

(no subject)

John Links

to redistrictingcommittee,

Thank you for your work on redistricting, I'm sure it's a contentious process. My hope is that you take feedback from community members seriously. I've been a constituent of IL-03 for more than a decade and have created a diverse community with shared values during that time. I'm concerned about the shape of IL-03 and what the proposed maps would mean for the future of my community, so I created my own that I feel like preserves the integrity of my district.
