New Act

Creates the Civil Remedies for Nonconsensual Recording of Children Act. Creates a civil action for a child or the parent or legal guardian on behalf of a child if a person (1) makes a video record or transmits a live video of the child without the consent of the child's parent or guardian in a restroom, tanning bed, tanning salon, locker room, changing room, or hotel residence; or (2) makes a video record or transmits a live video of a child without the consent of the child's parent or guardian in a residence in which the child does not reside. Provides for exceptions. Provides that a child who proves by a preponderance of the evidence that a defendant violated the Act against the child is considered obviously and materially harmful to the child and is per se harmful and traumatic. Authorizes a prevailing plaintiff to recover: (1) the greater of: (A) economic and noneconomic damages proximately caused by the defendant's violation of the Act, including but not limited to damages for emotional distress whether or not accompanied by other damages; or (B) statutory damages, not to exceed $10,000, against each defendant found liable under the Act; (2) punitive damages; and (3) reasonable attorney's fees and costs. Provides that an action under the Act may not be brought no later than 2 years from the date the cause of action was discovered or should have been discovered with the exercise of reasonable diligence. Tolls the statute of limitation until the child becomes emancipated or attains the age of majority. Provides that if a State agency or unit of local government is required by law or ordinance to inspect a restroom, tanning bed, tanning salon, locker room, changing room, or hotel residence, the State agency or unit of local government must also inspect for hidden cameras. Provides that if a hidden camera is discovered, the owner or operator of the inspected location must post a public notice advising of the camera and the area it films. Provides that the notice must be in English and any other language that is spoken by a significant number of local residents in that area. Provides that the Act applies to causes of action accruing on or after the effective date of this amendatory Act.

Creates a civil action for a child or the parent or legal guardian on behalf of a child if a person knowingly makes or transmits a video record of the child using a concealed or disguised recording device, or otherwise in a manner intended to avoid detection, without the consent of the child's parent or guardian in a restroom, tanning bed, tanning salon, locker room, changing room, hotel guest accommodations, or in a residence in which the child does not reside in an area in which a person would reasonably expect privacy. Exempts (1) a parent or legal guardian of the child who is the subject of the recording unless the parent's or legal guardian's action is prohibited by a law other than the Act; (2) a recording made by law enforcement in the lawful performance of official duties; and (3) a recording made in good faith in the reporting of unlawful conduct. Authorizes a prevailing plaintiff to recover economic and noneconomic damages, punitive damages, and reasonable attorney's fees and costs. Provides that if a State agency or unit of local government is required by law or ordinance to inspect certain locations, the inspection must also include an inspection for hidden cameras and establishes requirements for notification to law enforcement if a hidden camera is discovered. Provides that if a hidden camera is discovered outside of an inspection conducted by a State agency or unit of local government, the person or entity discovering the device must immediately notify the appropriate law enforcement agency and preserve any reasonably available evidence relating to the device until collected by law enforcement or otherwise directed by law enforcement. Effective immediately.

HB 04283 Rep. Michael Crawford-Lisa Davis-Kimberly Du Buclet-La Shawn K. Ford-Yolonda Morris, Eva-Dina Delgado, Camille Y. Lilly, Emanuel "Chris" Welch, Jay Hoffman, Debbie Meyers-Martin and Lawrence "Larry" Walsh, Jr.

20 ILCS 3805/7.34 new
30 ILCS 105/5.1038 new

Amends the Illinois Housing Development Act. Requires the Illinois Housing Development Authority (Authority) to establish and administer a First-Generation Homebuyer Down Payment Assistance Program to provide targeted assistance to eligible first-generation homebuyers throughout the State for the purchase of a single-family or non-commercial multi-family residence. Sets forth eligibility requirements. Permits the Authority to prioritize assistance to applicants purchasing homes in designated community priority areas, applicants with household income below 80%, and applicants purchasing homes in areas with low homeownership rates, high housing costs burdens, or limited access to affordable mortgage credit. Provides that assistance under the program shall be provided as a forgivable loan to be forgiven pro rata on a monthly basis over a 5-year period of continuous owner-occupancy. Sets forth the available loan amounts and provides that assistance funds may be used for down payments, closing costs, mortgage insurance, interest rate buydowns, or principal reduction. Permits the Authority to waive repayment in cases of documented financial hardship that is beyond the control of the homebuyer. Permits the Authority to adopt rules to implement and administer the program. Effective July 1, 2026.

Housing Affordability Impact Note (Housing Development Authority)
This bill will have no effect on the cost of constructing, purchasing, owning, or selling a single-family residence. While the proposed establishes a new program for First-Generation Homebuyer Down Payment Assistance, this is the establishment of a program that is not needed on the state level. IHDA’s current Down Payment Assistance programs and IHDA’s current homebuyer programs target first time home buyers exclusively AND they allow first generation homebuyers to already use them. Creation of a new program is redundant and would create more red tape and would not lower barriers for first time homebuyers.

Fiscal Note (Housing Development Authority)
This program is redundant and not needed as current Homebuyer and Down Payment assistance programs already do everything this bill proposes. This bill requires program rules that would need to be established and updated throughout the next year (1 FTE Lawyer / Legal Staff ($200,000/year). Outside of establishment of new rules, the administration of this program could be covered under existing IHDA staffing levels except for the reporting requirements, which would require the hiring and maintenance of a program staff position or two. These position(s) would be required to meet reporting requirements and burdensome publishing requirements on an ongoing basis($100,000 - $200,000 per year). Additional advertising would also need to occur which could add $30K to the cost of administering this program.

Requires a State agency to confirm or reject an uncontested claim that is from a lapsed appropriation and valued at less than $2,500 within 30 days after being notified in writing by the Attorney General. Requires the Comptroller, subject to appropriation, then issue payment to the vendor within 30 days of the court entering such an award. Provides that if the court determines that it is unable to process such an uncontested claim because the bill or invoice contains a defect, the court must notify the vendor in writing of the defect no later than 30 days after the bill or invoice was first submitted. Provides that if one or more items on a bill or invoice are disapproved, but not the entire bill or invoice, then the portion that is not disapproved must be transmitted to the Comptroller for payment. Changes the filing fees required under the Act as follows: a fee of $15 for a petition seeking more than $500 but less than $10,000; and $35 for a petition seeking more than $10,000 or more. Requires that the court must allow claimants to submit documentation to amend and cure defects. Makes other changes. Authorizes the Court of Claims to adopt rules to implement the Act.

Requires the State agency to confirm, reject, or identify a claim under the Court of Claims Act that is a lapsed appropriation and valued at less than $2,500 within 60 days after being notified in writing of the claim by the Attorney General. Provides that, if the State agency (instead of the court) determines that it is unable to process a claim under the Act because the bill or invoice contains a defect, the State agency (instead of the court) must notify the vendor and the Attorney General (rather than the vendor only) in writing of the defect no later than 60 calendar days after receiving notice of the claim from the Attorney General's Office (rather 45 days after the bill or invoice was first submitted). Makes changes to provide that school psychological services provided by qualified specialists who hold a Professional Educator License endorsed for school psychology may include, but are not limited to: (1) providing assessments; (2) creating and implementing prevention and intervention services that support student learning; (3) providing mental and behavioral health services; (4) acting as liaisons between public schools and community agencies; (5) evaluating program effectiveness; (6) providing crisis prevention, response, and intervention within the school setting; (7) providing consultation and collaboration; (8) supervising school psychologist interns enrolled in school psychology programs; (9) screening school enrollments to identify children who should be referred for individual study; and (10) developing any other necessary programs and services. Provides that a school psychologist may not provide school psychological services outside of his or her employment to any student in any school district that employs the school psychologist. Provides that to qualify as a school psychologist, the psychologist must (i) have graduated from an institution of higher learning that maintains equipment, courses of study, and standards of scholarship approved by the State Board of Education with (I) a qualifying master's degree, as determined by the State Board, with the completion of a minimum of 60 graduate semester hours, (II) a qualifying specialist degree, as determined by the State Board, (III) an equivalent degree, as determined by the State Board, with the completion of a minimum of 60 graduate semester hours, or (IV) a higher qualifying degree, as determined by the State Board (rather than with a specialist degree, an equivalent degree with the completion of a minimum of 60 graduate semester hours, or a higher degree in school psychology); (ii) have had supervised internship experience in the delivery of school psychological services of a character approved by the State Superintendent of Education on a full-time basis for at least one school year or, if applicable, on at least a half-time basis over 2 consecutive school years (rather than having had at least 1,200 clock hours of supervised experience in the delivery of school psychological services of a character approved by the State Superintendent, at least 600 hours of which were in a school setting); and (iii) have such additional qualifications as may be required by the State Board.

820 ILCS 405/612 from Ch. 48, par. 442

Amends the Unemployment Insurance Act. Provides that, with respect to a week of unemployment beginning on or after June 1, 2026, benefits shall be payable to an individual on the basis of wages for employment in other than an instructional, research, or principal administrative capacity performed for an educational institution or an educational service agency, as long as the individual is otherwise eligible for benefits. Effective immediately.

Fiscal Note (State Board of Education)
HB 4416 does not have a fiscal impact on the Illinois State Board of Education. Currently, most school district support staff are not eligible for unemployment benefits if they have reasonable assurance of employment continuing for the next school year. The bill makes these staff eligible for these benefits. Categories of staff impacted include paraprofessionals (classroom and individual aides), bus drivers, secretaries, cooks and cafeteria workers, health care aides, safety and security staff, and various other categories of staff not working twelve months. The State Board of Education does not collect the data required to determine a precise financial impact on school districts. However, estimations based on the Non certified Staff Salary Study suggest the statewide cost to school districts could be significant.

State Mandates Fiscal Note (Dept. of Commerce & Economic Opportunity)
HB 4416 adds both a financial and clerical mandate to school districts. Many school districts, in lieu of paying contributions, reimburse the State for the actual amount of any unemployment benefits
paid. Because of this, special care is taken to ensure claims are accurate to minimize the impact on district finances. Additional staff time, and potentially additional clerical staff, will be needed to review and process the increase in claims that will follow should this bill become law. Ultimately, the State Board of Education cannot provide a comprehensive effect of the
proposed mandate.

Fiscal Note (Dept. of Employment Security)
Pursuant to the Fiscal Note Act, 25 ILCS 50/1, the Illinois Department of Employment Security (Department) has reviewed House Bill 4416 and has determined that the legislation could have a fiscal impact on the Unemployment Insurance Trust Fund (UTF) and administrative costs for the Department. The Department gathered data from 2020 when the law was changed to remove the unemployment insurance
(UI) eligibility bar for non-instructional, non-principally administrative, and non-research academic employees, and ran a cost estimate using 2026 estimated wage data. The Department assumed that 75% of workers who were eligible at that time would be eligible for purposes of the cost estimate. This assumption was supported by labor market re-entry rates (members of this category of workers securing alternative seasonal employment), and the general choice of many unemployed individuals to not file for UI benefits. The Department estimated that the annual cost to provide these academic employees UI benefits between and within terms of academic years, assuming the employees are otherwise eligible for UI benefits, would be between $138,000,000 and $176,000,000.
Approximately 93% of the total amount of unemployment benefits would be paid dollar-for-dollar by public schools, colleges, universities, and not-for-profit academic institutions that make payments in lieu of contributions. Using the federal Resource Justification Model (RJM) for the cost of administering UI benefits, the Department additionally estimated that implementing HB 4416 would cost approximately $3,600,000, including the cost of updating systems, processing new claims, administering the additional weekly benefits and appeals, and an increase in postage. The Department also asked the United States Department of Labor (USDOL) for a standard, informal conformity review of the language of this bill with federal regulations. USDOL did not note a conformity issue.

Senate Floor Amendment No. 2

Replaces everything after the enacting clause. Reinserts the provisions of the engrossed bill with the following changes: In provisions listing the type of relief a court might grant in a case of financial exploitation of an eligible adult, removes from the list: (i) specified fees to be paid by any financial institution that holds the eligible adult's unencumbered assets, if any; and (ii) a final cost judgment against the respondent and in favor of the clerk of the circuit court for all the clerk's filing fees and service charges. Provides that where the court has found that the respondent has engaged in exploitation of the eligible adult, a court may enter a final cost judgment against the respondent and in favor of the petitioner for all taxable costs and damages. Provides that the court must allow an advocate (rather than an advocate from a State's Attorney's Office or a law enforcement agency) to be present with the petitioner or the respondent in order to provide emotional support during any court proceedings or hearings related to a temporary restraining order. Requires the petitioner (rather than the clerk of the circuit court) to furnish a copy of the petition, the financial affidavit, the notice of hearing, and any temporary restraining order to the sheriff or special process server (rather than to the sheriff or a law enforcement agency) of the county in which the respondent resides or can be found, who shall serve it upon the respondent as soon thereafter as possible on any day of the week and at any time of the day or night. Permits the petitioner (rather than the clerk of the circuit court, upon request of the sheriff) to transmit a facsimile copy of a temporary restraining order to be served in the same manner as a certified copy. Removes provisions that: (i) permit the chief judge of each judicial circuit, in consultation with the appropriate sheriff, to authorize a law enforcement agency within the jurisdiction to effect service; (ii) require the clerk of the circuit court to furnish a copy of the petition, the financial affidavit, the notice of hearing, and any temporary restraining order to the sheriff or a law enforcement agency of the county in which the eligible adult resides or can be found, who shall serve it upon the eligible adult; and (iii) permits the clerk of the circuit court, at the request of the sheriff, to transmit a facsimile copy of a certified temporary restraining order to be served in the same manner as a certified copy. Removes provisions requiring any court ordered assessment or fine to enforce a temporary order, preliminary injunction, or permanent injunction to be collected by the clerk of the circuit court and transferred to the State Treasurer for deposit in the Domestic Violence Fund. Amends the School Code. Provides that, subject to appropriation, the State Board of Education, in consultation with the Department of Public Health, shall develop an educational document explaining, at a minimum, the values of good indoor air quality and shall supply the document to school districts. Provides that, subject to funding from the State Board, a school district shall ensure that all active classrooms are equipped with an air quality monitor.

Fiscal Note (State Board of Education)
HB 4739 amends the School Code to provide that, subject to funding from the Illinois State Board of Education, a school district shall ensure that all active classrooms are equipped with an air quality monitor. Section 2-3.12 of the School Code requires the inspection of all buildings in a school district once every 10 years. This statutory requirement helps populate the data collected in ISBE's health/life safety survey system about public school facilities, including school buildings, for all school districts other than Chicago Public Schools (CPS). Utilizing this health/life/safety survey data in combination with the ISBE Entity Profile System data the agency estimates that there are approximately 110,000 active classrooms statewide including CPS. It's possible that this number is understated, since many
schools utilize smaller rooms that may be considered active classrooms for services such as tutoring, speech therapy and individual instruction.
HB 4739 does not specify what types of air quality monitors would be funded by an appropriation. Commercial air quality monitors can cost as little as
$200 to several thousands of dollars per unit. This bill also does not contemplate ongoing maintenance costs that districts might face, such as the cost of repairing or replacing damaged or obsolete monitors, or ongoing subscription costs that some monitors require. Ultimately, the State Board of Education cannot determine potential costs to districts. Agency implementation costs would likely be minimal; however, resources may be needed to support the application funding process.

State Mandates Fiscal Note (Dept. of Commerce & Economic Opportunity)
House Bill 4739 would require each school district in the state to equip all active classrooms within the district with an air quality monitor. Active classrooms are defined in the bill as a room currently being used for any duration of in-person instruction, which includes spaces typically thought of as classrooms as well as smaller spaces in which individual or small-group instruction may
occur. The initial requirement is subject to appropriation. The legislation does not contemplate ongoing maintenance costs that districts will face, such as the cost of repairing or replacing damaged or obsolete monitors, or ongoing subscription costs that some monitors require.

New Act

Creates the Preventing Crisis Cost Shifting to Medicaid Act. Provides that the General Assembly finds that (i) behavioral health crisis services, including crisis call centers, mobile crisis response, and crisis stabilization and receiving services, function as essential public health infrastructure and must be available statewide without regard to insurance status; and (ii) commercial health insurance policies issued or administered in the State generally do not provide comprehensive coverage for the full continuum of behavioral health crisis services, resulting in the cost of such services being disproportionately borne by Medicaid, local governments, and taxpayers. Requires specified entities (surcharge payors) that are authorized to issue or administer a policy or contract of accident and health insurance or a health maintenance organization contract in the State to pay a behavioral health crisis assessment to the Department of Human Services for deposit into the Statewide 9-8-8 Trust Fund. Exempts Medicaid managed care organizations from paying the behavioral health crisis assessment. Permits the Department to update the total behavioral health crisis assessment amount as necessary to ensure the continued availability, quality, or geographic equity of the statewide behavioral health crisis system. Requires the Department to establish an appropriate mechanism for enforcing a surcharge payor's liability, which may include accrued interest on unpaid liabilities at a rate not to exceed 18% per annum and late fees or penalties at a rate not to exceed 5% per month. Provides that the enforcement mechanism may also include notification to the Department of Healthcare and Family Services to offset payments on the surcharge payor's claims. Provides that the Department of Human Services shall not direct the Department of Healthcare and Family Services to offset claims payments unless the surcharge payor has maintained an outstanding liability to the Statewide 9-8-8 Trust Fund for a period longer than 45 days and has received proper notice of pending enforcement.

Fiscal Note (Dept. of Employment Security)
Pursuant to the Fiscal Note Act, 25 ILCS 50/1, the Illinois Department of Employment Security (Department) has reviewed House Bill 4805 and has determined that the legislation could have a fiscal impact on the administrative costs for the Department.
The Department's cost estimate for this Fiscal Note assumes that information the Department receives from employers in the event of a layoff, furlough, or shutdown functions to initiate and file an unemployment insurance claim on behalf of each affected worker. The Department estimates that the administrative costs of reprograming systems, administering new processes, engaging in rule-making, and related activities would be approximately $1,000,000. The Department notes that some information required to initiate an unemployment insurance claim and appropriately determine an individual's weekly benefit amount would, in most cases, likely not be available to employers. The Department also notes that individuals would still be required to create their own account with identity-proofing methods required of all unemployment insurance claimants. The Department estimates that there would be a de minimis fiscal impact on the Unemployment Insurance Trust Fund. The Department has also asked the United States Department of Labor (USDOL) for a standard, informal conformity review of the language of this bill with federal regulations. USDOL has asked for clarification, and the Department is working with you and stakeholders to respond.

Replaces that provision with just the high likelihood of willful flight and the person is charged with certain specified offenses.

30 ILCS 805/8.50 new

Amends the Illinois Municipal Retirement Fund (IMRF) Article of the Illinois Pension Code. Provides that any person for whom a municipality contributed to both the Fund and a Taft-Hartley pension plan at a rate equal to or less than $5 per hour worked since July 16, 2014 shall be deemed an employee under the Article from July 16, 2014 through the effective date of the amendatory Act. Provides that, after the effective date of the amendatory Act, a person shall be deemed an employee under the Article if the participating municipality pays an hourly contribution rate to a Taft-Hartley pension plan that is equal to or less than $5 per hour worked. Makes a conforming change. Amends the State Mandates Act to require implementation without reimbursement.

Senate Committee Amendment No. 1

Provides that any person for whom a municipality contributed to both the Fund and a Taft-Hartley pension plan at a rate equal to or less than $6 (rather than $5) per hour worked since July 16, 2014 shall be deemed an employee under the Article from July 16, 2014 through the effective date of the amendatory Act. Provides that, after the effective date of the amendatory Act, a person shall be deemed an employee under the Article if the participating municipality pays an hourly contribution rate to a Taft-Hartley pension plan that is equal to or less than $6 (rather than $5) per hour worked.

Pension Note (Government Forecasting & Accountability)
According to IMRF HB 4909 may lead to minor administrative issues due to the need to keep track of Taft-Hartley pension plan participants and ensure that the aggregate of total annuity payments from both pension plans for those participants does not exceed the Internal Revenue Code Section 415(b) limit (which is $290,000 as of CY 2026). IMRF believes the bill would impact only a small number of individuals who were previously ejected from IMRF for participating in a Taft-Hartley pension plan. The fiscal impact is expected to be negligible, as the increase in participants would be minimal. As of this writing, IMRF is neutral on this legislation.

Senate Floor Amendment No. 2

Replaces everything after the enacting clause. Amends the Illinois Municipal Retirement Fund (IMRF) Article of the Illinois Pension Code. Provides that any person who is part of or becomes part of a bargaining unit for which a participating municipality is required to contribute to a Taft-Hartley pension plan under a collective bargaining agreement or other written agreement in effect on or before the effective date of the amendatory Act shall be deemed to be an employee for any period on or after July 16, 2014. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

Pension Note, Senate Committee Amendment No. 1 (Government Forecasting & Accountability)
According to IMRF HB 4909 (S-AM 1) may lead to minor administrative issues due to the need to keep track of Taft-Hartley pension plan participants and ensure that the aggregate of total annuity payments from both pension plans for those participants does not exceed the Internal Revenue Code Section 415(b) limit (which is $290,000 as of CY 2026). IMRF believes the bill would impact a limited number of individuals (approximately 500 current IMRF members, or 0.25% of IMRF participating members) who are currently in an uncertain legal status due to participation in a Taft-Hartley pension plan.The fiscal impact is expected to be negligible, as the number of affected participants would be minimal. As of this writing, IMRF is now opposed to the bill due to its conferring benefits on a select group of IMRF members rather than the whole body of members.

Pension Note, Senate Floor Amendment No. 2 (Government Forecasting & Accountability)
According to IMRF, HB 4909 (S-AM 2) may lead to minor administrative issues due to the need to keep track of Taft-Hartley pension plan participants and ensure that the aggregate of total annuity payments from both pension plans for those participants does not exceed the Internal Revenue Code Section 415(b) limit (which is $290,000 as of CY 2026). In cases where a coroner or medical examiner has reason to believe that an eligible adult has died as the result of abuse, abandonment, neglect, financial exploitation, or self-neglect, requires the Department (rather than the provider agency) to provide the coroner or medical examiner with all records pertaining to the eligible adult as soon as practicable. Amends the Juvenile Court Act of 1987. Provides that the State's Attorney may file a written petition, at any time prior to commencement of the minor's trial, to designate the proceeding as an extended jurisdiction juvenile prosecution when the petition alleges the commission by a minor 15 (rather than 13) years of age or older of any offense that would be a felony if committed by an adult. Provides that, upon filing of a petition, the judge shall conduct a hearing at which he or she shall first determine whether there is probable cause to believe that the allegations in the petition and motion are true. Provides that, if probable cause is found, the judge may enter an order designating the proceeding as an extended jurisdiction juvenile proceeding if the judge makes a finding based on clear and convincing evidence that sentencing under the Unified Code of Corrections may be appropriate for the minor based on an evaluation of certain factors. Provides that the judge shall consider: (1) the minor's age, impetuosity, and level of maturity at the time of the offense, including the ability to consider risks and consequences of behavior, and any presence of cognitive or developmental disability, or both, including if a comprehensive mental health evaluation of the minor was conducted by a qualified mental health professional, the outcome of the evaluation; and (2) the history of the minor, including the minor's family, home environment, educational and social background, including any history of parental neglect, domestic or sexual violence, sexual exploitation, physical abuse, or other childhood trauma, including adverse childhood experiences. Provides that the offenses that may be considered by the State's Attorney in determining whether to file a petition to revoke the stay of an adult sentence under the Unified Code of Corrections include a felony offense involving the use or unlawful possession of a firearm. Provides that after a hearing, if the court finds by clear and convincing evidence (rather than beyond a reasonable doubt) that the minor committed a new qualifying offense, that there is a rebuttable presumption that the court may order execution of the previously imposed adult criminal sentence. Provides that after a hearing, if the court finds by clear and convincing evidence that the minor committed a new qualifying offense, there is a rebuttable presumption that the court shall order execution of the previously imposed adult criminal sentence unless the new offense is a non-violent forcible felony or a Class 4 felony unlawful possession of a weapon offense and the defendant is 18 years of age or older. Provides that if the court declines to order execution of the previously imposed adult criminal sentence, the court may continue the minor on the existing juvenile sentence with or without modifying or enlarging the conditions.

Senate Committee Amendment No. 1

Provides that if the court declines to order execution of the previously imposed adult criminal sentence, the court may continue the minor on the existing juvenile sentence with or without modifying or enlarging the conditions. Amends the Illinois Marriage and Dissolution of Marriage Act. Provides for a child support calculation for shared physical care in which each parent exercises 110 or more overnights per year with the child or 110 or more overnight equivalents as determined by a court as a deviation from guidelines or upon agreement by the parties. Provides that overnight equivalents are calculated by using a method other than overnights if the parent has significant parenting time periods on separate days in which the child is in the parent's physical care and under the direct care of that parent but does not stay overnight. Provides that if parents have shared physical care of a child, the basic child support obligation is multiplied by 1.5 to calculate the combined shared care child support obligation; the court shall determine each parent's portion of the shared care child support obligation based on the parent's percentage share of combined adjusted net income; the shared care child support obligation is then computed for each parent by multiplying that parent's portion of the shared care support obligation by the percentage of time the child spends with the other parent and determining any adjustment for shared physical custody that is less than 146 overnights or overnight equivalents. Provides that the respective shared care child support obligations are then offset with the parent owing more paying the difference in child support. Creates a statutory table to calculate the child support if a parent has physical shared custody for less than 146 overnights or overnight equivalents per year. Provides that the shared care child support obligation after adjustment may not be greater than the amount that would have been ordered under the basic support guidelines in any event. Provides that a parent incarcerated for more than 180 days is presumed to be unable to pay any amount of child support, and this presumption may be rebutted by evidence establishing the ability to pay child support during incarceration. Provides a rebuttable presumption that a minimum child support obligation of $40 per month, per child, will be entered for an obligor who has actual or imputed gross income at or less than 100% of the most recent United States Department of Health and Human Services Federal Poverty Guidelines for a family of one person.

New Act

Creates the Aligning Recommendations with Children's Actual Clinical and Emergency Needs and Determinations Act (ARC-ACEND). Provides that if a child who is the subject of a custody or parenting-time dispute has a serious medical condition, all recommendations made by guardian ad litem, child representative, evaluator, mediator, or other court-appointed officer are deemed provisional and may not be used by the court until a qualified medical provider certifies, in writing, that the recommendation is consistent with the child's clinical needs and medical best interests. Requires that if a qualified medical provider determines that a provisional recommendation is not consistent with the child's clinical needs or medical best interests, the recommendation must be modified to at least the minimum extent necessary to achieve consistency with the recommendations of the qualified medical provider. Provides that nothing in the Act may be construed to limit the court's authority to order additional or more protective modifications if consistent with the child's clinical needs or medical best interests, but the court may not impose less protective measures or measures inconsistent with the qualified medical provider's recommendations. Requires that if the court alters the recommended modifications of the qualified medical provider, it must rule in writing and specify the reasons for the alteration, and the qualified medical provider and the child's primary caregiver must be given an opportunity to respond before the order becomes final. Provides that this presumption may be rebutted only by clear and convincing evidence, supported by qualified medical testimony, that separation is medically necessary for the child's safety or clinical well-being.

Effective immediately.

House Committee Amendment No. 1

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. Amends the General Obligation Bond Act. Authorizes an additional $700,000,000 (rather than $1,000,000,000) of State Pension Obligation Acceleration Bonds. Makes a conforming change. Amends the State Employees, State Universities, and Downstate Teachers Articles of the Illinois Pension Code. Extends the option for a participant to receive an accelerated pension benefit payment in lieu of any pension benefit or for a reduction in the increases to his or her annual retirement annuity and survivor's annuity to June 30, 2028 (instead of June 30, 2030). Effective immediately.

House Floor Amendment No. 2

In provisions amending the General Obligation Bond Act, authorizes an additional $1,000,000,000 (rather than $700,000,000) of State Pension Obligation Bonds. In language providing an exception to a limitation on bond issuance, excludes bonds authorized by certain changes made to the Act by Public Act 104-8 and bonds authorized by the amendatory Act. Makes a grammatical change.

Pension Note, House Floor Amendment No. 2 (Government Forecasting & Accountability)
HB 5196, as amended by HA 2, would extend the Accelerated Pension Buyout programs for two additional years, through June 30, 2028, and authorize an additional $1 billion in State Pension Obligation Acceleration Bonds to pay for the buyouts, bringing the total bond authorization for these programs to $3.2 billion. According to SERS, SURS, and TRS, the programs have resulted in an estimated $2.6 billion reduction in liabilities and required approximately $2 billion in buyout payments, based on the most recently provided data from each system (ranging from June 2025 to January 2026). Given the experience of the buyout programs to date, it may be reasonable to anticipate similar participation patterns during the extended period under HA 2, which could help reduce the liability. However, estimating the precise reduction in pension liabilities is uncertain by nature, as participation is voluntary and individual member decisions play a significant role in determining overall program impact.

40 ILCS 5/16-118 from Ch. 108 1/2, par. 16-118

Amends the Downstate Teacher Article of the Illinois Pension Code. Provides that, through June 30, 2029 (instead of June 30, 2026), an annuitant may accept employment as a teacher without impairing his or her retirement status if that employment is not within the school year during which service was terminated and does not exceed 120 paid days or 600 paid hours in each school year, but not more than 100 paid days in the same classroom. Makes a conforming change. Effective immediately.

Pension Note (Government Forecasting & Accountability)
SB 2953 extends the sunset date of the current limitations on annuitant return-to-service (120 paid days or 600 paid hours in each school year) by three years, through June 30, 2029. Under current law, the aforementioned limitations are scheduled to sunset on June 30, 2026, after which the prior return-to-work limitations of 100 paid days or 500 paid hours will again apply beginning July 1, 2026. Therefore, SB 2953 allows retired teachers to return to service for a longer period of time under the 120-day/600-hour limitation than would otherwise be allowed under current law. The fiscal impact on TRS of allowing retired teachers to work 20 more days or 100 more hours in a school year without impairment of annuity status is expected to be minimal, as participation under the extended limitation is likely to be relatively small; however, the precise impact would depend on the number of annuitants who elect to return to work.

Replaces everything after the enacting clause with the engrossed bill with the following changes. Amends the Downstate Firefighter Article of the Illinois Pension Code. Provides for a increase in the line of duty disability pension that continues to be paid to a firefighter's survivors after the death of the firefighter to $50,051.76 and adjusted by a simple 3% increase annually from the initial adjustment if: (1) the firefighter died in 2023; (2) the firefighter died less than 6 months before his or her 60th birthday; and (3) by no later than one year after the effective date of the amendatory Act, the board of trustees of the fire protection district adopted an ordinance or resolution granting the increase. Amends the State Mandates Act to require implementation without reimbursement. Effective immediately.

Pension Note, House Floor Amendment No. 1 (Government Forecasting & Accountability)
Increasing the continuing disability pension paid to survivors to $50,051.76 would have a fiscal impact on applicable local downstate firefighter pension funds, limited to survivors who would meet the eligibility requirements. It is not known how many would be eligible for the increase provided in SB 3403, as amended by HA 1. However, the number of eligible survivors is expected to be limited due to the restrictive requirements. There would be no fiscal impact associated with the changes to ISBI, as the changes are purely administrative.

Amends the Chicago Public Schools Article of the School Code to make conforming changes. Effective immediately.

SB 03404 (Continued)

Pension Note (Government Forecasting & Accountability)
SB 3404, as engrossed, is nearly identical to the introduced bill, with two major exceptions; the buyout plans are optional for municipalities to establish (explicated stated in the engrossed bill), and the Chicago Teachers Pension Fund (CTPF) is added as an eligible system. However, the anticipated fiscal impact would be the same, but now dependent on the number of eligible employers that elect to establish the two buyout programs. SB 3404, as engrossed, creates the two buyout programs—Total buyout and the COLA (or AAI) buyout—for the affected pension funds, mirroring the existing buyout programs currently available in the State's "Big 3" retirement systems (SERS, SURS, and TRS). According to SERS, SURS, and TRS, the buyout programs have resulted in an estimated $2.6 billion reduction in liabilities and required approximately $2.0 billion in buyout payments, based on data previously provided from each system (ranging from June 2025 to January 2026).

225 ILCS 95/20

Replaces everything after the enacting clause. Reinserts the provisions of the introduced bill with the following changes. Provides that "physician assistant practice" means the performance of any medical service (rather than any legal medical service) for which the physician assistant has been prepared by the physician assistant's education, training, and experience and is competent to perform as determined through an employment agreement or the credentialing and privileging system of a licensed facility. Provides that no physician assistant shall use the title of doctor, physician, or associate with his or her name or any other term that would indicate to other persons that the physician assistant is a licensed physician (rather than a title or term that would indicate to other persons that he or she is qualified to engage in the general practice of medicine). Provides that no person shall use the title physician assistant, physician associate, PA, PA-C, or any other term that would indicate to other persons that the person is a licensed or board-certified physician assistant unless the person is licensed as a physician assistant under this Act. In a provision concerning continuing education for physician assistant license renewal, provides that continuing education programs shall be relevant to physician assistant practice (rather than shall be in the physician assistant's area of practice) and may be conducted or endorsed by educational institutions, hospitals, professional associations, or other organizations approved to offer continuing education under the Act or rules. Provides that a physician assistant with optimal practice authority may prescribe Schedule II narcotic drugs only in a consultation relationship with a physician. Provides that the consultation relationship shall be recorded on the Prescription Monitoring Program website, pursuant to the Illinois Controlled Substances Act, by the physician and the physician assistant with optimal practice authority, and is not required to be filed with the Department of Financial and Professional Regulation. Provides that at least monthly, the physician assistant with optimal practice authority and the physician must discuss the condition of any patients for whom a Schedule II narcotic drug is prescribed. Provides that the consultation relationship shall provide for physician availability for consultation on complex clinical cases and prescribing decisions, but shall not require the physical presence of the physician or constitute a written collaborative agreement (rather than a supervisory or collaborative agreement). In a provision concerning limitations, removes the prohibition that, pursuant to the Professional Service Corporation Act and the Medical Corporation Act, a person licensed under the Physician Assistant Practice Act of 1987 may not own a corporation for the purposes of practicing medicine. Removes the prohibition that, pursuant to the Professional Limited Liability Company Act, a person licensed under the Physician Assistant Practice Act of 1987 may not own a professional limited liability company for the purposes of practicing medicine. 750 ILCS 5/510	from Ch. 40, par. 510

Amends the Illinois Marriage and Dissolution of Marriage Act. Provides for a child support calculation for shared physical care in which each parent exercises 110 or more overnights per year with the child or 110 or more overnight equivalents as determined by a court as a deviation from guidelines or upon agreement by the parties. Provides that overnight equivalents are calculated by using a method other than overnights if the parent has significant parenting time periods on separate days in which the child is in the parent's physical care and under the direct care of that parent but does not stay overnight. Provides that if parents have shared physical care of a child, the basic child support obligation is multiplied by 1.5 to calculate the combined shared care child support obligation; the court shall determine each parent's portion of the shared care child support obligation based on the parent's percentage share of combined adjusted net income; the shared care child support obligation is then computed for each parent by multiplying that parent's portion of the shared care support obligation by the percentage of time the child spends with the other parent and determining any adjustment for shared physical custody that is less than 146 overnights or overnight equivalents. Provides that the respective shared care child support obligations are then offset with the parent owing more paying the difference in child support. Creates a statutory table to calculate the child support if a parent has physical shared custody for less than 146 overnights or overnight equivalents per year. Provides that the shared care child support obligation after adjustment may not be greater than the amount that would have been ordered under the basic support guidelines in any event. Provides that a parent incarcerated for more than 180 days is presumed to be unable to pay any amount of child support, and this presumption may be rebutted by evidence establishing the ability to pay child support during incarceration. Provides a rebuttable presumption that a minimum child support obligation of $40 per month, per child, will be entered for an obligor who has actual or imputed gross income at or less than 100% of the most recent United States Department of Health and Human Services Federal Poverty Guidelines for a family of one person.

Senate Floor Amendment No. 1

Provides that a child support order entered must include a provision requiring both parents to exchange income information annually, and either parent must report to the other parent and to the clerk of court within 10 days each time either parent obtains new employment and each time either parent's employment is terminated for any reason. Provides that the information exchanged or reported must be in writing and verify the parent's net income. Provides that in the case of new employment, the information must include the name and address of the new employer. Adds a January 1, 2027 effective date.

40 ILCS 5/16-128 from Ch. 108 1/2, par. 16-128

Amends the Downstate Teacher Article of the Illinois Pension Code. In a provision concerning the contribution required to establish service credit for certain service as a teacher or administrator employed by a private school recognized by the Illinois State Board of Education, changes the amount of the interest payment required to establish that service credit from interest at the actuarially assumed rate to regular interest.

Pension Note (Government Forecasting & Accountability)
SB 4010 changes the interest rate applied to payments made to purchase optional service credit for years worked as a teacher or administrator in a private institution recognized by the Illinois State Board of Education. This legislation would apply regular interest rather than the actuarially assumed rate currently used by TRS. The precise fiscal impact of this legislation is unknown as of this writing because the number of teachers who may purchase this optional service credit during the current window period (which closes on June 30, 2028) is not known. However, lowering the interest rate from the actuarially assumed rate (currently 7.00% for TRS) to regular interest (set at 6% under current law) may result in member payments that are less than actuarially neutral. Therefore, SB 4010 could have a negative fiscal impact on TRS, commensurate with the number of teachers who elect to purchase this service credit and the difference between the two interest rates.
