Senator Koehler offered the following Senate Joint Resolution, which was referred to the Committee on Assignments:

SENATE JOINT RESOLUTION NO. 60

WHEREAS, The State of Illinois seeks to support development that enhances public safety, agriculture, and industry and promotes economic and environmental security for communities across Illinois; and

WHEREAS, Protecting and restoring floodplains helps reduce flooding and avoids damages in flood-prone areas; it provides improved habitat for fish and wildlife, improved water quality, groundwater recharge, and opportunities for tourism and recreation; it also provides more room for rivers during flood events, reducing pressure on structures like dams and levees; and

WHEREAS, Floods are the most common natural disaster in the State and caused \$3 billion in property damage to Illinois residents between 2000 and 2018; and

WHEREAS, Scientific evidence demonstrates that floods are happening more frequently, and our current definitions of flood frequencies underestimate the recurrence of flood events; and

WHEREAS, Levees are built with the intention of protecting against recurring flood damage; although the State has regulations to ensure levees are designed and built as to not exacerbate the potential for flooding, they can contribute to real and residual flood risks; and

WHEREAS, Levees, floodwalls, and other types of flood control infrastructure are expensive to build and maintain, and lack of adequate maintenance of flood control structures can put people and property at risk; and

[February 6, 2020]

WHEREAS, Non-structural and nature-based flood risk management options, such as floodplain restoration, can provide more cost-effective long-term solutions for at-risk communities; and

WHEREAS, Poor and marginalized communities are frequently concentrated in flood-prone neighborhoods or areas of high real or residual flood risk due to historic and/or ongoing discriminatory housing policies; and

WHEREAS, Illinois floodplain development regulations protect public safety and should be maintained; and

WHEREAS, Restoration programs that correct past development actions lack adequate funding to correct the ongoing floodplain degradation; and

WHEREAS, Mitigation and practices that reconnect rivers to their floodplains do not restore the ecosystem functions, and the sites are frequently paved or turfed; and

WHEREAS, The ecosystem restoration programs in Illinois rarely reconnect rivers to their floodplains and often require the maintenance of levees to prohibit floods from damaging restoration project investments; and

WHEREAS, State agencies should consider how to integrate floodplain activities to promote projects and development that achieve co-equal benefits of flood risk reduction and ecosystem restoration; therefore, be it

RESOLVED, BY THE SENATE OF THE ONE HUNDRED FIRST GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that the Department of Natural Resources shall maintain existing regulations in Part 3700 of Title 17 of the Illinois Administrative Code that preserve the Department's authority to regulate levees to protective standards; and be it further

RESOLVED, That the Department of Natural Resources is directed to:

(1) Conduct a comprehensive review of floodplains and determine meaningful trends in how floodplain use impacts public safety, marginalized and poor communities, farm economics, fish and wildlife populations, natural resources, and water quality: in conducting this review, the Department of Natural Resources should consult with the following:

- (a) the Illinois Emergency Management Agency;
- (b) the Department of Agriculture;
- (c) the Association of State Floodplain Managers;
- (d) Environmental and conservation organizations;
- (e) City managers and mayors;
- (f) Organizations that represent minority populations;
- (g) Levee managers;
- (h) the Illinois Farm Bureau; and
- (i) Agricultural associations; and

(2) Make recommendations to the General Assembly as to how Illinois can better integrate floodplain programs to promote development and restoration activities that protect public safety, especially for our most vulnerable citizens, enhance the quality of the natural environment of Illinois, and support flood-compatible economies; and be it further

RESOLVED, That a suitable copy of this resolution be delivered to the General Assembly and the Director of the Department of Natural Resources.

ARTICLE VII

LOCAL GOVERNMENT

SECTION 13. INITIATIVE TO RECALL LOCAL GOVERNMENT OFFICIALS

A petition shall have been signed by the petitioning electors not more than 150 days after an affidavit has been filed with the local election official providing notice of intent to circulate a petition to recall the official. The affidavit may be filed no sooner than 6 months after the beginning of the official's term of office. The affidavit shall have been signed by the proponent of the recall petition.

If (elected official) is recalled, who do you support to replace (him or her)?

(Elected official).

(Candidate).

(Candidate)."

(c) Replacement candidates wishing to be listed on the recall ballot shall be certified under the same procedures as if they were running for the applicable office in a standard election, except for the petition circulation and filing of petitions shall only be between the time the intent to recall is filed and 90 days before the election. Candidates running to replace the recalled officeholder shall state clearly on their petitions which officeholder they are seeking to replace.

(d) There shall be no primary or runoff election after a recall election. The top vote-getter or vote-getters in the recall election shall replace the elected official or officials that were recalled.

(e) The procedure to be certified to run in the recall election shall be the same as being nominated and certified in the standard election for the office to be filled. Challenges to recall petitions shall follow the same procedures as challenges to petitions under the Election Code.

(f) If multiple officeholders from the same public office or district are being recalled, each recall question must be asked separately. All candidates running as replacements for that office and the current officeholder shall be on the ballot beneath the recall question.

(g) A recall petition certified by the local election official may not be withdrawn and another recall petition may not be initiated against the mayor or village president during the remainder of the current term of office. Any recall petition or recall election pending on the date of the next election at which a candidate for the office is elected is void.

(h) If the petition to recall the official receives a number of signatures less than 15% (of the total votes cast for the Governor in that election unit in the preceding gubernatorial election), but receives more than 10% (of the total votes cast for the Governor in that election unit in the preceding gubernatorial election), the recall election for the official shall be held during the next election in that unit of government.
