The separation of grades of such highways with railroads and costs associated with protection of at-grade highway and railroad crossing shall also be permissible.

Appropriations for any of such purposes are payable from the Road Fund or the Grade Crossing Protection Fund as provided in Section 8 of the Motor Fuel Tax Law.

Except as provided in this paragraph, beginning with fiscal year 1991 and thereafter, no Road Fund monies shall be appropriated to the Department of State Police for the purposes of this Section in excess of its total fiscal year 1990 Road Fund appropriations for those purposes unless otherwise provided in Section 5g of this Act. Sec. 8.12. State Pensions Fund.

(a) The moneys in the State Pensions Fund shall be used exclusively for the administration of the Revised Uniform Unclaimed Property Act and for the expenses incurred by the Auditor General for administering the provisions of Section 2-8.1 of the Illinois State Auditing Act and for operational expenses of the Office of the State Treasurer and for the funding of the unfunded liabilities of the designated retirement systems. For the purposes of this Section, "operational expenses of the Office of the State Treasurer" includes the acquisition of land and buildings in State fiscal years 2019 and 2020 for use by the Office of the State Treasurer, as well as construction, reconstruction, improvement, repair, and maintenance, in accordance with the provisions of laws relating thereto, of such lands and buildings beginning in State fiscal year 2019 and thereafter. Beginning in State fiscal year ~~2023~~ ~~2022~~, payments to the designated retirement systems under this Section shall be in addition to, and not in lieu of, any State contributions required under the Illinois Pension Code.

"Designated retirement systems" means:

- (1) the State Employees' Retirement System of Illinois;
- (2) the Teachers' Retirement System of the State of Illinois;
- (3) the State Universities Retirement System;
- (4) the Judges Retirement System of Illinois; and
- (5) the General Assembly Retirement System.

(b) Each year the General Assembly may make appropriations from the State Pensions Fund for the administration of the Revised Uniform Unclaimed Property Act.

(c) As soon as possible after July 30, 2004 (the effective date of Public Act 93-839), the General Assembly shall appropriate from the State Pensions Fund (1) to the State Universities Retirement System the amount certified under Section 15-165 during the prior year, (2) to the Judges Retirement System of Illinois the amount certified under Section 18-140 during the prior year, and (3) to the General Assembly Retirement System the amount certified under Section 2-134 during the prior year as part of the required State contributions to each of those designated retirement systems. If the amount in the State Pensions Fund does not exceed the sum of the amounts certified in Sections 15-165, 18-140, and 2-134 by at least \$5,000,000, the amount paid to each designated retirement system under this subsection shall be reduced in proportion to the amount certified by each of those designated retirement systems.

(c-5) For fiscal years 2006 through ~~2022~~ ~~2021~~, the General Assembly shall appropriate from the State Pensions Fund to the State Universities Retirement System the amount estimated to be available during the fiscal year in the State Pensions Fund; provided, however, that the amounts appropriated under this subsection (c-5) shall not reduce the amount in the State Pensions Fund below \$5,000,000.

(c-6) For fiscal year ~~2023~~ ~~2022~~ and each fiscal year thereafter, as soon as may be practical after any money is deposited into the State Pensions Fund from the Unclaimed Property Trust Fund, the State Treasurer shall apportion the deposited amount among the designated retirement systems as defined in subsection (a) to reduce their actuarial reserve deficiencies. The State Comptroller and State Treasurer shall pay the apportioned amounts to the designated retirement systems to fund the unfunded liabilities of the designated retirement systems. The amount apportioned to each designated retirement system shall constitute a portion of the amount estimated to be available for appropriation from the State Pensions Fund that is the same as that retirement system's portion of the total actual reserve deficiency of the systems, as determined annually by the Governor's Office of Management and Budget at the request of the State Treasurer. The amounts apportioned under this subsection shall not reduce the amount in the State Pensions Fund below \$5,000,000.

(d) The Governor's Office of Management and Budget shall determine the individual and total reserve deficiencies of the designated retirement systems. For this purpose, the Governor's Office of Management and Budget shall utilize the latest available audit and actuarial reports of each of the retirement systems and the relevant reports and statistics of the Public Employee Pension Fund Division of the Department of Insurance.

(d-1) (Blank).

(e) The changes to this Section made by Public Act 88-593 shall first apply to distributions from the Fund for State fiscal year 1996.

Sec. 13.2. Transfers among line item appropriations.

(a) Transfers among line item appropriations from the same treasury fund for the objects specified in this Section may be made in the manner provided in this Section when the balance remaining in one or more such line item appropriations is insufficient for the purpose for which the appropriation was made.

(a-1) No transfers may be made from one agency to another agency, nor may transfers be made from one institution of higher education to another institution of higher education except as provided by subsection (a-4).

(a-2) Except as otherwise provided in this Section, transfers may be made only among the objects of expenditure enumerated in this Section, except that no funds may be transferred from any appropriation for personal services, from any appropriation for State contributions to the State Employees' Retirement System, from any separate appropriation for employee retirement contributions paid by the employer, nor from any appropriation for State contribution for employee group insurance.

(a-2.5) (Blank).

(a-3) Further, if an agency receives a separate appropriation for employee retirement contributions paid by the employer, any transfer by that agency into an appropriation for personal services must be accompanied by a corresponding transfer into the appropriation for employee retirement contributions paid by the employer, in an amount sufficient to meet the employer share of the employee contributions required to be remitted to the retirement system.

(a-4) Long-Term Care Rebalancing. The Governor may designate amounts set aside for institutional services appropriated from the General Revenue Fund or any other State fund that receives monies for long-term care services to be transferred to all State agencies responsible for the administration of community-based long-term care programs, including, but not limited to, community-based long-term care programs administered by the Department of Healthcare and Family Services, the Department of Human Services, and the Department on Aging, provided that the Director of Healthcare and Family Services first certifies that the amounts being transferred are necessary for the purpose of assisting persons in or at risk of being in institutional care to transition to community-based settings, including the financial data needed to prove the need for the transfer of funds. The total amounts transferred shall not exceed 4% in total of the amounts appropriated from the General Revenue Fund or any other State fund that receives monies for long-term care services for each fiscal year. A notice of the fund transfer must be made to the General Assembly and posted at a minimum on the Department of Healthcare and Family Services website, the Governor's Office of Management and Budget website, and any other website the Governor sees fit. (b-9) (Blank).

(c) Further, payments may be made by the Department of Public Health and the Department of Human Services (acting as successor to the Department of Public Health under the Department of Human Services Act) from their respective appropriations for grants for medical care to or on behalf of premature and high-mortality risk infants and their mothers and for grants for supplemental food supplies provided under the United States Department of Agriculture Women, Infants and Children Nutrition Program, for any fiscal year without regard to the fact that the services being compensated for by such payment may have been rendered in a prior fiscal year, except as required by subsection (j) of this Section. Beginning on June 30, 2021, payments made by the Department of Public Health and the Department of Human Services from their respective appropriations for grants for medical care to or on behalf of premature and high-mortality risk infants and their mothers and for grants for supplemental food supplies provided under the United States Department of Agriculture Women, Infants and Children Nutrition Program payable from appropriations that have otherwise expired may be paid out of the expiring appropriations during the 4-month period ending at the close of business on October 31.

Section 3-46. The State Finance Act is amended by repealing Section 5.414.

Section 3-50. The State Revenue Sharing Act is amended by changing Section 12 as follows:

(30 ILCS 115/12) (from Ch. 85, par. 616)

Sec. 12. Personal Property Tax Replacement Fund. There is hereby created the Personal Property Tax Replacement Fund, a special fund in the State Treasury into which shall be paid all revenue realized:

- (a) all amounts realized from the additional personal property tax replacement income tax imposed by subsections (c) and (d) of Section 201 of the Illinois Income Tax Act, except for those amounts deposited into the Income Tax Refund Fund pursuant to subsection (c) of Section 901 of the Illinois Income Tax Act; and

(b) all amounts realized from the additional personal property replacement invested capital taxes imposed by Section 2a.1 of the Messages Tax Act, Section 2a.1 of the Gas Revenue Tax Act, Section 2a.1 of the Public Utilities Revenue Act, and Section 3 of the Water Company Invested Capital Tax Act, and amounts payable to the Department of Revenue under the Telecommunications Infrastructure Maintenance Fee Act.

As soon as may be after the end of each month, the Department of Revenue shall certify to the Treasurer and the Comptroller the amount of all refunds paid out of the General Revenue Fund through the preceding month on account of overpayment of liability on taxes paid into the Personal Property Tax Replacement Fund. Upon receipt of such certification, the Treasurer and the Comptroller shall transfer the amount so certified from the Personal Property Tax Replacement Fund into the General Revenue Fund.

The payments of revenue into the Personal Property Tax Replacement Fund shall be used exclusively for distribution to taxing districts, regional offices and officials, and local officials as provided in this Section and in the School Code, payment of the ordinary and contingent expenses of the Property Tax Appeal Board, payment of the expenses of the Department of Revenue incurred in administering the collection and distribution of monies paid into the Personal Property Tax Replacement Fund and transfers due to refunds to taxpayers for overpayment of liability for taxes paid into the Personal Property Tax Replacement Fund.

In addition, moneys in the Personal Property Tax Replacement Fund may be used to pay any of the following: (i) salary, stipends, and additional compensation as provided by law for chief election clerks, county clerks, and county recorders; (ii) costs associated with regional offices of education and educational service centers; (iii) reimbursements payable by the State Board of Elections under Section 4-25, 5-35, 6-71, 13-10, 13-10a, or 13-11 of the Election Code; (iv) expenses of the Illinois Educational Labor Relations Board; and (v) salary, personal services, and additional compensation as provided by law for court reporters under the Court Reporters Act.

As soon as may be after June 26, 1980 (the effective date of Public Act 81-1255), the Department of Revenue shall certify to the Treasurer the amount of net replacement revenue paid into the General Revenue Fund prior to that effective date from the additional tax imposed by Section 2a.1 of the Messages Tax Act; Section 2a.1 of the Gas Revenue Tax Act; Section 2a.1 of the Public Utilities Revenue Act; Section 3 of the Water Company Invested Capital Tax Act; amounts collected by the Department of Revenue under the Telecommunications Infrastructure Maintenance Fee Act; and the additional personal property tax replacement income tax imposed by the Illinois Income Tax Act, as amended by Public Act 81-1st Special Session-1. Net replacement revenue shall be defined as the total amount paid into and remaining in the General Revenue Fund as a result of those Acts minus the amount outstanding and obligated from the General Revenue Fund in state vouchers or warrants prior to June 26, 1980 (the effective date of Public Act 81-1255) as refunds to taxpayers for overpayment of liability under those Acts.

All interest earned by monies accumulated in the Personal Property Tax Replacement Fund shall be deposited in such Fund. All amounts allocated pursuant to this Section are appropriated on a continuing basis.

Prior to December 31, 1980, as soon as may be after the end of each quarter beginning with the quarter ending December 31, 1979, and on and after December 31, 1980, as soon as may be after January 1, March 1, April 1, May 1, July 1, August 1, October 1 and December 1 of each year, the Department of Revenue shall allocate to each taxing district as defined in Section 1-150 of the Property Tax Code, in accordance with the provisions of paragraph (2) of this Section the portion of the funds held in the Personal Property Tax Replacement Fund which is required to be distributed, as provided in paragraph (1), for each quarter. Provided, however, under no circumstances shall any taxing district during each of the first two years of distribution of the taxes imposed by Public Act 81-1st Special Session-1 be entitled to an annual allocation which is less than the funds such taxing district collected from the 1978 personal property tax. Provided further that under no circumstances shall any taxing district during the third year of distribution of the taxes imposed by Public Act 81-1st Special Session-1 receive less than 60% of the funds such taxing district collected from the 1978 personal property tax. In the event that the total of the allocations made as above provided for all taxing districts, during either of such 3 years, exceeds the amount available for distribution the allocation of each taxing district shall be proportionately reduced. Except as provided in Section 13 of this Act, the Department shall then certify, pursuant to appropriation, such allocations to the State Comptroller who shall pay over to the several taxing districts the respective amounts allocated to them.

Any township which receives an allocation based in whole or in part upon personal property taxes which it levied pursuant to Section 6-507 or 6-512 of the Illinois Highway Code and which was previously

required to be paid over to a municipality shall immediately pay over to that municipality a proportionate share of the personal property replacement funds which such township receives.

Any municipality or township, other than a municipality with a population in excess of 500,000, which receives an allocation based in whole or in part on personal property taxes which it levied pursuant to Sections 3-1, 3-4 and 3-6 of the Illinois Local Library Act and which was previously required to be paid over to a public library shall immediately pay over to that library a proportionate share of the personal property tax replacement funds which such municipality or township receives; provided that if such a public library has converted to a library organized under the Illinois Public Library District Act, regardless of whether such conversion has occurred on, after or before January 1, 1988, such proportionate share shall be immediately paid over to the library district which maintains and operates the library. However, any library that has converted prior to January 1, 1988, and which hitherto has not received the personal property tax replacement funds, shall receive such funds commencing on January 1, 1988.

Any township which receives an allocation based in whole or in part on personal property taxes which it levied pursuant to Section 1c of the Public Graveyards Act and which taxes were previously required to be paid over to or used for such public cemetery or cemeteries shall immediately pay over to or use for such public cemetery or cemeteries a proportionate share of the personal property tax replacement funds which the township receives.

Any taxing district which receives an allocation based in whole or in part upon personal property taxes which it levied for another governmental body or school district in Cook County in 1976 or for another governmental body or school district in the remainder of the State in 1977 shall immediately pay over to that governmental body or school district the amount of personal property replacement funds which such governmental body or school district would receive directly under the provisions of paragraph (2) of this Section, had it levied its own taxes.

(1) The portion of the Personal Property Tax Replacement Fund required to be distributed as of the time allocation is required to be made shall be the amount available in such Fund as of the time allocation is required to be made.

The amount available for distribution shall be the total amount in the fund at such time minus the necessary administrative and other authorized expenses as limited by the appropriation and the amount determined by: (a) \$2.8 million for fiscal year 1981; (b) for fiscal year 1982, .54% of the funds distributed from the fund during the preceding fiscal year; (c) for fiscal year 1983 through fiscal year 1988, .54% of the funds distributed from the fund during the preceding fiscal year less .02% of such fund for fiscal year 1983 and less .02% of such funds for each fiscal year thereafter; (d) for fiscal year 1989 through fiscal year 2011 no more than 105% of the actual administrative expenses of the prior fiscal year; (e) for fiscal year 2012 and beyond, a sufficient amount to pay (i) stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for local officials as authorized or required by statute and (ii) the ordinary and contingent expenses of the Property Tax Appeal Board and the expenses of the Department of Revenue incurred in administering the collection and distribution of moneys paid into the Fund; (f) for fiscal years 2012 and 2013 only, a sufficient amount to pay stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for regional offices and officials as authorized or required by statute; or (g) for fiscal years 2018 through ~~2022~~ 2024 only, a sufficient amount to pay amounts directed to be paid out of this Fund for public community college base operating grants and local health protection grants to certified local health departments as authorized or required by appropriation or statute. Such portion of the fund shall be determined after the transfer into the General Revenue Fund due to refunds, if any, paid from the General Revenue Fund during the preceding quarter. If at any time, for any reason, there is insufficient amount in the Personal Property Tax Replacement Fund for payments for regional offices and officials or local officials or payment of costs of administration or for transfers due to refunds at the end of any particular month, the amount of such insufficiency shall be carried over for the purposes of payments for regional offices and officials, local officials, transfers into the General Revenue Fund, and costs of administration to the following month or months. Net replacement revenue held, and defined above, shall be transferred by the Treasurer and Comptroller to the Personal Property Tax Replacement Fund within 10 days of such certification.

(2) Each quarterly allocation shall first be apportioned in the following manner: 51.65% for taxing districts in Cook County and 48.35% for taxing districts in the remainder of the State.

The Personal Property Replacement Ratio of each taxing district outside Cook County shall be the ratio which the Tax Base of that taxing district bears to the Downstate Tax Base. The Tax Base of each taxing district outside of Cook County is the personal property tax collections for that taxing district for the 1977 tax year. The Downstate Tax Base is the personal property tax collections for all taxing districts in the State outside of Cook County for the 1977 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district outside Cook County for the 1977 tax year.

The Personal Property Replacement Ratio of each Cook County taxing district shall be the ratio which the Tax Base of that taxing district bears to the Cook County Tax Base. The Tax Base of each Cook County taxing district is the personal property tax collections for that taxing district for the 1976 tax year. The Cook County Tax Base is the personal property tax collections for all taxing districts in Cook County for the 1976 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district within Cook County for the 1976 tax year.

For all purposes of this Section 12, amounts paid to a taxing district for such tax years as may be applicable by a foreign corporation under the provisions of Section 7-202 of the Public Utilities Act, as amended, shall be deemed to be personal property taxes collected by such taxing district for such tax years as may be applicable. The Director shall determine from the Illinois Commerce Commission, for any tax year as may be applicable, the amounts so paid by any such foreign corporation to any and all taxing districts. The Illinois Commerce Commission shall furnish such information to the Director. For all purposes of this Section 12, the Director shall deem such amounts to be collected personal property taxes of each such taxing district for the applicable tax year or years.

Taxing districts located both in Cook County and in one or more other counties shall receive both a Cook County allocation and a Downstate allocation determined in the same way as all other taxing districts.

If any taxing district in existence on July 1, 1979 ceases to exist, or discontinues its operations, its Tax Base shall thereafter be deemed to be zero. If the powers, duties and obligations of the discontinued taxing district are assumed by another taxing district, the Tax Base of the discontinued taxing district shall be added to the Tax Base of the taxing district assuming such powers, duties and obligations.

If two or more taxing districts in existence on July 1, 1979, or a successor or successors thereto shall consolidate into one taxing district, the Tax Base of such consolidated taxing district shall be the sum of the Tax Bases of each of the taxing districts which have consolidated.

If a single taxing district in existence on July 1, 1979, or a successor or successors thereto shall be divided into two or more separate taxing districts, the tax base of the taxing district so divided shall be allocated to each of the resulting taxing districts in proportion to the then current equalized assessed value of each resulting taxing district.

If a portion of the territory of a taxing district is disconnected and annexed to another taxing district of the same type, the Tax Base of the taxing district from which disconnection was made shall be reduced in proportion to the then current equalized assessed value of the disconnected territory as compared with the then current equalized assessed value within the entire territory of the taxing district prior to disconnection, and the amount of such reduction shall be added to the Tax Base of the taxing district to which annexation is made.

If a community college district is created after July 1, 1979, beginning on January 1, 1996 (the effective date of Public Act 89-327), its Tax Base shall be 3.5% of the sum of the personal property tax collected for the 1977 tax year within the territorial jurisdiction of the district.

The amounts allocated and paid to taxing districts pursuant to the provisions of Public Act 81-1st Special Session-1 shall be deemed to be substitute revenues for the revenues derived from taxes imposed on personal property pursuant to the provisions of the "Revenue Act of 1939" or "An Act for the assessment and taxation of private car line companies", approved July 22, 1943, as amended, or Section 414 of the Illinois Insurance Code, prior to the abolition of such taxes and shall be used for the same purposes as the revenues derived from ad valorem taxes on real estate.

Monies received by any taxing districts from the Personal Property Tax Replacement Fund shall be first applied toward payment of the proportionate amount of debt service which was previously levied and collected from extensions against personal property on bonds outstanding as of December 31, 1978 and next applied toward payment of the proportionate share of the pension or retirement obligations of the taxing district which were previously levied and collected from extensions against personal property. For each such outstanding bond issue, the County Clerk shall determine the percentage of the debt service which was collected from extensions against real estate in the taxing district for 1978 taxes payable in 1979, as related

to the total amount of such levies and collections from extensions against both real and personal property. For 1979 and subsequent years' taxes, the County Clerk shall levy and extend taxes against the real estate of each taxing district which will yield the said percentage or percentages of the debt service on such outstanding bonds. The balance of the amount necessary to fully pay such debt service shall constitute a first and prior lien upon the monies received by each such taxing district through the Personal Property Tax Replacement Fund and shall be first applied or set aside for such purpose. In counties having fewer than 3,000,000 inhabitants, the amendments to this paragraph as made by Public Act 81-1255 shall be first applicable to 1980 taxes to be collected in 1981.

Section 3-55. The General Obligation Bond Act is amended by changing Section 16 as follows:  
(30 ILCS 330/16) (from Ch. 127, par. 666)

Sec. 16. Refunding Bonds. The State of Illinois is authorized to issue, sell, and provide for the retirement of General Obligation Bonds of the State of Illinois in the amount of \$4,839,025,000, at any time and from time to time outstanding, for the purpose of refunding any State of Illinois general obligation Bonds then outstanding, including (i) the payment of any redemption premium thereon, (ii) any reasonable expenses of such refunding, (iii) any interest accrued or to accrue to the earliest or any subsequent date of redemption or maturity of such outstanding Bonds, (iv) for fiscal year 2019 only, any necessary payments to providers of interest rate exchange agreements in connection with the termination of such agreements by the State in connection with the refunding, and (v) any interest to accrue to the first interest payment on the refunding Bonds; provided that all non-refunding Bonds in an issue that includes refunding Bonds shall mature no later than the final maturity date of Bonds being refunded; provided that no refunding Bonds shall be offered for sale unless the net present value of debt service savings to be achieved by the issuance of the refunding Bonds is 3% or more of the principal amount of the refunding Bonds to be issued; and further provided that, except for refunding Bonds sold in fiscal year 2009, 2010, 2011, 2017, 2018, ~~or~~ 2019, or 2022, the maturities of the refunding Bonds shall not extend beyond the maturities of the Bonds they refund, so that for each fiscal year in the maturity schedule of a particular issue of refunding Bonds, the total amount of refunding principal maturing and redemption amounts due in that fiscal year and all prior fiscal years in that schedule shall be greater than or equal to the total amount of refunded principal and redemption amounts that had been due over that year and all prior fiscal years prior to the refunding.

The Governor shall notify the State Treasurer and Comptroller of such refunding. The proceeds received from the sale of refunding Bonds shall be used for the retirement at maturity or redemption of such outstanding Bonds on any maturity or redemption date and, pending such use, shall be placed in escrow, subject to such terms and conditions as shall be provided for in the Bond Sale Order relating to the Refunding Bonds. Proceeds not needed for deposit in an escrow account shall be deposited in the General Obligation Bond Retirement and Interest Fund. This Act shall constitute an irrevocable and continuing appropriation of all amounts necessary to establish an escrow account for the purpose of refunding outstanding general obligation Bonds and to pay the reasonable expenses of such refunding and of the issuance and sale of the refunding Bonds. Any such escrowed proceeds may be invested and reinvested in direct obligations of the United States of America, maturing at such time or times as shall be appropriate to assure the prompt payment, when due, of the principal of and interest and redemption premium, if any, on the refunded Bonds. After the terms of the escrow have been fully satisfied, any remaining balance of such proceeds and interest, income and profits earned or realized on the investments thereof shall be paid into the General Revenue Fund. The liability of the State upon the Bonds shall continue, provided that the holders thereof shall thereafter be entitled to payment only out of the moneys deposited in the escrow account.

Except as otherwise herein provided in this Section, such refunding Bonds shall in all other respects be subject to the terms and conditions of this Act.

(30 ILCS 355/5) (from Ch. 85, par. 1395)

Sec. 5. To the extent that moneys in the MEAOB Fund, in the opinion of the Governor and the Director of the Governor's Office of Management and Budget, are in excess of 125% of the maximum debt service in any fiscal year, the Governor shall notify the Comptroller and the State Treasurer of that fact, who upon receipt of such notification shall transfer the excess moneys from the MEAOB Fund to the General

Revenue Fund. By June 30, 2021, the State Comptroller shall direct and the State Treasurer shall transfer any remaining balance from the MEAOB Fund into the General Revenue Fund. 18.9% of annual adjusted gross receipts in excess of \$375,000,000 to the State and 16.1% of annual gross receipts in excess of \$375,000,000 to the City of Chicago.

For the imposition of the privilege tax in this subsection (a-5), amounts paid pursuant to item (1) of subsection (b) of Section 56 of the Illinois Horse Racing Act of 1975 shall not be included in the determination of adjusted gross receipts.

Notwithstanding the provisions of this subsection (a-5), for the first 10 years that the privilege tax is imposed under this subsection (a-5), the privilege tax shall be imposed on the modified annual adjusted gross receipts of a riverboat or casino conducting gambling operations in the City of East St. Louis, unless:

- (1) the riverboat or casino fails to employ at least 450 people;
- (2) the riverboat or casino fails to maintain operations in a manner consistent with this Act or is not a viable riverboat or casino subject to the approval of the Board; or
- (3) the owners licensee is not an entity in which employees participate in an employee stock ownership plan.

As used in this subsection (a-5), "modified annual adjusted gross receipts" means:

(A) for calendar year 2020, the annual adjusted gross receipts for the current year minus the difference between an amount equal to the average annual adjusted gross receipts from a riverboat or casino conducting gambling operations in the City of East St. Louis for 2014, 2015, 2016, 2017, and 2018 and the annual adjusted gross receipts for 2018;

(B) for calendar year 2021, the annual adjusted gross receipts for the current year minus the difference between an amount equal to the average annual adjusted gross receipts from a riverboat or casino conducting gambling operations in the City of East St. Louis for 2014, 2015, 2016, 2017, and 2018 and the annual adjusted gross receipts for 2019; and

(C) for calendar years 2022 through 2029, the annual adjusted gross receipts for the current year minus the difference between an amount equal to the average annual adjusted gross receipts from a riverboat or casino conducting gambling operations in the City of East St. Louis for 3 years preceding the current year and the annual adjusted gross receipts for the immediately preceding year.

(a-6) From June 28, 2019 (the effective date of Public Act 101-31) until June 30, 2023, an owners licensee that conducted gambling operations prior to January 1, 2011 shall receive a dollar-for-dollar credit against the tax imposed under this Section for any renovation or construction costs paid by the owners licensee, but in no event shall the credit exceed \$2,000,000.

Additionally, from June 28, 2019 (the effective date of Public Act 101-31) until December 31, 2022, an owners licensee that (i) is located within 15 miles of the Missouri border, and (ii) has at least 3 riverboats, casinos, or their equivalent within a 45-mile radius, may be authorized to relocate to a new location with the approval of both the unit of local government designated as the home dock and the Board, so long as the new location is within the same unit of local government and no more than 3 miles away from its original location. Such owners licensee shall receive a credit against the tax imposed under this Section equal to 8% of the total project costs, as approved by the Board, for any renovation or construction costs paid by the owners licensee for the construction of the new facility, provided that the new facility is operational by July 1, 2022. In determining whether or not to approve a relocation, the Board must consider the extent to which the relocation will diminish the gaming revenues received by other Illinois gaming facilities.

(a-7) Beginning in the initial adjustment year and through the final adjustment year, if the total obligation imposed pursuant to either subsection (a-5) or (a-6) will result in an owners licensee receiving less after-tax adjusted gross receipts than it received in calendar year 2018, then the total amount of privilege taxes that the owners licensee is required to pay for that calendar year shall be reduced to the extent necessary so that the after-tax adjusted gross receipts in that calendar year equals the after-tax adjusted gross receipts in calendar year 2018, but the privilege tax reduction shall not exceed the annual adjustment cap. If pursuant to this subsection (a-7), the total obligation imposed pursuant to either subsection (a-5) or (a-6) shall be reduced, then the owners licensee shall not receive a refund from the State at the end of the subject calendar year but instead shall be able to apply that amount as a credit against any payments it owes to the State in the following calendar year to satisfy its total obligation under either subsection (a-5) or (a-6). The credit for the final adjustment year shall occur in the calendar year following the final adjustment year.

If an owners licensee that conducted gambling operations prior to January 1, 2019 expands its riverboat or casino, including, but not limited to, with respect to its gaming floor, additional non-gaming amenities such as restaurants, bars, and hotels and other additional facilities, and incurs construction and other costs related to such expansion from June 28, 2019 (the effective date of Public Act 101-31) until June 28, 2024 (the 5th anniversary of the effective date of Public Act 101-31), then for each \$15,000,000 spent for any such construction or other costs related to expansion paid by the owners licensee, the final adjustment year shall be extended by one year and the annual adjustment cap shall increase by 0.2% of adjusted gross receipts during each calendar year until and including the final adjustment year. No further modifications to the final adjustment year or annual adjustment cap shall be made after \$75,000,000 is incurred in construction or other costs related to expansion so that the final adjustment year shall not extend beyond the 9th calendar year after the initial adjustment year, not including the initial adjustment year, and the annual adjustment cap shall not exceed 4% of adjusted gross receipts in a particular calendar year. Construction and other costs related to expansion shall include all project related costs, including, but not limited to, all hard and soft costs, financing costs, on or off-site ground, road or utility work, cost of gaming equipment and all other personal property, initial fees assessed for each incremental gaming position, and the cost of incremental land acquired for such expansion. Soft costs shall include, but not be limited to, legal fees, architect, engineering and design costs, other consultant costs, insurance cost, permitting costs, and pre-opening costs related to the expansion, including, but not limited to, any of the following: marketing, real estate taxes, personnel, training, travel and out-of-pocket expenses, supply, inventory, and other costs, and any other project related soft costs.

To be eligible for the tax credits in subsection (a-6), all construction contracts shall include a requirement that the contractor enter into a project labor agreement with the building and construction trades council with geographic jurisdiction of the location of the proposed gaming facility.

Notwithstanding any other provision of this subsection (a-7), this subsection (a-7) does not apply to an owners licensee unless such owners licensee spends at least \$15,000,000 on construction and other costs related to its expansion, excluding the initial fees assessed for each incremental gaming position.

This subsection (a-7) does not apply to owners licensees authorized pursuant to subsection (e-5) of Section 7 of this Act.

For purposes of this subsection (a-7):

"Building and construction trades council" means any organization representing multiple construction entities that are monitoring or attentive to compliance with public or workers' safety laws, wage and hour requirements, or other statutory requirements or that are making or maintaining collective bargaining agreements.

"Initial adjustment year" means the year commencing on January 1 of the calendar year immediately following the earlier of the following:

(1) the commencement of gambling operations, either in a temporary or permanent facility, with respect to the owners license authorized under paragraph (1) of subsection (e-5) of Section 7 of this Act; or

(2) June 28, 2021 (24 months after the effective date of Public Act 101-31);

provided the initial adjustment year shall not commence earlier than June 28, 2020 (12 months after the effective date of Public Act 101-31).

"Final adjustment year" means the 2nd calendar year after the initial adjustment year, not including the initial adjustment year, and as may be extended further as described in this subsection (a-7).

"Annual adjustment cap" means 3% of adjusted gross receipts in a particular calendar year, and as may be increased further as otherwise described in this subsection (a-7).

(a-8) Riverboat gambling operations conducted by a licensed manager on behalf of the State are not subject to the tax imposed under this Section.

(a-9) Beginning on January 1, 2020, the calculation of gross receipts or adjusted gross receipts, for the purposes of this Section, for a riverboat, a casino, or an organization gaming facility shall not include the dollar amount of non-cashable vouchers, coupons, and electronic promotions redeemed by wagerers upon the riverboat, in the casino, or in the organization gaming facility up to and including an amount not to exceed 20% of a riverboat's, a casino's, or an organization gaming facility's adjusted gross receipts.

The Illinois Gaming Board shall submit to the General Assembly a comprehensive report no later than March 31, 2023 detailing, at a minimum, the effect of removing non-cashable vouchers, coupons, and electronic promotions from this calculation on net gaming revenues to the State in calendar years 2020 through 2022, the increase or reduction in wagerers as a result of removing non-cashable vouchers, coupons, and electronic promotions from this calculation, the effect of the tax rates in subsection (a-5) on net gaming revenues to this State, and proposed modifications to the calculation.

(a-10) The taxes imposed by this Section shall be paid by the licensed owner or the organization gaming licensee to the Board not later than 5:00 o'clock p.m. of the day after the day when the wagers were made.

(a-15) If the privilege tax imposed under subsection (a-3) is no longer imposed pursuant to item (i) of the last paragraph of subsection (a-3), then by June 15 of each year, each owners licensee, other than an owners licensee that admitted 1,000,000 persons or fewer in calendar year 2004, must, in addition to the payment of all amounts otherwise due under this Section, pay to the Board a reconciliation payment in the amount, if any, by which the licensed owner's base amount exceeds the amount of net privilege tax paid by the licensed owner to the Board in the then current State fiscal year. A licensed owner's net privilege tax obligation due for the balance of the State fiscal year shall be reduced up to the total of the amount paid by the licensed owner in its June 15 reconciliation payment. The obligation imposed by this subsection (a-15) is binding on any person, firm, corporation, or other entity that acquires an ownership interest in any such owners license. The obligation imposed under this subsection (a-15) terminates on the earliest of: (i) July 1, 2007, (ii) the first day after the effective date of this amendatory Act of the 94th General Assembly that riverboat gambling operations are conducted pursuant to a dormant license, (iii) the first day that riverboat gambling operations are conducted under the authority of an owners license that is in addition to the 10 owners licenses initially authorized under this Act, or (iv) the first day that a licensee under the Illinois Horse Racing Act of 1975 conducts gaming operations with slot machines or other electronic gaming

devices. The Board must reduce the obligation imposed under this subsection (a-15) by an amount the Board deems reasonable for any of the following reasons: (A) an act or acts of God, (B) an act of bioterrorism or terrorism or a bioterrorism or terrorism threat that was investigated by a law enforcement agency, or (C) a condition beyond the control of the owners licensee that does not result from any act or omission by the owners licensee or any of its agents and that poses a hazardous threat to the health and safety of patrons. If an owners licensee pays an amount in excess of its liability under this Section, the Board shall apply the overpayment to future payments required under this Section.

For purposes of this subsection (a-15):

"Act of God" means an incident caused by the operation of an extraordinary force that cannot be foreseen, that cannot be avoided by the exercise of due care, and for which no person can be held liable.

"Base amount" means the following:

"Dormant license" has the meaning ascribed to it in subsection (a-3).

"Net privilege tax" means all privilege taxes paid by a licensed owner to the Board under this Section, less all payments made from the State Gaming Fund pursuant to subsection (b) of this Section.

The changes made to this subsection (a-15) by Public Act 94-839 are intended to restate and clarify the intent of Public Act 94-673 with respect to the amount of the payments required to be made under this subsection by an owners licensee to the Board.

element for newly constructed facilities shall be based upon projected budgets. The annually established payment rate shall take effect on July 1 in 1984 and subsequent years. No rate increase and no update for inflation shall be provided on or after July 1, 1994, unless specifically provided for in this Section. The changes made by Public Act 93-841 extending the duration of the prohibition against a rate increase or update for inflation are effective retroactive to July 1, 2004.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 1998 shall include an increase of 3%. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 1998 shall include an increase of 3% plus \$1.10 per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities the rates taking effect within 30 days after July 6, 2017 (the effective date of Public Act 100-23) shall include an increase sufficient to provide a \$0.75 per hour wage increase for non-executive staff. The Department shall adopt rules, including emergency rules under subsection (y) of Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this paragraph. For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, the rates taking effect within 30 days after the effective date of this amendatory Act of the 100th General Assembly shall include an increase sufficient to provide a \$0.50 per hour wage increase for non-executive front-line personnel, including, but not limited to, direct support persons, aides, front-line supervisors, qualified intellectual disabilities professionals, nurses, and non-administrative support staff. The Department shall adopt rules, including emergency rules under subsection (bb) of Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this paragraph.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 1999 shall include an increase of 1.6% plus \$3.00 per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 1999 shall include an increase of 1.6% and, for services provided on or after October 1, 1999, shall be increased by \$4.00 per resident-day, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 2000 shall include an increase of 2.5% per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, a new payment methodology must be implemented for the nursing component of the rate effective July 1, 2003. The Department of Public Aid (now Healthcare and Family Services) shall develop the new payment methodology using the Minimum Data Set (MDS) as the instrument to collect information concerning nursing home resident condition necessary to compute the rate. The Department shall develop the new payment methodology to meet the unique needs of Illinois nursing home residents while remaining subject to the appropriations provided by the General Assembly. A transition period from the payment methodology in effect on June 30, 2003 to the payment methodology in effect on July 1, 2003 shall be provided for a period not exceeding 3 years and 184 days after implementation of the new payment methodology as follows:

(A) For a facility that would receive a lower nursing component rate per patient day under the new system than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be held at the level in effect on the date immediately preceding the date that the

Department implements the new payment methodology until a higher nursing component rate of reimbursement is achieved by that facility.

(B) For a facility that would receive a higher nursing component rate per patient day under the payment methodology in effect on July 1, 2003 than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be adjusted.

(C) Notwithstanding paragraphs (A) and (B), the nursing component rate per patient day for the facility shall be adjusted subject to appropriations provided by the General Assembly.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on March 1, 2001 shall include a statewide increase of 7.85%, as defined by the Department.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, except facilities participating in the Department's demonstration program pursuant to the provisions of Title 77, Part 300, Subpart T of the Illinois Administrative Code, the numerator of the ratio used by the Department of Healthcare and Family Services to compute the rate payable under this Section using the Minimum Data Set (MDS) methodology shall incorporate the following annual amounts as the additional funds appropriated to the Department specifically to pay for rates based on the MDS nursing component methodology in excess of the funding in effect on December 31, 2006:

(i) For rates taking effect January 1, 2007, \$60,000,000.

(ii) For rates taking effect January 1, 2008, \$110,000,000.

(iii) For rates taking effect January 1, 2009, \$194,000,000.

(iv) For rates taking effect April 1, 2011, or the first day of the month that begins at least 45 days after the effective date of this amendatory Act of the 96th General Assembly, \$416,500,000 or an amount as may be necessary to complete the transition to the MDS methodology for the nursing component of the rate. Increased payments under this item (iv) are not due and payable, however, until (i) the methodologies described in this paragraph are approved by the federal government in an appropriate State Plan amendment and (ii) the assessment imposed by Section 5B-2 of this Code is determined to be a permissible tax under Title XIX of the Social Security Act.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the support component of the rates taking effect on January 1, 2008 shall be computed using the most recent cost reports on file with the Department of Healthcare and Family Services no later than April 1, 2005, updated for inflation to January 1, 2006.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on April 1, 2002 shall include a statewide increase of 2.0%, as defined by the Department. This increase terminates on July 1, 2002; beginning July 1, 2002 these rates are reduced to the level of the rates in effect on March 31, 2002, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the rates taking effect on July 1, 2001 shall be computed using the most recent cost reports on file with the Department of Public Aid no later than April 1, 2000, updated for inflation to January 1, 2001. For rates effective July 1, 2001 only, rates shall be the greater of the rate computed for July 1, 2001 or the rate effective on June 30, 2001.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the Illinois Department shall determine by rule the rates taking effect on July 1, 2002, which shall be 5.9% less than the rates in effect on June 30, 2002.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, if the payment methodologies required under Section 5A-12 and the waiver granted under 42 CFR 433.68 are approved by the United States Centers for Medicare and Medicaid Services, the rates taking effect on July 1, 2004 shall be 3.0% greater than the rates in effect on June 30, 2004. These rates shall take effect only upon approval and implementation of the payment methodologies required under Section 5A-12.

Notwithstanding any other provisions of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the rates taking effect on January 1, 2005 shall be 3% more than the rates in effect on December 31, 2004.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, effective January 1, 2009, the per diem support component of the rates effective on January 1, 2008, computed using the most recent cost reports on file with the Department of Healthcare and Family Services no later than April 1, 2005, updated for inflation to January 1, 2006, shall be increased to the amount that would have been derived using standard Department of Healthcare and Family Services methods, procedures, and inflators.

Notwithstanding any other provisions of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as intermediate care facilities that are federally defined as Institutions for Mental Disease, or facilities licensed by the Department of Public Health under the Specialized Mental Health Rehabilitation Act of 2013, a socio-development component rate equal to 6.6% of the facility's nursing component rate as of January 1, 2006 shall be established and paid effective July 1, 2006. The socio-development component of the rate shall be increased by a factor of 2.53 on the first day of the month that begins at least 45 days after January 11, 2008 (the effective date of Public Act 95-707). As of August 1, 2008, the socio-development component rate shall be equal to 6.6% of the facility's nursing component rate as of January 1, 2006, multiplied by a factor of 3.53. For services provided on or after April 1, 2011, or the first day of the month that begins at least 45 days after the effective date of this amendatory Act of the 96th General Assembly, whichever is later, the Illinois Department may by rule adjust these socio-development component rates, and may use different adjustment methodologies for those facilities participating, and those not participating, in the Illinois Department's demonstration program pursuant to the provisions of Title 77, Part 300, Subpart T of the Illinois Administrative Code, but in no case may such rates be diminished below those in effect on August 1, 2008.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or as long-term care facilities for residents under 22 years of age, the rates taking effect on July 1, 2003 shall include a statewide increase of 4%, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on the first day of the month that begins at least 45 days after the effective date of this amendatory Act of the 95th General Assembly shall include a statewide increase of 2.5%, as defined by the Department.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, effective January 1, 2005, facility rates shall be increased by the difference between (i) a facility's per diem property, liability, and malpractice insurance costs as reported in the cost report filed with the Department of Public Aid and used to establish rates effective July 1, 2001 and (ii) those same costs as reported in the facility's 2002 cost report. These costs shall be passed through to the facility without caps or limitations, except for adjustments required under normal auditing procedures.

Rates established effective each July 1 shall govern payment for services rendered throughout that fiscal year, except that rates established on July 1, 1996 shall be increased by 6.8% for services provided on or after January 1, 1997. Such rates will be based upon the rates calculated for the year beginning July 1, 1990, and for subsequent years thereafter until June 30, 2001 shall be based on the facility cost reports for the facility fiscal year ending at any point in time during the previous calendar year, updated to the midpoint of the rate year. The cost report shall be on file with the Department no later than April 1 of the current rate year. Should the cost report not be on file by April 1, the Department shall base the rate on the latest cost report filed by each skilled care facility and intermediate care facility, updated to the midpoint of the current rate year. In determining rates for services rendered on and after July 1, 1985, fixed time shall not be computed at less than zero. The Department shall not make any alterations of regulations which would reduce any component of the Medicaid rate to a level below what that component would have been utilizing in the rate effective on July 1, 1984.

(2) Shall take into account the actual costs incurred by facilities in providing services for recipients of skilled nursing and intermediate care services under the medical assistance program.

(3) Shall take into account the medical and psycho-social characteristics and needs of the patients.

(4) Shall take into account the actual costs incurred by facilities in meeting licensing and certification standards imposed and prescribed by the State of Illinois, any of its political subdivisions or municipalities and by the U.S. Department of Health and Human Services pursuant to Title XIX of the Social Security Act.

The Department of Healthcare and Family Services shall develop precise standards for payments to reimburse nursing facilities for any utilization of appropriate rehabilitative personnel for the provision of rehabilitative services which is authorized by federal regulations, including reimbursement for services provided by qualified therapists or qualified assistants, and which is in accordance with accepted professional practices. Reimbursement also may be made for utilization of other supportive personnel under appropriate supervision.

The Department shall develop enhanced payments to offset the additional costs incurred by a facility serving exceptional need residents and shall allocate at least \$4,000,000 of the funds collected from the assessment established by Section 5B-2 of this Code for such payments. For the purpose of this Section, "exceptional needs" means, but need not be limited to, ventilator care and traumatic brain injury care. The enhanced payments for exceptional need residents under this paragraph are not due and payable, however, until (i) the methodologies described in this paragraph are approved by the federal government in an appropriate State Plan amendment and (ii) the assessment imposed by Section 5B-2 of this Code is determined to be a permissible tax under Title XIX of the Social Security Act.

Beginning January 1, 2014 the methodologies for reimbursement of nursing facility services as provided under this Section 5-5.4 shall no longer be applicable for services provided on or after January 1, 2014.

No payment increase under this Section for the MDS methodology, exceptional care residents, or the socio-development component rate established by Public Act 96-1530 of the 96th General Assembly and funded by the assessment imposed under Section 5B-2 of this Code shall be due and payable until after the Department notifies the long-term care providers, in writing, that the payment methodologies to long-term care providers required under this Section have been approved by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services and the waivers under 42 CFR 433.68 for the assessment imposed by this Section, if necessary, have been granted by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services. Upon notification to the Department of approval of the payment methodologies required under this Section and the waivers granted under 42 CFR 433.68, all increased payments otherwise due under this Section prior to the date of notification shall be due and payable within 90 days of the date federal approval is received.

On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, subject to federal approval, the rates taking effect for services delivered on or after August 1, 2019 shall be increased by 3.5% over the rates in effect on June 30, 2019. The Department shall adopt rules, including emergency rules under subsection (ii) of Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this Section, including wage increases for direct care staff.

For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, subject to federal approval, the rates taking effect on the latter of the approval date of the State Plan Amendment for these facilities or the Waiver Amendment for the home and community-based services settings shall include an increase sufficient to provide a \$0.26 per hour wage increase to the base wage for non-executive staff. The Department shall adopt rules, including emergency rules as authorized by Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this Section, including wage increases for direct care staff.

For services delivered on or after January 1, 2021, subject to federal approval of the State Plan Amendment and the Waiver Amendment for the home and community-based services settings, shall include an increase sufficient to provide a \$0.50 per hour increase for non-executive staff. The Department shall adopt rules, including emergency rules as authorized

by Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this Section, including wage increases for direct care staff.

For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, subject to federal approval of the State Plan Amendment, the rates taking effect for the residential services delivered on or after July 1, 2021, shall include an increase sufficient to provide a \$0.50 per hour increase for aides in the rate methodology. For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, subject to federal approval of the State Plan Amendment, the rates taking effect for the residential services delivered on or after January 1, 2022 shall include an increase sufficient to provide a \$1.00 per hour increase for aides in the rate methodology. In addition, for residential services delivered on or after January 1, 2022 such rates shall include an increase sufficient to provide wages for all residential non-executive direct care staff, excluding aides, at the federal Department of Labor, Bureau of Labor Statistics' average wage as defined in rule by the Department. Sec. 22.15. Solid Waste Management Fund; fees.

(a) There is hereby created within the State Treasury a special fund to be known as the Solid Waste Management Fund, to be constituted from the fees collected by the State pursuant to this Section, from repayments of loans made from the Fund for solid waste projects, from registration fees collected pursuant to the Consumer Electronics Recycling Act, and from amounts transferred into the Fund pursuant to Public Act 100-433. Moneys received by the Department of Commerce and Economic Opportunity in repayment of loans made pursuant to the Illinois Solid Waste Management Act shall be deposited into the General Revenue Fund.

(b) The Agency shall assess and collect a fee in the amount set forth herein from the owner or operator of each sanitary landfill permitted or required to be permitted by the Agency to dispose of solid waste if the sanitary landfill is located off the site where such waste was produced and if such sanitary landfill is owned, controlled, and operated by a person other than the generator of such waste. The Agency shall deposit all fees collected into the Solid Waste Management Fund. If a site is contiguous to one or more landfills owned or operated by the same person, the volumes permanently disposed of by each landfill shall be combined for purposes of determining the fee under this subsection. Beginning on July 1, 2018, and on the first day of each month thereafter during fiscal years 2019 through ~~2022~~ 2024, the State Comptroller shall direct and State Treasurer shall transfer an amount equal to 1/12 of \$5,000,000 per fiscal year from the Solid Waste Management Fund to the General Revenue Fund.

(1) If more than 150,000 cubic yards of non-hazardous solid waste is permanently disposed of at a site in a calendar year, the owner or operator shall either pay a fee of 95 cents per cubic yard or, alternatively, the owner or operator may weigh the quantity of the solid waste permanently disposed of with a device for which certification has been obtained under the Weights and Measures Act and pay a fee of \$2.00 per ton of solid waste permanently disposed of. In no case shall the fee collected or paid by the owner or operator under this paragraph exceed \$1.55 per cubic yard or \$3.27 per ton.

(2) If more than 100,000 cubic yards but not more than 150,000 cubic yards of non-hazardous waste is permanently disposed of at a site in a calendar year, the owner or operator shall pay a fee of \$52,630.

(3) If more than 50,000 cubic yards but not more than 100,000 cubic yards of non-hazardous solid waste is permanently disposed of at a site in a calendar year, the owner or operator shall pay a fee of \$23,790.

(4) If more than 10,000 cubic yards but not more than 50,000 cubic yards of non-hazardous solid waste is permanently disposed of at a site in a calendar year, the owner or operator shall pay a fee of \$7,260.

(5) If not more than 10,000 cubic yards of non-hazardous solid waste is permanently disposed of at a site in a calendar year, the owner or operator shall pay a fee of \$1050.

(c) (Blank).

(d) The Agency shall establish rules relating to the collection of the fees authorized by this Section. Such rules shall include, but not be limited to:

- (1) necessary records identifying the quantities of solid waste received or disposed;
- (2) the form and submission of reports to accompany the payment of fees to the Agency;
- (3) the time and manner of payment of fees to the Agency, which payments shall not be more often than quarterly; and

(4) procedures setting forth criteria establishing when an owner or operator may measure by weight or volume during any given quarter or other fee payment period.

(e) Pursuant to appropriation, all monies in the Solid Waste Management Fund shall be used by the Agency and the Department of Commerce and Economic Opportunity for the purposes set forth in this Section and in the Illinois Solid Waste Management Act, including for the costs of fee collection and administration, and for the administration of (1) the Consumer Electronics Recycling Act and (2) until January 1, 2020, the Electronic Products Recycling and Reuse Act.

(f) The Agency is authorized to enter into such agreements and to promulgate such rules as are necessary to carry out its duties under this Section and the Illinois Solid Waste Management Act.

(g) On the first day of January, April, July, and October of each year, beginning on July 1, 1996, the State Comptroller and Treasurer shall transfer \$500,000 from the Solid Waste Management Fund to the Hazardous Waste Fund. Moneys transferred under this subsection (g) shall be used only for the purposes set forth in item (1) of subsection (d) of Section 22.2.

(h) The Agency is authorized to provide financial assistance to units of local government for the performance of inspecting, investigating and enforcement activities pursuant to Section 4(r) at nonhazardous solid waste disposal sites.

(i) The Agency is authorized to conduct household waste collection and disposal programs.

(j) A unit of local government, as defined in the Local Solid Waste Disposal Act, in which a solid waste disposal facility is located may establish a fee, tax, or surcharge with regard to the permanent disposal of solid waste. All fees, taxes, and surcharges collected under this subsection shall be utilized for solid waste management purposes, including long-term monitoring and maintenance of landfills, planning, implementation, inspection, enforcement and other activities consistent with the Solid Waste Management Act and the Local Solid Waste Disposal Act, or for any other environment-related purpose, including but not limited to an environment-related public works project, but not for the construction of a new pollution control facility other than a household hazardous waste facility. However, the total fee, tax or surcharge imposed by all units of local government under this subsection (j) upon the solid waste disposal facility shall not exceed:

(1) 60¢ per cubic yard if more than 150,000 cubic yards of non-hazardous solid waste is permanently disposed of at the site in a calendar year, unless the owner or operator weighs the quantity of the solid waste received with a device for which certification has been obtained under the Weights and Measures Act, in which case the fee shall not exceed \$1.27 per ton of solid waste permanently disposed of.

(2) \$33,350 if more than 100,000 cubic yards, but not more than 150,000 cubic yards, of non-hazardous waste is permanently disposed of at the site in a calendar year.

(3) \$15,500 if more than 50,000 cubic yards, but not more than 100,000 cubic yards, of non-hazardous solid waste is permanently disposed of at the site in a calendar year.

(4) \$4,650 if more than 10,000 cubic yards, but not more than 50,000 cubic yards, of non-hazardous solid waste is permanently disposed of at the site in a calendar year.

(5) \$650 if not more than 10,000 cubic yards of non-hazardous solid waste is permanently disposed of at the site in a calendar year.

The corporate authorities of the unit of local government may use proceeds from the fee, tax, or surcharge to reimburse a highway commissioner whose road district lies wholly or partially within the corporate limits of the unit of local government for expenses incurred in the removal of nonhazardous, nonfluid municipal waste that has been dumped on public property in violation of a State law or local ordinance.

A county or Municipal Joint Action Agency that imposes a fee, tax, or surcharge under this subsection may use the proceeds thereof to reimburse a municipality that lies wholly or partially within its boundaries for expenses incurred in the removal of nonhazardous, nonfluid municipal waste that has been dumped on public property in violation of a State law or local ordinance.

If the fees are to be used to conduct a local sanitary landfill inspection or enforcement program, the unit of local government must enter into a written delegation agreement with the Agency pursuant to subsection (r) of Section 4. The unit of local government and the Agency shall enter into such a written delegation agreement within 60 days after the establishment of such fees. At least annually, the Agency shall conduct an audit of the expenditures made by units of local government from the funds granted by the Agency to the units of local government for purposes of local sanitary landfill inspection and enforcement programs, to ensure that the funds have been expended for the prescribed purposes under the grant.

The fees, taxes or surcharges collected under this subsection (j) shall be placed by the unit of local government in a separate fund, and the interest received on the moneys in the fund shall be credited to the fund. The monies in the fund may be accumulated over a period of years to be expended in accordance with this subsection.

A unit of local government, as defined in the Local Solid Waste Disposal Act, shall prepare and distribute to the Agency, in April of each year, a report that details spending plans for monies collected in accordance with this subsection. The report will at a minimum include the following:

- (3) An itemized accounting of all monies expended for the previous year pursuant to this subsection.
- (4) An estimation of monies to be collected for the following 3 years pursuant to this subsection.
- (5) A narrative detailing the general direction and scope of future expenditures for one, 2 and 3 years.

The exemptions granted under Sections 22.16 and 22.16a, and under subsection (k) of this Section, shall be applicable to any fee, tax or surcharge imposed under this subsection (j); except that the fee, tax or surcharge authorized to be imposed under this subsection (j) may be made applicable by a unit of local government to the permanent disposal of solid waste after December 31, 1986, under any contract lawfully executed before June 1, 1986 under which more than 150,000 cubic yards (or 50,000 tons) of solid waste is to be permanently disposed of, even though the waste is exempt from the fee imposed by the State under subsection (b) of this Section pursuant to an exemption granted under Section 22.16.

(k) In accordance with the findings and purposes of the Illinois Solid Waste Management Act, beginning January 1, 1989 the fee under subsection (b) and the fee, tax or surcharge under subsection (j) shall not apply to:

- (1) waste which is hazardous waste;
- (2) waste which is pollution control waste;
- (3) waste from recycling, reclamation or reuse processes which have been approved by the Agency as being designed to remove any contaminant from wastes so as to render such wastes reusable, provided that the process renders at least 50% of the waste reusable;
- (4) non-hazardous solid waste that is received at a sanitary landfill and composted or recycled through a process permitted by the Agency; or
- (5) any landfill which is permitted by the Agency to receive only demolition or construction debris or landscape waste.

(415 ILCS 5/22.59)

Sec. 22.59. CCR surface impoundments.

(a) The General Assembly finds that:

- (1) the State of Illinois has a long-standing policy to restore, protect, and enhance the environment, including the purity of the air, land, and waters, including groundwaters, of this State;
- (2) a clean environment is essential to the growth and well-being of this State;
- (3) CCR generated by the electric generating industry has caused groundwater contamination and other forms of pollution at active and inactive plants throughout this State;
- (4) environmental laws should be supplemented to ensure consistent, responsible regulation of all existing CCR surface impoundments; and
- (5) meaningful participation of State residents, especially vulnerable populations who may be affected by regulatory actions, is critical to ensure that environmental justice considerations are incorporated in the development of, decision-making related to, and implementation of environmental laws and rulemaking that protects and improves the well-being of communities in this State that bear disproportionate burdens imposed by environmental pollution.

Therefore, the purpose of this Section is to promote a healthful environment, including clean water, air, and land, meaningful public involvement, and the responsible disposal and storage of coal combustion residuals, so as to protect public health and to prevent pollution of the environment of this State.

The provisions of this Section shall be liberally construed to carry out the purposes of this Section.

(b) No person shall:

(1) cause or allow the discharge of any contaminants from a CCR surface impoundment into the environment so as to cause, directly or indirectly, a violation of this Section or any regulations or standards adopted by the Board under this Section, either alone or in combination with contaminants from other sources;

(2) construct, install, modify, operate, or close any CCR surface impoundment without a permit granted by the Agency, or so as to violate any conditions imposed by such permit, any provision of this Section or any regulations or standards adopted by the Board under this Section; or

(3) cause or allow, directly or indirectly, the discharge, deposit, injection, dumping, spilling, leaking, or placing of any CCR upon the land in a place and manner so as to cause or tend to cause a violation this Section or any regulations or standards adopted by the Board under this Section.

(c) For purposes of this Section, a permit issued by the Administrator of the United States Environmental Protection Agency under Section 4005 of the federal Resource Conservation and Recovery Act, shall be deemed to be a permit under this Section and subsection (y) of Section 39.

(d) Before commencing closure of a CCR surface impoundment, in accordance with Board rules, the owner of a CCR surface impoundment must submit to the Agency for approval a closure alternatives analysis that analyzes all closure methods being considered and that otherwise satisfies all closure requirements adopted by the Board under this Act. Complete removal of CCR, as specified by the Board's rules, from the CCR surface impoundment must be considered and analyzed. Section 3.405 does not apply to the Board's rules specifying complete removal of CCR. The selected closure method must ensure compliance with regulations adopted by the Board pursuant to this Section.

(e) Owners or operators of CCR surface impoundments who have submitted a closure plan to the Agency before May 1, 2019, and who have completed closure prior to 24 months after July 30, 2019 (the effective date of Public Act 101-171) ~~this amendatory Act of the 101st General Assembly~~ shall not be required to obtain a construction permit for the surface impoundment closure under this Section.

(f) Except for the State, its agencies and institutions, a unit of local government, or not-for-profit electric cooperative as defined in Section 3.4 of the Electric Supplier Act, any person who owns or operates a CCR surface impoundment in this State shall post with the Agency a performance bond or other security for the purpose of: (i) ensuring closure of the CCR surface impoundment and post-closure care in accordance with this Act and its rules; and (ii) insuring remediation of releases from the CCR surface impoundment. (1) The cost estimate for the post-closure care of a CCR surface impoundment shall be calculated using a 30-year post-closure care period or such longer period as may be approved by the Agency under Board or federal rules.

(2) The Agency is authorized to enter into such contracts and agreements as it may deem necessary to carry out the purposes of this Section. Neither the State, nor the Director, nor any State employee shall be liable for any damages or injuries arising out of or resulting from any action taken under this Section.

(3) The Agency shall have the authority to approve or disapprove any performance bond or other security posted under this subsection. Any person whose performance bond or other security is disapproved by the Agency may contest the disapproval as a permit denial appeal pursuant to Section 40.

(g) The Board shall adopt rules establishing construction permit requirements, operating permit requirements, design standards, reporting, financial assurance, and closure and post-closure care requirements for CCR surface impoundments. Not later than 8 months after July 30, 2019 (the effective date of Public Act 101-171) ~~this amendatory Act of the 101st General Assembly~~ the Agency shall propose, and not later than one year after receipt of the Agency's proposal the Board shall adopt, rules under this Section. (5) specify standards for review and approval by the Agency of CCR surface impoundment permit applications;

(6) specify meaningful public participation procedures for the issuance of CCR surface impoundment construction and operating permits, including, but not limited to, public notice of the submission of permit applications, an opportunity for the submission of public comments, an opportunity for a public hearing prior to permit issuance, and a summary and response of the comments prepared by the Agency;

(7) prescribe the type and amount of the performance bonds or other securities required under subsection (f), and the conditions under which the State is entitled to collect moneys from such performance bonds or other securities;

(8) specify a procedure to identify areas of environmental justice concern in relation to CCR surface impoundments;

(9) specify a method to prioritize CCR surface impoundments required to close under RCRA if not otherwise specified by the United States Environmental Protection Agency, so that the CCR surface impoundments with the highest risk to public health and the environment, and areas of environmental justice concern are given first priority;

(10) define when complete removal of CCR is achieved and specify the standards for responsible removal of CCR from CCR surface impoundments, including, but not limited to, dust controls and the protection of adjacent surface water and groundwater; and

(11) describe the process and standards for identifying a specific alternative source of groundwater pollution when the owner or operator of the CCR surface impoundment believes that groundwater contamination on the site is not from the CCR surface impoundment.

(h) Any owner of a CCR surface impoundment that generates CCR and sells or otherwise provides coal combustion byproducts pursuant to Section 3.135 shall, every 12 months, post on its publicly available website a report specifying the volume or weight of CCR, in cubic yards or tons, that it sold or provided during the past 12 months.

(i) The owner of a CCR surface impoundment shall post all closure plans, permit applications, and supporting documentation, as well as any Agency approval of the plans or applications on its publicly available website.

(j) The owner or operator of a CCR surface impoundment shall pay the following fees:

\$25,000 for each CCR surface impoundment that has not completed closure; and

\$15,000 for each CCR surface impoundment that has completed closure, but has not completed post-closure care.

(k) All fees collected by the Agency under subsection (j) shall be deposited into the Environmental Protection Permit and Inspection Fund.

(l) The Coal Combustion Residual Surface Impoundment Financial Assurance Fund is created as a special fund in the State treasury. Any moneys forfeited to the State of Illinois from any performance bond or other security required under this Section shall be placed in the Coal Combustion Residual Surface Impoundment Financial Assurance Fund and shall, upon approval by the Governor and the Director, be used by the Agency for the purposes for which such performance bond or other security was issued. The Coal Combustion Residual Surface Impoundment Financial Assurance Fund is not subject to the provisions of subsection (c) of Section 5 of the State Finance Act.

(m) The provisions of this Section shall apply, without limitation, to all existing CCR surface impoundments and any CCR surface impoundments constructed after July 30, 2019 (the effective date of Public Act 101-171) ~~this amendatory Act of the 101st General Assembly~~, except to the extent prohibited by the Illinois or United States Constitutions.

"DUI analysis" means an analysis of blood, other bodily substance, or urine for purposes of determining whether a violation of Section 11-501 of the Illinois Vehicle Code has occurred.

(b) (Blank).

(c) In addition to any other disposition made under the provisions of the Juvenile Court Act of 1987, any minor adjudicated delinquent for an offense which if committed by an adult would constitute a violation of Section 11-501 of the Illinois Vehicle Code shall pay a crime laboratory DUI analysis assessment of \$150 for each adjudication. Upon verified petition of the minor, the court may suspend payment of all or part of the assessment if it finds that the minor does not have the ability to pay the assessment. The parent, guardian, or legal custodian of the minor may pay some or all of the assessment on the minor's behalf.

(d) All crime laboratory DUI analysis assessments provided for by this Section shall be collected by the clerk of the court and forwarded to the appropriate crime laboratory DUI fund as provided in subsection (f).

(e) Crime laboratory funds shall be established as follows:

(1) A unit of local government that maintains a crime laboratory may establish a crime laboratory DUI fund within the office of the county or municipal treasurer.

(2) Any combination of units of local government that maintains a crime laboratory may establish a crime laboratory DUI fund within the office of the treasurer of the county where the crime laboratory is situated.

(3) ~~(Blank). The State Police DUI Fund is created as a special fund in the State Treasury.~~

(f) The analysis assessment provided for in subsection (c) of this Section shall be forwarded to the office of the treasurer of the unit of local government that performed the analysis if that unit of local government has established a crime laboratory DUI fund, or to the State Treasurer for deposit into the State Crime Laboratory Fund if the analysis was performed by a laboratory operated by the Department of State Police. If the analysis was performed by a crime laboratory funded by a combination of units of local government, the analysis assessment shall be forwarded to the treasurer of the county where the crime laboratory is situated if a crime laboratory DUI fund has been established in that county. If the unit of local government or combination of units of local government has not established a crime laboratory DUI fund, then the analysis assessment shall be forwarded to the State Treasurer for deposit into the State Crime Laboratory Fund.

(g) Moneys deposited into a crime laboratory DUI fund created under paragraphs (1) and (2) of subsection (e) of this Section shall be in addition to any allocations made pursuant to existing law and shall

be designated for the exclusive use of the crime laboratory. These uses may include, but are not limited to, the following:

- (1) Costs incurred in providing analysis for DUI investigations conducted within this State.
- (2) Purchase and maintenance of equipment for use in performing analyses.
- (3) Continuing education, training, and professional development of forensic scientists regularly employed by these laboratories.

(h) Moneys deposited in the State Crime Laboratory Fund shall be used by State crime laboratories as designated by the Director of State Police. These funds shall be in addition to any allocations made according to existing law and shall be designated for the exclusive use of State crime laboratories. These uses may include those enumerated in subsection (g) of this Section.

(i) Notwithstanding any other provision of law to the contrary and in addition to any other transfers that may be provided by law, on the effective date of this amendatory Act of the 102nd General Assembly, or as soon thereafter as practical, the State Comptroller shall direct and the State Treasurer shall transfer the remaining balance from the State Police DUI Fund into the State Police Operations Assistance Fund. Upon completion of the transfer, the State Police DUI Fund is dissolved, and any future deposits due to that Fund and any outstanding obligations or liabilities of that Fund shall pass to the State Police Operations Assistance Fund.

Section 3-140. The Revised Uniform Unclaimed Property Act is amended by changing Section 15-801 as follows:

(765 ILCS 1026/15-801)

Sec. 15-801. Deposit of funds by administrator.

(a) Except as otherwise provided in this Section, the administrator shall deposit in the Unclaimed Property Trust Fund all funds received under this Act, including proceeds from the sale of property under Article 7. The administrator may deposit any amount in the Unclaimed Property Trust Fund into the State Pensions Fund during the fiscal year at his or her discretion; however, he or she shall, on April 15 and October 15 of each year, deposit any amount in the Unclaimed Property Trust Fund exceeding \$2,500,000 into the State Pensions Fund. If on either April 15 or October 15, the administrator determines that a balance of \$2,500,000 is insufficient for the prompt payment of unclaimed property claims authorized under this Act, the administrator may retain more than \$2,500,000 in the Unclaimed Property Trust Fund in order to ensure the prompt payment of claims. Beginning in State fiscal year 2023 ~~2022~~, all amounts that are deposited into the State Pensions Fund from the Unclaimed Property Trust Fund shall be apportioned to the designated retirement systems as provided in subsection (c-6) of Section 8.12 of the State Finance Act to reduce their actuarial reserve deficiencies.

(b) The administrator shall make prompt payment of claims he or she duly allows as provided for in this Act from the Unclaimed Property Trust Fund. This shall constitute an irrevocable and continuing appropriation of all amounts in the Unclaimed Property Trust Fund necessary to make prompt payment of claims duly allowed by the administrator pursuant to this Act.

Notwithstanding any provision of the law to the contrary, the General Assembly hereby authorizes the use of such funds for the purposes set forth in this Section.

These provisions do not apply to funds classified by the Comptroller as federal trust funds or State trust funds. The Audit Expense Fund may receive transfers from those trust funds only as directed herein, except where prohibited by the terms of the trust fund agreement. The Auditor General shall notify the trustees of those funds of the estimated cost of the audit to be incurred under the Illinois State Auditing Act for the fund. The trustees of those funds shall direct the State Comptroller and Treasurer to transfer the estimated amount to the Audit Expense Fund.

[May 31, 2021]

The Auditor General may bill entities that are not subject to the above transfer provisions, including private entities, related organizations and entities whose funds are locally-held, for the cost of audits, studies, and investigations incurred on their behalf. Any revenues received under this provision shall be deposited into the Audit Expense Fund.

In the event that moneys on deposit in any fund are unavailable, by reason of deficiency or any other reason preventing their lawful transfer, the State Comptroller shall order transferred and the State Treasurer shall transfer the amount deficient or otherwise unavailable from the General Revenue Fund for deposit into the Audit Expense Fund.

On or before December 1, 1992, and each December 1 thereafter, the Auditor General shall notify the Governor's Office of Management and Budget (formerly Bureau of the Budget) of the amount estimated to be necessary to pay for audits, studies, and investigations in accordance with the Illinois State Auditing Act during the next succeeding fiscal year for each State fund for which a transfer or reimbursement is anticipated.

Beginning with fiscal year 1994 and during each fiscal year thereafter, the Auditor General may direct the State Comptroller and Treasurer to transfer moneys from funds authorized by the General Assembly for that fund. In the event funds, including federal and State trust funds but excluding the General Revenue Fund, are transferred, during fiscal year 1994 and during each fiscal year thereafter, in excess of the amount to pay actual costs attributable to audits, studies, and investigations as permitted or required by the Illinois State Auditing Act or specific action of the General Assembly, the Auditor General shall, on September 30, or as soon thereafter as is practicable, direct the State Comptroller and Treasurer to transfer the excess amount back to the fund from which it was originally transferred.

#### ARTICLE 5. GRADE CROSSING PROTECTION

Section 5-5. The Motor Fuel Tax Law is amended by changing Section 8 as follows:

(35 ILCS 505/8) (from Ch. 120, par. 424)

Sec. 8. Except as provided in subsection (a-1) of this Section, Section 8a, subdivision (h)(1) of Section 12a, Section 13a.6, and items 13, 14, 15, and 16 of Section 15, all money received by the Department under this Act, including payments made to the Department by member jurisdictions participating in the International Fuel Tax Agreement, shall be deposited in a special fund in the State treasury, to be known as the "Motor Fuel Tax Fund", and shall be used as follows:

(a) 2 1/2 cents per gallon of the tax collected on special fuel under paragraph (b) of Section 2 and Section 13a of this Act shall be transferred to the State Construction Account Fund in the State Treasury; the remainder of the tax collected on special fuel under paragraph (b) of Section 2 and Section 13a of this Act shall be deposited into the Road Fund;

(a-1) Beginning on July 1, 2019, an amount equal to the amount of tax collected under subsection (a) of Section 2 as a result of the increase in the tax rate under ~~Public Act 101-32~~ ~~this amendatory Act of the 101st General Assembly~~ shall be transferred each month into the Transportation Renewal Fund;

(b) \$420,000 shall be transferred each month to the State Boating Act Fund to be used by the Department of Natural Resources for the purposes specified in Article X of the Boat Registration and Safety Act;

(c) \$3,500,000 shall be transferred each month to the Grade Crossing Protection Fund to be used as follows: not less than \$12,000,000 each fiscal year shall be used for the construction or reconstruction of rail highway grade separation structures; \$2,250,000 in fiscal years 2004 through 2009 and \$3,000,000 in fiscal year 2010 and each fiscal year thereafter shall be transferred to the Transportation Regulatory Fund and shall be accounted for as part of the rail carrier portion of such funds and shall be used to pay the cost of administration of the Illinois Commerce Commission's railroad safety program in connection with its duties under subsection (3) of Section 18c-7401 of the Illinois Vehicle Code, with the remainder to be used by the Department of Transportation upon order of the Illinois Commerce Commission, to pay that part of the cost apportioned by such Commission to the State to cover the interest of the public in the use of highways, roads, streets, or pedestrian walkways in the county highway system, township and district road system, or municipal street system as defined in the Illinois Highway Code, as the same may from time to time be amended, for separation of grades, for installation, construction or reconstruction of crossing protection or reconstruction, alteration, relocation including construction or improvement of any existing highway necessary for access to property or improvement of any grade crossing and grade crossing surface including

the necessary highway approaches thereto of any railroad across the highway or public road, or for the installation, construction, reconstruction, or maintenance of safety treatments to deter trespassing or a pedestrian walkway over or under a railroad right-of-way, as provided for in and in accordance with Section 18c-7401 of the Illinois Vehicle Code. The Commission may order up to \$2,000,000 per year in Grade Crossing Protection Fund moneys for the improvement of grade crossing surfaces and up to \$300,000 per year for the maintenance and renewal of 4-quadrant gate vehicle detection systems located at non-high speed rail grade crossings. ~~The Commission shall not order more than \$2,000,000 per year in Grade Crossing Protection Fund moneys for pedestrian walkways.~~ In entering orders for projects for which payments from the Grade Crossing Protection Fund will be made, the Commission shall account for expenditures authorized by the orders on a cash rather than an accrual basis. For purposes of this requirement an "accrual basis" assumes that the total cost of the project is expended in the fiscal year in which the order is entered, while a "cash basis" allocates the cost of the project among fiscal years as expenditures are actually made. To meet the requirements of this subsection, the Illinois Commerce Commission shall develop annual and 5-year project plans of rail crossing capital improvements that will be paid for with moneys from the Grade Crossing Protection Fund. The annual project plan shall identify projects for the succeeding fiscal year and the 5-year project plan shall identify projects for the 5 directly succeeding fiscal years. The Commission shall submit the annual and 5-year project plans for this Fund to the Governor, the President of the Senate, the Senate Minority Leader, the Speaker of the House of Representatives, and the Minority Leader of the House of Representatives on the first Wednesday in April of each year;

(d) of the amount remaining after allocations provided for in subsections (a), (a-1), (b)<sub>2</sub> and (c), a sufficient amount shall be reserved to pay all of the following:

(1) the costs of the Department of Revenue in administering this Act;

(2) the costs of the Department of Transportation in performing its duties imposed by the Illinois Highway Code for supervising the use of motor fuel tax funds apportioned to municipalities, counties and road districts;

(3) refunds provided for in Section 13, refunds for overpayment of decal fees paid under Section 13a.4 of this Act, and refunds provided for under the terms of the International Fuel Tax Agreement referenced in Section 14a;

(4) from October 1, 1985 until June 30, 1994, the administration of the Vehicle Emissions Inspection Law, which amount shall be certified monthly by the Environmental Protection Agency to the State Comptroller and shall promptly be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund to the Vehicle Inspection Fund, and for the period July 1, 1994 through June 30, 2000, one-twelfth of \$25,000,000 each month, for the period July 1, 2000 through June 30, 2003, one-twelfth of \$30,000,000 each month, and \$15,000,000 on July 1, 2003, and \$15,000,000 on January 1, 2004, and \$15,000,000 on each July 1 and October 1, or as soon thereafter as may be practical, during the period July 1, 2004 through June 30, 2012, and \$30,000,000 on June 1, 2013, or as soon thereafter as may be practical, and \$15,000,000 on July 1 and October 1, or as soon thereafter as may be practical, during the period of July 1, 2013 through June 30, 2015, for the administration of the Vehicle Emissions Inspection Law of 2005, to be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund into the Vehicle Inspection Fund;

(4.5) beginning on July 1, 2019, the costs of the Environmental Protection Agency for the administration of the Vehicle Emissions Inspection Law of 2005 shall be paid, subject to appropriation, from the Motor Fuel Tax Fund into the Vehicle Inspection Fund; beginning in 2019, no later than December 31 of each year, or as soon thereafter as practical, the State Comptroller shall direct and the State Treasurer shall transfer from the Vehicle Inspection Fund to the Motor Fuel Tax Fund any balance remaining in the Vehicle Inspection Fund in excess of \$2,000,000;

(5) amounts ordered paid by the Court of Claims; and

(6) payment of motor fuel use taxes due to member jurisdictions under the terms of the International Fuel Tax Agreement. The Department shall certify these amounts to the Comptroller by the 15th day of each month; the Comptroller shall cause orders to be drawn for such amounts, and the Treasurer shall administer those amounts on or before the last day of each month;

(e) after allocations for the purposes set forth in subsections (a), (a-1), (b), (c)<sub>2</sub> and (d), the remaining amount shall be apportioned as follows:

(1) Until January 1, 2000, 58.4%, and beginning January 1, 2000, 45.6% shall be deposited as follows:

(A) 37% into the State Construction Account Fund, and

(B) 63% into the Road Fund, \$1,250,000 of which shall be reserved each month for the Department of Transportation to be used in accordance with the provisions of Sections 6-901 through 6-906 of the Illinois Highway Code;

(2) Until January 1, 2000, 41.6%, and beginning January 1, 2000, 54.4% shall be transferred to the Department of Transportation to be distributed as follows:

(A) 49.10% to the municipalities of the State,

(B) 16.74% to the counties of the State having 1,000,000 or more inhabitants,

(C) 18.27% to the counties of the State having less than 1,000,000 inhabitants,

(D) 15.89% to the road districts of the State.

If a township is dissolved under Article 24 of the Township Code, McHenry County shall receive any moneys that would have been distributed to the township under this subparagraph, except that a municipality that assumes the powers and responsibilities of a road district under paragraph (6) of Section 24-35 of the Township Code shall receive any moneys that would have been distributed to the township in a percent equal to the area of the dissolved road district or portion of the dissolved road district over which the municipality assumed the powers and responsibilities compared to the total area of the dissolved township. The moneys received under this subparagraph shall be used in the geographic area of the dissolved township. If a township is reconstituted as provided under Section 24-45 of the Township Code, McHenry County or a municipality shall no longer be distributed moneys under this subparagraph.

As soon as may be after the first day of each month, the Department of Transportation shall allot to each municipality its share of the amount apportioned to the several municipalities which shall be in proportion to the population of such municipalities as determined by the last preceding municipal census if conducted by the Federal Government or Federal census. If territory is annexed to any municipality subsequent to the time of the last preceding census the corporate authorities of such municipality may cause a census to be taken of such annexed territory and the population so ascertained for such territory shall be added to the population of the municipality as determined by the last preceding census for the purpose of determining the allotment for that municipality. If the population of any municipality was not determined by the last Federal census preceding any apportionment, the apportionment to such municipality shall be in accordance with any census taken by such municipality. Any municipal census used in accordance with this Section shall be certified to the Department of Transportation by the clerk of such municipality, and the accuracy thereof shall be subject to approval of the Department which may make such corrections as it ascertains to be necessary.

As soon as may be after the first day of each month, the Department of Transportation shall allot to each county its share of the amount apportioned to the several counties of the State as herein provided. Each allotment to the several counties having less than 1,000,000 inhabitants shall be in proportion to the amount of motor vehicle license fees received from the residents of such counties, respectively, during the preceding calendar year. The Secretary of State shall, on or before April 15 of each year, transmit to the Department of Transportation a full and complete report showing the amount of motor vehicle license fees received from the residents of each county, respectively, during the preceding calendar year. The Department of Transportation shall, each month, use for allotment purposes the last such report received from the Secretary of State.

As soon as may be after the first day of each month, the Department of Transportation shall allot to the several counties their share of the amount apportioned for the use of road districts. The allotment shall be apportioned among the several counties in the State in the proportion which the total mileage of township or district roads in the respective counties bears to the total mileage of all township and district roads in the State. Funds allotted to the respective counties for the use of road districts therein shall be allocated to the several road districts in the county in the proportion which the total mileage of such township or district roads in the respective road districts bears to the total mileage of all such township or district roads in the county. After July 1 of any year prior to 2011, no allocation shall be made for any road district unless it levied a tax for road and bridge purposes in an amount which will require the extension of such tax against the taxable property in any such road district at a rate of not less than either .08% of the value thereof, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less. Beginning July 1, 2011 and each July 1 thereafter, an allocation shall be made for any road district if it levied a tax for road and bridge

purposes. In counties other than DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than 0.08% of the value thereof, based upon the assessment for the year immediately prior to the year in which the tax was levied and as equalized by the Department of Revenue, then the amount of the allocation for that road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by 0.08%. In DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than the lesser of (i) 0.08% of the value of the taxable property in the road district, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue, or (ii) a rate that will yield an amount equal to \$12,000 per mile of road under the jurisdiction of the road district, then the amount of the allocation for the road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by the lesser of (i) 0.08% or (ii) the rate that will yield an amount equal to \$12,000 per mile of road under the jurisdiction of the road district.

Prior to 2011, if any road district has levied a special tax for road purposes pursuant to Sections 6-601, 6-602, and 6-603 of the Illinois Highway Code, and such tax was levied in an amount which would require extension at a rate of not less than .08% of the value of the taxable property thereof, as equalized or assessed by the Department of Revenue, or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less, such levy shall, however, be deemed a proper compliance with this Section and shall qualify such road district for an allotment under this Section. Beginning in 2011 and thereafter, if any road district has levied a special tax for road purposes under Sections 6-601, 6-602, and 6-603 of the Illinois Highway Code, and the tax was levied in an amount that would require extension at a rate of not less than 0.08% of the value of the taxable property of that road district, as equalized or assessed by the Department of Revenue or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less, that levy shall be deemed a proper compliance with this Section and shall qualify such road district for a full, rather than proportionate, allotment under this Section. If the levy for the special tax is less than 0.08% of the value of the taxable property, or, in DuPage County if the levy for the special tax is less than the lesser of (i) 0.08% or (ii) \$12,000 per mile of road under the jurisdiction of the road district, and if the levy for the special tax is more than any other levy for road and bridge purposes, then the levy for the special tax qualifies the road district for a proportionate, rather than full, allotment under this Section. If the levy for the special tax is equal to or less than any other levy for road and bridge purposes, then any allotment under this Section shall be determined by the other levy for road and bridge purposes.

Prior to 2011, if a township has transferred to the road and bridge fund money which, when added to the amount of any tax levy of the road district would be the equivalent of a tax levy requiring extension at a rate of at least .08%, or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less, such transfer, together with any such tax levy, shall be deemed a proper compliance with this Section and shall qualify the road district for an allotment under this Section.

In counties in which a property tax extension limitation is imposed under the Property Tax Extension Limitation Law, road districts may retain their entitlement to a motor fuel tax allotment or, beginning in 2011, their entitlement to a full allotment if, at the time the property tax extension limitation was imposed, the road district was levying a road and bridge tax at a rate sufficient to entitle it to a motor fuel tax allotment and continues to levy the maximum allowable amount after the imposition of the property tax extension limitation. Any road district may in all circumstances retain its entitlement to a motor fuel tax allotment or, beginning in 2011, its entitlement to a full allotment if it levied a road and bridge tax in an amount that will require the extension of the tax against the taxable property in the road district at a rate of not less than 0.08% of the assessed value of the property, based upon the assessment for the year immediately preceding the year in which the tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less.

As used in this Section, the term "road district" means any road district, including a county unit road district, provided for by the Illinois Highway Code; and the term "township or district road" means any road in the township and district road system as defined in the Illinois Highway Code. For the purposes of this Section, "township or district road" also includes such roads as are maintained by park districts, forest preserve districts and conservation districts. The Department of Transportation shall determine the mileage

of all township and district roads for the purposes of making allotments and allocations of motor fuel tax funds for use in road districts.

Payment of motor fuel tax moneys to municipalities and counties shall be made as soon as possible after the allotment is made. The treasurer of the municipality or county may invest these funds until their use is required and the interest earned by these investments shall be limited to the same uses as the principal funds.

Section 5-10. The Illinois Vehicle Code is amended by changing Section 18c-7401 as follows:

(625 ILCS 5/18c-7401) (from Ch. 95 1/2, par. 18c-7401)

Sec. 18c-7401. Safety Requirements for Track, Facilities, and Equipment.

(1) General Requirements. Each rail carrier shall, consistent with rules, orders, and regulations of the Federal Railroad Administration, construct, maintain, and operate all of its equipment, track, and other property in this State in such a manner as to pose no undue risk to its employees or the person or property of any member of the public.

(2) Adoption of Federal Standards. The track safety standards and accident/incident standards promulgated by the Federal Railroad Administration shall be safety standards of the Commission. The Commission may, in addition, adopt by reference in its regulations other federal railroad safety standards, whether contained in federal statutes or in regulations adopted pursuant to such statutes.

(3) Railroad Crossings. No public road, highway, or street shall hereafter be constructed across the track of any rail carrier at grade, nor shall the track of any rail carrier be constructed across a public road, highway or street at grade, without having first secured the permission of the Commission; provided, that this Section shall not apply to the replacement of lawfully existing roads, highways, and tracks. No public pedestrian bridge or subway shall be constructed across the track of any rail carrier without having first secured the permission of the Commission. The Commission shall have the right to refuse its permission or to grant it upon such terms and conditions as it may prescribe. The Commission shall have power to determine and prescribe the manner, including the particular point of crossing, and the terms of installation, operation, maintenance, use, and protection of each such crossing.

The Commission shall also have power, after a hearing, to require major alteration of or to abolish any crossing, heretofore or hereafter established, when in its opinion, the public safety requires such alteration or abolition, and, except in cities, villages, and incorporated towns of 1,000,000 or more inhabitants, to vacate and close that part of the highway on such crossing altered or abolished and cause barricades to be erected across such highway in such manner as to prevent the use of such crossing as a highway, when, in the opinion of the Commission, the public convenience served by the crossing in question is not such as to justify the further retention thereof; or to require a separation of grades, at railroad-highway grade crossings; or to require a separation of grades at any proposed crossing where a proposed public highway may cross the tracks of any rail carrier or carriers; and to prescribe, after a hearing of the parties, the terms upon which such separations shall be made and the proportion in which the expense of the alteration or abolition of such crossings or the separation of such grades, having regard to the benefits, if any, accruing to the rail carrier or any party in interest, shall be divided between the rail carrier or carriers affected, or between such carrier or carriers and the State, county, municipality or other public authority in interest. However, a public hearing by the Commission to abolish a crossing shall not be required when the public highway authority in interest vacates the highway. In such instance the rail carrier, following notification to the Commission and the highway authority, shall remove any grade crossing warning devices and the grade crossing surface.

The Commission shall also have power by its order to require the reconstruction, minor alteration, minor relocation, or improvement of any crossing (including the necessary highway approaches thereto) of any railroad across any highway or public road, pedestrian bridge, or pedestrian subway, whether such crossing be at grade or by overhead structure or by subway, whenever the Commission finds after a hearing or without a hearing as otherwise provided in this paragraph that such reconstruction, alteration, relocation, or improvement is necessary to preserve or promote the safety or convenience of the public or of the employees or passengers of such rail carrier or carriers. By its original order or supplemental orders in such case, the Commission may direct such reconstruction, alteration, relocation, or improvement to be made in such manner and upon such terms and conditions as may be reasonable and necessary and may apportion the cost of such reconstruction, alteration, relocation, or improvement and the subsequent maintenance thereof, having regard to the benefits, if any, accruing to the railroad or any party in interest, between the rail carrier or carriers and public utilities affected, or between such carrier or carriers and public utilities and the State,

county, municipality or other public authority in interest. The cost to be so apportioned shall include the cost of changes or alterations in the equipment of public utilities affected as well as the cost of the relocation, diversion or establishment of any public highway, made necessary by such reconstruction, alteration, relocation, or improvement of said crossing. A hearing shall not be required in those instances when the Commission enters an order confirming a written stipulation in which the Commission, the public highway authority or other public authority in interest, the rail carrier or carriers affected, and in instances involving the use of the Grade Crossing Protection Fund, the Illinois Department of Transportation, agree on the reconstruction, alteration, relocation, or improvement and the subsequent maintenance thereof and the division of costs of such changes of any grade crossing (including the necessary highway approaches thereto) of any railroad across any highway, pedestrian bridge, or pedestrian subway.

The Commission shall also have power to enter into stipulated agreements with a rail carrier or rail carriers or public authorities to fund, provide, install, and maintain safety treatments to deter trespassing on railroad property in accordance with paragraph (1) of Section 18c-7503 at locations approved by such rail carrier or rail carriers following a diagnostic evaluation between the Commission and the rail carrier or rail carriers, including any public authority in interest or the Federal Railroad Administration, and to order the allocation of the cost of those treatments and their installation and maintenance from the Grade Crossing Protection Fund. Safety treatments approved under this paragraph by the Commission shall be deemed adequate and appropriate.

Every rail carrier operating in the State of Illinois shall construct and maintain every highway crossing over its tracks within the State so that the roadway at the intersection shall be as flush with the rails as superelevated curves will allow, and, unless otherwise ordered by the Commission, shall construct and maintain the approaches thereto at a grade of not more than 5% within the right of way for a distance of not less the 6 feet on each side of the centerline of such tracks; provided, that the grades at the approaches may be maintained in excess of 5% only when authorized by the Commission.

Every rail carrier operating within this State shall remove from its right of way at all railroad-highway grade crossings within the State, such brush, shrubbery, and trees as is reasonably practical for a distance of not less than 500 feet in either direction from each grade crossing. The Commission shall have power, upon its own motion, or upon complaint, and after having made proper investigation, to require the installation of adequate and appropriate luminous reflective warning signs, luminous flashing signals, crossing gates illuminated at night, or other protective devices in order to promote and safeguard the health and safety of the public. Luminous flashing signal or crossing gate devices installed at grade crossings, which have been approved by the Commission, shall be deemed adequate and appropriate. The Commission shall have authority to determine the number, type, and location of such signs, signals, gates, or other protective devices which, however, shall conform as near as may be with generally recognized national standards, and the Commission shall have authority to prescribe the division of the cost of the installation and subsequent maintenance of such signs, signals, gates, or other protective devices between the rail carrier or carriers, the public highway authority or other public authority in interest, and in instances involving the use of the Grade Crossing Protection Fund, the Illinois Department of Transportation. Except where train crews provide flagging of the crossing to road users, yield signs shall be installed at all highway intersections with every grade crossing in this State that is not equipped with automatic warning devices, such as luminous flashing signals or crossing gate devices. A stop sign may be used in lieu of the yield sign when an engineering study conducted in cooperation with the highway authority and the Illinois Department of Transportation has determined that a stop sign is warranted. If the Commission has ordered the installation of luminous flashing signal or crossing gate devices at a grade crossing not equipped with active warning devices, the Commission shall order the installation of temporary stop signs at the highway intersection with the grade crossing unless an engineering study has determined that a stop sign is not appropriate. If a stop sign is not appropriate, the Commission may order the installation of other appropriate supplemental signing as determined by an engineering study. The temporary signs shall remain in place until the luminous flashing signal or crossing gate devices have been installed. The rail carrier is responsible for the installation and subsequent maintenance of any required signs. The permanent signs shall be in place by July 1, 2011.

No railroad may change or modify the warning device system at a railroad-highway grade crossing, including warning systems interconnected with highway traffic control signals, without having first received the approval of the Commission. The Commission shall have the further power, upon application, upon its own motion, or upon complaint and after having made proper investigation, to require the interconnection of grade crossing warning devices with traffic control signals at highway intersections located at or near railroad crossings within the distances described by the State Manual on Uniform Traffic Control Devices

adopted pursuant to Section 11-301 of this Code. In addition, State and local authorities may not install, remove, modernize, or otherwise modify traffic control signals at a highway intersection that is interconnected or proposed to be interconnected with grade crossing warning devices when the change affects the number, type, or location of traffic control devices on the track approach leg or legs of the intersection or the timing of the railroad preemption sequence of operation until the Commission has approved the installation, removal, modernization, or modification. Commission approval shall be limited to consideration of issues directly affecting the public safety at the railroad-highway grade crossing. The electrical circuit devices, alternate warning devices, and preemption sequences shall conform as nearly as possible, considering the particular characteristics of the crossing and intersection area, to the State manual adopted by the Illinois Department of Transportation pursuant to Section 11-301 of this Code and such federal standards as are made applicable by subsection (2) of this Section. In order to carry out this authority, the Commission shall have the authority to determine the number, type, and location of traffic control devices on the track approach leg or legs of the intersection and the timing of the railroad preemption sequence of operation. The Commission shall prescribe the division of costs for installation and maintenance of all devices required by this paragraph between the railroad or railroads and the highway authority in interest and in instances involving the use of the Grade Crossing Protection Fund or a State highway, the Illinois Department of Transportation.

Any person who unlawfully or maliciously removes, throws down, damages or defaces any sign, signal, gate, or other protective device, located at or near any public grade crossing, shall be guilty of a petty offense and fined not less than \$50 nor more than \$200 for each offense. In addition to fines levied under the provisions of this Section a person adjudged guilty hereunder may also be directed to make restitution for the costs of repair or replacement, or both, necessitated by his misconduct.

It is the public policy of the State of Illinois to enhance public safety by establishing safe grade crossings. In order to implement this policy, the Illinois Commerce Commission is directed to conduct public hearings and to adopt specific criteria by July 1, 1994, that shall be adhered to by the Illinois Commerce Commission in determining if a grade crossing should be opened or abolished. The following factors shall be considered by the Illinois Commerce Commission in developing the specific criteria for opening and abolishing grade crossings:

- (a) timetable speed of passenger trains;
- (b) distance to an alternate crossing;
- (c) accident history for the last 5 years;
- (d) number of vehicular traffic and posted speed limits;
- (e) number of freight trains and their timetable speeds;
- (f) the type of warning device present at the grade crossing;
- (g) alignments of the roadway and railroad, and the angle of intersection of those alignments;
- (h) use of the grade crossing by trucks carrying hazardous materials, vehicles carrying passengers for hire, and school buses; and
- (i) use of the grade crossing by emergency vehicles.

The Illinois Commerce Commission, upon petition to open or abolish a grade crossing, shall enter an order opening or abolishing the crossing if it meets the specific criteria adopted by the Commission.

Except as otherwise provided in this subsection (3), in no instance shall a grade crossing be permanently closed without public hearing first being held and notice of such hearing being published in an area newspaper of local general circulation.

(4) Freight Trains; Radio Communications. The Commission shall after hearing and order require that every main line railroad freight train operating on main tracks outside of yard limits within this State shall be equipped with a radio communication system. The Commission after notice and hearing may grant exemptions from the requirements of this Section as to secondary and branch lines.

(5) Railroad Bridges and Trestles; Walkway and Handrail. In cases in which the Commission finds the same to be practical and necessary for safety of railroad employees, bridges and trestles, over and upon which railroad trains are operated, shall include as a part thereof, a safe and suitable walkway and handrail on one side only of such bridge or trestle, and such handrail shall be located at the outer edge of the walkway and shall provide a clearance of not less than 8 feet, 6 inches, from the center line of the nearest track, measured at right angles thereto.

- (6) Packages Containing Articles for First Aid to Injured on Trains.

(a) All rail carriers shall provide a first aid kit that contains, at a minimum, those articles prescribed by the Commission, on each train or engine, for first aid to persons who may be injured in the course of the operation of such trains.

(b) A vehicle, excluding a taxi cab used in an emergency situation, operated by a contract carrier transporting railroad employees in the course of their employment shall be equipped with a readily available first aid kit that contains, as a minimum, the same articles that are required on each train or engine.

(7) Abandoned Bridges, Crossings, and Other Rail Plant. The Commission shall have authority, after notice and hearing, to order:

(a) the removal of any abandoned railroad tracks from roads, streets or other thoroughfares in this State; and

(b) the removal of abandoned overhead railroad structures crossing highways, waterways, or railroads.

The Commission may equitably apportion the cost of such actions between the rail carrier or carriers, public utilities, and the State, county, municipality, township, road district, or other public authority in interest.

(8) Railroad-Highway Bridge Clearance. A vertical clearance of not less than 23 feet above the top of rail shall be provided for all new or reconstructed highway bridges constructed over a railroad track. The Commission may permit a lesser clearance if it determines that the 23-foot clearance standard cannot be justified based on engineering, operational, and economic conditions.

(9) Right of Access To Railroad Property.

(a) A community antenna television company franchised by a municipality or county pursuant to the Illinois Municipal Code or the Counties Code, respectively, shall not enter upon any real estate or rights-of-way in the possession or control of a railroad subject to the jurisdiction of the Illinois Commerce Commission unless the community antenna television company first complies with the applicable provisions of subparagraph (f) of Section 11-42-11.1 of the Illinois Municipal Code or subparagraph (f) of Section 5-1096 of the Counties Code.

(b) Notwithstanding any provision of law to the contrary, this subsection (9) applies to all entries of railroad rights-of-way involving a railroad subject to the jurisdiction of the Illinois Commerce Commission by a community antenna television company and shall govern in the event of any conflict with any other provision of law.

(c) This subsection (9) applies to any entry upon any real estate or right-of-way in the possession or control of a railroad subject to the jurisdiction of the Illinois Commerce Commission for the purpose of or in connection with the construction, or installation of a community antenna television company's system or facilities commenced or renewed on or after August 22, 2017 (the effective date of Public Act 100-251).

(d) Nothing in Public Act 100-251 shall be construed to prevent a railroad from negotiating other terms and conditions or the resolution of any dispute in relation to an entry upon or right of access as set forth in this subsection (9).

(e) For purposes of this subsection (9):

"Broadband service", "cable operator", and "holder" have the meanings given to those terms under Section 21-201 of the Public Utilities Act.

"Community antenna television company" includes, in the case of real estate or rights-of-way in possession of or in control of a railroad, a holder, cable operator, or broadband service provider.

(f) Beginning on August 22, 2017 (the effective date of Public Act 100-251), the Transportation Division of the Illinois Commerce Commission shall include in its annual Crossing Safety Improvement Program report a brief description of the number of cases decided by the Illinois Commerce Commission and the number of cases that remain pending before the Illinois Commerce Commission under this subsection (9) for the period covered by the report.

#### ARTICLE 6. SPORTS FACILITIES AUTHORITY

Section 6-5. The State Finance Act is amended by changing Section 8.25-4 as follows:  
(30 ILCS 105/8.25-4) (from Ch. 127, par. 144.25-4)

[May 31, 2021]

Sec. 8.25-4. All moneys in the Illinois Sports Facilities Fund are allocated to and shall be transferred, appropriated and used only for the purposes authorized by, and subject to, the limitations and conditions of this Section.

All moneys deposited with respect to the additional \$8,000,000 advance applicable before July 1, 2001, or the Advance Amount applicable on and after that date, but not the \$5,000,000 deposit, pursuant to Section 6 of "The Hotel Operators' Occupation Tax Act", as amended, into the Illinois Sports Facilities Fund shall be credited to the Advance Account within the Fund.

Beginning with fiscal year 1989 and continuing for each fiscal year thereafter through and including fiscal year 2001, no less than 30 days before the beginning of such fiscal year (except as soon as may be practicable after the effective date of this amendatory Act of 1988 with respect to fiscal year 1989) the Chairman of the Illinois Sports Facilities Authority shall certify to the State Comptroller and the State Treasurer, without taking into account any revenues or receipts of the Authority, the lesser of (a) \$18,000,000 and (b) the sum of (i) the amount anticipated to be required by the Authority during the fiscal year to pay principal of and interest on, and other payments relating to, its obligations issued or to be issued under Section 13 of the Illinois Sports Facilities Authority Act, including any deposits required to reserve funds created under any indenture or resolution authorizing issuance of the obligations and payments to providers of credit enhancement, (ii) the amount anticipated to be required by the Authority during the fiscal year to pay obligations under the provisions of any management agreement with respect to a facility or facilities owned by the Authority or of any assistance agreement with respect to any facility for which financial assistance is provided under the Illinois Sports Facilities Authority Act, and to pay other capital and operating expenses of the Authority during the fiscal year, including any deposits required to reserve funds created for repair and replacement of capital assets and to meet the obligations of the Authority under any management agreement or assistance agreement, and (iii) any amounts under (i) and (ii) above remaining unpaid from previous years.

Beginning with fiscal year 2002 and continuing for each fiscal year thereafter, no less than 30 days before the beginning of such fiscal year, the Chairman of the Illinois Sports Facilities Authority shall certify to the State Comptroller and the State Treasurer, without taking into account any revenues or receipts of the Authority, the lesser of (a) an amount equal to the sum of the Advance Amount plus \$10,000,000 and (b) the sum of (i) the amount anticipated to be required by the Authority during the fiscal year to pay principal of and interest on, and other payments relating to, its obligations issued or to be issued under Section 13 of the Illinois Sports Facilities Authority Act, including any deposits required to reserve funds created under any indenture or resolution authorizing issuance of the obligations and payments to providers of credit enhancement, (ii) the amount anticipated to be required by the Authority during the fiscal year to pay obligations under the provisions of any management agreement with respect to a facility or facilities owned by the Authority or any assistance agreement with respect to any facility for which financial assistance is provided under the Illinois Sports Facilities Authority Act, and to pay other capital and operating expenses of the Authority during the fiscal year, including any deposits required to reserve funds created for repair and replacement of capital assets and to meet the obligations of the Authority under any management agreement or assistance agreement, and (iii) any amounts under (i) and (ii) above remaining unpaid from previous years.

A copy of any certification made by the Chairman under the preceding 2 paragraphs shall be filed with the Governor and the Mayor of the City of Chicago. The Chairman may file an amended certification from time to time.

Subject to sufficient appropriation by the General Assembly, beginning with July 1, 1988 and thereafter continuing on the first day of each month during each fiscal year through and including fiscal year 2001, the Comptroller shall order paid and the Treasurer shall pay to the Authority the amount in the Illinois Sports Facilities Fund until (x) the lesser of \$10,000,000 or the amount appropriated for payment to the Authority from amounts credited to the Subsidy Account and (y) the lesser of \$8,000,000 or the difference between the amount appropriated for payment to the Authority during the fiscal year and \$10,000,000 has been paid from amounts credited to the Advance Account.

Subject to sufficient appropriation by the General Assembly, beginning with July 1, 2001, and thereafter continuing on the first day of each month during each fiscal year thereafter, the Comptroller shall order paid and the Treasurer shall pay to the Authority the amount in the Illinois Sports Facilities Fund until (x) the lesser of \$10,000,000 or the amount appropriated for payment to the Authority from amounts credited to the Subsidy Account and (y) the lesser of the Advance Amount or the difference between the amount appropriated for payment to the Authority during the fiscal year and \$10,000,000 has been paid from amounts credited to the Advance Account.

Provided that all amounts deposited in the Illinois Sports Facilities Fund and credited to the Subsidy Account, to the extent requested pursuant to the Chairman's certification, have been paid, on June 30, 1989, and on June 30 of each year thereafter, all amounts remaining in the Subsidy Account of the Illinois Sports Facilities Fund shall be transferred by the State Treasurer one-half to the General Revenue Fund in the State Treasury and one-half to the City Tax Fund. Provided that all amounts appropriated from the Illinois Sports Facilities Fund, to the extent requested pursuant to the Chairman's certification, have been paid, on June 30, 1989, and on June 30 of each year thereafter, all amounts remaining in the Advance Account of the Illinois Sports Facilities Fund shall be transferred by the State Treasurer to the General Revenue Fund in the State Treasury.

For purposes of this Section, the term "Advance Amount" means, for fiscal year 2002, \$22,179,000, and for subsequent fiscal years through fiscal year ~~2033~~ 2032, 105.615% of the Advance Amount for the immediately preceding fiscal year, rounded up to the nearest \$1,000.

Section 6-10. The Hotel Operators' Occupation Tax Act is amended by changing Section 6 as follows:  
(35 ILCS 145/6) (from Ch. 120, par. 481b.36)

Sec. 6. Filing of returns and distribution of proceeds.

Except as provided hereinafter in this Section, on or before the last day of each calendar month, every person engaged in the business of renting, leasing or letting rooms in a hotel in this State during the preceding calendar month shall file a return with the Department, stating:

1. The name of the operator;
2. His residence address and the address of his principal place of business and the address of the principal place of business (if that is a different address) from which he engages in the business of renting, leasing or letting rooms in a hotel in this State;
3. Total amount of rental receipts received by him during the preceding calendar month from renting, leasing or letting rooms during such preceding calendar month;
4. Total amount of rental receipts received by him during the preceding calendar month from renting, leasing or letting rooms to permanent residents during such preceding calendar month;
5. Total amount of other exclusions from gross rental receipts allowed by this Act;
6. Gross rental receipts which were received by him during the preceding calendar month and upon the basis of which the tax is imposed;
7. The amount of tax due;
8. Such other reasonable information as the Department may require.

If the operator's average monthly tax liability to the Department does not exceed \$200, the Department may authorize his returns to be filed on a quarter annual basis, with the return for January, February and March of a given year being due by April 30 of such year; with the return for April, May and June of a given year being due by July 31 of such year; with the return for July, August and September of a given year being due by October 31 of such year, and with the return for October, November and December of a given year being due by January 31 of the following year.

If the operator's average monthly tax liability to the Department does not exceed \$50, the Department may authorize his returns to be filed on an annual basis, with the return for a given year being due by January 31 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which an operator may file his return, in the case of any operator who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such operator shall file a final return under this Act with the Department not more than 1 month after discontinuing such business.

Where the same person has more than 1 business registered with the Department under separate registrations under this Act, such person shall not file each return that is due as a single return covering all such registered businesses, but shall file separate returns for each such registered business.

In his return, the operator shall determine the value of any consideration other than money received by him in connection with the renting, leasing or letting of rooms in the course of his business and he shall include such value in his return. Such determination shall be subject to review and revision by the Department in the manner hereinafter provided for the correction of returns.

Where the operator is a corporation, the return filed on behalf of such corporation shall be signed by the president, vice-president, secretary or treasurer or by the properly accredited agent of such corporation.

The person filing the return herein provided for shall, at the time of filing such return, pay to the Department the amount of tax herein imposed. The operator filing the return under this Section shall, at the time of filing such return, pay to the Department the amount of tax imposed by this Act less a discount of 2.1% or \$25 per calendar year, whichever is greater, which is allowed to reimburse the operator for the expenses incurred in keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request.

If any payment provided for in this Section exceeds the operator's liabilities under this Act, as shown on an original return, the Department may authorize the operator to credit such excess payment against liability subsequently to be remitted to the Department under this Act, in accordance with reasonable rules adopted by the Department. If the Department subsequently determines that all or any part of the credit taken was not actually due to the operator, the operator's discount shall be reduced by an amount equal to the difference between the discount as applied to the credit taken and that actually due, and that operator shall be liable for penalties and interest on such difference.

There shall be deposited in the Build Illinois Fund in the State Treasury for each State fiscal year 40% of the amount of total net proceeds from the tax imposed by subsection (a) of Section 3. Of the remaining 60%, \$5,000,000 shall be deposited in the Illinois Sports Facilities Fund and credited to the Subsidy Account each fiscal year by making monthly deposits in the amount of 1/8 of \$5,000,000 plus cumulative deficiencies in such deposits for prior months, and an additional \$8,000,000 shall be deposited in the Illinois Sports Facilities Fund and credited to the Advance Account each fiscal year by making monthly deposits in the amount of 1/8 of \$8,000,000 plus any cumulative deficiencies in such deposits for prior months; provided, that for fiscal years ending after June 30, 2001, the amount to be so deposited into the Illinois Sports Facilities Fund and credited to the Advance Account each fiscal year shall be increased from \$8,000,000 to the then applicable Advance Amount and the required monthly deposits beginning with July 2001 shall be in the amount of 1/8 of the then applicable Advance Amount plus any cumulative deficiencies in those deposits for prior months. (The deposits of the additional \$8,000,000 or the then applicable Advance Amount, as applicable, during each fiscal year shall be treated as advances of funds to the Illinois Sports Facilities Authority for its corporate purposes to the extent paid to the Authority or its trustee and shall be repaid into the General Revenue Fund in the State Treasury by the State Treasurer on behalf of the Authority pursuant to Section 19 of the Illinois Sports Facilities Authority Act, as amended. If in any fiscal year the full amount of the then applicable Advance Amount is not repaid into the General Revenue Fund, then the deficiency shall be paid from the amount in the Local Government Distributive Fund that would otherwise be allocated to the City of Chicago under the State Revenue Sharing Act.)

For purposes of the foregoing paragraph, the term "Advance Amount" means, for fiscal year 2002, \$22,179,000, and for subsequent fiscal years through fiscal year ~~2033~~ ~~2032~~, 105.615% of the Advance Amount for the immediately preceding fiscal year, rounded up to the nearest \$1,000.

Of the remaining 60% of the amount of total net proceeds prior to August 1, 2011 from the tax imposed by subsection (a) of Section 3 after all required deposits in the Illinois Sports Facilities Fund, the amount equal to 8% of the net revenue realized from this Act plus an amount equal to 8% of the net revenue realized from any tax imposed under Section 4.05 of the Chicago World's Fair-1992 Authority Act during the preceding month shall be deposited in the Local Tourism Fund each month for purposes authorized by Section 605-705 of the Department of Commerce and Economic Opportunity Law (20 ILCS 605/605-705). Of the remaining 60% of the amount of total net proceeds beginning on August 1, 2011 from the tax imposed by subsection (a) of Section 3 after all required deposits in the Illinois Sports Facilities Fund, an amount equal to 8% of the net revenue realized from this Act plus an amount equal to 8% of the net revenue realized from any tax imposed under Section 4.05 of the Chicago World's Fair-1992 Authority Act during the preceding month shall be deposited as follows: 18% of such amount shall be deposited into the Chicago Travel Industry Promotion Fund for the purposes described in subsection (n) of Section 5 of the

Metropolitan Pier and Exposition Authority Act and the remaining 82% of such amount shall be deposited into the Local Tourism Fund each month for purposes authorized by Section 605-705 of the Department of Commerce and Economic Opportunity Law. Beginning on August 1, 1999 and ending on July 31, 2011, an amount equal to 4.5% of the net revenue realized from the Hotel Operators' Occupation Tax Act during the preceding month shall be deposited into the International Tourism Fund for the purposes authorized in Section 605-707 of the Department of Commerce and Economic Opportunity Law. Beginning on August 1, 2011, an amount equal to 4.5% of the net revenue realized from this Act during the preceding month shall be deposited as follows: 55% of such amount shall be deposited into the Chicago Travel Industry Promotion Fund for the purposes described in subsection (n) of Section 5 of the Metropolitan Pier and Exposition Authority Act and the remaining 45% of such amount deposited into the International Tourism Fund for the purposes authorized in Section 605-707 of the Department of Commerce and Economic Opportunity Law. "Net revenue realized for a month" means the revenue collected by the State under that Act during the previous month less the amount paid out during that same month as refunds to taxpayers for overpayment of liability under that Act.

After making all these deposits, all other proceeds of the tax imposed under subsection (a) of Section 3 shall be deposited in the Tourism Promotion Fund in the State Treasury. All moneys received by the Department from the additional tax imposed under subsection (b) of Section 3 shall be deposited into the Build Illinois Fund in the State Treasury.

The Department may, upon separate written notice to a taxpayer, require the taxpayer to prepare and file with the Department on a form prescribed by the Department within not less than 60 days after receipt of the notice an annual information return for the tax year specified in the notice. Such annual return to the Department shall include a statement of gross receipts as shown by the operator's last State income tax return. If the total receipts of the business as reported in the State income tax return do not agree with the gross receipts reported to the Department for the same period, the operator shall attach to his annual information return a schedule showing a reconciliation of the 2 amounts and the reasons for the difference. The operator's annual information return to the Department shall also disclose pay roll information of the operator's business during the year covered by such return and any additional reasonable information which the Department deems would be helpful in determining the accuracy of the monthly, quarterly or annual tax returns by such operator as hereinbefore provided for in this Section.

If the annual information return required by this Section is not filed when and as required the taxpayer shall be liable for a penalty in an amount determined in accordance with Section 3-4 of the Uniform Penalty and Interest Act until such return is filed as required, the penalty to be assessed and collected in the same manner as any other penalty provided for in this Act.

The chief executive officer, proprietor, owner or highest ranking manager shall sign the annual return to certify the accuracy of the information contained therein. Any person who willfully signs the annual return containing false or inaccurate information shall be guilty of perjury and punished accordingly. The annual return form prescribed by the Department shall include a warning that the person signing the return may be liable for perjury.

The foregoing portion of this Section concerning the filing of an annual information return shall not apply to an operator who is not required to file an income tax return with the United States Government. (Source: P.A. 100-23, eff. 7-6-17; 100-1171, eff. 1-4-19.)

In addition, the State pledges to and agrees with the holders of the bonds and notes of the Authority issued pursuant to this Act that the State will not limit or alter the basis on which State funds are to be allocated, deposited and paid to the Authority as provided in this Act, or the use of such funds, so as to impair the terms of any such contract. The Authority is authorized to include these pledges and agreements of the State in any contract with the holders of bonds or notes issued pursuant to this Section. The adoption of emergency rules authorized by Section 5-45 and this Section is deemed to be necessary for the public interest, safety, and welfare.

This Section is repealed one year after the effective date of this amendatory Act of the 102nd General Assembly.

Section 10-10. The Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois is amended by changing Section 605-415 and by adding Sections 605-418 and 605-1065 as follows:

(20 ILCS 605/605-415)

Sec. 605-415. Job Training and Economic Development Grant Program.

(a) Legislative findings. The General Assembly finds that:

(1) Despite the large number of unemployed job seekers, many employers are having difficulty matching the skills they require with the skills of workers; a similar problem exists in industries where overall employment may not be expanding but there is an acute need for skilled workers in particular occupations.

(2) The State of Illinois should foster local economic development by linking the job training of unemployed disadvantaged citizens with the workforce needs of local business and industry.

(3) Employers often need assistance in developing training resources that will provide work opportunities for individuals that are under-represented and or have barriers to participating in the workforce disadvantaged populations.

(b) Definitions. As used in this Section:

"Eligible Entities" means employers, private nonprofit organizations (which may include a faith-based organization) federal Workforce Innovation and Opportunity Act (WIOA) administrative entities, Community Action Agencies, industry associations, and public or private educational institutions, that have demonstrated expertise and effectiveness in administering workforce development programs.

"Target population" means persons who are unemployed, under-employed, or under-represented that have one or more barriers to employment as defined for "individual with a barrier to employment" in the federal Workforce Innovation and Opportunity Act ("WIOA"), 29 U.S.C. 3102(24).

"Eligible Training Provider" means an organization, such as a public or private college or university, an industry association, registered apprenticeship program or a community-based organization that is approved to provide training services by the appropriate accrediting body.

"Barrier Reduction Funding" means flexible funding through a complementary grant agreement, contract, or budgetary line to increase family stability and job retention by covering accumulated emergency costs for basic needs, such as housing-related expenses (rent, utilities, etc.), transportation, child care, digital technology needs, education needs, mental health services, substance abuse services, income support, and work-related supplies that are not typically covered by programmatic supportive services.

"Youth" means an individual aged 16-24 who faces one or more barriers to education, training, and employment.

"Community based provider" means a not for profit organization, with local boards of directors, that directly provides job training services.

"Disadvantaged persons" has the same meaning as in Titles II-A and II-C of the federal Job Training Partnership Act.

"Training partners" means a community based provider and one or more employers who have established training and placement linkages.

(c) The Job Training and Economic Development (JTED) Grant Program may leverage funds from lump sum appropriations with an aligning purpose and funds appropriated specifically for the JTED program. Expenditures from an appropriation of funds from the State CURE Fund shall be for purposes permitted by Section 9901 of the American Rescue Plan Act of 2021, and all related federal guidance. The Director shall make grants to Eligible Entities as described in this section. The grants shall be made to support the following:

(1) Creating customized training with employers to support, train, and employ individuals in the targeted population for this program including the unemployed, under-employed, or under-represented that have one or more barriers to employment.

(2) Coordinating partnerships between Eligible Entities, employers, and educational entities, to develop and operate regional or local strategies for in-demand industries identified in the Department's 5-year Economic Plan and the State's WIOA Unified Plan. These strategies must be part of a career pathway for demand occupations that result in certification or credentials for the targeted populations.

(3) Leveraging funding from a Barrier Reduction Fund to provide supportive services (e.g. transportation, child care, mental health services, substance abuse services, and income support) for

targeted populations including youth participants in workforce development programs to assist with a transition to post-secondary education or full-time employment and a career.

(4) Establishing policies for resource and service coordination and to provide funding for services that attempt to reduce employment barriers such as housing-related expenses (rent, utilities, etc.), child care, digital technology needs, counseling, relief from fines and fees, education needs, and work-related supplies that are not typically covered by programmatic supportive services.

(5) Developing work-based learning and subsidized (or "transitional") employment opportunities with employers, to support the target populations including youth that require on-the-job experience to gain employability skills, work history, and a network to enter the workforce.

(6) Using funding for case management support, subsidies for employee wages, and grants to eligible entities in each region, as feasible, to administer transitional job training programs.

(e) From funds appropriated for that purpose, the Department of Commerce and Economic Opportunity shall administer a Job Training and Economic Development Grant Program. The Director shall make grants to community based providers. The grants shall be made to support the following:

(1) Partnerships between community based providers and employers for the customized training of existing low skilled, low wage employees and newly hired disadvantaged persons.

(2) Partnerships between community based providers and employers to develop and operate training programs that link the work force needs of local industry with the job training of disadvantaged persons.

(d) For projects created under ~~paragraph (1) of subsection (c):~~

(1) The Department shall give a priority to projects that include an in-kind match by an employer in partnership with an Eligible Entity ~~a community based provider~~ and projects that use instructional materials and training instructors directly used in the specific industry sector of the partnership employer.

(2) Participating employers should be active participants in identifying the skills needed for their jobs to ensure the training is appropriate for the targeted populations.

(3) Eligible entities shall assess the employment barriers and needs of local residents and work in partnership with Local Workforce Innovation Areas and local economic development organizations to identify the priority workforce needs of the local industries. These must align with the WIOA Unified, Regional, and Local level plans as well as the Department's 5-year Economic Plan.

(4) Eligible Entities and Eligible Training Providers shall work together to design programs with maximum benefits to local disadvantaged persons and local employers.

(5) Employers must be involved in identifying specific skill-training needs, planning curriculum, assisting in training activities, providing job opportunities, and coordinating job retention for people hired after training through this program and follow-up support.

(6) Eligible Entities shall serve persons who are unemployed, under-employed, or under-represented and that have one or more barriers to employment.

(e) The Department may make available Barrier Reduction Funding to support complementary workforce development and job training efforts.

(2) The partnership employer must be an active participant in the curriculum development and train primarily disadvantaged populations.

(e) For projects created under ~~paragraph (2) of subsection (e):~~

(1) Community based organizations shall assess the employment barriers and needs of local residents and work in partnership with local economic development organizations to identify the priority workforce needs of the local industry.

(2) Training partners (that is, community based organizations and employers) shall work together to design programs with maximum benefits to local disadvantaged persons and local employers.

(3) Employers must be involved in identifying specific skill training needs, planning curriculum, assisting in training activities, providing job opportunities, and coordinating job retention for people hired after training through this program and follow up support.

(4) The community based organizations shall serve disadvantaged persons, including welfare recipients.

(f) The Department shall adopt rules for the grant program and shall create a competitive application procedure for those grants to be awarded beginning in fiscal year 2022. Grants shall be awarded and performance measured based on criteria set forth in Notices of Funding Opportunity. ~~1998. Grants shall be~~

based on a performance-based contracting system. Each grant shall be based on the cost of providing the training services and the goals negotiated and made a part of the contract between the Department and the training partners. The goals shall include the number of people to be trained, the number who stay in the program, the number who complete the program, the number who enter employment, their wages, and the number who retain employment. The level of success in achieving employment, wage, and retention goals shall be a primary consideration for determining contract renewals and subsequent funding levels. In setting the goals, due consideration shall be given to the education, work experience, and job readiness of the trainees; their barriers to employment; and the local job market. Periodic payments under the contracts shall be based on the degree to which the relevant negotiated goals have been met during the payment period.

Section 10-40. The University of Illinois Act is amended by changing Section 7 as follows:

(110 ILCS 305/7) (from Ch. 144, par. 28)

Sec. 7. Powers of trustees.

(a) The trustees shall have power to provide for the requisite buildings, apparatus, and conveniences; to fix the rates for tuition; to appoint such professors and instructors, and to establish and provide for the management of such model farms, model art, and other departments and professorships, as may be required to teach, in the most thorough manner, such branches of learning as are related to agriculture and the mechanic arts, and military tactics, without excluding other scientific and classical studies. The trustees shall, upon the written request of an employee withhold from the compensation of that employee any dues, payments or contributions payable by such employee to any labor organization as defined in the Illinois Educational Labor Relations Act. Under such arrangement, an amount shall be withheld from each regular payroll period which is equal to the pro rata share of the annual dues plus any payments or contributions, and the trustees shall transmit such withholdings to the specified labor organization within 10 working days from the time of the withholding. They may accept the endowments and voluntary professorships or departments in the University, from any person or persons or corporations who may offer the same, and, at any regular meeting of the board, may prescribe rules and regulations in relation to such endowments and declare on what general principles they may be admitted: Provided, that such special voluntary endowments or professorships shall not be incompatible with the true design and scope of the act of congress, or of this Act: Provided, that no student shall at any time be allowed to remain in or about the University in idleness, or without full mental or industrial occupation: And provided further, that the trustees, in the exercise of any of the powers conferred by this Act, shall not create any liability or indebtedness in excess of the funds in the hands of the treasurer of the University at the time of creating such liability or indebtedness, and which may be specially and properly applied to the payment of the same. Except as otherwise provided in this section, any ~~Any~~ lease to the trustees of lands, buildings or facilities which will support scientific research and development in such areas as high technology, super computing, microelectronics, biotechnology,

robotics, physics and engineering shall be for a term not to exceed 18 years, and may grant to the trustees the option to purchase the lands, buildings or facilities. The lease shall recite that it is subject to termination and cancellation in any year for which the General Assembly fails to make an appropriation to pay the rent payable under the terms of the lease.

Leases for the purposes described herein exceeding 5 years shall have the approval of the Illinois Board of Higher Education.

The Board of Trustees may, directly or in cooperation with other institutions of higher education, acquire by purchase or lease or otherwise, and construct, enlarge, improve, equip, complete, operate, control and manage medical research and high technology parks, together with the necessary lands, buildings, facilities, equipment and personal property therefor, to encourage and facilitate (a) the location and development of business and industry in the State of Illinois, and (b) the increased application and development of technology and (c) the improvement and development of the State's economy. The Board of Trustees may lease to nonprofit corporations all or any part of the land, buildings, facilities, equipment or other property included in a medical research and high technology park upon such terms and conditions as the University of Illinois may deem advisable and enter into any contract or agreement with such nonprofit corporations as may be necessary or suitable for the construction, financing, operation and maintenance and management of any such park; and may lease to any person, firm, partnership or corporation, either public or private, any part or all of the land, building, facilities, equipment or other property of such park for such purposes and upon such rentals, terms and conditions as the University may deem advisable; and may finance all or part of the cost of any such park, including the purchase, lease, construction, reconstruction, improvement, remodeling, addition to, and extension and maintenance of all or part of such high technology park, and all equipment and furnishings, by legislative appropriations, government grants, contracts, private gifts, loans, receipts from the operation of such high technology park, rentals and similar receipts; and may make its other facilities and services available to tenants or other occupants of any such park at rates which are reasonable and appropriate.

The Board of Trustees may, directly or in cooperation with other members and partners of the collaborative research and academic initiative known as the Chicago Quantum Exchange, including, without limitation, other institutions of higher education, hereinafter each individually referred to as a "CQE partner", finance, design, construct, enlarge, improve, equip, complete, operate, control, and manage a facility or facilities for the research and development of quantum information sciences and technologies, hereinafter referred to as the "quantum science facilities". Notwithstanding any other provision of applicable law: (1) the quantum science facilities may be located on land owned by the Board of Trustees or a CQE partner; and (2) costs incurred in connection with the design, construction, enlargement, improvement, equipping, and completion of the quantum science facilities may be paid with funds appropriated to the Capital Development Board from the Build Illinois Bond Fund for a grant to the Board of Trustees for the quantum science facilities, whether the quantum science facilities are located on land owned by the Board of Trustees or by a CQE partner; provided, however, that if any quantum science facilities are located on land owned by a CQE partner, the use of such grant funds shall be subject to, and contingent upon, the lease by the Board of Trustees, as lessee, of a portion of such quantum science facilities for a term equal to at least the useful life of such quantum science facilities. The leased premises under any such lease shall bear a reasonable relationship to the proportional share of the costs paid by such grant funds. Any such lease shall give the Board of Trustees the right to terminate the lease before the expiration of its term if the General Assembly fails to appropriate sufficient funds to pay rent due under the lease.

The Trustees shall have power (a) to purchase real property and easements, and (b) to acquire real property and easements in the manner provided by law for the exercise of the right of eminent domain, and in the event negotiations for the acquisition of real property or easements for making any improvement which the Trustees are authorized to make shall have proven unsuccessful and the Trustees shall have by resolution adopted a schedule or plan of operation for the execution of the project and therein made a finding that it is necessary to take such property or easements immediately or at some specified later date in order to comply with the schedule, the Trustees may acquire such property or easements in the same manner provided in Article 20 of the Eminent Domain Act (quick-take procedure).

The Board of Trustees also shall have power to agree with the State's Attorney of the county in which any properties of the Board are located to pay for services rendered by the various taxing districts for the years 1944 through 1949 and to pay annually for services rendered thereafter by such district such sums as may be determined by the Board upon properties used solely for income producing purposes, title to which is held by said Board of Trustees, upon properties leased to members of the staff of the University of

Illinois, title to which is held in trust for said Board of Trustees and upon properties leased to for-profit entities the title to which properties is held by the Board of Trustees. A certified copy of any such agreement made with the State's Attorney shall be filed with the County Clerk and such sums shall be distributed to the respective taxing districts by the County Collector in such proportions that each taxing district will receive therefrom such proportion as the tax rate of such taxing district bears to the total tax rate that would be levied against such properties if they were not exempt from taxation under the Property Tax Code.

The Board of Trustees of the University of Illinois, subject to the applicable civil service law, may appoint persons to be members of the University of Illinois Police Department. Members of the Police Department shall be peace officers and as such have all powers possessed by policemen in cities, and sheriffs, including the power to make arrests on view or warrants of violations of state statutes and city or county ordinances, except that they may exercise such powers only in counties wherein the University and any of its branches or properties are located when such is required for the protection of university properties and interests, and its students and personnel, and otherwise, within such counties, when requested by appropriate state or local law enforcement officials; provided, however, that such officer shall have no power to serve and execute civil processes.

The Board of Trustees must authorize to each member of the University of Illinois Police Department and to any other employee of the University of Illinois exercising the powers of a peace officer a distinct badge that, on its face, (i) clearly states that the badge is authorized by the University of Illinois and (ii) contains a unique identifying number. No other badge shall be authorized by the University of Illinois. Nothing in this paragraph prohibits the Board of Trustees from issuing shields or other distinctive identification to employees not exercising the powers of a peace officer if the Board of Trustees determines that a shield or distinctive identification is needed by the employee to carry out his or her responsibilities.

The Board of Trustees may own, operate, or govern, by or through the College of Medicine at Peoria, a managed care community network established under subsection (b) of Section 5-11 of the Illinois Public Aid Code.

The powers of the trustees as herein designated are subject to the provisions of "An Act creating a Board of Higher Education, defining its powers and duties, making an appropriation therefor, and repealing an Act herein named", approved August 22, 1961, as amended.

The Board of Trustees shall have the authority to adopt all administrative rules which may be necessary for the effective administration, enforcement and regulation of all matters for which the Board has jurisdiction or responsibility.

(b) To assist in the provision of buildings and facilities beneficial to, useful for, or supportive of University purposes, the Board of Trustees of the University of Illinois may exercise the following powers with regard to the area located on or adjacent to the University of Illinois at Chicago campus and bounded as follows: on the West by Morgan Street; on the North by Roosevelt Road; on the East by Union Street; and on the South by 16th Street, in the City of Chicago:

(1) Acquire any interests in land, buildings, or facilities by purchase, including installments payable over a period allowed by law, by lease over a term of such duration as the Board of Trustees shall determine, or by exercise of the power of eminent domain;

(2) Sub-lease or contract to purchase through installments all or any portion of buildings or facilities for such duration and on such terms as the Board of Trustees shall determine, including a term that exceeds 5 years, provided that each such lease or purchase contract shall be and shall recite that it is subject to termination and cancellation in any year for which the General Assembly fails to make an appropriation to pay the rent or purchase installments payable under the terms of such lease or purchase contract; and

(3) Sell property without compliance with the State Property Control Act and retain proceeds in the University Treasury in a special, separate development fund account which the Auditor General shall examine to assure compliance with this Act.

Any buildings or facilities to be developed on the land shall be buildings or facilities that, in the determination of the Board of Trustees, in whole or in part: (i) are for use by the University; or (ii) otherwise advance the interests of the University, including, by way of example, residential facilities for University staff and students and commercial facilities which provide services needed by the University community. Revenues from the development fund account may be withdrawn by the University for the purpose of demolition and the processes associated with demolition; routine land and property acquisition; extension of utilities; streetscape work; landscape work; surface and structure parking; sidewalks, recreational paths, and street construction; and lease and lease purchase arrangements and the professional services associated with

the planning and development of the area. Moneys from the development fund account used for any other purpose must be deposited into and appropriated from the General Revenue Fund. Buildings or facilities leased to an entity or person other than the University shall not be subject to any limitations applicable to a State supported college or university under any law. All development on the land and all use of any buildings or facilities shall be subject to the control and approval of the Board of Trustees.

(c) The Board of Trustees shall have the power to borrow money, as necessary, from time to time in anticipation of receiving tuition, payments from the State of Illinois, or other revenues or receipts of the University, also known as anticipated moneys. The borrowing limit shall be capped at 100% of the total amount of payroll and other expense vouchers submitted and payable to the University for fiscal year 2010 expenses, but unpaid by the State Comptroller's office. Prior to borrowing any funds, the University shall request from the Comptroller's office a verification of the borrowing limit and shall include the estimated date on which such borrowing shall occur. The borrowing limit cap shall be verified by the State Comptroller's office not prior to 45 days before any estimated date for executing any promissory note or line of credit established under this subsection (c). The principal amount borrowed under a promissory note or line of credit shall not exceed 75% of the borrowing limit. Within 15 days after borrowing funds under any promissory note or line of credit established under this subsection (c), the University shall submit to the Governor's Office of Management and Budget, the Speaker of the House of Representatives, the Minority Leader of the House of Representatives, the President of the Senate, and the Minority Leader of the Senate an Emergency Short Term Cash Management Plan. The Emergency Short Term Cash Management Plan shall outline the amount borrowed, the terms for repayment, the amount of outstanding State vouchers as verified by the State Comptroller's office, and the University's plan for expenditure of any borrowed funds, including, but not limited to, a detailed plan to meet payroll obligations to include collective bargaining employees, civil service employees, and academic, research, and health care personnel. The establishment of any promissory note or line of credit established under this subsection (c) must be finalized within 90 days after the effective date of this amendatory Act of the 96th General Assembly. The borrowed moneys shall be applied to the purposes of paying salaries and other expenses lawfully authorized in the University's State appropriation and unpaid by the State Comptroller. Any line of credit established under this subsection (c) shall be paid in full one year after creation or within 10 days after the date the University receives reimbursement from the State for all submitted fiscal year 2010 vouchers, whichever is earlier. Any promissory note established under this subsection (c) shall be repaid within one year after issuance of the note. The Chairman, Comptroller, or Treasurer of the Board shall execute a promissory note or similar debt instrument to evidence the indebtedness incurred by the borrowing. In connection with a borrowing, the Board may establish a line of credit with a financial institution, investment bank, or broker/dealer. The obligation to make the payments due under any promissory note or line of credit established under this subsection (c) shall be a lawful obligation of the University payable from the anticipated moneys. Any borrowing under this subsection (c) shall not constitute a debt, legal or moral, of the State and shall not be enforceable against the State. The promissory note or line of credit shall be authorized by a resolution passed by the Board and shall be valid whether or not a budgeted item with respect to that resolution is included in any annual or supplemental budget adopted by the Board. The resolution shall set forth facts demonstrating the need for the borrowing, state an amount that the amount to be borrowed will not exceed, and establish a maximum interest rate limit not to exceed the maximum rate authorized by the Bond Authorization Act or 9%, whichever is less. The resolution may direct the Comptroller or Treasurer of the Board to make arrangements to set apart and hold the portion of the anticipated moneys, as received, that shall be used to repay the borrowing, subject to any prior pledges or restrictions with respect to the anticipated moneys. The resolution may also authorize the Treasurer of the Board to make partial repayments of the borrowing as the anticipated moneys become available and may contain any other terms, restrictions, or limitations not inconsistent with the powers of the Board.

For the purposes of this subsection (c), "financial institution" means any bank subject to the Illinois Banking Act, any savings and loan association subject to the Illinois Savings and Loan Act of 1985, and any federally chartered commercial bank or savings and loan association or government-sponsored enterprise organized and operated in this State pursuant to the laws of the United States.

(305 ILCS 5/5-5.7a)

Sec. 5-5.7a. Pandemic related stability payments for health care providers. Notwithstanding other provisions of law, and in accordance with the Illinois Emergency Management Agency, the Department of Healthcare and Family Services shall develop a process to distribute pandemic related stability payments, from federal sources dedicated for such purposes, to health care providers that are providing care to recipients under the Medical Assistance Program. For provider types serving residents who are recipients of medical assistance under this Code and are funded by other State agencies, the Department will coordinate the distribution process of the pandemic related stability payments. Federal sources dedicated to pandemic related payments include, but are not limited to, funds distributed to the State of Illinois from the Coronavirus Relief Fund pursuant to the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") and from the Coronavirus State Fiscal Recovery Fund pursuant to Section 9901 of the American Rescue Plan Act of 2021, that are appropriated to the Department ~~for such purpose~~ during Fiscal Years 2020, ~~and~~ 2021, and 2022 for purposes permitted by those federal laws and related federal guidance.

(1) Pandemic related stability payments for these providers shall be separate and apart from any rate methodology otherwise defined in this Code to the extent permitted in accordance with Section 5001 of the CARES Act and Section 9901 of the American Rescue Plan Act of 2021 and any related federal guidance.

(2) Payments made from moneys received from the Coronavirus Relief Fund shall be used exclusively for expenses incurred by the providers that are eligible for reimbursement from the Coronavirus Relief Fund in accordance with Section 5001 of the CARES Act and related federal guidance. Payments made from moneys received from the Coronavirus State Fiscal Recovery Fund shall be used exclusively for purposes permitted by Section 9901 of the American Rescue Plan Act of 2021 and related federal guidance. ~~related to the pandemic associated with the 2019 Novel Coronavirus (COVID-19) Public Health Emergency issued by the Secretary of the U.S. Department of Health and Human Services (HHS) on January 31, 2020 and the national emergency issued by the President of the United States on March 13, 2020 between March 1, and December 30, 2020.~~

(3) All providers receiving pandemic related stability payments shall attest in a format to be created by the Department and be able to demonstrate that their expenses are pandemic related, were not part of their annual budgets established before March 1, 2020, and are directly associated with health care needs.

(4) Pandemic related stability payments will be distributed based on a schedule and framework to be established by the Department with recognition of the pandemic related acuity of the situation for each provider, taking into account the factors including, but not limited to, the following:

(A) the impact of the pandemic on patients served, impact on staff, and shortages of the personal protective equipment necessary for infection control efforts for all providers;

(B) providers with high incidences of COVID-19 positivity rates among staff, or patients, or both;

(C) pandemic related workforce challenges and costs associated with temporary wage ~~increases~~ ~~increased~~ associated with pandemic related hazard pay programs, or costs associated with which providers do not have enough staff to adequately provide care and protection to the residents and other staff;

(E) pandemic related payments received directly by the providers through other federal resources; ~~and~~

(F) current efforts to respond to and provide services to communities disproportionately impacted by the COVID-19 public health emergency, including low-income and socially vulnerable communities that have seen the most severe health impacts and exacerbated health inequities along racial, ethnic, and socioeconomic lines; and

(G) provider needs for capital improvements to existing facilities, including upgrades to HVAC and ventilation systems and capital improvements for enhancing infection control or reducing crowding, which may include bed-buybacks.

(5) Pandemic related stability payments made from moneys received from the Coronavirus Relief Fund will be distributed to providers based on a methodology to be administered by the Department with amounts determined by a calculation of total federal pandemic related funds appropriated by the Illinois General Assembly for this purpose. Providers receiving the pandemic

related stability payments will attest to their increased costs, declining revenues, and receipt of additional pandemic related funds directly from the federal government.

(6) Of the payments provided for by this Section made from moneys received from the Coronavirus Relief Fund ~~section~~, a minimum of 30% shall be allotted for health care providers that serve the ZIP codes located in the most disproportionately impacted areas of Illinois, based on positive COVID-19 cases based on data collected by the Department of Public Health and provided to the Department of Healthcare and Family Services.

(7) From funds appropriated, directly or indirectly, from moneys received by the State from the Coronavirus State Fiscal Recovery Fund for Fiscal Years 2021 and 2022, the Department shall expend such funds only for purposes permitted by Section 9901 of the American Rescue Plan Act of 2021 and related federal guidance. The Department shall have the authority to audit and potentially recoup funds not utilized as outlined and attested.

(9) From funds appropriated, directly or indirectly, from moneys received by the State from the Coronavirus State Fiscal Recovery Fund for Fiscal Years 2022 through 2024 the Department shall establish a program for making payments to facilities licensed under the Nursing Home Care Act and facilities licensed under the Specialized Mental Health Rehabilitation Act of 2013. To the extent permitted by Section 9901 of the American Rescue Plan Act of 2021 and related federal guidance, the program shall provide payments for making permanent improvements to resident rooms in order to improve resident outcomes and infection control. Funds may be used to reduce bed capacity and room occupancy. (305 ILCS 5/5A-12.7)

(Section scheduled to be repealed on December 31, 2022)

Sec. 5A-12.7. Continuation of hospital access payments on and after July 1, 2020.

(a) To preserve and improve access to hospital services, for hospital services rendered on and after July 1, 2020, the Department shall, except for hospitals described in subsection (b) of Section 5A-3, make payments to hospitals or require capitated managed care organizations to make payments as set forth in this Section. Payments under this Section are not due and payable, however, until: (i) the methodologies described in this Section are approved by the federal government in an appropriate State Plan amendment or

directed payment preprint; and (ii) the assessment imposed under this Article is determined to be a permissible tax under Title XIX of the Social Security Act. In determining the hospital access payments authorized under subsection (g) of this Section, if a hospital ceases to qualify for payments from the pool, the payments for all hospitals continuing to qualify for payments from such pool shall be uniformly adjusted to fully expend the aggregate net amount of the pool, with such adjustment being effective on the first day of the second month following the date the hospital ceases to receive payments from such pool.

(b) Amounts moved into claims-based rates and distributed in accordance with Section 14-12 shall remain in those claims-based rates.

(c) Graduate medical education.

(1) The calculation of graduate medical education payments shall be based on the hospital's Medicare cost report ending in Calendar Year 2018, as reported in the Healthcare Cost Report Information System file, release date September 30, 2019. An Illinois hospital reporting intern and resident cost on its Medicare cost report shall be eligible for graduate medical education payments.

(2) Each hospital's annualized Medicaid Intern Resident Cost is calculated using annualized intern and resident total costs obtained from Worksheet B Part I, Columns 21 and 22 the sum of Lines 30-43, 50-76, 90-93, 96-98, and 105-112 multiplied by the percentage that the hospital's Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of the hospital's total days (Worksheet S3 Part I, Column 8, Lines 14, 16-18, and 32).

(3) An annualized Medicaid indirect medical education (IME) payment is calculated for each hospital using its IME payments (Worksheet E Part A, Line 29, Column 1) multiplied by the percentage that its Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of its Medicare days (Worksheet S3 Part I, Column 6, Lines 2, 3, 4, 14, and 16-18).

(4) For each hospital, its annualized Medicaid Intern Resident Cost and its annualized Medicaid IME payment are summed, and, except as capped at 120% of the average cost per intern and resident for all qualifying hospitals as calculated under this paragraph, is multiplied by 22.6% to determine the hospital's final graduate medical education payment. Each hospital's average cost per intern and resident shall be calculated by summing its total annualized Medicaid Intern Resident Cost plus its annualized Medicaid IME payment and dividing that amount by the hospital's total Full Time Equivalent Residents and Interns. If the hospital's average per intern and resident cost is greater than 120% of the same calculation for all qualifying hospitals, the hospital's per intern and resident cost shall be capped at 120% of the average cost for all qualifying hospitals.

(d) Fee-for-service supplemental payments. Each Illinois hospital shall receive an annual payment equal to the amounts below, to be paid in 12 equal installments on or before the seventh State business day of each month, except that no payment shall be due within 30 days after the later of the date of notification of federal approval of the payment methodologies required under this Section or any waiver required under 42 CFR 433.68, at which time the sum of amounts required under this Section prior to the date of notification is due and payable.

(1) For critical access hospitals, \$385 per covered inpatient day contained in paid fee-for-service claims and \$530 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(2) For safety-net hospitals, \$960 per covered inpatient day contained in paid fee-for-service claims and \$625 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(3) For long term acute care hospitals, \$295 per covered inpatient day contained in paid fee-for-service claims for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(4) For freestanding psychiatric hospitals, \$125 per covered inpatient day contained in paid fee-for-service claims and \$130 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(5) For freestanding rehabilitation hospitals, \$355 per covered inpatient day contained in paid fee-for-service claims for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(6) For all general acute care hospitals and high Medicaid hospitals as defined in subsection (f), \$350 per covered inpatient day for dates of service in Calendar Year 2019 contained in paid fee-for-service claims and \$620 per paid fee-for-service outpatient claim in the Department's Enterprise Data Warehouse as of May 11, 2020.

(7) Alzheimer's treatment access payment. Each Illinois academic medical center or teaching hospital, as defined in Section 5-5e.2 of this Code, that is identified as the primary hospital affiliate of one of the Regional Alzheimer's Disease Assistance Centers, as designated by the Alzheimer's Disease Assistance Act and identified in the Department of Public Health's Alzheimer's Disease State Plan dated December 2016, shall be paid an Alzheimer's treatment access payment equal to the product of the qualifying hospital's State Fiscal Year 2018 total inpatient fee-for-service days multiplied by the applicable Alzheimer's treatment rate of \$226.30 for hospitals located in Cook County and \$116.21 for hospitals located outside Cook County.

(e) The Department shall require managed care organizations (MCOs) to make directed payments and pass-through payments according to this Section. Each calendar year, the Department shall require MCOs to pay the maximum amount out of these funds as allowed as pass-through payments under federal regulations. The Department shall require MCOs to make such pass-through payments as specified in this Section. The Department shall require the MCOs to pay the remaining amounts as directed Payments as specified in this Section. The Department shall issue payments to the Comptroller by the seventh business day of each month for all MCOs that are sufficient for MCOs to make the directed payments and pass-through payments according to this Section. The Department shall require the MCOs to make pass-through payments and directed payments using electronic funds transfers (EFT), if the hospital provides the information necessary to process such EFTs, in accordance with directions provided monthly by the Department, within 7 business days of the date the funds are paid to the MCOs, as indicated by the "Paid Date" on the website of the Office of the Comptroller if the funds are paid by EFT and the MCOs have received directed payment instructions. If funds are not paid through the Comptroller by EFT, payment must be made within 7 business days of the date actually received by the MCO. The MCO will be considered to have paid the pass-through payments when the payment remittance number is generated or the date the MCO sends the check to the hospital, if EFT information is not supplied. If an MCO is late in paying a pass-through payment or directed payment as required under this Section (including any extensions granted by the Department), it shall pay a penalty, unless waived by the Department for reasonable cause, to the Department equal to 5% of the amount of the pass-through payment or directed payment not paid on or before the due date plus 5% of the portion thereof remaining unpaid on the last day of each 30-day period thereafter. Payments to MCOs that would be paid consistent with actuarial certification and enrollment in the absence of the increased capitation payments under this Section shall not be reduced as a consequence of payments made under this subsection. The Department shall publish and maintain on its website for a period of no less than 8 calendar quarters, the quarterly calculation of directed payments and pass-through payments owed to each hospital from each MCO. All calculations and reports shall be posted no later than the first day of the quarter for which the payments are to be issued.

(f)(1) For purposes of allocating the funds included in capitation payments to MCOs, Illinois hospitals shall be divided into the following classes as defined in administrative rules:

(A) Critical access hospitals.

(B) Safety-net hospitals, except that stand-alone children's hospitals that are not specialty children's hospitals will not be included.

(C) Long term acute care hospitals.

(D) Freestanding psychiatric hospitals.

(E) Freestanding rehabilitation hospitals.

(F) High Medicaid hospitals. As used in this Section, "high Medicaid hospital" means a general acute care hospital that is not a safety-net hospital or critical access hospital and that has a Medicaid Inpatient Utilization Rate above 30% or a hospital that had over 35,000 inpatient Medicaid days during the applicable period. For the period July 1, 2020 through December 31, 2020, the applicable period for the Medicaid Inpatient Utilization Rate (MIUR) is the rate year 2020 MIUR and for the number of inpatient days it is State fiscal year 2018. Beginning in calendar year 2021, the Department shall use the most recently determined MIUR, as defined in subsection (h) of Section 5-5.02, and for the inpatient day threshold, the State fiscal year ending 18 months prior to the beginning of the calendar year. For purposes of calculating MIUR under this Section, children's hospitals and affiliated general acute care hospitals shall be considered a single hospital.

(G) General acute care hospitals. As used under this Section, "general acute care hospitals" means all other Illinois hospitals not identified in subparagraphs (A) through (F).

(2) Hospitals' qualification for each class shall be assessed prior to the beginning of each calendar year and the new class designation shall be effective January 1 of the next year. The Department shall publish by rule the process for establishing class determination.

(g) Fixed pool directed payments. Beginning July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to qualified Illinois safety-net hospitals and critical access hospitals on a monthly basis in accordance with this subsection. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient services rendered by safety-net hospitals and critical access hospitals to determine a quarterly uniform per unit add-on for each hospital class.

(1) Inpatient per unit add-on. A quarterly uniform per diem add-on shall be derived by dividing the quarterly Inpatient Directed Payments Pool amount allocated to the applicable hospital class by the total inpatient days contained on all encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly inpatient directed payment calculated that is equal to the product of the number of inpatient days attributable to the hospital used in the calculation of the quarterly uniform class per diem add-on, multiplied by the calculated applicable quarterly uniform class per diem add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly inpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(2) Outpatient per unit add-on. A quarterly uniform per claim add-on shall be derived by dividing the quarterly Outpatient Directed Payments Pool amount allocated to the applicable hospital class by the total outpatient encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly outpatient directed payment calculated that is equal to the product of the number of outpatient encounter claims attributable to the hospital used in the calculation of the quarterly uniform class per claim add-on, multiplied by the calculated applicable quarterly uniform class per claim add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(3) Each MCO shall pay each hospital the Monthly Directed Payment as identified by the Department on its quarterly determination report.

(4) Definitions. As used in this subsection:

(A) "Payout Quarter" means each 3 month calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each 3 month calendar quarter, which ends 3 months prior to the first day of each Payout Quarter.

(5) For the period July 1, 2020 through December 2020, the following amounts shall be allocated to the following hospital class directed payment pools for the quarterly development of a uniform per unit add-on:

(A) \$2,894,500 for hospital inpatient services for critical access hospitals.

(B) \$4,294,374 for hospital outpatient services for critical access hospitals.

(C) \$29,109,330 for hospital inpatient services for safety-net hospitals.

(D) \$35,041,218 for hospital outpatient services for safety-net hospitals.

(h) Fixed rate directed payments. Effective July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to Illinois hospitals not identified in paragraph (g) on a monthly basis. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient services rendered by hospitals in each hospital class identified in paragraph (f) and not identified in paragraph (g). For the period July 1, 2020 through December 2020, the Department shall direct MCOs to make payments as follows:

(1) For general acute care hospitals an amount equal to \$1,750 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(2) For general acute care hospitals an amount equal to \$160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(3) For general acute care hospitals an amount equal to \$80 multiplied by the hospital's category of service 22 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 22 for the determination quarter.

(4) For general acute care hospitals an amount equal to \$375 multiplied by the hospital's category of service 24 case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG (EAPGs) for the determination quarter.

(5) For general acute care hospitals an amount equal to \$240 multiplied by the hospital's category of service 27 and 28 case mix index for the determination quarter multiplied by the hospital's total number of category of service 27 and 28 paid EAPGs for the determination quarter.

(6) For general acute care hospitals an amount equal to \$290 multiplied by the hospital's category of service 29 case mix index for the determination quarter multiplied by the hospital's total number of category of service 29 paid EAPGs for the determination quarter.

(7) For high Medicaid hospitals an amount equal to \$1,800 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(8) For high Medicaid hospitals an amount equal to \$160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(9) For high Medicaid hospitals an amount equal to \$80 multiplied by the hospital's category of service 22 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 22 for the determination quarter.

(10) For high Medicaid hospitals an amount equal to \$400 multiplied by the hospital's category of service 24 case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG outpatient claims for the determination quarter.

(11) For high Medicaid hospitals an amount equal to \$240 multiplied by the hospital's category of service 27 and 28 case mix index for the determination quarter multiplied by the hospital's total number of category of service 27 and 28 paid EAPGs for the determination quarter.

(12) For high Medicaid hospitals an amount equal to \$290 multiplied by the hospital's category of service 29 case mix index for the determination quarter multiplied by the hospital's total number of category of service 29 paid EAPGs for the determination quarter.

(13) For long term acute care hospitals the amount of \$495 multiplied by the hospital's total number of inpatient days for the determination quarter.

(14) For psychiatric hospitals the amount of \$210 multiplied by the hospital's total number of inpatient days for category of service 21 for the determination quarter.

(15) For psychiatric hospitals the amount of \$250 multiplied by the hospital's total number of outpatient claims for category of service 27 and 28 for the determination quarter.

(16) For rehabilitation hospitals the amount of \$410 multiplied by the hospital's total number of inpatient days for category of service 22 for the determination quarter.

(17) For rehabilitation hospitals the amount of \$100 multiplied by the hospital's total number of outpatient claims for category of service 29 for the determination quarter.

(18) Each hospital shall be paid 1/3 of their quarterly inpatient and outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(19) Each MCO shall pay each hospital the Monthly Directed Payment amount as identified by the Department on its quarterly determination report.

Notwithstanding any other provision of this subsection, if the Department determines that the actual total hospital utilization data that is used to calculate the fixed rate directed payments is substantially different than anticipated when the rates in this subsection were initially determined (for unforeseeable circumstances such as the COVID-19 pandemic), the Department may adjust the rates specified in this subsection so that the total directed payments approximate the total spending amount anticipated when the rates were initially established.

Definitions. As used in this subsection:

(A) "Payout Quarter" means each calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each calendar quarter which ends 3 months prior to the first day of each Payout Quarter.

(C) "Case mix index" means a hospital specific calculation. For inpatient claims the case mix index is calculated each quarter by summing the relative weight of all inpatient Diagnosis-Related Group (DRG) claims for a category of service in the applicable Determination Quarter and dividing the sum by the number of sum total of all inpatient DRG admissions for the category of service for the associated claims. The case mix index for outpatient claims is calculated each quarter by summing the relative weight of all paid EAPGs in the applicable Determination Quarter and dividing the sum by the sum total of paid EAPGs for the associated claims.

(i) Beginning January 1, 2021, the rates for directed payments shall be recalculated in order to spend the additional funds for directed payments that result from reduction in the amount of pass-through payments allowed under federal regulations. The additional funds for directed payments shall be allocated proportionally to each class of hospitals based on that class' proportion of services.

(j) Pass-through payments.

(1) For the period July 1, 2020 through December 31, 2020, the Department shall assign quarterly pass-through payments to each class of hospitals equal to one-fourth of the following annual allocations:

- (A) \$390,487,095 to safety-net hospitals.
- (B) \$62,553,886 to critical access hospitals.
- (C) \$345,021,438 to high Medicaid hospitals.
- (D) \$551,429,071 to general acute care hospitals.
- (E) \$27,283,870 to long term acute care hospitals.
- (F) \$40,825,444 to freestanding psychiatric hospitals.
- (G) \$9,652,108 to freestanding rehabilitation hospitals.

(2) The pass-through payments shall at a minimum ensure hospitals receive a total amount of monthly payments under this Section as received in calendar year 2019 in accordance with this Article and paragraph (1) of subsection (d-5) of Section 14-12, exclusive of amounts received through payments referenced in subsection (b).

(3) For the calendar year beginning January 1, 2021, and each calendar year thereafter, each hospital's pass-through payment amount shall be reduced proportionally to the reduction of all pass-through payments required by federal regulations.

(k) At least 30 days prior to each calendar year, the Department shall notify each hospital of changes to the payment methodologies in this Section, including, but not limited to, changes in the fixed rate directed payment rates, the aggregate pass-through payment amount for all hospitals, and the hospital's pass-through payment amount for the upcoming calendar year.

(l) Notwithstanding any other provisions of this Section, the Department may adopt rules to change the methodology for directed and pass-through payments as set forth in this Section, but only to the extent necessary to obtain federal approval of a necessary State Plan amendment or Directed Payment Preprint or to otherwise conform to federal law or federal regulation.

(m) As used in this subsection, "managed care organization" or "MCO" means an entity which contracts with the Department to provide services where payment for medical services is made on a capitated basis, excluding contracted entities for dual eligible or Department of Children and Family Services youth populations.

(n) In order to address the escalating infant mortality rates among minority communities in Illinois, the State shall, subject to appropriation, create a pool of funding of at least \$50,000,000 annually to be disbursed among safety-net hospitals that maintain perinatal designation from the Department of Public Health. The funding shall be used to preserve or enhance OB/GYN services or other specialty services at the receiving hospital, with the distribution of funding to be established by rule and with consideration to perinatal hospitals with safe birthing levels and quality metrics for healthy mothers and babies.

(o) In order to address the growing challenges of providing stable access to healthcare in rural Illinois, including perinatal services, behavioral healthcare including substance use disorder services (SUDs) and other specialty services, and to expand access to telehealth services among rural communities in Illinois, the Department of Healthcare and Family Services, subject to appropriation, shall administer a program to provide at least \$10,000,000 in financial support annually to critical access hospitals for delivery of perinatal and OB/GYN services, behavioral healthcare including SUDs, other specialty services and telehealth

services. The funding shall be used to preserve or enhance perinatal and OB/GYN services, behavioral healthcare including SUDS, other specialty services, as well as the explanation of telehealth services by the receiving hospital, with the distribution of funding to be established by rule.

The obligated amount shall be due immediately and must be paid to the Department within 10 days of ceasing to provide services or pursuant to a payment plan approved by the Department unless the hospital requests a hearing under paragraph (d) of this Section. The obligation under this Section shall not apply to a hospital that ceases to provide services under circumstances that include: implementation of a transformation project approved by the Department under subsection (d-5) of Section 14-12; emergencies as declared by federal, State, or local government; actions approved or required by federal, State, or local government; actions taken in compliance with the Illinois Health Facilities Planning Act; or other circumstances beyond the control of the hospital provider or for the benefit of the community previously served by the hospital, as determined on a case-by-case basis by the Department.

(a-5) For State Fiscal Year 2022, a general acute care hospital that ceases to provide hospital services before July 1, 2022 and within 12 months of a change in the hospital's ownership status that was approved by the Health Facilities Services Review Board between March 1, 2021 and March 31, 2021, shall be obligated to pay to the Department an amount equal to the payments received in State Fiscal Year 2022 pursuant to subsections (d) and (k) of Section 5A-12.7 since the change in ownership status to the cessation of hospital services. The obligated amount shall be due immediately and must be paid to the Department within 30 days of ceasing to provide services or pursuant to a payment plan approved by the Department unless the hospital requests a proceeding under paragraph (b) of this Section. The obligation under this Section shall not apply to a hospital that ceases to provide services under circumstances that include: implementation of a transformation project approved by the Department under subsection (d-5) of Section 14-12; emergencies as declared by federal, State, or local government; actions approved or required by federal, State, or local government; actions taken in compliance with the Illinois Health Facilities Planning Act; or other circumstances beyond the control of the hospital provider or for the benefit of the community previously served by the hospital, as determined on a case-by-case basis by the Department.

(b) The Illinois Department shall administer and enforce this Section and collect the obligations imposed under this Section using procedures employed in its administration of this Code generally. The Illinois Department, its Director, and every hospital provider subject to this Section shall have the following powers, duties, and rights:

(1) The Illinois Department may initiate either administrative or judicial proceedings, or both, to enforce the provisions of this Section. Administrative enforcement proceedings initiated hereunder shall be governed by the Illinois Department's administrative rules. Judicial enforcement proceedings initiated in accordance with this Section shall be governed by the rules of procedure applicable in the courts of this State.

(2) No proceedings for collection, refund, credit, or other adjustment of an amount payable under this Section shall be issued more than 3 years after the due date of the obligation, except in the case of an extended period agreed to in writing by the Illinois Department and the hospital provider before the expiration of this limitation period.

(3) Any unpaid obligation under this Section shall become a lien upon the assets of the hospital. If any hospital provider sells or transfers the major part of any one or more of (i) the real property and improvements, (ii) the machinery and equipment, or (iii) the furniture or fixtures of any hospital that is subject to the provisions of this Section, the seller or transferor shall pay the Illinois Department the amount of any obligation due from it under this Section up to the date of the sale or transfer. If the seller or transferor fails to pay any amount due under this Section, the purchaser or transferee of such asset shall be liable for the amount of the obligation up to the amount of the reasonable value of the property acquired by the purchaser or transferee. The purchaser or transferee shall continue to be liable until the purchaser or transferee pays the full amount of the obligation up to the amount of the

reasonable value of the property acquired by the purchaser or transferee or until the purchaser or transferee receives from the Illinois Department a certificate showing that such assessment, penalty, and interest have been paid or a certificate from the Illinois Department showing that no amount is due from the seller or transferor under this Section.

(c) In addition to any other remedy provided for, the Illinois Department may collect an unpaid obligation by withholding, as payment of the amount due, reimbursements or other amounts otherwise payable by the Illinois Department to the hospital provider.

Section 11-5. The Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois is amended by adding Section 605-1070 as follows:

(20 ILCS 605/605-1070 new)

Sec. 605-1070. Rulemaking authority for EDGE Credit; sunset extensions for expiring credits; disaster declaration. The Department shall adopt rules, in consultation with the Department of Revenue, to identify any and all Economic Development for a Growing Economy (EDGE) tax credits that are earned, existing, and unused by a taxpayer in any tax year where there is a statewide COVID-19 public health emergency, as evidenced by an effective disaster declaration of the Governor covering all counties in the State. The rules adopted by the Department shall allow for the extension of credits, for at least 5 years and up to 10 years after the last statewide COVID-19 related disaster declaration has ended, that are earned, existing, or set to expire during a tax year where there is a statewide COVID-19 public health emergency as evidenced by an effective disaster declaration of the Governor covering all counties. In order for a credit to be extended a taxpayer shall provide evidence, in a form prescribed by the Department, that the taxpayer was or will be unable to utilize credits due to the COVID-19 public health emergency.

Section 11-10. The Illinois Income Tax Act is amended by changing Section 211 as follows:

(35 ILCS 5/211)

Sec. 211. Economic Development for a Growing Economy Tax Credit. For tax years beginning on or after January 1, 1999, a Taxpayer who has entered into an Agreement (including a New Construction EDGE Agreement) under the Economic Development for a Growing Economy Tax Credit Act is entitled to a credit against the taxes imposed under subsections (a) and (b) of Section 201 of this Act in an amount to be determined in the Agreement. If the Taxpayer is a partnership or Subchapter S corporation, the credit shall be allowed to the partners or shareholders in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code. The Department, in cooperation with the Department of Commerce and Economic Opportunity, shall prescribe rules to enforce and administer the provisions of this Section. This Section is exempt from the provisions of Section 250 of this Act.

The credit shall be subject to the conditions set forth in the Agreement and the following limitations:

(1) The tax credit shall not exceed the Incremental Income Tax (as defined in Section 5-5 of the Economic Development for a Growing Economy Tax Credit Act) with respect to the project; additionally, the New Construction EDGE Credit shall not exceed the New Construction EDGE Incremental Income Tax (as defined in Section 5-5 of the Economic Development for a Growing Economy Tax Credit Act).

(2) The amount of the credit allowed during the tax year plus the sum of all amounts allowed in prior years shall not exceed 100% of the aggregate amount expended by the Taxpayer during all prior tax years on approved costs defined by Agreement.

(3) The amount of the credit shall be determined on an annual basis. Except as applied in a carryover year pursuant to Section 211(4) of this Act, the credit may not be applied against any State income tax liability in more than 10 taxable years; provided, however, that (i) an eligible business certified by the Department of Commerce and Economic Opportunity under the Corporate Headquarters Relocation Act may not apply the credit against any of its State income tax liability in more than 15 taxable years and (ii) credits allowed to that eligible business are subject to the conditions and requirements set forth in Sections 5-35 and 5-45 of the Economic Development for a Growing Economy Tax Credit Act and Section 5-51 as applicable to New Construction EDGE Credits.

(4) The credit may not exceed the amount of taxes imposed pursuant to subsections (a) and (b) of Section 201 of this Act. Any credit that is unused in the year the credit is computed may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year, except as otherwise provided under paragraph (4.5) of this Section. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, the earlier credit shall be applied first.

(4.5) The Department of Commerce and Economic Opportunity, in consultation with the Department of Revenue, shall adopt rules to extend the sunset of any earned, existing, or unused credit as provided for in Section 605-1055 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois.

(5) No credit shall be allowed with respect to any Agreement for any taxable year ending after the Noncompliance Date. Upon receiving notification by the Department of Commerce and Economic Opportunity of the noncompliance of a Taxpayer with an Agreement, the Department shall notify the Taxpayer that no credit is allowed with respect to that Agreement for any taxable year ending after the Noncompliance Date, as stated in such notification. If any credit has been allowed with respect to an Agreement for a taxable year ending after the Noncompliance Date for that Agreement, any refund paid to the Taxpayer for that taxable year shall, to the extent of that credit allowed, be an erroneous refund within the meaning of Section 912 of this Act.

(6) For purposes of this Section, the terms "Agreement", "Incremental Income Tax", "New Construction EDGE Agreement", "New Construction EDGE Credit", "New Construction EDGE Incremental Income Tax", and "Noncompliance Date" have the same meaning as when used in the Economic Development for a Growing Economy Tax Credit Act.

Section 11-15. The Economic Development for a Growing Economy Tax Credit Act is amended by changing Section 5-45 as follows:

(35 ILCS 10/5-45)

Sec. 5-45. Amount and duration of the credit.

(a) The Department shall determine the amount and duration of the credit awarded under this Act. The duration of the credit may not exceed 10 taxable years. The credit may be stated as a percentage of the Incremental Income Tax attributable to the applicant's project and may include a fixed dollar limitation.

(b) Notwithstanding subsection (a), and except as the credit may be applied in a carryover year pursuant to Section 211(4) of the Illinois Income Tax Act, the credit may be applied against the State income tax liability in more than 10 taxable years but not in more than 15 taxable years for an eligible business that (i) qualifies under this Act and the Corporate Headquarters Relocation Act and has in fact undertaken a qualifying project within the time frame specified by the Department of Commerce and Economic Opportunity under that Act, and (ii) applies against its State income tax liability, during the entire 15-year period, no more than 60% of the maximum credit per year that would otherwise be available under this Act.

(c) Nothing in this Section shall prevent the Department, in consultation with the Department of Revenue, from adopting rules to extend the sunset of any earned, existing, and unused tax credit or credits a taxpayer may be in possession of, as provided for in Section 605-1055 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois, notwithstanding the carry-forward provisions pursuant to paragraph (4) of Section 211 of the Illinois Income Tax Act.

## ARTICLE 12. PENSION CODE

Section 12-5. The Illinois Pension Code is amended by changing Sections 1-160, 15-155, 15-198, 16-133, 16-158, and 16-203 as follows:

(40 ILCS 5/1-160)

Sec. 1-160. Provisions applicable to new hires.

(a) The provisions of this Section apply to a person who, on or after January 1, 2011, first becomes a member or a participant under any reciprocal retirement system or pension fund established under this Code, other than a retirement system or pension fund established under Article 2, 3, 4, 5, 6, 15 or 18 of this Code, notwithstanding any other provision of this Code to the contrary, but do not apply to any self-managed plan

[May 31, 2021]

established under this Code, to any person with respect to service as a sheriff's law enforcement employee under Article 7, or to any participant of the retirement plan established under Section 22-101. Notwithstanding anything to the contrary in this Section, for purposes of this Section, a person who participated in a retirement system under Article 15 prior to January 1, 2011 shall be deemed a person who first became a member or participant prior to January 1, 2011 under any retirement system or pension fund subject to this Section. The changes made to this Section by Public Act 98-596 are a clarification of existing law and are intended to be retroactive to January 1, 2011 (the effective date of Public Act 96-889), notwithstanding the provisions of Section 1-103.1 of this Code.

This Section does not apply to a person who first becomes a noncovered employee under Article 14 on or after the implementation date of the plan created under Section 1-161 for that Article, unless that person elects under subsection (b) of Section 1-161 to instead receive the benefits provided under this Section and the applicable provisions of that Article.

This Section does not apply to a person who first becomes a member or participant under Article 16 on or after the implementation date of the plan created under Section 1-161 for that Article, unless that person elects under subsection (b) of Section 1-161 to instead receive the benefits provided under this Section and the applicable provisions of that Article.

This Section does not apply to a person who elects under subsection (c-5) of Section 1-161 to receive the benefits under Section 1-161.

This Section does not apply to a person who first becomes a member or participant of an affected pension fund on or after 6 months after the resolution or ordinance date, as defined in Section 1-162, unless that person elects under subsection (c) of Section 1-162 to receive the benefits provided under this Section and the applicable provisions of the Article under which he or she is a member or participant.

(b) "Final average salary" means, except as otherwise provided in this subsection, the average monthly (or annual) salary obtained by dividing the total salary or earnings calculated under the Article applicable to the member or participant during the 96 consecutive months (or 8 consecutive years) of service within the last 120 months (or 10 years) of service in which the total salary or earnings calculated under the applicable Article was the highest by the number of months (or years) of service in that period. For the purposes of a person who first becomes a member or participant of any retirement system or pension fund to which this Section applies on or after January 1, 2011, in this Code, "final average salary" shall be substituted for the following:

- (1) In Article 7 (except for service as sheriff's law enforcement employees), "final rate of earnings".
- (2) In Articles 8, 9, 10, 11, and 12, "highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal".
- (3) In Article 13, "average final salary".
- (4) In Article 14, "final average compensation".
- (5) In Article 17, "average salary".
- (6) In Section 22-207, "wages or salary received by him at the date of retirement or discharge".

A member of the Teachers' Retirement System of the State of Illinois who retires on or after June 1, 2021 and for whom the 2020-2021 school year is used in the calculation of the member's final average salary shall use the higher of the following for the purpose of determining the member's final average salary:

(A) the amount otherwise calculated under the first paragraph of this subsection; or

(B) an amount calculated by the Teachers' Retirement System of the State of Illinois using the average of the monthly (or annual) salary obtained by dividing the total salary or earnings calculated under Article 16 applicable to the member or participant during the 96 months (or 8 years) of service within the last 120 months (or 10 years) of service in which the total salary or earnings calculated under the Article was the highest by the number of months (or years) of service in that period.

(b-5) Beginning on January 1, 2011, for all purposes under this Code (including without limitation the calculation of benefits and employee contributions), the annual earnings, salary, or wages (based on the plan year) of a member or participant to whom this Section applies shall not exceed \$106,800; however, that amount shall annually thereafter be increased by the lesser of (i) 3% of that amount, including all previous adjustments, or (ii) one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, including all previous adjustments.

For the purposes of this Section, "consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of

goods and services purchased by all urban consumers, United States city average, all items, 1982-84 = 100. The new amount resulting from each annual adjustment shall be determined by the Public Pension Division of the Department of Insurance and made available to the boards of the retirement systems and pension funds by November 1 of each year.

(c) A member or participant is entitled to a retirement annuity upon written application if he or she has attained age 67 (beginning January 1, 2015, age 65 with respect to service under Article 12 of this Code that is subject to this Section) and has at least 10 years of service credit and is otherwise eligible under the requirements of the applicable Article.

A member or participant who has attained age 62 (beginning January 1, 2015, age 60 with respect to service under Article 12 of this Code that is subject to this Section) and has at least 10 years of service credit and is otherwise eligible under the requirements of the applicable Article may elect to receive the lower retirement annuity provided in subsection (d) of this Section.

(c-5) A person who first becomes a member or a participant subject to this Section on or after July 6, 2017 (the effective date of Public Act 100-23), notwithstanding any other provision of this Code to the contrary, is entitled to a retirement annuity under Article 8 or Article 11 upon written application if he or she has attained age 65 and has at least 10 years of service credit and is otherwise eligible under the requirements of Article 8 or Article 11 of this Code, whichever is applicable.

(d) The retirement annuity of a member or participant who is retiring after attaining age 62 (beginning January 1, 2015, age 60 with respect to service under Article 12 of this Code that is subject to this Section) with at least 10 years of service credit shall be reduced by one-half of 1% for each full month that the member's age is under age 67 (beginning January 1, 2015, age 65 with respect to service under Article 12 of this Code that is subject to this Section).

(d-5) The retirement annuity payable under Article 8 or Article 11 to an eligible person subject to subsection (c-5) of this Section who is retiring at age 60 with at least 10 years of service credit shall be reduced by one-half of 1% for each full month that the member's age is under age 65.

(d-10) Each person who first became a member or participant under Article 8 or Article 11 of this Code on or after January 1, 2011 and prior to the effective date of this amendatory Act of the 100th General Assembly shall make an irrevocable election either:

(i) to be eligible for the reduced retirement age provided in subsections (c-5) and (d-5) of this Section, the eligibility for which is conditioned upon the member or participant agreeing to the increases in employee contributions for age and service annuities provided in subsection (a-5) of Section 8-174 of this Code (for service under Article 8) or subsection (a-5) of Section 11-170 of this Code (for service under Article 11); or

(ii) to not agree to item (i) of this subsection (d-10), in which case the member or participant shall continue to be subject to the retirement age provisions in subsections (c) and (d) of this Section and the employee contributions for age and service annuity as provided in subsection (a) of Section 8-174 of this Code (for service under Article 8) or subsection (a) of Section 11-170 of this Code (for service under Article 11).

The election provided for in this subsection shall be made between October 1, 2017 and November 15, 2017. A person subject to this subsection who makes the required election shall remain bound by that election. A person subject to this subsection who fails for any reason to make the required election within the time specified in this subsection shall be deemed to have made the election under item (ii).

(e) Any retirement annuity or supplemental annuity shall be subject to annual increases on the January 1 occurring either on or after the attainment of age 67 (beginning January 1, 2015, age 65 with respect to service under Article 12 of this Code that is subject to this Section and beginning on the effective date of this amendatory Act of the 100th General Assembly, age 65 with respect to service under Article 8 or Article 11 for eligible persons who: (i) are subject to subsection (c-5) of this Section; or (ii) made the election under item (i) of subsection (d-10) of this Section) or the first anniversary of the annuity start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, whichever is less, of the originally granted retirement annuity. If the annual unadjusted percentage change in the consumer price index-u for the 12 months ending with the September preceding each November 1 is zero or there is a decrease, then the annuity shall not be increased.

For the purposes of Section 1-103.1 of this Code, the changes made to this Section by this amendatory Act of the 100th General Assembly are applicable without regard to whether the employee was in active service on or after the effective date of this amendatory Act of the 100th General Assembly.

(f) The initial survivor's or widow's annuity of an otherwise eligible survivor or widow of a retired member or participant who first became a member or participant on or after January 1, 2011 shall be in the amount of 66 2/3% of the retired member's or participant's retirement annuity at the date of death. In the case of the death of a member or participant who has not retired and who first became a member or participant on or after January 1, 2011, eligibility for a survivor's or widow's annuity shall be determined by the applicable Article of this Code. The initial benefit shall be 66 2/3% of the earned annuity without a reduction due to age. A child's annuity of an otherwise eligible child shall be in the amount prescribed under each Article if applicable. Any survivor's or widow's annuity shall be increased (1) on each January 1 occurring on or after the commencement of the annuity if the deceased member died while receiving a retirement annuity or (2) in other cases, on each January 1 occurring after the first anniversary of the commencement of the annuity. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, whichever is less, of the originally granted survivor's annuity. If the annual unadjusted percentage change in the consumer price index-u for the 12 months ending with the September preceding each November 1 is zero or there is a decrease, then the annuity shall not be increased.

(g) The benefits in Section 14-110 apply only if the person is a State policeman, a fire fighter in the fire protection service of a department, a conservation police officer, an investigator for the Secretary of State, an arson investigator, a Commerce Commission police officer, investigator for the Department of Revenue or the Illinois Gaming Board, a security employee of the Department of Corrections or the Department of Juvenile Justice, or a security employee of the Department of Innovation and Technology, as those terms are defined in subsection (b) and subsection (c) of Section 14-110. A person who meets the requirements of this Section is entitled to an annuity calculated under the provisions of Section 14-110, in lieu of the regular or minimum retirement annuity, only if the person has withdrawn from service with not less than 20 years of eligible creditable service and has attained age 60, regardless of whether the attainment of age 60 occurs while the person is still in service.

(h) If a person who first becomes a member or a participant of a retirement system or pension fund subject to this Section on or after January 1, 2011 is receiving a retirement annuity or retirement pension under that system or fund and becomes a member or participant under any other system or fund created by this Code and is employed on a full-time basis, except for those members or participants exempted from the provisions of this Section under subsection (a) of this Section, then the person's retirement annuity or retirement pension under that system or fund shall be suspended during that employment. Upon termination of that employment, the person's retirement annuity or retirement pension payments shall resume and be recalculated if recalculation is provided for under the applicable Article of this Code.

If a person who first becomes a member of a retirement system or pension fund subject to this Section on or after January 1, 2012 and is receiving a retirement annuity or retirement pension under that system or fund and accepts on a contractual basis a position to provide services to a governmental entity from which he or she has retired, then that person's annuity or retirement pension earned as an active employee of the employer shall be suspended during that contractual service. A person receiving an annuity or retirement pension under this Code shall notify the pension fund or retirement system from which he or she is receiving an annuity or retirement pension, as well as his or her contractual employer, of his or her retirement status before accepting contractual employment. A person who fails to submit such notification shall be guilty of a Class A misdemeanor and required to pay a fine of \$1,000. Upon termination of that contractual employment, the person's retirement annuity or retirement pension payments shall resume and, if appropriate, be recalculated under the applicable provisions of this Code.

(i) (Blank).

(j) In the case of a conflict between the provisions of this Section and any other provision of this Code, the provisions of this Section shall control.

(40 ILCS 5/15-155) (from Ch. 108 1/2, par. 15-155)

Sec. 15-155. Employer contributions.

(a) The State of Illinois shall make contributions by appropriations of amounts which, together with the other employer contributions from trust, federal, and other funds, employee contributions, income from investments, and other income of this System, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (a-1).

(a-1) For State fiscal years 2012 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For each of State fiscal years 2018, 2019, and 2020, the State shall make an additional contribution to the System equal to 2% of the total payroll of each employee who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (c) of Section 1-161.

A change in an actuarial or investment assumption that increases or decreases the required State contribution and first applies in State fiscal year 2018 or thereafter shall be implemented in equal annual amounts over a 5-year period beginning in the State fiscal year in which the actuarial change first applies to the required State contribution.

A change in an actuarial or investment assumption that increases or decreases the required State contribution and first applied to the State contribution in fiscal year 2014, 2015, 2016, or 2017 shall be implemented:

(i) as already applied in State fiscal years before 2018; and

(ii) in the portion of the 5-year period beginning in the State fiscal year in which the actuarial change first applied that occurs in State fiscal year 2018 or thereafter, by calculating the change in equal annual amounts over that 5-year period and then implementing it at the resulting annual rate in each of the remaining fiscal years in that 5-year period.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is \$166,641,900.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is \$252,064,100.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is \$702,514,000 and shall be made from the State Pensions Fund and proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 15-165 and shall be made from the State Pensions Fund and proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to

the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 15-165, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(a-2) Beginning in fiscal year 2018, each employer under this Article shall pay to the System a required contribution determined as a percentage of projected payroll and sufficient to produce an annual amount equal to:

(i) for each of fiscal years 2018, 2019, and 2020, the defined benefit normal cost of the defined benefit plan, less the employee contribution, for each employee of that employer who has elected or who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (c) of Section 1-161; for fiscal year 2021 and each fiscal year thereafter, the defined benefit normal cost of the defined benefit plan, less the employee contribution, plus 2%, for each employee of that employer who has elected or who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (c) of Section 1-161; plus

(ii) the amount required for that fiscal year to amortize any unfunded actuarial accrued liability associated with the present value of liabilities attributable to the employer's account under Section 15-155.2, determined as a level percentage of payroll over a 30-year rolling amortization period.

In determining contributions required under item (i) of this subsection, the System shall determine an aggregate rate for all employers, expressed as a percentage of projected payroll.

In determining the contributions required under item (ii) of this subsection, the amount shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation.

The contributions required under this subsection (a-2) shall be paid by an employer concurrently with that employer's payroll payment period. The State, as the actual employer of an employee, shall make the required contributions under this subsection.

As used in this subsection, "academic year" means the 12-month period beginning September 1.

(b) If an employee is paid from trust or federal funds, the employer shall pay to the Board contributions from those funds which are sufficient to cover the accruing normal costs on behalf of the employee. However, universities having employees who are compensated out of local auxiliary funds, income funds, or service enterprise funds are not required to pay such contributions on behalf of those employees. The local auxiliary funds, income funds, and service enterprise funds of universities shall not be considered trust funds for the purpose of this Article, but funds of alumni associations, foundations, and athletic associations which are affiliated with the universities included as employers under this Article and other employers which do not receive State appropriations are considered to be trust funds for the purpose of this Article.

(b-1) The City of Urbana and the City of Champaign shall each make employer contributions to this System for their respective firefighter employees who participate in this System pursuant to subsection (h) of Section 15-107. The rate of contributions to be made by those municipalities shall be determined annually by the Board on the basis of the actuarial assumptions adopted by the Board and the recommendations of the actuary, and shall be expressed as a percentage of salary for each such employee. The Board shall certify the rate to the affected municipalities as soon as may be practical. The employer contributions required under this subsection shall be remitted by the municipality to the System at the same time and in the same manner as employee contributions.

(c) Through State fiscal year 1995: The total employer contribution shall be apportioned among the various funds of the State and other employers, whether trust, federal, or other funds, in accordance with actuarial procedures approved by the Board. State of Illinois contributions for employers receiving State appropriations for personal services shall be payable from appropriations made to the employers or to the System. The contributions for Class I community colleges covering earnings other than those paid from trust and federal funds, shall be payable solely from appropriations to the Illinois Community College Board or the System for employer contributions.

(d) Beginning in State fiscal year 1996, the required State contributions to the System shall be appropriated directly to the System and shall be payable through vouchers issued in accordance with subsection (c) of Section 15-165, except as provided in subsection (g).

(e) The State Comptroller shall draw warrants payable to the System upon proper certification by the System or by the employer in accordance with the appropriation laws and this Code.

(f) Normal costs under this Section means liability for pensions and other benefits which accrues to the System because of the credits earned for service rendered by the participants during the fiscal year and expenses of administering the System, but shall not include the principal of or any redemption premium or interest on any bonds issued by the Board or any expenses incurred or deposits required in connection therewith.

(g) If ~~June 4, 2018 (Public Act 100-587)~~ the amount of a participant's earnings for any academic year used to determine the final rate of earnings, determined on a full-time equivalent basis, exceeds the amount of his or her earnings with the same employer for the previous academic year, determined on a full-time equivalent basis, by more than 6%, the participant's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in earnings that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection (g), the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (h), (h-5), or (i) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (g) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

When assessing payment for any amount due under this subsection (g), the System shall include earnings, to the extent not established by a participant under Section 15-113.11 or 15-113.12, that would have been paid to the participant had the participant not taken (i) periods of voluntary or involuntary furlough occurring on or after July 1, 2015 and on or before June 30, 2017 or (ii) periods of voluntary pay reduction in lieu of furlough occurring on or after July 1, 2015 and on or before June 30, 2017. Determining earnings that would have been paid to a participant had the participant not taken periods of voluntary or involuntary furlough or periods of voluntary pay reduction shall be the responsibility of the employer, and shall be reported in a manner prescribed by the System.

This subsection (g) does not apply to (1) Tier 2 hybrid plan members and (2) Tier 2 defined benefit members who first participate under this Article on or after the implementation date of the Optional Hybrid Plan.

(g-1) (Blank). ~~June 4, 2018 (Public Act 100-587)~~

(h) This subsection (h) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to participants under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to a participant at a time when the participant is 10 or more years from retirement eligibility under Section 15-135.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases resulting from overload work, including a contract for summer teaching, or overtime when the employer has certified to the System, and the System has approved the certification, that: (i) in the case of overloads (A) the overload work is for the sole purpose of academic instruction in excess of the standard number of instruction hours for a full-time employee occurring during the academic year that the overload is paid and (B) the earnings increases are equal to or less than the rate of pay for academic instruction computed using the participant's current salary rate and work schedule; and (ii) in the case of overtime, the overtime was necessary for the educational mission.

When assessing payment for any amount due under subsection (g), the System shall exclude any earnings increase resulting from (i) a promotion for which the employee moves from one classification to a higher classification under the State Universities Civil Service System, (ii) a promotion in academic rank for a tenured or tenure-track faculty position, or (iii) a promotion that the Illinois Community College Board has recommended in accordance with subsection (k) of this Section. These earnings increases shall be excluded only if the promotion is to a position that has existed and been filled by a member for no less than one complete academic year and the earnings increase as a result of the promotion is an increase that results in an amount no greater than the average salary paid for other similar positions.

(h-5) When assessing payment for any amount due under subsection (g), the System shall exclude any earnings increase resulting from overload work performed in an academic year subsequent to an academic year in which the employer was unable to offer or allow to be conducted overload work due to an emergency declaration limiting such activities.

(i) When assessing payment for any amount due under subsection (g), the System shall exclude any salary increase described in subsection (h) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (g) of this Section.

(j) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(j-5) For State fiscal years beginning on or after July 1, 2017, if the amount of a participant's earnings for any State fiscal year exceeds the amount of the salary set by law for the Governor that is in effect on July 1 of that fiscal year, the participant's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, an amount determined by the System to be equal to the employer normal cost, as established by the System and expressed as a total percentage of payroll, multiplied by the amount of earnings in excess of the amount of the salary set by law for the Governor. This amount shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculation used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must

specify in detail the grounds of the dispute. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection may be paid in the form of a lump sum within 90 days after issuance of the bill. If the employer contributions are not paid within 90 days after issuance of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after issuance of the bill. All payments must be received within 3 years after issuance of the bill. If the employer fails to make complete payment, including applicable interest, within 3 years, then the System may, after giving notice to the employer, certify the delinquent amount to the State Comptroller, and the Comptroller shall thereupon deduct the certified delinquent amount from State funds payable to the employer and pay them instead to the System.

This subsection (j-5) does not apply to a participant's earnings to the extent an employer pays the employer normal cost of such earnings.

The changes made to this subsection (j-5) by Public Act 100-624 are intended to apply retroactively to July 6, 2017 (the effective date of Public Act 100-23).

(k) The Illinois Community College Board shall adopt rules for recommending lists of promotional positions submitted to the Board by community colleges and for reviewing the promotional lists on an annual basis. When recommending promotional lists, the Board shall consider the similarity of the positions submitted to those positions recognized for State universities by the State Universities Civil Service System. The Illinois Community College Board shall file a copy of its findings with the System. The System shall consider the findings of the Illinois Community College Board when making determinations under this Section. The System shall not exclude any earnings increases resulting from a promotion when the promotion was not submitted by a community college. Nothing in this subsection (k) shall require any community college to submit any information to the Community College Board.

(l) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(m) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Sec. 15-198. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after June 1, 2005 (the effective date of Public Act 94-4). "New benefit increase", however, does not include any benefit increase resulting from the changes made to Article 1 or this Article by Public Act 100-23, Public Act 100-587, Public Act 100-769, Public Act 101-10, Public Act 101-610, or this amendatory Act of the 102nd General Assembly ~~or this amendatory Act of the 101st General Assembly.~~

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Insurance. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase

under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including, without limitation, a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

(40 ILCS 5/16-133) (from Ch. 108 1/2, par. 16-133)

(Text of Section WITHOUT the changes made by P.A. 98-599, which has been held unconstitutional) Sec. 16-133. Retirement annuity; amount.

(a) The amount of the retirement annuity shall be (i) in the case of a person who first became a teacher under this Article before July 1, 2005, the larger of the amounts determined under paragraphs (A) and (B) below, or (ii) in the case of a person who first becomes a teacher under this Article on or after July 1, 2005, the amount determined under the applicable provisions of paragraph (B):

(A) An amount consisting of the sum of the following:

(1) An amount that can be provided on an actuarially equivalent basis by the member's accumulated contributions at the time of retirement; and

(2) The sum of (i) the amount that can be provided on an actuarially equivalent basis by the member's accumulated contributions representing service prior to July 1, 1947, and (ii) the amount that can be provided on an actuarially equivalent basis by the amount obtained by multiplying 1.4 times the member's accumulated contributions covering service subsequent to June 30, 1947; and

(3) If there is prior service, 2 times the amount that would have been determined under subparagraph (2) of paragraph (A) above on account of contributions which would have been made during the period of prior service creditable to the member had the System been in operation and had the member made contributions at the contribution rate in effect prior to July 1, 1947.

This paragraph (A) does not apply to a person who first becomes a teacher under this Article on or after July 1, 2005.

(B) An amount consisting of the greater of the following:

(1) For creditable service earned before July 1, 1998 that has not been augmented under Section 16-129.1: 1.67% of final average salary for each of the first 10 years of creditable service, 1.90% of final average salary for each year in excess of 10 but not exceeding 20, 2.10% of final average salary for each year in excess of 20 but not exceeding 30, and 2.30% of final average salary for each year in excess of 30; and

For creditable service earned on or after July 1, 1998 by a member who has at least 24 years of creditable service on July 1, 1998 and who does not elect to augment service under Section 16-129.1: 2.2% of final average salary for each year of creditable service earned on or after July 1, 1998 but before the member reaches a total of 30 years of creditable service and 2.3% of final average salary for each year of creditable service earned on or after July 1, 1998 and after the member reaches a total of 30 years of creditable service; and

For all other creditable service: 2.2% of final average salary for each year of creditable service; or

(2) 1.5% of final average salary for each year of creditable service plus the sum \$7.50 for each of the first 20 years of creditable service.

The amount of the retirement annuity determined under this paragraph (B) shall be reduced by 1/2 of 1% for each month that the member is less than age 60 at the time the retirement annuity begins. However, this reduction shall not apply (i) if the member has at least 35 years of creditable service, or (ii) if the member retires on account of disability under Section 16-149.2 of this Article with at least

20 years of creditable service, or (iii) if the member (1) has earned during the period immediately preceding the last day of service at least one year of contributing creditable service as an employee of a department as defined in Section 14-103.04, (2) has earned at least 5 years of contributing creditable service as an employee of a department as defined in Section 14-103.04, (3) retires on or after January 1, 2001, and (4) retires having attained an age which, when added to the number of years of his or her total creditable service, equals at least 85. Portions of years shall be counted as decimal equivalents.

(b) For purposes of this Section, except as provided in subsection (b-5), final average salary shall be the average salary for the highest 4 consecutive years within the last 10 years of creditable service as determined under rules of the board.

The minimum final average salary shall be considered to be \$2,400 per year.

In the determination of final average salary for members other than elected officials and their appointees when such appointees are allowed by statute, that part of a member's salary for any year beginning after June 30, 1979 which exceeds the member's annual full-time salary rate with the same employer for the preceding year by more than 20% shall be excluded. The exclusion shall not apply in any year in which the member's creditable earnings are less than 50% of the preceding year's mean salary for downstate teachers as determined by the survey of school district salaries provided in Section 2-3.103 of the School Code.

(b-5) A teacher who retires on or after June 1, 2021 and for whom the 2020-2021 school year is used in the calculation of the member's final average salary shall use the higher of the following for the purpose of determining the member's final average salary:

(A) the amount otherwise calculated under subsection (b); or

(B) an amount calculated by the System using the average salary for the 4 highest years within the last 10 years of creditable service as determined under the rules of the board.

(c) In determining the amount of the retirement annuity under paragraph (B) of this Section, a fractional year shall be granted proportional credit.

(d) The retirement annuity determined under paragraph (B) of this Section shall be available only to members who render teaching service after July 1, 1947 for which member contributions are required, and to annuitants who re-enter under the provisions of Section 16-150.

(e) The maximum retirement annuity provided under paragraph (B) of this Section shall be 75% of final average salary.

(f) A member retiring after the effective date of this amendatory Act of 1998 shall receive a pension equal to 75% of final average salary if the member is qualified to receive a retirement annuity equal to at least 74.6% of final average salary under this Article or as proportional annuities under Article 20 of this Code.

(40 ILCS 5/16-158) (from Ch. 108 1/2, par. 16-158)

Sec. 16-158. Contributions by State and other employing units.

(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15 until November 15, 2011, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification under this subsection (a-1) shall include a copy of the actuarial recommendations upon which it is based and shall specifically identify the System's projected State normal cost for that fiscal year.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by Public Act 94-4.

On or before April 1, 2011, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2011, applying the changes made by Public Act 96-889 to the System's assets and liabilities as of June 30, 2009 as though Public Act 96-889 was approved on that date.

(a-5) On or before November 1 of each year, beginning November 1, 2012, the Board shall submit to the State Actuary, the Governor, and the General Assembly a proposed certification of the amount of the required State contribution to the System for the next fiscal year, along with all of the actuarial assumptions, calculations, and data upon which that proposed certification is based. On or before January 1 of each year, beginning January 1, 2013, the State Actuary shall issue a preliminary report concerning the proposed certification and identifying, if necessary, recommended changes in actuarial assumptions that the Board must consider before finalizing its certification of the required State contributions. On or before January 15, 2013 and each January 15 thereafter, the Board shall certify to the Governor and the General Assembly the amount of the required State contribution for the next fiscal year. The Board's certification must note any deviations from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

(a-10) By November 1, 2017, the Board shall recalculate and recertify to the State Actuary, the Governor, and the General Assembly the amount of the State contribution to the System for State fiscal year 2018, taking into account the changes in required State contributions made by Public Act 100-23. The State Actuary shall review the assumptions and valuations underlying the Board's revised certification and issue a preliminary report concerning the proposed recertification and identifying, if necessary, recommended changes in actuarial assumptions that the Board must consider before finalizing its certification of the required State contributions. The Board's final certification must note any deviations from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

(a-15) On or after June 15, 2019, but no later than June 30, 2019, the Board shall recalculate and recertify to the Governor and the General Assembly the amount of the State contribution to the System for State fiscal year 2019, taking into account the changes in required State contributions made by Public Act 100-587. The recalculation shall be made using assumptions adopted by the Board for the original fiscal year 2019 certification. The monthly voucher for the 12th month of fiscal year 2019 shall be paid by the Comptroller after the recertification required pursuant to this subsection is submitted to the Governor, Comptroller, and General Assembly. The recertification submitted to the General Assembly shall be filed with the Clerk of the House of Representatives and the Secretary of the Senate in electronic form only, in the manner that the Clerk and the Secretary shall direct.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From March 5, 2004 (the effective date of Public Act 93-665) through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2012 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal

year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For each of State fiscal years 2018, 2019, and 2020, the State shall make an additional contribution to the System equal to 2% of the total payroll of each employee who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (c) of Section 1-161.

A change in an actuarial or investment assumption that increases or decreases the required State contribution and first applies in State fiscal year 2018 or thereafter shall be implemented in equal annual amounts over a 5-year period beginning in the State fiscal year in which the actuarial change first applies to the required State contribution.

A change in an actuarial or investment assumption that increases or decreases the required State contribution and first applied to the State contribution in fiscal year 2014, 2015, 2016, or 2017 shall be implemented:

(i) as already applied in State fiscal years before 2018; and

(ii) in the portion of the 5-year period beginning in the State fiscal year in which the actuarial change first applied that occurs in State fiscal year 2018 or thereafter, by calculating the change in equal annual amounts over that 5-year period and then implementing it at the resulting annual rate in each of the remaining fiscal years in that 5-year period.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before May 27, 1998 (the effective date of Public Act 90-582): 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is \$534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is \$738,014,500.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is \$2,089,268,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to subsection (a-1) of this Section and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable. This amount shall include, in addition to the amount certified by the System, an amount necessary to meet employer contributions required by the State as an employer under paragraph (e) of this Section, which may also be used by the System for contributions required by paragraph (a) of Section 16-127.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion

of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(b-4) Beginning in fiscal year 2018, each employer under this Article shall pay to the System a required contribution determined as a percentage of projected payroll and sufficient to produce an annual amount equal to:

(i) for each of fiscal years 2018, 2019, and 2020, the defined benefit normal cost of the defined benefit plan, less the employee contribution, for each employee of that employer who has elected or who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (b) of Section 1-161; for fiscal year 2021 and each fiscal year thereafter, the defined benefit normal cost of the defined benefit plan, less the employee contribution, plus 2%, for each employee of that employer who has elected or who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (b) of Section 1-161; plus

(ii) the amount required for that fiscal year to amortize any unfunded actuarial accrued liability associated with the present value of liabilities attributable to the employer's account under Section 16-158.3, determined as a level percentage of payroll over a 30-year rolling amortization period.

In determining contributions required under item (i) of this subsection, the System shall determine an aggregate rate for all employers, expressed as a percentage of projected payroll.

In determining the contributions required under item (ii) of this subsection, the amount shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation.

The contributions required under this subsection (b-4) shall be paid by an employer concurrently with that employer's payroll payment period. The State, as the actual employer of an employee, shall make the required contributions under this subsection.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, which, beginning July 1, 2017, shall be at a rate, expressed as a percentage of salary, equal to the total employer's normal cost, expressed as a percentage of payroll, as determined by the System. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System. Any contribution for fiscal year 2015 collected as a result of the change made by Public Act 98-674 shall be considered a State contribution under subsection (b-3) of this Section.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

(1) Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.

(2) Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from Public Act 90-582.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by Public Act 90-582 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If ~~June 4, 2018 (Public Act 100-587)~~ the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. If a teacher's salary for the 2005-2006 school year is used to determine final average salary under this subsection (f), then the changes made to this subsection (f) by Public Act 94-1057 shall apply in calculating whether the increase in his or her salary is in excess of 6%. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code on or after June 1, 2005 shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation. The changes made to this subsection (f) by Public Act 94-1111 apply without regard to whether the teacher was in service on or after its effective date.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (g), (g-5), (g-10), or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(f-1) (Blank). ~~June 4, 2018 (Public Act 100-587)~~

(g) This subsection (g) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to a teacher at a time when the teacher is 10 or more years from retirement eligibility under Section 16-132 or 16-133.2.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload work, including summer school, when the school district has certified to the System, and the System has approved the certification, that (i) the overload work is for the sole purpose of classroom instruction in excess of the standard number of classes for a full-time teacher in a school district during a school year and (ii) the salary increases are equal to or less than the rate of pay for classroom instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the System shall exclude a salary increase resulting from a promotion (i) for which the employee is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board that is a different certification or supervisory endorsement than is required for the teacher's previous position and (ii) to a position that has existed and been filled by a member for no less than one complete academic year and the salary increase from the promotion is an increase that results in an amount no greater than the lesser of the average salary paid for other similar positions in the district requiring the same certification or the amount stipulated in the collective bargaining agreement for a similar position requiring the same certification.

When assessing payment for any amount due under subsection (f), the System shall exclude any payment to the teacher from the State of Illinois or the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(g-5) When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload or stipend work performed in a school year subsequent to a school year in which the employer was unable to offer or allow to be conducted overload or stipend work due to an emergency declaration limiting such activities.

(g-10) When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from increased instructional time that exceeded the instructional time required during the 2019-2020 school year.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection (g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(i-5) For school years beginning on or after July 1, 2017, if the amount of a participant's salary for any school year exceeds the amount of the salary set for the Governor, the participant's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, an amount determined by the System to be equal to the employer normal cost, as established by the System and expressed as a total percentage of payroll, multiplied by the amount of salary in excess of the amount of the salary set for the Governor. This amount shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(j) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(k) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Sec. 16-203. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after June 1, 2005 (the effective date of Public Act 94-4). "New benefit increase", however, does not include any benefit increase resulting from the changes made to Article 1 or this Article by Public Act 95-910, Public Act 100-23, Public Act 100-587, Public Act 100-743, ~~or~~ Public Act 100-769, Public Act 101-10, Public Act 101-49, or this amendatory Act of the 102nd General Assembly or this amendatory Act of the 101st General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Insurance. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including, without limitation, a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

Section 12-10. The State Mandates Act is amended by adding Section 8.45 as follows:

(30 ILCS 805/8.45 new)

Sec. 8.45. Exempt mandate. Notwithstanding Sections 6 and 8 of this Act, no reimbursement by the State is required for the implementation of any mandate created by this amendatory Act of the 102nd General Assembly.

#### ARTICLE 14. LIHEAP

Section 14-5. The Energy Assistance Act is amended by changing Sections 6 and 13 and by adding Section 20 as follows:

(305 ILCS 20/6) (from Ch. 111 2/3, par. 1406)

Sec. 6. Eligibility, Conditions of Participation, and Energy Assistance.

(a) Any person who is a resident of the State of Illinois and whose household income is not greater than an amount determined annually by the Department, in consultation with the Policy Advisory Council, may apply for assistance pursuant to this Act in accordance with regulations promulgated by the Department. In setting the annual eligibility level, the Department shall consider the amount of available funding and may not set a limit higher than 150% of the federal nonfarm poverty level as established by the federal Office of Management and Budget or 60% of the State median income for the current State fiscal year as established by the U.S. Department of Health and Human Services; except that for the period from the effective date of this amendatory Act of the 101st General Assembly through June 30, 2021, the Department may establish limits not higher than 200% of that poverty level. The Department, in consultation with the Policy Advisory Council, may adjust the percentage of poverty level annually in accordance with federal guidelines and based on funding availability.

(b) Applicants who qualify for assistance pursuant to subsection (a) of this Section shall, subject to appropriation from the General Assembly and subject to availability of funds to the Department, receive energy assistance as provided by this Act. The Department, upon receipt of monies authorized pursuant to this Act for energy assistance, shall commit funds for each qualified applicant in an amount determined by the Department. In determining the amounts of assistance to be provided to or on behalf of a qualified applicant, the Department shall ensure that the highest amounts of assistance go to households with the greatest energy costs in relation to household income. The Department shall include factors such as energy costs, household size, household income, and region of the State when determining individual household benefits. In setting assistance levels, the Department shall attempt to provide assistance to approximately the same number of households who participated in the 1991 Residential Energy Assistance Partnership Program. Such assistance levels shall be adjusted annually on the basis of funding availability and energy costs. In promulgating rules for the administration of this Section the Department shall assure that a minimum of 1/3 of funds available for benefits to eligible households with the lowest incomes and that elderly households, households with children under the age of 6 years old, and households with persons with disabilities are offered a priority application period.

(c) If the applicant is not a customer of record of an energy provider for energy services or an applicant for such service, such applicant shall receive a direct energy assistance payment in an amount established by the Department for all such applicants under this Act; provided, however, that such an applicant must have rental expenses for housing greater than 30% of household income.

(c-1) This subsection shall apply only in cases where: (1) the applicant is not a customer of record of an energy provider because energy services are provided by the owner of the unit as a portion of the rent; (2)

the applicant resides in housing subsidized or developed with funds provided under the Rental Housing Support Program Act or under a similar locally funded rent subsidy program, or is the voucher holder who resides in a rental unit within the State of Illinois and whose monthly rent is subsidized by the tenant-based Housing Choice Voucher Program under Section 8 of the U.S. Housing Act of 1937; and (3) the rental expenses for housing are no more than 30% of household income. In such cases, the household may apply for an energy assistance payment under this Act and the owner of the housing unit shall cooperate with the applicant by providing documentation of the energy costs for that unit. Any compensation paid to the energy provider who supplied energy services to the household shall be paid on behalf of the owner of the housing unit providing energy services to the household. The Department shall report annually to the General Assembly on the number of households receiving energy assistance under this subsection and the cost of such assistance. The provisions of this subsection (c-1), other than this sentence, are inoperative after August 31, 2012.

(d) If the applicant is a customer of an energy provider, such applicant shall receive energy assistance in an amount established by the Department for all such applicants under this Act, such amount to be paid by the Department to the energy provider supplying winter energy service to such applicant. Such applicant shall:

(i) make all reasonable efforts to apply to any other appropriate source of public energy assistance; and

(ii) sign a waiver permitting the Department to receive income information from any public or private agency providing income or energy assistance and from any employer, whether public or private.

(e) Any qualified applicant pursuant to this Section may receive or have paid on such applicant's behalf an emergency assistance payment to enable such applicant to obtain access to winter energy services. Any such payments shall be made in accordance with regulations of the Department.

(f) The Department may, if sufficient funds are available, provide additional benefits to certain qualified applicants:

(i) for the reduction of past due amounts owed to energy providers; and

(ii) to assist the household in responding to excessively high summer temperatures or energy costs. Households containing elderly members, children, a person with a disability, or a person with a medical need for conditioned air shall receive priority for receipt of such benefits.

(305 ILCS 20/13)

(Section scheduled to be repealed on January 1, 2025)

Sec. 13. Supplemental Low-Income Energy Assistance Fund.

(a) The Supplemental Low-Income Energy Assistance Fund is hereby created as a special fund in the State Treasury. Notwithstanding any other law to the contrary, the Supplemental Low-Income Energy Assistance Fund is not subject to sweeps, administrative charge-backs, or any other fiscal or budgetary maneuver that would in any way transfer any amounts from the Supplemental Low-Income Energy Assistance Fund into any other fund of the State. The Supplemental Low-Income Energy Assistance Fund is authorized to receive moneys from voluntary donations from individuals, foundations, corporations, and other sources, moneys received pursuant to Section 17, and, by statutory deposit, the moneys collected pursuant to this Section. The Fund is also authorized to receive voluntary donations from individuals, foundations, corporations, and other sources. Subject to appropriation, the Department shall use moneys from the Supplemental Low-Income Energy Assistance Fund for payments to electric or gas public utilities, municipal electric or gas utilities, and electric cooperatives on behalf of their customers who are participants in the program authorized by Sections 4 and 18 of this Act, for the provision of weatherization services and for administration of the Supplemental Low-Income Energy Assistance Fund. All other deposits outside of the Energy Assistance Charge as set forth in subsection (b) are not subject to the percentage restrictions related to administrative and weatherization expenses provided in this subsection. The yearly expenditures for weatherization may not exceed 10% of the amount collected during the year pursuant to this Section, except when unspent funds from the Supplemental Low-Income Energy Assistance Fund are reallocated from a previous year; any unspent balance of the 10% weatherization allowance may be utilized for weatherization expenses in the year they are reallocated. The yearly administrative expenses of the Supplemental Low-Income Energy Assistance Fund may not exceed 13% ~~10%~~ of the amount collected during that year pursuant to this Section, except when unspent funds from the Supplemental Low-Income Energy Assistance Fund are reallocated from a previous year; any unspent balance of the 13% ~~10%~~

[May 31, 2021]

administrative allowance may be utilized for administrative expenses in the year they are reallocated. Of the 13% administrative allowance, no less than 8% shall be provided to Local Administrative Agencies for administrative expenses.

(b) Notwithstanding the provisions of Section 16-111 of the Public Utilities Act but subject to subsection (k) of this Section, each public utility, electric cooperative, as defined in Section 3.4 of the Electric Supplier Act, and municipal utility, as referenced in Section 3-105 of the Public Utilities Act, that is engaged in the delivery of electricity or the distribution of natural gas within the State of Illinois shall, effective January 1, 2021 ~~effective January 1, 1998~~, assess each of its customer accounts a monthly Energy Assistance Charge for the Supplemental Low-Income Energy Assistance Fund. The delivering public utility, municipal electric or gas utility, or electric or gas cooperative for a self-assessing purchaser remains subject to the collection of the fee imposed by this Section. The monthly charge shall be as follows:

(1) Base Energy Assistance Charge per month on each account for residential electrical service;

(2) Base Energy Assistance Charge per month on each account for residential gas service;

(3) Ten times the Base Energy Assistance Charge per month on each account for non-residential electric service which had less than 10 megawatts of peak demand during the previous calendar year;

(4) Ten times the Base Energy Assistance Charge per month on each account for non-residential gas service which had distributed to it less than 4,000,000 therms of gas during the previous calendar year;

(5) Three hundred and seventy-five times the Base Energy Assistance Charge per month on each account for non-residential electric service which had 10 megawatts or greater of peak demand during the previous calendar year; and

(6) Three hundred and seventy-five times the Base Energy Assistance Charge per month on each account For non-residential gas service which had 4,000,000 or more therms of gas distributed to it during the previous calendar year.

The Base Energy Assistance Charge shall be \$0.48 per month for the calendar year beginning January 1, 2022 and shall increase by \$0.16 per month for any calendar year, provided no less than 80% of the previous State fiscal year's available Supplemental Low-Income Energy Assistance Fund funding was exhausted. The maximum Base Energy Assistance Charge shall not exceed \$0.96 per month for any calendar year.

~~(1) \$0.48 per month on each account for residential electric service;~~

~~(2) \$0.48 per month on each account for residential gas service;~~

~~(3) \$4.80 per month on each account for non-residential electric service which had less than 10 megawatts of peak demand during the previous calendar year;~~

~~(4) \$4.80 per month on each account for non-residential gas service which had distributed to it less than 4,000,000 therms of gas during the previous calendar year;~~

~~(5) \$360 per month on each account for non-residential electric service which had 10 megawatts or greater of peak demand during the previous calendar year; and~~

~~(6) \$360 per month on each account for non-residential gas service which had 4,000,000 or more therms of gas distributed to it during the previous calendar year.~~

The incremental change to such charges imposed by Public Act 99-933 and this amendatory Act of the 102nd General Assembly ~~this amendatory Act of the 96th General Assembly~~ shall not (i) be used for any purpose other than to directly assist customers and (ii) be applicable to utilities serving less than 25,000 ~~400,000~~ customers in Illinois on January 1, 2021 ~~2009~~. The incremental change to such charges imposed by this amendatory Act of the 102nd General Assembly are intended to increase utilization of the Percentage of Income Payment Plan (PIPP or PIP Plan) and shall be applied such that PIP Plan enrollment is at least doubled, as compared to 2020 enrollment, by 2024.

In addition, electric and gas utilities have committed, and shall contribute, a one-time payment of \$22 million to the Fund, within 10 days after the effective date of the tariffs established pursuant to Sections 16-111.8 and 19-145 of the Public Utilities Act to be used for the Department's cost of implementing the programs described in Section 18 of this amendatory Act of the 96th General Assembly, the Arrearage Reduction Program described in Section 18, and the programs described in Section 8-105 of the Public Utilities Act. (c) For purposes of this Section:

(1) "residential electric service" means electric utility service for household purposes delivered to a dwelling of 2 or fewer units which is billed under a residential rate, or electric utility service for household purposes delivered to a dwelling unit or units which is billed under a residential rate and is registered by a separate meter for each dwelling unit;

(4) "non-residential gas service" means gas utility service which is not residential gas service.

(d) Within 30 days after the effective date of this amendatory Act of the 96th General Assembly, each public utility engaged in the delivery of electricity or the distribution of natural gas shall file with the Illinois Commerce Commission tariffs incorporating the Energy Assistance Charge in other charges stated in such tariffs, which shall become effective no later than the beginning of the first billing cycle following such filing.

(e) The Energy Assistance Charge assessed by electric and gas public utilities shall be considered a charge for public utility service.

(f) By the 20th day of the month following the month in which the charges imposed by the Section were collected, each public utility, municipal utility, and electric cooperative shall remit to the Department of Revenue all moneys received as payment of the Energy Assistance Charge on a return prescribed and furnished by the Department of Revenue showing such information as the Department of Revenue may reasonably require; provided, however, that a utility offering an Arrearage Reduction Program or Supplemental Arrearage Reduction Program pursuant to Section 18 of this Act shall be entitled to net those amounts necessary to fund and recover the costs of such Programs as authorized by that Section that is no more than the incremental change in such Energy Assistance Charge authorized by Public Act 96-33. If a customer makes a partial payment, a public utility, municipal utility, or electric cooperative may elect either: (i) to apply such partial payments first to amounts owed to the utility or cooperative for its services and then to payment for the Energy Assistance Charge or (ii) to apply such partial payments on a pro-rata basis between amounts owed to the utility or cooperative for its services and to payment for the Energy Assistance Charge.

If any payment provided for in this Section exceeds the distributor's liabilities under this Act, as shown on an original return, the Department may authorize the distributor to credit such excess payment against liability subsequently to be remitted to the Department under this Act, in accordance with reasonable rules adopted by the Department. If the Department subsequently determines that all or any part of the credit taken was not actually due to the distributor, the distributor's discount shall be reduced by an amount equal to the difference between the discount as applied to the credit taken and that actually due, and that distributor shall be liable for penalties and interest on such difference.

(g) The Department of Revenue shall deposit into the Supplemental Low-Income Energy Assistance Fund all moneys remitted to it in accordance with subsection (f) of this Section. ~~; provided, however, that the amounts remitted by each utility shall be used to provide assistance to that utility's customers.~~ The utilities shall coordinate with the Department to establish an equitable and practical methodology for implementing this subsection (g) beginning with the 2010 program year.

(h) On or before December 31, 2002, the Department shall prepare a report for the General Assembly on the expenditure of funds appropriated from the Low-Income Energy Assistance Block Grant Fund for the program authorized under Section 4 of this Act.

(i) The Department of Revenue may establish such rules as it deems necessary to implement this Section.

(j) The Department of Commerce and Economic Opportunity may establish such rules as it deems necessary to implement this Section.

(k) The charges imposed by this Section shall only apply to customers of municipal electric or gas utilities and electric or gas cooperatives if the municipal electric or gas utility or electric or gas cooperative makes an affirmative decision to impose the charge. If a municipal electric or gas utility or an electric cooperative makes an affirmative decision to impose the charge provided by this Section, the municipal electric or gas utility or electric cooperative shall inform the Department of Revenue in writing of such decision when it begins to impose the charge. If a municipal electric or gas utility or electric or gas

cooperative does not assess this charge, the Department may not use funds from the Supplemental Low-Income Energy Assistance Fund to provide benefits to its customers under the program authorized by Section 4 of this Act.

In its use of federal funds under this Act, the Department may not cause a disproportionate share of those federal funds to benefit customers of systems which do not assess the charge provided by this Section.

This Section is repealed on January 1, 2025 unless renewed by action of the General Assembly.

On July 1, 2002 and on July 1 of each year thereafter, the amount authorized per year under this Section for each member of the Senate and each member of the House of Representatives shall be increased by a percentage increase equivalent to the lesser of (i) the increase in the designated cost of living index or (ii) 5%. The designated cost of living index is the index known as the "Employment Cost Index, Wages and Salaries, By Occupation and Industry Groups: State and Local Government Workers: Public Administration" as published by the Bureau of Labor Statistics of the U.S. Department of Labor for the calendar year immediately preceding the year of the respective July 1st increase date. The increase shall be added to the then current amount, and the adjusted amount so determined shall be the annual amount beginning July 1 of the increase year until July 1 of the next year. Beginning July 1, 2021, each member of the House of Representatives is authorized to approve the expenditure of not more than \$179,000 per year and each member of the Senate is authorized to approve the expenditure of not more than \$214,000 per year to pay for "personal services", "contractual services", "commodities", "printing", "travel", "operation of automotive equipment", "telecommunications services", as defined in the State Finance Act, and the compensation of one or more legislative assistants authorized pursuant to this Section, in connection with his or her legislative duties and not in connection with any political campaign. The designated cost of living index is the index known as the "Employment Cost Index, Wages and Salaries, By Occupation and Industry Groups: State and Local Government Workers: Public Administration" as published by the Bureau of Labor Statistics of the U.S. Department of Labor for the calendar year immediately preceding the year of the respective July 1st increase date. The increase shall be added to the then current amount, and the adjusted amount so determined shall be the annual amount beginning July 1 of the increase year until July 1 of the next year. No increase under this provision shall be less than zero.

A member may purchase office equipment if the member certifies to the Secretary of the Senate or the Clerk of the House, as applicable, that the purchase price, whether paid in lump sum or installments, amounts to less than would be charged for renting or leasing the equipment over its anticipated useful life. All such equipment must be purchased through the Secretary of the Senate or the Clerk of the House, as applicable, for proper identification and verification of purchase.

Each member of the General Assembly is authorized to employ one or more legislative assistants, who shall be solely under the direction and control of that member, for the purpose of assisting the member in the performance of his or her official duties. A legislative assistant may be employed pursuant to this Section as a full-time employee, part-time employee, or contractual employee, at the discretion of the member. If employed as a State employee, a legislative assistant shall receive employment benefits on the same terms and conditions that apply to other employees of the General Assembly. Each member shall adopt and implement personnel policies for legislative assistants under his or her direction and control relating to work time requirements, documentation for reimbursement for travel on official State business, compensation, and the earning and accrual of State benefits for those legislative assistants who may be eligible to receive those benefits. The policies shall also require legislative assistants to periodically submit

time sheets documenting, in quarter-hour increments, the time spent each day on official State business. The policies shall require the time sheets to be submitted on paper, electronically, or both and to be maintained in either paper or electronic format by the applicable fiscal office for a period of at least 2 years. Contractual employees may satisfy the time sheets requirement by complying with the terms of their contract, which shall provide for a means of compliance with this requirement. As used in this Section the term "personal services" shall include contributions of the State under the Federal Insurance Contribution Act and under Article 14 of the Illinois Pension Code. As used in this Section the term "contractual services" shall not include improvements to real property unless those improvements are the obligation of the lessee under the lease agreement. Beginning July 1, 1989, as used in the Section, the term "travel" shall be limited to travel in connection with a member's legislative duties and not in connection with any political campaign. Beginning on the effective date of this amendatory Act of the 93rd General Assembly, as used in this Section, the term "printing" includes, but is not limited to, newsletters, brochures, certificates, congratulatory mailings, greeting or welcome messages, anniversary or birthday cards, and congratulations for prominent achievement cards. As used in this Section, the term "printing" includes fees for non-substantive resolutions charged by the Clerk of the House of Representatives under subsection (c-5) of Section 1 of the Legislative Materials Act. No newsletter or brochure that is paid for, in whole or in part, with funds provided under this Section may be printed or mailed during a period beginning February 1 of the year of a general primary election and ending the day after the general primary election and during a period beginning September 1 of the year of a general election and ending the day after the general election, except that such a newsletter or brochure may be mailed during those times if it is mailed to a constituent in response to that constituent's inquiry concerning the needs of that constituent or questions raised by that constituent. Nothing in this Section shall be construed to authorize expenditures for lodging and meals while a member is in attendance at sessions of the General Assembly.

Any utility bill for service provided to a member's district office for a period including portions of 2 consecutive fiscal years may be paid from funds appropriated for such expenditure in either fiscal year.

If a vacancy occurs in the office of Senator or Representative in the General Assembly, any office equipment in the possession of the vacating member shall transfer to the member's successor; if the successor does not want such equipment, it shall be transferred to the Secretary of the Senate or Clerk of the House of Representatives, as the case may be, and if not wanted by other members of the General Assembly then to the Department of Central Management Services for treatment as surplus property under the State Property Control Act. Each member, on or before June 30th of each year, shall conduct an inventory of all equipment purchased pursuant to this Act. Such inventory shall be filed with the Secretary of the Senate or the Clerk of the House, as the case may be. Whenever a vacancy occurs, the Secretary of the Senate or the Clerk of the House, as the case may be, shall conduct an inventory of equipment purchased.

In the event that a member leaves office during his or her term, any unexpended or unobligated portion of the allowance granted under this Section shall lapse. The vacating member's successor shall be granted an allowance in an amount, rounded to the nearest dollar, computed by dividing the annual allowance by 365 and multiplying the quotient by the number of days remaining in the fiscal year.

From any appropriation for the purposes of this Section for a fiscal year which overlaps 2 General Assemblies, no more than 1/2 of the annual allowance per member may be spent or encumbered by any member of either the outgoing or incoming General Assembly, except that any member of the incoming General Assembly who was a member of the outgoing General Assembly may encumber or spend any portion of his annual allowance within the fiscal year.

The appropriation for the annual allowances permitted by this Section shall be included in an appropriation to the President of the Senate and to the Speaker of the House of Representatives for their respective members. The President of the Senate and the Speaker of the House shall voucher for payment individual members' expenditures from their annual office allowances to the State Comptroller, subject to the authority of the Comptroller under Section 9 of the State Comptroller Act.

Nothing in this Section prohibits the expenditure of personal funds or the funds of a political committee controlled by an officeholder to defray the customary and reasonable expenses of an officeholder in connection with the performance of governmental and public service functions.

All actions taken in reliance on or pursuant to this Section by any public institution of higher education, person, or entity are hereby validated.

In order to ensure the continuing effectiveness of this Section, it is set forth in full and re-enacted by this amendatory Act of the 100th General Assembly. This re-enactment is intended as a continuation of this Section. It is not intended to supersede any amendment to this Section that is enacted by the 100th General Assembly.

(a-5) Nothing in this Act shall prohibit the use of State funds for purposes of federal match or maintenance of effort.

(b) The terms and conditions of State, federal, and pass-through awards apply to subawards and subrecipients unless a particular Section of this Act or the terms and conditions of the State or federal award specifically indicate otherwise. Non-federal entities shall comply with requirements of this Act regardless of whether the non-federal entity is a recipient or subrecipient of a State or federal pass-through award. Pass-through entities shall comply with the requirements set forth under the rules adopted under subsection (a) of Section 20 of this Act, but not to any requirements in this Act directed towards State or federal awarding agencies, unless the requirements of the State or federal awards indicate otherwise.

When a non-federal entity is awarded a cost-reimbursement contract, only 2 CFR 200.330 through 200.332 are incorporated by reference into the contract. However, when the Cost Accounting Standards are applicable to the contract, they take precedence over the requirements of this Act unless they are in conflict with Subpart F of 2 CFR 200. In addition, costs that are made unallowable under 10 U.S.C. 2324(e) and 41 U.S.C. 4304(a), as described in the Federal Acquisition Regulations, subpart 31.2 and subpart 31.603, are always unallowable. For requirements other than those covered in Subpart D of 2 CFR 200.330 through 200.332, the terms of the contract and the Federal Acquisition Regulations apply.

With the exception of Subpart F of 2 CFR 200, which is required by the Single Audit Act, in any circumstances where the provisions of federal statutes or regulations differ from the provisions of this Act, the provision of the federal statutes or regulations govern. This includes, for agreements with Indian tribes, the provisions of the Indian Self-Determination and Education and Assistance Act, as amended, 25 U.S.C. 450-458ddd-2.

(c) State grant-making agencies may apply subparts A through E of 2 CFR 200 to for-profit entities, foreign public entities, or foreign organizations, except where the awarding agency determines that the application of these subparts would be inconsistent with the international obligations of the United States or the statute or regulations of a foreign government.

(d) 2 CFR 200.101 specifies how 2 CFR 200 is applicable to different types of awards. The same applicability applies to this Act.

(e) (Blank).

(f) For public institutions of higher education, the provisions of this Act apply only to awards funded by State appropriations and federal pass-through awards from a State agency to public institutions of higher education.

(g) Each grant-making agency shall enhance its processes to monitor and address noncompliance with reporting requirements and with program performance standards. Where applicable, the process may include a corrective action plan. The monitoring process shall include a plan for tracking and documenting performance-based contracting decisions.

(h) Notwithstanding any provision of law to the contrary, grants awarded from federal funds received from the federal Coronavirus State Fiscal Recovery Fund in accordance with Section 9901 of the American Rescue Plan Act of 2021 are subject to the provisions of this Act, but only to the extent required by Section 9901 of the American Rescue Plan Act of 2021 and other applicable federal law or regulation.

The Department shall, by rule, allow certain facilities subject to 77 Ill. Admin. Code 300.4000 and following (Subpart S) to utilize specialized clinical staff, as defined in rules, to count towards the staffing ratios.

Within 120 days of the effective date of this amendatory Act of the 97th General Assembly, the Department shall promulgate rules specific to the staffing requirements for facilities federally defined as Institutions for Mental Disease. These rules shall recognize the unique nature of individuals with chronic mental health conditions, shall include minimum requirements for specialized clinical staff, including clinical social workers, psychiatrists, psychologists, and direct care staff set forth in paragraphs (4) through (6) and any other specialized staff which may be utilized and deemed necessary to count toward staffing ratios.

Within 120 days of the effective date of this amendatory Act of the 97th General Assembly, the Department shall promulgate rules specific to the staffing requirements for facilities licensed under the Specialized Mental Health Rehabilitation Act of 2013. These rules shall recognize the unique nature of individuals with chronic mental health conditions, shall include minimum requirements for specialized clinical staff, including clinical social workers, psychiatrists, psychologists, and direct care staff set forth in paragraphs (4) through (6) and any other specialized staff which may be utilized and deemed necessary to count toward staffing ratios.

(b) (Blank).

(b-5) For purposes of the minimum staffing ratios in this Section, all residents shall be classified as requiring either skilled care or intermediate care.

As used in this subsection:

"Intermediate care" means basic nursing care and other restorative services under periodic medical direction.

"Skilled care" means skilled nursing care, continuous skilled nursing observations, restorative nursing, and other services under professional direction with frequent medical supervision.

(c) Facilities shall notify the Department within 60 days after the effective date of this amendatory Act of the 96th General Assembly, in a form and manner prescribed by the Department, of the staffing ratios in effect on the effective date of this amendatory Act of the 96th General Assembly for both intermediate and skilled care and the number of residents receiving each level of care.

(d)(1) (Blank).

(2) (Blank).

(3) (Blank).

(4) (Blank).

(5) Effective January 1, 2014, the minimum staffing ratios shall be increased to 3.8 hours of nursing and personal care each day for a resident needing skilled care and 2.5 hours of nursing and personal care each day for a resident needing intermediate care.

(e) Ninety days after the effective date of this amendatory Act of the 97th General Assembly, a minimum of 25% of nursing and personal care time shall be provided by licensed nurses, with at least 10% of nursing and personal care time provided by registered nurses. These minimum requirements shall remain in effect until an acuity based registered nurse requirement is promulgated by rule concurrent with the adoption of the Resource Utilization Group classification-based payment methodology, as provided in Section 5-5.2 of the Illinois Public Aid Code. Registered nurses and licensed practical nurses employed by a facility in excess of these requirements may be used to satisfy the remaining 75% of the nursing and personal care time requirements. Notwithstanding this subsection, no staffing requirement in statute in effect on the effective date of this amendatory Act of the 97th General Assembly shall be reduced on account of this subsection.

(f) The Department shall submit proposed rules for adoption by January 1, 2020 establishing a system for determining compliance with minimum staffing set forth in this Section and the requirements of 77 Ill. Adm. Code 300.1230 adjusted for any waivers granted under Section 3-303.1. Compliance shall be determined quarterly by comparing the number of hours provided per resident per day using the Centers for Medicare and Medicaid Services' payroll-based journal and the facility's daily census, broken down by intermediate and skilled care as self-reported by the facility to the Department on a quarterly basis. The Department shall use the quarterly payroll-based journal and the self-reported census to calculate the number of hours provided per resident per day and compare this ratio to the minimum staffing standards required under this Section, as impacted by any waivers granted under Section 3-303.1. Discrepancies between job titles contained in this Section and the payroll-based journal shall be addressed by rule. The manner in which the Department requests payroll-based journal information to be submitted shall align with the federal Centers for Medicare and Medicaid Services' requirements that allow providers to submit the quarterly data in an aggregate manner.

(g) The Department shall submit proposed rules for adoption by January 1, 2020 establishing monetary penalties for facilities not in compliance with minimum staffing standards under this Section. No monetary penalty may be issued for noncompliance during the implementation period, which shall be July 1, 2020 through December 31, 2021 ~~September 30, 2020~~. If a facility is found to be noncompliant during the implementation period, the Department shall provide a written notice identifying the staffing deficiencies and require the facility to provide a sufficiently detailed correction plan to meet the statutory minimum staffing levels. Monetary penalties shall be imposed beginning no later than January 1, 2022 ~~January 1, 2021~~ and quarterly thereafter and shall be based on the latest quarter for which the Department has data. Monetary penalties shall be established based on a formula that calculates on a daily basis the cost of wages and benefits for the missing staffing hours. All notices of noncompliance shall include the computations used to determine noncompliance and establishing the variance between minimum staffing ratios and the Department's computations. The penalty for the first offense shall be 125% of the cost of wages and benefits for the missing staffing hours. The penalty shall increase to 150% of the cost of wages and benefits for the missing staffing hours for the second offense and 200% the cost of wages and benefits for the missing staffing hours for the third and all subsequent offenses. The penalty shall be imposed regardless of whether the facility has committed other violations of this Act during the same period that the staffing offense occurred. The penalty may not be waived, but the Department shall have the discretion to determine the gravity of the violation in situations where there is no more than a 10% deviation from the staffing requirements and make appropriate adjustments to the penalty. The Department is granted discretion to waive the penalty when unforeseen circumstances have occurred that resulted in call-offs of scheduled staff. This provision shall be applied no more than 6 times per quarter. Nothing in this Section diminishes a facility's right to appeal.

(a-5) Notwithstanding any other provision of this Section, the term of each member of the Commission who was appointed by the Governor and is in office on June 30, 2003 shall terminate at the close of business on that date or when all of the successor members to be appointed pursuant to this amendatory Act of the 93rd General Assembly have been appointed by the Governor, whichever occurs later. As soon as possible, the Governor shall appoint persons to fill the vacancies created by this amendatory Act. Of the initial commissioners appointed pursuant to this amendatory Act of the 93rd General Assembly, 3 shall be appointed for terms ending on the third Monday in January, 2005, and 4 shall be appointed for terms ending on the third Monday in January, 2007.

A certified arbitrator who serves as an acting Commissioner shall have all the rights and powers of a Commissioner, including salary.

Notwithstanding any other provision of this Act, the Governor shall appoint a special panel of Commissioners comprised of 3 members who shall be chosen by the Governor, by and with the consent of the Senate, from among the current ranks of certified arbitrators. Three members shall hold office until the Commission in consultation with the Governor determines that the caseload on review has been reduced sufficiently to allow cases to proceed in a timely manner or for a term of 18 months from the effective date of their appointment by the Governor, whichever shall be earlier. The 3 members shall be considered representative of citizens not identified with either the employing or employee classes and shall serve regardless of political affiliation. Each of the 3 members shall have only such rights and powers of a Commissioner necessary to dispose of those cases assigned to the special panel. #### ARTICLE 30. REVENUE

Section 30-5. The Illinois Income Tax Act is amended by changing Sections 203, 207, 214, 220, 221, and 222 as follows:

(35 ILCS 5/203) (from Ch. 120, par. 2-203)

Sec. 203. Base income defined.

(a) Individuals.

(1) In general. In the case of an individual, base income means an amount equal to the taxpayer's adjusted gross income for the taxable year as modified by paragraph (2).

(2) Modifications. The adjusted gross income referred to in paragraph (1) shall be modified by adding thereto the sum of the following amounts:

(A) An amount equal to all amounts paid or accrued to the taxpayer as interest or dividends during the taxable year to the extent excluded from gross income in the computation of adjusted gross income, except stock dividends of qualified public utilities described in Section 305(e) of the Internal Revenue Code;

(B) An amount equal to the amount of tax imposed by this Act to the extent deducted from gross income in the computation of adjusted gross income for the taxable year;

(C) An amount equal to the amount received during the taxable year as a recovery or refund of real property taxes paid with respect to the taxpayer's principal residence under the Revenue Act of 1939 and for which a deduction was previously taken under subparagraph (L) of this paragraph (2) prior to July 1, 1991, the retrospective application date of Article 4 of Public Act 87-17. In the case of multi-unit or multi-use structures and farm dwellings, the taxes on the taxpayer's principal residence shall be that portion of the total taxes for the entire property which is attributable to such principal residence;

(D) An amount equal to the amount of the capital gain deduction allowable under the Internal Revenue Code, to the extent deducted from gross income in the computation of adjusted gross income;

(D-5) An amount, to the extent not included in adjusted gross income, equal to the amount of money withdrawn by the taxpayer in the taxable year from a medical care savings account and the interest earned on the account in the taxable year of a withdrawal pursuant to

subsection (b) of Section 20 of the Medical Care Savings Account Act or subsection (b) of Section 20 of the Medical Care Savings Account Act of 2000;

(D-10) For taxable years ending after December 31, 1997, an amount equal to any eligible remediation costs that the individual deducted in computing adjusted gross income and for which the individual claims a credit under subsection (l) of Section 201;

(D-15) For taxable years 2001 and thereafter, an amount equal to the bonus depreciation deduction taken on the taxpayer's federal income tax return for the taxable year under subsection (k) of Section 168 of the Internal Revenue Code;

(D-16) If the taxpayer sells, transfers, abandons, or otherwise disposes of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-15), then an amount equal to the aggregate amount of the deductions taken in all taxable years under subparagraph (Z) with respect to that property.

If the taxpayer continues to own property through the last day of the last tax year for which a subtraction is allowed with respect to that property under subparagraph (Z) ~~the taxpayer may claim a depreciation deduction for federal income tax purposes~~ and for which the taxpayer was allowed in any taxable year to make a subtraction modification under subparagraph (Z), then an amount equal to that subtraction modification.

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(D-17) An amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(i) an item of interest paid, accrued, or incurred, directly or indirectly, to a person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such interest; or

(ii) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(D-18) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(a)(2)(D-17) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. For purposes of this subparagraph, "intangible property" includes patents, patent applications, trade names, trademarks, service marks, copyrights, mask works, trade secrets, and similar types of intangible assets.

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs paid, accrued, or incurred, directly or indirectly, from a transaction with a person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such item; or

(ii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the person during the same taxable year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(D-19) For taxable years ending on or after December 31, 2008, an amount equal to the amount of insurance premium expenses and costs otherwise allowed as a deduction in

computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the premiums and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(a)(2)(D-17) or Section 203(a)(2)(D-18) of this Act;

(D-20) For taxable years beginning on or after January 1, 2002 and ending on or before December 31, 2006, in the case of a distribution from a qualified tuition program under Section 529 of the Internal Revenue Code, other than (i) a distribution from a College Savings Pool created under Section 16.5 of the State Treasurer Act or (ii) a distribution from the Illinois Prepaid Tuition Trust Fund, an amount equal to the amount excluded from gross income under Section 529(c)(3)(B). The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

(b) the transaction giving rise to the interest expense between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

(E-13) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence shall not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(b)(2)(E-12) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. (ii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the person during the same taxable year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(ii) the addition modification relating to the net operating loss carried back or forward to the taxable year from any taxable year ending prior to December 31, 1986 shall not exceed the amount of such carryback or carryforward;

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(G-12) An amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(a) the person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(G-13) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred, or accrued. As used in this subparagraph, the term "intangible expenses and costs" includes: (1) expenses, losses, and costs for or related to the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs paid, accrued, or incurred, directly or indirectly, from a transaction with a person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such item; or

(ii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the person during the same taxable year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the

Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(G-14) For taxable years ending on or after December 31, 2008, an amount equal to the amount of insurance premium expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the premiums and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(c)(2)(G-12) or Section 203(c)(2)(G-13) of this Act;

(G-15) An amount equal to the credit allowable to the taxpayer under Section 218(a) of this Act, determined without regard to Section 218(c) of this Act;

If a taxpayer makes the election provided for by this subparagraph (Y), the insurer to which the premiums were paid must add back to income the amount subtracted by the taxpayer pursuant to this subparagraph (Y). This subparagraph (Y) is exempt from the provisions of Section 250; and

(d) Partnerships.

(1) In general. In the case of a partnership, base income means an amount equal to the taxpayer's taxable income for the taxable year as modified by paragraph (2).

(2) Modifications. The taxable income referred to in paragraph (1) shall be modified by adding thereto the sum of the following amounts:

(A) An amount equal to all amounts paid or accrued to the taxpayer as interest or dividends during the taxable year to the extent excluded from gross income in the computation of taxable income;

(C) The amount of deductions allowed to the partnership pursuant to Section 707 (c) of the Internal Revenue Code in calculating its taxable income;

If the taxpayer continues to own property through the last day of the last tax year for which a subtraction is allowed with respect to that property under subparagraph (O) ~~the taxpayer may claim a depreciation deduction for federal income tax purposes~~ and for which the taxpayer was allowed in any taxable year to make a subtraction modification under subparagraph (O), then an amount equal to that subtraction modification.

being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(a) the person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act; and

(D-8) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred or accrued. The preceding sentence shall not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(d)(2)(D-7) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring

transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. For purposes of this subparagraph, "intangible property" includes patents, patent applications, trade names, trademarks, service marks, copyrights, mask works, trade secrets, and similar types of intangible assets;

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs paid, accrued, or incurred, directly or indirectly, from a transaction with a person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such item; or

(ii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the person during the same taxable year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(D-9) For taxable years ending on or after December 31, 2008, an amount equal to the amount of insurance premium expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the premiums and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(d)(2)(D-7) or Section 203(d)(2)(D-8) of this Act;

(D-10) An amount equal to the credit allowable to the taxpayer under Section 218(a) of this Act, determined without regard to Section 218(c) of this Act;

(D-11) For taxable years ending on or after December 31, 2017, an amount equal to the deduction allowed under Section 199 of the Internal Revenue Code for the taxable year;

(G) An amount equal to all amounts included in taxable income as modified by subparagraphs (A), (B), (C) and (D) which are exempt from taxation by this State either by reason of its statutes or Constitution or by reason of the Constitution, treaties or statutes of the United States; provided that, in the case of any statute of this State that exempts income derived

from bonds or other obligations from the tax imposed under this Act, the amount exempted shall be the interest net of bond premium amortization;

(H) Any income of the partnership which constitutes personal service income as defined in Section 1348(b)(1) of the Internal Revenue Code (as in effect December 31, 1981) or a reasonable allowance for compensation paid or accrued for services rendered by partners to the partnership, whichever is greater; this subparagraph (H) is exempt from the provisions of Section 250;

(I) An amount equal to all amounts of income distributable to an entity subject to the Personal Property Tax Replacement Income Tax imposed by subsections (c) and (d) of Section 201 of this Act including amounts distributable to organizations exempt from federal income tax by reason of Section 501(a) of the Internal Revenue Code; this subparagraph (I) is exempt from the provisions of Section 250;

(J) With the exception of any amounts subtracted under subparagraph (G), an amount equal to the sum of all amounts disallowed as deductions by (i) Sections 171(a)(2), and 265(a)(2) of the Internal Revenue Code, and all amounts of expenses allocable to interest and disallowed as deductions by Section 265(a)(1) of the Internal Revenue Code; and (ii) for taxable years ending on or after August 13, 1999, Sections 171(a)(2), 265, 280C, and 832(b)(5)(B)(i) of the Internal Revenue Code, plus, (iii) for taxable years ending on or after December 31, 2011, Section 45G(e)(3) of the Internal Revenue Code and, for taxable years ending on or after December 31, 2008, any amount included in gross income under Section 87 of the Internal Revenue Code; the provisions of this subparagraph are exempt from the provisions of Section 250;

(2) for taxable years ending on or before December 31, 2005, "x" equals "y" multiplied by 30 and then divided by 70 (or "y" multiplied by 0.429); and

(3) for taxable years ending after December 31, 2005:

(i) for property on which a bonus depreciation deduction of 30% of the adjusted basis was taken, "x" equals "y" multiplied by 30 and then divided by 70 (or "y" multiplied by 0.429); ~~and~~

(ii) for property on which a bonus depreciation deduction of 50% of the adjusted basis was taken, "x" equals "y" multiplied by 1.0; -

(e) Gross income; adjusted gross income; taxable income.

(1) In general. Subject to the provisions of paragraph (2) and subsection (b)(3), for purposes of this Section and Section 803(e), a taxpayer's gross income, adjusted gross income, or taxable income for the taxable year shall mean the amount of gross income, adjusted gross income or taxable income properly reportable for federal income tax purposes for the taxable year under the provisions of the Internal Revenue Code. Taxable income may be less than zero. However, for taxable years ending on or after December 31, 1986, net operating loss carryforwards from taxable years ending prior to December 31, 1986, may not exceed the sum of federal taxable income for the taxable year before net operating loss deduction, plus the excess of addition modifications over subtraction modifications for the taxable year. For taxable years ending prior to December 31, 1986, taxable income may never be an amount in excess of the net operating loss for the taxable year as defined in subsections (c) and (d) of Section 172 of the Internal Revenue Code, provided that when taxable income of a corporation (other than a Subchapter S corporation), trust, or estate is less than zero and addition modifications, other than those provided by subparagraph (E) of paragraph (2) of subsection (b) for corporations or subparagraph (E) of paragraph (2) of subsection (c) for trusts and estates, exceed subtraction modifications, an addition modification must be made under those subparagraphs for any other taxable year to which the taxable income less than zero (net operating loss) is applied under Section 172 of the Internal Revenue Code or under subparagraph (E) of paragraph (2) of this subsection (e) applied in conjunction with Section 172 of the Internal Revenue Code.

(2) Special rule. For purposes of paragraph (1) of this subsection, the taxable income properly reportable for federal income tax purposes shall mean:

(A) Certain life insurance companies. In the case of a life insurance company subject to the tax imposed by Section 801 of the Internal Revenue Code, life insurance company taxable income, plus the amount of distribution from pre-1984 policyholder surplus accounts as calculated under Section 815a of the Internal Revenue Code;

(B) Certain other insurance companies. In the case of mutual insurance companies subject to the tax imposed by Section 831 of the Internal Revenue Code, insurance company taxable income;

(C) Regulated investment companies. In the case of a regulated investment company subject to the tax imposed by Section 852 of the Internal Revenue Code, investment company taxable income;

(D) Real estate investment trusts. In the case of a real estate investment trust subject to the tax imposed by Section 857 of the Internal Revenue Code, real estate investment trust taxable income;

(E) Consolidated corporations. In the case of a corporation which is a member of an affiliated group of corporations filing a consolidated income tax return for the taxable year for federal income tax purposes, taxable income determined as if such corporation had filed a separate return for federal income tax purposes for the taxable year and each preceding taxable year for which it was a member of an affiliated group. For purposes of this subparagraph, the taxpayer's separate taxable income shall be determined as if the election provided by Section 243(b)(2) of the Internal Revenue Code had been in effect for all such years;

(F) Cooperatives. In the case of a cooperative corporation or association, the taxable income of such organization determined in accordance with the provisions of Section 1381 through 1388 of the Internal Revenue Code, but without regard to the prohibition against offsetting losses from patronage activities against income from nonpatronage activities; except that a cooperative corporation or association may make an election to follow its federal income

tax treatment of patronage losses and nonpatronage losses. In the event such election is made, such losses shall be computed and carried over in a manner consistent with subsection (a) of Section 207 of this Act and apportioned by the apportionment factor reported by the cooperative on its Illinois income tax return filed for the taxable year in which the losses are incurred. The election shall be effective for all taxable years with original returns due on or after the date of the election. In addition, the cooperative may file an amended return or returns, as allowed under this Act, to provide that the election shall be effective for losses incurred or carried forward for taxable years occurring prior to the date of the election. Once made, the election may only be revoked upon approval of the Director. The Department shall adopt rules setting forth requirements for documenting the elections and any resulting Illinois net loss and the standards to be used by the Director in evaluating requests to revoke elections. Public Act 96-932 is declaratory of existing law;

(G) Subchapter S corporations. In the case of: (i) a Subchapter S corporation for which there is in effect an election for the taxable year under Section 1362 of the Internal Revenue Code, the taxable income of such corporation determined in accordance with Section 1363(b) of the Internal Revenue Code, except that taxable income shall take into account those items which are required by Section 1363(b)(1) of the Internal Revenue Code to be separately stated; and (ii) a Subchapter S corporation for which there is in effect a federal election to opt out of the provisions of the Subchapter S Revision Act of 1982 and have applied instead the prior federal Subchapter S rules as in effect on July 1, 1982, the taxable income of such corporation determined in accordance with the federal Subchapter S rules as in effect on July 1, 1982; and

(H) Partnerships. In the case of a partnership, taxable income determined in accordance with Section 703 of the Internal Revenue Code, except that taxable income shall take into account those items which are required by Section 703(a)(1) to be separately stated but which would be taken into account by an individual in calculating his taxable income.

(3) Recapture of business expenses on disposition of asset or business. Notwithstanding any other law to the contrary, if in prior years income from an asset or business has been classified as business income and in a later year is demonstrated to be non-business income, then all expenses, without limitation, deducted in such later year and in the 2 immediately preceding taxable years related to that asset or business that generated the non-business income shall be added back and recaptured as business income in the year of the disposition of the asset or business. Such amount shall be apportioned to Illinois using the greater of the apportionment fraction computed for the business under Section 304 of this Act for the taxable year or the average of the apportionment fractions computed for the business under Section 304 of this Act for the taxable year and for the 2 immediately preceding taxable years.

(f) Valuation limitation amount.

(1) In general. The valuation limitation amount referred to in subsections (a)(2)(G), (c)(2)(I) and (d)(2)(E) is an amount equal to:

(A) The sum of the pre-August 1, 1969 appreciation amounts (to the extent consisting of gain reportable under the provisions of Section 1245 or 1250 of the Internal Revenue Code) for all property in respect of which such gain was reported for the taxable year; plus

(B) The lesser of (i) the sum of the pre-August 1, 1969 appreciation amounts (to the extent consisting of capital gain) for all property in respect of which such gain was reported for federal income tax purposes for the taxable year, or (ii) the net capital gain for the taxable year, reduced in either case by any amount of such gain included in the amount determined under subsection (a)(2)(F) or (c)(2)(H).

(2) Pre-August 1, 1969 appreciation amount.

(A) If the fair market value of property referred to in paragraph (1) was readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is the lesser of (i) the excess of such fair market value over the taxpayer's basis (for determining gain) for such property on that date (determined under the Internal Revenue Code as in effect on that date), or (ii) the total gain realized and reportable for federal income tax purposes in respect of the sale, exchange or other disposition of such property.

(B) If the fair market value of property referred to in paragraph (1) was not readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property

is that amount which bears the same ratio to the total gain reported in respect of the property for federal income tax purposes for the taxable year, as the number of full calendar months in that part of the taxpayer's holding period for the property ending July 31, 1969 bears to the number of full calendar months in the taxpayer's entire holding period for the property.

(C) The Department shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph.

(g) Double deductions. Unless specifically provided otherwise, nothing in this Section shall permit the same item to be deducted more than once.

(h) Legislative intention. Except as expressly provided by this Section there shall be no modifications or limitations on the amounts of income, gain, loss or deduction taken into account in determining gross income, adjusted gross income or taxable income for federal income tax purposes for the taxable year, or in the amount of such items entering into the computation of base income and net income under this Act for such taxable year, whether in respect of property values as of August 1, 1969 or otherwise.

Sec. 207. Net Losses.

(a) If after applying all of the (i) modifications provided for in paragraph (2) of Section 203(b), paragraph (2) of Section 203(c) and paragraph (2) of Section 203(d) and (ii) the allocation and apportionment provisions of Article 3 of this Act and subsection (c) of this Section, the taxpayer's net income results in a loss;

(1) for any taxable year ending prior to December 31, 1999, such loss shall be allowed as a carryover or carryback deduction in the manner allowed under Section 172 of the Internal Revenue Code;

(2) for any taxable year ending on or after December 31, 1999 and prior to December 31, 2003, such loss shall be allowed as a carryback to each of the 2 taxable years preceding the taxable year of such loss and shall be a net operating loss carryover to each of the 20 taxable years following the taxable year of such loss; and

(3) for any taxable year ending on or after December 31, 2003, such loss shall be allowed as a net operating loss carryover to each of the 12 taxable years following the taxable year of such loss, except as provided in subsection (d).

(a-5) Election to relinquish carryback and order of application of losses.

(A) For losses incurred in tax years ending prior to December 31, 2003, the taxpayer may elect to relinquish the entire carryback period with respect to such loss. Such election shall be made in the form and manner prescribed by the Department and shall be made by the due date (including extensions of time) for filing the taxpayer's return for the taxable year in which such loss is incurred, and such election, once made, shall be irrevocable.

(B) The entire amount of such loss shall be carried to the earliest taxable year to which such loss may be carried. The amount of such loss which shall be carried to each of the other taxable years shall be the excess, if any, of the amount of such loss over the sum of the deductions for carryback or carryover of such loss allowable for each of the prior taxable years to which such loss may be carried.

(b) Any loss determined under subsection (a) of this Section must be carried back or carried forward in the same manner for purposes of subsections (a) and (b) of Section 201 of this Act as for purposes of subsections (c) and (d) of Section 201 of this Act.

(c) Notwithstanding any other provision of this Act, for each taxable year ending on or after December 31, 2008, for purposes of computing the loss for the taxable year under subsection (a) of this Section and the deduction taken into account for the taxable year for a net operating loss carryover under paragraphs (1), (2), and (3) of subsection (a) of this Section, the loss and net operating loss carryover shall be reduced in an amount equal to the reduction to the net operating loss and net operating loss carryover to the taxable year, respectively, required under Section 108(b)(2)(A) of the Internal Revenue Code, multiplied by a fraction, the numerator of which is the amount of discharge of indebtedness income that is excluded from gross income for the taxable year (but only if the taxable year ends on or after December 31, 2008) under Section 108(a) of the Internal Revenue Code and that would have been allocated and apportioned to

this State under Article 3 of this Act but for that exclusion, and the denominator of which is the total amount of discharge of indebtedness income excluded from gross income under Section 108(a) of the Internal Revenue Code for the taxable year. The reduction required under this subsection (c) shall be made after the determination of Illinois net income for the taxable year in which the indebtedness is discharged.

(d) In the case of a corporation (other than a Subchapter S corporation), no carryover deduction shall be allowed under this Section for any taxable year ending after December 31, 2010 and prior to December 31, 2012, and no carryover deduction shall exceed \$100,000 for any taxable year ending on or after December 31, 2012 and prior to December 31, 2014 and for any taxable year ending on or after December 31, 2021 and prior to December 31, 2024; provided that, for purposes of determining the taxable years to which a net loss may be carried under subsection (a) of this Section, no taxable year for which a deduction is disallowed under this subsection, or for which the deduction would exceed \$100,000 if not for this subsection, shall be counted.

(e) In the case of a residual interest holder in a real estate mortgage investment conduit subject to Section 860E of the Internal Revenue Code, the net loss in subsection (a) shall be equal to:

(1) the amount computed under subsection (a), without regard to this subsection (e), or if that amount is positive, zero;

(2) minus an amount equal to the amount computed under subsection (a), without regard to this subsection (e), minus the amount that would be computed under subsection (a) if the taxpayer's federal taxable income were computed without regard to Section 860E of the Internal Revenue Code and without regard to this subsection (e).

The modification in this subsection (e) is exempt from the provisions of Section 250.

Sec. 214. Tax credit for affordable housing donations.

(a) Beginning with taxable years ending on or after December 31, 2001 and until the taxable year ending on ~~December 31, 2026~~ ~~December 31, 2021~~, a taxpayer who makes a donation under Section 7.28 of the Illinois Housing Development Act is entitled to a credit against the tax imposed by subsections (a) and (b) of Section 201 in an amount equal to 50% of the value of the donation. Partners, shareholders of subchapter S corporations, and owners of limited liability companies (if the limited liability company is treated as a partnership for purposes of federal and State income taxation) are entitled to a credit under this Section to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 703 and subchapter S of the Internal Revenue Code. Persons or entities not subject to the tax imposed by subsections (a) and (b) of Section 201 and who make a donation under Section 7.28 of the Illinois Housing Development Act are entitled to a credit as described in this subsection and may transfer that credit as described in subsection (c).

(b) If the amount of the credit exceeds the tax liability for the year, the excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The tax credit shall be applied to the earliest year for which there is a tax liability. If there are credits for more than one year that are available to offset a liability, the earlier credit shall be applied first.

(c) The transfer of the tax credit allowed under this Section may be made (i) to the purchaser of land that has been designated solely for affordable housing projects in accordance with the Illinois Housing Development Act or (ii) to another donor who has also made a donation in accordance with Section 7.28 of the Illinois Housing Development Act.

(d) A taxpayer claiming the credit provided by this Section must maintain and record any information that the Department may require by regulation regarding the project for which the credit is claimed. When claiming the credit provided by this Section, the taxpayer must provide information regarding the taxpayer's donation to the project under the Illinois Housing Development Act.

Sec. 220. Angel investment credit.

(a) As used in this Section:

"Applicant" means a corporation, partnership, limited liability company, or a natural person that makes an investment in a qualified new business venture. The term "applicant" does not include (i) a corporation, partnership, limited liability company, or a natural person who has a direct or indirect ownership interest of at least 51% in the profits, capital, or value of the qualified new business venture receiving the investment or (ii) a related member.

"Claimant" means an applicant certified by the Department who files a claim for a credit under this Section.

"Department" means the Department of Commerce and Economic Opportunity.

"Investment" means money (or its equivalent) given to a qualified new business venture, at a risk of loss, in consideration for an equity interest of the qualified new business venture. The Department may adopt rules to permit certain forms of contingent equity investments to be considered eligible for a tax credit under this Section.

"Qualified new business venture" means a business that is registered with the Department under this Section.

"Related member" means a person that, with respect to the applicant, is any one of the following:

(1) An individual, if the individual and the members of the individual's family (as defined in Section 318 of the Internal Revenue Code) own directly, indirectly, beneficially, or constructively, in the aggregate, at least 50% of the value of the outstanding profits, capital, stock, or other ownership interest in the qualified new business venture that is the recipient of the applicant's investment.

(2) A partnership, estate, or trust and any partner or beneficiary, if the partnership, estate, or trust and its partners or beneficiaries own directly, indirectly, beneficially, or constructively, in the aggregate, at least 50% of the profits, capital, stock, or other ownership interest in the qualified new business venture that is the recipient of the applicant's investment.

(3) A corporation, and any party related to the corporation in a manner that would require an attribution of stock from the corporation under the attribution rules of Section 318 of the Internal Revenue Code, if the applicant and any other related member own, in the aggregate, directly, indirectly, beneficially, or constructively, at least 50% of the value of the outstanding stock of the qualified new business venture that is the recipient of the applicant's investment.

(4) A corporation and any party related to that corporation in a manner that would require an attribution of stock from the corporation to the party or from the party to the corporation under the attribution rules of Section 318 of the Internal Revenue Code, if the corporation and all such related parties own, in the aggregate, at least 50% of the profits, capital, stock, or other ownership interest in the qualified new business venture that is the recipient of the applicant's investment.

(5) A person to or from whom there is attribution of ownership of stock in the qualified new business venture that is the recipient of the applicant's investment in accordance with Section 1563(e) of the Internal Revenue Code, except that for purposes of determining whether a person is a related member under this paragraph, "20%" shall be substituted for "5%" whenever "5%" appears in Section 1563(e) of the Internal Revenue Code.

(b) For taxable years beginning after December 31, 2010, and ending on or before ~~December 31, 2021~~ December 31, 2026, subject to the limitations provided in this Section, a claimant may claim, as a credit against the tax imposed under subsections (a) and (b) of Section 201 of this Act, an amount equal to 25% of the claimant's investment made directly in a qualified new business venture. In order for an investment in a qualified new business venture to be eligible for tax credits, the business must have applied for and received certification under subsection (e) for the taxable year in which the investment was made prior to the date on which the investment was made. The credit under this Section may not exceed the taxpayer's Illinois income tax liability for the taxable year. If the amount of the credit exceeds the tax liability for the year, the excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, the earlier credit shall be applied first. In the case of a partnership or Subchapter S Corporation, the credit is allowed to the partners or shareholders in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code.

(c) The minimum amount an applicant must invest in any single qualified new business venture in order to be eligible for a credit under this Section is \$10,000. The maximum amount of an applicant's total investment made in any single qualified new business venture that may be used as the basis for a credit under this Section is \$2,000,000.

(d) The Department shall implement a program to certify an applicant for an angel investment credit. Upon satisfactory review, the Department shall issue a tax credit certificate stating the amount of the tax credit to which the applicant is entitled. The Department shall annually certify that: (i) each qualified new business venture that receives an angel investment under this Section has maintained a minimum employment threshold, as defined by rule, in the State (and continues to maintain a minimum employment

threshold in the State for a period of no less than 3 years from the issue date of the last tax credit certificate issued by the Department with respect to such business pursuant to this Section); and (ii) the claimant's investment has been made and remains, except in the event of a qualifying liquidity event, in the qualified new business venture for no less than 3 years.

If an investment for which a claimant is allowed a credit under subsection (b) is held by the claimant for less than 3 years, other than as a result of a permitted sale of the investment to person who is not a related member, the claimant shall pay to the Department of Revenue, in the manner prescribed by the Department of Revenue, the aggregate amount of the disqualified credits that the claimant received related to the subject investment.

If the Department determines that a qualified new business venture failed to maintain a minimum employment threshold in the State through the date which is 3 years from the issue date of the last tax credit certificate issued by the Department with respect to the subject business pursuant to this Section, the claimant or claimants shall pay to the Department of Revenue, in the manner prescribed by the Department of Revenue, the aggregate amount of the disqualified credits that claimant or claimants received related to investments in that business.

(e) The Department shall implement a program to register qualified new business ventures for purposes of this Section. A business desiring registration under this Section shall be required to submit a full and complete application to the Department. A submitted application shall be effective only for the taxable year in which it is submitted, and a business desiring registration under this Section shall be required to submit a separate application in and for each taxable year for which the business desires registration. Further, if at any time prior to the acceptance of an application for registration under this Section by the Department one or more events occurs which makes the information provided in that application materially false or incomplete (in whole or in part), the business shall promptly notify the Department of the same. Any failure of a business to promptly provide the foregoing information to the Department may, at the discretion of the Department, result in a revocation of a previously approved application for that business, or disqualification of the business from future registration under this Section, or both. The Department may register the business only if all of the following conditions are satisfied:

- (1) it has its principal place of business in this State;
- (2) at least 51% of the employees employed by the business are employed in this State;
- (3) the business has the potential for increasing jobs in this State, increasing capital investment

in this State, or both, as determined by the Department, and either of the following apply:

(A) it is principally engaged in innovation in any of the following: manufacturing; biotechnology; nanotechnology; communications; agricultural sciences; clean energy creation or storage technology; processing or assembling products, including medical devices, pharmaceuticals, computer software, computer hardware, semiconductors, other innovative technology products, or other products that are produced using manufacturing methods that are enabled by applying proprietary technology; or providing services that are enabled by applying proprietary technology; or

(B) it is undertaking pre-commercialization activity related to proprietary technology that includes conducting research, developing a new product or business process, or developing a service that is principally reliant on applying proprietary technology;

(4) it is not principally engaged in real estate development, insurance, banking, lending, lobbying, political consulting, professional services provided by attorneys, accountants, business consultants, physicians, or health care consultants, wholesale or retail trade, leisure, hospitality, transportation, or construction, except construction of power production plants that derive energy from a renewable energy resource, as defined in Section 1 of the Illinois Power Agency Act;

(5) at the time it is first certified:

(A) it has fewer than 100 employees;

(B) it has been in operation in Illinois for not more than 10 consecutive years prior to the year of certification; and

(C) it has received not more than \$10,000,000 in aggregate investments;

(5.1) it agrees to maintain a minimum employment threshold in the State of Illinois prior to the date which is 3 years from the issue date of the last tax credit certificate issued by the Department with respect to that business pursuant to this Section;

(6) (blank); and

(7) it has received not more than \$4,000,000 in investments that qualified for tax credits under this Section.

(f) The Department, in consultation with the Department of Revenue, shall adopt rules to administer this Section. The aggregate amount of the tax credits that may be claimed under this Section for investments made in qualified new business ventures shall be limited at \$10,000,000 per calendar year, of which \$500,000 shall be reserved for investments made in qualified new business ventures which are minority-owned businesses, women-owned businesses, or businesses owned by a person with a disability (as those terms are used and defined in the Business Enterprise for Minorities, Women, and Persons with Disabilities Act), and an additional \$500,000 shall be reserved for investments made in qualified new business ventures with their principal place of business in counties with a population of not more than 250,000. The foregoing annual allowable amounts shall be allocated by the Department, on a per calendar quarter basis and prior to the commencement of each calendar year, in such proportion as determined by the Department, provided that: (i) the amount initially allocated by the Department for any one calendar quarter shall not exceed 35% of the total allowable amount; (ii) any portion of the allocated allowable amount remaining unused as of the end of any of the first 3 calendar quarters of a given calendar year shall be rolled into, and added to, the total allocated amount for the next available calendar quarter; and (iii) the reservation of tax credits for investments in minority-owned businesses, women-owned businesses, businesses owned by a person with a disability, and in businesses in counties with a population of not more than 250,000 is limited to the first 3 calendar quarters of a given calendar year, after which they may be claimed by investors in any qualified new business venture.

(g) A claimant may not sell or otherwise transfer a credit awarded under this Section to another person.

(h) On or before March 1 of each year, the Department shall report to the Governor and to the General Assembly on the tax credit certificates awarded under this Section for the prior calendar year.

(1) This report must include, for each tax credit certificate awarded:

(A) the name of the claimant and the amount of credit awarded or allocated to that claimant;

(B) the name and address (including the county) of the qualified new business venture that received the investment giving rise to the credit, the North American Industry Classification System (NAICS) code applicable to that qualified new business venture, and the number of employees of the qualified new business venture; and

(C) the date of approval by the Department of each claimant's tax credit certificate.

(2) The report must also include:

(A) the total number of applicants and the total number of claimants, including the amount of each tax credit certificate awarded to a claimant under this Section in the prior calendar year;

(B) the total number of applications from businesses seeking registration under this Section, the total number of new qualified business ventures registered by the Department, and the aggregate amount of investment upon which tax credit certificates were issued in the prior calendar year; and

(C) the total amount of tax credit certificates sought by applicants, the amount of each tax credit certificate issued to a claimant, the aggregate amount of all tax credit certificates issued in the prior calendar year and the aggregate amount of tax credit certificates issued as authorized under this Section for all calendar years.

(i) For each business seeking registration under this Section after December 31, 2016, the Department shall require the business to include in its application the North American Industry Classification System (NAICS) code applicable to the business and the number of employees of the business at the time of application. Each business registered by the Department as a qualified new business venture that receives an investment giving rise to the issuance of a tax credit certificate pursuant to this Section shall, for each of the 3 years following the issue date of the last tax credit certificate issued by the Department with respect to such business pursuant to this Section, report to the Department the following:

(1) the number of employees and the location at which those employees are employed, both as of the end of each year;

(2) the amount of additional new capital investment raised as of the end of each year, if any; and

(3) the terms of any liquidity event occurring during such year; for the purposes of this Section, a "liquidity event" means any event that would be considered an exit for an illiquid investment, including any event that allows the equity holders of the business (or any material portion thereof) to cash out some or all of their respective equity interests.

Sec. 221. Rehabilitation costs; qualified historic properties; River Edge Redevelopment Zone.

(a) For taxable years that begin on or after January 1, 2012 and begin prior to January 1, 2018, there shall be allowed a tax credit against the tax imposed by subsections (a) and (b) of Section 201 of this Act in an amount equal to 25% of qualified expenditures incurred by a qualified taxpayer during the taxable year in the restoration and preservation of a qualified historic structure located in a River Edge Redevelopment Zone pursuant to a qualified rehabilitation plan, provided that the total amount of such expenditures (i) must equal \$5,000 or more and (ii) must exceed 50% of the purchase price of the property.

(a-1) For taxable years that begin on or after January 1, 2018 and end prior to ~~January 1, 2022~~ January 1, 2027, there shall be allowed a tax credit against the tax imposed by subsections (a) and (b) of Section 201 of this Act in an aggregate amount equal to 25% of qualified expenditures incurred by a qualified taxpayer in the restoration and preservation of a qualified historic structure located in a River Edge Redevelopment Zone pursuant to a qualified rehabilitation plan, provided that the total amount of such expenditures must (i) equal \$5,000 or more and (ii) exceed the adjusted basis of the qualified historic structure on the first day the qualified rehabilitation plan begins. For any rehabilitation project, regardless of duration or number of phases, the project's compliance with the foregoing provisions (i) and (ii) shall be determined based on the aggregate amount of qualified expenditures for the entire project and may include expenditures incurred under subsection (a), this subsection, or both subsection (a) and this subsection. If the qualified rehabilitation plan spans multiple years, the aggregate credit for the entire project shall be allowed in the last taxable year, except for phased rehabilitation projects, which may receive credits upon completion of each phase. Before obtaining the first phased credit: (A) the total amount of such expenditures must meet the requirements of provisions (i) and (ii) of this subsection; (B) the rehabilitated portion of the qualified historic structure must be placed in service; and (C) the requirements of subsection (b) must be met.

(a-2) For taxable years beginning on or after January 1, 2021 and ending prior to ~~January 1, 2022~~ January 1, 2027, there shall be allowed a tax credit against the tax imposed by subsections (a) and (b) of Section 201 as provided in Section 10-10.3 of the River Edge Redevelopment Zone Act. The credit allowed under this subsection (a-2) shall apply only to taxpayers that make a capital investment of at least \$1,000,000 in a qualified rehabilitation plan.

The credit or credits may not reduce the taxpayer's liability to less than zero. If the amount of the credit or credits exceeds the taxpayer's liability, the excess may be carried forward and applied against the taxpayer's liability in succeeding calendar years in the manner provided under paragraph (4) of Section 211 of this Act. The credit or credits shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one taxable year that are available to offset a liability, the earlier credit shall be applied first.

For partners, shareholders of Subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for the purposes of federal and State income taxation, there shall be allowed a credit under this Section to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code.

The total aggregate amount of credits awarded under the Blue Collar Jobs Act (Article 20 of this amendatory Act of the 101st General Assembly) shall not exceed \$20,000,000 in any State fiscal year.

(b) To obtain a tax credit pursuant to this Section, the taxpayer must apply with the Department of Natural Resources. The Department of Natural Resources shall determine the amount of eligible rehabilitation costs and expenses in addition to the amount of the River Edge construction jobs credit within 45 days of receipt of a complete application. The taxpayer must submit a certification of costs prepared by an independent certified public accountant that certifies (i) the project expenses, (ii) whether those expenses are qualified expenditures, and (iii) that the qualified expenditures exceed the adjusted basis of the qualified historic structure on the first day the qualified rehabilitation plan commenced. The Department of Natural Resources is authorized, but not required, to accept this certification of costs to determine the amount of qualified expenditures and the amount of the credit. The Department of Natural Resources shall provide guidance as to the minimum standards to be followed in the preparation of such certification. The

Department of Natural Resources and the National Park Service shall determine whether the rehabilitation is consistent with the United States Secretary of the Interior's Standards for Rehabilitation.

(b-1) Upon completion of the project and approval of the complete application, the Department of Natural Resources shall issue a single certificate in the amount of the eligible credits equal to 25% of qualified expenditures incurred during the eligible taxable years, as defined in subsections (a) and (a-1), excepting any credits awarded under subsection (a) prior to January 1, 2019 (the effective date of Public Act 100-629) and any phased credits issued prior to the eligible taxable year under subsection (a-1). At the time the certificate is issued, an issuance fee up to the maximum amount of 2% of the amount of the credits issued by the certificate may be collected from the applicant to administer the provisions of this Section. If collected, this issuance fee shall be deposited into the Historic Property Administrative Fund, a special fund created in the State treasury. Subject to appropriation, moneys in the Historic Property Administrative Fund shall be provided to the Department of Natural Resources as reimbursement for the costs associated with administering this Section.

(c) The taxpayer must attach the certificate to the tax return on which the credits are to be claimed. The tax credit under this Section may not reduce the taxpayer's liability to less than zero. If the amount of the credit exceeds the tax liability for the year, the excess credit may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year.

(c-1) Subject to appropriation, moneys in the Historic Property Administrative Fund shall be used, on a biennial basis beginning at the end of the second fiscal year after January 1, 2019 (the effective date of Public Act 100-629), to hire a qualified third party to prepare a biennial report to assess the overall economic impact to the State from the qualified rehabilitation projects under this Section completed in that year and in previous years. The overall economic impact shall include at least: (1) the direct and indirect or induced economic impacts of completed projects; (2) temporary, permanent, and construction jobs created; (3) sales, income, and property tax generation before, during construction, and after completion; and (4) indirect neighborhood impact after completion. The report shall be submitted to the Governor and the General Assembly. The report to the General Assembly shall be filed with the Clerk of the House of Representatives and the Secretary of the Senate in electronic form only, in the manner that the Clerk and the Secretary shall direct.

(c-2) The Department of Natural Resources may adopt rules to implement this Section in addition to the rules expressly authorized in this Section.

(35 ILCS 110/3-10) (from Ch. 120, par. 439.33-10)

Sec. 3-10. Rate of tax. Unless otherwise provided in this Section, the tax imposed by this Act is at the rate of 6.25% of the selling price of tangible personal property transferred as an incident to the sale of service, but, for the purpose of computing this tax, in no event shall the selling price be less than the cost price of the property to the serviceman.

Beginning on July 1, 2000 and through December 31, 2000, with respect to motor fuel, as defined in Section 1.1 of the Motor Fuel Tax Law, and gasohol, as defined in Section 3-40 of the Use Tax Act, the tax is imposed at the rate of 1.25%.

With respect to gasohol, as defined in the Use Tax Act, the tax imposed by this Act applies to (i) 70% of the selling price of property transferred as an incident to the sale of service on or after January 1, 1990, and before July 1, 2003, (ii) 80% of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before July 1, 2017, and (iii) 100% of the selling price thereafter. If, at any time, however, the tax under this Act on sales of gasohol, as defined in the Use Tax Act, is imposed at the rate of 1.25%, then the tax imposed by this Act applies to 100% of the proceeds of sales of gasohol made during that time.

With respect to majority blended ethanol fuel, as defined in the Use Tax Act, the tax imposed by this Act does not apply to the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2023 but applies to 100% of the selling price thereafter.

With respect to biodiesel blends, as defined in the Use Tax Act, with no less than 1% and no more than 10% biodiesel, the tax imposed by this Act applies to (i) 80% of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2018 and (ii) 100% of the proceeds of the selling price thereafter. If, at any time, however, the tax under this Act

on sales of biodiesel blends, as defined in the Use Tax Act, with no less than 1% and no more than 10% biodiesel is imposed at the rate of 1.25%, then the tax imposed by this Act applies to 100% of the proceeds of sales of biodiesel blends with no less than 1% and no more than 10% biodiesel made during that time.

With respect to 100% biodiesel, as defined in the Use Tax Act, and biodiesel blends, as defined in the Use Tax Act, with more than 10% but no more than 99% biodiesel, the tax imposed by this Act does not apply to the proceeds of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2023 but applies to 100% of the selling price thereafter.

At the election of any registered serviceman made for each fiscal year, sales of service in which the aggregate annual cost price of tangible personal property transferred as an incident to the sales of service is less than 35%, or 75% in the case of servicemen transferring prescription drugs or servicemen engaged in graphic arts production, of the aggregate annual total gross receipts from all sales of service, the tax imposed by this Act shall be based on the serviceman's cost price of the tangible personal property transferred as an incident to the sale of those services.

The tax shall be imposed at the rate of 1% on food prepared for immediate consumption and transferred incident to a sale of service subject to this Act or the Service Occupation Tax Act by an entity licensed under the Hospital Licensing Act, the Nursing Home Care Act, the Assisted Living and Shared Housing Act, the ID/DD Community Care Act, the MC/DD Act, the Specialized Mental Health Rehabilitation Act of 2013, or the Child Care Act of 1969, or an entity that holds a permit issued pursuant to the Life Care Facilities Act. The tax shall also be imposed at the rate of 1% on food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, food consisting of or infused with adult use cannabis, soft drinks, and food that has been prepared for immediate consumption and is not otherwise included in this paragraph) and prescription and nonprescription medicines, drugs, medical appliances, products classified as Class III medical devices by the United States Food and Drug Administration that are used for cancer treatment pursuant to a prescription, as well as any accessories and components related to those devices, modifications to a motor vehicle for the purpose of rendering it usable by a person with a disability, and insulin, blood sugar testing materials, syringes, and needles used by human diabetics. For the purposes of this Section, until September 1, 2009: the term "soft drinks" means any complete, finished, ready-to-use, non-alcoholic drink, whether carbonated or not, including but not limited to soda water, cola, fruit juice, vegetable juice, carbonated water, and all other preparations commonly known as soft drinks of whatever kind or description that are contained in any closed or sealed bottle, can, carton, or container, regardless of size; but "soft drinks" does not include coffee, tea, non-carbonated water, infant formula, milk or milk products as defined in the Grade A Pasteurized Milk and Milk Products Act, or drinks containing 50% or more natural fruit or vegetable juice.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "soft drinks" means non-alcoholic beverages that contain natural or artificial sweeteners. "Soft drinks" do not include beverages that contain milk or milk products, soy, rice or similar milk substitutes, or greater than 50% of vegetable or fruit juice by volume.

Until August 1, 2009, and notwithstanding any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine. Beginning August 1, 2009, and notwithstanding any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks, candy, and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "food for human consumption that is to be consumed off the premises where it is sold" does not include candy. For purposes of this Section, "candy" means a preparation of sugar, honey, or other natural or artificial sweeteners in combination with chocolate, fruits, nuts or other ingredients or flavorings in the form of bars, drops, or pieces. "Candy" does not include any preparation that contains flour or requires refrigeration.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "nonprescription medicines and drugs" does not include grooming and hygiene products. For purposes of this Section, "grooming and hygiene products" includes, but is not limited to, soaps and cleaning solutions, shampoo, toothpaste, mouthwash, antiperspirants, and sun tan lotions and screens, unless those products are available by prescription only, regardless of whether the products meet the definition of "over-the-counter-drugs". For the purposes of this paragraph, "over-the-counter-drug" means a drug for human use that contains a label

that identifies the product as a drug as required by 21 C.F.R. § 201.66. The "over-the-counter-drug" label includes:

(A) A "Drug Facts" panel; or

(B) A statement of the "active ingredient(s)" with a list of those ingredients contained in the compound, substance or preparation.

Beginning on January 1, 2014 (the effective date of Public Act 98-122), "prescription and nonprescription medicines and drugs" includes medical cannabis purchased from a registered dispensing organization under the Compassionate Use of Medical Cannabis Program Act.

As used in this Section, "adult use cannabis" means cannabis subject to tax under the Cannabis Cultivation Privilege Tax Law and the Cannabis Purchaser Excise Tax Law and does not include cannabis subject to tax under the Compassionate Use of Medical Cannabis Program Act.

If the property that is acquired from a serviceman is acquired outside Illinois and used outside Illinois before being brought to Illinois for use here and is taxable under this Act, the "selling price" on which the tax is computed shall be reduced by an amount that represents a reasonable allowance for depreciation for the period of prior out-of-state use.

Sec. 3-10. Rate of tax. Unless otherwise provided in this Section, the tax imposed by this Act is at the rate of 6.25% of the "selling price", as defined in Section 2 of the Service Use Tax Act, of the tangible personal property. For the purpose of computing this tax, in no event shall the "selling price" be less than the cost price to the serviceman of the tangible personal property transferred. The selling price of each item of tangible personal property transferred as an incident of a sale of service may be shown as a distinct and separate item on the serviceman's billing to the service customer. If the selling price is not so shown, the selling price of the tangible personal property is deemed to be 50% of the serviceman's entire billing to the service customer. When, however, a serviceman contracts to design, develop, and produce special order machinery or equipment, the tax imposed by this Act shall be based on the serviceman's cost price of the tangible personal property transferred incident to the completion of the contract.

Beginning on July 1, 2000 and through December 31, 2000, with respect to motor fuel, as defined in Section 1.1 of the Motor Fuel Tax Law, and gasohol, as defined in Section 3-40 of the Use Tax Act, the tax is imposed at the rate of 1.25%.

With respect to gasohol, as defined in the Use Tax Act, the tax imposed by this Act shall apply to (i) 70% of the cost price of property transferred as an incident to the sale of service on or after January 1, 1990, and before July 1, 2003, (ii) 80% of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before July 1, 2017, and (iii) 100% of the cost price thereafter. If, at any time, however, the tax under this Act on sales of gasohol, as defined in the Use Tax Act, is imposed at the rate of 1.25%, then the tax imposed by this Act applies to 100% of the proceeds of sales of gasohol made during that time.

With respect to majority blended ethanol fuel, as defined in the Use Tax Act, the tax imposed by this Act does not apply to the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2023 but applies to 100% of the selling price thereafter.

With respect to biodiesel blends, as defined in the Use Tax Act, with no less than 1% and no more than 10% biodiesel, the tax imposed by this Act applies to (i) 80% of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2018

and (ii) 100% of the proceeds of the selling price thereafter. If, at any time, however, the tax under this Act on sales of biodiesel blends, as defined in the Use Tax Act, with no less than 1% and no more than 10% biodiesel is imposed at the rate of 1.25%, then the tax imposed by this Act applies to 100% of the proceeds of sales of biodiesel blends with no less than 1% and no more than 10% biodiesel made during that time.

With respect to 100% biodiesel, as defined in the Use Tax Act, and biodiesel blends, as defined in the Use Tax Act, with more than 10% but no more than 99% biodiesel material, the tax imposed by this Act does not apply to the proceeds of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2023 but applies to 100% of the selling price thereafter.

At the election of any registered serviceman made for each fiscal year, sales of service in which the aggregate annual cost price of tangible personal property transferred as an incident to the sales of service is less than 35%, or 75% in the case of servicemen transferring prescription drugs or servicemen engaged in graphic arts production, of the aggregate annual total gross receipts from all sales of service, the tax imposed by this Act shall be based on the serviceman's cost price of the tangible personal property transferred incident to the sale of those services.

The tax shall be imposed at the rate of 1% on food prepared for immediate consumption and transferred incident to a sale of service subject to this Act or the Service Occupation Tax Act by an entity licensed under the Hospital Licensing Act, the Nursing Home Care Act, the Assisted Living and Shared Housing Act, the ID/DD Community Care Act, the MC/DD Act, the Specialized Mental Health Rehabilitation Act of 2013, or the Child Care Act of 1969, or an entity that holds a permit issued pursuant to the Life Care Facilities Act. The tax shall also be imposed at the rate of 1% on food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, food consisting of or infused with adult use cannabis, soft drinks, and food that has been prepared for immediate consumption and is not otherwise included in this paragraph) and prescription and nonprescription medicines, drugs, medical appliances, products classified as Class III medical devices by the United States Food and Drug Administration that are used for cancer treatment pursuant to a prescription, as well as any accessories and components related to those devices, modifications to a motor vehicle for the purpose of rendering it usable by a person with a disability, and insulin, blood sugar testing materials, syringes, and needles used by human diabetics. For the purposes of this Section, until September 1, 2009: the term "soft drinks" means any complete, finished, ready-to-use, non-alcoholic drink, whether carbonated or not, including but not limited to soda water, cola, fruit juice, vegetable juice, carbonated water, and all other preparations commonly known as soft drinks of whatever kind or description that are contained in any closed or sealed can, carton, or container, regardless of size; but "soft drinks" does not include coffee, tea, non-carbonated water, infant formula, milk or milk products as defined in the Grade A Pasteurized Milk and Milk Products Act, or drinks containing 50% or more natural fruit or vegetable juice.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "soft drinks" means non-alcoholic beverages that contain natural or artificial sweeteners. "Soft drinks" do not include beverages that contain milk or milk products, soy, rice or similar milk substitutes, or greater than 50% of vegetable or fruit juice by volume.

Until August 1, 2009, and notwithstanding any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine. Beginning August 1, 2009, and notwithstanding any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks, candy, and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "food for human consumption that is to be consumed off the premises where it is sold" does not include candy. For purposes of this Section, "candy" means a preparation of sugar, honey, or other natural or artificial sweeteners in combination with chocolate, fruits, nuts or other ingredients or flavorings in the form of bars, drops, or pieces. "Candy" does not include any preparation that contains flour or requires refrigeration.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "nonprescription medicines and drugs" does not include grooming and hygiene products. For purposes of this Section, "grooming and hygiene products" includes, but is not limited to, soaps and cleaning solutions, shampoo, toothpaste, mouthwash, antiperspirants, and sun tan lotions and screens, unless those products are available by prescription only, regardless of whether the products meet the definition of "over-the-counter-drugs". For

the purposes of this paragraph, "over-the-counter-drug" means a drug for human use that contains a label that identifies the product as a drug as required by 21 C.F.R. § 201.66. The "over-the-counter-drug" label includes:

- (A) A "Drug Facts" panel; or
- (B) A statement of the "active ingredient(s)" with a list of those ingredients contained in the compound, substance or preparation.

Beginning on January 1, 2014 (the effective date of Public Act 98-122), "prescription and nonprescription medicines and drugs" includes medical cannabis purchased from a registered dispensing organization under the Compassionate Use of Medical Cannabis Program Act.

As used in this Section, "adult use cannabis" means cannabis subject to tax under the Cannabis Cultivation Privilege Tax Law and the Cannabis Purchaser Excise Tax Law and does not include cannabis subject to tax under the Compassionate Use of Medical Cannabis Program Act.

## ARTICLE 35. REIMAGINE PUBLIC SAFETY

Section 35-1. Short title. This Act may be cited as the Reimagine Public Safety Act.

Section 35-5. Intent; purposes. This Act creates a comprehensive approach to ending Illinois' firearm violence epidemic. Furthermore, the Act reduces significant gaps in Illinois' mental health treatment system for youth, young adults, and families that live in areas with chronic exposure to firearm violence and exhibit mental health conditions associated with chronic and ongoing trauma.

Section 35-10. Definitions. As used in this Act:

"Approved technical assistance and training provider" means an organization that has experience in improving the outcomes of local community-based organizations by providing supportive services that address the gaps in their resources and knowledge about content-based work or provide support and knowledge about the administration and management of organizations, or both. Approved technical assistance and training providers as defined in this Act are intended to assist community organizations with evaluating the need for evidenced-based violence prevention services, promising violence prevention programs, starting up programming, and strengthening the quality of existing programming.

"Communities" means, for municipalities with a 1,000,000 or more population in Illinois, the 77 designated areas defined by the University of Chicago Social Science Research Committee as amended in 1980.

"Concentrated firearm violence" means the 17 most violent communities in Illinois municipalities greater than one million residents and the 10 most violent municipalities with less than 1,000,000 residents and greater than 25,000 residents with the most per capita firearm-shot incidents from January 1, 2016 through December 31, 2020.

"Criminal justice-involved" means an individual who has been arrested, indicted, convicted, adjudicated delinquent, or otherwise detained by criminal justice authorities for violation of Illinois criminal laws.

"Evidence-based high-risk youth intervention services" means programs that reduce involvement in the criminal justice system, increase school attendance, and refer high-risk teens into therapeutic programs that address trauma recovery and other mental health improvements based on best practices in the youth intervention services field.

"Evidenced-based violence prevention services" means coordinated programming and services that may include, but are not limited to, effective emotional or trauma related therapies, housing, employment training, job placement, family engagement, or wrap-around support services that are considered to be best practice for reducing violence within the field of violence intervention research and practice.

"Evidence-based youth development programs" means after-school and summer programming that provides services to teens to increase their school attendance, school performance, reduce involvement in the criminal justice system, and develop nonacademic interests that build social emotional persistence and intelligence based on best practices in the field of youth development services for high-risk youth.

"Options school" means a secondary school where 75% or more of attending students have either stopped attending or failed their secondary school courses since first attending ninth grade.

"Qualified violence prevention organization" means an organization that manages and employs qualified violence prevention professionals.

"Qualified violence prevention professional" means a community health worker who renders violence preventive services.

"Social organization" means an organization of individuals who form the organization for the purposes of enjoyment, work, and other mutual interests.

Section 35-15. Findings. The Illinois General Assembly finds that:

(1) Discrete neighborhoods in municipalities across Illinois are experiencing concentrated and perpetual firearm violence that is a public health epidemic.

(2) Within neighborhoods experiencing this firearm violence epidemic, violence is concentrated among teens and young adults that have chronic exposure to the risk of violence and criminal legal system involvement and related trauma in small geographic areas where these young people live or congregate.

(3) Firearm violence victimization and perpetration is highly concentrated in particular neighborhoods, particular blocks within these neighborhoods, and among a small number of individuals living in these areas.

(4) People who are chronically exposed to the risk of firearm violence victimization are substantially more likely to be violently injured or violently injure another person. People who have been violently injured are substantially more likely to be violently reinjured. Chronic exposure to violence additionally leads individuals to engage in behavior, as part of a cycle of community violence, trauma, and retaliation that substantially increases their own risk of violent injury or reinjury.

(5) Evidence-based programs that engage individuals at the highest risk of firearm violence and provide life stabilization, case management, and culturally competent group and individual therapy reduce firearm violence victimization and perpetration and can end Illinois' firearm violence epidemic.

(6) A public health approach to ending Illinois' firearm violence epidemic requires targeted, integrated behavioral health services and economic opportunity that promotes self-sufficiency for victims of firearm violence and those with chronic exposure to the risk of firearm violence victimization.

(7) A public health approach to ending Illinois' firearm violence epidemic further requires broader preventive investments in the census tracts and blocks that reduce risk factors for youth and families living with extreme risk of firearm violence victimization.

(8) A public health approach to ending Illinois' firearm violence epidemic requires empowering residents and community-based organizations within impacted neighborhoods to provide culturally competent care based on lived experience in these areas and long-term relationships of mutual interest that promote safety and stability.

(9) A public health approach to ending Illinois' firearm violence epidemic further requires that preventive youth development services for youth in these neighborhoods be fully integrated with a team-based model of mental health care to address trauma recovery for those young people at extreme risk of firearm violence victimization.

(10) Community revitalization can be an effective violence prevention strategy, provided that revitalization is targeted to the highest risk geographies within communities and revitalization efforts are designed and led by individuals living and working in the impacted communities.

#### Section 35-20. Office of Firearm Violence Prevention.

(a) On or before September 1, 2021, an Office of Firearm Violence Prevention is established within the Illinois Department of Human Services. These 10 municipalities and other municipalities identified by the Office of Firearm Violence Prevention shall qualify for grants under this Act and coordination of other State services from the Office of Firearm Violence Prevention. The Office of Firearm Violence Prevention shall consider factors listed in subsection (a) of Section 35-40 to determine additional municipalities that qualify for grants under this Act.

(e) The Office of Firearm Violence Prevention shall issue a report to the General Assembly no later than January 1 of each year that identifies communities within Illinois municipalities of 1,000,000 or more residents and municipalities with less than 1,000,000 residents and more than 25,000 residents that are experiencing concentrated firearm violence, explaining the investments that are being made to reduce concentrated firearm violence, and making further recommendations on how to end Illinois' firearm violence epidemic.

(a) The Office of Firearm Violence Prevention shall identify the 10 municipalities or geographically contiguous areas in Illinois with less than 1,000,000 residents and more than 25,000 residents that have the largest concentrated firearm violence in the last 5 years. These areas shall qualify for grants under this Act. The Office of Firearm Violence Prevention shall identify additional municipalities with more than 25,000 residents and less than 1,000,000 residents that would benefit from violence prevention services. In identifying the additional municipalities that qualify for funding under Section 35-40, the Office of Firearm Violence Prevention shall consider the following factors:

(1) the total number of firearms victims in a potential municipality in the last 5 years;

(2) the per capita rate of firearms victims in a potential municipality in the last 5 years; and

(3) the total potential firearms reduction benefit for the entire State of Illinois by serving the additional municipality compared to the total benefit of investing in all other municipalities identified for grants to municipalities with more than 25,000 residents and less than 1,000,000 residents.

(b) Resources for each of these areas shall be distributed based on maximizing the total potential reduction in firearms victimization for all municipalities receiving grants under this Act. The Office of Firearm Violence Prevention may establish a minimum grant amount for each municipality awarded grants under this Section to ensure grants will have the potential to reduce violence in each municipality. The Office of Firearm Violence Prevention shall maximize the potential for violence reduction throughout Illinois after determining the necessary minimum grant amounts to be effective in each municipality receiving grants under this Section.

(c) The Office of Firearm Violence Prevention shall create local advisory councils for each of the 10 areas designated for the purpose of obtaining recommendations on how to distribute funds in these areas to reduce firearm violence incidents. Local advisory councils shall consist of 5 members with the following expertise or experience:

(4) two residents of the subsection of each area with the most concentrated firearm violence incidents.

(d) The Office of Firearm Violence Prevention shall provide data to each local council on the characteristics of firearm violence in the designated area and other relevant information on the physical and demographic characteristics of the designated area. The Office of Firearm Violence Prevention shall also provide best available evidence on how to address the social determinants of health in the designated area in order to reduce firearm violence.

(e) Each local advisory council shall make recommendations on how to allocate distributed resources for its area based on information provided to them by the Office of Firearm Violence Prevention.

(f) The Office of Firearm Violence Prevention shall consider the recommendations and determine how to distribute funds through grants to community-based organizations and local governments. To the extent the Office of Firearm Violence Prevention does not follow a local advisory council's recommendation on allocation of funds, the Office of Firearm Violence Prevention shall explain in writing why a different allocation of resources is more likely to reduce firearm violence in the designated area.

(g) Subject to appropriation, the Office of Firearm Violence Prevention shall issue grants to local governmental agencies and community-based organizations to maximize firearm violence reduction each year. Grants shall be named no later than March 1, 2022. Grants in preceding years shall be issued on or before July 15 of the relevant fiscal year.

Section 35-50. Medicaid trauma recovery services for adults.

(a) On or before January 15, 2022, the Department of Healthcare and Family Services shall design, seek approval from the United States Department of Health and Human Services, and subject to federal approval and State appropriations for this purpose, implement a team-based model of care system to address trauma recovery from chronic exposure to firearm violence for Illinois adults.

(b) The team-based model of care system shall reimburse for a minimum of the following services:

(1) Outreach services that recruit trauma-exposed adults into the system and develop supportive relationships with them based on lived experience in their communities. Outreach services include both services to support impacted individuals and group services that reduce violence between groups that need conflict resolution.

(2) Case management and community support services that provide stabilization to individuals recovering from chronic exposure to firearm violence, including group cognitive behavior therapy sessions and other evidence-based interventions that promote behavioral change.

(3) Group and individual therapy that addresses underlying mental health conditions associated with post-traumatic stress disorder, depression, anxiety, substance use disorders, intermittent explosive disorder, oppositional defiant disorder, attention deficit hyperactivity disorder, and other mental conditions as a result of chronic trauma.

(4) Services deemed necessary for the effective integration of paragraphs (1), (2), and (3).

(c) The Department of Healthcare and Family Services shall develop a reimbursement methodology.

Section 35-55. Medicaid trauma recovery services for children and youth.

(a) On or before January 15, 2022, the Department of Healthcare and Family Services shall design, seek approval from the United States Department of Health and Human Services, and subject to federal approval and State appropriations for this purpose, implement a team-based model of care to address trauma recovery from chronic exposure to firearm violence for Illinois children and youth under the age of 19. Services for youth in care require additional support to maximize their effectiveness through the family systems model.

(b) The team-based model of care shall reimburse for a minimum of the following services:

(1) Outreach services that recruit trauma-exposed children and youth into the system and develop supportive relationships with them based on lived experience in their communities.

(2) Case management and school support services that decrease truancy and criminal justice system involvement.

(3) Group and individual therapy that addresses underlying mental health conditions associated with post-traumatic stress disorder, depression, anxiety, substance use disorders, intermittent explosive disorder, oppositional defiant disorder, attention deficit hyperactivity disorder, and other mental conditions as a result of chronic trauma.

Section 35-60. Rulemaking authority; emergency rulemaking authority. The General Assembly finds that exposure to chronic firearm violence qualifies for emergency rulemaking under Section 5-45 of the Illinois Administrative Procedure Act because exposure to chronic firearm violence is a situation that reasonably constitutes a threat to public interest, safety, and welfare. The Department of Healthcare and Family Services and the Office of Firearm Violence Prevention shall have rulemaking authority, including emergency rulemaking authority, as is necessary to implement all elements of this Act.

Section 35-105. The Illinois Administrative Procedure Act is amended by adding Section 5-45.14 as follows:

(5 ILCS 100/5-45.14 new)

Sec. 5-45.14. Emergency rulemaking; Reimagine Public Safety Act. To provide for the expeditious and timely implementation of the Reimagine Public Safety Act, emergency rules implementing the Reimagine Public Safety Act may be adopted in accordance with Section 5-45 by the Department of Healthcare and Family Services and the Office of Firearm Violence Prevention. The adoption of emergency rules authorized by Section 5-45 and this Section is deemed to be necessary for the public interest, safety, and welfare.

This Section is repealed one year after the effective date of this amendatory Act of the 102nd General Assembly.

Sec. 11.5. Aggregator and originating service provider responsibilities.

(a) Each aggregator, and the originating service providers whose 9-1-1 calls are being aggregated by the aggregator, shall comply with their respective requirements in 83 Ill. Adm. Code Part 725.410.

(b) Beginning July 1, 2021, each aggregator that is operating within the State must email the Office of the Statewide 9-1-1 Administrator to provide the following information that supports the implementation of and the migration to the Statewide NG9-1-1 system:

(1) A company 9-1-1 contact, address, email, and phone number.

(2) A list of originating service providers that the aggregator transports 9-1-1 calls for and then to the appropriate 9-1-1 system provider. New or current aggregators must update the required information within 30 days of implementing any changes in information required by this subsection.

(c) Each aggregator shall establish procedures for receiving No Record Found errors from the 9-1-1 System Provider, identifying the originating service provider who delivered the call to the aggregator, and referring the No Record Found errors to that originating service provider.

(d) Each originating service provider shall establish procedures with the 9-1-1 system provider for preventing and resolving No Record Found errors in the 9-1-1 database and make every effort to ensure 9-1-1 calls are sent to the appropriate public safety answering point.

(e) If a 9-1-1 system is being transitioned to NG9-1-1 service or to a new provider, each aggregator shall be responsible for coordinating any modifications that are needed to ensure that the originating service provider provides the required level of service to its customers. Each aggregator shall coordinate those network changes or additions for those migrations in a timely manner with the appropriate 9-1-1 system provider who shall be managing its respective implementation schedule and cut over. Each aggregator shall send notice to its originating service provider customers of the aggregator's successful turn up of the network changes or additions supporting the migration and include the necessary information for the originating service provider's migration (such as public safety answering point name, Federal Communications Commission Identification, and Emergency Services Routing Number). The notice shall be provided to the originating service providers within 2 weeks of acceptance testing and conversion activities between the aggregator and the 9-1-1 system provider.

(f) The 9-1-1 system provider shall coordinate directly with the originating service providers (unless the aggregator separately agrees to coordinate with the originating service providers) for migration, but in no case shall that migration exceed 30 days after receipt of notice from the aggregator, unless agreed to by the originating service provider and 9-1-1 system provider.

(g) Each aggregator shall coordinate test calls with the 9-1-1 system provider and the 9-1-1 Authority when turning up new circuits or making network changes. Each originating service provider shall perform testing of its network and provisioning upon notification from the aggregator that the network has been tested and accepted with the 9-1-1 system provider.

(h) Each aggregator and originating service provider customer shall deliver all 9-1-1 calls, audio, data, and location to the 9-1-1 system at a location determined by the State.

(Section scheduled to be repealed on December 31, 2021)

Sec. 14. The General Assembly declares that a major purpose of this Act is to ensure that 9-1-1 systems have redundant methods of dispatch for: (1) each public safety agency within its jurisdiction, herein

[May 31, 2021]

known as participating agencies; and (2) 9-1-1 systems whose jurisdictional boundaries are contiguous, herein known as adjacent 9-1-1 systems, when an emergency request for service is received for a public safety agency that needs to be dispatched by the adjacent 9-1-1 system. Another primary purpose of this Section is to eliminate instances in which a public safety agency refuses, once dispatched, to render aid outside of the jurisdictional boundaries of the public safety agency. Therefore, in implementing a 9-1-1 system under this Act, all 9-1-1 authorities shall enter into call handling and aid outside jurisdictional boundaries agreements with each participating agency and adjacent 9-1-1 system. The agreements shall provide a primary and secondary means of dispatch. It must also provide that, once an emergency unit is dispatched in response to a request through the system, such unit shall render its services to the requesting party without regard to whether the unit is operating outside its normal jurisdictional boundaries. Certified notification of the continuation of call handling and aid outside jurisdictional boundaries agreements shall be made among the involved parties on an annual basis. The Illinois State Police may adopt rules for the administration of this Section.

Sec. 15.2. Any person placing an "emergency call" to calling the number "911" for the purpose of making an ~~a false~~ alarm or complaint and reporting false information when, at the time the call or transmission is made, the person knows there is no reasonable ground for making the call or transmission and further knows that the call or transmission could result in the emergency response of any public safety agency, is subject to the provisions of Section 26-1 of the Criminal Code of 2012.

(Section scheduled to be repealed on December 31, 2021)

Sec. 15.2a. The installation of or connection to a telephone company's network of any automatic alarm, automatic alerting device, or mechanical dialer that causes the number 9-1-1 to be dialed in order to directly access emergency services and does not provide for 2-way communication is prohibited in a 9-1-1 system.

This Section does not apply to a person who connects to a 9-1-1 network using automatic crash notification technology subject to an established protocol.

This Section does not apply to devices used to enable access to the 9-1-1 system for cognitively-impaired or special needs persons or for persons with disabilities in an emergency situation reported by a caregiver after initiating a missing person's report. The device must have the capability to be activated and controlled remotely by trained personnel at a service center to prevent falsely activated or repeated calls to the 9-1-1 system in a single incident. The device must have the technical capability to generate location information to the 9-1-1 system. Under no circumstances shall a device be sold for use in a geographical jurisdiction where the 9-1-1 system has not deployed wireless phase II location technology. The alerting device shall also provide for either 2-way communication or send a pre-recorded message to a 9-1-1 provider explaining the nature of the emergency so that the 9-1-1 provider will be able to dispatch the appropriate emergency responder.

Violation of this Section is a Class A misdemeanor. A second or subsequent violation of this Section is a Class 4 felony.

(50 ILCS 750/15.3) (from Ch. 134, par. 45.3)

(Section scheduled to be repealed on December 31, 2021)

Sec. 15.3. Local non-wireless surcharge.

(a) Except as provided in subsection (l) of this Section, the corporate authorities of any municipality or any county may, subject to the limitations of subsections (c), (d), and (h), and in addition to any tax levied pursuant to the Simplified Municipal Telecommunications Tax Act, impose a monthly surcharge on billed subscribers of network connection provided by telecommunication carriers engaged in the business of transmitting messages by means of electricity originating within the corporate limits of the municipality or county imposing the surcharge at a rate per network connection determined in accordance with subsection (c), however the monthly surcharge shall not apply to a network connection provided for use with pay telephone services. Provided, however, that where multiple voice grade communications channels are connected between the subscriber's premises and a public switched network through private branch

exchange (PBX) or centrex type service, a municipality imposing a surcharge at a rate per network connection, as determined in accordance with this Act, shall impose:

(i) in a municipality with a population of 500,000 or less or in any county, 5 such surcharges per network connection, as defined under Section 2 of this Act, for both regular service and advanced service provisioned trunk lines;

(ii) in a municipality with a population, prior to March 1, 2010, of 500,000 or more, 5 surcharges per network connection, as defined under Section 2 of this Act, for both regular service and advanced service provisioned trunk lines;

(iii) in a municipality with a population, as of March 1, 2010, of 500,000 or more, 5 surcharges per network connection, as defined under Section 2 of this Act, for regular service provisioned trunk lines, and 12 surcharges per network connection, as defined under Section 2 of this Act, for advanced service provisioned trunk lines, except where an advanced service provisioned trunk line supports at least 2 but fewer than 23 simultaneous voice grade calls ("VGC's"), a telecommunication carrier may elect to impose fewer than 12 surcharges per trunk line as provided in subsection (iv) of this Section; or

(iv) for an advanced service provisioned trunk line connected between the subscriber's premises and the public switched network through a P.B.X., where the advanced service provisioned trunk line is capable of transporting at least 2 but fewer than 23 simultaneous VGC's per trunk line, the telecommunications carrier collecting the surcharge may elect to impose surcharges in accordance with the table provided in this Section, without limiting any telecommunications carrier's obligations to otherwise keep and maintain records. Any telecommunications carrier electing to impose fewer than 12 surcharges per an advanced service provisioned trunk line shall keep and maintain records adequately to demonstrate the VGC capability of each advanced service provisioned trunk line with fewer than 12 surcharges imposed, provided that 12 surcharges shall be imposed on an advanced service provisioned trunk line regardless of the VGC capability where a telecommunications carrier cannot demonstrate the VGC capability of the advanced service provisioned trunk line.

Facility	VGC's	911 Surcharges
Advanced service provisioned trunk line	18-23	12
Advanced service provisioned trunk line	12-17	10
Advanced service provisioned trunk line	2-11	8

Subsections (i), (ii), (iii), and (iv) are not intended to make any change in the meaning of this Section, but are intended to remove possible ambiguity, thereby confirming the intent of paragraph (a) as it existed prior to and following the effective date of this amendatory Act of the 97th General Assembly.

For mobile telecommunications services, if a surcharge is imposed it shall be imposed based upon the municipality or county that encompasses the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. A municipality may enter into an intergovernmental agreement with any county in which it is partially located, when the county has adopted an ordinance to impose a surcharge as provided in subsection (c), to include that portion of the municipality lying outside the county in that county's surcharge referendum. If the county's surcharge referendum is approved, the portion of the municipality identified in the intergovernmental agreement shall automatically be disconnected from the county in which it lies and connected to the county which approved the referendum for purposes of a surcharge on telecommunications carriers.

(b) For purposes of computing the surcharge imposed by subsection (a), the network connections to which the surcharge shall apply shall be those in-service network connections, other than those network connections assigned to the municipality or county, where the service address for each such network connection or connections is located within the corporate limits of the municipality or county levying the surcharge. Except for mobile telecommunication services, the "service address" shall mean the location of the primary use of the network connection or connections. For mobile telecommunication services, "service address" means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act.

(c) Upon the passage of an ordinance to impose a surcharge under this Section the clerk of the municipality or county shall certify the question of whether the surcharge may be imposed to the proper election authority who shall submit the public question to the electors of the municipality or county in

accordance with the general election law; provided that such question shall not be submitted at a consolidated primary election. The public question shall be in substantially the following form:

-----  
 Shall the county (or city, village  
 or incorporated town) of ..... impose YES  
 a surcharge of up to ...¢ per month per  
 network connection, which surcharge will  
 be added to the monthly bill you receive -----  
 for telephone or telecommunications  
 charges, for the purpose of installing  
 (or improving) a 9-1-1 Emergency NO  
 Telephone System?  
 -----

If a majority of the votes cast upon the public question are in favor thereof, the surcharge shall be imposed.

However, if a Joint Emergency Telephone System Board is to be created pursuant to an intergovernmental agreement under Section 15.4, the ordinance to impose the surcharge shall be subject to the approval of a majority of the total number of votes cast upon the public question by the electors of all of the municipalities or counties, or combination thereof, that are parties to the intergovernmental agreement.

The referendum requirement of this subsection (c) shall not apply to any municipality with a population over 500,000 or to any county in which a proposition as to whether a sophisticated 9-1-1 Emergency Telephone System should be installed in the county, at a cost not to exceed a specified monthly amount per network connection, has previously been approved by a majority of the electors of the county voting on the proposition at an election conducted before the effective date of this amendatory Act of 1987.

(d) A county may not impose a surcharge, unless requested by a municipality, in any incorporated area which has previously approved a surcharge as provided in subsection (c) or in any incorporated area where the corporate authorities of the municipality have previously entered into a binding contract or letter of intent with a telecommunications carrier to provide sophisticated 9-1-1 service through municipal funds.

(e) A municipality or county may at any time by ordinance change the rate of the surcharge imposed under this Section if the new rate does not exceed the rate specified in the referendum held pursuant to subsection (c).

(f) The surcharge authorized by this Section shall be collected from the subscriber by the telecommunications carrier providing the subscriber the network connection as a separately stated item on the subscriber's bill.

(g) The amount of surcharge collected by the telecommunications carrier shall be paid to the particular municipality or county or Joint Emergency Telephone System Board not later than 30 days after the surcharge is collected, net of any network or other 9-1-1 or sophisticated 9-1-1 system charges then due the particular telecommunications carrier, as shown on an itemized bill. The telecommunications carrier collecting the surcharge shall also be entitled to deduct 3% of the gross amount of surcharge collected to reimburse the telecommunications carrier for the expense of accounting and collecting the surcharge.

(h) Except as expressly provided in subsection (a) of this Section, on or after the effective date of this amendatory Act of the 98th General Assembly and until December 31, 2017, a municipality with a population of 500,000 or more shall not impose a monthly surcharge per network connection in excess of the highest monthly surcharge imposed as of January 1, 2014 by any county or municipality under subsection (c) of this Section. Beginning January 1, 2018 and until December 31, ~~2023~~ 2024, a municipality with a population over 500,000 may not impose a monthly surcharge in excess of \$5.00 per network connection. On or after January 1, ~~2024~~ 2022, a municipality with a population over 500,000 may not impose a monthly surcharge in excess of \$2.50 per network connection.

(i) Any municipality or county or joint emergency telephone system board that has imposed a surcharge pursuant to this Section prior to the effective date of this amendatory Act of 1990 shall hereafter impose the surcharge in accordance with subsection (b) of this Section.

(j) The corporate authorities of any municipality or county may issue, in accordance with Illinois law, bonds, notes or other obligations secured in whole or in part by the proceeds of the surcharge described in this Section. The State of Illinois pledges and agrees that it will not limit or alter the rights and powers vested in municipalities and counties by this Section to impose the surcharge so as to impair the terms of or affect the security for bonds, notes or other obligations secured in whole or in part with the proceeds of the

surcharge described in this Section. The pledge and agreement set forth in this Section survive the termination of the surcharge under subsection (l) by virtue of the replacement of the surcharge monies guaranteed under Section 20; the State of Illinois pledges and agrees that it will not limit or alter the rights vested in municipalities and counties to the surcharge replacement funds guaranteed under Section 20 so as to impair the terms of or affect the security for bonds, notes or other obligations secured in whole or in part with the proceeds of the surcharge described in this Section.

(k) Any surcharge collected by or imposed on a telecommunications carrier pursuant to this Section shall be held to be a special fund in trust for the municipality, county or Joint Emergency Telephone Board imposing the surcharge. Except for the 3% deduction provided in subsection (g) above, the special fund shall not be subject to the claims of creditors of the telecommunication carrier.

(l) Any surcharge imposed pursuant to this Section by a county or municipality, other than a municipality with a population in excess of 500,000, shall cease to be imposed on January 1, 2016.

Sec. 15.3a. Local wireless surcharge.

(a) Notwithstanding any other provision of this Act, a unit of local government or emergency telephone system board providing wireless 9-1-1 service and imposing and collecting a wireless carrier surcharge prior to July 1, 1998 may continue its practices of imposing and collecting its wireless carrier surcharge, but, except as provided in subsection (b) of this Section, in no event shall that monthly surcharge exceed \$2.50 per commercial mobile radio service (CMRS) connection or in-service telephone number billed on a monthly basis. For mobile telecommunications services provided on and after August 1, 2002, any surcharge imposed shall be imposed based upon the municipality or county that encompasses the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act.

(b) Until December 31, 2017, the corporate authorities of a municipality with a population in excess of 500,000 on the effective date of this amendatory Act of the 99th General Assembly may by ordinance continue to impose and collect a monthly surcharge per commercial mobile radio service (CMRS) connection or in-service telephone number billed on a monthly basis that does not exceed the highest monthly surcharge imposed as of January 1, 2014 by any county or municipality under subsection (c) of Section 15.3 of this Act. Beginning January 1, 2018, and until December 31, 2023 ~~2021~~, a municipality with a population in excess of 500,000 may by ordinance continue to impose and collect a monthly surcharge per commercial mobile radio service (CMRS) connection or in-service telephone number billed on a monthly basis that does not exceed \$5.00. On or after January 1, 2024 ~~2022~~, the municipality may continue imposing and collecting its wireless carrier surcharge as provided in and subject to the limitations of subsection (a) of this Section.

(c) In addition to any other lawful purpose, a municipality with a population over 500,000 may use the moneys collected under this Section for any anti-terrorism or emergency preparedness measures, including, but not limited to, preparedness planning, providing local matching funds for federal or State grants, personnel training, and specialized equipment, including surveillance cameras, as needed to deal with natural and terrorist-inspired emergency situations or events.

Sec. 15.4. Emergency Telephone System Board; powers.

(a) Except as provided in subsection (e) of this Section, the corporate authorities of any county or municipality may establish an Emergency Telephone System Board.

The corporate authorities shall provide for the manner of appointment and the number of members of the Board, provided that the board shall consist of not fewer than 5 members, one of whom must be a public member who is a resident of the local exchange service territory included in the 9-1-1 coverage area, one of whom (in counties with a population less than 100,000) may be a member of the county board, and at least 3 of whom shall be representative of the 9-1-1 public safety agencies, including but not limited to police departments, fire departments, emergency medical services providers, and emergency services and disaster agencies, and appointed on the basis of their ability or experience. In counties with a population of more than 100,000 but less than 2,000,000, a member of the county board may serve on the Emergency Telephone System Board. Elected officials, including members of a county board, are also eligible to serve on the board. Members of the board shall serve without compensation but shall be reimbursed for their actual and

necessary expenses. Any 2 or more municipalities, counties, or combination thereof, may, instead of establishing individual boards, establish by intergovernmental agreement a Joint Emergency Telephone System Board pursuant to this Section. The manner of appointment of such a joint board shall be prescribed in the agreement. On or after the effective date of this amendatory Act of the 100th General Assembly, any new intergovernmental agreement entered into to establish or join a Joint Emergency Telephone System Board shall provide for the appointment of a PSAP representative to the board.

Upon the effective date of this amendatory Act of the 98th General Assembly, appointed members of the Emergency Telephone System Board shall serve staggered 3-year terms if: (1) the Board serves a county with a population of 100,000 or less; and (2) appointments, on the effective date of this amendatory Act of the 98th General Assembly, are not for a stated term. The corporate authorities of the county or municipality shall assign terms to the board members serving on the effective date of this amendatory Act of the 98th General Assembly in the following manner: (1) one-third of board members' terms shall expire on January 1, 2015; (2) one-third of board members' terms shall expire on January 1, 2016; and (3) remaining board members' terms shall expire on January 1, 2017. Board members may be re-appointed upon the expiration of their terms by the corporate authorities of the county or municipality.

The corporate authorities of a county or municipality may, by a vote of the majority of the members elected, remove an Emergency Telephone System Board member for misconduct, official misconduct, or neglect of office.

(b) The powers and duties of the board shall be defined by ordinance of the municipality or county, or by intergovernmental agreement in the case of a joint board. The powers and duties shall include, but need not be limited to the following:

(1) Planning a 9-1-1 system.

(2) Coordinating and supervising the implementation, upgrading, or maintenance of the system, including the establishment of equipment specifications and coding systems.

(3) Receiving moneys from the surcharge imposed under Section 15.3, or disbursed to it under Section 30, and from any other source, for deposit into the Emergency Telephone System Fund.

(4) Authorizing all disbursements from the fund.

(5) Hiring any staff necessary for the implementation or upgrade of the system.

(6) (Blank).

(7) Designating a 9-1-1 System Manager, whose duties and responsibilities shall be set forth by the Emergency Telephone System Board in writing.

(c) All moneys received by a board pursuant to a surcharge imposed under Section 15.3, or disbursed to it under Section 30, shall be deposited into a separate interest-bearing Emergency Telephone System Fund account. The treasurer of the municipality or county that has established the board or, in the case of a joint board, any municipal or county treasurer designated in the intergovernmental agreement, shall be custodian of the fund. All interest accruing on the fund shall remain in the fund. No expenditures may be made from such fund except upon the direction of the board by resolution passed by a majority of all members of the board.

(d) The board shall complete a Master Street Address Guide database before implementation of the 9-1-1 system. The error ratio of the database shall not at any time exceed 1% of the total database.

(e) On and after January 1, 2016, no municipality or county may create an Emergency Telephone System Board unless the board is a Joint Emergency Telephone System Board. The corporate authorities of any county or municipality entering into an intergovernmental agreement to create or join a Joint Emergency Telephone System Board shall rescind an ordinance or ordinances creating a single Emergency Telephone System Board and shall eliminate the single Emergency Telephone System Board, effective upon the creation of the Joint Emergency Telephone System Board, with regulatory approval by the Administrator, or joining of the Joint Emergency Telephone System Board. Nothing in this Section shall be construed to require the dissolution of an Emergency Telephone System Board that is not succeeded by a Joint Emergency Telephone System Board or is not required to consolidate under Section 15.4a of this Act.

(f) Within one year after the effective date of this amendatory Act of the 100th General Assembly, any corporate authorities of a county or municipality, other than a municipality with a population of more than 500,000, operating a 9-1-1 system without an Emergency Telephone System Board or Joint Emergency Telephone System Board shall create or join a Joint Emergency Telephone System Board.

- (2) enhanced interoperability;
- (3) increased ease of communication between 9-1-1 service providers, allowing immediate transfer of 9-1-1 calls, caller information, photos, and other data statewide;
- (4) a hosted solution with redundancy built in; and
- (5) compliance with the most current NENA Standards ~~IS Solution 08-003~~.

(b) By July 1, 2016, the Administrator, with the advice and recommendation of the Statewide 9-1-1 Advisory Board, shall design and issue a competitive request for a proposal to secure the services of a consultant to complete a feasibility study on the implementation of a statewide Next Generation 9-1-1 network in Illinois. Each 9-1-1 system shall provide the Department with any changes to the participating agencies and this number and email address immediately upon the change occurring. Each 9-1-1 system shall provide the PSAP information and the 24/7 10-digit emergency telephone number and email address to the Manager of the Department's 9-1-1 Program within 30 days of the effective date of this amendatory Act of the 102nd 100th General Assembly.

(c) Along with its audited financial statement, each emergency telephone system board, ~~qualified governmental entity~~, or unit of local government receiving a grant under Section 15.4b of this Act shall include a report of the amount of grant moneys received and how the grant moneys were used. In case of a conflict between this requirement and the Grant Accountability and Transparency Act, or with the rules of the Governor's Office of Management and Budget adopted thereunder, that Act and those rules shall control.

(d) If an emergency telephone system board ~~or qualified governmental entity~~ that receives funds from the Statewide 9-1-1 Fund fails to file the 9-1-1 system financial reports as required under this Section, the Department shall suspend and withhold monthly disbursements otherwise due to the emergency telephone system board ~~or qualified governmental entity~~ under Section 30 of this Act until the report is filed.

Any monthly disbursements that have been withheld for 12 months or more shall be forfeited by the emergency telephone system board ~~or qualified governmental entity~~ and shall be distributed proportionally by the Department to compliant emergency telephone system boards ~~and qualified governmental entities~~ that receive funds from the Statewide 9-1-1 Fund.

Any emergency telephone system board ~~or qualified governmental entity~~ not in compliance with this Section shall be ineligible to receive any consolidation grant or infrastructure grant issued under this Act.

(e) The Department may adopt emergency rules necessary to implement the provisions of this Section.

(f) Any findings or decisions of the Department under this Section shall be deemed a final administrative decision and shall be subject to judicial review under the Administrative Review Law.

(g) Beginning October 1, 2017, the Department shall provide a quarterly report to the Statewide 9-1-1 Advisory Board of its expenditures from the Statewide 9-1-1 Fund for the prior fiscal quarter.

Section 15. The Emergency Telephone System Act is amended by repealing Sections 9, 13, and 17.

Section 20. The Prepaid Wireless 9-1-1 Surcharge Act is amended by changing Section 15 as follows:  
(50 ILCS 753/15)

Sec. 15. Prepaid wireless 9-1-1 surcharge.

(a) Until September 30, 2015, there is hereby imposed on consumers a prepaid wireless 9-1-1 surcharge of 1.5% per retail transaction. Beginning October 1, 2015, the prepaid wireless 9-1-1 surcharge shall be 3% per retail transaction. The surcharge authorized by this subsection (a) does not apply in a home rule municipality having a population in excess of 500,000.

(a-5) On or after the effective date of this amendatory Act of the 98th General Assembly and until December 31, 2023 ~~2020~~, a home rule municipality having a population in excess of 500,000 on the effective date of this amendatory Act may impose a prepaid wireless 9-1-1 surcharge not to exceed 9% per retail transaction sourced to that jurisdiction and collected and remitted in accordance with the provisions of subsection (b-5) of this Section. ~~On or after January 1, 2021, a home rule municipality having a population~~

~~in excess of 500,000 on the effective date of this Act may only impose a prepaid wireless 9-1-1 surcharge not to exceed 7% per retail transaction sourced to that jurisdiction and collected and remitted in accordance with the provisions of subsection (b-5).~~

(b) The prepaid wireless 9-1-1 surcharge shall be collected by the seller from the consumer with respect to each retail transaction occurring in this State and shall be remitted to the Department by the seller as provided in this Act. The amount of the prepaid wireless 9-1-1 surcharge shall be separately stated as a distinct item apart from the charge for the prepaid wireless telecommunications service on an invoice, receipt, or other similar document that is provided to the consumer by the seller or shall be otherwise disclosed to the consumer. If the seller does not separately state the surcharge as a distinct item to the consumer as provided in this Section, then the seller shall maintain books and records as required by this Act which clearly identify the amount of the 9-1-1 surcharge for retail transactions.

For purposes of this subsection (b), a retail transaction occurs in this State if (i) the retail transaction is made in person by a consumer at the seller's business location and the business is located within the State; (ii) the seller is a provider and sells prepaid wireless telecommunications service to a consumer located in Illinois; (iii) the retail transaction is treated as occurring in this State for purposes of the Retailers' Occupation Tax Act; or (iv) a seller that is included within the definition of a "retailer maintaining a place of business in this State" under Section 2 of the Use Tax Act makes a sale of prepaid wireless telecommunications service to a consumer located in Illinois. In the case of a retail transaction which does not occur in person at a seller's business location, if a consumer uses a credit card to purchase prepaid wireless telecommunications service on-line or over the telephone, and no product is shipped to the consumer, the transaction occurs in this State if the billing address for the consumer's credit card is in this State.

(b-5) The prepaid wireless 9-1-1 surcharge imposed under subsection (a-5) of this Section shall be collected by the seller from the consumer with respect to each retail transaction occurring in the municipality imposing the surcharge. The amount of the prepaid wireless 9-1-1 surcharge shall be separately stated on an invoice, receipt, or other similar document that is provided to the consumer by the seller or shall be otherwise disclosed to the consumer. If the seller does not separately state the surcharge as a distinct item to the consumer as provided in this Section, then the seller shall maintain books and records as required by this Act which clearly identify the amount of the 9-1-1 surcharge for retail transactions.

For purposes of this subsection (b-5), a retail transaction occurs in the municipality if (i) the retail transaction is made in person by a consumer at the seller's business location and the business is located within the municipality; (ii) the seller is a provider and sells prepaid wireless telecommunications service to a consumer located in the municipality; (iii) the retail transaction is treated as occurring in the municipality for purposes of the Retailers' Occupation Tax Act; or (iv) a seller that is included within the definition of a "retailer maintaining a place of business in this State" under Section 2 of the Use Tax Act makes a sale of prepaid wireless telecommunications service to a consumer located in the municipality. In the case of a retail transaction which does not occur in person at a seller's business location, if a consumer uses a credit card to purchase prepaid wireless telecommunications service on-line or over the telephone, and no product is shipped to the consumer, the transaction occurs in the municipality if the billing address for the consumer's credit card is in the municipality.

(c) The prepaid wireless 9-1-1 surcharge is imposed on the consumer and not on any provider. The seller shall be liable to remit all prepaid wireless 9-1-1 surcharges that the seller collects from consumers as provided in Section 20, including all such surcharges that the seller is deemed to collect where the amount of the surcharge has not been separately stated on an invoice, receipt, or other similar document provided to the consumer by the seller. The surcharge collected or deemed collected by a seller shall constitute a debt owed by the seller to this State, and any such surcharge actually collected shall be held in trust for the benefit of the Department.

For purposes of this subsection (c), the surcharge shall not be imposed or collected from entities that have an active tax exemption identification number issued by the Department under Section 1g of the Retailers' Occupation Tax Act.

(d) The amount of the prepaid wireless 9-1-1 surcharge that is collected by a seller from a consumer, if such amount is separately stated on an invoice, receipt, or other similar document provided to the consumer by the seller, shall not be included in the base for measuring any tax, fee, surcharge, or other charge that is imposed by this State, any political subdivision of this State, or any intergovernmental agency.

(e) (Blank).

(e-5) Any changes in the rate of the surcharge imposed by a municipality under the authority granted in subsection (a-5) of this Section shall be effective on the first day of the first calendar month to occur at least 60 days after the enactment of the change. The Department shall provide not less than 30 days' notice of the increase or reduction in the rate of such surcharge on the Department's website.

(f) When prepaid wireless telecommunications service is sold with one or more other products or services for a single, non-itemized price, then the percentage specified in subsection (a) or (a-5) of this Section 15 shall be applied to the entire non-itemized price unless the seller elects to apply the percentage to (i) the dollar amount of the prepaid wireless telecommunications service if that dollar amount is disclosed to the consumer or (ii) the portion of the price that is attributable to the prepaid wireless telecommunications service if the retailer can identify that portion by reasonable and verifiable standards from its books and records that are kept in the regular course of business for other purposes, including, but not limited to, books and records that are kept for non-tax purposes. However, if a minimal amount of prepaid wireless telecommunications service is sold with a prepaid wireless device for a single, non-itemized price, then the seller may elect not to apply the percentage specified in subsection (a) or (a-5) of this Section 15 to such transaction. For purposes of this subsection, an amount of service denominated as 10 minutes or less or \$5 or less is considered minimal.

(g) The prepaid wireless 9-1-1 surcharge imposed under subsections (a) and (a-5) of this Section is not imposed on the provider or the consumer for wireless Lifeline service where the consumer does not pay the provider for the service. Where the consumer purchases from the provider optional minutes, texts, or other services in addition to the federally funded Lifeline benefit, a consumer must pay the prepaid wireless 9-1-1 surcharge, and it must be collected by the seller according to subsection (b-5).

Section 25. The Small Wireless Facilities Deployment Act is amended by changing Sections 15 and 90 and by adding Section 45 as follows:

(50 ILCS 840/15) (was 50 ILCS 835/15)

(Section scheduled to be repealed on June 1, 2021)

Sec. 15. Regulation of small wireless facilities.

(a) This Section applies to activities of a wireless provider within or outside rights-of-way.

(b) Except as provided in this Section, an authority may not prohibit, regulate, or charge for the collocation of small wireless facilities.

(c) Small wireless facilities shall be classified as permitted uses and subject to administrative review in conformance with this Act, except as provided in paragraph (5) of subsection (d) of this Section regarding height exceptions or variances, but not subject to zoning review or approval if they are collocated (i) in rights-of-way in any zone, or (ii) outside rights-of-way in property zoned exclusively for commercial or industrial use.

(d) An authority may require an applicant to obtain one or more permits to collocate a small wireless facility. An authority shall receive applications for, process, and issue permits subject to the following requirements:

(1) An authority may not directly or indirectly require an applicant to perform services unrelated to the collocation for which approval is sought, such as in-kind contributions to the authority, including reserving fiber, conduit, or utility pole space for the authority on the wireless provider's utility pole. An authority may reserve space on authority utility poles for future public safety uses or for the authority's electric utility uses, but a reservation of space may not preclude the collocation of a small wireless facility unless the authority reasonably determines that the authority utility pole cannot accommodate both uses.

(2) An applicant shall not be required to provide more information to obtain a permit than the authority requires of a communications service provider that is not a wireless provider that requests to attach facilities to a structure; however, a wireless provider may be required to provide the following information when seeking a permit to collocate small wireless facilities on a utility pole or wireless support structure:

(A) site specific structural integrity and, for an authority utility pole, make-ready analysis prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989;

(B) the location where each proposed small wireless facility or utility pole would be installed and photographs of the location and its immediate surroundings depicting the utility

poles or structures on which each proposed small wireless facility would be mounted or location where utility poles or structures would be installed;

(C) specifications and drawings prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989, for each proposed small wireless facility covered by the application as it is proposed to be installed;

(D) the equipment type and model numbers for the antennas and all other wireless equipment associated with the small wireless facility;

(E) a proposed schedule for the installation and completion of each small wireless facility covered by the application, if approved; ~~and~~

(F) certification that the collocation complies with paragraph (6) to the best of the applicant's knowledge; and -

(G) the wireless provider's certification from a radio engineer that it operates the small wireless facility within all applicable FCC standards.

(3) Subject to paragraph (6), an authority may not require the placement of small wireless facilities on any specific utility pole, or category of utility poles, or require multiple antenna systems on a single utility pole; however, with respect to an application for the collocation of a small wireless facility associated with a new utility pole, an authority may propose that the small wireless facility be collocated on an existing utility pole or existing wireless support structure within 200 ~~400~~ feet of the proposed collocation, which the applicant shall accept if it has the right to use the alternate structure on reasonable terms and conditions and the alternate location and structure does not impose technical limits or additional material costs as determined by the applicant. The authority may require the applicant to provide a written certification describing the property rights, technical limits or material cost reasons the alternate location does not satisfy the criteria in this paragraph (3).

(4) Subject to paragraph (6), an authority may not limit the placement of small wireless facilities mounted on a utility pole or a wireless support structure by minimum horizontal separation distances.

(5) An authority may limit the maximum height of a small wireless facility to 10 feet above the utility pole or wireless support structure on which the small wireless facility is collocated. Subject to any applicable waiver, zoning, or other process that addresses wireless provider requests for an exception or variance and does not prohibit granting of such exceptions or variances, the authority may limit the height of new or replacement utility poles or wireless support structures on which small wireless facilities are collocated to the higher of: (i) 10 feet in height above the tallest existing utility pole, other than a utility pole supporting only wireless facilities, that is in place on the date the application is submitted to the authority, that is located within 300 feet of the new or replacement utility pole or wireless support structure and that is in the same right-of-way within the jurisdictional boundary of the authority, provided the authority may designate which intersecting right-of-way within 300 feet of the proposed utility pole or wireless support structures shall control the height limitation for such facility; or (ii) 45 feet above ground level.

(6) An authority may require that:

(A) the wireless provider's operation of the small wireless facilities does not interfere with the frequencies used by a public safety agency for public safety communications; a wireless provider shall install small wireless facilities of the type and frequency that will not cause unacceptable interference with a public safety agency's communications equipment; unacceptable interference will be determined by and measured in accordance with industry standards and the FCC's regulations addressing unacceptable interference to public safety spectrum or any other spectrum licensed by a public safety agency; if a small wireless facility causes such interference, and the wireless provider has been given written notice of the interference by the public safety agency, the wireless provider, at its own expense, shall take all reasonable steps necessary to correct and eliminate the interference, including, but not limited to, powering down the small wireless facility and later powering up the small wireless facility for intermittent testing, if necessary; the authority may terminate a permit for a small wireless facility based on such interference if the wireless provider is not making a good faith effort to remedy the problem in a manner consistent with the abatement and resolution procedures for interference with public safety spectrum established by the FCC including 47 CFR 22.970 through 47 CFR 22.973 and 47 CFR 90.672 through 47 CFR 90.675;

(B) the wireless provider comply with requirements that are imposed by a contract between an authority and a private property owner that concern design or construction standards applicable to utility poles and ground-mounted equipment located in the right-of-way;

(C) the wireless provider comply with applicable spacing requirements in applicable codes and ordinances concerning the location of ground-mounted equipment located in the right-of-way if the requirements include a waiver, zoning, or other process that addresses wireless provider requests for exception or variance and do not prohibit granting of such exceptions or variances;

(D) the wireless provider comply with local code provisions or regulations concerning undergrounding requirements that prohibit the installation of new or the modification of existing utility poles in a right-of-way without prior approval if the requirements include a waiver, zoning, or other process that addresses requests to install such new utility poles or modify such existing utility poles and do not prohibit the replacement of utility poles;

(E) the wireless provider comply with generally applicable standards that are consistent with this Act and adopted by an authority for construction and public safety in the rights-of-way, including, but not limited to, reasonable and nondiscriminatory wiring and cabling requirements, grounding requirements, utility pole extension requirements, acoustic regulations, and signage limitations; and shall comply with reasonable and nondiscriminatory requirements that are consistent with this Act and adopted by an authority regulating the location, size, surface area and height of small wireless facilities, or the abandonment and removal of small wireless facilities;

(F) the wireless provider not collocate small wireless facilities on authority utility poles that are part of an electric distribution or transmission system within the communication worker safety zone of the pole or the electric supply zone of the pole; however, the antenna and support equipment of the small wireless facility may be located in the communications space on the authority utility pole and on the top of the pole, if not otherwise unavailable, if the wireless provider complies with applicable codes for work involving the top of the pole; for purposes of this subparagraph (F), the terms "communications space", "communication worker safety zone", and "electric supply zone" have the meanings given to those terms in the National Electric Safety Code as published by the Institute of Electrical and Electronics Engineers;

(G) the wireless provider comply with the applicable codes and local code provisions or regulations that concern public safety;

(H) the wireless provider comply with written design standards that are generally applicable for decorative utility poles, or reasonable stealth, concealment, and aesthetic requirements that are identified by the authority in an ordinance, written policy adopted by the governing board of the authority, a comprehensive plan, or other written design plan that applies to other occupiers of the rights-of-way, including on a historic landmark or in a historic district; ~~and~~

(I) subject to subsection (c) of this Section, and except for facilities excluded from evaluation for effects on historic properties under 47 CFR 1.1307(a)(4), reasonable, technically feasible and non-discriminatory design or concealment measures in a historic district or historic landmark; any such design or concealment measures, including restrictions on a specific category of poles, may not have the effect of prohibiting any provider's technology; such design and concealment measures shall not be considered a part of the small wireless facility for purposes of the size restrictions of a small wireless facility; this paragraph may not be construed to limit an authority's enforcement of historic preservation in conformance with the requirements adopted pursuant to the Illinois State Agency Historic Resources Preservation Act or the National Historic Preservation Act of 1966, 54 U.S.C. Section 300101 et seq., and the regulations adopted to implement those laws; and -

(J) When a wireless provider replaces or adds a new radio transceiver or antennas to an existing small wireless facility, certification by the wireless provider from a radio engineer that the continuing operation of the small wireless facility complies with all applicable FCC standards.

(7) Within 30 days after receiving an application, an authority must determine whether the application is complete and notify the applicant. If an application is incomplete, an authority must specifically identify the missing information. An application shall be deemed complete if the authority

fails to provide notification to the applicant within 30 days after when all documents, information, and fees specifically enumerated in the authority's permit application form are submitted by the applicant to the authority. Processing deadlines are tolled from the time the authority sends the notice of incompleteness to the time the applicant provides the missing information.

(8) An authority shall process applications as follows:

(A) an application to collocate a small wireless facility on an existing utility pole or wireless support structure shall be processed on a nondiscriminatory basis and deemed approved if the authority fails to approve or deny the application within 90 days; however, if an applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant must notify the authority in writing of its intention to invoke the deemed approved remedy no sooner than 75 days after the submission of a completed application; the permit shall be deemed approved on the latter of the 90th day after submission of the complete application or the 10th day after the receipt of the deemed approved notice by the authority; the receipt of the deemed approved notice shall not preclude the authority's denial of the permit request within the time limits as provided under this Act; and

(B) an application to collocate a small wireless facility that includes the installation of a new utility pole shall be processed on a nondiscriminatory basis and deemed approved if the authority fails to approve or deny the application within 120 days; however, if an applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant must notify the authority in writing of its intention to invoke the deemed approved remedy no sooner than 105 days after the submission of a completed application; the permit shall be deemed approved on the latter of the 120th day after submission of the complete application or the 10th day after the receipt of the deemed approved notice by the authority; the receipt of the deemed approved notice shall not preclude the authority's denial of the permit request within the time limits as provided under this Act.

(9) An authority shall approve an application unless the application does not meet the requirements of this Act. If an authority determines that applicable codes, local code provisions or regulations that concern public safety, or the requirements of paragraph (6) require that the utility pole or wireless support structure be replaced before the requested collocation, approval may be conditioned on the replacement of the utility pole or wireless support structure at the cost of the provider. The authority must document the basis for a denial, including the specific code provisions or application conditions on which the denial was based, and send the documentation to the applicant on or before the day the authority denies an application. The applicant may cure the deficiencies identified by the authority and resubmit the revised application once within 30 days after notice of denial is sent to the applicant without paying an additional application fee. The authority shall approve or deny the revised application within 30 days after the applicant resubmits the application or it is deemed approved; however, the applicant must notify the authority in writing of its intention to proceed with the permitted activity on a deemed approved basis, which may be submitted with the resubmitted application. Any subsequent review shall be limited to the deficiencies cited in the denial. However, this revised application cure does not apply if the cure requires the review of a new location, new or different structure to be collocated upon, new antennas, or other wireless equipment associated with the small wireless facility.

(10) The time period for applications may be further tolled by:

(A) the express agreement in writing by both the applicant and the authority; or

(B) a local, State, or federal disaster declaration or similar emergency that causes the delay.

(11) An applicant seeking to collocate small wireless facilities within the jurisdiction of a single authority shall be allowed, at the applicant's discretion, to file a consolidated application and receive a single permit for the collocation of up to 25 small wireless facilities if the collocations each involve substantially the same type of small wireless facility and substantially the same type of structure. If an application includes multiple small wireless facilities, the authority may remove small wireless facility collocations from the application and treat separately small wireless facility collocations for which incomplete information has been provided or that do not qualify for consolidated treatment or that are denied. The authority may issue separate permits for each collocation that is approved in a consolidated application.

(12) Collocation for which a permit is granted shall be completed within 180 days after issuance of the permit, unless the authority and the wireless provider agree to extend this period or a delay is caused by make-ready work for an authority utility pole or by the lack of commercial power or backhaul availability at the site, provided the wireless provider has made a timely request within 60 days after the issuance of the permit for commercial power or backhaul services, and the additional time to complete installation does not exceed 360 days after issuance of the permit. Otherwise, the permit shall be void unless the authority grants an extension in writing to the applicant.

(13) The duration of a permit shall be for a period of not less than 5 years, and the permit shall be renewed for equivalent durations unless the authority makes a finding that the small wireless facilities or the new or modified utility pole do not comply with the applicable codes or local code provisions or regulations in paragraphs (6) and (9). If this Act is repealed as provided in Section 90, renewals of permits shall be subject to the applicable authority code provisions or regulations in effect at the time of renewal.

(14) An authority may not prohibit, either expressly or de facto, the (i) filing, receiving, or processing applications, or (ii) issuing of permits or other approvals, if any, for the collocation of small wireless facilities unless there has been a local, State, or federal disaster declaration or similar emergency that causes the delay.

(15) Applicants shall submit applications, supporting information, and notices by personal delivery or as otherwise required by the authority. An authority may require that permits, supporting information, and notices be submitted by personal delivery at the authority's designated place of business, by regular mail postmarked on the date due, or by any other commonly used means, including electronic mail, as required by the authority.

(e) Application fees are subject to the following requirements:

(1) An authority may charge an application fee of up to \$650 for an application to collocate a single small wireless facility on an existing utility pole or wireless support structure and up to \$350 for each small wireless facility addressed in an application to collocate more than one small wireless facility on existing utility poles or wireless support structures.

(2) An authority may charge an application fee of \$1,000 for each small wireless facility addressed in an application that includes the installation of a new utility for such collocation.

(3) Notwithstanding any contrary provision of State law or local ordinance, applications pursuant to this Section must be accompanied by the required application fee.

(4) Within 2 months after the effective date of this Act, an authority shall make available application fees consistent with this subsection, through ordinance, or in a written schedule of permit fees adopted by the authority.

(f) An authority shall not require an application, approval, or permit, or require any fees or other charges, from a communications service provider authorized to occupy the rights-of-way, for: (i) routine maintenance; (ii) the replacement of wireless facilities with wireless facilities that are substantially similar, the same size, or smaller if the wireless provider notifies the authority at least 10 days prior to the planned replacement and includes equipment specifications for the replacement of equipment consistent with the requirements of subparagraph (D) of paragraph (2) of subsection (d) of this Section; or (iii) the installation, placement, maintenance, operation, or replacement of micro wireless facilities that are suspended on cables that are strung between existing utility poles in compliance with applicable safety codes. However, an authority may require a permit to work within rights-of-way for activities that affect traffic patterns or require lane closures.

(g) Nothing in this Act authorizes a person to collocate small wireless facilities on: (1) property owned by a private party or property owned or controlled by a unit of local government that is not located within rights-of-way, subject to subsection (j) of this Section, or a privately owned utility pole or wireless support structure without the consent of the property owner; (2) property owned, leased, or controlled by a park district, forest preserve district, or conservation district for public park, recreation, or conservation purposes without the consent of the affected district, excluding the placement of facilities on rights-of-way located in an affected district that are under the jurisdiction and control of a different unit of local government as provided by the Illinois Highway Code; or (3) property owned by a rail carrier registered under Section 18c-7201 of the Illinois Vehicle Code, Metra Commuter Rail or any other public commuter rail service, or an electric utility as defined in Section 16-102 of the Public Utilities Act, without the consent of the rail carrier, public commuter rail service, or electric utility. The provisions of this Act do not apply to an electric or gas public utility or such utility's wireless facilities if the facilities are being used, developed,

and maintained consistent with the provisions of subsection (i) of Section 16-108.5 of the Public Utilities Act.

For the purposes of this subsection, "public utility" has the meaning given to that term in Section 3-105 of the Public Utilities Act. Nothing in this Act shall be construed to relieve any person from any requirement (1) to obtain a franchise or a State-issued authorization to offer cable service or video service or (2) to obtain any required permission to install, place, maintain, or operate communications facilities, other than small wireless facilities subject to this Act.

(h) Agreements between authorities and wireless providers that relate to the collocation of small wireless facilities in the right-of-way, including the collocation of small wireless facilities on authority utility poles, that are in effect on the effective date of this Act remain in effect for all small wireless facilities collocated on the authority's utility poles pursuant to applications submitted to the authority before the effective date of this Act, subject to applicable termination provisions. Such agreements entered into after the effective date of the Act shall comply with the Act.

(i) An authority shall allow the collocation of small wireless facilities on authority utility poles subject to the following:

(1) An authority may not enter into an exclusive arrangement with any person for the right to attach small wireless facilities to authority utility poles.

(2) The rates and fees for collocations on authority utility poles shall be nondiscriminatory regardless of the services provided by the collocating person.

(3) An authority may charge an annual recurring rate to collocate a small wireless facility on an authority utility pole located in a right-of-way that equals (i) \$200 per year or (ii) the actual, direct, and reasonable costs related to the wireless provider's use of space on the authority utility pole. Rates for collocation on authority utility poles located outside of a right-of-way are not subject to these limitations. In any controversy concerning the appropriateness of a cost-based rate for an authority utility pole located within a right-of-way, the authority shall have the burden of proving that the rate does not exceed the actual, direct, and reasonable costs for the applicant's proposed use of the authority utility pole. Nothing in this paragraph (3) prohibits a wireless provider and an authority from mutually agreeing to an annual recurring rate of less than \$200 to collocate a small wireless facility on an authority utility pole.

(4) Authorities or other persons owning or controlling authority utility poles within the right-of-way shall offer rates, fees, and other terms that comply with subparagraphs (A) through (E) of this paragraph (4). Within 2 months after the effective date of this Act, an authority or a person owning or controlling authority utility poles shall make available, through ordinance or an authority utility pole attachment agreement, license or other agreement that makes available to wireless providers, the rates, fees, and terms for the collocation of small wireless facilities on authority utility poles that comply with this Act and with subparagraphs (A) through (E) of this paragraph (4). In the absence of such an ordinance or agreement that complies with this Act, and until such a compliant ordinance or agreement is adopted, wireless providers may collocate small wireless facilities and install utility poles under the requirements of this Act.

(A) The rates, fees, and terms must be nondiscriminatory, competitively neutral, and commercially reasonable, and may address, among other requirements, the requirements in subparagraphs (A) through (I) of paragraph (6) of subsection (d) of this Section; subsections (e), (i), and (k) of this Section; Section 30; and Section 35, and must comply with this Act.

(B) For authority utility poles that support aerial facilities used to provide communications services or electric service, wireless providers shall comply with the process for make-ready work under 47 U.S.C. 224 and its implementing regulations, and the authority shall follow a substantially similar process for make-ready work except to the extent that the timing requirements are otherwise addressed in this Act. The good-faith estimate of the person owning or controlling the authority utility pole for any make-ready work necessary to enable the pole to support the requested collocation shall include authority utility pole replacement, if necessary.

(C) For authority utility poles that do not support aerial facilities used to provide communications services or electric service, the authority shall provide a good-faith estimate for any make-ready work necessary to enable the authority utility pole to support the requested collocation, including pole replacement, if necessary, within 90 days after receipt of a complete application. Make-ready work, including any authority utility pole replacement, shall be

completed within 60 days of written acceptance of the good-faith estimate by the applicant at the wireless provider's sole cost and expense. Alternatively, if the authority determines that applicable codes or public safety regulations require the authority utility pole to be replaced to support the requested collocation, the authority may require the wireless provider to replace the authority utility pole at the wireless provider's sole cost and expense.

(D) The authority shall not require more make-ready work than required to meet applicable codes or industry standards. Make-ready work may include work needed to accommodate additional public safety communications needs that are identified in a documented and approved plan for the deployment of public safety equipment as specified in paragraph (1) of subsection (d) of this Section and included in an existing or preliminary authority or public service agency budget for attachment within one year of the application. Fees for make-ready work, including any authority utility pole replacement, shall not exceed actual costs or the amount charged to communications service providers for similar work and shall not include any consultants' fees or expenses for authority utility poles that do not support aerial facilities used to provide communications services or electric service. Make-ready work, including any pole replacement, shall be completed within 60 days of written acceptance of the good-faith estimate by the wireless provider, at its sole cost and expense.

(E) A wireless provider that has an existing agreement with the authority on the effective date of the Act may accept the rates, fees, and terms that an authority makes available under this Act for the collocation of small wireless facilities or the installation of new utility poles for the collocation of small wireless facilities that are the subject of an application submitted 2 or more years after the effective date of the Act as provided in this paragraph (4) by notifying the authority that it opts to accept such rates, fees, and terms. The existing agreement remains in effect, subject to applicable termination provisions, for the small wireless facilities the wireless provider has collocated on the authority's utility poles pursuant to applications submitted to the authority before the wireless provider provides such notice and exercises its option under this subparagraph.

(j) An authority shall authorize the collocation of small wireless facilities on utility poles owned or controlled by the authority that are not located within rights-of-way to the same extent the authority currently permits access to utility poles for other commercial projects or uses. The collocations shall be subject to reasonable and nondiscriminatory rates, fees, and terms as provided in an agreement between the authority and the wireless provider.

(k) Nothing in this Section precludes an authority from adopting reasonable rules with respect to the removal of abandoned small wireless facilities. A small wireless facility that is not operated for a continuous period of 12 months shall be considered abandoned and the owner of the facility must remove the small wireless facility within 90 days after receipt of written notice from the authority notifying the owner of the abandonment. The notice shall be sent by certified or registered mail, return receipt requested, by the authority to the owner at the last known address of the owner. If the small wireless facility is not removed within 90 days of such notice, the authority may remove or cause the removal of the ~~such~~ facility pursuant to the terms of its pole attachment agreement for authority utility poles or through whatever actions are provided for abatement of nuisances or by other law for removal and cost recovery. An authority may require a wireless provider to provide written notice to the authority if it sells or transfers small wireless facilities subject to this Act within the jurisdictional boundary of the authority. Such notice shall include the name and contact information of the new wireless provider.

(l) Nothing in this Section requires an authority to install or maintain any specific utility pole or to continue to install or maintain utility poles in any location if the authority makes a non-discriminatory decision to eliminate above-ground utility poles of a particular type generally, such as electric utility poles, in all or a significant portion of its geographic jurisdiction. For authority utility poles with collocated small wireless facilities in place when an authority makes a decision to eliminate above-ground utility poles of a particular type generally, the authority shall either (i) continue to maintain the authority utility pole or install and maintain a reasonable alternative utility pole or wireless support structure for the collocation of the small wireless facility, or (ii) offer to sell the utility pole to the wireless provider at a reasonable cost or allow the wireless provider to install its own utility pole so it can maintain service from that location.

(a) No telecommunications carrier offering or providing noncompetitive telecommunications service pursuant to a valid Certificate of Service Authority or certificate of public convenience and necessity shall discontinue or abandon such service once initiated until and unless it shall demonstrate, and the Commission finds, after notice and hearing, that such discontinuance or abandonment will not deprive customers of any necessary or essential telecommunications service or access thereto and is not otherwise contrary to the public interest. No telecommunications carrier offering or providing competitive telecommunications service shall completely discontinue or abandon such service to an identifiable class or group of customers once initiated except upon 60 days' ~~days~~ notice to the Commission and affected customers. All cable or video providers offering or providing service in this State shall have authorization pursuant to either (i) the Cable and Video Competition Law of 2007 (220 ILCS 5/21-100 et seq.); (ii) Section 11-42-11 of the Illinois Municipal Code (65 ILCS 5/11-42-11); or (iii) Section 5-1095 of the Counties Code (55 ILCS 5/5-1095).

(2) Nothing in this Section shall prohibit a local unit of government from granting a permit to a person or entity for the use of the public rights-of-way to install or construct facilities to provide cable service or video service, at its sole discretion. No unit of local government shall be liable for denial or delay of a permit prior to the issuance of a State-issued authorization.

(b) The application to the Commission for State-issued authorization shall contain a completed affidavit submitted by the applicant and signed by an officer or general partner of the applicant affirming all of the following:

(1) That the applicant has filed or will timely file with the Federal Communications Commission all forms required by that agency in advance of offering cable service or video service in this State.

(4) An exact description of the cable service or video service area where the cable service or video service will be offered during the term of the State-issued authorization. The service area shall be identified in terms of either (i) exchanges, as that term is defined in Section 13-206 of this Act; (ii) a collection of United States Census Bureau Block numbers (13 digit); (iii) if the area is smaller than the areas identified in either (i) or (ii), by geographic information system digital boundaries meeting or exceeding national map accuracy standards; or (iv) local unit of government. (6) A certification that the applicant has concurrently delivered a copy of the application to all local units of government that include all or any part of the service area identified in item (4) of this subsection (b) within such local unit of government's jurisdictional boundaries.

(7) The expected date that cable service or video service will be initially offered in the area identified in item (4) of this subsection (b). In the event that a holder does not offer cable services or video services within 3 months after the expected date, it shall amend its application and update the

expected date service will be offered and explain the delay in offering cable services or video services.

(8) For any entity that received State-issued authorization prior to this amendatory Act of the 98th General Assembly as a cable operator and that intends to proceed as a cable operator under this Article, the entity shall file a written affidavit with the Commission and shall serve a copy of the affidavit with any local units of government affected by the authorization within 30 days after the effective date of this amendatory Act of the 98th General Assembly stating that the holder will be providing cable service under the State-issued authorization.

The application shall include adequate assurance that the applicant possesses the financial, managerial, legal, and technical qualifications necessary to construct and operate the proposed system, to promptly repair any damage to the public right-of-way caused by the applicant, and to pay the cost of removal of its facilities. To accomplish these requirements, the applicant may, at the time the applicant seeks to use the public rights-of-way in that jurisdiction, be required by the State of Illinois or later be required by the local unit of government, or both, to post a bond, produce a certificate of insurance, or otherwise demonstrate its financial responsibility.

The application shall include the applicant's general standards related to customer service required by Section 22-501 of this Act, which shall include, but not be limited to, installation, disconnection, service and repair obligations; appointment hours; employee ID requirements; customer service telephone numbers and hours; procedures for billing, charges, deposits, refunds, and credits; procedures for termination of service; notice of deletion of programming service and changes related to transmission of programming or changes or increases in rates; use and availability of parental control or lock-out devices; complaint procedures and procedures for bill dispute resolution and a description of the rights and remedies available to consumers if the holder does not materially meet their customer service standards; and special services for customers with visual, hearing, or mobility disabilities.

(c)(1) The applicant may designate information that it submits in its application or subsequent reports as confidential or proprietary, provided that the applicant states the reasons the confidential designation is necessary. The Commission shall provide adequate protection for such information pursuant to Section 4-404 of this Act. If the Commission, a local unit of government, or any other party seeks public disclosure of information designated as confidential, the Commission shall consider the confidential designation in a proceeding under the Illinois Administrative Procedure Act, and the burden of proof to demonstrate that the designated information is confidential shall be upon the applicant. Designated information shall remain confidential pending the Commission's determination of whether the information is entitled to confidential treatment. Information designated as confidential shall be provided to local units of government for purposes of assessing compliance with this Article as permitted under a Protective Order issued by the Commission pursuant to the Commission's rules and to the Attorney General pursuant to Section 6.5 of the Attorney General Act (15 ILCS 205/6.5). Information designated as confidential under this Section or determined to be confidential upon Commission review shall only be disclosed pursuant to a valid and enforceable subpoena or court order or as required by the Freedom of Information Act. Nothing herein shall delay the application approval timeframes set forth in this Article.

(2) Information regarding the location of video services that have been or are being offered to the public and aggregate information included in the reports required by this Article shall not be designated or treated as confidential.

(d)(1) The Commission shall post all applications it receives under this Article on its web site within 5 business days.

(2) The Commission shall notify an applicant for a cable service or video service authorization whether the applicant's application and affidavit are complete on or before the 15th business day after the applicant submits the application. If the application and affidavit are not complete, the Commission shall state in its notice all of the reasons the application or affidavit are incomplete, and the applicant shall resubmit a complete application. The Commission shall have 30 days after submission by the applicant of a complete application and affidavit to issue the service authorization. If the Commission does not notify the applicant regarding the completeness of the application and affidavit or issue the service authorization within the time periods required under this subsection, the application and affidavit shall be considered complete and the service authorization issued upon the expiration of the 30th day.

(e) Any authorization issued by the Commission will expire on December 31, 2029 ~~2024~~ and shall contain or include all of the following:

(1) A grant of authority, including an authorization issued prior to this amendatory Act of the 98th General Assembly, to provide cable service or video service in the service area footprint as requested in the application, subject to the provisions of this Article in existence on the date the grant of authority was issued, and any modifications to this Article enacted at any time prior to the date in Section 21-1601 of this Act, and to the laws of the State and the ordinances, rules, and regulations of the local units of government.

(2) A grant of authority to use, occupy, and construct facilities in the public rights-of-way for the delivery of cable service or video service in the service area footprint, subject to the laws, ordinances, rules, or regulations of this State and local units of governments.

(3) A statement that the grant of authority is subject to lawful operation of the cable service or video service by the applicant, its affiliated entities, or its successors-in-interest.

(e-5) The Commission shall notify a local unit of government within 3 business days of the grant of any authorization within a service area footprint if that authorization includes any part of the local unit of government's jurisdictional boundaries and state whether the holder will be providing video service or cable service under the authorization.

(f) The authorization issued pursuant to this Section by the Commission may be transferred to any successor-in-interest to the applicant to which it is initially granted without further Commission action if the successor-in-interest (i) submits an application and the information required by subsection (b) of this Section for the successor-in-interest and (ii) is not in violation of this Article or of any federal, State, or local law, ordinance, rule, or regulation. A successor-in-interest shall file its application and notice of transfer with the Commission and the relevant local units of government no less than 15 business days prior to the completion of the transfer. The Commission is not required or authorized to act upon the notice of transfer; however, the transfer is not effective until the Commission approves the successor-in-interest's application. A local unit of government or the Attorney General may seek to bar a transfer of ownership by filing suit in a court of competent jurisdiction predicated on the existence of a material and continuing breach of this Article by the holder, a pattern of noncompliance with customer service standards by the potential successor-in-interest, or the insolvency of the potential successor-in-interest. If a transfer is made when there are violations of this Article or of any federal, State, or local law, ordinance, rule, or regulation, the successor-in-interest shall be subject to 3 times the penalties provided for in this Article.

(g) The authorization issued pursuant to this Section by the Commission may be terminated, or its cable service or video service area footprint may be modified, by the cable service provider or video service provider by submitting notice to the Commission and to the relevant local unit of government containing a description of the change on the same terms as the initial description pursuant to item (4) of subsection (b) of this Section. The Commission is not required or authorized to act upon that notice. It shall be a violation of this Article for a holder to discriminate against potential residential subscribers because of the race or income of the residents in the local area in which the group resides by terminating or modifying its cable service or video service area footprint. It shall be a violation of this Article for a holder to terminate or modify its cable service or video service area footprint if it leaves an area with no cable service or video service from any provider.

(h) The Commission's authority to administer this Article is limited to the powers and duties explicitly provided under this Article. Its authority under this Article does not include or limit the powers and duties that the Commission has under the other Articles of this Act, the Illinois Administrative Procedure Act, or any other law or regulation to conduct proceedings, other than as provided in subsection (c), or has to promulgate rules or regulations. The Commission shall not have the authority to limit or expand the obligations and requirements provided in this Section or to regulate or control a person or entity to the extent that person or entity is providing cable service or video service, except as provided in this Article.

#### HOUSE BILL RECALLED

On motion of Senator Murphy, **House Bill No. 731** was recalled from the order of third reading to the order of second reading.

Senator Murphy offered the following amendment and moved its adoption:

#### AMENDMENT NO. 2 TO HOUSE BILL 731

AMENDMENT NO. 2. Amend House Bill 731, AS AMENDED, by replacing everything after the enacting clause with the following:

"Section 5. The Local Government Taxpayers' Bill of Rights Act is amended by changing Section 30 as follows:

(50 ILCS 45/30)

Sec. 30. Statute of limitations. Units of local government have an obligation to review tax returns in a timely manner and issue any determination of tax due as promptly as possible so that taxpayers may make timely corrections of future returns and minimize any interest charges applied to tax underpayments. Each unit of local government must provide appropriate statutes of limitation for the determination and assessment of taxes covered by this Act, provided, however, that a statute of limitations may not exceed the following:

(1) For utility taxes, no ~~No~~ notice of determination of tax due or assessment may be issued more than 7 4 years after the end of the calendar year for which the return for the period was filed or the end of the calendar year in which the return for the period was due, whichever occurs later. An

[May 31, 2021]

audit or review that is timely performed under Section 35 of this Act or Section 8-11-2.5 of the Illinois Municipal Code shall toll this 7-year period.

(1.5) Except for utility taxes under paragraph (1), no notice of determination of tax due or assessment may be issued more than 4 years after the end of the calendar year for which the return for the period was filed or the end of the calendar year in which the return for the period was due, whichever occurs later.

(2) Except for utility taxes under paragraph (1), if any tax return was not filed or if during any 4-year period for which a notice of tax determination or assessment may be issued by the unit of local government the tax paid or remitted was less than 75% of the tax due for that period, the statute of limitations shall be no more than 6 years after the end of the calendar year in which the return for the period was due or the end of the calendar year in which the return for the period was filed, whichever occurs later. In the event that a unit of local government fails to provide a statute of limitations, the maximum statutory period provided in this Section applies.

(3) The changes to this Section made by this amendatory Act of the 102nd General Assembly do not revive any determination and assessment of tax due where the statute of limitations has expired, but do extend the current statute of limitations for the determination and assessment of taxes that have not yet expired.

This Section does not place any limitation on a unit of local government if a fraudulent tax return is filed.

Section 10. The Illinois Municipal Code is amended by changing Section 8-11-2.5 as follows:  
(65 ILCS 5/8-11-2.5)

Sec. 8-11-2.5. Municipal tax review; requests for information.

(a) If a municipality has imposed a tax under Section 8-11-2, then the municipality may conduct an audit of tax receipts collected from the public utility that is subject to the tax or that collects the tax from purchasers on behalf of the municipality to determine whether the amount of tax that was paid by the public utility was accurate.

(b) Not more than once annually every 2 years, a municipality that has imposed a tax under this Act may, subject to the limitations and protections stated in ~~Section 16-122 of the Public Utilities Act and in the Local Government Taxpayers' Bill of Rights Act~~, make a written request via e-mail to an e-mail address provided by the utility for any information from a utility in the format maintained by the public utility in the ordinary course of its business that the municipality reasonably requires in order to perform an audit under subsection (a). The information that may be requested by the municipality includes, without limitation:

(1) in an electronic format used by the public utility in the ordinary course of its business, the premises-specific and other information database ~~used by the public utility to determine the amount of tax due to the municipality; provided, however, that a public utility that is an electric utility may not provide customer-specific information ; if the municipality has requested customer specific billing, usage, and load shape data from a public utility that is an electric utility and has not provided the electric utility with the verifiable authorization required by Section 16-122 of the Public Utilities Act, then the electric utility shall remove from the database all customer specific billing, usage, and load shape data before providing it to the municipality; and~~

(2) information related to each premises address that the public utility's records indicate:

(A) is located in the municipality;

(B) is located in an adjacent unincorporated municipality identified by the requesting municipality; or

(C) is located in one of a list of zip codes provided by the requesting municipality that include areas within the requesting municipality's boundaries; and

(3) for each address identified in paragraph (2):

(A) the premises address and zip code;

(B) classification of the premises as designated by the public utility (e.g., residential, commercial, industrial);

(C) first date of service; and

(D) for each month of service in the current year (up to one month prior to the date of the request by the municipality) and for the previous 10 calendar years:

(i) the amount of the utility service used, measured in gross therms, kilowatts, minutes, or other units of measurement;

(ii) total taxable charges;

(iii) the total tax collected and remitted;

(iv) the municipal jurisdiction for tax collection and remittance; and

(v) whether the customer is exempt from municipal tax, in a format used by the public utility in the ordinary course of its business, summary data, as needed by the municipality, to determine the unit consumption of utility services by providing the gross therms, kilowatts, minutes, or other units of measurement being taxed within the municipal jurisdiction and the gross revenues collected and the associated taxes assessed.

(c) Each public utility must provide the information requested under subsection (b) within 90 days after the date of the request.:

(1) 60 days after the date of the request if the population of the requesting municipality is 500,000 or less; or

(2) 90 days after the date of the request if the population of the requesting municipality exceeds 500,000.

The time in which a public utility must provide the information requested under subsection (b) may be extended by an agreement between the municipality and the public utility. If the public utility fails to respond to the request for information with complete information within the timeline established by this Section, the public utility shall be liable to the municipality for a penalty of \$1,000 for each day it fails to produce the requested information. Those penalties shall be assessed by the municipality, but may be reduced or vacated by the municipality or a court of competent jurisdiction upon demonstration by the public utility, by clear and convincing evidence, that the public utility's failure to provide the requested information within the timeline established by this Section resulted from excusable neglect. If a public utility receives, during a single month, information requests from more than 2 municipalities, or the aggregate population of the requesting municipalities is 100,000 customers or more, the public utility is entitled to an additional 30 days to respond to those requests.

(d) If an audit by the municipality or its agents finds an error by the public utility in the amount of taxes paid by the public utility, then the municipality must notify the public utility of the error. Any such notice must be issued pursuant to Section 30 of the Local Government Taxpayers' Bill of Rights Act or a lesser period of time from the date the tax was due that may be specified in the municipal ordinance imposing the tax. Upon such a notice, any audit shall be conducted pursuant to Section 35 of the Local Government Taxpayers' Bill of Rights Act subject to the timelines set forth in this subsection (d). The public utility must submit a written response within 60 days after the date the notice was postmarked stating that it has corrected the error or stating the reason that the error is inapplicable or inaccurate. The municipality then has 60 days after the receipt of the public utility's response to review and contest the conclusion of the public utility. If the parties are unable to agree on the disposition of the audit findings within 120 days after the notification of the error to the public utility, then either party may submit the matter for appeal as outlined in Section 40 of the Local Government Taxpayers' Bill of Rights Act. If the appeals process does not produce a satisfactory result, then either party may pursue the alleged error in a court of competent jurisdiction. If the municipality prevails and receives at least 50% of the relief requested in court, the public utility is liable for the attorney's fees and costs of the municipality.

(d-5) If a public utility is liable for any error or errors in past tax payments cumulatively in excess of \$5,000 that were unknown prior to an audit from the municipality, the public utility shall reimburse the municipality for the cost of the audit in addition to any interest and penalties imposed.

(e) (Blank). No public utility is liable for any error in past collections and payments that was unknown by it prior to the audit process unless (i) the error was due to negligence by the public utility in the collection or processing of required data and (ii) the municipality had not failed to respond in writing on an accurate and timely basis to any written request of the public utility to review and correct information used by the public utility to collect the municipality's tax if a diligent review of such information by the municipality reasonably could have been expected to discover such error. If, however, an error in past collections or payments resulted in a customer, who should not have owed a tax to any municipality, having paid a tax to a municipality, then the customer may, to the extent allowed by Section 9-252 of the Public Utilities Act, recover the tax from the public utility, and any amount so paid by the public utility may be deducted by that public utility from any taxes then or thereafter owed by the public utility to that municipality.

(e-5) The public utility shall be liable to the municipality for all unpaid taxes due during the statutory period set forth in Section 30 of the Local Government Taxpayers' Bill of Rights Act, including taxes that the public utility failed to properly bill to the customer. To the extent that a public utility's errors in past tax collections and payments relate to premises located in an area of the municipality that was annexed on or after the effective date of this amendatory Act of the 102nd General Assembly, however, the public utility shall only be liable for such errors beginning 60 days after the date that the municipality provided the public utility notice of the annexation, provided that the public utility provides municipalities with an e-mail address to send annexation notices and the municipality notified the utility within 60 days after the annexation. A copy of the annexation ordinance and the map provided to the recorder of the county under this Act sent to the e-mail address provided by the public utility shall be deemed sufficient notice, but other forms of notice may also be sufficient.

(f) All ~~premises-specific account-specific~~ information provided by a public utility under this Section may be used only for the purpose of an audit of taxes conducted under this Section and the enforcement of any related tax claim. All such information must be held in strict confidence by the municipality and its agents and may not be disclosed to the public under the Freedom of Information Act or under any other similar statutes allowing for or requiring public disclosure.

(g) The provisions of this Section shall not be construed as diminishing or replacing any civil remedy available to a municipality, taxpayer, or tax collector.

(g-5) As used in this Section:

"Customer-specific information" means the name, phone number, e-mail address, and banking information of a customer, but specifically excludes the customer's tax exempt status.

"Premises-specific information" means any information, including billing, usage, and load shape data, associated with a premises address but not with customer-specific information.

(h) This Section does not apply to any municipality having a population greater than 1,000,000.

(Source: P.A. 96-1422, eff. 8-3-10.)

Section 15. The Public Utilities Act is amended by changing Section 16-122 and by adding Section 9-224.1 as follows:

(220 ILCS 5/9-224.1 new)

Sec. 9-224.1. Audit compliance; municipal fines. For the purpose of determining any rate or charge, the Commission shall not consider the following costs as an expense of any public utility company, including any allocation of those costs to the public utility from an affiliate or corporate parent: (i) any court costs, attorney's fees, or other fees incurred under subsection (d) of Section 8-11-2.5 of the Illinois Municipal Code; or (ii) any penalties or interest imposed by a municipality under Section 8-11-2.5 of the Illinois Municipal Code.

(220 ILCS 5/16-122)

Sec. 16-122. Customer information.

(a) Upon the request of a retail customer, or a person who presents verifiable authorization and is acting as the customer's agent, and payment of a reasonable fee, electric utilities shall provide to the customer or its authorized agent the customer's billing and usage data.

(b) Upon request from any alternative retail electric supplier and payment of a reasonable fee, an electric utility serving retail customers in its service area shall make available generic information concerning the usage, load shape curve or other general characteristics of customers by rate classification. Provided however, no customer specific billing, usage or load shape data shall be provided under this subsection unless authorization to provide such information is provided by the customer pursuant to subsection (a) of this Section.

(c) Upon request from a unit of local government and payment of a reasonable fee, an electric utility shall make available information concerning the usage, load shape curves, and other characteristics of customers by customer classification and location within the boundaries of the unit of local government, however, no customer specific billing, usage, or load shape data shall be provided under this subsection unless authorization to provide that information is provided by the customer or the unit of local government is requesting the information for the purposes of an audit under Section 8-11-2.5 of the Illinois Municipal Code.

(d) All such customer information shall be made available in a timely fashion in an electronic format, if available.
