(30 ILCS 330/2) (from Ch. 127, par. 652)

Sec. 2. Authorization for Bonds. The State of Illinois is authorized to issue, sell and provide for the retirement of General Obligation Bonds of the State of Illinois for the categories and specific purposes expressed in Sections 2 through 8 of this Act, in the total amount of <u>$56,917,925,743</u> ~~$49,917,925,743~~.

The bonds authorized in this Section 2 and in Section 16 of this Act are herein called "Bonds".

Of the total amount of Bonds authorized in this Act, the additional $10,000,000,000 authorized by Public Act 93-2, the $3,466,000,000 authorized by Public Act 96-43, and the $4,096,348,300 authorized by Public Act 96-1497 shall be used solely as provided in Section 7.2.

The issuance and sale of Bonds pursuant to the General Obligation Bond Act is an economical and efficient method of financing the long-term capital needs of the State. This Act will permit the issuance of a multi-purpose General Obligation Bond with uniform terms and features. This will not only lower the cost of registration but also reduce the overall cost of issuing debt by improving the marketability of Illinois General Obligation Bonds.

Sec. 9. Conditions for Issuance and Sale of Bonds - Requirements for Bonds.

(a) Except as otherwise provided in this subsection and subsection (h), Bonds shall be issued and sold from time to time, in one or more series, in such amounts and at such prices as may be directed by the Governor, upon recommendation by the Director of the Governor's Office of Management and Budget. Bonds shall be in such form (either coupon, registered or book entry), in such denominations, payable within 25 years from their date, subject to such terms of redemption with or without premium, bear interest payable at such times and at such fixed or variable rate or rates, and be dated as shall be fixed and determined by the Director of the Governor's Office of Management and Budget in the order authorizing the issuance and sale of any series of Bonds, which order shall be approved by the Governor and is herein called a "Bond Sale Order"; provided however, that interest payable at fixed or variable rates shall not exceed that permitted in the Bond Authorization Act, as now or hereafter amended. Bonds shall be payable at such place or places, within or without the State of Illinois, and may be made registrable as to either principal or as to both principal and interest, as shall be specified in the Bond Sale Order. Bonds may be callable or subject to purchase and retirement or tender and remarketing as fixed and determined in the Bond Sale Order. Bonds, other than Bonds issued under Section 3 of this Act for the costs associated with the purchase and implementation of information technology, (i) except for refunding Bonds satisfying the requirements of Section 16 of this Act and sold during fiscal year 2009, 2010, 2011, or 2017 must be issued with principal or mandatory redemption amounts in equal amounts, with the first maturity issued occurring within the fiscal year in which the Bonds are issued or within the next succeeding fiscal year and (ii) must mature or be subject to mandatory redemption each fiscal year thereafter up to 25 years, except for refunding Bonds satisfying the requirements of Section 16 of this Act and sold during fiscal year 2009, 2010, or 2011 which must mature or be subject to mandatory redemption each fiscal year thereafter up to 16 years. Bonds issued under Section 3 of this Act for the costs associated with the purchase and implementation of information technology must be issued with principal or mandatory redemption amounts in equal amounts, with the first maturity issued occurring with the fiscal year in which the respective bonds are issued or with the next succeeding fiscal year, with the respective bonds issued maturing or subject to mandatory redemption each fiscal year thereafter up to 10 years. Notwithstanding any provision of this Act to the contrary, the Bonds authorized by Public Act 96-43 shall be payable within 5 years from their date and must be issued with principal or mandatory redemption amounts in equal amounts, with payment of principal or mandatory redemption beginning in the first fiscal year following the fiscal year in which the Bonds are issued.

Notwithstanding any provision of this Act to the contrary, the Bonds authorized by Public Act 96-1497 shall be payable within 8 years from their date and shall be issued with payment of maturing principal or scheduled mandatory redemptions in accordance with the following schedule, except the following amounts shall be prorated if less than the total additional amount of Bonds authorized by Public Act 96-1497 are issued:

Fiscal Year After Issuance	Amount
1-2	$0
3	$110,712,120
4	$332,136,360
5	$664,272,720
6-8	$996,409,080

Notwithstanding any provision of this Act to the contrary, State General Obligation Restructuring Bonds issued under Section 7.6 shall be payable within 7 years from the date of sale and shall be issued with payment of principal or mandatory redemption as set forth in subsection (h) of this Section.

In the case of any series of Bonds bearing interest at a variable interest rate ("Variable Rate Bonds"), in lieu of determining the rate or rates at which such series of Variable Rate Bonds shall bear interest and the price or prices at which such Variable Rate Bonds shall be initially sold or remarketed (in the event of purchase and subsequent resale), the Bond Sale Order may provide that such interest rates and prices may vary from time to time depending on criteria established in such Bond Sale Order, which criteria may include, without limitation, references to indices or variations in interest rates as may, in the judgment of a remarketing agent, be necessary to cause Variable Rate Bonds of such series to be remarketable from time to time at a price equal to their principal amount, and may provide for appointment of a bank, trust company, investment bank, or other financial institution to serve as remarketing agent in that connection. The Bond Sale Order may provide that alternative interest rates or provisions for establishing alternative interest rates, different security or claim priorities, or different call or amortization provisions will apply during such times as Variable Rate Bonds of any series are held by a person providing credit or liquidity enhancement arrangements for such Bonds as authorized in subsection (b) of this Section. The Bond Sale Order may also provide for such variable interest rates to be established pursuant to a process generally known as an auction rate process and may provide for appointment of one or more financial institutions to serve as auction agents and broker-dealers in connection with the establishment of such interest rates and the sale and remarketing of such Bonds.

(b) In connection with the issuance of any series of Bonds, the State may enter into arrangements to provide additional security and liquidity for such Bonds, including, without limitation, bond or interest rate insurance or letters of credit, lines of credit, bond purchase contracts, or other arrangements whereby funds are made available to retire or purchase Bonds, thereby assuring the ability of owners of the

Bonds to sell or redeem their Bonds. The State may enter into contracts and may agree to pay fees to persons providing such arrangements, but only under circumstances where the Director of the Governor's Office of Management and Budget certifies that he or she reasonably expects the total interest paid or to be paid on the Bonds, together with the fees for the arrangements (being treated as if interest), would not, taken together, cause the Bonds to bear interest, calculated to their stated maturity, at a rate in excess of the rate that the Bonds would bear in the absence of such arrangements.

The State may, with respect to Bonds issued or anticipated to be issued, participate in and enter into arrangements with respect to interest rate protection or exchange agreements, guarantees, or financial futures contracts for the purpose of limiting, reducing, or managing interest rate exposure. The authority granted under this paragraph, however, shall not increase the principal amount of Bonds authorized to be issued by law. The arrangements may be executed and delivered by the Director of the Governor's Office of Management and Budget on behalf of the State. Net payments for such arrangements shall constitute interest on the Bonds and shall be paid from the General Obligation Bond Retirement and Interest Fund. The Director of the Governor's Office of Management and Budget shall at least annually certify to the Governor and the State Comptroller his or her estimate of the amounts of such net payments to be included in the calculation of interest required to be paid by the State.

(c) Prior to the issuance of any Variable Rate Bonds pursuant to subsection (a), the Director of the Governor's Office of Management and Budget shall adopt an interest rate risk management policy providing that the amount of the State's variable rate exposure with respect to Bonds shall not exceed 20%. This policy shall remain in effect while any Bonds are outstanding and the issuance of Bonds shall be subject to the terms of such policy. The terms of this policy may be amended from time to time by the Director of the Governor's Office of Management and Budget but in no event shall any amendment cause the permitted level of the State's variable rate exposure with respect to Bonds to exceed 20%.

(d) "Build America Bonds" in this Section means Bonds authorized by Section 54AA of the Internal Revenue Code of 1986, as amended ("Internal Revenue Code"), and bonds issued from time to time to refund or continue to refund "Build America Bonds".

(e) Notwithstanding any other provision of this Section, Qualified School Construction Bonds shall be issued and sold from time to time, in one or more series, in such amounts and at such prices as may be directed by the Governor, upon recommendation by the Director of the Governor's Office of Management and Budget. Qualified School Construction Bonds shall be in such form (either coupon, registered or book entry), in such denominations, payable within 25 years from their date, subject to such terms of redemption with or without premium, and if the Qualified School Construction Bonds are issued with a supplemental coupon, bear interest payable at such times and at such fixed or variable rate or rates, and be dated as shall be fixed and determined by the Director of the Governor's Office of Management and Budget in the order authorizing the issuance and sale of any series of Qualified School Construction Bonds, which order shall be approved by the Governor and is herein called a "Bond Sale Order"; except that interest payable at fixed or variable rates, if any, shall not exceed that permitted in the Bond Authorization Act, as now or hereafter amended. Qualified School Construction Bonds shall be payable at such place or places, within or without the State of Illinois, and may be made registrable as to either principal or as to both principal and interest, as shall be specified in the Bond Sale Order. Qualified School Construction Bonds may be callable or subject to purchase and retirement or tender and remarketing as fixed and determined in the Bond Sale Order. Qualified School Construction Bonds must be issued with principal or mandatory redemption amounts or sinking fund payments into the General Obligation Bond Retirement and Interest Fund (or subaccount therefor) in equal amounts, with the first maturity issued, mandatory redemption payment or sinking fund payment occurring within the fiscal year in which the Qualified School Construction Bonds are issued or within the next succeeding fiscal year, with Qualified School

Construction Bonds issued maturing or subject to mandatory redemption or with sinking fund payments thereof deposited each fiscal year thereafter up to 25 years. Sinking fund payments set forth in this subsection shall be permitted only to the extent authorized in Section 54F of the Internal Revenue Code or as otherwise determined by the Director of the Governor's Office of Management and Budget. "Qualified School Construction Bonds" in this subsection means Bonds authorized by Section 54F of the Internal Revenue Code and for bonds issued from time to time to refund or continue to refund such "Qualified School Construction Bonds".

(f) Beginning with the next issuance by the Governor's Office of Management and Budget to the Procurement Policy Board of a request for quotation for the purpose of formulating a new pool of qualified underwriting banks list, all entities responding to such a request for quotation for inclusion on that list shall provide a written report to the Governor's Office of Management and Budget and the Illinois Comptroller. The written report submitted to the Comptroller shall (i) be published on the Comptroller's Internet website and (ii) be used by the Governor's Office of Management and Budget for the purposes of scoring such a request for quotation. The written report, at a minimum, shall:

(1) disclose whether, within the past 3 months, pursuant to its credit default swap market-making activities, the firm has entered into any State of Illinois

credit default swaps ("CDS");

(2) include, in the event of State of Illinois CDS activity, disclosure of the firm's cumulative notional volume of State of Illinois CDS trades and the firm's outstanding gross and net notional amount of State of Illinois CDS, as of the end of the current 3-month period;

(3) indicate, pursuant to the firm's proprietary trading activities, disclosure of whether the firm, within the past 3 months, has entered into any proprietary trades for its own account in State of Illinois CDS;

(4) include, in the event of State of Illinois proprietary trades, disclosure of the firm's outstanding gross and net notional amount of proprietary State of Illinois CDS and whether the net position is short or long credit protection, as of the end of the current 3-month period;

(5) list all time periods during the past 3 months during which the firm held net long or net short State of Illinois CDS proprietary credit protection positions, the amount of such positions, and whether those positions were net long or net short credit protection positions; and

(6) indicate whether, within the previous 3 months, the firm released any publicly available research or marketing reports that reference State of Illinois CDS and include those research or marketing reports as attachments.

(g) All entities included on a Governor's Office of

Management and Budget's pool of qualified underwriting banks list shall, as soon as possible after March 18, 2011 (the effective date of Public Act 96-1554), but not later than January 21, 2011, and on a quarterly fiscal basis thereafter, provide a written report to the Governor's Office of Management and Budget and the Illinois Comptroller. The written reports submitted to the Comptroller shall be published on the Comptroller's Internet website. The written reports, at a minimum, shall:

(1) disclose whether, within the past 3 months, pursuant to its credit default swap market-making activities, the firm has entered into any State of Illinois credit default swaps ("CDS");

(2) include, in the event of State of Illinois CDS activity, disclosure of the firm's cumulative notional volume of State of Illinois CDS trades and the firm's outstanding gross and net notional amount of State of Illinois CDS, as of the end of the current 3-month period;

(3) indicate, pursuant to the firm's proprietary trading activities, disclosure of whether the firm, within the past 3 months, has entered into any proprietary trades for its own account in State of Illinois CDS;

(4) include, in the event of State of Illinois proprietary trades, disclosure of the firm's outstanding gross and net notional amount of proprietary State of Illinois CDS and whether the net position is short or long

credit protection, as of the end of the current 3-month period;

(5) list all time periods during the past 3 months during which the firm held net long or net short State of Illinois CDS proprietary credit protection positions, the amount of such positions, and whether those positions were net long or net short credit protection positions; and

(6) indicate whether, within the previous 3 months, the firm released any publicly available research or marketing reports that reference State of Illinois CDS and include those research or marketing reports as attachments.

(h) Notwithstanding any other provision of this Section, for purposes of maximizing market efficiencies and cost savings, State General Obligation Restructuring Bonds may be issued and sold from time to time, in one or more series, in such amounts and at such prices as may be directed by the Governor, upon recommendation by the Director of the Governor's Office of Management and Budget. State General Obligation Restructuring Bonds shall be in such form, either coupon, registered, or book entry, in such denominations, shall bear interest payable at such times and at such fixed or variable rate or rates, and be dated as shall be fixed and determined by the Director of the Governor's Office of Management and Budget in the order authorizing the issuance and sale of any series of State General Obligation Restructuring Bonds, which order shall be approved by the Governor and is herein called a "Bond

Sale Order"; provided, however, that interest payable at fixed or variable rates shall not exceed that permitted in the Bond Authorization Act. State General Obligation Restructuring Bonds shall be payable at such place or places, within or without the State of Illinois, and may be made registrable as to either principal or as to both principal and interest, as shall be specified in the Bond Sale Order. State General Obligation Restructuring Bonds may be callable or subject to purchase and retirement or tender and remarketing as fixed and determined in the Bond Sale Order.

The aggregate principal and interest amounts of State General Obligation Restructuring Bonds authorized by and issued pursuant to this amendatory Act of the 100th General Assembly or other such amendatory Acts of the 100th General Assembly authorizing the issuance of State General Obligation Restructuring Bonds shall, in the aggregate, mature or be subject to redemption in the annual percentages set forth in the following schedule:

(1) for fiscal year 2019, 14.2857%;

(2) for fiscal year 2020, 14.2857%;

(3) for fiscal year 2021, 14.2857%;

(4) for fiscal year 2022, 14.2857%;

(5) for fiscal year 2023, 14.2857%;

(6) for fiscal year 2024, 14.2857%; and

(7) for fiscal year 2025, 14.2858%.

Notwithstanding the foregoing, the principal amounts calculated above shall be in increments of $5,000. Moreover, the percentages set forth in items (1) through (7) shall be applicable to the aggregate principal amount of State General Obligation Restructuring Bonds authorized by this amendatory Act of the 100th General Assembly and any other amendatory Acts of the 100th General Assembly authorizing State General Obligation Restructuring Bonds. While individual series of State General Obligation Restructuring Bonds as may be sold from time to time need not be scheduled to mature or be subject to redemption in accordance with the percentages above, redemptions whether by maturity or sinking fund, in any fiscal year for all State General Obligation Restructuring Bonds, in the aggregate, shall be no less than the percentages shown above. Notwithstanding the foregoing, in the event that fewer than all of the State General Obligation Restructuring Bonds authorized by this amendatory Act of the 100th General Assembly have been issued by September 1, 2017, failure of the then-outstanding State General Obligation Restructuring Bonds to satisfy the repayment schedule set forth above shall not affect the validity of any of those outstanding Bonds.

(30 ILCS 330/11) (from Ch. 127, par. 661)

Sec. 11. Sale of Bonds. Except as otherwise provided in this Section, Bonds shall be sold from time to time pursuant to notice of sale and public bid or by negotiated sale in such amounts and at such times as is directed by the Governor, upon recommendation by the Director of the Governor's Office of Management and Budget. At least 25%, based on total principal amount, of all Bonds issued each fiscal year shall be sold pursuant to notice of sale and public bid. At all times during each fiscal year, no more than 75%, based on total principal amount, of the Bonds issued each fiscal year, shall have been sold by negotiated sale. Failure to satisfy the requirements in the preceding 2 sentences shall not affect the validity of any previously issued Bonds; provided that all Bonds authorized by Public Act 96-43 and Public Act 96-1497 shall not be included in determining compliance for any fiscal year with the requirements of the preceding 2 sentences; and further provided that refunding Bonds satisfying the requirements of Section 16 of this Act and sold during fiscal year 2009, 2010, 2011, or 2017 shall not be subject to the requirements in the preceding 2 sentences.

If any Bonds, including refunding Bonds, are to be sold by negotiated sale, the Director of the Governor's Office of Management and Budget shall comply with the competitive request for proposal process set forth in the Illinois Procurement Code and all other applicable requirements of that Code.

If Bonds are to be sold pursuant to notice of sale and public bid, the Director of the Governor's Office of Management and Budget may, from time to time, as Bonds are to be sold, advertise the sale of the Bonds in at least 2 daily newspapers, one of which is published in the City of Springfield and one in the City of Chicago. The sale of the Bonds shall also be advertised in the volume of the Illinois Procurement Bulletin that is published by the Department of Central Management Services, and shall be published once at least 10 days prior to the date fixed for the opening of the bids. The Director of the Governor's Office of Management and Budget may reschedule the date of sale upon the giving of such additional notice as the Director deems adequate to inform prospective bidders of such change; provided, however, that all other conditions of the sale shall continue as originally advertised.

Executed Bonds shall, upon payment therefor, be delivered to the purchaser, and the proceeds of Bonds shall be paid into the State Treasury as directed by Section 12 of this Act.

All State General Obligation Restructuring Bonds shall comply with this Section. Notwithstanding anything to the contrary, however, for purposes of complying with this Section, State General Obligation Restructuring Bonds, regardless of the number of series or issuances sold thereunder, shall be considered a single issue or series. Furthermore, for purposes of complying with the competitive bidding requirements of this Section, the words "at all times" shall not apply to any such sale of the State General Obligation Restructuring Bonds. The Director of the Governor's Office of Management and Budget shall determine the time and manner of any competitive sale of the State General Obligation Restructuring Bonds; however, that sale shall under no circumstances take place later than 60 days after the State closes the sale of 75% of the State General Obligation Restructuring Bonds by negotiated sale.
