

Dear House & Senate Redistricting Committees:

Good morning.

My family and I live at 9N789 Old Mill Court, Elgin, Illinois 60124. In the most recent version of the new congressional maps, our subdivision north and south of Bowes Road is divided between the 11th and the 8th congressional districts. I would respectfully request that the boundaries be modified to include the residential areas just south of Bowes Road in Elgin in the 8th. These homes south of Bowes Road are all a part of the same local community. Our children go to school together and these are our neighbors. We respectfully request that you shift the boundary of the 8th congressional district south to include the households east of Crawford Road, North of Charles Dickens Road and Rudyard Kipling Roads, and west of Corron Road.

We are grateful for the hard work you are doing. Creating equitable congressional districts to allow for greater minority participation in Congress is very important. Thank you for making that one of the priorities in your work.

Sincerely,  
Junaid Afeef  
Nazneen Ahmed
