COMMISSION ON GOVERNMENT FORECASTING AND ACCOUNTABILITY

The CGFA staff is required to prepare abstracts of reports required to be filed with the General Assembly. Legislators may receive copies of entire reports by emailing the form that was delivered to their Springfield office to isinfo@ilsos.net or by mailing it to the State Government Report Distribution Center at the Illinois State Library. Abstracts are posted monthly.

Bilingual needs and pay survey, FY 2019

In FY 2019, the number of state employees in bilingual positions was 1,856 (14% fewer than the preceding year). CMS changed the report's format for it to be read along with the interactive Bilingual Dashboard, which at press time had data for FY 2013 through FY 2018:

<https://www2.illinois.gov/cms/personnel/DEP/Pages/BNBP.aspx>

CMS reports that it continues to ensure equal access to state services, by methods including agency collection of data and ensuring public awareness of availability of free bilingual

services. The report describes CMS's strategies to eliminate limited English proficiency as a barrier to equal access to state services. (20 ILCS 415/9(6); issued & rec'd Jan. 2020, 16 pp.)

Hiring of ex-offenders by state vendors, 2019

All state bid invitations must encourage state vendors to hire ex-offenders, and vendors must self-report on those employed. No vendors reported hiring ex-offenders in 2019. Technological limitation prevents direct communication with all registered vendors. System improvements planned for 2020 would allow CMS to do so. (30 ILCS 500/45-70; undated, rec'd Jan. 2020, 2 pp.)

Hiring of veterans by state vendors, 2019

All state bid invitations must encourage state vendors to hire veterans, and vendors are to self-report on those employed. Four vendors reported hiring a total of 7 veterans in 2019.

Technological limitation prevents direct communication with all registered vendors. System improvements planned for 2020 would allow CMS to do so. (30 ILCS 500/45-67; undated, rec'd Jan. 2020, 2 pp.)

State employee child care centers, 2019

Illinois has two on-site child care centers for employees' children, in Springfield and Chicago. The Chicago center (in the Bilandic Building) cares for children ages 2 through 12. In addition to year-round care, it provides a summer camp for school-aged children. Average enrollment is 73 and there is a waiting list. The Springfield center (in the Willard Ice Building) cares for children ages 6 weeks to 5 years. Average enrollment is 38 and there is a long waiting list. Both facilities offer full-time and part-time care. State employees can use flexible spending accounts for child care costs. In 2019, about 2,300 employees statewide contributed over \$8.2 million to their flex-spending accounts. (30 ILCS 590/3; undated, rec'd Jan. 2020, 4 pp.)

State printing report summary, FY 2019

CMS reports that 1,706 copies

of state agency annual reports were printed in FY 2019, at a total cost of \$1,648. Since October 2000, the Illinois Department of Agriculture has regularly sampled 32 wells at the western end of the Mahomet Aquifer, finding a high occurrence of nitrates. Therefore the Illinois EPA got federal funding for a groundwater monitoring project in that area. It sampled 29 private wells near a natural gas leak from a well near the Mt. Simon Aquifer; 6 were contaminated. Of 55 water samples from private wells near the Sterigenics facility, none showed signs of groundwater contamination. The EPA provided significant support to the Mahomet Aquifer Protection Task Force in 2018. public schools in Illinois. The 4-year graduation rate for all charter schools in 2019 was 74.7%, versus 86.7% for other public schools. ISBE's survey of charter schools found that the main statutory change schools want is additional funding. Rapid DNA report

The report describes Rapid DNA (a fully automated process for developing a DNA profile from a cheek swab) and related FBI policies. The agency anticipated beginning use of Rapid DNA on known reference samples within the FBI's restrictions in November 2019. The agency recommended that a task force be assembled after the FBI publishes requirements for implementing Rapid DNA

in booking stations, to see how Illinois would participate. Barriers to reducing the DNA sample backlog include a long state hiring process, reduced funding, and a complex state procurement process. The agency currently employs 63 fully trained forensic scientists in its Biology program (which includes screening and DNA analysis) but needs 90. The program cost the state \$20.5 million in FY 2019, up 16.5% from 2018. (2019 H.J.R. 7; Sept. 2019, rec'd Dec. 2019, 5 pp.)
