Testimony:

I am in support of the Emergency Renter and Homeowner Protection Act because it brings relief to hundreds of thousands of working class people who have lost all forms of income during this global pandemic. In this global emergency, particularly in our nation where we're lacking sufficient leadership to safely resume work and lives, we need a way to ensure more people don't have to die at the hands of an irresponsible and careless government. If people are losing their homes, or not able to afford food, or being forced to either work or die, there is no other option than to freeze rent.
