

Hello my name is Penelope Torres - I live in Downtown Aurora which falls into the 11th congressional district. I would like the Committee to consider moving the D11 section of Aurora to one that aligns more with the greater Fox Valley area. Currently Downtown Aurora is in the same District with cities like Bolingbrook, Joliet and Naperville. These areas do not share similar interests geographically, economically, or common transportation and infrastructure. The current districting also splits out an extremely large minority population from the rest of Aurora. Please consider bringing Aurora (and the greater Fox Valley) together in a more unified manner. Thank you
