For purposes of this definition, a single case agreement between an emergency facility and an issuer that is used to address unique situations in which an insured, beneficiary, or enrollee requires services that typically occur out-of-network constitutes a contractual relationship and is limited to the parties to the agreement.

"Participating health care facility" means any health care facility that has a contractual relationship directly or indirectly with a health insurance issuer offering group or individual health insurance coverage setting forth the terms and conditions on which a relevant health care service is provided to an insured, beneficiary, or enrollee under the coverage. (b) Emergency services. When a beneficiary, insured, or enrollee receives emergency services from a nonparticipating provider or a nonparticipating emergency facility, the health

insurance issuer shall ensure that the beneficiary, insured, or enrollee shall incur no greater out-of-pocket costs than the beneficiary, insured, or enrollee would have incurred with a participating provider or a participating emergency facility. Any cost-sharing requirements shall be applied as though the emergency services had been received from a participating provider or a participating facility. Cost sharing shall be calculated based on the recognized amount for the emergency services. If the cost sharing for the same item or service furnished by a participating provider would have been a flat-dollar copayment, that amount shall be the cost-sharing amount unless the provider has billed a lesser total amount. In no event shall the beneficiary, insured, enrollee, or any group policyholder or plan sponsor be liable to or billed by the health insurance issuer, the nonparticipating provider, or the nonparticipating emergency facility for any amount beyond the cost sharing calculated in accordance with this subsection with respect to the emergency services delivered. Administrative requirements or limitations shall be no greater than those applicable to emergency services received from a participating provider or a participating emergency facility.

(b-5) Non-emergency services at participating health care facilities.

(1) When a beneficiary, insured, or enrollee utilizes a participating health care facility and, due to any

reason, covered ancillary services are provided by a nonparticipating provider during or resulting from the visit, the health insurance issuer shall ensure that the beneficiary, insured, or enrollee shall incur no greater out-of-pocket costs than the beneficiary, insured, or enrollee would have incurred with a participating provider for the ancillary services. Any cost-sharing requirements shall be applied as though the ancillary services had been received from a participating provider. Cost sharing shall be calculated based on the recognized amount for the ancillary services. If the cost sharing for the same item or service furnished by a participating provider would have been a flat-dollar copayment, that amount shall be the cost-sharing amount unless the provider has billed a lesser total amount. In no event shall the beneficiary, insured, enrollee, or any group policyholder or plan sponsor be liable to or billed by the health insurance issuer, the nonparticipating provider, or the participating health care facility for any amount beyond the cost sharing calculated in accordance with this subsection with respect to the ancillary services delivered. In addition to ancillary services, the requirements of this paragraph shall also apply with respect to covered items or services furnished as a result of unforeseen, urgent medical needs that arise at the time an item or service is furnished, regardless of whether the

nonparticipating provider satisfied the notice and consent criteria under paragraph (2) of this subsection.

(2) When a beneficiary, insured, or enrollee utilizes a participating health care facility and receives non-emergency covered health care services other than those described in paragraph (1) of this subsection from a nonparticipating provider during or resulting from the visit, the health insurance issuer shall ensure that the beneficiary, insured, or enrollee incurs no greater out-of-pocket costs than the beneficiary, insured, or enrollee would have incurred with a participating provider unless the nonparticipating provider or the participating health care facility on behalf of the nonparticipating provider satisfies the notice and consent criteria provided in 42 U.S.C. 300gg-132 and regulations promulgated thereunder. If the notice and consent criteria are not satisfied, then:

(A) any cost-sharing requirements shall be applied as though the health care services had been received from a participating provider;

(B) cost sharing shall be calculated based on the recognized amount for the health care services; and

(C) in no event shall the beneficiary, insured, enrollee, or any group policyholder or plan sponsor be liable to or billed by the health insurance issuer, the nonparticipating provider, or the participating

health care facility for any amount beyond the cost sharing calculated in accordance with this subsection with respect to the health care services delivered.

(c) Notwithstanding any other provision of this Code, except when the notice and consent criteria are satisfied for the situation in paragraph (2) of subsection (b-5), any benefits a beneficiary, insured, or enrollee receives for services under the situations in subsection (b) or (b-5) are assigned to the nonparticipating providers or the facility acting on their behalf. Upon receipt of the provider's bill or facility's bill, the health insurance issuer shall provide the nonparticipating provider or the facility with a written explanation of benefits that specifies the proposed reimbursement and the applicable deductible, copayment, or coinsurance amounts owed by the insured, beneficiary, or enrollee. The health insurance issuer shall pay any reimbursement subject to this Section directly to the nonparticipating provider or the facility.

(d) For bills assigned under subsection (c), the nonparticipating provider or the facility may bill the health insurance issuer for the services rendered, and the health insurance issuer may pay the billed amount or attempt to negotiate reimbursement with the nonparticipating provider or the facility. Within 30 calendar days after the provider or facility transmits the bill to the health insurance issuer, the issuer shall send an initial payment or notice of denial of

payment with the written explanation of benefits to the provider or facility. If attempts to negotiate reimbursement for services provided by a nonparticipating provider do not result in a resolution of the payment dispute within 30 days after receipt of written explanation of benefits by the health insurance issuer, then the health insurance issuer or nonparticipating provider or the facility may initiate binding arbitration to determine payment for services provided on a per-bill or batched-bill basis, in accordance with Section 300gg-111 of the Public Health Service Act and the regulations promulgated thereunder. The party requesting arbitration shall notify the other party arbitration has been initiated and state its final offer before arbitration. In response to this notice, the nonrequesting party shall inform the requesting party of its final offer before the arbitration occurs. Arbitration shall be initiated by filing a request with the Department of Insurance.

(e) The Department of Insurance shall publish a list of approved arbitrators or entities that shall provide binding arbitration. These arbitrators shall be American Arbitration Association or American Health Lawyers Association trained arbitrators. Both parties must agree on an arbitrator from the Department of Insurance's or its approved entity's list of arbitrators. If no agreement can be reached, then a list of 5 arbitrators shall be provided by the Department of Insurance or the approved entity. From the list of 5 arbitrators, the

health insurance issuer can veto 2 arbitrators and the provider or facility can veto 2 arbitrators. The remaining arbitrator shall be the chosen arbitrator. This arbitration shall consist of a review of the written submissions by both parties. The arbitrator shall not establish a rebuttable presumption that the qualifying payment amount should be the total amount owed to the provider or facility by the combination of the issuer and the insured, beneficiary, or enrollee. Binding arbitration shall provide for a written decision within 45 days after the request is filed with the Department of Insurance. Both parties shall be bound by the arbitrator's decision. The arbitrator's expenses and fees, together with other expenses, not including attorney's fees, incurred in the conduct of the arbitration, shall be paid as provided in the decision.

(f) (Blank).

(g) Section 368a of this Act shall not apply during the pendency of a decision under subsection (d). Upon the issuance of the arbitrator's decision, Section 368a applies with respect to the amount, if any, by which the arbitrator's determination exceeds the issuer's initial payment under subsection (c), or the entire amount of the arbitrator's determination if initial payment was denied. Any interest required to be paid to a provider under Section 368a shall not accrue until after 30 days of an arbitrator's decision as provided in subsection (d), but in no circumstances longer

than 150 days from the date the nonparticipating facility-based provider billed for services rendered.

(h) Nothing in this Section shall be interpreted to change the prudent layperson provisions with respect to emergency services under the Managed Care Reform and Patient Rights Act.

(i) Nothing in this Section shall preclude a health care provider from billing a beneficiary, insured, or enrollee for reasonable administrative fees, such as service fees for checks returned for nonsufficient funds and missed appointments.

(j) Nothing in this Section shall preclude a beneficiary, insured, or enrollee from assigning benefits to a nonparticipating provider when the notice and consent criteria are satisfied under paragraph (2) of subsection (b-5) or in any other situation not described in subsection (b) or (b-5).

(k) Except when the notice and consent criteria are satisfied under paragraph (2) of subsection (b-5), if an individual receives health care services under the situations described in subsection (b) or (b-5), no referral requirement or any other provision contained in the policy or certificate of coverage shall deny coverage, reduce benefits, or otherwise defeat the requirements of this Section for services that would have been covered with a participating provider. However, this subsection shall not be construed to preclude a provider contract with a health insurance issuer, or with an administrator or similar entity acting on the issuer's behalf,

from imposing requirements on the participating provider, participating emergency facility, or participating health care facility relating to the referral of covered individuals to nonparticipating providers.

(l) Except if the notice and consent criteria are satisfied under paragraph (2) of subsection (b-5), cost-sharing amounts calculated in conformity with this Section shall count toward any deductible or out-of-pocket maximum applicable to in-network coverage.

(m) The Department has the authority to enforce the requirements of this Section in the situations described in subsections (b) and (b-5), and in any other situation for which 42 U.S.C. Chapter 6A, Subchapter XXV, Parts D or E and regulations promulgated thereunder would prohibit an individual from being billed or liable for emergency services furnished by a nonparticipating provider or nonparticipating emergency facility or for non-emergency health care services furnished by a nonparticipating provider at a participating health care facility.

(n) This Section does not apply with respect to air ambulance or ground ambulance services. This Section does not apply to any policy of excepted benefits or to short-term, limited-duration health insurance coverage.

(o) Notwithstanding any other provision of law to the contrary, if a beneficiary, insured, or enrollee receives neonatal intensive care from a nonparticipating provider or

nonparticipating facility, a health insurance issuer shall ensure that the beneficiary, insured, or enrollee shall incur no greater out-of-pocket costs than he or she would have incurred with a participating provider or a participating facility, as long as the nonparticipating provider or nonparticipating facility bills the neonatal intensive care as emergency services.
