

To Whom It May Concern:

As the Village Clerk for the Village of Richmond, I am very concerned about the Redistricting Map approved by the Governor. As a result of the redistricting, our municipality is literally split down the middle by US Route 12. I believe this will lead to confusion for our residents. It will also cause issues when we wish to request Letters of Support for projects that benefit our entire community, such as grants and other program funding. It is like pitting one side of our municipality against the other side. This division makes NO sense and I respectfully request that someone look into this matter and report our municipalities concerns.

Sincerely,
Karla L. Thomas
