When a grant eligibility has been determined for a public library construction project, the Secretary of State shall notify the public library of the dollar amount of the public library construction project's cost that the public library will be required to finance with non-grant funds in order to qualify to receive a public library construction project grant under this Act from the Secretary of State. The Secretary of State shall thereafter determine whether a grant shall be

made.

Section 15-20. Grant application; public library facilities plan. Public libraries shall apply to the Secretary of State for public library construction project grants. Public libraries filing grant applications shall submit to the Secretary of State a public library facilities plan that shall include, but not be limited to, an assessment of present and future public library facility needs as required by present and anticipated public library programming, the availability of local financial resources including current revenues, fund balances, and unused bonding capacity, a fiscal plan for meeting present and anticipated debt service obligations, and a maintenance plan and schedule that contain necessary assurances that new, renovated, and existing facilities are being or will be properly maintained. The Secretary of State shall review and approve public library facilities plans prior to determining eligibility and authorizing grants. Each public library that is determined to be eligible shall annually update its public library facilities plan and submit the revised plan to the Secretary of State for approval.

(a) The product of the public library's grant index and the recognized project cost, as determined by the Secretary of State, for an approved public library construction project shall equal the amount of the grant the Secretary of State shall provide to the eligible public library. The grant index shall not be used in cases where the General Assembly and the Governor approve appropriations designated for specifically identified public library construction projects.

(b) In each fiscal year in which public library construction project grants are awarded, of the total amount awarded statewide, 20% shall be awarded to the Chicago Public Library System, provided that the Chicago Public Library System complies with the provisions of this Act, and 80% shall be awarded to public libraries outside of the City of Chicago.

Section 15-40. Supervision of public library construction projects. The Secretary of State shall exercise general supervision over public library construction projects financed pursuant to this Act.

[May 31, 2009]

Public libraries, however, must be allowed to choose the architect and engineer for their public library construction projects, and no project may be disapproved by the Secretary of State solely due to a public library's selection of an architect or engineer.

Section 15-50. Referendum requirements. After the Secretary of State has approved all or part of a public library's application and made a determination of eligibility for a public library construction project grant, the governing body of the public library shall submit the project or the financing of the project to a referendum when the referendum is required by law.

"Grant index" means a figure for each park or recreation unit equal to one minus the ratio of the park or recreation unit's equalized assessed valuation per capita to the equalized assessed valuation per capita of the park or recreation unit located at the 90th percentile for all park or recreation units in the State. The grant index shall be no less than 0.35 and no greater than 0.75 for each park or recreation unit; provided that the grant index for park or recreation units whose equalized assessed valuation per capita is at the 99th percentile and above for all park or recreation units in the State shall be 0.00.

"Park or recreation unit" means the governmental unit of any public park, park district, park and recreation district, recreational facility, or recreation system established under the Park District Code, the Chicago Park District Act, the Metro-East Park and Recreation District Act, or the Illinois Municipal Code.

"Park or recreation unit construction project" means the acquisition, development, construction, reconstruction, rehabilitation, improvement, architectural planning, installation, maintenance, and upkeep of (i) capital facilities consisting of buildings, structures, durable equipment, and land for park or recreation purposes and (ii) open spaces and natural areas, as those terms are defined in Section 10 of the Illinois Open Land Trust Act.

Section 20-10. Grant awards. The Department is authorized to make grants to park or recreation units for park or recreation unit construction projects with funds appropriated for that purpose from the Build Illinois Bond Fund.

Section 20-15. Grants. The Department is authorized to determine grant eligibility for park or recreation unit construction projects and shall determine the priority order for park or recreation unit construction project grants to be made by the Department. When grant eligibility has been determined for a park or recreation unit construction project, the Department shall notify the park or recreation unit of the dollar amount of the park or recreation unit construction project's cost that the park or recreation unit will be required to finance with non-grant funds in order to qualify to receive a park or recreation unit construction project grant under this Act from the Department. The Department shall thereafter determine whether a grant shall be made.

Section 20-20. Grant application; facilities plan. Park or recreation units shall apply to the Department for park or recreation unit construction project grants. Park or recreation units filing grant applications shall submit to the Department a facilities plan that shall include, but not be limited to, an assessment of present and future park or recreation facility needs as required by present and anticipated park or recreational programming, the availability of local financial resources including current revenues, fund balances, and unused bonding capacity, a fiscal plan for meeting present and anticipated debt service

obligations, and a maintenance plan and schedule that contain necessary assurances that new, renovated, and existing facilities are being or will be properly maintained. The Department shall review and approve park or recreation unit facilities plans prior to determining eligibility and authorizing grants. Each park or recreation unit that is determined to be eligible shall annually update its facilities plan and submit the revised plan to the Department for approval.

Section 20-25. Eligibility and project standards.

(a) The Department shall establish eligibility standards for park or recreation unit construction project grants and approve a park or recreation unit's eligibility for a park or recreation unit construction project grant pursuant to the established standards. These standards shall include minimum service population requirements for park or recreation unit construction project grants.

(b) The Department shall establish project standards for all park or recreation unit construction project grants provided pursuant to this Act. These standards shall include the determination of recognized project costs that shall be eligible for State financial assistance and enrichment costs that shall not be eligible for State financial assistance.

Section 20-30. Priority of construction projects. The Department shall develop standards for the determination of priority needs concerning park or recreation unit construction projects based upon approved facilities plans. These standards shall call for prioritization based on the degree of need and project type in the following order:

- (1) Replacement or reconstruction of park or recreation unit facilities destroyed or damaged by flood, tornado, fire, earthquake, or other disasters, either man-made or produced by nature;
- (2) Projects designed to address population growth or to replace aging park or recreation unit facilities;
- (3) Replacement or reconstruction of park or recreation unit facilities determined to be severe and continuing health or life safety hazards;
- (4) Alterations necessary to provide accessibility for qualified individuals with disabilities; and
- (5) Other unique solutions to facility needs.

Section 20-35. Grant amounts; permitted use; prohibited use.

(a) The product of the park or recreation unit's grant index and the recognized project cost, as determined by the Department, for an approved park or recreation unit construction project shall equal the amount of the grant the Department shall provide to the eligible park or recreation unit. The grant index shall not be used in cases where the General Assembly and the Governor approve appropriations designated for specifically identified park or recreation unit construction projects.

(b) In each fiscal year in which park or recreation unit construction project grants are awarded, of the total amount awarded statewide, 20% shall be awarded to the Chicago Park District, provided that the Chicago Park District complies with the provisions of this Act, and 80% shall be awarded to park or recreation units outside of the City of Chicago.

(c) No portion of a park or recreation unit construction project grant awarded by the Department shall be used by a park or recreation unit for any on-going operational costs.

Section 20-37. Carry over projects. If a park or recreation unit has been determined eligible for a park or recreation unit construction project, has arranged and approved all local financing, and is eligible to receive a park or recreation unit construction project grant award in any fiscal year, but does not receive such award in that year due to lack of adequate appropriations, those park or recreation unit construction projects shall continue to be considered for grant awards for the following fiscal year.

Section 20-40. Supervision of park or recreation unit construction projects. The Department shall exercise general supervision over park or recreation unit construction projects financed pursuant to this Act. Park or recreation units, however, must be allowed to choose the architect and engineer for their park or recreation unit construction projects, and no project may be disapproved by the Department solely due to a park or recreation unit's selection of an architect or engineer.

Section 20-50. Referendum requirements. After the Department has approved all or part of a park or recreation unit's application and made a determination of eligibility for a park or recreation unit construction project grant, the park or recreation unit shall submit the project or the financing of the

project to a referendum when the referendum is required by law.

Section 20-55. Rules. The Department shall promulgate such rules as it deems necessary for carrying out its responsibilities under the provisions of this Act.

Section 20-60. Capital needs assessment. The Department shall file with the General Assembly a comprehensive assessment report of the capital needs of all park or recreation units in this State before January 1, 2010 and every 2 years thereafter. This assessment shall include, without limitation, an analysis of the 5 categories of capital needs prioritized in Section 20-30 of this Act.

The distribution formula shall have 2 components: a base grant portion of the appropriation and an FTE grant portion of the appropriation. Each independent college shall be awarded both a base grant portion of the appropriation and an FTE grant portion of the appropriation.

The Illinois Board of Higher Education shall distribute moneys appropriated for this purpose to independent colleges based on the following base grant criteria: for each independent college reporting between 1 and 200 FTE a base grant of \$200,000 shall be awarded; for each independent college reporting between 201 and 500 FTE a base grant of \$1,000,000 shall be awarded; for each independent college reporting between 501 and 4,000 FTE a base grant of \$2,000,000 shall be awarded; and for each independent college reporting 4,001 or more FTE a base grant of \$5,000,000 shall be awarded.

The remainder of the moneys appropriated for this purpose shall be distributed by the Illinois Board of Higher Education to each independent college on a per capita basis as determined by the independent college's FTE as reported by the Illinois Board of Higher Education's most recent fall FTE report.

Each independent college shall have up to 5 years from the date of appropriation to access and utilize its awarded amounts. Sec. 9. Conditions for Issuance and Sale of Bonds - Requirements for Bonds.

(a) Except as otherwise provided in this subsection, Bonds shall be issued and sold from time to time, in one or more series, in such amounts and at such prices as may be directed by the Governor, upon recommendation by the Director of the Governor's Office of Management and Budget. Bonds shall be in such form (either coupon, registered or book entry), in such denominations, payable within 25 years from their date, subject to such terms of redemption with or without premium, bear interest payable at such times and at such fixed or variable rate or rates, and be dated as shall be fixed and determined by the Director of the Governor's Office of Management and Budget in the order authorizing the issuance and sale of any series of Bonds, which order shall be approved by the Governor and is herein called a "Bond Sale Order"; provided however, that interest payable at fixed or variable rates shall not exceed that permitted in the Bond Authorization Act, as now or hereafter amended. Bonds shall be payable at such place or places, within or without the State of Illinois, and may be made registrable as to either principal or as to both principal and interest, as shall be specified in the Bond Sale Order. Bonds may be callable or subject to purchase and retirement or tender and remarketing as fixed and determined in the Bond Sale Order. Bonds, other than Bonds issued under Section 3 of this Act for the costs associated with the purchase and implementation of information technology, must be issued with principal or mandatory redemption amounts in equal amounts, with the first maturity issued occurring within the fiscal year in which the Bonds are issued or within the next succeeding fiscal year, with Bonds issued maturing or subject to mandatory redemption each fiscal year thereafter up to 25 years. Bonds issued under Section 3 of this Act for the costs associated with the purchase and implementation of information technology must be issued with principal or mandatory redemption amounts in equal amounts, with the first maturity issued occurring with the fiscal year in which the respective bonds are issued or with the next succeeding fiscal year, with the respective bonds issued maturing or subject to mandatory redemption each fiscal year thereafter up to 10 years.

In the case of any series of Bonds bearing interest at a variable interest rate ("Variable Rate Bonds"), in lieu of determining the rate or rates at which such series of Variable Rate Bonds shall bear interest and the price or prices at which such Variable Rate Bonds shall be initially sold or remarketed (in the event of purchase and subsequent resale), the Bond Sale Order may provide that such interest rates and prices may vary from time to time depending on criteria established in such Bond Sale Order, which criteria may include, without limitation, references to indices or variations in interest rates as may, in the judgment of a remarketing agent, be necessary to cause Variable Rate Bonds of such series to be remarketable from time to time at a price equal to their principal amount, and may provide for appointment of a bank, trust company, investment bank, or other financial institution to serve as remarketing agent in that connection. The Bond Sale Order may provide that alternative interest rates or provisions for establishing alternative interest rates, different security or claim priorities, or different call or amortization provisions will apply during such times as Variable Rate Bonds of any series are held by a person providing credit or liquidity enhancement arrangements for such Bonds as authorized in subsection (b) of this Section. The Bond Sale Order may also provide for such variable interest rates to be established pursuant to a process generally known as an auction rate process and may provide for appointment of one or more financial institutions to serve as auction agents and broker-dealers in connection with the establishment of such interest rates and the sale and remarketing of such Bonds.

(b) In connection with the issuance of any series of Bonds, the State may enter into arrangements to provide additional security and liquidity for such Bonds, including, without limitation, bond or interest rate insurance or letters of credit, lines of credit, bond purchase contracts, or other arrangements whereby funds are made available to retire or purchase Bonds, thereby assuring the ability of owners of the Bonds to sell or redeem their Bonds. The State may enter into contracts and may agree to pay fees to persons providing such arrangements, but only under circumstances where the Director of the Governor's Office of Management and Budget certifies that he or she reasonably expects the total interest paid or to be paid on the Bonds, together with the fees for the arrangements (being treated as if interest), would not, taken together, cause the Bonds to bear interest, calculated to their stated maturity, at a rate in excess of the rate that the Bonds would bear in the absence of such arrangements.

The State may, with respect to Bonds issued or anticipated to be issued, participate in and enter into arrangements with respect to interest rate protection or exchange agreements, guarantees, or financial futures contracts for the purpose of limiting, reducing, or managing interest rate exposure. The authority granted under this paragraph, however, shall not increase the principal amount of Bonds authorized to be issued by law. The arrangements may be executed and delivered by the Director of the Governor's Office of Management and Budget on behalf of the State. Net payments for such arrangements shall constitute interest on the Bonds and shall be paid from the General Obligation Bond Retirement and Interest Fund. The Director of the Governor's Office of Management and Budget shall at least annually certify to the Governor and the State Comptroller his or her estimate of the amounts of such net payments to be included in the calculation of interest required to be paid by the State.

(c) Prior to the issuance of any Variable Rate Bonds pursuant to subsection (a), the Director of the Governor's Office of Management and Budget shall adopt an interest rate risk management policy providing that the amount of the State's variable rate exposure with respect to Bonds shall not exceed 20%. This policy shall remain in effect while any Bonds are outstanding and the issuance of Bonds shall be subject to the terms of such policy. The terms of this policy may be amended from time to time by the Director of the Governor's Office of Management and Budget but in no event shall any amendment cause the permitted level of the State's variable rate exposure with respect to Bonds to exceed 20%. (Source: P.A. 92-16, eff. 6-28-01; 93-9, eff. 6-3-03; 93-666, eff. 3-5-04; 93-839, eff. 7-30-04.)

Section 30-11. If and only if the provisions of House Bill 2400 of the 96th General Assembly that are changed by this amendatory Act of the 96th General Assembly become law, then the General Obligation Bond Act is amended by changing Section 4 as follows:

In particular, the Initiative is intended to weatherize owner-occupied, single family homes and multi-family (6 units or fewer) housing in census tracts with high rates of unemployment, underemployment, and poverty and to ensure that residents of those communities are able to access the work as a local employment engine. The Initiative also seeks to implement outreach strategies to increase awareness of cost savings and job training services associated with the program.

A portion of outreach activities must occur in convenient, local intake centers, including but not limited to churches, local schools, and community centers.

(e) Any private, public, and non-profit entities that provide, or demonstrate desire and

ability to provide, weatherization services that act to decrease the impact of energy costs on low-income areas and incorporate an effective local employment strategy are eligible grant applicants.

(f) For grant recipients, maximum per unit expenditure shall not exceed \$6,500.

(g) A grant recipient may not be awarded grants totaling more than \$500,000 per fiscal year.

Section 40-35. Quarterly reports. Grant recipients must submit quarterly reports of their grant activities to the Department in accordance with rules adopted under this Article.

Section 40-40. Weatherization Initiative Board.

(a) The Weatherization Initiative Board is created within the Department. The Board must approve or deny all grants from the Fund.

(a-5) Notwithstanding any other provision of this Article, the Board has the authority to direct the Department to authorize the awarding of grants to applicants serving areas or populations not included in the target areas and populations set forth in Section 40-25 if the Board determines that there are special circumstances involving the areas or populations served by the applicant.

Sec. 15. Minimum requirements for licensing and registration. Every video gaming terminal offered for play shall first be tested and approved pursuant to the rules of the Board, and each video gaming terminal offered in this State for play shall conform to an approved model. The Board may utilize the services of an independent outside testing laboratory for the examination of video gaming machines and associated equipment as required by this Section. Board. Each approved model shall, at a minimum, meet the following criteria:

- (1) It must conform to all requirements of federal law and regulations, including FCC Class A Emissions Standards.

Sec. 7.12. Internet pilot program. The General Assembly finds that:

(1) the consumer market in Illinois has changed since the creation of the Illinois State Lottery in 1974;

(2) the Internet has become an integral part of everyday life for a significant number of Illinois residents not only in regards to their professional life, but also in regards to personal business and communication; and

(3) the current practices of selling lottery tickets does not appeal to the new form of market participants who prefer to make purchases on the internet at their own convenience.

It is the intent of the General Assembly to create an Internet pilot program for the sale of lottery tickets to capture this new form of market participant.

The Department shall create a pilot program that allows an individual to purchase lottery tickets or shares on the Internet without using a Lottery retailer with on-line status, as those terms are defined by rule. The Department shall adopt rules necessary for the administration of this program. These rules shall include requirements for marketing of the Lottery to infrequent players. The provisions of this Act and the rules adopted under this Act shall apply to the sale of lottery tickets or shares under this program.

Before beginning the pilot program, the Department of Revenue must seek a clarifying memorandum from the federal Department of Justice that it is legal for Illinois residents and non-Illinois residents to purchase and the private company to sell lottery tickets on the Internet on behalf of the State of Illinois under the federal Unlawful Internet Gambling Enforcement Act of 2006.

The Department shall limit the individuals authorized to purchase lottery tickets on the Internet to individuals who are 18 years of age or older and Illinois residents, unless the clarifying memorandum from the federal Department of Justice indicates that it is legal for non-Illinois residents to purchase lottery tickets on the Internet, and shall set a limitation on the monthly purchases that may be made through any one individual's lottery account. The Department is obligated to implement the pilot program set forth in this Section and Sections 7.15, 7.16, and 7.17 only at such time, and to such extent, that the Department of Justice issues a clarifying memorandum finding such program to be permitted under federal law to the extent permitted by the federal Department of Justice in its clarifying memorandum. Only Lotto and Mega Million games offered by the Illinois Lottery may be offered through the pilot program.

The pilot program must be conducted pursuant to a contract with a private vendor that has the expertise, technical capability, and knowledge of the Illinois lottery marketplace to conduct the program. The Department of the Lottery must ~~seek~~ **ensure** cooperation from existing vendors for the program.

The pilot program shall last for not less than 36 months, but not more than 48 months.

(20 ILCS 1605/7.17)

Sec. 7.17. Contracts. The contract with a private vendor to fulfill the pilot program requirements of Sections 7.12, 7.15, and 7.16 of this Act must be separate from lottery contracts existing on the effective date of this Section. To the extent feasible based upon the receipt of the clarifying memorandum permitting the program to proceed, the ~~The~~ Department shall enter into a contract with a private vendor no later than December 1, 2009 and the private vendor must begin performance on the contract no later than January 1, 2010. The Department must ensure cooperation from all existing contractors supporting the Lottery and any private manager selected under Section 9.1 of the Act.

All contracts entered into (i) with a private vendor to fulfill the requirements for the pilot program under Section 7.12 or (ii) for the development and provision of technology and controls under this Section shall be awarded pursuant to Section 20-35 of the Illinois Procurement Code.

No tickets or shares offered in connection with a multi-state lottery game shall be sold within the State of Illinois, except those offered by and through the Department. No such agreement shall purport to pledge the full faith and credit of the State of Illinois, nor shall the Department expend State funds on a contractual basis in connection with any such game unless such expenditures are expressly authorized by the General Assembly, provided, however, that in the event of error or omission by the Illinois State Lottery in the conduct of the game, as determined by the multi-state game directors, the Department shall be authorized to pay a prize winner or winners the lesser of a disputed prize or \$1,000,000, any such payment to be made solely from funds appropriated for game prize purposes. j. support of the Lottery in effect on the effective date of this amendatory Act of the 96th General Assembly in connection with the selection of the private manager. As part of its obligation to terminate these contracts and select the private manager, the Department shall establish a mutually agreeable timetable to transfer the functions of existing contractors to the private manager so that existing Lottery operations are not materially diminished or impaired during the transition. To that end, the Department shall do the following as follows:

(1) where such contracts contain a provision authorizing termination upon notice, the Department shall provide notice of termination to occur upon the mutually agreed timetable for transfer of functions ~~the effective date of the management agreement with the private manager~~;

If the contracts to support the current operation of the Lottery in effect on the effective date of this amendatory Act of the 96th General Assembly are not subject to termination as provided for in this subsection (c), then the Department may include a provision in the contract with the private manager specifying a mutually agreeable methodology for incorporation.

(c-5) The Department is authorized to include provisions in the management agreement whereby the private manager shall, for a fee, and pursuant to a contract negotiated with the Department (the "Employee Use Contract"), utilize the services of current Department employees to assist in the administration and operation of the Lottery. Prior to the expiration of the applicable collective bargaining agreement on June 30, 2012, the Department shall be the employer of all such bargaining unit employees assigned to perform such work for the private manager, and such employees shall be State employees, as defined by the Personnel Code. During that period, Department employees shall operate under the same employment policies, rules, regulations, and procedures, as other employees of the Department. In addition, neither historical representation rights under the Illinois Public Labor Relations Act, nor existing collective bargaining agreements shall be, during that period, disturbed by the management agreement with the private manager for the management of the Lottery.

At least 30 days prior to the expiration of the applicable collective bargaining agreement on June 30, 2012, the private manager may, at its discretion, offer available employment positions to qualified employees of the Department then working under the supervision of the private manager, pursuant to the

Section 60-15. If and only if House Bill 255 of the 96th General Assembly becomes law, the Use Tax Act is amended by changing Section 3-10 as follows:

(35 ILCS 105/3-10) (from Ch. 120, par. 439.3-10)

Sec. 3-10. Rate of tax. Unless otherwise provided in this Section, the tax imposed by this Act is at the rate of 6.25% of either the selling price or the fair market value, if any, of the tangible personal property. In all cases where property functionally used or consumed is the same as the property that was purchased at retail, then the tax is imposed on the selling price of the property. In all cases where property functionally used or consumed is a by-product or waste product that has been refined, manufactured, or produced from property purchased at retail, then the tax is imposed on the lower of the fair market value, if any, of the specific property so used in this State or on the selling price of the property purchased at retail. For purposes of this Section "fair market value" means the price at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of the relevant facts. The fair market value shall be established by Illinois sales by the taxpayer of the same property as that functionally used or consumed, or if there are no such sales by the taxpayer, then comparable sales or purchases of property of like kind and character in Illinois.

Beginning on July 1, 2000 and through December 31, 2000, with respect to motor fuel, as defined in Section 1.1 of the Motor Fuel Tax Law, and gasohol, as defined in Section 3-40 of the Use Tax Act, the tax is imposed at the rate of 1.25%.

With respect to gasohol, the tax imposed by this Act applies to (i) 70% of the proceeds of sales made on or after January 1, 1990, and before July 1, 2003, (ii) 80% of the proceeds of sales made on or after July 1, 2003 and on or before December 31, 2013, and (iii) 100% of the proceeds of sales made thereafter. If, at any time, however, the tax under this Act on sales of gasohol is imposed at the rate of 1.25%, then the tax imposed by this Act applies to 100% of the proceeds of sales of gasohol made during that time.

With respect to majority blended ethanol fuel, the tax imposed by this Act does not apply to the proceeds of sales made on or after July 1, 2003 and on or before December 31, 2013 but applies to 100% of the proceeds of sales made thereafter.

With respect to biodiesel blends with no less than 1% and no more than 10% biodiesel, the tax imposed by this Act applies to (i) 80% of the proceeds of sales made on or after July 1, 2003 and on or before December 31, 2013 and (ii) 100% of the proceeds of sales made thereafter. If, at any time, however, the tax under this Act on sales of biodiesel blends with no less than 1% and no more than 10% biodiesel is imposed at the rate of 1.25%, then the tax imposed by this Act applies to 100% of the proceeds of sales of biodiesel blends with no less than 1% and no more than 10% biodiesel made during that time.

With respect to 100% biodiesel and biodiesel blends with more than 10% but no more than 99% biodiesel, the tax imposed by this Act does not apply to the proceeds of sales made on or after July 1, 2003 and on or before December 31, 2013 but applies to 100% of the proceeds of sales made thereafter.

With respect to food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks, and food that has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances, modifications to a motor vehicle for the purpose of rendering it usable by a disabled person, and insulin, urine testing materials, syringes, and needles used by diabetics, for human use, the tax is imposed at the rate of 1%. For the purposes of this Section, until August 1, 2009: the term "soft drinks" means any complete, finished, ready-to-use, non-alcoholic drink, whether carbonated or not, including but not limited to soda water, cola, fruit juice, vegetable juice, carbonated water, and all other preparations commonly known as soft drinks of whatever kind or description that are contained in any closed or sealed bottle, can, carton, or container, regardless of size; but "soft drinks" does not include coffee, tea, non-carbonated water, infant formula, milk or milk products as defined in the Grade A Pasteurized Milk and Milk Products Act, or drinks containing 50% or more natural fruit or vegetable juice.

non-alcoholic beverages that contain natural or artificial sweeteners. "Soft drinks" do not include beverages that contain milk or milk products, soy, rice or similar milk substitutes, or greater than 50% of vegetable or fruit juice by volume.

Until August 1, 2009, and notwithstanding ~~Notwithstanding~~ any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks, candy, and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine. For purposes of this Section, "candy" means a preparation of sugar, honey, or other natural or artificial sweeteners in combination with chocolate, fruits, nuts or other ingredients or flavorings in the form of bars, drops, or pieces. "Candy" does not include any preparation that contains flour or requires refrigeration.

Notwithstanding any other provisions of this Act, beginning August 1, 2009, "nonprescription medicines and drugs" does not include grooming and hygiene products. For purposes of this Section, "grooming and hygiene products" includes, but is not limited to, soaps and cleaning solutions, shampoo, toothpaste, mouthwash, antiperspirants, and sun tan lotions and screens, unless those products are available by prescription only, regardless of whether the products meet the definition of "over-the-counter-drugs". For the purposes of this paragraph, "over-the-counter-drug" means a drug for human use that contains a label that identifies the product as a drug as required by 21 C.F.R. § 201.66. The "over-the-counter-drug" label includes:

- (A) A "Drug Facts" panel; or
- (B) A statement of the "active ingredient(s)" with a list of those ingredients contained in the compound, substance or preparation.

If the property that is purchased at retail from a retailer is acquired outside Illinois and used outside Illinois before being brought to Illinois for use here and is taxable under this Act, the "selling price" on which the tax is computed shall be reduced by an amount that represents a reasonable allowance for depreciation for the period of prior out-of-state use.

(35 ILCS 115/3-10) (from Ch. 120, par. 439.103-10)

Sec. 3-10. Rate of tax. Unless otherwise provided in this Section, the tax imposed by this Act is at the rate of 6.25% of the "selling price", as defined in Section 2 of the Service Use Tax Act, of the tangible personal property. For the purpose of computing this tax, in no event shall the "selling price" be less than the cost price to the serviceman of the tangible personal property transferred. The selling price of each item of tangible personal property transferred as an incident of a sale of service may be shown as a distinct and separate item on the serviceman's billing to the service customer. If the selling price is not so shown, the selling price of the tangible personal property is deemed to be 50% of the serviceman's entire billing to the service customer. When, however, a serviceman contracts to design, develop, and produce special order machinery or equipment, the tax imposed by this Act shall be based on the serviceman's cost price of the tangible personal property transferred incident to the completion of the contract.

Beginning on July 1, 2000 and through December 31, 2000, with respect to motor fuel, as defined in Section 1.1 of the Motor Fuel Tax Law, and gasohol, as defined in Section 3-40 of the Use Tax Act, the tax is imposed at the rate of 1.25%.

With respect to gasohol, as defined in the Use Tax Act, the tax imposed by this Act shall apply to (i) 70% of the cost price of property transferred as an incident to the sale of service on or after January 1, 1990, and before July 1, 2003, (ii) 80% of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2013, and (iii) 100% of the cost price thereafter. If, at any time, however, the tax under this Act on sales of gasohol, as defined in the Use Tax Act, is imposed at the rate of 1.25%, then the tax imposed by this Act applies to 100% of the proceeds of sales of gasohol made during that time.

With respect to majority blended ethanol fuel, as defined in the Use Tax Act, the tax imposed by this Act does not apply to the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2013 but applies to 100% of the selling price thereafter.

With respect to biodiesel blends, as defined in the Use Tax Act, with no less than 1% and no more than 10% biodiesel, the tax imposed by this Act applies to (i) 80% of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2013 and (ii) 100% of the proceeds of the selling price thereafter. If, at any time, however, the tax under this Act on sales of biodiesel blends, as defined in the Use Tax Act, with no less than 1% and no more than 10% biodiesel is imposed at the rate of 1.25%, then the tax imposed by this Act applies to 100% of the proceeds of sales of biodiesel blends with no less than 1% and no more than 10% biodiesel made during that time.

With respect to 100% biodiesel, as defined in the Use Tax Act, and biodiesel blends, as defined in the Use Tax Act, with more than 10% but no more than 99% biodiesel material, the tax imposed by this Act does not apply to the proceeds of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before December 31, 2013 but applies to 100% of the selling price thereafter.

At the election of any registered serviceman made for each fiscal year, sales of service in which the aggregate annual cost price of tangible personal property transferred as an incident to the sales of service is less than 35%, or 75% in the case of servicemen transferring prescription drugs or servicemen engaged in graphic arts production, of the aggregate annual total gross receipts from all sales of service, the tax imposed by this Act shall be based on the serviceman's cost price of the tangible personal property transferred incident to the sale of those services.

The tax shall be imposed at the rate of 1% on food prepared for immediate consumption and transferred incident to a sale of service subject to this Act or the Service Occupation Tax Act by an entity licensed under the Hospital Licensing Act, the Nursing Home Care Act, or the Child Care Act of 1969. The tax shall also be imposed at the rate of 1% on food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks, and food that has

been prepared for immediate consumption and is not otherwise included in this paragraph) and prescription and nonprescription medicines, drugs, medical appliances, modifications to a motor vehicle for the purpose of rendering it usable by a disabled person, and insulin, urine testing materials, syringes, and needles used by diabetics, for human use. For the purposes of this Section, until August 1, 2009: the term "soft drinks" means any complete, finished, ready-to-use, non-alcoholic drink, whether carbonated or not, including but not limited to soda water, cola, fruit juice, vegetable juice, carbonated water, and all other preparations commonly known as soft drinks of whatever kind or description that are contained in any closed or sealed can, carton, or container, regardless of size; but "soft drinks" does not include coffee, tea, non-carbonated water, infant formula, milk or milk products as defined in the Grade A Pasteurized Milk and Milk Products Act, or drinks containing 50% or more natural fruit or vegetable juice.

Notwithstanding any other provisions of this Act, beginning August 1, 2009, "soft drinks" means ~~mean~~

non-alcoholic beverages that contain natural or artificial sweeteners. "Soft drinks" do not include beverages that contain milk or milk products, soy, rice or similar milk substitutes, or greater than 50% of vegetable or fruit juice by volume.

Until August 1, 2009, and notwithstanding ~~Notwithstanding~~ any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks, ~~candy~~, and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine. Beginning August 1, 2009, and notwithstanding any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks, candy, and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine.

Notwithstanding any other provisions of this Act, beginning August 1, 2009, "food for human consumption that is to be consumed off the premises where it is sold" does not include candy. For purposes of this Section, "candy" means a preparation of sugar, honey, or other natural or artificial sweeteners in combination with chocolate, fruits, nuts or other ingredients or flavorings in the form of bars, drops, or pieces. "Candy" does not include any preparation that contains flour or requires refrigeration.

Notwithstanding any other provisions of this Act, beginning August 1, 2009, "nonprescription medicines and drugs" does not include grooming and hygiene products. For purposes of this Section, "grooming and hygiene products" includes, but is not limited to, soaps and cleaning solutions, shampoo, toothpaste, mouthwash, antiperspirants, and sun tan lotions and screens, unless those products are available by prescription only, regardless of whether the products meet the definition of "over-the-counter-drugs". For the purposes of this paragraph, "over-the-counter-drug" means a drug for human use that contains a label that identifies the product as a drug as required by 21 C.F.R. § 201.66. The "over-the-counter-drug" label includes:

- (A) A "Drug Facts" panel; or
- (B) A statement of the "active ingredient(s)" with a list of those ingredients contained in the compound, substance or preparation.

(a-4) Beginning on the first day on which the tax imposed under subsection (a-3) is no longer imposed, a privilege tax is imposed on persons engaged in the business of conducting riverboat gambling operations, other than licensed managers conducting riverboat gambling operations on behalf of the State, based on the adjusted gross receipts received by a licensed owner from gambling games authorized under this Act at the following rates:

(a-8) Riverboat gambling operations conducted by a licensed manager on behalf of the State are not subject to the tax imposed under this Section.

(a-10) The taxes imposed by this Section shall be paid by the licensed owner to the Board not later than 3:00 o'clock p.m. of the day after the day when the wagers were made.

(a-15) If the privilege tax imposed under subsection (a-3) is no longer imposed pursuant to item (i) of the last paragraph of subsection (a-3), then by June 15 of each year, each owners licensee, other than an owners licensee that admitted 1,000,000 persons or fewer in calendar year 2004, must, in addition to the payment of all amounts otherwise due under this Section, pay to the Board a reconciliation payment in the amount, if any, by which the licensed owner's base amount exceeds the amount of net privilege tax paid by the licensed owner to the Board in the then current State fiscal year. A licensed owner's net privilege tax obligation due for the balance of the State fiscal year shall be reduced up to the total of the amount paid by the licensed owner in its June 15 reconciliation payment. The obligation imposed by this subsection (a-15) is binding on any person, firm, corporation, or other entity that acquires an ownership interest in any such owners license. The obligation imposed under this subsection (a-15) terminates on the earliest of: (i) July 1, 2007, (ii) the first day after the effective date of this amendatory Act of the 94th General Assembly that riverboat gambling operations are conducted pursuant to a dormant license, (iii) the first day that riverboat gambling operations are conducted under the authority of an owners license that is in addition to the 10 owners licenses initially authorized under this Act, or (iv) the first day that a licensee under the Illinois Horse Racing Act of 1975 conducts gaming operations with slot machines or other electronic gaming devices. If an owners licensee pays an amount in excess of its liability under this Section, the Board shall apply the overpayment to future payments required under this Section.

For purposes of this subsection (a-15):

"Act of God" means an incident caused by the operation of an extraordinary force that cannot be foreseen, that cannot be avoided by the exercise of due care, and for which no person can be held liable.

"Dormant license" has the meaning ascribed to it in subsection (a-3).

"Net privilege tax" means all privilege taxes paid by a licensed owner to the Board under this Section, less all payments made from the State Gaming Fund pursuant to subsection (b) of this Section.

The changes made to this subsection (a-15) by Public Act 94-839 are intended to restate and clarify the intent of Public Act 94-673 with respect to the amount of the payments required to be made under this subsection by an owners licensee to the Board.

(b) Until January 1, 1998, 25% of the tax revenue deposited in the State Gaming Fund under this Section shall be paid, subject to appropriation by the General Assembly, to the unit of local government which is designated as the home dock of the riverboat. (c-10) Each year the General Assembly shall appropriate from the General Revenue Fund to the Education Assistance Fund an amount equal to the amount paid into the Horse Racing Equity Fund pursuant to subsection (c-5) in the prior calendar year.

(c-15) After the payments required under subsections (b), (c), and (c-5) have been made, an amount equal to 2% of the adjusted gross receipts of (1) an owners licensee that relocates pursuant to Section 11.2, (2) an owners licensee conducting riverboat gambling operations pursuant to an owners license that is initially issued after June 25, 1999, or (3) the first riverboat gambling operations conducted by a licensed manager on behalf of the State under Section 7.3, whichever comes first, shall be paid, subject to appropriation from the General Assembly, from the State Gaming Fund to each home rule county with a population of over 3,000,000 inhabitants for the purpose of enhancing the county's criminal justice system.

(c-20) Each year the General Assembly shall appropriate from the General Revenue Fund to the Education Assistance Fund an amount equal to the amount paid to each home rule county with a population of over 3,000,000 inhabitants pursuant to subsection (c-15) in the prior calendar year.

(c-25) After the payments required under subsections (b), (c), (c-5) and (c-15) have been made, an amount equal to 2% of the adjusted gross receipts of (1) an owners licensee that relocates pursuant to Section 11.2, (2) an owners licensee conducting riverboat gambling operations pursuant to an owners license that is initially issued after June 25, 1999, or (3) the first riverboat gambling operations conducted by a licensed manager on behalf of the State under Section 7.3, whichever comes first, shall be paid from the State Gaming Fund to Chicago State University.

(d) From time to time, the Board shall transfer the remainder of the funds generated by this Act into the Education Assistance Fund, created by Public Act 86-0018, of the State of Illinois.

(e) Nothing in this Act shall prohibit the unit of local government designated as the home dock of the riverboat from entering into agreements with other units of local government in this State or in other states to share its portion of the tax revenue.

(f) To the extent practicable, the Board shall administer and collect the wagering taxes imposed by

(235 ILCS 5/8-1) (from Ch. 43, par. 158)

Sec. 8-1. A tax is imposed upon the privilege of engaging in business as a manufacturer or as an importing distributor of alcoholic liquor other than beer at the rate of \$0.185 per gallon for cider containing not less than 0.5% alcohol by volume nor more than 7% alcohol by volume, \$0.73 per gallon until August 1, 2009 and \$1.39 per gallon beginning August 1, 2009 for wine other than cider containing less than 7% alcohol by volume, and \$4.50 per gallon until August 1, 2009 and \$8.55 per gallon beginning August 1, 2009 on alcohol and spirits manufactured and sold or used by such manufacturer, or as agent for any other person, or sold or used by such importing distributor, or as agent for any other person. A tax is imposed upon the privilege of engaging in business as a manufacturer of beer or as an importing distributor of beer at the rate of \$0.185 per gallon until August 1, 2009 and \$0.231 per gallon beginning August 1, 2009 on all beer manufactured and sold or used by such manufacturer, or as agent for any other person, or sold or used by such importing distributor, or as agent for any other person. Any brewer manufacturing beer in this State shall be entitled to and given a credit or refund of 75% of the tax imposed on each gallon of beer up to 4.9 million gallons per year in any given calendar year for tax paid or payable on beer produced and sold in the State of Illinois.

For the purpose of this Section, "cider" means any alcoholic beverage obtained by the alcohol fermentation of the juice of apples or pears including, but not limited to, flavored, sparkling, or carbonated cider.

Retailers and distributors who are subject to the additional tax imposed by this paragraph of this Section shall be required to inventory such alcoholic liquor and to pay this additional tax in a manner prescribed by the Department.

The provisions of this Section shall be construed to apply to any importing distributor engaging in business in this State, whether licensed or not.

However, such tax is not imposed upon any such business as to any alcoholic liquor shipped outside Illinois by an Illinois licensed manufacturer or importing distributor, nor as to any alcoholic liquor delivered in Illinois by an Illinois licensed manufacturer or importing distributor to a purchaser for immediate transportation by the purchaser to another state into which the purchaser has a legal right, under the laws of such state, to import such alcoholic liquor, nor as to any alcoholic liquor other than beer sold by one Illinois licensed manufacturer or importing distributor to another Illinois licensed manufacturer or importing distributor to the extent to which the sale of alcoholic liquor other than beer by one Illinois licensed manufacturer or importing distributor to another Illinois licensed manufacturer or importing distributor is authorized by the licensing provisions of this Act, nor to alcoholic liquor whether manufactured in or imported into this State when sold to a "non-beverage user" licensed by the State for use in the manufacture of any of the following when they are unfit for beverage purposes:

The tax herein imposed shall be in addition to all other occupation or privilege taxes imposed by the State of Illinois or political subdivision thereof.

If any alcoholic liquor manufactured in or imported into this State is sold to a licensed manufacturer or importing distributor by a licensed manufacturer or importing distributor to be used solely as an ingredient in the manufacture of any beverage for human consumption, the tax imposed upon such purchasing manufacturer or importing distributor shall be reduced by the amount of the taxes which have been paid by the selling manufacturer or importing distributor under this Act as to such alcoholic liquor so used to the Department of Revenue.

Section 60-40. If and only if House Bill 255 of the 96th General Assembly becomes law, the Illinois Vehicle Code is amended by changing Sections 15-102, 15-107, and 15-111, as follows:

(625 ILCS 5/15-102) (from Ch. 95 1/2, par. 15-102)

Sec. 15-102. Width of Vehicles.

(a) On Class III and non-designated State and local highways, the total outside width of any vehicle or load thereon shall not exceed 8 feet.

(b) Except during those times when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the highway are not clearly discernible at a distance of 1000 feet, the following vehicles may exceed the 8 feet limitation during the period from a half hour before sunrise to a half hour after sunset:

- (1) Loads of hay, straw or other similar farm products provided that the load is not more than 12 feet wide.
- (2) Implements of husbandry being transported on another vehicle and the transporting vehicle while loaded.

The following requirements apply to the transportation on another vehicle of an implement of husbandry wider than 8 feet 6 inches on the National System of Interstate and Defense Highways or other highways in the system of State highways:

(A) The driver of a vehicle transporting an implement of husbandry that exceeds 8 feet 6 inches in width shall obey all traffic laws and shall check the roadways prior to making a movement in order to ensure that adequate clearance is available for the movement. It is prima facie evidence that the driver of a vehicle transporting an implement of husbandry has failed to check the roadway prior to making a movement if the vehicle is involved in a collision with a bridge, overpass, fixed structure, or properly placed traffic control device or if the vehicle blocks traffic due to its inability to proceed because of a bridge, overpass, fixed structure, or properly placed traffic control device.

(B) Flags shall be displayed so as to wave freely at the extremities of overwidth objects and at the extreme ends of all protrusions, projections, and overhangs. All flags shall be clean, bright red flags with no advertising, wording, emblem, or insignia inscribed upon them and at least 18 inches square.

(C) "OVERSIZE LOAD" signs are mandatory on the front and rear of all vehicles with loads over 10 feet wide. These signs must have 12-inch high black letters with a 2-inch stroke on a

yellow sign that is 7 feet wide by 18 inches high.

(D) One civilian escort vehicle is required for a load that exceeds 14 feet 6 inches in width and 2 civilian escort vehicles are required for a load that exceeds 16 feet in width on the National System of Interstate and Defense Highways or other highways in the system of State highways.

(E) The requirements for a civilian escort vehicle and driver are as follows:

(1) The civilian escort vehicle shall be a passenger car or a second division vehicle not exceeding a gross vehicle weight of 8,000 pounds that is designed to afford clear and unobstructed vision to both front and rear.

(2) The escort vehicle driver must be properly licensed to operate the vehicle.

(3) While in use, the escort vehicle must be equipped with illuminated rotating, oscillating, or flashing amber lights or flashing amber strobe lights mounted on top that are of sufficient intensity to be visible at 500 feet in normal sunlight.

(4) "OVERSIZE LOAD" signs are mandatory on all escort vehicles. The sign on an escort vehicle shall have 8-inch high black letters on a yellow sign that is 5 feet wide by 12 inches high.

(5) When only one escort vehicle is required and it is operating on a two-lane highway, the escort vehicle shall travel approximately 300 feet ahead of the load. The rotating, oscillating, or flashing lights or flashing amber strobe lights and an "OVERSIZE LOAD" sign shall be displayed on the escort vehicle and shall be visible from the front. When only one escort vehicle is required and it is operating on a multilane divided highway, the escort vehicle shall travel approximately 300 feet behind the load and the sign and lights shall be visible from the rear.

(6) When 2 escort vehicles are required, one escort shall travel approximately 300 feet ahead of the load and the second escort shall travel approximately 300 feet behind the load. The rotating, oscillating, or flashing lights or flashing amber strobe lights and an "OVERSIZE LOAD" sign shall be displayed on the escort vehicles and shall be visible from the front on the lead escort and from the rear on the trailing escort.

(7) When traveling within the corporate limits of a municipality, the escort vehicle shall maintain a reasonable and proper distance from the oversize load, consistent with existing traffic conditions.

(8) A separate escort shall be provided for each load hauled.

(9) The driver of an escort vehicle shall obey all traffic laws.

(10) The escort vehicle must be in safe operational condition.

(11) The driver of the escort vehicle must be in radio contact with the driver of the vehicle carrying the oversize load.

(F) A transport vehicle while under load of more than 8 feet 6 inches in width must be equipped with an illuminated rotating, oscillating, or flashing amber light or lights or a flashing amber strobe light or lights mounted on the top of the cab that are of sufficient intensity to be visible at 500 feet in normal sunlight. If the load on the transport vehicle blocks the visibility of the amber lighting from the rear of the vehicle, the vehicle must also be equipped with an illuminated rotating, oscillating, or flashing amber light or lights or a flashing amber strobe light or lights mounted on the rear of the load that are of sufficient intensity to be visible at 500 feet in normal sunlight.

(G) When a flashing amber light is required on the transport vehicle under load and it is operating on a two-lane highway, the transport vehicle shall display to the rear at least one rotating, oscillating, or flashing light or a flashing amber strobe light and an "OVERSIZE LOAD" sign. When a flashing amber light is required on the transport vehicle under load and it is operating on a multilane divided highway, the sign and light shall be visible from the rear.

(H) Maximum speed shall be 45 miles per hour on all such moves or 5 miles per hour above the posted minimum speed limit, whichever is greater, but the vehicle shall not at any time exceed the posted maximum speed limit.

(3) Portable buildings designed and used for agricultural and livestock raising operations that are not more than 14 feet wide and with not more than a 1 foot overhang along the left side of the hauling vehicle. However, the buildings shall not be transported more than 10 miles and not on any route that is part of the National System of Interstate and Defense Highways. All buildings when being transported shall display at least 2 red cloth flags, not less than 12 inches square, mounted as high as practicable on the left and right side of the building.

A State Police escort shall be required if it is necessary for this load to use part of the left lane when

crossing any 2 laned State highway bridge.

(c) Vehicles propelled by electric power obtained from overhead trolley wires operated wholly within the corporate limits of a municipality are also exempt from the width limitation.

(d) Exemptions are also granted to vehicles designed for the carrying of more than 10 persons under the following conditions:

(1) (Blank);

(2) When operated within any public transportation service with the approval of local authorities or an appropriate public body authorized by law to provide public transportation. Any vehicle so operated may be 8 feet 6 inches in width; or

(3) When a county engineer or superintendent of highways, after giving due consideration to the mass transportation needs of the area and to the width and condition of the road, has determined that the operation of buses wider than 8 feet will not pose an undue safety hazard on a particular county or township road segment, he or she may authorize buses not to exceed 8 feet 6 inches in width on any highway under that engineer's or superintendent's jurisdiction.

(d-1) A recreational vehicle, as defined in Section 1-169, may exceed 8 feet 6 inches in width if:

(1) the excess width is attributable to appurtenances that extend 6 inches or less beyond either side of the body of the vehicle; and

(2) the roadway on which the vehicle is traveling has marked lanes for vehicular traffic that are at least 11 feet in width.

As used in this subsection (d-1) and in subsection (d-2), the term appurtenance includes (i) a retracted awning and its support hardware and (ii) any appendage that is intended to be an integral part of a recreation vehicle.

(d-2) A recreational vehicle that exceeds 8 feet 6 inches in width as provided in subsection (d-1) may travel any roadway of the State if the vehicle is being operated between a roadway permitted under subsection (d-1) and:

(1) the location where the recreation vehicle is garaged;

(2) the destination of the recreation vehicle; or

(3) a facility for food, fuel, repair, services, or rest.

(e) A vehicle and load traveling upon the National System of Interstate and Defense Highways or any other highway in the system of State highways that has been designated as a Class I or Class II highway by the Department, or any street or highway designated by local authorities, may have a total outside width of 8 feet 6 inches, provided that certain safety devices that the Department determines as necessary for the safe and efficient operation of motor vehicles shall not be included in the calculation of width.

~~(e-1) A vehicle and load more than 8 feet wide but not exceeding 8 feet 6 inches in width is allowed access according to the following:~~

~~(1) A vehicle and load not exceeding 80,000 pounds in weight is allowed access from any State designated highway onto any county, township, or municipal highway for a distance of 5 highway miles for the purpose of loading and unloading, provided:~~

~~(6) All household goods carriers shall have unlimited access to points of loading and unloading.~~

Section 5-35 of the Illinois Administrative Procedure Act relating to procedures for rulemaking shall not apply to the designation of highways under this paragraph (e).

(f) Mirrors required by Section 12-502 of this Code and other safety devices identified by the Department may project up to 14 inches beyond each side of a bus and up to 6 inches beyond each side of any other vehicle, and that projection shall not be deemed a violation of the width restrictions of this Section.

(b) On all non-State highways, the maximum length of vehicles in combinations is as follows:

(1) A truck tractor in combination with a semitrailer may not exceed 55 feet overall dimension.

(2) A truck tractor-semitrailer-trailer may not exceed 60 feet overall dimension.

(3) Combinations specially designed to transport motor vehicles or boats may not exceed 60 feet overall dimension.

Vehicles operating during daylight hours when transporting poles, pipes, machinery, or other objects of a structural nature that cannot readily be dismembered are exempt from length limitations, provided that no object may exceed 80 feet in length and the overall dimension of the vehicle including the load may not exceed 100 feet. This exemption does not apply to operation on a Saturday, Sunday, or legal holiday. Legal holidays referred to in this Section are the days on which the following traditional holidays are celebrated: New Year's Day; Memorial Day; Independence Day; Labor Day; Thanksgiving Day; and Christmas Day.

Vehicles and loads operated by a public utility while en route to make emergency repairs to public service facilities or properties are exempt from length limitations, provided that during night operations every vehicle and its load must be equipped with a sufficient number of clearance lamps on both sides and marker lamps on the extreme ends of any projecting load to clearly mark the dimensions of the load.

 Sec. 15-111. Wheel and axle loads and gross weights.

(a) On non-designated highways, no vehicle or combination of vehicles equipped with pneumatic tires may be operated, unladen or with load, when the total weight transmitted to the road surface exceeds 20,000 pounds on a single axle or 34,000 pounds on a tandem axle with no axle within the tandem exceeding 20,000 pounds except:

- (1) when a different limit is established and posted in accordance with Section 15-316 of this Code;
- (2) vehicles for which the Department of Transportation and local authorities issue overweight permits under authority of Section 15-301 of this Code;
- (3) tow trucks subject to the conditions provided in subsection (d) may not exceed 24,000 pounds on a single rear axle or 44,000 pounds on a tandem rear axle;

(4) any single axle of a 2-axle truck weighing 36,000 pounds or less and not a part of a combination of vehicles, shall not exceed 20,000 pounds;

(5) any single axle of a 2-axle truck equipped with a personnel lift or digger derrick, weighing 36,000 pounds or less, owned and operated by a public utility, shall not exceed 20,000 pounds;

(6) any single axle of a 2-axle truck specially equipped with a front loading compactor used exclusively for garbage, refuse, or recycling may not exceed 20,000 pounds per axle, provided that the gross weight of the vehicle does not exceed 40,000 pounds;

(7) a truck, not in combination and specially equipped with a selfcompactor or an industrial roll-off hoist and roll-off container, used exclusively for garbage or refuse operations may, when laden, transmit upon the road surface the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle;

(8) a truck, not in combination and used exclusively for the collection of rendering materials, may, when laden, transmit upon the road surface the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle;

(9) tandem axles on a 3-axle truck registered as a Special Hauling Vehicle, manufactured prior to or in the model year of 2014 and first registered in Illinois prior to January 1, 2015, with a distance greater than 72 inches but not more than 96 inches between any series of 2 axles, is allowed a combined weight on the series not to exceed 36,000 pounds and neither axle of the series may exceed 20,000 pounds. Any vehicle of this type manufactured after the model year of 2014 or first registered in Illinois after December 31, 2014 may not exceed a combined weight of 34,000 pounds through the series of 2 axles and neither axle of the series may exceed 20,000 pounds;

(10) a 4-axle truck mixer registered as a Special Hauling Vehicle, used exclusively for the mixing and transportation of concrete in the plastic state and manufactured prior to or in the model year of 2014 and first registered in Illinois prior to January 1, 2015, is allowed the following maximum weights: 20,000 pounds on any single axle; 36,000 pounds on any series of 2 axles greater than 72 inches but not more than 96 inches; and 34,000 pounds on any series of 2 axles greater than 40 inches but not more than 72 inches;

(11) 4-axle vehicles or a 5 or more axle combination of vehicles: The weight transmitted upon the road surface through any series of 3 axles whose centers are more than 96 inches apart, measured between extreme axles in the series, may not exceed those allowed in the table contained in subsection (f) of this Section. No axle or tandem axle of the series may exceed the maximum weight permitted under this Section for a single or tandem axle.

No vehicle or combination of vehicles equipped with other than pneumatic tires may be operated, unladen or with load, upon the highways of this State when the gross weight on the road surface through any wheel exceeds 800 pounds per inch width of tire tread or when the gross weight on the road surface through any axle exceeds 16,000 pounds.

(b) On non-designated highways, the gross weight of vehicles and combination of vehicles including the weight of the vehicle or combination and its maximum load shall be subject to the federal bridge formula provided in subsection (f) of this Section.

--------------	---------------

A 4-axle truck mixer registered as a Special Hauling Vehicle, used exclusively for mixing and transportation of concrete in the plastic state, manufactured before or in the model year of 2014, and first

registered in Illinois before January 1, 2015, is allowed a maximum gross weight listed in the table of subsection (f) of this Section for 4 axles. This vehicle, while loaded with concrete in the plastic state, is not subject to the series of 3 axles requirement provided for in subdivision (a)(11) of this Section, but no axle or tandem axle of the series may exceed the maximum weight permitted under subdivision (a)(10) of this Section.

(b-1) As used in this Section, a "recycling haul" or "recycling operation" means the hauling of segregated, non-hazardous, non-special, homogeneous non-putrescible materials, such as paper, glass, cans, or plastic, for subsequent use in the secondary materials market.

(c) Cities having a population of more than 50,000 may permit by ordinance axle loads on 2 axle motor vehicles 33 1/2% above those provided for herein, but the increase shall not become effective until the city has officially notified the Department of the passage of the ordinance and shall not apply to those vehicles when outside of the limits of the city, nor shall the gross weight of any 2 axle motor vehicle operating over any street of the city exceed 40,000 pounds.

(d) Weight limitations shall not apply to vehicles (including loads) operated by a public utility when transporting equipment required for emergency repair of public utility facilities or properties or water wells.

A combination of vehicles, including a tow truck and a disabled vehicle or disabled combination of vehicles, that exceeds the weight restriction imposed by this Code, may be operated on a public highway in this State provided that neither the disabled vehicle nor any vehicle being towed nor the tow truck itself shall exceed the weight limitations permitted under this Chapter. During the towing operation, neither the tow truck nor the vehicle combination shall exceed 24,000 pounds on a single rear axle and 44,000 pounds on a tandem rear axle, provided the towing vehicle:

- (1) is specifically designed as a tow truck having a gross vehicle weight rating of at least 18,000 pounds and is equipped with air brakes, provided that air brakes are required only if the towing vehicle is towing a vehicle, semitrailer, or tractor-trailer combination that is equipped with air brakes;
- (2) is equipped with flashing, rotating, or oscillating amber lights, visible for at least 500 feet in all directions;
- (3) is capable of utilizing the lighting and braking systems of the disabled vehicle or combination of vehicles; and
- (4) does not engage in a tow exceeding 20 miles from the initial point of wreck or disablement. Any additional movement of the vehicles may occur only upon issuance of authorization for that movement under the provisions of Sections 15-301 through 15-319 of this Code. The towing vehicle, however, may tow any disabled vehicle from the initial point of wreck or disablement to a point where repairs are actually to occur. This movement shall be valid only on State routes. The tower must abide by posted bridge weight limits.

Gross weight limits shall not apply to the combination of the tow truck and vehicles being towed. The tow truck license plate must cover the operating empty weight of the tow truck only. The weight of each vehicle being towed shall be covered by a valid license plate issued to the owner or operator of the vehicle being towed and displayed on that vehicle. If no valid plate issued to the owner or operator of that vehicle is displayed on that vehicle, or the plate displayed on that vehicle does not cover the weight of the vehicle, the weight of the vehicle shall be covered by the third tow truck plate issued to the owner or operator of the tow truck and temporarily affixed to the vehicle being towed. If a roll-back carrier is registered and being used as a tow truck, however, the license plate or plates for the tow truck must cover the gross vehicle weight, including any load carried on the bed of the roll-back carrier.

The Department may by rule or regulation prescribe additional requirements. However, nothing in this Code shall prohibit a tow truck under instructions of a police officer from legally clearing a disabled vehicle, that may be in violation of weight limitations of this Chapter, from the roadway to the berm or shoulder of the highway. If in the opinion of the police officer that location is unsafe, the officer is authorized to have the disabled vehicle towed to the nearest place of safety.

For the purpose of this subsection, gross vehicle weight rating, or GVWR, shall mean the value specified by the manufacturer as the loaded weight of the tow truck.

(e) No vehicle or combination of vehicles equipped with pneumatic tires shall be operated, unladen or with load, upon the highways of this State in violation of the provisions of any permit issued under the provisions of Sections 15-301 through 15-319 of this Chapter.

(f) No vehicle or combination of vehicles with pneumatic tires may be operated, unladen or with load, when the total weight on the road surface exceeds the following: 20,000 pounds on a single axle; 34,000 pounds on a tandem axle with no axle within the tandem exceeding 20,000 pounds; 80,000 pounds gross weight for vehicle combinations of 5 or more axles; or a total weight on a group of 2 or more

consecutive axles in excess of that weight produced by the application of the following formula:  $W = 500$  times the sum of  $(LN \text{ divided by } N-1) + 12N + 36$ , where "W" equals overall total weight on any group of 2 or more consecutive axles to the nearest 500 pounds, "L" equals the distance measured to the nearest foot between extremes of any group of 2 or more consecutive axles, and "N" equals the number of axles in the group under consideration.

The above formula when expressed in tabular form results in allowable loads as follows:

Distance measured to the nearest foot between the extremes of any group of 2 or more consecutive axles		Maximum weight in pounds of any group of 2 or more consecutive axles

\*If the distance between 2 axles is 96 inches or less, the 2 axles are tandem axles and the maximum total weight may not exceed 34,000 pounds, notwithstanding the higher limit resulting from the application of the formula.

Vehicles not in a combination having more than 4 axles may not exceed the weight in the table in this subsection (f) for 4 axles measured between the extreme axles of the vehicle.

Vehicles in a combination having more than 6 axles may not exceed the weight in the table in this subsection (f) for 6 axles measured between the extreme axles of the combination.

Local authorities, with respect to streets and highways under their jurisdiction, without additional fees, may also by ordinance or resolution allow the weight limitations of this subsection, provided the maximum gross weight on any one axle shall not exceed 20,000 pounds and the maximum total weight on any tandem axle shall not exceed 34,000 pounds, on designated highways when appropriate regulatory signs giving notice are erected upon the street or highway or portion of any street or highway affected by the ordinance or resolution.

The following are exceptions to the above formula:

(1) Two consecutive sets of tandem axles may carry a total weight of 34,000 pounds each if the overall distance between the first and last axles of the consecutive sets of tandem axles is 36 feet or more.

(2) Vehicles for which a different limit is established and posted in accordance with Section 15-316 of this Code.

(3) Vehicles for which the Department of Transportation and local authorities issue overweight permits under authority of Section 15-301 of this Code. These vehicles are not subject to the bridge formula.

(4) Tow trucks subject to the conditions provided in subsection (d) may not exceed 24,000 pounds on a single rear axle or 44,000 pounds on a tandem rear axle.

(5) A tandem axle on a 3-axle truck registered as a Special Hauling Vehicle, manufactured prior to or in the model year of 2014, and registered in Illinois prior to January 1, 2015, with a distance between 2 axles in a series greater than 72 inches but not more than 96 inches may not exceed a total weight of 36,000 pounds and neither axle of the series may exceed 20,000 ~~18,000~~ pounds.

(6) A truck not in combination, equipped with a self compactor or an industrial roll-off hoist and roll-off container, used exclusively for garbage, refuse, or recycling operations, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 36,000 pounds gross weight on a 2-axle vehicle; 54,000 pounds gross weight on a 3-axle vehicle. This vehicle is not subject to the bridge formula.

(7) Combinations of vehicles, registered as Special Hauling Vehicles that include a semitrailer manufactured prior to or in the model year of 2014, and registered in Illinois prior to January 1, 2015, having 5 axles with a distance of 42 feet or less between extreme axles, may not exceed the following maximum weights: 20,000 ~~18,000~~ pounds on a single axle; 34,000 ~~32,000~~ pounds on a tandem axle; and 72,000 pounds gross weight. This combination of vehicles is not subject to the bridge formula. For all those combinations of vehicles that include a semitrailer manufactured after the effective date of this amendatory Act of the 92nd General Assembly, the overall distance between the first and last axles of the 2 sets of tandems must be 18 feet 6 inches or more. Any combination of vehicles that has had its cargo container replaced in its entirety after December 31, 2014 may not exceed the weights allowed by the bridge formula.

(8) A 4-axle truck mixer registered as a Special Hauling Vehicle, used exclusively for the mixing and transportation of concrete in the plastic state, manufactured before or in the model year of 2014, first registered in Illinois before January 1, 2015, and not operated on a highway that is part of the National System of Interstate Highways, is allowed the following maximum weights: 20,000

pounds on any single axle; 36,000 pounds on a series of axles greater than 72 inches but not more than 96 inches; and 34,000 pounds on any series of 2 axles greater than 40 inches but not more than 72 inches. The gross weight of this vehicle may not exceed the weights allowed by the bridge formula for 4 axles. The bridge formula does not apply to any series of 3 axles while the vehicle is transporting concrete in the plastic state, but no axle or tandem axle of the series may exceed the maximum weight permitted under this subsection (f).

No vehicle or combination of vehicles equipped with other than pneumatic tires may be operated, unladen or with load, upon the highways of this State when the gross weight on the road surface through any wheel exceeds 800 pounds per inch width of tire tread or when the gross weight on the road surface through any axle exceeds 16,000 pounds.

(f-1) A vehicle and load not exceeding 80,000 pounds is allowed travel on non-designated highways so long as there is no sign prohibiting that access.

(g) No person shall operate a vehicle or combination of vehicles over a bridge or other elevated structure constituting part of a highway with a gross weight that is greater than the maximum weight permitted by the Department, when the structure is sign posted as provided in this Section.

(h) The Department upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and if it finds that the structure cannot with safety to itself withstand the weight of vehicles otherwise permissible under this Code the Department shall determine and declare the maximum weight of vehicles that the structures can withstand, and shall cause or permit suitable signs stating maximum weight to be erected and maintained before each end of the structure. No person shall operate a vehicle or combination of vehicles over any structure with a gross weight that is greater than the posted maximum weight.

(i) Upon the trial of any person charged with a violation of subsections (g) or (h) of this Section, proof of the determination of the maximum allowable weight by the Department and the existence of the signs, constitutes conclusive evidence of the maximum weight that can be maintained with safety to the bridge or structure.

#### Article 70.

Section 70-5. Findings. The General Assembly finds that parts of Illinois lack access to high-speed information and communication (broadband) networks. Such networks impact access to jobs, education,

[May 31, 2009]

health care, public safety and quality of life in Illinois. The 2009 American Recovery and Reinvestment Act (ARRA) represents an unprecedented federal investment in core infrastructure, including over \$7 billion in competitive grants and loans available through the United States Departments of Agriculture and Commerce for core broadband infrastructure. It is the policy of Illinois to secure every viable stimulus project from undue delays, especially those awarded competitively, tied to deadlines, and connected to core infrastructure. Encouraging network development will help Illinois' public and private entities compete for and manage broadband infrastructure projects.

Section 70-7. The Secretary of State Act is amended by changing Section 5 as follows:  
(15 ILCS 305/5) (from Ch. 124, par. 5)

Sec. 5. It shall be the duty of the Secretary of State:

1. To countersign and affix the seal of state to all commissions required by law to be issued by the Governor.

2. To make a register of all appointments by the Governor, specifying the person appointed, the office conferred, the date of the appointment, the date when bond or oath is taken and the date filed. If Senate confirmation is required, the date of the confirmation shall be included in the register.

3. To make proper indexes to public acts, resolutions, papers and documents in his office.

3-a. To review all rules of all State agencies adopted in compliance with the codification system prescribed by the Secretary. The review shall be for the purposes and include all the powers and duties provided in the Illinois Administrative Procedure Act. The Secretary of State shall cooperate with the Legislative Information System to insure the accuracy of the text of the rules maintained under the Legislative Information System Act.

4. To give any person requiring the same paying the lawful fees therefor, a copy of any law, act, resolution, record or paper in his office, and attach thereto his certificate, under the seal of the state.

5. To take charge of and preserve from waste, and keep in repair, the houses, lots, grounds and appurtenances, situated in the City of Springfield, and belonging to or occupied by the State, the care of which is not otherwise provided for by law, and to take charge of and preserve from waste, and keep in repair, the houses, lots, grounds and appurtenances, situated in the State outside the City of Springfield where such houses, lots, grounds and appurtenances are occupied by the Secretary of State and no other State officer or agency.

6. To supervise the distribution of the laws.

7. To perform such other duties as may be required by law. The Secretary of State may, within appropriations authorized by the General Assembly, maintain offices in the State Capital and in such other places in the State as he may deem necessary to properly carry out the powers and duties vested in him by law.

8. In addition to all other authority granted to the Secretary by law, subject to appropriation, to make grants or otherwise provide assistance to, among others without limitation, units of local government, school districts, educational institutions, private agencies, not-for-profit organizations, and for-profit entities for the health, safety, and welfare of Illinois residents for purposes related to education, transportation, construction, capital improvements, social services, and any other lawful public purpose. Upon request of the Secretary, all State agencies are mandated to provide the Secretary with assistance in administering the grants.

Section 70-10. The Public Utilities Act is amended by adding Section 8-511 as follows:

(220 ILCS 5/8-511 new)

Sec. 8-511. Network equipment attachment agreements; Stimulus-funded broadband network providers.

(a) For purposes of this Section:

"Stimulus-funded broadband network provider" or "SBNP" means an Illinois-based recipient of grant or loan funding authorized by the ARRA and awarded through the United States Department of Agriculture's Rural Utilities Service (RUS) or the United States Department of Commerce's National Telecommunications and Information Administration (NTIA).

(b) Access to government and public utility assets, including towers, water towers, buildings, street lights, traffic poles, and pole arms for Stimulus-funded broadband network providers (SBNPs) must be provided at rates and under conditions that are just and reasonable.

(c) SBNPs whose federally-approved plans include the attachments listed in subsection (b) of this Section are required to enter into agreements with the asset owners. The agreements shall:

(1) contain rates, terms, conditions, and timetables; and

[May 31, 2009]

(2) be for the purpose of attaching any equipment necessary for the provision of broadband network services, including antennas, base stations, routers, and switching, processing, transmission, and distribution equipment with consideration for the safety of those installing and maintaining the pole attachments.

The SBNP shall adhere to all applicable National Electrical Safety Code Guidelines and shall not place ancillary equipment such as power supplies, equipment cabinets, and multiplexers in the climbing space of a pole, unless expressly authorized to do so by the pole owner. If relevant assets are co-owned by 2 or more entities, then an agreement for access shall only be necessary with the majority owner. If the SBNP and the asset owner are unable to reach an agreement on rates, terms, conditions, or timetables, then either party may, in its discretion, pursue procedures under subsection (d) of this Section.

(d) The Commission shall adopt rules concerning access rates, terms, conditions, and timetables for agreements required under this Section and any necessary additional procedures for hearing and resolving contested cases. For purposes of enforcing any determinations resulting from contested cases originating under this Section, the Commission shall take action as it deems appropriate.

(e) If the Commission finds that an asset owner violated any provision of this Section or any Commission order under this Section, then it shall order the asset owner:

(1) to grant access to the SBNP; and

(2) to cease and desist from violating the provisions of this Section.

Orders issued by the Commission shall be enforceable as in any other matter before the Commission.

(f) This Section applies to any attachment agreement that is entered into by parties after the effective date of this amendatory Act of the 96th General Assembly.

(g) Any stimulus-funded broadband network provider using existing above ground right-of-ways and underground utilities shall provide reasonable public notice to easement owners of their proposed fiber optic cable route. If no easement owner along the proposed route files a written objection within 30 days with the Commission, then the SBNP is authorized to commence network deployment. Easement owners that formally object must enter into a dispute resolution process with the SBNP that is authorized by the Commission.

(h) If, in the process of installing broadband infrastructure along existing right of way, farm drainage is damaged, then the easement or landowner shall be reimbursed by the SBNP for any repair costs they incur.

Section 70-15. The Illinois Highway Code is amended by adding Section 9-131 as follows:  
(605 ILCS 5/9-131 new)

Sec. 9-131. Installation of fiber-optic network conduit.

(a) For purposes of this Section:

"Fiber-optic network conduit" means a pipe or duct used to enclose fiber-optic cable facilities buried alongside the roadway or surface mounted on bridges, overpasses, and other facilities where below ground placement is impossible or impractical.

(b) In order to ensure affordable high-speed, world-class core information and communication networks are available throughout Illinois, the Illinois Department of Transportation and the Department of Central Management Services shall collaborate to install fiber-optic network conduit where it does not already exist in every new State-funded construction project that opens, bores, or trenches alongside a State-owned infrastructure, including, but not limited to, roadways and bridges. The Department of Central Management Services or the Department of Transportation may permit a third party to manage the fiber and conduit leasing. The Department of Central Management Services and the Department of Transportation shall take reasonable steps to ensure market-based, non-discriminatory pricing. Public bidding notices for such projects must describe the need for fiber-optic conduit or cable. The Department of Transportation shall report annually to the Governor and the General Assembly on the progress and any associated costs incurred by this Section. This Section does not prohibit the State from purchasing or installing fiber-optic cable within the fiber-optic network conduit.

(b) The Capital Development Board shall establish project standards for all school construction project grants provided pursuant to this Article. These standards shall include space and capacity standards as well as the determination of recognized project costs that shall be eligible for State financial assistance and enrichment costs that shall not be eligible for State financial assistance.

(c) The State Board of Education and the Capital Development Board shall not establish standards that disapprove or otherwise establish limitations that restrict the eligibility of (i) a school district with a population exceeding 500,000 for a school construction project grant based on the fact that any or all of the school construction project grant will be used to pay debt service or to make lease payments, as authorized by subsection (b) of Section 5-35 of this Law, or (ii) a school district located in whole or in part in a county that imposes a tax for school facility purposes pursuant to Section 5-1006.7 of the Counties Code.

Such standards shall call for prioritization based on the degree of need and project type in the following order:

- (1) Replacement or reconstruction of school buildings destroyed or damaged by flood, tornado, fire, earthquake, or other disasters, either man-made or produced by nature;

(40 ILCS 5/14-152.1)

Sec. 14-152.1. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after June 1, 2005 (the effective date of Public Act 94-4) ~~this amendatory Act of the 94th General Assembly~~. "New benefit increase", however, does not include any benefit increase resulting from the changes made to this Article by this amendatory Act of the 96th General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding

required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Financial and Professional Regulation. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including without limitation a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

Every such bond, when duly executed and approved, shall be recorded in the office of the Secretary of State. (b) The Board shall have general responsibility for the implementation of this Act. Its duties include, without limitation, the following:

(1) To decide promptly and in reasonable order all license applications. Any party aggrieved by an action of the Board denying, suspending, revoking, restricting or refusing to renew a license may request a hearing before the Board. A request for a hearing must be made to the Board in writing within 5 days after service of notice of the action of the Board. Notice of the action of the Board shall be served either by personal delivery or by certified mail, postage prepaid, to the aggrieved party. Notice served by certified mail shall be deemed complete on the business day following the date of such mailing. The Board shall conduct all requested hearings promptly and in reasonable order;

(8) To hold at least one meeting each quarter of the fiscal year. In addition, special meetings may be called by the Chairman or any 2 Board members upon 72 hours written notice to each member. All Board meetings shall be subject to the Open Meetings Act. Three members of the Board shall constitute a quorum, and 3 votes shall be required for any final determination by the

A majority of the members of the Board shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power which this Act requires the Board members to transact, perform or exercise en banc, except that, upon order of the Board, one of the Board members or an administrative law judge designated by the Board may conduct any hearing provided for under this Act or by Board rule and may recommend findings and decisions to the Board. (3) To promulgate rules and regulations for the purpose of administering the provisions of this Act and to prescribe rules, regulations and conditions under which all riverboat gambling in the State shall be conducted. Such rules and regulations are to provide for the prevention of practices detrimental to the public interest and for the best interests of riverboat gambling, including rules and regulations regarding the inspection of such riverboats and the review of any permits or licenses necessary to operate a riverboat under any laws or regulations applicable to riverboats, and to impose penalties for violations thereof.

(4) To enter the office, riverboats, facilities, or other places of business of a licensee, where evidence of the compliance or noncompliance with the provisions of this Act is likely to be found.

(7) To adopt appropriate standards for all riverboats and facilities.

(8) To require that the records, including financial or other statements of any licensee under this Act, shall be kept in such manner as prescribed by the Board and that any such licensee involved in the ownership or management of gambling operations submit to the Board an annual balance sheet and profit and loss statement, list of the stockholders or other persons having a 1% or greater beneficial interest in the gambling activities of each licensee, and any other information the Board deems necessary in order to effectively administer this Act and all rules, regulations, orders and final decisions promulgated under this Act.

(9) To conduct hearings, issue subpoenas for the attendance of witnesses and subpoenas duces tecum for the production of books, records and other pertinent documents in accordance with the Illinois Administrative Procedure Act, and to administer oaths and affirmations to the witnesses, when, in the judgment of the Board, it is necessary to administer or enforce this Act or the Board rules.

(10) To prescribe a form to be used by any licensee involved in the ownership or

management of gambling operations as an application for employment for their employees.

(11) To revoke or suspend licenses, as the Board may see fit and in compliance with applicable laws of the State regarding administrative procedures, and to review applications for the renewal of licenses. The Board may suspend an owners license, without notice or hearing upon a determination that the safety or health of patrons or employees is jeopardized by continuing a riverboat's operation. The suspension may remain in effect until the Board determines that the cause for suspension has been abated. The Board may revoke the owners license upon a determination that the owner has not made satisfactory progress toward abating the hazard.

(12) To eject or exclude or authorize the ejection or exclusion of, any person from riverboat gambling facilities where such person is in violation of this Act, rules and regulations thereunder, or final orders of the Board, or where such person's conduct or reputation is such that his presence within the riverboat gambling facilities may, in the opinion of the Board, call into question the honesty and integrity of the gambling operations or interfere with orderly conduct thereof; provided that the propriety of such ejection or exclusion is subject to subsequent hearing by the Board.

(13) To require all licensees of gambling operations to utilize a cashless wagering system whereby all players' money is converted to tokens, electronic cards, or chips which shall be used only for wagering in the gambling establishment.

(14) (Blank).

(16) To hire employees to gather information, conduct investigations and carry out any other tasks contemplated under this Act.

(17) To establish minimum levels of insurance to be maintained by licensees.

(18) To authorize a licensee to sell or serve alcoholic liquors, wine or beer as defined in the Liquor Control Act of 1934 on board a riverboat and to have exclusive authority to establish the hours for sale and consumption of alcoholic liquor on board a riverboat, notwithstanding any provision of the Liquor Control Act of 1934 or any local ordinance, and regardless of whether the riverboat makes excursions. The establishment of the hours for sale and consumption of alcoholic liquor on board a riverboat is an exclusive power and function of the State. A home rule unit may not establish the hours for sale and consumption of alcoholic liquor on board a riverboat. This amendatory Act of 1991 is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

(19) After consultation with the U.S. Army Corps of Engineers, to establish binding emergency orders upon the concurrence of a majority of the members of the Board regarding the navigability of water, relative to excursions, in the event of extreme weather conditions, acts of God or other extreme circumstances.

(20.7) To contract with the Department of State Police for the use of trained and qualified State police officers and with the Department of Revenue for the use of trained and qualified Department of Revenue investigators to conduct investigations, searches, seizures, arrests, and other duties imposed under this Act and to exercise all of the rights and powers of peace officers, provided that the powers of Department of Revenue investigators under this subdivision (20.7) shall be limited to offenses or violations occurring or committed on a riverboat or dock, as defined in subsections (d) and (f) of Section 4, or as otherwise provided by this Act or any other law. In the event the Department of State Police or the Department of Revenue is unable to fill contracted police or investigative positions, the Board may appoint investigators to fill those positions pursuant to subdivision (20.6).

(21) To take any other action as may be reasonable or appropriate to enforce this Act and rules and regulations hereunder.

(d) The Board may seek and shall receive the cooperation of the Department of State Police in

conducting background investigations of applicants and in fulfilling its responsibilities under this Section. Costs incurred by the Department of State Police as a result of such cooperation shall be paid by the Board in conformance with the requirements of Section 2605-400 of the Department of State Police Law (20 ILCS 2605/2605-400).

(e) The Board must authorize to each investigator and to any other employee of the Board exercising the powers of a peace officer a distinct badge that, on its face, (i) clearly states that the badge is authorized by the Board and (ii) contains a unique identifying number.
