

To the Redistricting Committee,

I am greatly disappointed in the new draft map that was released after so many constituents appeared before you to ask that our IL3 district keep the integrity of our borders and not be chopped apart. The new draft map released has our district entirely disappearing into others. I therefore have made and attached a map of how to keep IL3 connected together, as our communities have come together in grassroots coalitions across our district to make positive change, and bring true representation to our district. The map I created also contains a suggestion for IL6- to keep that district from swallowing up half of our current IL3 district, as it does in the latest draft released. We as constituents of IL3 made clear in our verbal testimony that we want our borders to remain. Here I am showing you how that looks to me as a voter in IL3. Much thanks for your work on this and again I hope you will keep the IL3 district together as a community of the SW side of Chicago and surrounding communities in the SW portion of Cook Co.

Respectfully,
Meghann McEntee
