Testimony:

I support the Emergency Renter and Homeowner Protection Act, HB5574, because we need to protect people's housing. It is a human right and necessary for a functioning and healthy community. The money is there to support hundreds of thousands with income insecurity due to the crisis. The government should be putting that money toward efforts like HB5574 that will have the greatest positive impact on the greatest number of people. Handouts to real estate companies and corporations have the least positive impact on the greater community. This is about realigning priorities to the people not consolidating money and power.
