82ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

May 5, 1981

Speaker Ryan: "The House will be in order. The Members will please be in their seats to be led in prayer this morning or this afternoon by Pastor Johnson of the Cavalry Church in Springfield."

Father Johnson: "Our Heavenly Father, we come to You again this afternoon and we're thankful for the privilege of invoking Your presence, Your guidance, Your wisdom, and we know that Solomon told us in Proverbs that all wisdom comes from God. I pray that You would endue the Legislators of the State of Illinois with the wisdom that You would have us to have in part knowledge and direction and let those rules and laws be enacted that would be a benefit and blessing to the people of this sovereign state. We ask that You would impart and amend the wisdom and the guidance to seek Your counsel and Your faith at all times, and then we know that we shall have Your blessings upon our life, upon our state, and upon our nation. We ask these many things in Your name and for Your glory. Amen."

Speaker Ryan: "We'll be led in the Pledge today by Representative Turner."

Turner: "I Pledge Allegiance to the flag of the United States of America and to the Republic for which it stands, one nation, under God, indivisible, with liberty and justice for all."

Speaker Ryan: "Roll Call for Attendance. We have a former colleague in our midst and present Mayor, the Mayor of Cicero, and our former friend and colleague, Henry Klosak. Henry, stand up and take a bow. Take the record, Mr. Clerk. 165 Members answering the Roll, a quorum of the House is present. Committee reports."

Clerk Leone: "Representative Reilly, Chairman from the Committee on Elementary and Secondary Education, to which the

following Bills were referred action taken April 29, 1981 and reported the same back with the following recommendations: 'do pass' House Bill 293."

Speaker Ryan: "Representative Kane, do you seek recognition? It is the intent of the Chair to work straight through until 6 p.m. We're going to work mostly on the Order of Second Reading and probably all afternoon, and plan on being out of here by somewhere around 6 o'clock. Mr. Kane, do you seek recognition?"

Kane: "Parliamentary Inquiry. Parliamentary Inquiry."

Speaker Ryan: "Proceed."

Kane: "We were given a list of Bills last night that had been reassigned to the Rules Committee from the other Committees, and I was wondering under the provisions of Rule 25D whether those Bills are still alive or not."

Speaker Ryan: "Representative Kane, those Bills are alive...whatever that means. They are all exempted as determined by the Rules Committee. Does that answer your question?"

Kane: "What does the sentence mean then when it says 'Any Bill not acted upon in compliance with these deadlines', namely May 4, 'shall be automatically tabled except Bills on the Interim Study Calendar.' I would think that that language says that those Bills died at midnight last night."

Speaker Ryan: "Representative Telcser, do you seek recognition?"

Telcser: "Mr. Speaker, in reference to Representative Kane's interpretation of Rule 25D. What the Speaker has done...one can construe the rule in its strictest sense as you are doing, which I understand, Representative. But I think what the Speaker has done within the realm of his ability is in effect as the Bills were falling to the table so to speak. The Speaker has resurrected them for the Members and sent them to the Rules Committee where they

would stay alive. The alternative is for them to lie upon a table thereby requiring 107 votes to take them from the table."

Speaker Ryan: "Representative Kane."

Kane: "Under what Rule has the Speaker resurrected these Bills as they were falling to the table? I don't think that there is a provision in the Rules to allow the Speaker to do that."

Speaker Ryan: "Representative Telcser."

Telcser: "Representative, I think if you refer to Rule 27C Paragraph 3 you'll find that the Rules Committee when we meet will have the ability to exempt any of the Bills which remained in Rules Committee, and then send them on their way through the process if a Majority of the Members of the Rules Committee wish to do so. What the Speaker has actually done is simply in effect created a posting notice as the Bills are going down to the table saying that the Rules Committee when they convene can take up the matter of all the Bills which were remaining in Committee. We frankly thought that would be a convenient way for the Members who are concerned about their Bills to have another chance at having their Bills move along the process."

Kane: "I realize..."

Telcser: "It is true. Strict interpretation of Rule 25D which you are making, the Bills would in fact be on the table and the Members would then have to garner 107 votes to take them from the table one at a time."

Kane: "So what this has done is effectively, you've taken the plain language of Rule 25 and said that any Bill not acted on by May 4 is automatically tabled and have...which would require the votes of 107 Members and have effectively removed the power of those 107 Members and vested them in the power of ten Members of the Rules Committee."

Telcser: "Now what we...it depends on one's point of view, Representative..."

Kane: "I...we have taken..."

Telcser: "...A broad...a very broad perspective in order to give the Members the ability to move their Bills along, not to put power in the hands...not to take anything away from 107 Members but to give to 177 Members the right to move their Bill along the process and not have them lost in the shuffle. And so I think its...is the glass half full or half empty? It depends on your point of view. We like to think that we're helping the Members on both sides of the aisle with their Bills."

Kane: "Under...under which Rule though are those Bills alive?"

Telcser: "Well, pursuant to Rule 27C Paragraph 3..."

Kane: "It has to do with introduction, doesn't it?"

Telcser: "The..."

Kane: "That is a rule that has to do with introduction of Bills."

Telcser: "It has to do with the Majority of Members of the Rules Committee can exempt a Bill, consider the Bill an emergency. If...if you and others feel that a Bill should lie upon the table, so be it. But we want to help our Members out."

Kane: "I am just concerned that we go according to the rules and that the rules are the same for everyone, and they are not different for you than they are for the Minority Leader."

Telcser: "What we're...what I think we've done, Representative, is avoided the Members having to make Motions, say of the 107 votes. They can go to the Rules Committee and get...and if the Rules Committee wishes their Bill to be exempt, they can get them back on the floor."

Kane: "I don't think that you can do that though because...unless you suspend this rule which you have not suspended. I think that regardless of what you do, those Bills are

tabled according to what the rules say, and it is going to take 107 votes. I don't think you can..."

Speaker Ryan: "Representative Kane..."

Telcser: "Representative Kane, wait a second. Representative, there are times during the course of the Session where we have to be a little innovative and creative on behalf of our Members. Now the alternative, if we would take this strict interpretation of the rule, all Bills would be upon the table, it would require 107 votes from the Members to get their Bills from the table. Now if you're concerned about Bills from a partisan point of view, we could just reintroduce our Bills, send them to the Rules Committee, get them back out onto the floor. So from the Leadership point of view, it is a 'mox-nix', as my friend Representative Peters would say. We are really trying to help Members with their Bills with a broad interpretation."

Kane: "If you were trying to help Members with their Bills so much why didn't you support the Minority Leader's Motion to suspend that Rule and keep all of those Bills alive in the Committees in which they already were? It seems like you're talking out of both sides of your mouth."

Telcser: "Not at all, Representative. This, in our view, would be a much more orderly procedure."

Speaker Ryan: "Let me see if I can help you out here, Gentlemen. The interpretation of this is that the Bills are tabled, Representative Kane, and you could move to take it off of the table if you receive 107 votes. That will be the action. Alright? But as we've done in the past for emergency Bills and for Bills that are necessary for the operation of state government, the Rules Committee...people could come before the Rules Committee and have those Bills exempted. If the Rules Committee votes those up, then that is the way it is. Yes, Representative Kane."

Kane: "The Rules Committee can only exempt Bills from the introduction deadline. There is no procedure under which the Rules Committee can take a Bill from off of the table. The only thing that the Rules Committee can do under Rule 27 is to exempt Bills from the introduction deadline."

Speaker Ryan: "The Parliamentarian, Representative Kane, tells me that these two rules are in direct conflict, and we've made an interpretation. And that is our interpretation. Representative Madigan."

Madigan: "Mr. Speaker, I regret that I was not in the floor at the beginning of the Session, and because of that I failed to hear Mr. Telcser's explanation. There has been no prior discussion with me regarding the action which you propose to take from the Chair. Mr. Telcser, as I said, I regret that I must burden you and ask for a second explanation, but I must point out that there has been no discussion with me regarding your next act of tyranny. Could we get another explanation?"

Speaker Ryan: "No. Mr. Madigan, I think that if you and Representative Kane and Telcser will come down here we will explain to you and then you can get up and give your speech on tyranny if you want after we talk to try and explain to you what we've done."

Madigan: "Mr. Speaker, I didn't hear what you said."

Speaker Ryan: "I said if you and Representative Kane and Representative Telcser would come to the podium, we'll try and explain this, and then if you're not happy with the explanation you can give your speech on tyranny."

Madigan: "Yes, which...which you've heard before..."

Speaker Ryan: "Right."

Madigan: "...And which is starting to ring true."

Speaker Ryan: "And I would anxiously await again if need be."

Madigan: "You like to hear the truth."

Speaker Ryan: "Representative Ewell."

Ewell: "Mr. Speaker, Ladies and Gentlemen, it is nice to ask that Representative Telcser and Madigan get together with the Parliamentarian, cause in the end I know that's where we'll be anyway. But in the meantime, innovation is one thing and creativity is another thing. But as Doug Kane has duly pointed out, to resurrect Bills that are clearly declared dead without suspending the Bill is clearly out of order. Now, the Parliamentarian may stretch his imagination, may create living rules, flexible statute, and a growing distain of the Members, but I suggest to you that, Mr. Speaker, it is highly improper that we do this and we are truly getting close to the point where we tread on the rights of all the Members. I, as other Members, have sat in Committees knowing that my Bills would not be heard, knowing that they would not be favorably approved, but I was willing to live and die by the rules which is the first necessity of a Democratic society. But now at this stage to suit your own convenience or for the convenience of a few other people, that is indeed trampling on the rights of all the other Members. I suggest to the Speaker that no matter what happens, one day we shall all come to the bridge that we must cross of 89 votes in this House and the necessary 30 votes in the Senate. And if we do not have a little goodwill on both sides of the aisle here, we are indeed going to be in a state of anarchy that may well last past the 30th of June. So I would either ask in the alternative that the Leadership either get together...put together the package of compromised Bills which we're all going to vote on, and I am willing to vote for them and let's proceed with the business, or if we don't want to do that yet let's at least proceed in somewhat an order that does respect the rules as written

because that is one of the fundamental things that we fought the war on as we can't have unwritten rules at the request of the king. Mr. Speaker, I beg your indulgence and your understanding and your patience."

Speaker Ryan: "Thank you, Representative Ewell, and I would ask likewise of you. And if you'll give us a few minutes we'll get back to you with what's...what our ruling is. On the Calendar on page 35 on the Order of Consent Calendar appears the Bills for Consent Calendar. Read the Bills, Mr. Clerk. Mr. Darrow, do you seek recognition? For what purpose?"

Darrow: "Mr. Speaker, I've had my light on for some time. I wish to appeal the ruling of the Chair..."

Speaker Ryan: "Well, we haven't made a ruling yet, Representative, and you're out of order, and if you'll give us a few minutes we'll get back to you. Proceed with the Consent Calendar, Mr. Clerk."

Clerk Leone: "House Bill 67, a Bill for an Act to amend the Illinois Vehicle Code. House Bill 410, a Bill for an Act to amend the Illinois Vehicle Code. for an Act in relation to the assignment of Workers' Compensation Claims together with the attached Amendments, Second Reading of these Bills."

Speaker Ryan: "You've heard the Bills read by the Clerk on the Consent Calendar. The question is 'Shall these Bills pass?' All those in favor will signify by voting 'aye', those are on Second Reading. Third Reading. Can I have your attention please? We have with us today the Elk Grove High School Grenadiers who are the women's state champions, they are represented by Representatives Macdonald, Meyer, and Chapman. Representative Chapman will make the introductions, and right after...now Representative Chapman."

Chapman: "Ladies and Gentlemen, may I have your attention. Representative Macdonald, and Representative Meyer and I are so proud today to have with us the winning Double A girls' championship basketball team. They are Elk Grove High School Grens from Elk Grove Village, Illinois. I am sure that many of you watched that final game on television and were amazed as I was at the skill our Elk Grove High School girls displayed. I would like you to listen now to Marcia Gordon, their coach, who will introduce the girls to you."

Ms. Gordon: "Thank you. First, my assistant coach, Dave Jacobson...Put your hands up please, and team members starting line-up was Faith Minnaugh, guard; Kathy Leyden, guard; Robin Cormier, center; Beth Sass, forward; Lori Van Haften, forward. The reserves are Kristin Carman, senior; Terese Bruzzino, senior; Karen Hellyer, junior; Lori Juliano, senior; Yoshie Kabeshita, junior; Debbie Pasko, senior; Kim Kobus, junior, and that's it. Thank you."

Chapman: "And now, Mr. Clerk...Mr. Clerk, if you would be good enough to read the Resolution which this Body has

unanimously adopted recently."

Clerk Leone: "House Resolution 191 offered by Representatives Chapman, Macdonald, and Meyer. Whereas the Elk Grove High School girls' basketball team won the biggest one of them all when they recently captured the girls' Class AA State Basketball Championship; and whereas, the Grenadiers or the Grens has greatly...had great difficulty defeating their first two opponents, but they saved their best for last and handily defeated their challengers, the Peoria Richwoods Kings (sic) 50-33 to finish with a fine 31-1 record for the season; and whereas, all members of the squad played in the championship game and contributed to this splendid victory; whereas the Grens won the Midsuburban League Championship, the Regional, Sectional, the Super-Sectional titles enroute to their capture of the Illinois High School Association Crown; therefore, be it resolved by the House of Representatives of the 82nd General Assembly of the State of Illinois, that we congratulate and commend all those associated with the attainment of this wonderful achievement, and we wish one and all continued success; and be it further resolved that suitable copies of this Preamble and Resolution be presented as a token of our esteem to Coach Marcia Gordon, Assistant Coach Dave Jacobson, and Members of the team and to to Elk Grove High School."

Chapman: "Thank you, Mr. Clerk and Members of the House."

Speaker Ryan: "On the Calendar on page 11 under the Order of House Bills Second Reading appears House Bill 16. Representative Huskey. Read the Bill, Mr. Clerk."

Speaker Ryan: "Third Reading. Representative Madigan."

Madigan: "Mr. Speaker, I am told that Amendment #1 to House Bill #16 has not yet been printed, and the Bill has already been moved to Third Reading."

Speaker Ryan: "You're absolutely right, Representative Madigan, and I didn't know that. And House Bill #16 will be held on the Order of Second Reading till the Amendment is printed and distributed. Representative Madigan, was it House Bill 16 or 19?"

Madigan: "16. Mr. Huskey's Bill."

Speaker Ryan: "Representative Peters is going to be in the Chair."

Speaker Peters: "House Bill 19, Third Reading. House Bill 65, Representative Davis. Amendment is not printed. House Bill 69, Representative Matijevich. Amendments printed? Read the Bill, Mr. Clerk."

Ladies and Gentlemen, we are...it is the intent of the Chair to move on those Second Reading Bills that do not have Amendments. The Chair would request that the Membership be cooperative so that we can end up in fact concluding as much of this and adjourn as indicated by 6 o'clock. That means that the Membership should give some indication to the Chair as to what their wishes are with regard to their Bills. We do waste a lot of time in calling Bills and asking and then finding the Member is not here. Those of you that have any of that information please give it to Mr. Webb who is here. Representative Deuster, for what purpose do you rise?"

Deuster: "Mr. Speaker, I rise to ask this question. I thought I heard you say that you were going to proceed to call House Bills for which no Floor Amendments have been filed. Is that correct?"

Speaker Peters: "That is what we are going to attempt to do."

Deuster: "In other words, from now on for an unspecified period of time it will not really be necessary for anybody to be here. If you're just calling Bills."

Speaker Peters: "It will be necessary, Representative, to have the Bill called if it's your Bill. Now if you're not here we can't get your Bill called. Now if you have another way

Speaker Peters: "Representative Johnson. Thank you. Representative Johnson."

Johnson: "Would it be...would it be...I'm just inquiring of the Chair, not suggesting. Would it...would it be possible to move those in a perfunctory after we leave?"

Speaker Peters: "No."

Johnson: "Why not?"

Speaker Peters: "It just would not. Representative Bradley, for what purpose do you rise?"

Bradley: "Question of the Chair, Mr. Speaker. It seems to me that we're penalizing those Members who have a Bill on Second Reading..."

Speaker Peters: "Representative Bradley...Representative Bradley, the Chair is interested in getting these Bills through. If it is the desire of the Body to go through one at a time and read them all, we'll be happy to do that...The Chair..."

Bradley: "I would just like to have some indication from the Chair as to when we're going to go to Bills with Amendments on them."

Speaker Peters: "The Chair...the Chair is going to now indicate that we are going to follow the order from the top to the bottom, Amendments or no Amendments. If we get involved in a brouha and a hassle and not get to anybody's Bill, fine."

Bradley: "I think that is the best way to go and the fairest way."

of Amendment #2."

Speaker Peters: "Any discussion from the floor? Representative McClain."

McClain: "Thank you very much, Mr. Speaker. Would the Gentleman explain the Amendment? We weren't all in Committee."

Reilly: "Alright, the...the procedure in..in the Bill is that as the income tax on individuals gets changed, there is a proportionate increase in the business...corporation...corporate property tax. All the Amendment does is make sure that is in fact proportionate. I thought we had it worded that way to begin with. It was pointed out to me that technically the language in the Bill didn't say that, and this attempts to put in a calculation that will make sure that that increase on the corporate property tax is indeed proportionate but no more than proportionate to the increase in the personal income tax."

McClain: "So if I understand this correctly, instead of an increase of individual property owners, the...if there is a loss in personal income then there would be an increase in corporate personal property tax...or corporate property tax. Is that correct?"

Reilly: "It is not personal property, corporate real property."

McClain: "Corporate real property."

Reilly: "Yeah, and that is already in the Bill. All we're doing is making clear what the formula is for determining that."

McClain: "Thank you, Mr. Speaker."

to the traffic count. So in other words instead of the Bill in its present form...if it says you don't have to have a flagman on a construction job if the traffic count is less than 600 cars a day. The Bill would now say that you don't have to have a construct...a flagman on a construction job if a road is closed to traffic, and I would ask for adoption of Amendment #2."

Speaker Peters: "Any discussion on Amendment #2? Representative Watson."

Watson: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I do not support this Amendment. I feel if this Amendment is attached it more or less will gut the Bill. The intent of the legislation is to provide for some common sense and a tax savings and cost savings to counties and township government. Currently we mandate to those units of government that a flagman would be required on all road projects. My Bill, what it would do is eliminate the requirement for a flagman on a road that is closed which is common sense, and the rest of the Bill would eliminate the requirement of a flagman on road projects in which there are 600 vehicles a day or less. Okay, this is a very light traveled road. It is about one car every two and a half minutes. And when you take into consideration the fact that the high volume traffic times during the day are eight to nine and four to five when probably there won't be any construction anyway. The traffic count through the day when the work is going on would even be less. I think what this Bill will do is provide for some common sense and cost saving factors to many units of local government. I urge a 'no' vote on this Amendment."

Speaker Peters: "Any further discussion? Representative McPike."

McPike: "Thank you, Mr. Speaker. In response to the previous speaker who said that there would probably not be any

construction during high traffic periods from eight until nine and from four until five. Those are usually the high traffic periods of the day. I am not clear why the construction work would stop or cease during these periods. Most construction work starts around seven or seven-thirty in the morning and runs until four or five in the afternoon. It would be very unusual that the construction was shut down during these two busy times during the day. He didn't indicate at all what the speed limit might be along some of these roads. The speed limit in a number of cases, 55 miles per hour. And even if you do have only one car coming by every minute or every two minutes and in these peak periods one car coming by every thirty seconds or I would even say once a minute or once every two minutes at that speed constitutes a reasonable danger to those men and women working on the road. The purpose of this...the purpose of the original legislation was, as the Sponsor of this Bill just said, was common sense. It is common sense to put someone out there with a flag to tell automobiles and the drivers of those cars to slow down that there is men and women working there, and if they don't slow down they're going to kill somebody. This Amendment clearly says that unless the road is closed, we believe that in the interest of the safety of men and women working on these road projects, we believe that their safety takes preference over whatever this common sense notion is that somehow 600 vehicles a day doesn't constitute a real danger to the men working there. I think it is a good Amendment. I think it is necessary if we're going to avoid accidents to highway construction people. I support the Amendment."

Speaker Peters: "Representative Slape to close."

Slape: "Thank you, Mr. Speaker. I would like to touch on one of the points that the Sponsor of the legislation brought out

STATE OF ILLINOIS  
82ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

May 5, 1981

when he said that the Bill is now limited to roads with a 600 count or less per day. I would point out to the Membership that these are usually the roads that people feel safer to travel at a higher speed...at a higher rate of speed on and many times they are roads that are used by people when they are running late for a short cut they go down a road, there is not much traffic, and they feel a little freer to drive at a faster rate than they would normally in bumper to bumper traffic. Also, if by doing this one accident or one death results. I think that that would probably equal or more than equal the cost of the flagman out there on the job. And I stand here, perhaps the only man on this floor or Lady on this floor today who has actually been a flagman on a construction job, and I tell you right now even the flagman have to jump behind the barricades at times because people don't care. Usually about the third or fourth week into the construction job they're mad, they're annoyed because traffic has been reduced or because they have to be a little late going to work or their time is impaired a little bit. Sometimes they even swerve at the flagmen or at the construction people working along the side of the job...or on the job. I think it is imperative that we keep one thing in mind. The flagmen were placed there in the first place to keep the construction job as safe as possible. Many times people working with their back to the flow of traffic. It is up to the construction man to...or the flagman to make sure that the traffic and the speed of the traffic is reduced. It is also up to the flagman to make sure that trucks enter...or leaving the construction job leave in an appropriate break in traffic, and I would ask that we adopt this Amendment, and, Mr. Speaker, I ask for a Roll Call please on this."

Wikoff: "Yes, thank you, Mr. Speaker. I would like to explain my 'no' vote. I think the Amendment is doing something to a Bill that is completely wrong and let me preface my remarks a little bit to some of the freshman who are in here. I happen to be in the construction business. I am not in the road construction business. The Bill that is before us that is presently being amended right now is...is permissive legislation. There are many times that there are situations out on the road where a flagman is not necessary. And I think that it behooves to defeat this Amendment in order to give the general contractor a little bit of flexibility. He is not going to put a job out there that requires a flagman without having one simply because he cannot afford the exposure to his workmen's compensation, the trial lawyers, and everybody else if something like that does happen. It is something that is very definitely needed, the legislation that Representative Watson is proposing. I would urge a 'no' vote, and I would like to see a few more red votes up there."

Speaker Peters: "The Chair recognizes Representative Darrow."

Darrow: "Thank you, Mr. Speaker. In explaining my vote I would just like the Members of the House to realize that when they drive down to Springfield often times they see flagmen out there, and it has occurred to me and it has happened to me, and I am sure that it has happened to other Members. We are going about 55 miles an hour and you slow down to maybe 40 and you think you're going slow enough until you

get to the flagman. And that human being out there is stark evidence of the danger that might occur if we don't slow down further. A sign is fine. A sign is good, but it is difficult to judge your speed. And if we want to have traffic accidents and slaughter on the highways, just go ahead without this Amendment, and that's what will happen. We have to have that human being out there to slow down traffic. We can't always judge our speed when we're inside the vehicles. This is not any type of a Bill to cause any undue hardship for the construction trades or for the Department of Transportation, but it is for the safety of those construction workers and for those fellows out there that we often see behind the big orange trucks filling the cracks with tar and sand, and when we often don't judge our speed properly we could hit. So I would solicit an 'aye' vote. Thank you."

Speaker Peters: "Representative Watson."

Watson: "Thank you, Mr. Speaker. I would like to respond to the last remark if I could. This Bill does not affect highway traffic. It affects those county and township roads which there are 600 vehicles a day or less - a very minimal amount of traffic. I don't believe we necessarily should remove the flagmen from highways either. But this is on road work in which there is very low density of traffic. The requirement will be that there will have to be an electronic device replacing the flagmen. If I was out there working I believe I would..."

McClain: "Thank you very much, Mr. Speaker, Ladies and Gentlemen of the House. I once worked on the road and...in the 1960's and prior to the requiring of flagmen I had to dive into the cement one time when a guy came streaming through the road too fast. I think that this issue is not just saving counties and township monies, what you're talking about is saving somebody's life. Now if the 'no' votes would really look at that your 'no' vote might require that somebody in your own community might be run over by a car or truck someday, I don't think you'd be voting 'no'. This is not a labor management kind of Bill. This is a safety measure that cuts through political lines of both Parties, and I think maybe the 'no' votes are making a judgmental error on government and on safety of individuals. And this is not a political issue."

Speaker Peters: "Any further discussion? The Chair recognizes Representative Bradley."

Bradley: "Yes, Mr. Speaker..."

Speaker Peters: "For an explanation of vote."

Bradley: "Mr. Speaker, I am not going to explain my vote. I am going to say to you, Mr. Speaker, that when a Member rises to make a point of order, the only duty you have as the Speaker then, is to rule on that Gentleman's Order...point. And we would move along a lot faster. If you're up there just to move Bills as rapidly as you can and deprive the Members of the opportunity to speak on various Amendments, then you're not doing justice to this House or justice to yourself. Sir, as fine of a Gentleman as you are and as fair as you've been, but when you don't go along with the rules we have to run this House and you might as well get used to being here for a long time when we're on Second Reading and get used to being here at midnight, three or

four o'clock in the morning, but you've got to abide by the rules and when somebody gets up and asks for a ruling, you ought to rule in a fair manner. The kind of Gentleman that you are, Sir, I think you ought to do that. And that is what Mr. Brummer was asking you to do when you let a man speak in debate and then you let him talk and explain his vote in violation of the rules of the House."

Speaker Peters: "I will be cognizant of your remarks, Representative Bradley. Any further discussion on Amendment #2? Representative Pullen to explain her vote."

Pullen: "Mr. Speaker, Ladies and Gentlemen of the House, if you read Amendment #2 you'll find that actually it is taking out flagmen on a permissive basis on all road projects whether or not they have a 600 count or less. So those who have been saying that flagmen are needed and this is very important, really ought to be voting 'no' because the Amendment is eliminating them on all road projects rather than just those with a low traffic count. The point of the Amendment obviously is to try to gut the Bill before it ever gets to Third Reading, and I think that it would be more responsible to take a look at the Bill on Third Reading and decide how you want to vote on flagmen at that time. But those who are voting 'yes' in order to protect construction crews are voting exactly opposite to how the best interest of the construction crews would work, and I urge you to defeat this Amendment."

Speaker Peters: "Any further discussion? Take the record, Mr. Clerk. On this question there are 81 voting 'yes', 77 voting 'no'. Representative Watson, for what purpose do you rise?"

Leave is granted. The Amendment is not printed. House Bill 341 will remain on the Order of Second Reading. Representative Huskey, for what purpose do you rise?"

Huskey: "Mr. Speaker, I rise on a point of personal privilege. Some of the Members of the press have requested that there is a few tickets left for their annual Gridiron Dinner tonight. Now let me tell you this. This is a nice affair, and for the new Members, you shouldn't miss it. Now if you don't get your tickets in the next 30 minutes, you may have to pay a higher price because usually around 5 o'clock they start scalping these tickets and the price goes up. So if you see the pretty blonde over here on the Democratic side, Marcia 'Schipatic', go up there, and she's got the few tickets that are left. So the ones of you that haven't got your tickets, I would advise you to do so immediately or

'arrest' and inserting in lieu of 'conviction'. Now, House Bill 1041 legalizes something that we have been doing illegally for a good many years. Checking... Giving local governments the opportunity to check employees that come to work for them to see if they have an arrest record and that's all this does. It's a clean up Amendment and it's agreed by by the Department of Law Enforcement Agency. I know of no opposition. I move for the adoption."

Conti: "That's correct. It's legalizing something we're doing illegal. The Department of Law Enforcement Agency. Everytime you make a request to find out if anybody had an arrest conviction, it goes down as a criminal investigation and somebody might... John Doe might ask for four or five different jobs in a period of five or six years and when they pull your sheet out, you'll find out that he has got a criminal investigation instead of an employee investigation or an employment investigation. And what's really bad about this, Representative Getty, is that someday some American Civil Liberty's Union is going to get a hold of this and sue almost everyone that is trying to question the man's personal record instead of his criminal investigation record."

Getty: "I think that's a good Amendment. Thank you."

Conti: "Thank you. I move for the adoption."

Speaker Peters: "Any Amendments from the floor?"

Clerk Leone: "Floor Amendment #1, McPike, amends House Bill..."

Speaker Peters: "Amendment #1, Representative McPike."

McPike: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. Amendment #1 corrects two technical errors in spelling and in punctuation, and the third correction in Amendment #1 deletes lines 24 through 26 which is the heart of the Bill. The Amendment, in effect, brings us back to the present situation. It makes... It prevents Illinois from becoming a right-to-work state as this Amendment attempts to do. Rather than debate the Bill, I would simply move the adoption of the Amendment."

Speaker Peters: "Representative Hudson. Representative Hudson."

Hudson: "Mr. Speaker, Ladies and Gentlemen of the House, here is an issue and I might say that which I most greatly feared has come to pass. But here's an issue of outstanding importance to every citizen in the State of Illinois. Here is an issue that I put into Bill form and I did so in a straight-forward manner. I didn't clutter it up with Amendments. I didn't try to hide what I was doing. I came forward with House Bill 831 which was, of course, a right-to-work Bill. I have had no information until just now, and I hope that everyone of you are listening to what I'm saying. The Sponsor of this Amendment did not have the courtesy to come to me and to give me any indication whatsoever that any such Amendment was being prepared. I feel that in all fairness, he should have. I feel that in all fairness, if this Bill is going to be decided on, if this issue is going to be decided upon, it should be decided upon fairly. It shouldn't be done in a covert behind the door fashion with an Amendment which, in effect, strikes the enacting clause. I've been down here long enough my colleagues to have heard debates on this floor

relevant to striking the enacting clause, and invariably Members on the other side of the aisle will get up, if this is done, and they will defend the right of the Sponsor to have his Bill heard in the form that it's heard, that it's written, that's it's presented. I feel that this is only fair. I suppose Representative McPike should be thanked for correcting two technical errors, inserting a comma or whatever else it was. But my colleagues on this floor, I don't think I have ever come to you and really pleaded with you to support me on an issue. If you want to, if you want to... if you want to defeat this Bill, if you want to vote against this Bill, if you're opposed to right-to-work in the State of Illinois which would give every labor union member the right to join or not to join a union, then do so at the proper time. But don't do it this way. Don't do it this way, I plead you... plead with you. And I particularly plead with my Members on this side of the aisle who saw fit to help Sponsor this Bill. I plead with the Members on the other side of the aisle. I plead with my Democrat colleagues over there to give this measure a chance to be heard and debated in a fair and square measure... manner. Again, I say to you, and I know how many of you feel and I respect your opinions and I respect your feelings, but I plead with you over there; do not kill this right-to-work measure in this manner. Because I think it's unfair. I think it even lacks courage which Representative McPike does not lack. Representative McPike is an honorable man as far as I know. Representative McPike is a man of courage. I've always considered him to be a man of integrity, and I would ask Representative McPike to consider withdrawing this Amendment, to tabling it and letting the measure be debated on its merits at the proper time. Everybody can be heard, Republicans,

STATE OF ILLINOIS

Democrats alike can be heard on this issue. But I'm telling you, if you do this and do it in this way, this issue will not die. This issue will come back in one way or another. It'll be debated. It'll be discussed and as a matter of fact, if you do it in this way, you may be instituting a virtual crusade in the State of Illinois for right-to-work which many of you don't want. That's what can happen. So with that, Mr. Speaker, and thank you for your indulgence, but this is matter of supreme importance to me and many other people on this floor and across the State of Illinois. So I'm going to conclude. I'm going to close and I'm going to ask for help from by Republican colleagues and help from any... you fairminded people on the other side of the aisle not to do this to one of your colleagues. Undeserving of the Bill, undeserving of the issue and I'm really surprised. I'm really surprised that Representative McPike did this with no knowledge on my part and no reference to me. So I am going to close, Ladies and Gentlemen. I'm going to close my case just with one final plead and that is, don't let this happen to this Bill in this manner. Thank you, Mr. Speaker."

Speaker Peters: "Representative McPike, Representative Hudson querries whether you will take this or withdraw the Amendment."

McPike: "Well, Mr. Speaker, I thought about it a lot and have given it serious thought and I've decided not to withdraw the Amendment."

Speaker Peters: "Thank you. Representative Hudson. Representative Epton, for what purpose do you rise?"

Epton: "Speak on the Motion, Mr. Speaker. I believe Representative Hudson.."

Representative Hudson."

Hudson: "Well, are you waiting, Mr. Speaker, for a decision on my part?"

Speaker Peters: "Yes, Sir."

Hudson: "Alright. We're going to go with it. Take a vote on it."

Speaker Peters: "Discussion is on Amendment #1. Representative Epton, on the Motion."

Epton: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, I know that too often many of us have utilized the microphone and I certainly don't intend to abuse the privilege. I won't question the motivation of either of the Gentlemen involved, but I would simply point out to the Ladies and Gentlemen of this House that the Sponsor of this Bill has time and again, on this floor, voted contrary to the manner in which I have voted. Yet, never has he done so with venom, never has he done so with any malice. At no time has this Representative at any time indicated any antagonism because of the way I voted or he voted, and I might say the same for the mover of this Motion. But I do think that when we have a man of the caliber on our side of the aisle who asks to have this Bill heard and I might say that I probably will vote against this Bill when it reaches Third Reading. I do think that this Motion should be defeated because I think that the Bill should have a full debate. And, I certainly do not for any moment impune the maker of this Motion because I suspect it was a hard decision for him. But I think we owe it to the Sponsor of the Bill... it's not his Bill. We've heard that too many times. It's our Bill, but that fact is the subject is of sufficient importance and I would ask my colleagues on both sides of the aisle to allow this Bill to be heard on Third Reading in the manner in which the Sponsor desires. Thank

you."

Speaker Peters: "Representative Winchester."

Winchester: "Thank you, Mr. Speaker. A question of the Sponsor of the Amendment."

Speaker Peters: "Representative McPike."

Winchester: "Representative McPike, some of us did not hear your explanation of your Amendment. We did hear moving around some commas and some technical changes. Does your Amendment have the effect of striking everything after the enactment clause?"

McPike: "I said there were three things it did. It corrected a spelling and changed a punctuation and then it deleted lines 24 through 26 of the Bill. Those three lines are the underline portion and that will have the effect of putting this Bill back in the same shape as the present law is in."

Winchester: "Well, Mr. Speaker, I probably won't support this Bill on Third Reading, but I, like Representative Epton, feel that Representative Hudson ought to have the right to hear this Bill on Third Reading to present his arguments as to why he felt that it was important to introduce this piece of legislation. I would urge a favorable vote."

Speaker Peters: "Chair recognizes Representative Collins."

Collins: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. I rise merely to echo Representative Epton's words. I won't say probably. I'll say to this House right now that I do not support right-to-work legislation and will not vote for this Bill on Third Reading. But I know that deep emotions of this type of legislation provokes and I know how deeply felt are the principles and the feelings that Representative Hudson has in regard to this legislation. That is not to put down the feeling that Representative McPike has on the other side. But this is a Bill that Representative Hudson has nurtured. He has

brought along, he believes in deeply and I think that he deserves the chance to have this issue debated on the floor of this House if he desires. I'm not going to vote for it. I'm going to vote against it on Third Reading, but I certainly respect his rights to present this idea, this concept to this House and let it go up or down on its merits. Now this Amendment, as I read it, doesn't strike the enacting clause. All it does is strike the right-to-work language which is the same thing as striking the enacting clause. It's not a maneuver that we should take lightly. I don't think that this is an Amendment that we should endorse. I would ask every Member of this House to join with me and with those of us who will support Representative Hudson on this Amendment on Second Reading in the full knowledge that we are not with him on the Bill, but I do urge you. Give him his right to have this matter debated fully on Third Reading. Give him his chance to go with this. He feels so deeply and has worked so long and so hard to put before the Members of this House. I really think that we deserve... we should give another Member this chance that he so richly deserves, and I say we're talking about a man who has supported or fought everyone of us at one time or another but always with deep belief, always within the framework of the rules and always sincerely with no hint of rank or animosity. Please, defeat this Amendment and then do as you will as I'm going to do on Third Reading, but let's give the man the opportunity to present his idea to the House."

Speaker Peters: "Representative Neff."

Neff: "Thank you, Mr. Speaker. I'm just going to have to echo what the last speaker said. I think it's very unfair for a Member of the House to take another persons Bill and just more or less change that Bill to where it's meaningless. I

think it's very unfair. I think all of us have a right to make a decision when this Bill comes on Third Reading, but I think this would be terrible to except this practice of taking a Member's Bill and gutting it to where it means nothing if it's passed. So, therefore; I would hope that we would all support or oppose this Amendment and leave Representative Hudson's Bill as it is and then make a decision how we want to vote."

Speaker Peters: "Representative Tuerk."

Tuerk: "Mr. Speaker and Members of the House, actually the proposer of the Amendment has his reasons for offering the Amendment and I understand that. I think it does have the effect of striking the enacting clause which hasn't been done too often in my 13 years in the House. This is an important issue. It's one that I could have defeated in Committee a week or so ago had I chosen to do so. I expressed myself then. I would express myself now. This is an important issue. I don't plan to support Representative Hudson on Third Reading, however; I did support him to get it out of Committee because it is a vitally important issue to the state. It's a vitally important issue to the Sponsor of the Bill. I think that's what we're paid for, to come down here and make some tough decisions on occasion. This just happens to be one of those occasions. I think that the Amendment ought to be defeated. It ought to come to Third Reading then you can vote your convictions one way or the other. At least it has full debate. I doubt that it will pass the House, but I think everybody in this House ought to have the prerogative of voting for it or against it on Third Reading and that's why I would urge you to defeat the Amendment."

Speaker Peters: "Representative Robbins."

Robbins: "This is one of the things that in my short term here in

HOUSE OF REPRESENTATIVES

the House that I have not enjoyed is seeing any Members' Bill remade into the shape that somebody else wants the Bill. I feel like the Member has the right to have his Bill heard on its merits. If you don't like the Bill, kill it. But at least give him a chance to have it heard. It's one thing to kill a Bill like this without allowing it to be heard and it's another thing to take an Amendment and kill a Bill. I think it's a disgrace that we resort to these tactics. I think the Members should stand up and be counted to vote 'yes' or 'no' on the Bill, and I think the Bill should be as the Sponsor wishes it. Thank you."

Speaker Peters: "Representative Conti."

Conti: "Mr. Speaker and Ladies and Gentlemen of the House, I'm certainly glad I had the opportunity to talk after the last speaker, being a sophomore. In the 20 years experience that I've had down here, none of us ever claimed..."

Speaker Peters: "Give the Gentleman order."

Conti: "None of us ever claimed the pride of authorship on any of the Bills that we introduced. We usually try to reflect the mood of the people that we represent and if there's ever any Member in this House, if there's ever ever Member in this House that's been responsive to the people of his district, it's the Sponsor of this piece of legislation. I don't know whether he really feels what's in this Bill but I know that the people back home wanted this Bill in his district which I'm very familiar with. And I think that to this is a dasterdly act to pull a stunt like this. It's just as bad as striking the enacting clause. I stood up on the floor of this House three terms ago when one of our Members on our side of the aisle did it to a Democratic Member. I felt badly at that time and I was ashamed to be on this side of the aisle when we tried to do it to one of the Democrats and any other Member ought to be ashamed to

try to do it because none of us have pride in authorship of these Bills. We are being responsive to the people that send us down here. Give this man an opportunity to go back home and say he was representing his people."

Speaker Peters: "The final speaker, Representative Macdonald."

Macdonald: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I, too, rise to oppose the Amendment that has been offered. Representative Hudson is one of the most sincere, one of the most honorable Members of this august Body, and to take a Bill and an issue that is so historic in this Legislature; that for the first time in the history of this state I understand, this right-to-work Bill has gotten to the floor of the House. And whether you except it or are going to vote for it or not, at least the author who is a man whose honor is undisputed and who is so strongly in favor of this Bill, as are many of us who are Cosponsors, I think that the Bill at least ought to be able to be voted up or down as the Sponsor has presented it."

Speaker Peters: "Representative McPike, to close."

McPike: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. Let me just say in defense that there was nothing covert about offering this Amendment. It's been filed for over a week. It's been on your desk for over a week. Anyone that pays any attention to their own Bills would know that this Amendment has been in file. It's been on the floor for more than seven days. I... For the life of me, I've never heard this concept that you can't amend other peoples Bills. Now this is something new. Maybe the Freshman don't recall but we debated a worker's compensation on this floor last year for eight hours and it was my Bill. And we had 50 Amendments from the other side and I opposed everyone of them. And this year I have three or four Bills on the Calendar right now that you've filed

STATE OF ILLINOIS  
82ND GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

Amendments to. Why don't you just table those Amendments so that I can vote on my Bills as I want them on Third Reading? Because, to be honest, that's not the legislative process. You have Amendments filed to my Bills. I have Amendments filed to your Bills and there's not one person on this floor that ever has the right to stand up here and say, 'I want everybody to table their Amendments. I don't want to discuss any Amendments. I just want my Bill to go to Third Reading. We're going to debate my Bill, no Amendments. We're going to pass it in that form'. Now that's the silliest argument I have ever heard up here. No one has that privilege and the only people that got up and suggested that are those people that are for right-to-work. I happen to oppose it. A lot of other people in this state happen to oppose right-to-work and I have a right to amend this. And to imply that in any way, shape, or form that is dishonest or is not honorable is really stretching our imagination. This Bill came out on the House floor for the first time in 50 years. We are wanting to debate right-to-work for the first time in the history of this Body. And I really don't think it should be debated. I think it's rather ironic that the Republican Party supplied 9 votes to put this Bill on the floor. When the free world is applauding trade unions in Poland, I think it's ironic that the Republican Party wants to destroy trade unions in Illinois. I don't want that to be debated. I think it's a good Amendment. It should be adopted".

Speaker Peters: "Question is, 'Shall Amendment #1 to House Bill 831 be adopted?'. Those in favor will signify by saying 'aye'. Gentleman requests a Roll Call. Had I done it the other way, I would have been accused of biased the other way. Right? All those in favor will signify by voting 'aye', all those opposed by voting 'nay'. Mr. Clerk, open

the record. Have all voted who wish? Chair cautions that Members vote their own switches because we will be into a verification, I'm sure, regardless of how it goes. Have all voted who wish? Representative Deuster, to explain his vote."

Deuster: "Very briefly, we have a lot of work to do and we have a lot of Amendments and we have a lot of Bills and I'm afraid that if this Amendment which strikes the guts right out of Representative Hudson's Bill prevails, there's very likely to be a lot of Members who will, for whatever reasons, will feel that if that's the way this issue is going to be handled, why then we'll have Amendments filed to five or six or seven Bills. And, instead of debating a right-to-work once, we'll debate it 15 times and I don't think any of us want that. We all have our positions and our philosophy. Some of us believe that people ought to join churches, political parties, and unions freely because they want to. Other people believe that sometimes it ought to be compelled. That's a matter of individual philosophy and it isn't partisan at all. It's not Democratic or Republican at all, but I don't want to see us debate this 15 or 20 times as Amendments to every Bill coming along. And I would certainly urge that more people vote 'no' so that we'll have this one vehicle go to Third Reading and at such time as it might be called, you can vote 'yes' or 'no' and get it over with instead of taking this strike at a conscientious Member's Bill and, in my mind, it's going to stimulate and encourage some other people to offer Amendments and we'll be talking about it too much. And I would encourage more 'no' votes."

Speaker Peters: "The Chair is eager to offer every Member every courtesy. Please remember that the rules call for no more than one minute in explanation of vote. Representative

McCormick, to explain his vote."

McCormick: "Mr. Speaker and Ladies and Gentlemen of the House, I want to tell you how I stand on one particular issue and straight forward. I would not vote for this Bill on Third Reading and I told Representative Hudson that I wouldn't do it under any circumstances. But there's no more honorable and dedicated men that ever sat in this House than this man. And this is what he honestly believes. He thinks about it just as much as I think about the people that live in my district. Whether he's right or wrong, anybody that has worked as many years ought to have a right to have his Bill heard on Third Reading somewhere down the line other than just having it gutted. Now, you Democrats listen to this. There's a whole lot of you over there that have 100% labor record. But there's a whole lot of you that don't have as good a labor record as C. L. McCormick. Look over your stars and you'll see what I'm talking about. And I wouldn't vote for this Bill on Third Reading for any amount of money or anything that you could do for it. But I think it's a crying shame that you won't give him enough 'no' votes to let him have this day in court next week or the next week. And he'll get it over with and he'll give you a chance to make your fifth star or maybe they'll give us sixth star and a campaign contribution too. But I think it's wrong to do Representative Hudson this way. And if you have any principles about you, you'll be a good labor man and you'll give him a fair break like labor always expects us Republicans to give them. Thank you."

Speaker Peters: "Representative Miller, to explain his vote. Representative Miller."

Miller: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. In ways I wish I had yielded my one minute to Representative Winchester for he has stated my position far

better than I can state it. I, too, am opposed to right-to-work. I will be voting against this Bill on Third Reading. But I think the Sponsor has the right to have it go to Third Reading in the manner in which he wishes it to and that we're simply subterfusing the parliamentary process. Thank you."

Speaker Peters: "Representative Schuneman, to explain his vote."

Schuneman: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I think that a vote against this Motion is the proper vote. The Sponsor of the Amendment points to the recent uprisings in Poland and certainly we join with all of those people who are rising against the tyranny that governs Poland. But I'd simply point out to you that this Bill strikes a Bill for freedom. It's a Bill that says people shall not be compelled to do something they do not want to do. Now, I suggest to you that this Amendment, if adopted, is merely a way of dodging the issue, ducking the issue. I think that we should allow the Bill to be heard. That we should vote this Bill up or down, but this is not the right way to dispose of this matter. I urge a 'no' vote."

Speaker Peters: "Representative Friedrich, to explain his vote."

Friedrich: "Mr. Speaker, you can't help but wonder what Representative McPike is afraid of. Is he afraid to talk about this issue head on? Does he want to go around the corner and not let this... Representative Hudson have a chance? I don't think that this Bill will pass and I don't intend to vote for it..."

Speaker Peters: "Representative McPike. Excuse me. For what purpose do you rise?"

McPike: "This is the third time in two years that I have asked Dwight Friedrich to speak to the Bill and not to castigate individual Members, including myself. He does that all the

time. I would request that you asked him to speak to the Amendment and not to try to discuss my personality motives or anything else."

Speaker Peters: "Your name was mentioned in debate. That point is well taken. Representative Friedrich, continue."

Friedrich: "I will except the admonition. I just... I couldn't quite understand it. That's the reason I was asking the question. We're not voting here on a right-to-work. We're voting on the right of a Member of this House to have a Bill heard. I think that's the issue and I think that a 'no' vote is proper vote."

Speaker Peters: "Representative Darrow, to explain his vote."

Darrow: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, in explaining my vote, I would like to point out to the Members who are not voting in favor of this that those of us who are in favor of this Amendment and against this Bill are voting our philosophy. We may have a labor oriented philosophy. It is not necessarily whether we get four or five or six or eight flags or the contributions or things of that nature. The reason we are voting this way is because of our philosophy. If it were to go to Third Reading, our votes would be the same. But look at some of those folks that are voting 'no'. It's very easy for them to hide behind Representative Hudson and say we are voting against this because we don't believe in striking the enacting clause or we don't believe in this parliamentary maneuver. That's why we're voting against it. And how many of those same Members are going back to the Chamber of Commerce and the Manufacturer's Association at a later date and then say to those folks, 'I voted with Ray Hudson on that Bill'? I think this a time for integrity. This is a time for honesty. It's a very simple issue. If you believe in the right-to-work or if you don't. Let's not

hide behind this Amendment. Let's vote it up or down. Why waste time on Third Reading? Thank you."

Speaker Peters: "Representative Giorgi, to explain his vote."

Giorgi: "Mr. Speaker, it's nice listening to the Members of the other side of the aisle in referral to the flag, cut out the Constitution, but I remember the night that Tim Simms introduced an Amendment to strike an enacting clause and I don't know if it was Deuster or Representative Hudson that almost tripped to hit their button to vote 'aye'. They recall it very vividly."

Speaker Peters: "Is there any further discussion? Any further discussion or forever hold your peace. Any further discussion? Representative Findley to explain his vote."

Findley: "Mr. Chairman (sic), how am I recorded as voting?"

Speaker Peters: "How is the Gentleman recorded? The Gentleman is not recorded."

Findley: "Would you please record me as 'no'? My switch isn't working. No? There we go. Thank you."

Speaker Peters: "Is there any further discussion? Representative Polk to explain his vote."

Polk: "One of our former Members is in the back, Representative Gale Schisler and Gale remembers very well six or seven years ago when this same thing happened. I don't know of an instance that probably splits that aisle more than a situation such as this. I went over it when the Sponsor of this Amendment introduced it and went over and asked him exactly what the intent was and if, in fact, he was going to call it or whether it was..or whether it was for the purposes of a Roll Call vote for, which one of the other Members on the other side alluded to. And yes, that's exactly what it is for. There's really some question of whether they really want those who are opposed ..er..for the Bill, where they really want this Bill called on Third

Reading. Because, as the many, many Members stood up and said when the Amendment was called that they are not planning on voting for this Bill when it gets to Third Reading. But philosophically, we are just opposed to anybody having legislation emasculated in this manner. I know in fact, I've had at least six people come by my desk and indicate to me that another Bill that I'm on and Cosponsoring with the Sponsor that they're really concerned about the effect it's going to have on other legislation. And so I just look to all of those who are voting...who are voting for this legislation to remember that this is not the final vote, that there are many, many Members of this side of the aisle as well as the other side of the aisle that do not...who will not support this legislation in its final passage. And this is a political movement. I'm sorry...I'm certainly sorry it got to this point."

Speaker Peters: "Representative Stiehl to explain her vote."

Stiehl: "Thank..Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I would just like to echo what many of the former speakers have said. It is too bad that this has become a political issue. It is not a political issue. It's a philosophical issue. And I have assured everybody that I do not intend to vote for this Bill on Third Reading. I do believe that the Sponsor has the right to have his Bill heard and I would, for that reason I am going to vote 'no' on this. I will not vote for this Bill on Third Reading."

Speaker Peters: "Representative Wolf to explain his vote."

Wolf, J.J.: "Thank you, Mr. Speaker and Members of the House. In my seven terms down in this Illinois House of Representatives I have never found a more sincere Legislator than Representative Ray Hudson. I know many of us have for various reasons voted for, sponsored for,

legislation which we may not have been in total agreement with. But I don't think anybody can question the sincerity of Representative Hudson. I would hope that we would have some more 'no' votes on the Board at this particular time. I think Mr. Hudson of all Members of this House deserves to have his day in court. I don't think I will be voting for this on Third Reading. But I would like him to have a chance to present his legislation in an orderly manner and I would urge a few more 'no' votes."

Speaker Peters: "Representative Everett Steele to explain his vote."

Steele: "Thank you very much, Mr. Speaker. I believe that the Sponsor of this legislation has a right to have his Bill heard and to have the people of this House on record on that issue. Now I personally plan to vote against the Bill, but I'm going to vote to give him the right to have this Bill heard so that everybody can vote their conscience on the merits of the legislation as it stands. For that reason I oppose this measure, this Amendment, which would strike the enacting clause. I vote 'no' on the Amendment."

Speaker Peters: "Have all voted who wish? Representative Matijevich to explain his vote."

Matijevich: "Well, only to say I hear everybody saying they're for or against this issue. I've served with Ray and I agree with everybody who talks about his sincerity and also Jim McPike is as sincere too. But the first time I ever saw anybody strike the enacting clause was a former Speaker who did it, John Lewis. And then Tim Simms did it. And Gale Schisler did it on a Bill. And believe me, I looked at the Calendar; Roger McAuliffe had a Motion to strike the enacting clause. He's a Republican. So don't say that that only comes from this side of the aisle. All of the times that someone has said they want to do it, they have

believed strongly that there's no way a certain Bill could pass out and therefore they're going to save a lot of time on the floor of the House. I've heard about 20 Members say they're not going to vote for the Bill on Third Reading..."

Speaker Peters: "...Representative Matijevich? Excuse me.

Representative McAuliffe, for what purpose do you seek...."

McAuliffe: "Well, I arise on a point of personal privilege. The Gentleman mentioned my name..."

Speaker Peters: "State your point."

McAuliffe: "And it's true I did have a Motion filed and I saw the wisdom of withdrawing it and about two hours ago I did withdraw it. I think you announced it from the Speaker's platform..."

Speaker Peters: "Yes, I did."

McAuliffe: "So that Motion has been withdrawn. I saw the wisdom of withdrawing it."

Speaker Peters: "Proceed, Representative Matijevich."

Matijevich: "All I'm saying is it was in the record that Motion was filed. So all...You know, it was in your devious mind evidently and maybe I would have supported you. I don't know, Roger. But all I'm trying to say is that what Zeke Giorgi...I'll never forget and Zeke wasn't exaggerating. There was actually a trampling down that aisle. They were tripping over voting everybody's switch on that striking the enacting clause on that reapportionment Bill. So, you know, we're all playing our act here, but let's not make enemies out of Ray Hudson and Jim McPike, both of whom are serious, dedicated individuals. Vote anyway you want. That's all."

Speaker Peters: "Representative Cullerton to explain his vote."

Cullerton: "I just wanted to join the long list of people who have announced that they're not going to vote for this Bill on Third Reading."

Speaker Peters: "Representative Bell to explain his vote."

Bell: "Two years ago as a freshman I was party to a similar attempt. A Member from the Democrat side of the aisle took me aside and explained that that was not the Gentlemanly nor the Ladylike way to kill a fellow Member's Bill. I'm on record as opposing right-to-work. Should this Bill get to Third Reading I will vote against it. However, I will cast my vote against right-to-work on Third Reading, not Second. Thank you."

Speaker Peters: "Representative Ropp to explain his vote."

Ropp: "Mr. Speaker, thank you. Members of the House, normally when we introduce legislation we introduce it with the sake of changing whatever is law. Yet it seems that this particular Amendment does not add to that part of democracy. It's providing the same thing that we have and I would say in order to have an opportunity to vote one way or another that this Amendment should totally be defeated. It, in no way, means that you either support or oppose to it in this stage. But I really think that in order to give the Sponsor the opportunity that he so richly deserves that a 'no' vote is the best vote on this Second Reading."

Speaker Peters: "Representative Ebbesen to explain his vote."

Ebbesen: "Yes, Mr. Speaker. I wonder if the Clerk could give us a tally on this Bill, how it stands on Third Reading so I can make a decision how to vote on this particular issue."

Speaker Peters: "The decision has got to be made, Gentlemen. Have all voted who wish? Have all voted who wish? Have all voted who wish? Representative Hudson, is that for recognition? Representative Hudson, for what purpose do you seek recognition?"

anything to do with abortion or pro-choice or any choice?"

Speaker Ryan: "Representative, if you want, the Gentleman will explain them again and everybody can pay attention. Will you run through them again, Representative Collins?"

Bowman: "No, someone told me it was knocked off..."

Speaker Ryan: "Representative Jaffe objected to House Resolution #30."

Bowman: "I'm sorry, okay. I'm behind the times. Thank you."

Speaker Ryan: "Alright, the Gentleman's moved for the adoption of the Agreed Resolutions. All in favor will signify by saying 'aye', all opposed 'no'. The 'ayes' have it and the Agreed Resolutions are adopted. Death Resolutions. Further Resolutions."

Clerk Leone: "House Joint Resolution #30, Dick Kelly. House Joint Resolution #31, Johnson-Wikoff and House Joint Resolution #32, Johnson, et al."

Speaker Ryan: "Committee on Assignment. Death Resolution. Representative Timmy Johnson."

Johnson: "With respect to House Joint Resolution, I think 29 and 32, there are Motions filed to suspend the rules and move for immediate consideration so I don't want those to go to the Committee on Assignments. In fact, we intend to call those shortly."

Speaker Ryan: "Did you want these on the calendar for tomorrow, Representative?"

Johnson: "Yes, I do and I want our Motion on the calendar for tomorrow applicable to the Amendments we file or the HJR's we file."

Speaker Ryan: "They go on the calendar under the Order of Speaker's Table, Representative, tomorrow and then they will be your Motion will appear on the calendar tomorrow."

Johnson: "Okay, thank you, Mr. Speaker."

Speaker Ryan: "Is Representative Friedrich on the floor? First

Reading and Introduction."

Clerk Leone: "House Bill 1891, Stanley-Zito-Ryan, a Bill for an Act making appropriations to the Suburban Task Force, Second, First Reading of the Bill. House Bill 1892, Committee on Energy and Environment, a Bill for an Act to add Sections to the Environmental Protection Act, Second, First Reading of the Bill. House Bill 1893, Klemm, a Bill for an Act to amend Sections of the Mental and Developmental Disabilities, First Reading of the Bill."

Speaker Ryan: "Any further announcements? Representative Telcser, to adjourn."

Telcser: "Mr. Speaker, I now move the House stand adjourned until Wednesday, May 6, the hour of 11:00 a.m."

Speaker Ryan: "The Gentleman has moved that the House stand adjourned until Wednesday, May 6 at the hour of 11:00 a.m. All in favor will signify by saying 'aye', all opposed 'no'. The 'ayes' have it and the House now stands adjourned."
