Re: Proposed changes to IL 3rd District

Please do not redistrict IL 03rd congressional district. I have been living in this district for 45 years and have worked to support many important initiatives that have brought progress and stability to this District. I implore you to keep the District as is rather than breaking it apart and significantly less influential in addressing the priorities of the constituents living in this District. We want to keep our community open to all people and we will continue to work for progress and Unity in our Community and the State of Illinois.

Respectfully,

Charline M. McGrath
