Speaker McPike: "The House will come to order. The Chaplain for today is Doctor Gary Rhodes of the Elliot Avenue Baptist Church in Springfield, Illinois. Doctor Rhodes is the guest of Representative Vickie Moseley. The guests in the balcony may wish to rise and join us for the invocation."

Doctor Gary Rhodes: "Let us pray. Eternal God, history and experience have given us so many evidences of Your guidance to nations, and to individuals that we should not doubt Your power or Your willingness to direct us. Give us the faith to believe that it is possible to live victoriously, even in the midst of crisis and change. On the eve of our nation's official day of mourning, we pay respect to the memory of the 37th President of the United States; the honorable Richard Milhous Nixon. We pause in these moments to salute his sterling love of country, and his tireless quest for world peace. May Thy will be done in us, and through us for the good of Illinois, America, and all humanity. Amen."

Speaker McPike: "We'll be led in the Pledge of Allegiance by Representative Persico."

Persico - et al: "I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker McPike: "Roll Call for Attendance. Representative Kubik."

Kubik: "Thank you, Mr. Speaker. Let the record reflect that all Republican Members are present."

Speaker McPike: "Thank you. Representative Currie."

Currie: "Thank you, Speaker. Let the record show that Representatives Hawkins, Kotlarz, and Phelan are all excused today."

Madigan: "Would the Members please take their chairs? We have a special guest today. Would the staff please retire to the rear of the chamber? Ladies and Gentlemen, we're very pleased, today, to have with us the honorable Lee...excuse me, because one note from the staff was incorrect, so let me begin again. We're very pleased to have with us today the honorable Lee Brown, the Director of the White House Office of National Drug Control Policy, better known as the National Drug Czar. Mr. Brown has an extensive background in criminology and law enforcement. He holds a degree in criminology from Fresno State University, degree in sociology from San Jose State University in California. He began as a patrolman with the San Jose Police Department,

and has held a variety of ranks in law enforcement in different places in the country. He has come to Illinois today to deliver a very special message. We're very pleased to have him, and would you all please give him a very appropriate welcome. Mr. Brown."

Lee Brown: "Thank you, Speaker Madigan and distinguished Members of the General Assembly. It's my great privilege to be with you today to talk about a subject that is a paramount concern, not only here in your great state, but throughout the nation; that's drugs and violence in our communities. As you know, last February, the President released his national drug control strategy to deal with the drug problem. That's what I want to discuss with you briefly this afternoon. The first point I would like to make is this; despite its focus on federal agencies and federal programs our national drug program strategy is a national strategy, not just a federal one. It is a national strategy because drugs and crime are having an impact on virtually every town and every city, and every county and every state in America. It's not a Republican problem or a Democratic problem. It's not a problem just for our cities, it's not a black or white problem. It's not just my problem as the Director of the Office of National Drug Control Policy. Drugs and violence are everyone's problem, they are America's problem. And that is why the Federal Government alone can't make progress against drugs and violence without the active engagement of concern and committed citizens and public officials at the state and local levels. I'm talking not only about State Legislators, such as yourself, but also business people, educators, local officials, clergy, and above all, the ordinary men and women who live in ordinary neighborhoods.

STATE OF ILLINOIS
88TH GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

120th Legislative Day

April 26, 1994

Because drugs and violence affect us all, our strategy is also a community-based strategy. Indeed, we chose to title the 1994 strategy, 'Reclaiming Our Communities from Drugs and Violence'. If I were to single out one overarching principle of our strategy, it would be this, that we believe, the President believes, I believe, that every citizen in every community from the most impoverished inner city neighborhoods to the wealthiest suburb has a right to be safe and secure in their home and in their neighborhood. And to that end, we want to empower towns and cities and local neighborhoods across this nation. We want to give them the tools to seize control of their own destinies, to take back their streets, their parks, and their schools from the gangs and the drugs and the guns. Allow me to sketch for you the dimensions of the drug problem in America. Nearly 80 million Americans have tried illegal drugs, and over 11 million are current drug users; chronic, hard-core, addicted drug use continues unabated, especially in our urban areas. Two weeks ago the Department of Health and Human Services released new data showing that drug related admissions to our emergency hospital rooms were up by 9% over the first half of 1992. Most of the increase was caused by a significant rise in heroin related emergencies, which are up by 44%, and recently we also received the bad news from the 'University of Michigan Monitoring the Future survey', that after years of overall declines and casual drug use more of our young people have either used drugs or think it might be okay to use them. But even these numbers don't tell the real story about the drug abuse, and the violent crime it spawns and what it's doing to this country. They don't tell you about the fear, the fear of citizens as they walk the streets in their own

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES

120th Legislative Day

neighborhoods. The fear of children as they walk to school or even when they're in school. As the President said, 'This fear is crippling our society, limiting personal freedom, and fraying the ties that bind us'. As you may know the President has asked the Congress to provide \$13.2 billion for drug control and prevention programs, the largest budget ever, an increase of \$1 billion over the current year. But even more important than the amount of money is how these funds will be spent. Our new strategy departs from previous strategies in a number of important respects, and it challenges all Americans to view the drug problem in a whole new way. The strategy rejects the false dichotomy between programs that reduce the demand for drugs and those that reduce the supply. We need both, working together in an integrated fashion, the strategy recognizes, as I believe most law enforcement professionals recognize, that demand reduction programs cannot succeed if drugs are readily and cheaply available. Likewise, drug law enforcement cannot succeed unless this nation's appetite for illegal drugs is curbed. And, unlike previous strategies, which concentrated on reducing casual drug use, the new strategy also focuses on hard-core drug use, the toughest aspect of the entire drug problem. And, although not as numerous as the casual drug users, the chronic drug user causes a disproportionate share of the violent crime and the human misery that afflict our communities, especially our disadvantaged communities. It has been estimated that only 20% of the cocaine users in this country are responsible for using up to 80% of all the cocaine sold on the streets of our cities. We know that effective drug treatment is key to breaking the cycle of hard-core drug use, and that is why we're asking additional

funds in this area. Our strategy emphasizes treatment, not only because it is the compassionate thing to do, but also because it is a smart thing to do. Each dollar we spend on drug treatment is repaid seven-fold, in the form of reduced crime and lower public expenditures. I would add also that although it's not as widely recognized, drug abuse contributes greatly to the nation's rise in health care cost. A recent study estimated that drug use is responsible for \$3.2 billion annually in medical costs. If you add the cost of alcohol abuse, the figures grow dramatically larger. Our strategy is requesting \$355 million in new targeting fund to treat an additional 74,000 hard-core addicted drug users; and in the crime Bill, soon to be conferenced in the Congress, is fundings sufficient to treat another 65,000 drug users through the criminal justice system. As the President put it recently, 'When you look at the percentage of people who commit crimes, who have a drug or alcohol abuse problem it does not make any sense to put them back on the streets without adequate drug treatment'. Another good idea in the crime Bill is support for drug courts, a very promising initiative pioneered by Attorney General Janet Reno in Dade County, Florida when she was the State's Attorney. Drug courts have proven to be effective in several cities in helping nonviolent drug offenders obtain the treatment they need to get off drugs and put their lives back on track. In Illinois you've made a serious commitment to criminal justice drug treatment. Last fall I visited the Violence Interruption Program in Chicago, which is run jointly by Cook County Sheriffs Office, and the Illinois Treatment Alternative to Street Crime, and which tries to get young drug offenders off drugs, and keep them out of further trouble. And on the

STATE OF ILLINOIS
88TH GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

120th Legislative Day

April 26, 1994

subject of drug treatment, I should add that when the President's Health Security Act becomes law every American will gain access to treatment for substance abuse programs...problems through the new substance abuse benefit. And that's a very important aspect of legislation pending before our Congress, because not only will every American have the benefit of quality guaranteed health care that cannot be taken away from them, but also every American would have substance abuse treatment as part of the national health care system. Of course, I think we all could agree that the best anti-drug program is prevention. Stopping drug use before it starts, to that end, we would increase our efforts to instill in America's youth, a set of values that will inoculate them against the allure of drug trafficking, and the escape of drug addiction. The strategy proposes a \$191 million increase in funding for safe and drug free schools programs, and it calls on all adults to let their children know in no uncertain terms that drugs are not only dangerous, they are also illegal. Some have criticized our strategy's high priority on prevention. Well, as someone who has been in law enforcement for over 30 years, I've learned that a little effort paid up front to prevention can hit off a lot of criminal activity down the line. Others say that our strategy's new emphasis on demand reduction means that law enforcement is now a lower priority. That is absolutely false. Overall the strategy calls for increase of assistance for state and local government by more than 300%. The President remains committed to making good his pledge to put a 100,000 additional police on the streets of American cities. As you know, we made a down payment with grants to 108 local law enforcement agencies under the

Police Hiring Supplement Plan. Over the next several months, grants will be awarded to another 100 additional police departments. You should also know that the President's pledge that if the Congress passes the Crime Bill without further delay, he will cut through the bureaucracy and the red tape to make sure that 20,000 of the new police officers are hired, trained, and ready to go to work within a year. These new officers will make a real difference in communities throughout your great state. The strategy proposes a dramatic increase in community policing initiatives to help neighborhood residents take back their streets. This concept of the police entering into genuine partnerships with the citizens to prevent crimes before they occur, and arrest offenders when they do occur, is absolutely basic to our strategy. You know and I know that when it is done right community policing works. When we initiated it in Houston, Texas when I served as police chief there, we saw the crime rate go down; when we implemented it in New York City, when I was that city's police commissioner, the crime rate declined there as well. And community policing is making a real difference here in Illinois. As part of the President's \$150 million hiring supplement, our administration awarded grants to Carbondale, Carol Stream, Chicago, Country Club Hills, East St. Louis, and Moline to put more police officers on the streets in this state for community policing. And with the \$9 billion program included as part of the crime Bill, we'll be able to help communities implement community policing on a much larger scale. One area in which our strategy departs from previous drug strategies is advocacy of gun control and its recognition of the close link between drugs and violence. Too many guns get into the

wrong hands, into the hands of young people, into the hands of career criminals. The Centers for the Disease Control now predicts that firearms will soon become the number one cause of injury deaths in America, surpassing deaths from motor vehicles. The problem's even worse in the minority community. A young african american male of this country is seven times more likely to die from a gunshot wound than his white counterpart. In fact, gunshots are now the leading cause of death for young black males. We all should hang our heads in shame over the fact in this country, a child dies from gunshot wounds every two hours. The President is committed and I am committed to ending this senseless slaughter. We find ourselves in a unique position that for the first time in the history of this country, if not for the history of this world, our children are killing our children. In November, the President signed the 'Brady Law', and already there are only two months since it has been implemented thousands of felons and fugitives have been stopped from purchasing handguns, and this very week the House of Representatives in Washington will begin to consider an issue that has been contentious here in Illinois, an assault weapons ban. I don't know the specifics of your own proposal, but the President's is as simple as it is straightforward. Specifically, it bans 19 of the deadliest assault weapons, but exempts more than 650 legitimate sporting and hunting weapons. We're not asking anyone to take the government's word on these, on what weapons will or won't be banned, so we're writing it right into the law. Interdiction and international programs will continue to play an important role in our drug strategy, because what happens in Peru and Colombia and Bolovia affects the availability of deadly

drugs on the streets of Chicago and in Rockford and Peoria. Under our strategy we will shift the emphasis of our international programs to strengthen the ability of source and transit countries to combat their own drug trafficking organizations, intensify our tact on international drug kingpins, and step up efforts to interdict drugs and eradicate drug crops at their source. Recently, I named the Commandant of the Coast Guard, Admiral Kime to be the Federal Government's first interdiction coordinator. Admiral Kime will help me to ensure that the several federal agencies responsible for interdiction of drugs at our border, work together smoothly and efficiently and avoid wasteful overlap and duplication. Finally, I'd like to touch briefly on one additional way in which our strategy departs from previous strategies. In the past, drug policy was seen as totally separate from other policy areas, both domestic and international. We think that's the wrong approach because the drug problem won't be solved by drug programs alone, no matter how effective they may be. I'd understand that in Illinois the Illinois Alcoholism and Drug Dependence Association has mounted an educational campaign to better inform policymakers and the public about the relationship between crime, drugs and violence and education and health care and other social problems. It's important that we all recognize these linkages. To make real progress over the long term we're going to have to confront not only the symptoms of crime and drugs, but also their underlying causes. We must address the problem of poverty in our country. We must address health care and make health care a right and not a privilege. We must address the lack of affordable housing. We must address poor education and poor schools and

STATE OF ILLINOIS
88TH GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

120th Legislative Day

weakened social institutions. We must address the problem of racism and discrimination in our country, and that is why we want to empower communities across America to resist and prevent drugs and crime. The President's empowerment zones and enterprised communities will target 104 of the most disadvantaged urban and rural areas of the country, often those hit hardest by drugs and crime and violence. Communities will be able to use their federal grants to expand drug treatment services and drug law enforcement, as well as community-based drug education and prevention programs. Before I conclude, I want to say a word about the legalization issue. As I said, I've been in law enforcement for over 30 years. During that time, I've served as an undercover narcotics officer; I've walked the beat, and I've ran some of the toughest cities in this country: Atlanta, Houston and New York City. In that capacity, I've seen what drugs do to men and women, what they do to families, what they do to communities. I've seen what drugs do to our disadvantaged communities. I know that the struggle against violence and addiction is a very difficult one, costly, and often frustrating. But legalizing drugs will lead to more drug use, not less; more unemployment, not less; more violence, not less; higher health costs, not lower. We say in this administration that we should offer help to those who need help, those who are addicted to drugs and arrest those who sell drugs, but we should never, ever, ever surrender. I'm confident that with our new strategy, this nation will make progress against drugs and violence. But as I said earlier, the strategy can't do it all. The government can't do it all, and certainly I can't do it all. Each of us must take responsibility for our own actions. Parents must take

responsibility for their children, and teach them that using drugs is wrong, that violence is a dead end. Citizens must ban together to take back their neighborhoods, block by block, and each of us must make room in our lives to help a troubled person to get back on the right track. Let me again, Mr. Speaker, thank you for allowing me the opportunity to share this time with you and share with you this administration's approach to addressing what we consider to be one of the more serious, one of the number one domestic problems in this country; that is a problem of substance abuse, and how we believe that working together the Federal Government, State Government, local government, and the people of our great country that we can, we will make a difference, and make our future better for our and children. Thank you very much."

Homer: "That was a concern that was expressed in committee, that is correct."

Black: "That's...does this Amendment in response to some concerns that some people had about, not everyone agreed, but I think someone said that you could literally be on your way home from Communion, if you were in a church that still served altar wine, obviously it might register, and with the zero tolerance, you'd lose your license without benefit of due process. So, I think your Amendment at least gives the accused an opportunity to present evidence in his or her case, if that's your intent. Correct?"

Black: "Thank you very much, Mr. Speaker. I simply rise to oppose the Gentleman's Motion that the fiscal note is not applicable. This Bill, Ladies and Gentlemen, this Amendment simply says that people in your district will not be able to solicit money at traffic intersections, the way many social service clubs have been doing for years and years and years, and it will have a fiscal impact. It appears to me that the municipality will have to enforce this Act, and that it does impose some standards of due process on the municipalities. I think they would regard this as an unfunded mandate. I speak against the Gentleman's Motion. I think the fiscal note is, in this fact, applicable."

Assembly declares that it is not the public policy of this state to mandate any particular percentage of crumb rubber modifiers and asphalt for paving applications. Just so that it's not a mandate, and is a voluntary program. Ask for its adoption."

Speaker McPike: "All right, is there any discussion on the Amendment? Mr. Wennlund, did you move for the adoption of the Amendment? Is there any discussion? Representative Currie."

Currie: "Thank you, Speaker. Would the Sponsor yield for a question?"

Speaker McPike: "Yes, he will."

Currie: "Representative, since the Bill itself doesn't say anything about percentages, why did you feel it necessary to specify that no percentages specified in the Bill? I don't understand. I'd like to know what your rationale here is?"

Wennlund: "The Department of Transportation was concerned that, that the original Bill would mandate certain fixed percentages of the crumb rubber, rubber tires."

Currie: "But this is a demonstration program, and I don't believe that the Bill itself specifies a percentage. Can you show me where in the Bill there is a specification?"

Wennlund: "It's my understanding the Department of Transportation felt that it was."

Currie: "Could you tell me where in the Bill that percentage is specified?"

Wennlund: "I can't answer the question, I..not without going through the entire Bill."

Currie: "So, Representative, there's nothing in the Bill that specifies a percentage."

Wennlund: "It's my understanding that the Department of

Transportation, that was their concern, and that's the reason for the Amendment. Just to clarify that the fact that, indeed, there is no specified mandated percentages of used rubber."

Speaker McPike: "Representative Hartke, for what reason do you rise?"

Hartke: "Well, I would like just to make comment. I think that Amendment #2 clarifies that it's setting up just two demonstration projects, and it does not say anything about a percentage or whatever. So, I'm not sure that Amendment #2 is necessary at all, Representative Wennlund."

Speaker McPike: "Mr. Wennlund."

Hartke: "Right, so I would urge a 'no' vote on this Amendment, since Amendment #1 just sets up two field demonstrations for the use of crumb rubber on developing a roadway, and so forth. And, it doesn't address the question of percentage at all, because Amendment #1 deletes everything after the enacting clause. So, when you're referring to the percentage, it wouldn't, where would you put it? I think possibly your Amendment is out of order, or it is ill drafted...or something."

Speaker McPike: "Mr. Wennlund, to close."

Wennlund: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, the sole purpose of the Amendment is just to make sure that, the concerns about mandated specified percentages of, of rubber tires and asphalt, just is not the policy of this state. I think that's necessary. I don't think it affects Amendment #1 at all, or the programs."

Speaker McPike: "The question is, 'Shall Amendment #2 be adopted?' All in favor say 'aye'; opposed, 'no'. The 'noes' have it, and the Amendment is defeated. Further

Clerk Rossi: "Floor Amendment #3, offered by Representative Persico."

Speaker McPike: "Representative Persico."

Persico: "Thank you, Mr. Speaker, Members of the General Assembly. Amendment #3 amends the School Code and Natural Resources Act. It requires the state board of education, and the Department of Energy and Natural Resources to conduct a joint study to determine the feasibility."

Speaker McPike: "Excuse me. Representative Granberg, for what reason do you rise?"

Granberg: "Thank you, Mr. Speaker. Point of Order. The Amendment amends a different Act than the underlying Bill, so I would ask the Chair to rule if the Amendment is germane or not. The Amendment."

Speaker McPike: "Representative Persico, your Amendment is not germane. Further Amendments?"

Clerk Rossi: "Floor Amendment #4, offered by Representative..."

Speaker McPike: "Just a minute, Mr. Clerk. Representative Persico."

Persico: "Thank you, Mr. Speaker. Under House Rule 36 (d), the rule states that the Amendment is in order as long as it's related to the subject of the Bill, and since Representative Currie's Bill amends the Environmental Protection Act; my Bill deals with the environment in terms of recycling program, and I do think it is related to her particular Bill. And under 55 (c), and I'm joined by four other Members of this side, we want a Roll Call Vote on this, please."

Speaker McPike: "You want a Roll Call Vote on what?"

Persico: "On Amendment #3, to overrule the Chair."

Have all voted? Have all voted? Have all voted who wish? Have all voted who wish? Mr. Hartke, did you want to talk? Turn off your light. Have all voted who wish? The Clerk will take the record. On this Motion, there are 51 'ayes' and 64 'noes'. Representative Wennlund, for what reason do you rise?"

Wennlund: "Request a Verification of Negative Votes."

Speaker McPike: "All right, the Gentleman has asked for a Verification of the Negative Votes. Mr. Representative Wennlund. Mr. Wennlund, it takes 60 votes to pass this Motion. It takes 60 votes to pass this Motion. So, if you verify off all of the negative votes, the Motion still fails. So, the Chair will rule that your request is dilatory. Mr. Wennlund."

Wennlund: "Thank you, Mr. Speaker. Request a verification of the 'aye' votes."

Speaker McPike: "The Chair misspoke, it's 71 votes to overrule the Chair. So, Mr. Wennlund, if you verify all of the affirmative votes, you will still have 51 votes, and so the Chair will rule that that request is also dilatory. Further Amendments? Take the record. On this Motion, there are 51 'ayes', 64 'noes', and the Motion fails. Further Amendments?"

Clerk Rossi: "Floor Amendment #4, offered by Representative Wennlund."

as amended in committee, shall be totally funded by the Illinois Department of Energy and Natural Resources through funds that it's received through the used tire management fund, which was the original purpose of the entire legislation anyway, so that projects like this would be funded out of the used tire management fund. I ask for it's adoption."

Speaker McPike: "Representative Currie."

Currie: "Thank you, Speaker and Members of the House. I rise in opposition to the Amendment. The Bill itself is silent on where funding shall come from. There's no reason that the department, in conjunction with the Department of Energy and Natural Resources, could not find funding through that source. But, I see no reason to limit a demonstration project to the sources that are proposed in Amendment #4. This is an effort to kill the Bill. If anyone wants to vote against this very mild, very small demonstration project program on Third Reading, they are of course more than welcome to do so. But I think the effort in this Amendment is to try to gut this small program, this small project and I would strenuously oppose adoption of this Amendment."

Speaker McPike: "Representative Hartke."

Hartke: "Thank you very much, Mr. Speaker. I stand in opposition of this Amendment, too, in agreement with the previous speaker. But I also think that if we decided that any agency could make a demand to the Department of Transportation to use any material and two demonstration projects and fund it, it takes the authority away from the Department of Transportation, and I really object to this concept."

Speaker McPike: "Representative Black."

I think that before you pass this thing out, you'd better take a look at this Amendment, or your liable to be bouncing up and down the highways. I don't even know how much content rubber modified asphalt will be. It's a good Amendment. Vote 'aye'."

This Amendment adds provisions to the original Bill to amend the State Police Act. It's actually a non-controversial, technical Amendment, Mr. Speaker, and I move its adoption."

Speaker McPike: "Is there anyone in opposition to this Amendment? To this non-controversial, technical Amendment? Representative Hartke."

Hartke: "Well, Representative Stephens, my good friend, have you asked and talked to me about this technical Bill? Can you refresh my memory, please? What type of change..."

Stephens: "Representative Hartke, I don't know if I specifically talked to you about this Amendment, but I did talk to you about House Bill 1792. This is simply a technical correction, requested by the Department of State Police. I don't recall, Chuck, if I specifically told you about this Amendment. If I haven't spoken to you, I apologize. I really don't think there's any controversy in this, and I would hope that you would join me in asking for some support on that side of the aisle."

Hartke: "Well, could you explain what 1792 does then, please?"

Stephens: "Representative, it just changes some section numbers. This was a House Bill that was passed and became law last year. LRB has asked for some corrective language in noting the sections. I can specifically tell you that on the second page of the Bill, Section 115-13, Section (a) changes the letter (c) to letter (b)..."

Hartke: "Thank you very much, Mr. Speaker. Last year we passed a piece of legislation through the Transportation Committee, the Governor signed, that dealt with the passage of wide vehicles through a construction zone, and we gave some exemptions to the agriculture community. Those have turned out to be a real nightmare for me and the construction people, as well as the Department of Transportation, and the posting and signage that was required. So, an agreement has been worked out to amend that Act, to delete some of those provisions, and that's the purpose of Amendment #3."

Speaker McPike: "Representative Wennlund, on a 'do adopt'."

Wennlund: "Thank you, Mr. Speaker. Has the Amendment been printed and distributed? We don't have a copy of it here."

Speaker McPike: "Mr. Salvi has moved for the adoption of the Amendment. Representative Hartke."

Hartke: "Well, thank you very much, Mr. Speaker. There were several Bills that came before my Transportation Committee, and this piece of legislation is just a little bit different than Representative Pankau's, and I'm in support of Representative Pankau's Bill, but Representative Salvi's legislation didn't get just one vote, it got two votes in committee, and now he's trying to piggyback this on Representative Pankau's Bill. I think it's a bad concept and a bad idea, and I stand in opposition to this Amendment on Representative Pankau's Bill."

Speaker McPike: "Representative Granberg."

Granberg: "Thank you. It seems like it might be up to Representative Pankau if this Bill, if this Amendment is adopted. It's my understanding that the Chairman of the Transportation Committee would then rise in opposition to the Bill, as amended. That is my understanding if that is the case, it certainly might enhance the Representatives' chances to defeat this Amendment, in which case, Representative Pankau might want to speak to Representative Salvi's Amendments."

Speaker McPike: "Representative Pankau."

spoken to Representative Salvi about the specifics, but that was my general understanding of his Amendment. If that indeed is the case and there wasn't anything else involved in it. I have no problem with this Amendment going on. And maybe Representative Hartke could enlighten us as to exactly what the additional things were that were contained in Representatives Salvi's Bill that were not contained in mine."

Speaker McPike: "Representative Hartke."

Hartke: "Representative Pankau, you were in committee as well as I, and heard this piece of legislation. Yours was accepted, and his was not by the majority of that committee. It seems to me now that this adds undue burden and restriction on a wider area than your legislation, and we agreed with you, yes we may want to try this, but the committee as a whole felt that Representative Salvi's idea was not a good idea at this time, and voted it down. Now, it's going to lead to some real problems with your legislation. There will be fiscal notes, and everything else that must be looked at. For yours, we planned on foregoing that at this time."

Speaker McPike: "Representative Pankau, did that answer your question? Representative Pankau."

Pankau: "I believe Representative Salvi will remove the Amendment."

Speaker McPike: "Representative Salvi."

Salvi: "I'd like to make it very clear that this Bill had the same number of votes as Carols, (Representative Pankau's). There was just a couple of Members out at the time of the vote. There was 14 'yes' votes on this Bill, not two, and it does exactly what I said it does. However, in light of the objection of the Representative, I will withdraw my

Speaker McPike: "Amendment #2, Representative Churchill."

Churchill: "Thank you Mr. Speaker, Ladies and Gentlemen of the
House. This Amendment changes the name of the agency to
the Fox Waterway Agency, permits adoption of ordinances to
improve the waterway and permits the agency to issue bonds
and finance acquisitions, sets limits on the fines and fees
that can be charged by the agency, and it permits
enrollment of its employees in the IMRF. I would ask you
to adopt Amendment #2."

Granberg: "Thank you, Mr. Speaker. Would the Gentleman yield?"

Speaker McPike: "Yes, he will."

Granberg: "Representative Churchill, does the unit, the Fox
Waterway Agency, have any taxing powers?"

taxing powers, it operates solely on fees which are charged
on boat owners who put their boat in the waterways of the
agency."

Granberg: "Did the previous entity have taxing powers?"

Churchill: "The previous entity did not, well the previous entity
was the State of Illinois, the Division of Waterways had

control over it. Ten years ago, the voters in this area, by referendum, established this agency. It had a ten year sunset on it. That sunset came due this spring. The voters by a margin of three or four to one voted to allow the agency to continue in existence and the previous agency and the current agency has no general taxing authority."

Granberg: "What the...is it the normal course, Representative? I saw that it permits the agency to borrow funds, and then to...they have the ability to borrow funds from any financial institution?"

Churchill: "In the past, the language did not permit them to borrow money at all. Now that they have been put into a permanent organization, they may need, from time to time the ability to go out and acquire a piece of equipment or do something that would require them to pay for that. So, in the language that we're putting into place now, we give them the right to issue bonds, would give them the right to go out and finance these acquisitions from lending institutions."

Granberg: "This would also give...so they have the right, they will have the right to borrow funds."

Churchill: "Right, they have not had that right in the past ten years."

Granberg: "This would also give them the right to issue bonds?"

Churchill: "That is correct."

Granberg: "What kind of bonds, jail bonds, revenue bonds?"

Churchill: "It would have to be a bond that would relate to their fees structures since they have no taxing authority."

Granberg: "So, that would not, when they would issue the bonds, there would be no, no assurance from any state or any other local entity to guarantee the bonds."

Churchill: "That is correct. The bond holders would have to

assume the risk that the fee structure would maintain a sufficient revenue spin to pay back the bonds."

Hartke: "Thank you very much. Representative Churchill, will you yield for a question?"

Speaker McPike: "Yes, he will."

Hartke: "In the discussion earlier in the committee, there was some concern about the agency having regulatory rights on the water shed and so forth. Is that correct?"

Churchill: "That is correct. There was language that allowed them to adopt ordinances that would prevent pollution in the watershed from reaching the waterway. I think it's a specific...language."

Hartke: "Right, but you don't plan on going up and setting up a requirements for where people spread chemicals and what is allowed and backsetting from, for agriculture and so forth."

Churchill: "That is absolutely correct, Representative Hartke. It is not the intention of the agency to wander its way up into all the little tributaries, and tell farmers what they can and can't do with their properties. The basic watershed for this waterway comes from the State of Wisconsin, so we wouldn't be able to go in to the State of Wisconsin and do that anyway."

Hartke: "Okay, I don't have any problem with that. Does this also set up a per diem for the Members of the board which is, hasn't been there in the past?"

Churchill: "That was in the original Amendment, the Amendment I'm trying to put on now does not contain that language."

Granberg: "Thank you, Mr. Speaker. I did not, was unaware the fiscal note had been filed. We will request...I will...file a fiscal note."

Speaker McPike: "All right, it stays on Second Reading. State and Local Government, Second Reading, House Bill 2704, Representative Tim Johnson. Tim Johnson here? No. Representative Edley, on House Bill 2727. Edley? Mr. Edley here? Mr. Novak, 2754. Mr. Edley, there he is, do you want your Bill read? Mr. Edley, 2727. Read the Bill, Mr. Clerk."

Clerk Rossi: "House Bill 2727, a Bill for an Act amending the Illinois Vehicle Code. Second Reading of the Bill. Amendment #1 was adopted in committee. No Motions filed. No Floor Amendments, but a fiscal note has been requested on the Bill."

Speaker McPike: "All right, Representative Giglio, in the Chair."

Speaker Giglio: "Representative Edley. Bill has been read. Take it out of the record. Take it out of the record. Under State and Local Governments, Second Reading, appears House Bill 2805, Representative Moseley. Are there any... Read the Bill, Mr. Clerk."

Clerk McLennand: "House Bill 2805, a Bill for an Act to amend the State Fair Act. Second Reading of the Bill. No Committee Amendments."

Speaker Giglio: "Any Floor Amendments?"

Clerk McLennand: "No Floor Amendments."

Speaker Giglio: "Third Reading. Representative Moseley, the Clerk informed me that there's a fiscal note filed, so it will have to... Representative Moseley."

Moseley: "Point of order, Mr. Speaker. I move that it does not apply. An inquiry of the Chair."

Speaker Giglio: "The Lady requests that the fiscal note does not apply. All those in favor... Representative Black, are you seeking recognition?"

Black: "Well, yes I am, Mr. Speaker. I have an inquiry of the Chair. Did the Representative file, is she moving that the fiscal note be ruled inapplicable?"

Speaker Giglio: "I believe that's what the Lady is implying, yes."

Black: "And, can I speak to that Motion?"

Speaker Giglio: "You sure may."

Black: "Thank you very much. Thank you very much, Mr. Speaker, Ladies and Gentlemen of the House. The underlying Bill says if you're an Illinois horse owner and you want to board your horse at the state fair grounds, that you can bump somebody out from Indiana or Missouri or Iowa, who may have dozens of horses there being trained at some, at no

considerable dollar value to the State of Illinois. So, when you're going to throw those horses out, to say that there's not a fiscal impact, I mean that's ludicrous. So, in all due respect, Mr. Speaker, I rise pursuant to Rule 55 (c) and ask, and am joined by a sufficient number of my colleagues, and ask that there be a Roll Call Vote on this Motion, and should the Motion get a requisite number to pass, I will seek a verification."

Speaker Giglio: "Representative Granberg."

Granberg: "Thank you, Mr. Speaker. A point of order. This is clearly dilatory, and I would so ask, so request the Chair."

Speaker Giglio: "Representative Black, Representative Granberg's point is well-taken. This doesn't apply to finances or money, it just is about the priority for Illinois horses versus out of state horses, so... Representative Kubik."

Kubik: "Mr. Speaker, the Lady made a Motion. Mr. Black responded to the Motion. Now I realize that the Majority Party has seized upon a new initiative which is to say that everything is dilatory, and then we don't have votes on the Motion. But the Lady clearly made a Motion, and nobody said that the Motion, withdrew the Motion or said the Motion was out of order. The Motion is still on the table. It ought to be voted on."

Speaker Giglio: "Representative Granberg was the Gentleman that brought it to the floor's attention, Representative Kubik. That it does dilatory, and the Parliamentarian looked at the Bill and informed the Chair that the monetary question of Representative Black questioned about is inapplicable. So.."

Kubik: "Mr. Speaker, really I think that..."

Speaker Giglio: "It's dilatory and well-taken, and it doesn't

apply."

Kubik: "Mr. Speaker, I think that, I really think that we ought to reexamine how we are proceeding here. Because, I think that what's going to happen is it's going to be very difficult to continue the business of this House, if we continue to use that particular parliamentary procedure to knock out some of these Motions, and I think that you're going to find that it's going to be very difficult to continue. All we're asking is a Motion. Now, if you don't think that the fiscal note applies, then you vote against it, but I don't see anything wrong with allowing a vote on the Motion, and Representative Moseley can certainly stand up in debate and make her point that it does not apply. But I think to just unilaterally dismiss these Motions based on a point of order is going to have some very serious repercussions. It's going to be tough to get through the Calendar today if this is what's going to happen. So I would ask, Mr. Speaker, that we consider these Motions and consider them well."

Speaker Giglio: "Representative McPike."

McPike: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. To some extent I do agree with Representative Kubik, and the last two days in the Chair, I've tried to take that into consideration. When the Republicans filed a request for a fiscal note on a vehicle Bill, I ruled that it was dilatory. The point of the Fiscal Note Act was to tell people on this floor roughly what the Bill would cost in its current shape or its current form, and a vehicle Bill costs nothing. I don't know what it's going to become in the Senate or what it's going to become if it comes back in a conference committee. No one knows. But the fiscal note was to tell us roughly what a Bill costs in its

current shape, and sitting in the Chair, I ruled that dilatory; and it was, it was silly, it was dilatory, because no matter what agency you sent the request to they would all come back and say the same thing, 'it costs nothing.' So some of these should be ruled on a point of order; dilatory. Other, other of them, and I agree with you, other of them on a case by case basis the individual should make a Motion. Now on this particular one I haven't looked at it, and Representative Granberg would like to address it. Thank you, Mr. Speaker."

Speaker Giglio: "Representative Granberg."

Granberg: "Thank you, Mr. Speaker. I will withdraw my Motion, a point of order being dilatory and let the Lady make her Motion, argue her Motion on the fiscal note being applicable. So, I withdraw my point of order."

Speaker Giglio: "The Gentleman withdraws his point of order and now we're on the Lady's Motion. Representative Moseley."

Moseley: "Thank you, Mr. Chairman. Previously stated in debate, way back when we were talking about the Motion, it was stated that this would have horse shows or horses being bumped out of stalls. What has come about actually is not what it's going to cost State Government; there really isn't a cost to State Government in this Bill. It could have a potential impact, but more than that, what is happening is out-of-state horse shows are bumping Illinois horse shows. So, I would like to point out that the impact is actually occurring in the current law, where Illinois owners of horses are losing revenues to out of state owners of horses on our state supported property at the state fairgrounds. So, I again rule that this fiscal note request is inapplicable, that this will actually generate more money for Illinois horse owners. Thank you."

Speaker Giglio: "Representative Black."

Black: "Thank you very much, Mr. Speaker. To the Sponsor's Motion, and the underlying reason perhaps for it. There is a space problem at the fairgrounds, as I understand it from the Department of Agriculture, that will be corrected within a year. She may in fact have some difficulty with this, but the Department of Agriculture is adamant that this may very well cost the State of Illinois revenue, if someone is here with a string of 20 or 30 show horses for a weekend or week long event, and an Illinois breeder who has two horses demands two stalls. Do you really think the person from Iowa or Missouri who has 40 horses is only going to put two of them out in the south 40 and keep the 38 here. That person will leave the show and leave the arena, and the Department of Agriculture is adamant that this could, in fact, negatively impact revenue to the Department of Agriculture and perhaps indirectly to the state fair. Remember, you all voted last year to make the state fair self-sustaining. Now you can't come back here because of a temporary problem that should be resolved in a year, and say, 'Well, that doesn't make any difference because somebody from Illinois ought to get priority'. Ninety-nine times out of a hundred I would agree with you, but some of the horse breeders who bring in dozens of horses and pay the going rate should not be made to leave and they will leave, if you say, 'well you're going to have to take two of your horses out of here, because there are two from Illinois that we want to board'. If we have the space, I would agree with the Sponsor of the Bill that we should give preference to Illinois horses. But, because of some remodeling, that isn't possible right now. So, I would ask you to think very carefully about what you're

doing and I urge you to vote against the Motion. The fiscal note on this Bill is applicable and I for one would like to know how much it would cost."

Speaker Giglio: "Representative Wennlund."

Wennlund: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. The liaison for the Department of Agriculture explained it to me this way, that if we give priority to the smaller shows, because they are residents of Illinois, then we lose the bigger out-of-state shows, and that's what's going to cost the department money. That's what's going to cost the state money and the amount of money that's spent here in Springfield, and at the fairgrounds. So, it would give priority to an in-state smaller show over an out-of-state larger show that would bring in a lot more revenue. That's the net effect of it and that's why the Department of Agriculture feels that the fiscal note is definitely applicable, and a 'yes' vote, or a 'no' vote on the Motion is a proper Motion and, Mr. Speaker, pursuant to Rule 55 (c) I demand and request, and I'm joined by five of my colleagues, a record vote on the issue."

Speaker Giglio: "Representative Woolard."

Woolard: "Thank you, Mr. Chairman, Ladies and Gentlemen of the House. I think as Chairman of the Agriculture Committee that we have had a fair hearing on this issue. I think that we have discussed this. I think that the real difference between the interpretation of some people and the Sponsor of this legislation is the belief that the intent of the Bill is specific to saying reserve or hold the position that you have. There's nothing that says that the priority in this piece of legislation would kick someone out of a stall who was there for an out-of-state show or from an out-of-state area. What, in fact, it does

STATE OF ILLINOIS
88TH GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

say, is that there will be a priority given to those people who pay taxes in this state, and I think that the real issue here is whether or not we believe that taxpayers in the State of Illinois have any special or specific additional reserved rights in an entity such as the state fair. I stand in support and believe that we positively do not have an applicable situation with this Fiscal Note Act."

Speaker Giglio: "Representative Olson."

Olson: "Thank you, Mr. Speaker, Ladies and Gentlemen of the Body. Think back a year ago to legislation that came out of this chamber and became law which said the state fair shall be self-sustaining. They depend upon the revenue they generate to operate the following year. They are no longer a general revenue fund appropriation out of the House and Senate. What we're doing here is we're limiting the funds that the fair can generate. We're going to take a higher rate stall fee so you can't come in here because we're going to exempt this for a lower rate stall fee. We're cutting the revenues of the fair, and it's not just the revenues that are raised during the fair, it's to all the other horse events that come into the area. The previous speaker talked about what happened in committee, and said there was no testimony, and he was very correct. The Department of Agriculture was there to offer testimony, had filed a slip to offer testimony, but we passed it out on an Attendance Roll Call. There was no opportunity for the department to offer their testimony against the legislation in which said Illinois horses can preempt out-of-state horses at a lower fee. There is a fiscal impact here, very definitely, and you should vote 'no' on the Lady's Motion."

Speaker Giglio: "Representative McPike."

Rutherford: "Yes, Mr. Speaker, having voted on the prevailing side, I move to reconsider the vote by which this fiscal note was ruled inapplicable, this per House Rule 73, and I also want to have a Roll Call Vote, a roll call, pursuant to Rule 55 (c)."

Speaker Giglio: "Representative McPike."

Lang: "Thank you, Mr. Speaker. Amendment #7 is basically an agreed matter. We had...it is on the issue of some technical changes in the Liquor Control Act that involved the City of Chicago only. These changes are technical and it involves the petition to vote a precinct dry; it involves the number of days that the authority is to give its decision in a liquor case, and this is the product of negotiation with about 20 people around a table. There are no known opponents to this and I would move adoption of the Amendment."

Speaker Giglio: "Representative Granberg, are you seeking recognition?"

Granberg: "On a point of order, Mr. Speaker. With all due respect to the Gentleman, I believe it is dilatory. There is no fiscal note request or no fiscal impact stamped on the face of the Bill. There is clearly no fiscal impact whatsoever. Even the reference bureau did not indicate there might be any fiscal impact on the face of the Bill, and I would ask the Chair to rule."

Speaker Giglio: "Representative Black."

Black: "Thank you very much. In all due respect to my colleague, if you'd look at the Bill, it brings more people into the system, into the Fraternal Order of Police. Now our staff feels truly concerned about the potential cost of this Bill. Our staffer is beside me and says there is no way that you can rule that there isn't a fiscal impact on this Bill. We filed this on the 21st of April. It wasn't a last minute thing; it's in our normal course of looking at these Bills. I must rise, I would hope that the Representative would withdraw that request. This truly does have a potential for cost, and I would ask the Chair to so rule."

Speaker Giglio: "Representative Black, do you want to withdraw that Motion? Representative Black?"

Black: "Thank you very much, Mr. Speaker. Staff has pointed out that there is a reference to Section 14-110 of the Illinois Pension Code. Is it the Sponsor's intent that this would have absolutely no impact on the potential pension cost or operation of a unit of government?"

Speaker Giglio: "Representative Moseley."

Moseley: "Mr. Speaker and Mr. Black, this Bill deals with the Disciplinary Act entirely. It's not meant to have an impact on the pensions, the only way that would be even possible is if someone was wrongly disciplined and then actually was, through the process, was given their rights back. So they would have been an impact on the pension system anyway, this would not add anyone to the pension system."

Black: "So, then I have your word then, that this has nothing to do with pension code or ."

Moseley: "My word is my bond, Representative Black."

Black: "All right, then... since I lost on the Illinois horse thing, I will withdraw the request for a fiscal note, because this gives preference to Illinois Police officers. Correct?"

Moseley: "Thank you, Mr. Black. It does."

Black: "I'm certainly for that."

Moseley: "It does indeed, thank you very much."

Speaker Giglio: "The Gentleman withdraws, has been withdrawn. Representative Saltsman, are you seeking recognition?"

Speaker Giglio: "Representative Wennlund."

Wennlund: "Thank you, Mr. Speaker. Amendment #1 does a wonderful thing for all the volunteer fire departments in Illinois and all volunteer firemen, because it creates a special category of license plates for the volunteer firemen who have obtained the achievement of a firefighter II designation. They have gone through all the necessary training and they have worked hard and they deserve special recognition because they have put hundreds of hours in saving lives and in saving property and houses in Illinois. And volunteer firemen deserve to have this special recognition by a special license plate that acknowledges their achievement and their life saving abilities; and, Mr. Speaker, pursuant to Rule 55 (c), I'm joined by four other Members on this side of the aisle, to request a record vote on the Amendment."

That's one, to make sure that it is correct in the statutes. I have nothing against our firemen, I think it's very good idea. However, I was ready to ask another question even though it maybe would have been found germane. And that is, in the past the Secretary of State has been somewhat opposed to any special license plates and I was just going to ask whether the Secretary of State had endorsed this concept for the volunteer firemen?"

Black: "Thank you. Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. I'm voting 'aye' on this question, to show my support for volunteer firemen in the State of Illinois. An 'aye' vote shows that you think the volunteer firemen in this state should be recognized and deserve to be recognized. A 'no' vote says to me very clearly that you don't think volunteer firemen should be recognized. I don't think that's advisable. I think an 'aye' vote is the correct vote on this Motion."

Stephens: "Did this Bill go through Transportation Committee when it was first heard?"

Hartke: "No Sir, it did not. It only went through Counties and Townships."

Stephens: "Were you there? Who is the Chairman of that committee? Chairman?"

Hartke: "The Chairman is Miguel Santiago, and your friend there Representative Noland. Representative Noland is the Minority spokesperson."

Stephens: "Well, Mr. Speaker, I wonder if you could explain to me, why if we're talking about a shell Bill and the Motion he says is dilatory. But a shell Bill by its definition, wouldn't that be dilatory? Why would we...isn't that redundant? And so if this is a shell Bill that does nothing and his position is that the Motion does nothing, shouldn't we then vote on the Motion if you're prepared to vote on the Bill? How does a Parliamentarian explain a shell Bill?"

Stephens: "Mr. Speaker, that's not fair. If we could get a guarantee from the Sponsor of the Motion that this Bill will never cost the taxpayers of the State of Illinois a dime, then maybe we could reconsider."

Speaker Giglio: "Third Reading. Further Amendments? Third Reading. On the Order of Second Reading, Public Utilities, appears House Bill 2740, Representative Brunsvold. Read the Bill, Mr. Clerk."

Clerk Rossi: "House Bill 2740, a Bill for an Act that amends the Emergency Telephone System Act. Second Reading of the Bill. Amendment #1 was adopted in committee. No Motions filed. No Floor Amendments. A fiscal note has been requested."

Speaker Giglio: "Representative Granberg. Representative Brunsvold."

Brunsvold: "Thank you, Mr. Speaker. I would ask the Gentleman to remove the fiscal note on this Bill. This Bill actually postpones the date at which the centrexes and exchange systems go into effect. If we do not pass this Bill, as of December 31 of this year, all residential and private centrexes will have to put in new units if they install an upgraded system. This Bill would actually postpone those dates and phase it in which would be better for the private and for public business. Private business would also benefit. It postpones this date until July of 1996."

Speaker Giglio: "Representative Black."

Black: "Yes, thank you very much, Mr. Speaker. Representative Brunsvold is correct. I apologize to you and the Body. We had talked about this. This Bill is necessary, in fact,

Speaker Giglio: "All right, the fiscal note has been withdrawn. All those in favor of the Amendment signify by saying 'aye'... No Amendment? But a fiscal note. All right, withdraw the request. The Bill shall be placed on the Order of Third Reading. All right, we're going to go back to State and Local Government. Representative Wennlund."

Wennlund: "Thank you, Mr. Speaker. There are two Bills that are Water Reclamation District Bills, 3065 and 3066; I withdraw the fiscal note on both of those so they can move ahead."

Speaker Giglio: "All right, on the Order of State and Local Government, Second Reading. Representative DeJaegher, you have another Bill, House Bill 3031. Representative DeJaegher. Bob DeJaegher. Representative DeJaegher, you have a Bill, 3031, Sir? Read the Bill."

It merely changes the quick take provisions that were in House Bill 2283, 2284. I don't believe that there is any formal opposition to the Bills, now in the form of Amendment #2, or Amendment #1, I'm sorry, and I would ask for its adoption."

Speaker Giglio: "Third Reading. Is it in order? Representative Granberg. Are you seeking recognition? The Chair wants to apologize if it made a mistake. House Bill 2854, Representative Biggert. Representative Black, are you seeking recognition?"

Black: "Yes, Mr. Speaker, I have an inquiry of the Chair. If you could go back to House Bill 3200, Representative Hartke's Bill. I believe Representative Cross offered Floor Amendment #1, and I don't know whether that Amendment was adopted on a voice vote or rejected on a voice vote. I

need that clarified."

Speaker Giglio: "It was rejected, Representative."

Black: "It was rejected?"

Speaker Giglio: "Yes, the Chair now follows in favor of the Amendment signify by saying 'aye'; opposed, 'no'. In the opinion of the Chair, the 'noes' had it. Representative Hartke and Representative Granberg and the Body said no in a voice vote and the Chair..."

Black: "I wasn't sure, I did need to get that clarified, thank you."

Speaker Giglio: "It's in the record. Representative Biggert. Read the Bill, Mr. Clerk."

Clerk Rossi: "House Bill 2854, a Bill for an Act amending the Civil Administrative Code of Illinois. Second Reading of the Bill. Amendment #1 was adopted in committee. No Motions filed. No Floor Amendments."

Speaker Giglio: "...Any Amendments filed, Representative Biggert? Mr. Clerk, what is the status of the Bill?"

Clerk Rossi: "Amendment #1 was adopted in committee. No Motions have been filed. No Floor Amendments, but a fiscal note, as amended, has been requested on the Bill."

Speaker Giglio: "All right, the Bill will remain on the Order of Second Reading. Representative Schakowsky. I'm sorry, Representative Biggert you have another Bill. (House Bill) 2894. We did this one. 2894. Read the Bill."

Clerk Rossi: "House Bill 2894, a Bill for an Act amending the Abused and Neglected Child Reporting Act. Second Reading of the Bill. Amendment #1 was adopted in committee. No Motions filed. Floor Amendment #2 is offered by Representative Dart."

Speaker Giglio: "Representative Granberg."

for Representative Dart?"

Speaker Giglio: "The Gentleman have leave? Hearing none, leave is granted."

Granberg: "Floor Amendment #2 simply provides that the Governor would appoint all five members of the task force."

Speaker Giglio: "Any discussion on the Amendment? Representative Biggert."

Biggert: "Could I ask the Representative the reason for this Amendment?"

Speaker Giglio: "Representative Granberg."

Granberg: "Thank you, Mr. Speaker. Representative, once again the Speaker is attempting to help the Governor, as he always does, so we're trying to help the Governor, so he can appoint qualified people to his task force."

Speaker Giglio: "Representative Black (sic-Biggert)."

Biggert: "I'm sorry I could not hear the answer to that."

Granberg: "Once again, the Speaker is trying to help the Governor, and this would give the Governor the authority to appoint. We would think the Governor would be in favor of this, and we're just trying to help him once again."

Biggert: "That's fine, thank you."

Speaker Giglio: "Representative Black."

Black: "Yes, thank you very much, Mr. Speaker. I just simply rise to support Floor Amendment #2. The Governor is willing to accept this responsibility. We know it was difficult for the Speaker and the other Legislative Leaders to relinquish their appointment authority to the Governor, and I think, as everybody has found out in the last three years, this Governor won't shirk his responsibility. He'll appoint them, he'll appoint them, and then Representative Dart can find fault with it. But see he could have had some input, but he outsmarted himself on this one. So

we'll take the Amendment and this Governor will definitely appoint all five, and take that, Representative Dart."

Speaker Giglio: "Representative Granberg."

Granberg: "Mr. Speaker, there is a Constitutional question about the legislative appointed authority, that is why this Amendment has been filed. Unlike the Governor, we believe in following the Constitution, that is the reason."

Speaker Giglio: "All those in favor of the Amendment say 'aye'; opposed, 'no'. In the opinion of the Chair, the 'ayes' have it. The Amendment's adopted. Further Amendments?"

Clerk Rossi: "Floor Amendment #3, offered by Representative Lawfer."

Speaker Giglio: "Has the Amendment been printed and distributed, Mr. Clerk?"

Clerk Rossi: "The Amendment has not been printed and distributed."

Speaker Giglio: "The Bill will remain on the Order of... Representative Biggert."

Biggert: "I'll take the Bill out of the record."

Speaker Giglio: "Take the Bill out of the record. Representative Schakowsky, on House Bill 3032. Do you wish to call this Bill? (House Bill) 3032? Read the Bill, Mr. Clerk."

Clerk Rossi: "House Bill 3032, a Bill for an Act amending the Disabled Persons Rehabilitation Act. Second Reading of the Bill. No Committee Amendments. Floor Amendment #1, offered by Representative Schakowsky."

Speaker Giglio: "The Lady from Cook, Representative Schakowsky."

Schakowsky: "Thank you, Speaker and Ladies and Gentlemen of the House. Amendment #1 is essentially the same as House Bill 3874, which guarantees an increase in the pay for personal care attendance who serve persons with disabilities, which is the intention of this legislation to begin with. So, I

would move adoption of Amendment #1."

Speaker Giglio: "All those in favor of the Amendment...
Representative Black."

Black: "Thank you very much, Mr. Speaker. Will the sponsor
yield? Will the Sponsor of the Amendment yield?"

Speaker Giglio: "She indicates she will."

Black: "Thank you. Representative, If I heard you correctly, you
said that Floor Amendment #1 basically comes from House
Bill 3874, is that the Bill number?"

Schakowsky: "That is correct."

Black: "Who is the Sponsor of House Bill 3874?"

Schakowsky: "Representative Daniels."

Black: "And where is House Bill 3874 currently on the Calendar?"

Schakowsky: "I'm not sure, Representative."

Black: "Would you like to hazard a guess?"

Schakowsky: "Maybe you would like to tell me."

Black: "It seems to me that this Bill was left languishing in
committee, and suddenly resurfaces as an Amendment, your
Amendment to your House Bill. Could you... which shows I
think the underlying soundness of House Bill 3874, which
for whatever the reason, your side of the aisle decide to
keep bottled up. Could you tell me what your Amendment
that was House Bill 3874 does?"

Schakowsky: "Let me just say, Mr. Black that, the original
Sponsor of 3874 and I share, I believe, a genuine concern
about the low wages paid to homecare workers. It was not
my intention or hope that this would get involved in
partisan bickering or gridlock. My only hope is that we
can pass this Bill. If you prefer not to pass this
Amendment, I think it would be a shame."

Black: "No, Representative don't misrepresent my interest in the
Bill. I'm not here bickering. I intend to support your

Amendment as I supported Representative Daniels' underlying Bill. I just ask you to explain what it does."

Schakowsky: "The Bill would make sure that personal care attendants get 73% of the wages that are paid to homecare workers under the Department of Aging program. It would essentially raise their wages to around \$5.00..."

Black: "Let me just assure you, that I share your concern about this and I know Leader Daniels does, that's why he sponsored the Bill. It was my understanding in committee that you indicated that you would work with Leader Daniels to bring this about. Have you in fact done so?"

Schakowsky: "The truth is, Representative, that I did try. I can personally show you the memo that I wrote in that regard. It did not happen; and, therefore, in the interest of passing this legislation I wanted to offer this Amendment."

Black: "Thank you very much, Representative. Mr. Speaker and Ladies and Gentlemen of the House, the underlying Amendment was in fact sponsored as a Bill by Representative Daniels, and I certainly rise to support the Amendment. I think it makes the Bill much more agreeable to many of us on our side of the aisle. But it is interesting to note that on two previous Bills brought to the committee by Republicans, dealing with the very real problem of substandard wages to these home services workers, the Representative who is sponsoring House Bill 3032 voted 'present'. But perhaps, in fact, she has seen the light, and in her efforts to add Floor Amendment #1 to her Bill, I think she has made a good Bill far better and I simply rise to support the proposal to add Floor Amendment #1 to House Bill 3032."

Speaker Giglio: "The Gentleman from McHenry, Representative Skinner."

Skinner: "Mr. Speaker, My floor Leader is a bit mild, a bit too

mild. This Bill was killed in a straight party line vote in the Health Care and Whining Committee. A straight party line vote, the Bill was not worth even voting out of committee. When, soon to be, Speaker Daniels was Sponsor of the Bill, and now it's worthy of an Amendment on a Bill that managed to get out of the committee. How ironic."

Speaker Giglio: "The Lady from Cook, Representative Krause."

Krause: "Thank you. If the Sponsor would yield for a question? This goes back Representative on... Representative, I could address a question? On the Amendment you have which fully incorporates Representative Daniels Bill, House Bill 3874, have you added that to or does that become the Bill? You've added 3874 to 3032, so both provisions now you're saying would be in that Bill.?"

Schakowsky: "That's correct. I would just like to say that my recollection is that 3874 was not, in fact, called in committee, and I also would like Representative Black to know that I did not vote, I was not in committee to vote on the other Daniels Bills, I did not vote 'present' on his Bills because I wasn't there."

Krause: "If I could just respond to that, that is correct, 3874 was not called; however, 3906 and 3907 which was the reference that was made, which I agree you had left the room at that time, but you did not record a 'yes' vote, Representative, when, in fact, that type of support should have been given on both 3906 and 3907 and that support was not given and it should have been at that time. Thank you."

Speaker Giglio: "The Gentleman from Will, Representative Meyer."

Meyer: "Thank you, Mr.. Chairman. Will the Sponsor yield for a question?"

Speaker Giglio: "She indicates she will."

Meyer: "Representative just a... could we have a little order in

the House? It's hard for me to communicate. Representative I just had a question regarding: have you talked to your colleagues on your side of the aisle to make sure that they will support this Amendment that you're proposing."

Schakowsky: "If you're asking if I've done a complete roll call, I have not, but I expect, from talking to people that I have, that there will be support, yes."

Meyer: "I was concerned on that because I'm not sure that when measures such as this has been heard previously in the committee hearing that there was a great deal of support from that side of the aisle, and I was concerned that maybe we were getting into another partisan roll call fight here, certainly we don't need that today, and I would assume that this time we'll see a fair amount of support from that side of the aisle."

Schakowsky: "Truly Representative, that is my hope and my expectation."

Speaker Giglio: "Any further discussion? Representative Schakowsky, to close. Do you care to close?"

Schakowsky: "Yes, the Amendment as was stated, makes what I believe is a good Bill better and begins to bring some equity to homecare workers, personal care attendants, for persons with disabilities and I would hope that we could all support this Amendment and finally the Bill. I urge your 'aye' vote."

Speaker Giglio: "All those in favor of the Amendment signify by saying 'aye'; opposed, 'nay'. In the opinion of the Chair the 'ayes' have it. The Amendment is adopted. Further Amendments?"

House Amendment #2 to 3110 which, is a Supportive Employment Bill, merely incorporates two other employment supportive Bills, 3108 and 3109, which we just took out of the record. These three Bills were introduced as a package, regarding supportive employment. The Bills passed out of committee 28 to 0, 20 to 5 and 28 to 0. What I'm asking now is we simply incorporate these three Bills into the one Bill, 3110, and move it to Third and then we'll address the matter as a whole."

Speaker McPike: "On the Amendment, no discussion. The question is, 'Shall Amendment #2 be adopted?' All in favor say 'aye'; opposed, 'no'. The 'ayes' have it. The Amendments adopted. Further Amendments?"

Zickus: "Thank you, Mr. Speaker. Floor Amendment #2 requires the Department of Public Aid to use measures to enforce property transfer laws governing medicaid eligibility, and those would be Internal Revenue Service information, comprehensive financial checks on all applicants, and it places the burden of proving that a transfer of property within 30 months preceding the application for aid was made for reason other than to qualify for the increase in need for aid. Currie: "Thank you, Speaker. As the costs of this agency are paid entirely out of the institutions that it serves so there are no cost to State Government, no cost to any unit of Local Government. I would move that the Fiscal Note Act request is inapplicable."

Speaker McPike: "Yes."

Wennlund: "Can you tell us what impact this will have on the Illinois Education Facilities Authority Act?"

Currie: "This is a cleanup measure proposed by the Authority. It should result in no difference in the cost of that agencies operations, and, in fact, that agencies operations are paid for by the institutions they serve, not by the taxpayers."

Wennlund: "Thank you very much, Representative Currie. Mr. Speaker, there was, I believe, a Motion on the floor to rule the Fiscal Note Act inapplicable; and on that Motion, I request a record vote under rule 55 (c), and I'm joined by four of my colleagues."

mean, it is a recycling Amendment, it deals with the environment. I wish to have a Roll Call Vote on this, please."

Speaker McPike: "Representative Persico, your Amendment is not germane. Mr. Black."

Black: "Thank you very much, Mr. Speaker. An inquiry of the Chair."

Speaker McPike: "Yes."

Black: "Perhaps if the Parliamentarian could give us some idea, it appears to be the same chapter; it appears to be the same subject matter. I know the hour is late and we don't want to make you go to roll call on every issue, but we don't understand why these aren't germane."

Speaker McPike: "It doesn't amend the same Act. It's not the same subject matter. The Bill itself creates a business technical assistance office. The Amendment deals with school recycling. They're not even close, Mr. Black."

Black: "Why, I have a school right next door to a business in my district. You can't get any closer than that. I mean, are you really and truly, it didn't amend even the same Act?"

Speaker McPike: "Correct. Correct. You are correct. It did not amend the same Act, but it could still could have been germane, but it didn't even relate to the same subject. It didn't amend the same Act."

Black: "Okay.. Well..."

Speaker McPike: "Nor did it relate to the same subject. And it was not germane."

Black: "But subsequently, subsequently, on our request if you would just tell us where we are going wrong, we will try to correct that, because, this an Amendment that we feel strongly about."

Ryder: "Mr. Speaker."

Speaker McPike: "Yes."

Ryder: "Is it in the same code book? Is it in the same state? On previous rulings of the Chair, you have used that as criteria for saying that your Amendments are germane."

Speaker McPike: "Well, we have been fairly strict on germaneness and Mr. Ryder if..."

Ryder: "Only since noon."

It requires the State Board of Education and the Department of Energy and Natural Resources to conduct a joint study to determine the feasibility and to develop preliminary plans for the implementation of a statewide school recycling plan. Skinner: "Floor Amendment #2 will plug a hole that charitable organizations, such as Willow Creek Church in South Barrington, have discovered. The church has a ministry in which it accepts donations of motor vehicles that are in need of repair. The vehicles are repaired and then they are given to other members of the church. At the current time they are basically operating illegally, because they don't transfer the title. This will create a special temporary charitable repair permit, for institutions like this."

Kubik: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Amendment #2 becomes the Bill. It would only impact public school. It would require public schools to transfer the remainder of the students records as required by the Illinois School Student Records Act; this would include disciplinary records. It would remove the parents right to challenge the movement of students records. And the parents do have the right to challenge the disciplinary record at the time the suspension is made. This is a result of discussions between the Illinois Education Association and the State Board of Education. I'd be happy to respond to any questions you might have and would appreciate your support of the Amendment."

Speaker McPike: "Representative Granberg, on the 'do adopt' Motion."

Granberg: "Thank you. Representative Kubik, one question. With the comparison to Amendment #1, I believe under Amendment #1 a new school would not be aware of any disciplinary problems with the student unless that student was expelled. Does that change with Amendment #2?"

Kubik: "Yes, it is. Representative, the problem was we didn't feel we had enough time to really address some of the due process issues that might be related to passing along information on a situation that was not adjudicated."

And I would move to overrule the Chair, Mr. Speaker, and under Rule 55 (C) I would ask for a Roll Call Vote."

And it will not have a fiscal impact on the State of Illinois. And it is consistent with Housing and Urban Development proposals pending at the federal level. Moseley: "I have a real concern with that. If it's possible that we could either read that through a legislative intent or something I would like to ensure that no federal funds that should go to. Otherwise, we may have to defeat this particular part of it."

Biggert: "I would be happy to agree that that is the intent."

Speaker McPike: "Mr. Dart."

Dart: "Thank you, Mr. Speaker. Amendment #2 would provide the
police Amendment which I talked about earlier, and I move
for its adoption."

Speaker McPike: "Question is, 'Shall Amendment #2 be adopted?'
Representative Olson."

Olson: "Mr. Speaker. Could I have a question of Representative
Dart?"

Speaker McPike: "Absolutely."

Olson: "Representative Dart, this Amendment just passed about
three Bills ago on 2718. Do you still feel the need to put
it on my Bill?"

Dart: "The reason we have it on this Bill, is we're not sure
which criminal Bills are going to be passed and we want to
make sure that this police protection enhancement fund will
make it to the Governor's desk."

Olson: "I regret that you feel that way because this is a good
piece of legislation that I am sponsoring, and it came out
of committee with a unanimous vote. But, Mr. Speaker, if
Representative Dart persists I will take this out of the
record."

Curran: "Thank you, Mr. Speaker. I move to have House Bill 3205, with the concurrence of the other side of the aisle, put back onto the Consent Calendar. The Bill was inadvertently taken off Consent Calendar."

Speaker McPike: "All right, the Gentleman moves to return House Bill 3205 to Consent Calendar. Hearing no objections by using the Attendance Roll Call, it will be placed back on the Consent Calendar. Consent Calendar, Second Day, Banking, Second Reading. Representative Kotlarz, House Bill 2962. Mr. Kotlarz. Representative Flinn, on House Bill 3329. Read the Bill, Mr. Clerk."

Clerk McLennand: "House Bill 3329, a Bill for an Act concerning the regulation of savings banks. Second Reading of the Bill. Amendment #1 was adopted in committee. No Motions filed. Floor Amendment #2, offered by Representative Flinn."

Speaker McPike: "Mr. Flinn."

Flinn: "Thank you, Mr. Speaker. Amendment #2 is intended only to clarify the meaning of 3329. It does not change a thing."

It just..."

Speaker McPike: "The question is, 'Should Amendment #2 be adopted?' All in favor say 'aye'; opposed, 'no'. The 'ayes' have it. The Amendment is adopted. Further Amendments?"

Clerk McLennand: "No further Amendments."

Speaker McPike: "Third Reading. Representative Santiago, House Bill 3798. Santiago. Agriculture, Second Reading, House Bill 3755, Representative Schoenberg. Schoenberg. Read the Bill, Mr. Clerk."

Clerk McLennand: "House Bill 3755, a Bill for an Act that amends the Illinois Exotic Weed Act. Second Reading of the Bill. No Committee Amendments. No Floor Amendments. Fiscal note request has been filed."

Speaker McPike: "Mr. Schoenberg moves that a fiscal note is inapplicable. All those in favor of the Gentleman's Motion say 'aye'; opposed, 'no'. The 'ayes' have it, and the Motion carries. Third Reading. Mr. Black, on House Bill 3913. Read the Bill, Mr. Clerk."

Clerk McLennand: "House Bill 3913, a Bill for an Act that amends the Wildlife Code. Second Reading of the Bill. No Committee Amendments. Floor Amendment #1, offered by Representative Black."

Speaker McPike: "Representative Black."

Black: "Thank you very much, Mr. Speaker. Floor Amendment #1 simply removes the authority of the department from scheduling their administrative field trials. I would move your favorable consideration for Amendment #1."

Speaker McPike: "We have a request that you explain the Amendment again. There was a request that they couldn't hear it."

Black: "Okay. Floor Amendment #1 amends the underlying Bill on dog field trials, for dogs. Floor Amendment #1 simply says
