network Adequacy Act yet, but we're finally, finally the Pritzker administration has decided to offer rules on this. We have an opportunity to go through the rulemaking process. We have public comment. We have agency

responses. We come to a bipartisan understanding of how the law will be implemented. Should it have been implemented before? I think so. I called for that. I pushed DOI to issue these rules. We're talking about making major changes to an Act that hasn't even been enacted yet and has these major holes about how the enforcement of this... provisions actually take effect. Who's responsible? Where can we hold providers accountable? Where we can hold insurance companies accountable? This Bill is not appropriate given the current circumstances we have. Let's let the rulemaking process play out. Let's enforce it through the Network Adequacy Law that we already have on the books. Thank you."

Speaker Hoffman: "Thank you. Representative Friess."

Friess: "To the Bill."

Speaker Hoffman: "To the Bill."

Friess: "I was in this subject matter hearing, and this obviously arise. Everybody knows this is a dispute between Springfield Clinic and Blue Cross Blue Shield of Illinois. This is a dispute between two private entities, that's it. It is very unfortunate that patients got caught up in this and they may have lost their OB-GYN or their cancer treatment or things of that nature, but that's what this stems from. This is a private contract dispute between two entities. Yes, insurance is maybe one of the most regulated industries in this state, but it still doesn't change the fact that this is simply a contract dispute and this is not the right way to go about this. Unfortunately, people got caught up in it. And having moved all over the United States when I was in the service, and God bless my wife, I drug her everywhere I went, we went

from provider to provider. Okay? There are other providers out there. I think this is the wrong way to go about this, and I would encourage a 'no' vote."

Speaker Hoffman: "Leader Brady."

Brady: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Hoffman: "She indicates she'll yield."

Brady: "Representative, to the previous speaker's point, are there ongoing negotiations that you're aware of between Blue Cross Blue Shield and Springfield Clinic?"

Scherer: "Yes and no. They... once the subject matter hearing came about, they did go to the table. I am not watching that. That's none of our business. I appreciate you asking the question because it's a very important question. I have been..."

Brady: "Most of mine are, but go ahead."

Scherer: "It's 'cause you're a good Rep."

Brady: "Yeah, right."

Scherer: "Okay. So, the problem is we have some insurance lobbyists that are going around to Members, not to me who's, you know, sponsoring the Bill, but to Members, and telling them that this is all about a private contract negotiation. And I am going to add another statement that is some more intent... legislative intent language. This is not about contract negotiations. I am not getting in the middle of Springfield Clinic and Blue Cross Blue Shield. This is not about contract negotiations. This Bill affects all insurance companies. And if you are an insurance company that is following the rules, honestly, this Bill doesn't even affect you. This is for the bad players who don't want to get caught with their hand in the candy jar. It's as simple as that. I

will repeat. It is not about contract negotiations. I negotiated contracts for 20 years. I know that it is not the state's business to get in between contract negotiations. This Bill came about because there were problems with bad players. And that's what caused the subject matter hearing, but that's different than what this Bill does. This Bill codifies into law the gray areas."

Brady: "Thank you very much. Back to my original question. Representative, are you aware that there's ongoing negotiations between Blue Cross Blue Shield and Springfield Clinic?"

Scherer: "There have been ongoing, but they shut down and then they pick back up. As of this exact minute, I couldn't tell you if they're at the table or not."

Brady: "Okay."

Scherer: "But I know that they... they do on and off."

Brady: "So, do you think the most immediate relief for the people that you're trying to help that are caught in the middle of this, the most immediate resolution would be for Blue Cross Blue Shield and Springfield Clinic to come to some agreement or your Bill become law?"

Scherer: "This Bill that we're talking about on the House Floor right now is not about contract negotiations."

Brady: "Well, many may see that differently, Representative, but... to the Bill."

Scherer: "There's nothing in the Bill..."

Speaker Hoffman: "To the Bill."

Brady: "Thank you very much, Representative. Just simply, Ladies and Gentlemen, if this is the contract issue going on and

there's negotiations going on, I know the Representative is well-intended here, but I don't see that being the most immediate relief to the people that are caught in the middle of this. I'll be voting 'no'. Thank you."

Speaker Hoffman: "Representative Elik."

Elik: "Thank you, Mr. Speaker. If this Bill receives adequate number of votes, I request verification."

Speaker Hoffman: "Representative Elik has requested a verification. Representative Scherer to close. I apologize. Representative Guzzardi."

Guzzardi: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hoffman: "Indicates she'll yield."

Guzzardi: "Representative Scherer, so I was not able to attend this subject matter that you held... that was held recently, excuse me, the subject matter hearing on the particular issue. Can you explain to me how the manner that you're addressing in the substance of this Bill differs from the subject that was discussed in that hearing?"

Scherer: "Yes, and I appreciate the question and being able to answer it. The subject matter hearing addressed the issues that my constituents were going through. And from that, we discovered that there are lots of problems with what's going on in the Department of Insurance that need to be codified into law. So, from that, we came up with this Bill that will actually codify getting rid of the gray areas to help all of our constituents across the whole State of Illinois, not just the people that live here in Springfield and Decatur and Effingham and Peoria and Champaign and Mattoon."

Guzzardi: "All right. And I think that's an important point to sort of zero in on a little bit 'cause some of the comments from the other side of the aisle seem to be suggesting that your Bill is some manner of special legislation or trying to sort of intervene in the particulars of a contract debate between two specific entities. Is it your representation that your Bill does that or that your Bill applies more generally?"

Scherer: "The Bill is completely a general Bill for all insurance companies. Never once is Springfield Clinic mentioned. Never once is Blue Cross mentioned. People are confused because they keep mixing them up."

Guzzardi: "I'm sorry. Who keeps mixing what up, Representative?"

Scherer: "Well, they keep mixing up the subject matter hearing with the actual Bill. And I never ever said that they were related. I don't... I don't know how that happened."

Guzzardi: "I appreciate that. No, I think it's an important clarification that this Bill isn't about the specifics of this one particular contract negotiation. And.. and, Representative, should this Bill pass, how will the insurance landscape change for customers in the State of Illinois?"

Scherer: "So, if this Bill passes, and I have on authority that the Governor will sign it into law, so then it'll go through the Senate. If this Bill passes, your constituents at home can go to bed tonight and know that you stood up for them, that you had the courage to stand up to insurance lobbyists. And we all know that's not a small thing. So, today you get a choice. See, you can either choose to be with the insurance companies or you can be with Cathy, who now has stage IV cancer, who can't get her insurance coverage, who they say

they'll give her 80-20 and instead they pay 6 percent. And now she has to worry about that while she has cancer. You can also rest at ease that your pregnant moms can have a doctor."

Guzzardi: "Thank you, Representative. To the Bill. I appreciate the work that you've been putting in on this issue. As I said, I wasn't able to attend the hearing, but I know that specific issue was aired in some depth. But I appreciate that you were able to step back from the specifics of that issue and generalize to a solution that will help people across the State of Illinois. Thank you for your hard work on this issue, Representative. I urge an 'aye' vote."

Speaker Hoffman: "Leader Batinick."

Batinick: "Thank you, Mr. Speaker. Let the record reflect that Representative Keith Sommer is excused for the rest of the night."

Speaker Hoffman: "Representative Elik, I think I had... you had asked for a verification, but I think you may've wanted to speak to the Bill as well. I apologize."

Elik: "Yes, thank you. Besides verification, I did have a couple of questions for the Sponsor. Will the Sponsor yield?"

Speaker Hoffman: "Indicates she'll yield."

Elik: "Thank you so much. Okay, Rep. Scherer, could you please review why did the Department of Insurance bring you this Bill and this language?"

Scherer: "Why did the Department of Insurance contact me?"

Department of Insurance that need to be cleared up and codified into law."

Elik: "Okay. So... so, are you saying that the Department of Insurance is asking for authority that they don't currently have but they believe there's additional authority that they need that this Bill would give them?"

Scherer: "In some parts, but not in others. Right now, it's very wide open of how much the fines would be. So, in this new law, in that regard, yes, it clearly defines what the fines would be. In other ways, they're already doing it, but they want it to be codified and clear. And like I said about if you call and ask about an investigation right now, they can't. In the new law, they can. If this Bill doesn't pass and your constituent calls you tomorrow, you're going to have to tell them... if this Bill doesn't pass, you're going to have to tell them, well, I can't call Department of Insurance and find out if they're investigating. I'm not allowed to do that legally."

Elik: "Okay. So, you mentioned the fine that they have already issued, but you also said that the law... or as it stands now is not clear. So, how did they determine that fine? What was the statutory, you know, ability that they have that allowed them to already issue that fine?"

Scherer: "They had the statutory ability already to put out a fine, but they didn't have an exact amount clearly defined in the current law."

Elik: "Okay. So, you had said that this Bill is not about that contract dispute between Springfield Clinic and Blue Cross Blue Shield. So, if it's not about that, then how is this possibly going to help the constituents that right now are

being treated for cancer or a pregnant woman looking for a new OB-GYN? How is that actually going to help them tonight when we go to bed after this Bill is voted on?"

Scherer: "Thank you for asking because that's what this is all about, Ladies and Gentlemen. Right now, this is an absolute fact, and those of you in the subject matter hearing heard this. I pointedly asked the question, how many radiation oncologists are in the network, and I was told 10 when I met with them privately. Then at the subject matter, I was told four. And so, we looked it up. And of those four, two were Springfield Clinic, who Blue Cross had terminated. So now, we're down to two. One of them was in Chicago. When you live downstate trying to get to Chicago for your chemo, it just doesn't work. And the fourth one, they could not find. So, the answer was, there were none. None. Zero radiation oncologists. If this Bill passes, they..."

Elik: "To the Bill, Mr. Speaker."

Scherer: "...can't take you premium and not provide service."

Elik: "To the Bill, Mr. Speaker."

Speaker Hoffman: "To the Bill."

Elik: "Thank you. I think it's very much worth noting that although the fiscal note was ruled inapplicable, we do actually have a fiscal impact of this Bill to the Department of Insurance. They've stated that the costs will be at least \$836 thousand just this year, multiple staffing changes that they have to make to meet this requirement. We are unclear whether any of that is in the budget or will the Department of Insurance have to cut in other areas to try to comply with

this Bill that just came up this week. I recommend a 'no' vote."

Speaker Hoffman: "The Chair would recognize, in the chamber, Attorney General Kwame Raoul has joined us. Attorney General, welcome to the chamber. Representative Scherer to close."

Scherer: "Thank you, Mr. Speaker. I want people to please note the screen, that we have Leader Flowers asked me to be chief cosponsor on this. We've got Representative Ramirez, Butler, Hamilton. So, we have Democrats on the Bill. We have Republicans on the Bill. At the end of the day, it boils down to this. Every person that's sitting in a green chair has to decide, am I on the side of my constituents or am I on the side of insurance companies. It's as easy as that. When you go home tomorrow, you can either go home and say I voted for affordable health care for you or you can say I decided we would wait another year and then maybe something would happen. And I hope that nothing happens to you in the meantime. So, you get to pick right now when you push that button. Are you picking insurance companies or are you picking your pregnant moms, your patients with cancer, the ones that have been calling me? I can't even get down the hallway with people saying, please, please pass this. My son can't get any treatments. There's no accountability to insurance companies. Why did they hire every insurance lobbyist that they could find? And half the people that don't even lobby insurance are coming out of... like ants out of the woodwork. It's not a small thing to take on insurance companies. My dad said the right thing isn't the easy thing, choose the right thing. Please vote 'yes'. I need you to vote 'yes' so that tomorrow morning

you can go home and you can tell your constituents, I voted for affordable health care. And I don't want any person in this room to go home and say, I picked an insurance company over you. How are you going to explain that? How did they build those big fancy buildings? How did the innocent and honest insurance companies keep getting screwed over by the big insurance companies? Because they take all the premiums and they build their mansions and then they leave all the other insurance companies to go out of business. Why are we down to four? There's a reason. Because our good insurance companies are being cheated because of the bad guys. And I hope to goodness people in this room have the courage to stand up to the bad guys. Because it's quite clear, tomorrow, if I want to answer who's owned by the insurance companies, guess what? I'm handing them a roll call vote and you try to explain it. I am doing everything in my power. I have talked to almost every person on this floor trying to explain to you the problem. If you just don't care, then why are you even here? Please vote 'yes'."

Speaker Hoffman: "Members, Representative Elik has requested... Elik has requested a verification. All Members will be in their chairs and vote their own switches. The question is, 'Shall House Bill 1463 pass?' All those in favor vote 'aye'; all opposed vote 'nay'. The voting is open. Mr. Clerk."

Clerk Hollman: "Representative Cassidy. Representative Conroy."

Conroy: "Yes."

Speaker Hoffman: "Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, please take the record. On this question, there are 40 voting 'yes', 21 voting 'no', 7 voting 'present'. And this question, House Bill 1463 is declared failed. The Clerk is in receipt of Motions in Writing to waive the posting requirements for several Bills. Leader Harris on the Motion."

Harris: "Mr. Speaker, I move that the posting requirements be waived so the following Bills can be heard this week in committee: House Joint Resolution 89 in Transportation: Regulation, Roads & Bridges, House Resolution 795 in Transportation: Vehicles & Safety, House Bill 4456 in Executive, House Resolution 578 in Human Services, House Resolution 592 in Human Services, House Resolution 783 in Human Services, Senate Bill 720... I'm sorry... Senate Bill 1720 in Executive, and Senate Bill 1836 in Executive."

Speaker Hoffman: "Leader Harris has moved to waive the posting requirements. All those in favor say 'aye'; all opposed 'nay'. In the opinion of the Chair, the 'ayes' have it. And the posting requirements are waived. On page 3 of the Calendar, under House Bills-Second Reading, appears House Bill 1409, Leader Flowers. Mr. Clerk, please read the Bill."

Clerk Hollman: "House Bill 1409, a Bill for an Act concerning public aid. This Bill was read a second time previously. No Committee Amendments. Floor Amendments... Floor Amendment 2 and 3 have been approved for consideration. Floor Amendment #2 is offered by Representative Flowers."

Speaker Hoffman: "Leader Flowers."

Chair, the 'ayes' have it. The Amendment is adopted. Now, Third Reading, Mr. Clerk. Please read the Bill."

Clerk Bolin: "House Bill 1409, a Bill for an Act concerning public aid. Third Reading of this House Bill."

Speaker Hoffman: "Leader Flowers on the Bill."

Flowers: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. House Bill 684 has placed a burden on the back of Medicaid consumers, rather than on the MCOs, to schedule their non-emergency transportation and to negotiate with ambulance providers to secure residential rides to critical health services. In regards to care coordination, Medicaid consumers must now call ambulance providers and coordinate their own transportation under fee-for-service. Prior to the carveout, the MCOs were able to assist heavily with the scheduling and the securing of Medicaid consumers' transportation. Many Medicaid consumers may not have the resources or are too sick to call the list of names that was given to them by ambulance providers for a ride to their appointments, expecting Medicaid consumers to secure rides on their own by bringing more confusion for the consumers and decreasing the faith in the already complex health care system that we have. This has been very exasperating for the consumers. This has been very convoluted for the consumers. And as a result, it has been a major problem. Also, House Bill 684 exposed the provider shortage that we have in regards to ambulance and the... and the ambulance services. It is recognized that there is a shortage of ambulance providers across the state. There are currently no ambulance providers willing to take residential pickups for Medicaid consumers. Unfortunately, again, House

HOUSE OF REPRESENTATIVES

Bill 684 removed all those tools that the MCOs had to secure those trips. And there is a lack of providers available, including paying a higher rate for certain trips to ensure that the consumers would have access and not place the burden back on the backs of the consumers. Disparities between the institution versus community-based care is a major problem. The lack of ambulance providers willing to do residential pickup creates a real disparity between those living in institutions who currently have access transportation and those living in the communities who cannot. For a Medicaid consumer who need transportation to get to their appointments on a regular basis, there is now an adverse incentive to stay in institutions instead of having the opportunity to live more independently in their homes. In regards to medical necessity criteria, the current Medicaid fee-for-service process for determining medically necessary excludes the vulnerable Medicaid consumers from being able to access non-emergency transportation. MCOs determined that medically necessary much sooner in the process, prior to the carveout, and applied a more wholistic approach than fee-for-service in the MCOs. The MCOs paid for trips that didn't necessarily meet the necessity, but it was an issue because it was dealing with access, such as a consumer needing a stretcher to get down the stairs or another factor related to social determinants of health. House Bill 1409 expands the fee-for-service criteria to include those factors, reimbursements for bariatric patients, and patient care transport. The ambulance association proposed language to require reimbursement for an additional base rate for two additional attendants needed for

bariatric transport as well as specialty care, inter-facilities transport, and the measures are intended to increase transportation options for the patients. Ladies and Gentlemen, the attendees for House Bill 1409 also increase the base rate for Medicare and stretcher vans to help build capacity for two attendants to assist Medicaid consumers to... Medicaid consumers in certain cases, such as picking up a bariatric patient. Low attendance rate have made it historically difficult to secure a second attendant to assist the consumers. And for that reason, we are talking about increasing the pay. The current pay for a medical car now is \$14 and a stretcher van is \$9. Both solutions are important pieces of legislation that's addressing the shortage of ambulance providers across the state and broadening the continuum of care for Medicaid consumers needing transportation to and from their appointments. There's also a BEP program in House Bill 1409. Medicaid consumers deserve access to diverse transportation providers that can rely... that they can rely on to get to and from their appointments in regards to health care. House Bill 1409 creates a grant program focused on supporting the BEP providers of Medicare and stretcher van services. Increasing provider capacity will further the goals of securing more reliable non-emergency transportation for our most vulnerable Medicaid consumers. I'll be more than happy to answer any questions you may have in regards to House Bill 1409. Thank you."

Speaker Hoffman: "Leader Batinick."

Batinick: "Thank you, Mr. Speaker. I'm going to go directly to the Bill. It's my understanding, talking to some of the people

that were in committee on my side of the aisle, that the Sponsor worked extremely hard trying to get something that was agreed upon. Right at the end of committee and after, there was some was some discussions. I guess there was some opposition from Health and Family Services. It removes their... they run on administrative rules. It removes those rules. There's a \$21 million cost. So, I think you'll see some red and green on our side of the aisle, a little Christmas time, but I just wanted to get that information out there for Members on our side. Thank you."

Speaker Hoffman: "Leader Brady."

Brady: "Thank you, Mr. Speaker. Will the Sponsor yield? Representative, very quickly, I'm a former ambulance employee myself, an attendant. And what you're referring to is routine transport, meaning trips to a hospital and nursing home, doctor's appointments, a variety of things that the ambulance provides, correct?"

Flowers: "Non-emergency, yes."

Brady: "Non-emergency transports, routine transports, as we call them. With those routine transports, your Bill is simply trying to increase the payment, via public aid, Medicaid, to the provider. Is that correct?"

Flowers: "Yes."

Brady: "Okay. Thank you very much."

Speaker Hoffman: "Representative Lewis."

Lewis: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hoffman: "She indicates she'll yield."

in Health & Human Services, on the floor. The issue today that we're voting on, does it solve the problems you've been so passionate about in all those discussions?"

Flowers: "I'm sorry. Can you please repeat yourself? I didn't hear you."

Lewis: "Okay. In Health & Human Services, I've observed you talking very passionately about this subject. Does this, what you're doing tonight, solve your passion and solve the issues that I've heard multiple times?"

Flowers: "Yes, it does and let me tell you how. So..."

Lewis: "It's okay. We don't need to belabor the point."

Flowers: "Okay. Yes."

Lewis: "I am just happy that you have finally found peace in this subject. Thank you."

Flowers: "Thank you. I appreciate that. Thank you."

Speaker Hoffman: "Final speaker, Leader Welter."

Welter: "To the Bill, Members. I know there's been some discussion on this. And, Leader Flowers, you were very diligent this Session in trying to accomplish this goal of yours. It went through the committee in which I'm the spokes on. And you knew there was some opposition there and you took the Bill back and you worked with stakeholders and you came back with a better product, and I appreciate that collaboration. I know there was a commitment made in committee today as well regarding the stretcher vans and that we will continue these discussions and negotiations to ensure that we're having the most safe transportation for these patients across the entire state. So, I will be supporting this Bill and voting in 'favor' of it."

Speaker Hoffman: "Leader Flowers to close."

Flowers: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. I just want to make a few things clear. Stretcher vans are already in use today. So, this is not something out of the ordinary. But can some more work be done on the stretcher vans? Yes, it can. In regards to HFS, I got a call from HFS. My meeting this morning was at 10:00. And at 9:45, I got a call from HFS saying that they were not pleased with the criteria for non-emergency ambulance transportation. And here, I'm reading... I'm reading from Title 89 of the Social Services, and I also have a letter here from the Department of Public Health. Now, the... the table and the definition under non-emergency in Section (a), it says to be eligible for non-emergency ambulance transportation, the services must meet the following criteria. Number one, it says, any other means of transportation, such as taxi, wheelchair, van stretcher, van, or private automobile is... is constrained... is constrained. Number two, it says, the sole purpose of the transport is not for the navigation of stairs and/or the assisting or lifting of a patient at a medical facility. Now, they're saying that that is not the sole purpose of a transportation, and we all agree. And that's the reason why in Section (b), it says, in addition to the adherence to the criteria in subsection (a), at least one of the following criteria shall be met. The criteria selected shall be supported by a patient's diagnosis, the condition or the treatment, as documented in the patient's medical record, and shall establish the need for non-emergency ambulance

Speaker Hoffman: "Leader."

That is already in the rules, and it's already in the law. And I would really appreciate your 'aye' votes for the medically ill people who need ambulatory services for their doctors appointments. Thank you."
