LETTERS OF TRANSMITTAL

May 29, 2005

Mark Mahoney
Clerk of the House
402 State House
Springfield IL 62706

Dear Clerk Mahoney:

Pursuant to House Rule 53a, as the sponsor of HB 1968, I want to clarify the intent of the changes to 10 ILCS 5/7-60. These changes are necessary, because under existing law, a write-in candidate for precinct committeeman must be certified without filing a statement of candidacy and statement of economic interests, if they receive the most votes.

Sincerely,
s/Barbara Flynn Currie
House Majority Leader

RESOLUTION

The following resolution was offered and placed in the Committee on Rules.

HOUSE RESOLUTION 527

Offered by Representative Beiser:

WHEREAS, The Illinois Commerce Commission issued an order in April, 2005 establishing an "overlay" of a new 730 area code to supplement the telephone number supply in Illinois' 618 area code; and

WHEREAS, The Federal Communications Commission (FCC) currently requires 11-digit dialing when an overlay area code is implemented; and

WHEREAS, Wireless portability went into effect in November, 2003; customers may now port their wireless number from one carrier to another and may also port their land line number to a wireless carrier; with the advent of inter-modal portability, the line of distinction between "wireless" and "wire line" numbering resources was erased and, with it, the viability of a "wireless only" overlay; and

WHEREAS, In 1996, Ameritech Illinois (now SBC) proposed to the FCC an area code overlay for wireless telephones; and

WHEREAS, The State of Pennsylvania (in 1998) and the Citizens Utility Board (in Illinois in 2001) petitioned the FCC for a waiver of 11-digit dialing in an overlay environment; and

WHEREAS, On December 29, 2001, the FCC reversed its long-standing opposition to wireless-only overlays, signaling that the Commission is potentially reconsidering its area code policies; and

WHEREAS, Implementing a new area code in the 618 overlay for only new wireless telephone subscribers would relieve current telephone subscribers within the 618 area code from the need for 11-digit dialing; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we urge the Federal Communications Commission to provide a waiver from implementing the new 730 area code for current telephone subscribers and to restrict the implementation of the 730 area code to new wireless telephone subscribers in the 618 overlay who have not exercised their portability option; and be it further

RESOLVED, That a suitable copy of this resolution be presented to the Chairman of the Federal Communications Commission, the Chairman of the Illinois Commerce Commission, and each member of the Illinois congressional delegation.

AGREED RESOLUTION

The following resolution was offered and placed on the Calendar on the order of Agreed Resolutions.

HOUSE RESOLUTION 526

SENATE BILL 27. Having been read by title a second time on May 28, 2005, and held on the order of Second Reading, the same was again taken up.

Representative Molaro offered the following amendment and moved its adoption.

AMENDMENT NO. 2. Amend Senate Bill 27 by replacing everything after the enacting clause with the following:

"Section 5. The Illinois Pension Code is amended by changing Sections 2-124, 2-134, 14-108.3, 14-110, 14-131, 14-135.08, 15-125, 15-136, 15-155, 15-165, 16-128, 16-133, 16-133.2, 16-133.3, 16-152, 16-158, 16-176, 17-116.1, 18-131, and 18-140 and by adding Sections 1A-201, 2-162, 14-152.1, 15-198, 16-203, and 18-169 as follows:

(40 ILCS 5/1A-201 new)

Sec. 1A-201. Advisory Commission on Pension Benefits.

(a) There is created an Advisory Commission on Pension Benefits. The Commission shall consist of 15 persons, of whom 8 shall be appointed by the Governor and one each shall be appointed by the President and Minority Leader of the Senate and the Speaker and Minority Leader of the House of Representatives. Four of the persons appointed by the Governor shall represent different statewide labor organizations, of which 2 shall be organizations that represent primarily teachers and 2 shall be organizations that represent primarily State employees other than teachers. The Directors of the retirement systems established under Articles 14, 15, and 16 of this Code shall be ex officio members of the Commission.

(b) The Commission shall consider and make its recommendations concerning changing the age and service requirements, automatic annual increase benefits, and employee contribution rates of the State-funded retirement systems and other pension-related issues as determined by the Commission. On or before November 1, 2005, the Commission shall report its findings and recommendations to the Governor and the General Assembly.

(c) The Commission may request actuarial data from any of the 5 State-funded retirement systems established under this Code. That data may include, but is not limited to, the dates of birth, years of service, salaries, and life expectancies of members. A retirement system shall provide the requested information as soon as practical after the request is received, but in no event later than any reasonable deadline imposed by the Commission.

(40 ILCS 5/2-124) (from Ch. 108 1/2, par. 2-124)

Sec. 2-124. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with the contributions of participants, interest earned on investments, and other income will meet the cost of

maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

(b) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the prescribed rate of interest, using the formula in subsection (c).

(c) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through ~~2005~~ 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is \$4,157,000.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is \$5,220,300.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 2-134, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(40 ILCS 5/2-134) (from Ch. 108 1/2, par. 2-134)

Sec. 2-134. To certify required State contributions and submit vouchers.

(a) The Board shall certify to the Governor on or before November 15 of each year the amount of the required State contribution to the System for the next fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

(b) Beginning in State fiscal year 1996, on or as soon as possible after the 15th day of each month the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution

amount determined under this Section after taking into consideration the transfer to the System under subsection (d) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year. If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this Section, the difference shall be paid from the General Revenue Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(c) The full amount of any annual appropriation for the System for State fiscal year 1995 shall be transferred and made available to the System at the beginning of that fiscal year at the request of the Board. Any excess funds remaining at the end of any fiscal year from appropriations shall be retained by the System as a general reserve to meet the System's accrued liabilities.

(40 ILCS 5/2-162 new)

Sec. 2-162. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after the effective date of this amendatory Act of the 94th General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Financial and Professional Regulation. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including without limitation a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

(40 ILCS 5/14-108.3)

Sec. 14-108.3. Early retirement incentives.

(a) To be eligible for the benefits provided in this Section, a person must:

(1) be a member of this System who, on any day during June, 2002, is (i) in active payroll status in a position of employment with a department and an active contributor to this System with respect to that employment, and terminates that employment before the retirement annuity under this Article begins, or (ii) on layoff status from such a position with a right of re-employment or recall to service, or (iii) receiving benefits under Section 14-123, 14-123.1 or 14-124, but only if the member has not been receiving those benefits for a continuous period of more than 2 years as of the date of application;

(2) not have received any retirement annuity under this Article beginning earlier than August 1, 2002;

- (3) file with the Board on or before December 31, 2002 a written application requesting the benefits provided in this Section;
- (4) terminate employment under this Article no later than December 31, 2002 (or the date established under subsection (d), if applicable);
- (5) by the date of termination of service, have at least 8 years of creditable service under this Article, without the use of any creditable service established under this Section;
- (6) by the date of termination of service, have at least 5 years of membership service earned while an employee under this Article, which may include military service for which credit is established under Section 14-105(b), service during the qualifying period for which credit is established under Section 14-104(a), and service for which credit has been established by repaying a refund under Section 14-130, but shall not include service for which any other optional service credit has been established; and
- (7) not receive any early retirement benefit under Section 16-133.3 of this Code.

(b) An eligible person may establish up to 5 years of creditable service under this Article, in increments of one month, by making the contributions specified in subsection (c). In addition, for each month of creditable service established under this Section, a person's age at retirement shall be deemed to be one month older than it actually is.

The creditable service established under this Section may be used for all purposes under this Article and the Retirement Systems Reciprocal Act, except for the computation of final average compensation under Section 14-103.12 or the determination of compensation under this or any other Article of this Code.

The age enhancement established under this Section may not be used to enable any person to begin receiving a retirement annuity calculated under Section 14-110 before actually attaining age 50 (without any age enhancement under this Section). The age enhancement established under this Section may be used for all other purposes under this Article (including calculation of a proportionate annuity payable by this System under the Retirement Systems Reciprocal Act), except for purposes of the level income option in Section 14-112, the reversionary annuity under Section 14-113, and the required distributions under Section 14-121.1.

The age enhancement established under this Section may be used in determining benefits payable under Article 16 of this Code under the Retirement Systems Reciprocal Act, if the person has at least 5 years of service credit in the Article 16 system that was earned while participating in that system as a teacher (as defined in Section 16-106) employed by a department (as defined in Section 14-103.04). Age enhancement established under this Section shall not otherwise be used in determining benefits payable under other Articles of this Code under the Retirement Systems Reciprocal Act.

(c) For all creditable service established under this Section, a person must pay to the System an employee contribution to be determined by the System, based on the member's rate of compensation on June 1, 2002 (or the last date before June 1, 2002 for which a rate can be determined) and the retirement contribution rate in effect on June 1, 2002 for the member (or for members with the same social security and alternative formula status as the member).

If the member receives a lump sum payment for accumulated vacation, sick leave and personal leave upon withdrawal from service, and the net amount of that lump sum payment is at least as great as the amount of the contribution required under this Section, the entire contribution must be paid by the employee by payroll deduction. If there is no such lump sum payment, or if it is less than the contribution required under this Section, the member shall make an initial payment by payroll deduction, equal to the net amount of the lump sum payment for accumulated vacation, sick leave, and personal leave, and have the remaining amount due treated as a reduction from the retirement annuity in 24 equal monthly installments beginning in the month in which the retirement annuity takes effect. The required contribution may be paid as a pre-tax deduction from earnings. For federal and Illinois tax purposes, the monthly amount by which the annuitant's benefit is reduced shall not be treated as a contribution by the annuitant, but rather as a reduction of the annuitant's monthly benefit.

(c-5) The reduction in retirement annuity provided in subsection (c) of Section 14-108 does not apply to the annuity of a person who retires under this Section. A person who has received any age enhancement or creditable service under this Section may begin to receive an unreduced retirement annuity upon attainment of age 55 with at least 25 years of creditable service (including any age enhancement and creditable service established under this Section).

(d) In order to ensure that the efficient operation of State government is not jeopardized by the simultaneous retirement of large numbers of key personnel, the director or other head of a department may, for key employees of that department, extend the December 31, 2002 deadline for terminating employment

under this Article established in subdivision (a)(4) of this Section to a date not later than April 30, 2003 by so notifying the System in writing by December 31, 2002.

(e) Notwithstanding Section 14-111, a person who has received any age enhancement or creditable service under this Section and who reenters service under this Article (or as an employee of a department under Article 16) other than as a temporary employee thereby forfeits that age enhancement and creditable service and is entitled to a refund of the contributions made pursuant to this Section.

(f) The System shall determine the amount of the increase in the present value of future benefits resulting from the granting of early retirement incentives under this Section and shall report that amount to the Governor and the Commission on Government Forecasting and Accountability on or after the effective date of this amendatory Act of the 93rd General Assembly and on or before November 15, 2004. Beginning with State fiscal year 2008, the ~~The~~ increase reported under this subsection (f) shall ~~not~~ be included in the calculation of the required State contribution under Section 14-131.

(g) In addition to the contributions otherwise required under this Article, the State shall appropriate and pay to the System ~~(1)~~ an amount equal to \$70,000,000 in State fiscal years 2004 and 2005 ~~and (2) in each of State fiscal years 2006 through 2015, a level dollar payment based upon the increase in the present value of future benefits provided by the early retirement incentives provided under this Section amortized at 8.5% interest.~~

(h) The Commission on Government Forecasting and Accountability (i) shall hold one or more hearings on or before the last session day during the fall veto session of 2004 to review recommendations relating to funding of early retirement incentives under this Section and (ii) shall file its report with the General Assembly on or before December 31, 2004 making its recommendations relating to funding of early retirement incentives under this Section; the Commission's report may contain both majority recommendations and minority recommendations. The System shall recalculate and recertify to the Governor by January 31, 2005 the amount of the required State contribution to the System for State fiscal year 2005 with respect to those incentives. The Pension Laws Commission (or its successor, the Commission on Government Forecasting and Accountability) shall determine and report to the General Assembly, on or before January 1, 2004 and annually thereafter through the year 2013, its estimate of (1) the annual amount of payroll savings likely to be realized by the State as a result of the early retirement of persons receiving early retirement incentives under this Section and (2) the net annual savings or cost to the State from the program of early retirement incentives created under this Section.

The System, the Department of Central Management Services, the Governor's Office of Management and Budget (formerly Bureau of the Budget), and all other departments shall provide to the Commission any assistance that the Commission may request with respect to its reports under this Section. The Commission may require departments to provide it with any information that it deems necessary or useful with respect to its reports under this Section, including without limitation information about (1) the final earnings of former department employees who elected to receive benefits under this Section, (2) the earnings of current department employees holding the positions vacated by persons who elected to receive benefits under this Section, and (3) positions vacated by persons who elected to receive benefits under this Section that have not yet been refilled.

(i) The changes made to this Section by this amendatory Act of the 92nd General Assembly do not apply to persons who retired under this Section on or before May 1, 1992.

Sec. 14-110. Alternative retirement annuity.

(a) Any member who has withdrawn from service with not less than 20 years of eligible creditable service and has attained age 55, and any member who has withdrawn from service with not less than 25 years of eligible creditable service and has attained age 50, regardless of whether the attainment of either of the specified ages occurs while the member is still in service, shall be entitled to receive at the option of the member, in lieu of the regular or minimum retirement annuity, a retirement annuity computed as follows:

(i) for periods of service as a noncovered employee: if retirement occurs on or after

(40 ILCS 5/14-131) (from Ch. 108 1/2, par. 14-131)

Sec. 14-131. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with other employer contributions from trust, federal, and other funds, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

For the purposes of this Section and Section 14-135.08, references to State contributions refer only to employer contributions and do not include employee contributions that are picked up or otherwise paid by the State or a department on behalf of the employee.

(b) The Board shall determine the total amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board, using the formula in subsection (e).

The Board shall also determine a State contribution rate for each fiscal year, expressed as a percentage of payroll, based on the total required State contribution for that fiscal year (less the amount received by the System from appropriations under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act, if any, for the fiscal year ending on the June 30 immediately preceding the applicable November 15 certification deadline), the estimated payroll (including all forms of compensation) for personal services rendered by eligible employees, and the recommendations of the actuary.

For the purposes of this Section and Section 14.1 of the State Finance Act, the term "eligible employees" includes employees who participate in the System, persons who may elect to participate in the System but have not so elected, persons who are serving a qualifying period that is required for participation, and annuitants employed by a department as described in subdivision (a)(1) or (a)(2) of Section 14-111.

(c) Contributions shall be made by the several departments for each pay period by warrants drawn by the State Comptroller against their respective funds or appropriations based upon vouchers stating the amount to be so contributed. These amounts shall be based on the full rate certified by the Board under Section 14-135.08 for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the several departments shall not make contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The several departments shall resume those contributions at the commencement of fiscal year 2005.

(d) If an employee is paid from trust funds or federal funds, the department or other employer shall pay

employer contributions from those funds to the System at the certified rate, unless the terms of the trust or the federal-State agreement preclude the use of the funds for that purpose, in which case the required employer contributions shall be paid by the State. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the department or other employer shall not pay contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The department or other employer shall resume payment of contributions at the commencement of fiscal year 2005.

(e) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through ~~2005~~ 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that (i) for State fiscal year 1998, for all purposes of this Code and any other law of this State, the certified percentage of the applicable employee payroll shall be 5.052% for employees earning eligible creditable service under Section 14-110 and 6.500% for all other employees, notwithstanding any contrary certification made under Section 14-135.08 before the effective date of this amendatory Act of 1997, and (ii) in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a): 9.8% in FY 1999; 10.0% in FY 2000; 10.2% in FY 2001; 10.4% in FY 2002; 10.6% in FY 2003; and 10.8% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2006 is \$203,783,900.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2007 is \$344,164,400.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 14-135.08, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(f) After the submission of all payments for eligible employees from personal services line items in fiscal year 2004 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2004 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 93rd General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2004 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received

by the System in fiscal year 2004 through payments under this Section and under Section 6z-61 of the State Finance Act. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2004 Shortfall" for purposes of this Section, and the Fiscal Year 2004 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2004 Overpayment" for purposes of this Section, and the Fiscal Year 2004 Overpayment shall be repaid by the System to the Pension Contribution Fund as soon as practicable after the certification.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor and to each department the amount of the required State contribution to the System and the required rates for State contributions to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor and to each department the amount of the required State contribution to the System and the required rates for State contributions to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

(40 ILCS 5/14-152.1 new)

Sec. 14-152.1. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after the effective date of this amendatory Act of the 94th General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Financial and Professional Regulation. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does

not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including without limitation a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

Sec. 15-125. "Prescribed Rate of Interest; Effective Rate of Interest":

(1) "Prescribed rate of interest": The rate of interest to be used in actuarial valuations and in development of actuarial tables as determined by the board on the basis of the probable average effective rate of interest on a long term basis.

(2) "Effective rate of interest": The interest rate for all or any part of a fiscal year that is determined by the board based on factors including the system's past and expected investment experience; historical and expected fluctuations in the market value of investments; the desirability of minimizing volatility in the effective rate of interest from year to year; and the provision of reserves for anticipated losses upon sales, redemptions, or other disposition of investments and for variations in interest experience; except that for the purpose of determining the accumulated normal contributions used in calculating retirement annuities under Rule 2 of Section 15-136, the effective rate of interest shall be determined by the State Comptroller rather than the board. The State Comptroller shall determine the effective rate of interest to be used for this purpose using the factors listed above, and shall certify to the board and the Commission on Government Forecasting and Accountability the rate to be used for this purpose for fiscal year 2006 as soon as possible after the effective date of this amendatory Act of the 94th General Assembly, and for each fiscal year thereafter no later than the September 1 immediately preceding the start of that fiscal year.

(3) The change made to this Section by Public Acts 90-65 and 90-511. This amendatory Act of 1997 is a clarification of existing law.

(40 ILCS 5/15-136) (from Ch. 108 1/2, par. 15-136)

Sec. 15-136. Retirement annuities - Amount. The provisions of this Section 15-136 apply only to those participants who are participating in the traditional benefit package or the portable benefit package and do not apply to participants who are participating in the self-managed plan.

(a) The amount of a participant's retirement annuity, expressed in the form of a single-life annuity, shall be determined by whichever of the following rules is applicable and provides the largest annuity:

Rule 1: The retirement annuity shall be 1.67% of final rate of earnings for each of the first 10 years of service, 1.90% for each of the next 10 years of service, 2.10% for each year of service in excess of 20 but not exceeding 30, and 2.30% for each year in excess of 30; or for persons who retire on or after January 1, 1998, 2.2% of the final rate of earnings for each year of service.

Rule 2: The retirement annuity shall be the sum of the following, determined from amounts credited to the participant in accordance with the actuarial tables and the prescribed rate of interest in effect at the time the retirement annuity begins:

(i) the normal annuity which can be provided on an actuarially equivalent basis, by the accumulated normal contributions as of the date the annuity begins;

(ii) an annuity from employer contributions of an amount equal to that which can be provided on an actuarially equivalent basis from the accumulated normal contributions made by the participant under Section 15-113.6 and Section 15-113.7 plus 1.4 times all other accumulated normal contributions made by the participant; and

(iii) the annuity that can be provided on an actuarially equivalent basis from the entire contribution made by the participant under Section 15-113.3.

With respect to a police officer or firefighter who retires on or after August 14, 1998, the accumulated normal contributions taken into account under clauses (i) and (ii) of this Rule 2 shall include the additional normal contributions made by the police officer or firefighter under Section 15-157(a).

The amount of a retirement annuity calculated under this Rule 2 shall be computed solely on the basis of the participant's accumulated normal contributions, as specified in this Rule and defined in Section 15-116. Neither an employee or employer contribution for early retirement under Section 15-136.2 nor any other employer contribution shall be used in the calculation of the amount of a retirement annuity under this Rule 2.

This amendatory Act of the 91st General Assembly is a clarification of existing law and applies to every

participant and annuitant without regard to whether status as an employee terminates before the effective date of this amendatory Act.

This Rule 2 does not apply to a person who first becomes an employee under this Article on or after July 1, 2005.

Rule 3: The retirement annuity of a participant who is employed at least one-half time during the period on which his or her final rate of earnings is based, shall be equal to the participant's years of service not to exceed 30, multiplied by (1) \$96 if the participant's final rate of earnings is less than \$3,500, (2) \$108 if the final rate of earnings is at least \$3,500 but less than \$4,500, (3) \$120 if the final rate of earnings is at least \$4,500 but less than \$5,500, (4) \$132 if the final rate of earnings is at least \$5,500 but less than \$6,500, (5) \$144 if the final rate of earnings is at least \$6,500 but less than \$7,500, (6) \$156 if the final rate of earnings is at least \$7,500 but less than \$8,500, (7) \$168 if the final rate of earnings is at least \$8,500 but less than \$9,500, and (8) \$180 if the final rate of earnings is \$9,500 or more, except that the annuity for those persons having made an election under Section 15-154(a-1) shall be calculated and payable under the portable retirement benefit program pursuant to the provisions of Section 15-136.4.

Rule 4: A participant who is at least age 50 and has 25 or more years of service as a police officer or firefighter, and a participant who is age 55 or over and has at least 20 but less than 25 years of service as a police officer or firefighter, shall be entitled to a retirement annuity of 2 1/4% of the final rate of earnings for each of the first 10 years of service as a police officer or firefighter, 2 1/2% for each of the next 10 years of service as a police officer or firefighter, and 2 3/4% for each year of service as a police officer or firefighter in excess of 20. The retirement annuity for all other service shall be computed under Rule 1.

For purposes of this Rule 4, a participant's service as a firefighter shall also include the following:

(i) service that is performed while the person is an employee under subsection (h) of Section 15-107; and

(ii) in the case of an individual who was a participating employee employed in the fire department of the University of Illinois's Champaign-Urbana campus immediately prior to the elimination of that fire department and who immediately after the elimination of that fire department transferred to another job with the University of Illinois, service performed as an employee of the University of Illinois in a position other than police officer or firefighter, from the date of that transfer until the employee's next termination of service with the University of Illinois.

Rule 5: The retirement annuity of a participant who elected early retirement under the provisions of Section 15-136.2 and who, on or before February 16, 1995, brought administrative proceedings pursuant to the administrative rules adopted by the System to challenge the calculation of his or her retirement annuity shall be the sum of the following, determined from amounts credited to the participant in accordance with the actuarial tables and the prescribed rate of interest in effect at the time the retirement annuity begins:

(i) the normal annuity which can be provided on an actuarially equivalent basis, by the accumulated normal contributions as of the date the annuity begins; and

(ii) an annuity from employer contributions of an amount equal to that which can be provided on an actuarially equivalent basis from the accumulated normal contributions made by the participant under Section 15-113.6 and Section 15-113.7 plus 1.4 times all other accumulated normal contributions made by the participant; and

(iii) an annuity which can be provided on an actuarially equivalent basis from the employee contribution for early retirement under Section 15-136.2, and an annuity from employer contributions of an amount equal to that which can be provided on an actuarially equivalent basis from the employee contribution for early retirement under Section 15-136.2.

In no event shall a retirement annuity under this Rule 5 be lower than the amount obtained by adding (1) the monthly amount obtained by dividing the combined employee and employer contributions made under Section 15-136.2 by the System's annuity factor for the age of the participant at the beginning of the annuity payment period and (2) the amount equal to the participant's annuity if calculated under Rule 1, reduced under Section 15-136(b) as if no contributions had been made under Section 15-136.2.

With respect to a participant who is qualified for a retirement annuity under this Rule 5 whose retirement annuity began before the effective date of this amendatory Act of the 91st General Assembly, and for whom an employee contribution was made under Section 15-136.2, the System shall recalculate the retirement annuity under this Rule 5 and shall pay any additional amounts due in the manner provided in Section 15-186.1 for benefits mistakenly set too low.

The amount of a retirement annuity calculated under this Rule 5 shall be computed solely on the basis of those contributions specifically set forth in this Rule 5. Except as provided in clause (iii) of this Rule 5, neither an employee nor employer contribution for early retirement under Section 15-136.2, nor any other

employer contribution, shall be used in the calculation of the amount of a retirement annuity under this Rule 5.

The General Assembly has adopted the changes set forth in Section 25 of this amendatory Act of the 91st General Assembly in recognition that the decision of the Appellate Court for the Fourth District in *Mattis v. State Universities Retirement System et al.* might be deemed to give some right to the plaintiff in that case. The changes made by Section 25 of this amendatory Act of the 91st General Assembly are a legislative implementation of the decision of the Appellate Court for the Fourth District in *Mattis v. State Universities Retirement System et al.* with respect to that plaintiff.

The changes made by Section 25 of this amendatory Act of the 91st General Assembly apply without regard to whether the person is in service as an employee on or after its effective date.

(b) The retirement annuity provided under Rules 1 and 3 above shall be reduced by 1/2 of 1% for each month the participant is under age 60 at the time of retirement. However, this reduction shall not apply in the following cases:

- (1) For a disabled participant whose disability benefits have been discontinued because he or she has exhausted eligibility for disability benefits under clause (6) of Section 15-152;
- (2) For a participant who has at least the number of years of service required to retire at any age under subsection (a) of Section 15-135; or
- (3) For that portion of a retirement annuity which has been provided on account of service of the participant during periods when he or she performed the duties of a police officer or firefighter, if these duties were performed for at least 5 years immediately preceding the date the retirement annuity is to begin.

(c) The maximum retirement annuity provided under Rules 1, 2, 4, and 5 shall be the lesser of (1) the annual limit of benefits as specified in Section 415 of the Internal Revenue Code of 1986, as such Section may be amended from time to time and as such benefit limits shall be adjusted by the Commissioner of Internal Revenue, and (2) 80% of final rate of earnings.

(d) An annuitant whose status as an employee terminates after August 14, 1969 shall receive automatic increases in his or her retirement annuity as follows:

Effective January 1 immediately following the date the retirement annuity begins, the annuitant shall receive an increase in his or her monthly retirement annuity of 0.125% of the monthly retirement annuity provided under Rule 1, Rule 2, Rule 3, Rule 4, or Rule 5, contained in this Section, multiplied by the number of full months which elapsed from the date the retirement annuity payments began to January 1, 1972, plus 0.1667% of such annuity, multiplied by the number of full months which elapsed from January 1, 1972, or the date the retirement annuity payments began, whichever is later, to January 1, 1978, plus 0.25% of such annuity multiplied by the number of full months which elapsed from January 1, 1978, or the date the retirement annuity payments began, whichever is later, to the effective date of the increase.

The annuitant shall receive an increase in his or her monthly retirement annuity on each January 1 thereafter during the annuitant's life of 3% of the monthly annuity provided under Rule 1, Rule 2, Rule 3, Rule 4, or Rule 5 contained in this Section. The change made under this subsection by P.A. 81-970 is effective January 1, 1980 and applies to each annuitant whose status as an employee terminates before or after that date.

Beginning January 1, 1990, all automatic annual increases payable under this Section shall be calculated as a percentage of the total annuity payable at the time of the increase, including all increases previously granted under this Article.

The change made in this subsection by P.A. 85-1008 is effective January 26, 1988, and is applicable without regard to whether status as an employee terminated before that date.

(e) If, on January 1, 1987, or the date the retirement annuity payment period begins, whichever is later, the sum of the retirement annuity provided under Rule 1 or Rule 2 of this Section and the automatic annual increases provided under the preceding subsection or Section 15-136.1, amounts to less than the retirement annuity which would be provided by Rule 3, the retirement annuity shall be increased as of January 1, 1987, or the date the retirement annuity payment period begins, whichever is later, to the amount which would be provided by Rule 3 of this Section. Such increased amount shall be considered as the retirement annuity in determining benefits provided under other Sections of this Article. This paragraph applies without regard to whether status as an employee terminated before the effective date of this amendatory Act of 1987, provided that the annuitant was employed at least one-half time during the period on which the final rate of earnings was based.

(f) A participant is entitled to such additional annuity as may be provided on an actuarially equivalent basis, by any accumulated additional contributions to his or her credit. However, the additional

contributions made by the participant toward the automatic increases in annuity provided under this Section shall not be taken into account in determining the amount of such additional annuity.

(g) If, (1) by law, a function of a governmental unit, as defined by Section 20-107 of this Code, is transferred in whole or in part to an employer, and (2) a participant transfers employment from such governmental unit to such employer within 6 months after the transfer of the function, and (3) the sum of (A) the annuity payable to the participant under Rule 1, 2, or 3 of this Section (B) all proportional annuities payable to the participant by all other retirement systems covered by Article 20, and (C) the initial primary insurance amount to which the participant is entitled under the Social Security Act, is less than the retirement annuity which would have been payable if all of the participant's pension credits validated under Section 20-109 had been validated under this system, a supplemental annuity equal to the difference in such amounts shall be payable to the participant.

(h) On January 1, 1981, an annuitant who was receiving a retirement annuity on or before January 1, 1971 shall have his or her retirement annuity then being paid increased \$1 per month for each year of creditable service. On January 1, 1982, an annuitant whose retirement annuity began on or before January 1, 1977, shall have his or her retirement annuity then being paid increased \$1 per month for each year of creditable service.

(i) On January 1, 1987, any annuitant whose retirement annuity began on or before January 1, 1977, shall have the monthly retirement annuity increased by an amount equal to 8¢ per year of creditable service times the number of years that have elapsed since the annuity began.

(40 ILCS 5/15-155) (from Ch. 108 1/2, par. 15-155)

Sec. 15-155. Employer contributions.

(a) The State of Illinois shall make contributions by appropriations of amounts which, together with the other employer contributions from trust, federal, and other funds, employee contributions, income from investments, and other income of this System, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (a-1).

(a-1) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through ~~2005~~ 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is \$166,641,900.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is \$252,064,100.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 15-165, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In

determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(b) If an employee is paid from trust or federal funds, the employer shall pay to the Board contributions from those funds which are sufficient to cover the accruing normal costs on behalf of the employee. However, universities having employees who are compensated out of local auxiliary funds, income funds, or service enterprise funds are not required to pay such contributions on behalf of those employees. The local auxiliary funds, income funds, and service enterprise funds of universities shall not be considered trust funds for the purpose of this Article, but funds of alumni associations, foundations, and athletic associations which are affiliated with the universities included as employers under this Article and other employers which do not receive State appropriations are considered to be trust funds for the purpose of this Article.

(b-1) The City of Urbana and the City of Champaign shall each make employer contributions to this System for their respective firefighter employees who participate in this System pursuant to subsection (h) of Section 15-107. The rate of contributions to be made by those municipalities shall be determined annually by the Board on the basis of the actuarial assumptions adopted by the Board and the recommendations of the actuary, and shall be expressed as a percentage of salary for each such employee. The Board shall certify the rate to the affected municipalities as soon as may be practical. The employer contributions required under this subsection shall be remitted by the municipality to the System at the same time and in the same manner as employee contributions.

(c) Through State fiscal year 1995: The total employer contribution shall be apportioned among the various funds of the State and other employers, whether trust, federal, or other funds, in accordance with actuarial procedures approved by the Board. State of Illinois contributions for employers receiving State appropriations for personal services shall be payable from appropriations made to the employers or to the System. The contributions for Class I community colleges covering earnings other than those paid from trust and federal funds, shall be payable solely from appropriations to the Illinois Community College Board or the System for employer contributions.

(d) Beginning in State fiscal year 1996, the required State contributions to the System shall be appropriated directly to the System and shall be payable through vouchers issued in accordance with subsection (c) of Section 15-165, except as provided in subsection (g).

(e) The State Comptroller shall draw warrants payable to the System upon proper certification by the System or by the employer in accordance with the appropriation laws and this Code.

(f) Normal costs under this Section means liability for pensions and other benefits which accrues to the System because of the credits earned for service rendered by the participants during the fiscal year and expenses of administering the System, but shall not include the principal of or any redemption premium or interest on any bonds issued by the Board or any expenses incurred or deposits required in connection therewith.

(g) If the amount of a participant's earnings for any academic year used to determine the final rate of earnings exceeds the amount of his or her earnings with the same employer for the previous academic year by more than 6%, the participant's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in earnings that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The employer contributions required under this subsection (g) shall be paid in the form of a lump sum within 30 days after receipt of the bill after the participant begins receiving benefits under this Article.

The provisions of this subsection (g) do not apply to earnings increases paid to participants under contracts or collective bargaining agreements entered into, amended, or renewed before the effective date of this amendatory Act of the 94th General Assembly.

(40 ILCS 5/15-165) (from Ch. 108 1/2, par. 15-165)

Sec. 15-165. To certify amounts and submit vouchers.

(a) The Board shall certify to the Governor on or before November 15 of each year the appropriation required from State funds for the purposes of this System for the following fiscal year. The certification

shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

(b) The Board shall certify to the State Comptroller or employer, as the case may be, from time to time, by its president and secretary, with its seal attached, the amounts payable to the System from the various funds.

(c) Beginning in State fiscal year 1996, on or as soon as possible after the 15th day of each month the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (b) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this Section, the difference shall be paid from the General Revenue Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(d) So long as the payments received are the full amount lawfully vouchered under this Section, payments received by the System under this Section shall be applied first toward the employer contribution to the self-managed plan established under Section 15-158.2. Payments shall be applied second toward the employer's portion of the normal costs of the System, as defined in subsection (f) of Section 15-155. The balance shall be applied toward the unfunded actuarial liabilities of the System.

(e) In the event that the System does not receive, as a result of legislative enactment or otherwise, payments sufficient to fully fund the employer contribution to the self-managed plan established under Section 15-158.2 and to fully fund that portion of the employer's portion of the normal costs of the System, as calculated in accordance with Section 15-155(a-1), then any payments received shall be applied proportionately to the optional retirement program established under Section 15-158.2 and to the employer's portion of the normal costs of the System, as calculated in accordance with Section 15-155(a-1). (40 ILCS 5/15-198 new)

Sec. 15-198. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after the effective date of this amendatory Act of the 94th General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Financial and Professional Regulation. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General

Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including without limitation a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

Sec. 16-128. Creditable service - required contributions.

(a) In order to receive the creditable service specified under subsection (b) of Section 16-127, a member is required to make the following contributions: (i) an amount equal to the contributions which would have been required had such service been rendered as a member under this System; (ii) for military service not immediately following employment and for service established under subdivision (b)(10) of Section 16-127, an amount determined by the Board to be equal to the employer's normal cost of the benefits accrued for such service; and (iii) interest from the date the contributions would have been due (or, in the case of a person establishing credit for military service under subdivision (b)(3) of Section 16-127, the date of first membership in the System, if that date is later) to the date of payment, at the following rate of interest, compounded annually: for periods prior to July 1, 1965, regular interest; from July 1, 1965 to June 30, 1977, 4% per year; on and after July 1, 1977, regular interest.

(b) In order to receive creditable service under paragraph (2) of subsection (b) of Section 16-127 for those who were not members on June 30, 1963, the minimum required contribution shall be \$420 per year of service together with interest at 4% per year compounded annually from July 1, preceding the date of membership until June 30, 1977 and at regular interest compounded annually thereafter to the date of payment.

(c) In determining the contribution required in order to receive creditable service under paragraph (3) of subsection (b) of Section 16-127, the salary rate for the remainder of the school term in which a member enters military service shall be assumed to be equal to the member's salary rate at the time of entering military service. However, for military service not immediately following employment, the salary rate on the last date as a participating teacher prior to such military service, or on the first date as a participating teacher after such military service, whichever is greater, shall be assumed to be equal to the member's salary rate at the time of entering military service. For each school term thereafter, the member's salary rate shall be assumed to be 5% higher than the salary rate in the previous school term.

(d) In determining the contribution required in order to receive creditable service under paragraph (5) of subsection (b) of Section 16-127, a member's salary rate during the period for which credit is being established shall be assumed to be equal to the member's last salary rate immediately preceding that period.

(d-5) For each year of service credit to be established under subsection (b-1) of Section 16-127, a member is required to contribute to the System (i) 16.5% of the annual salary rate during the first year of full-time employment as a teacher under this Article following the private school service, plus (ii) interest thereon from the date of first full-time employment as a teacher under this Article following the private school service to the date of payment, compounded annually, at the rate of 8.5% per year for periods before the effective date of this amendatory Act of the 92nd General Assembly, and for subsequent periods at a rate equal to the System's actuarially assumed rate of return on investments.

(d-10) For service credit established under paragraph (6) of subsection (b) of Section 16-127 for days granted by an employer in excess of the member's normal annual sick leave allotment, the employer is required to pay the normal cost of benefits based upon such service credit. This subsection (d-10) does not apply to sick leave granted to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before the effective date of this amendatory Act of the 94th General Assembly.

(e) The contributions required under this Section may be made from the date the statement for such creditable service is issued until retirement date. All such required contributions must be made before any retirement annuity is granted.

(40 ILCS 5/16-133) (from Ch. 108 1/2, par. 16-133)

Sec. 16-133. Retirement annuity; amount.

(a) The amount of the retirement annuity shall be (i) in the case of a person who first became a teacher under this Article before July 1, 2005, the larger of the amounts determined under paragraphs (A) and (B) below, or (ii) in the case of a person who first becomes a teacher under this Article on or after July 1, 2005, the amount determined under the applicable provisions of paragraph (B):

(A) An amount consisting of the sum of the following:

- (1) An amount that can be provided on an actuarially equivalent basis by the member's accumulated contributions at the time of retirement; and
- (2) The sum of (i) the amount that can be provided on an actuarially equivalent basis by the member's accumulated contributions representing service prior to July 1, 1947, and (ii) the amount that can be provided on an actuarially equivalent basis by the amount obtained by multiplying 1.4 times the member's accumulated contributions covering service subsequent to June 30, 1947; and
- (3) If there is prior service, 2 times the amount that would have been determined under subparagraph (2) of paragraph (A) above on account of contributions which would have been made during the period of prior service creditable to the member had the System been in operation and had the member made contributions at the contribution rate in effect prior to July 1, 1947.

This paragraph (A) does not apply to a person who first becomes a teacher under this Article on or after July 1, 2005.

(B) An amount consisting of the greater of the following:

- (1) For creditable service earned before July 1, 1998 that has not been augmented under Section 16-129.1: 1.67% of final average salary for each of the first 10 years of creditable service, 1.90% of final average salary for each year in excess of 10 but not exceeding 20, 2.10% of final average salary for each year in excess of 20 but not exceeding 30, and 2.30% of final average salary for each year in excess of 30; and

For creditable service earned on or after July 1, 1998 by a member who has at least 24 years of creditable service on July 1, 1998 and who does not elect to augment service under Section 16-129.1: 2.2% of final average salary for each year of creditable service earned on or after July 1, 1998 but before the member reaches a total of 30 years of creditable service and 2.3% of final average salary for each year of creditable service earned on or after July 1, 1998 and after the member reaches a total of 30 years of creditable service; and

For all other creditable service: 2.2% of final average salary for each year of creditable service; or

- (2) 1.5% of final average salary for each year of creditable service plus the sum \$7.50 for each of the first 20 years of creditable service.

The amount of the retirement annuity determined under this paragraph (B) shall be reduced by 1/2 of 1% for each month that the member is less than age 60 at the time the retirement annuity begins. However, this reduction shall not apply (i) if the member has at least 35 years of creditable service, or (ii) if the member retires on account of disability under Section 16-149.2 of this Article with at least 20 years of creditable service, or (iii) if the member (1) has earned during the period immediately preceding the last day of service at least one year of contributing creditable service as an employee of a department as defined in Section 14-103.04, (2) has earned at least 5 years of contributing creditable service as an employee of a department as defined in Section 14-103.04, (3) retires on or after January 1, 2001, and (4) retires having attained an age which, when added to the number of years of his or her total creditable service, equals at least 85. Portions of years shall be counted as decimal equivalents.

(b) For purposes of this Section, final average salary shall be the average salary for the highest 4 consecutive years within the last 10 years of creditable service as determined under rules of the board. The minimum final average salary shall be considered to be \$2,400 per year.

In the determination of final average salary for members other than elected officials and their appointees when such appointees are allowed by statute, that part of a member's salary for any year beginning after June 30, 1979 which exceeds the member's annual full-time salary rate with the same employer for the preceding year by more than 20% shall be excluded. The exclusion shall not apply in any year in which the member's creditable earnings are less than 50% of the preceding year's mean salary for downstate teachers as determined by the survey of school district salaries provided in Section 2-3.103 of the School Code.

(c) In determining the amount of the retirement annuity under paragraph (B) of this Section, a fractional year shall be granted proportional credit.

(d) The retirement annuity determined under paragraph (B) of this Section shall be available only to members who render teaching service after July 1, 1947 for which member contributions are required, and to annuitants who re-enter under the provisions of Section 16-150.

(e) The maximum retirement annuity provided under paragraph (B) of this Section shall be 75% of final average salary.

(f) A member retiring after the effective date of this amendatory Act of 1998 shall receive a pension equal to 75% of final average salary if the member is qualified to receive a retirement annuity equal to at least 74.6% of final average salary under this Article or as proportional annuities under Article 20 of this Code.

(40 ILCS 5/16-133.2) (from Ch. 108 1/2, par. 16-133.2)

Sec. 16-133.2. Early retirement without discount.

(a) A member retiring after June 1, 1980 and on or before June 30, 2005 (or as provided in subsection (b) of this Section), and applying for a retirement annuity within 6 months of the last day of teaching for which retirement contributions were required, may elect at the time of application for a retirement annuity, to make a one time member contribution to the System and thereby avoid the reduction in the retirement annuity for retirement before age 60 specified in paragraph (B) of Section 16-133. The exercise of the election shall also obligate the last employer to make a one time non-refundable contribution to the System. Substitute teachers wishing to exercise this election must teach 85 or more days in one school term with one employer, who shall be deemed the last employer for purposes of this Section. The last day of teaching with that employer must be within 6 months of the date of application for retirement. All substitute teaching credit applied toward the required 85 days must be earned after June 30, 1990.

The one time member and employer contributions shall be a percentage of the retiring member's highest annual salary rate used in the determination of the average salary for retirement annuity purposes. However, when determining the one-time member and employer contributions, that part of a member's salary with the same employer which exceeds the annual salary rate for the preceding year by more than 20% shall be excluded. The member contribution shall be at the rate of 7% for the lesser of the following 2 periods: (1) for each year that the member is less than age 60; or (2) for each year that the member's creditable service is less than 35 years. If a member is at least age 55 and has at least 34 years of creditable service, no member or employer contribution for the early retirement option shall be required. The employer contribution shall be at the rate of 20% for each year the member is under age 60.

Upon receipt of the application and election, the System shall determine the one time employee and employer contributions required. The member contribution shall be credited to the individual account of the member and the employer contribution shall be credited to the Benefit Trust Reserve. The provisions of this subsection (a) providing for the avoidance of the reduction in retirement annuity ~~Section~~ shall not be applicable until the member's contribution, if any, has been received by the System; however, the date such contributions are received shall not be considered in determining the effective date of retirement.

The number of members working for a single employer who may retire under this subsection or subsection (b) Section in any year may be limited at the option of the employer to a specified percentage of those eligible, not less than 30%, with the right to participate to be allocated among those applying on the basis of seniority in the service of the employer.

(b) The provisions of subsection (a) of this Section shall remain in effect for a member retiring after June 30, 2005 and on or before July 1, 2007, provided that the member satisfies both of the following requirements:

(1) the member notified his or her employer of intent to retire under this Article on or before the effective date of this amendatory Act of the 94th General Assembly under the terms of a contract or collective bargaining agreement entered into, amended, or renewed with the employer on or before the effective date of this amendatory Act of the 94th General Assembly; and

(2) the effective date of the member's retirement is on or before July 1, 2007.

The member's employer must give evidence of the member's notification by providing to the System:

(i) a copy of the member's notification to the employer or the record of that notification;

(ii) an affidavit signed by the member and the employer, verifying the notification; and

(iii) any additional documentation that the System may require.

(c) Except as otherwise provided in subsection (b), and subject to the provisions of Section 16-176, a member retiring on or after July 1, 2005, and applying for a retirement annuity within 6 months of the last day of teaching for which retirement contributions were required, may elect at the time of application for a retirement annuity, to make a one-time member contribution to the System and thereby avoid the reduction in the retirement annuity for retirement before age 60 specified in paragraph (B) of Section 16-133. The exercise of the election shall also obligate the last employer to make a one-time nonrefundable contribution to the System. Substitute teachers wishing to exercise this election must teach 85 or more days in one

school term with one employer, who shall be deemed the last employer for purposes of this Section. The last day of teaching with that employer must be within 6 months of the date of application for retirement. All substitute teaching credit applied toward the required 85 days must be earned after June 30, 1990.

The one-time member and employer contributions shall be a percentage of the retiring member's highest annual salary rate used in the determination of the average salary for retirement annuity purposes. However, when determining the one-time member and employer contributions, that part of a member's salary with the same employer which exceeds the annual salary rate for the preceding year by more than 20% shall be excluded. The member contribution shall be at the rate of 11.5% for the lesser of the following 2 periods: (1) for each year that the member is less than age 60; or (2) for each year that the member's creditable service is less than 35 years. The employer contribution shall be at the rate of 23.5% for each year the member is under age 60.

Upon receipt of the application and election, the System shall determine the one-time employee and employer contributions required. The member contribution shall be credited to the individual account of the member and the employer contribution shall be credited to the Benefit Trust Reserve. The avoidance of the reduction in retirement annuity provided under this subsection (c) is not applicable until the member's contribution, if any, has been received by the System; however, the date that contribution is received shall not be considered in determining the effective date of retirement.

The number of members working for a single employer who may retire under this subsection (c) in any year may be limited at the option of the employer to a specified percentage of those eligible, not less than 10%, with the right to participate to be allocated among those applying on the basis of seniority in the service of the employer.

Sec. 16-133.3. Early retirement incentives for State employees.

(a) To be eligible for the benefits provided in this Section, a person must:

(1) be a member of this System who, on any day during June, 2002, is (i) in active payroll status as a full-time teacher employed by a department and an active contributor to this System with respect to that employment, or (ii) on layoff status from such a position with a right of re-employment or recall to service, or (iii) receiving a disability benefit under Section 16-149 or 16-149.1, but only if the member has not been receiving that benefit for a continuous period of more than 2 years as of the date of application;

(2) not have received any retirement annuity under this Article beginning earlier than August 1, 2002;

(3) file with the Board on or before December 31, 2002 a written application requesting the benefits provided in this Section;

(4) terminate employment under this Article no later than December 31, 2002 (or the date established under subsection (d), if applicable);

(5) by the date of termination of service, have at least 8 years of creditable service under this Article, without the use of any creditable service established under this Section;

(6) by the date of termination of service, have at least 5 years of service credit earned while participating in the System as a teacher employed by a department; and

(7) not receive any early retirement benefit under Section 14-108.3 of this Code.

For the purposes of this Section, "department" means a department as defined in Section 14-103.04 that employs a teacher as defined in this Article.

(b) An eligible person may establish up to 5 years of creditable service under this Article by making the contributions specified in subsection (c). In addition, for each period of creditable service established under this Section, a person's age at retirement shall be deemed to be enhanced by an equivalent period.

The creditable service established under this Section may be used for all purposes under this Article and the Retirement Systems Reciprocal Act, except for the computation of final average salary, the determination of salary or compensation under this Article or any other Article of this Code, or the determination of eligibility for or the computation of benefits under Section 16-133.2.

The age enhancement established under this Section may be used for all purposes under this Article (including calculation of a proportionate annuity payable by this System under the Retirement Systems Reciprocal Act), except for purposes of a retirement annuity under Section 16-133(a)(A), a reversionary annuity under Section 16-136, the required distributions under Section 16-142.3, and the determination of eligibility for or the computation of benefits under Section 16-133.2. Age enhancement established under this Section may be used in determining benefits payable under Article 14 of this Code under the

Retirement Systems Reciprocal Act (subject to the limitations on the use of age enhancement provided in Section 14-108.3); age enhancement established under this Section shall not be used in determining benefits payable under other Articles of this Code under the Retirement Systems Reciprocal Act.

(c) For all creditable service established under this Section, a person must pay to the System an employee contribution to be determined by the System, equal to 9.0% of the member's highest annual salary rate that would be used in the determination of the average salary for retirement annuity purposes if the member retired immediately after withdrawal, for each year of creditable service established under this Section.

If the member receives a lump sum payment for accumulated vacation, sick leave, and personal leave upon withdrawal from service, and the net amount of that lump sum payment is at least as great as the amount of the contribution required under this Section, the entire contribution must be paid by the employee by payroll deduction. If there is no such lump sum payment, or if it is less than the contribution required under this Section, the member shall make an initial payment by payroll deduction, equal to the net amount of the lump sum payment for accumulated vacation, sick leave, and personal leave, and have the remaining amount due treated as a reduction from the retirement annuity in 24 equal monthly installments beginning in the month in which the retirement annuity takes effect. The required contribution may be paid as a pre-tax deduction from earnings.

(d) In order to ensure that the efficient operation of State government is not jeopardized by the simultaneous retirement of large numbers of key personnel, the director or other head of a department may, for key employees of that department, extend the December 31, 2002 deadline for terminating employment under this Article established in subdivision (a)(4) of this Section to a date not later than April 30, 2003 by so notifying the System in writing by December 31, 2002.

(e) A person who has received any age enhancement or creditable service under this Section and who reenters contributing service under this Article or Article 14 shall thereby forfeit that age enhancement and creditable service, and become entitled to a refund of the contributions made pursuant to this Section.

(f) The System shall determine the amount of the increase in the present value of future benefits resulting from the granting of early retirement incentives under this Section and shall report that amount to the Governor and the Commission on Government Forecasting and Accountability on or after the effective date of this amendatory Act of the 93rd General Assembly and on or before November 15, 2004. Beginning with State fiscal year 2008, the ~~The~~ increase in liability reported under this subsection (f) shall ~~not~~ be included in the calculation of the required State contribution under Section 16-158.

(g) In addition to the contributions otherwise required under this Article, the State shall appropriate and pay to the System ~~(1) an amount equal to \$1,000,000 in State fiscal year 2004 and (2) in each of State fiscal years 2006 through 2015, a level dollar payment based upon the increase in the present value of future benefits provided by the early retirement incentives provided under this Section amortized at 8.5% interest.~~

(h) The Pension Laws Commission (or its successor, the Commission on Government Forecasting and Accountability) shall determine and report to the General Assembly, on or before January 1, 2004 and annually thereafter through the year 2013, its estimate of (1) the annual amount of payroll savings likely to be realized by the State as a result of the early retirement of persons receiving early retirement incentives under this Section and (2) the net annual savings or cost to the State from the program of early retirement incentives created under this Section.

The System, the Department of Central Management Services, the Governor's Office of Management and Budget (formerly Bureau of the Budget), and all other departments shall provide to the Commission any assistance that the Commission may request with respect to its reports under this Section. The Commission may require departments to provide it with any information that it deems necessary or useful with respect to its reports under this Section, including without limitation information about (1) the final earnings of former department employees who elected to receive benefits under this Section, (2) the earnings of current department employees holding the positions vacated by persons who elected to receive benefits under this Section, and (3) positions vacated by persons who elected to receive benefits under this Section that have not yet been refilled.

(i) The changes made to this Section by this amendatory Act of the 92nd General Assembly do not apply to persons who retired under this Section on or before May 1, 1992.

(40 ILCS 5/16-152) (from Ch. 108 1/2, par. 16-152)

Sec. 16-152. Contributions by members.

(a) Each member shall make contributions for membership service to this System as follows:

(1) Effective July 1, 1998, contributions of 7.50% of salary towards the cost of the

retirement annuity. Such contributions shall be deemed "normal contributions".

(2) Effective July 1, 1969, contributions of 1/2 of 1% of salary toward the cost of the automatic annual increase in retirement annuity provided under Section 16-133.1.

(3) Effective July 24, 1959, contributions of 1% of salary towards the cost of survivor benefits. Such contributions shall not be credited to the individual account of the member and shall not be subject to refund except as provided under Section 16-143.2.

(4) Effective July 1, 2005, contributions of 0.40% of salary toward the cost of the early retirement without discount option provided under Section 16-133.2. This contribution shall cease upon termination of the early retirement without discount option as provided in Section 16-176.

(b) The minimum required contribution for any year of full-time teaching service shall be \$192.

(c) Contributions shall not be required of any annuitant receiving a retirement annuity who is given employment as permitted under Section 16-118 or 16-150.1.

(d) A person who (i) was a member before July 1, 1998, (ii) retires with more than 34 years of creditable service, and (iii) does not elect to qualify for the augmented rate under Section 16-129.1 shall be entitled, at the time of retirement, to receive a partial refund of contributions made under this Section for service occurring after the later of June 30, 1998 or attainment of 34 years of creditable service, in an amount equal to 1.00% of the salary upon which those contributions were based.

(e) A member's contributions toward the cost of early retirement without discount made under item (a)(4) of this Section shall not be refunded if the member has elected early retirement without discount under Section 16-133.2 and has begun to receive a retirement annuity under this Article calculated in accordance with that election. Otherwise, a member's contributions toward the cost of early retirement without discount made under item (a)(4) of this Section shall be refunded according to whichever one of the following circumstances occurs first:

(1) The contributions shall be refunded to the member, without interest, within 120 days after the member's retirement annuity commences, if the member does not elect early retirement without discount under Section 16-133.2.

(2) The contributions shall be included, without interest, in any refund claimed by the member under Section 16-151.

(3) The contributions shall be refunded to the member's designated beneficiary (or if there is no beneficiary, to the member's estate), without interest, if the member dies without having begun to receive a retirement annuity under this Article.

(4) The contributions shall be refunded to the member, without interest, within 120 days after the early retirement without discount option provided under Section 16-133.2 is terminated under Section 16-176.

(40 ILCS 5/16-158) (from Ch. 108 1/2, par. 16-158)

Sec. 16-158. Contributions by State and other employing units.

(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be

practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through ~~2005~~ 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998: 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is \$534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is \$738,014,500.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits,

refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, as determined by the System. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

- (1) Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.
- (2) Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from this amendatory Act of 1998.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If the amount of a teacher's salary for any school year used to determine final average salary exceeds the amount of his or her salary with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The employer contributions required under this subsection (f) shall be paid in the form of a lump sum within 30 days after receipt of the bill after the teacher begins receiving benefits under this Article.

The provisions of this subsection (f) do not apply to salary increases paid to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before the effective date of this amendatory Act of the 94th General Assembly.

Sec. 16-176. To adopt actuarial assumptions. For the 5-year period ending June 30, 1997 and every 5 years thereafter, the actuary, as technical advisor, shall make an actuarial investigation into the mortality, service and compensation experience of the members, annuitants, and beneficiaries of the retirement system. Based upon the result of that investigation, the board shall adopt such actuarial assumptions as it deems appropriate.

Beginning with the 5-year period ending June 30, 2012 and every 5 years thereafter, the actuarial investigation required under this Section shall include the System's experience under the early retirement without discount option established in Section 16-133.2, including consideration of the sufficiency of the member and employer contributions under Section 16-133.2 and the active member contribution under Section 16-152 to adequately fund the early retirement without discount option. The Board shall promptly communicate the results of the actuarial investigation to the Commission on Government Forecasting and Accountability. Based on the actuarial investigation, the Commission on Government Forecasting and Accountability shall, no later than February 1 of the next year, recommend to the General Assembly any proportional adjustment in the amounts of the member and employer contributions under Section 16-133.2 that it deems necessary. If the General Assembly fails to adjust the member and employer contributions under Section 16-133.2 in response to the Commission's recommendations, then the early retirement without discount option under Section 16-133.2 is terminated and shall cease to be available at the end of the fiscal year in which the Commission made its recommendation to the General Assembly.

(40 ILCS 5/16-203 new)

Sec. 16-203. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after the effective date of this amendatory Act of the 94th General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Financial and Professional Regulation. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including without limitation a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

(40 ILCS 5/17-116.1) (from Ch. 108 1/2, par. 17-116.1)

Sec. 17-116.1. Early retirement without discount.

(a) A member retiring after June 1, 1980 and before June 30, 1995 and within 6 months of the last day of teaching for which retirement contributions were required, may elect at the time of application to make a one time employee contribution to the system and thereby avoid the early retirement reduction in allowance specified in paragraph (4) of Section 17-116 of this Article. The exercise of the election shall obligate the

last Employer to also make a one time non-refundable contribution to the Fund.

(b) Subject to authorization by the Employer as provided in subsection (c), a member retiring on or after June 30, 1995 and on or before June 30, 2010 ~~2005~~ and within 6 months of the last day of teaching for which retirement contributions were required may elect at the time of application to make a one-time employee contribution to the Fund and thereby avoid the early retirement reduction in allowance specified in paragraph (4) of Section 17-116. The exercise of the election shall obligate the last Employer to also make a one-time nonrefundable contribution to the Fund.

(c) The benefits provided in subsection (b) are available only to members who retire, during a specified period, from employment with an Employer that has adopted and filed with the Board a resolution expressly providing for the creation of an early retirement without discount program under this Section for that period.

The Employer has the full discretion and authority to determine whether an early retirement without discount program is in its best interest and to provide such a program to its eligible employees in accordance with this Section. The Employer may decide to authorize such a program for one or more of the following periods: for the period beginning July 1, 1997 and ending June 30, 1998, in which case the resolution must be adopted by January 1, 1998; for the period beginning July 1, 1998 and ending June 30, 1999, in which case the resolution must be adopted by March 31, 1998; for the period beginning July 1, 1999 and ending June 30, 2000, in which case the resolution must be adopted by March 31, 1999; for the period beginning July 1, 2000 and ending June 30, 2001, in which case the resolution must be adopted by March 31, 2000; for the period beginning July 1, 2001 and ending June 30, 2002, in which case the resolution must be adopted by March 31, 2001; for the period beginning July 1, 2002 and ending June 30, 2003, in which case the resolution must be adopted by March 31, 2002; for the period beginning July 1, 2003 and ending June 30, 2004, in which case the resolution must be adopted by March 31, 2003; ~~and~~ for the period beginning July 1, 2004 and ending June 30, 2005, in which case the resolution must be adopted by March 31, 2004; for the period beginning July 1, 2005 and ending June 30, 2006, in which case the resolution must be adopted by August 31, 2005; for the period beginning July 1, 2006 and ending June 30, 2007, in which case the resolution must be adopted by June 30, 2006; for the period beginning July 1, 2007 and ending June 30, 2008, in which case the resolution must be adopted by June 30, 2007; for the period beginning July 1, 2008 and ending June 30, 2009, in which case the resolution must be adopted by June 30, 2008; and for the period beginning July 1, 2009 and ending June 30, 2010, in which case the resolution must be adopted by June 30, 2009. The resolution must be filed with the Board within 10 days after it is adopted. A single resolution may authorize an early retirement without discount program as provided in this Section for more than one period.

Notwithstanding Section 17-157, the Employer shall also have full discretion and authority to determine whether to allow its employees who withdrew from service on or after June 30, 1995 and before June 27, 1997 to participate in an early retirement without discount program under subsection (b). An early retirement without discount program for those who withdrew from service on or after June 30, 1995 and before June 27, 1997 may be authorized only by a resolution of the Employer that is adopted by January 1, 1998 and filed with the Board within 10 days after its adoption. If such a resolution is duly adopted and filed, a person who (i) withdrew from service with the Employer on or after June 30, 1995 and before June 27, 1997, (ii) qualifies for early retirement without discount under subsection (b), (iii) applies to the Fund within 90 days after the authorizing resolution is adopted, and (iv) pays the required employee contribution shall have his or her retirement pension recalculated in accordance with subsection (b). The resulting increase shall be effective retroactively to the starting date of the retirement pension.

(d) The one-time employee contribution shall be equal to 7% of the retiring member's highest full-time annual salary rate used in the determination of the average salary rate for retirement pension, or if not full-time then the full-time equivalent, multiplied by (1) the number of years the teacher is under age 60, or (2) the number of years the employee's creditable service is less than 34 years, whichever is less.

The Employer contribution shall be 20% of such salary multiplied by such number of years.

(e) Upon receipt of the application and election, the Board shall determine the one time employee and Employer contributions. The provisions of this Section shall not be applicable until the employee contribution, if any, has been received by the Fund; however, the date that contribution is received shall not be considered in determining the effective date of retirement.

(f) The number of employees who may retire under this Section in any year may be limited at the option of the Employer to a specified number percentage of those eligible, not lower than 200, but the Employer and the collective bargaining agent for teachers may agree upon a greater limitation to the specified number of employees who may retire under this Section in any year. ~~The 30%, with the right to participate in the~~

early retirement without discount authorized under this Section shall ~~to~~ be allocated among those applying on the basis of seniority in the service of the Employer or on such other basis for allocation as the Employer and the collective bargaining agent for teachers agree, in which case, such other basis may be employed among other eligible employees as well.

(40 ILCS 5/18-131) (from Ch. 108 1/2, par. 18-131)

Sec. 18-131. Financing; employer contributions.

(a) The State of Illinois shall make contributions to this System by appropriations of the amounts which, together with the contributions of participants, net earnings on investments, and other income, will meet the costs of maintaining and administering this System on a 90% funded basis in accordance with actuarial recommendations.

(b) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the prescribed rate of interest, using the formula in subsection (c).

(c) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through ~~2005~~ 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is \$29,189,400.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is \$35,236,800.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 18-140, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(40 ILCS 5/18-140) (from Ch. 108 1/2, par. 18-140)

Sec. 18-140. To certify required State contributions and submit vouchers.

(a) The Board shall certify to the Governor, on or before November 15 of each year, the amount of the required State contribution to the System for the following fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation

Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

(b) Beginning in State fiscal year 1996, on or as soon as possible after the 15th day of each month the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (c) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this Section, the difference shall be paid from the General Revenue Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

Sec. 18-169. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after the effective date of this amendatory Act of the 94th General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Financial and Professional Regulation. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including without limitation a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

The following amendment was offered in the Committee on Executive, adopted and reproduced:

AMENDMENT NO. 1. Amend Senate Bill 2030 by replacing everything after the enacting clause with the following:

"Section 5. The Emergency Telephone System Act is amended by changing Section 15.3 as follows:
(50 ILCS 750/15.3) (from Ch. 134, par. 45.3)

Sec. 15.3. Surcharge.

(a) The corporate authorities of any municipality or any county may, subject to the limitations of subsections (c) and ; (d), ~~and (h)~~, and in addition to any tax levied pursuant to the Simplified Municipal Telecommunications Tax Act, impose a monthly surcharge on billed subscribers of network connection provided by telecommunication carriers engaged in the business of transmitting messages by means of electricity originating within the corporate limits of the municipality or county imposing the surcharge at a rate per network connection determined in accordance with subsection (c). Provided, however, that where multiple voice grade communications channels are connected between the subscriber's premises and a public switched network through private branch exchange (PBX) or centrex type service, a municipality imposing a surcharge at a rate per network connection, as determined in accordance with this Act, shall impose 5 such surcharges per network connection, as determined in accordance with subsections (a) and (d) of Section 2.12 of this Act. For mobile telecommunications services, if a surcharge is imposed it shall be imposed based upon the municipality or county that encompasses the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. A municipality may enter into an intergovernmental agreement with any county in which it is partially located, when the county has adopted an ordinance to impose a surcharge as provided in subsection (c), to include that portion of the municipality lying outside the county in that county's surcharge referendum. If the county's surcharge referendum is approved, the portion of the municipality identified in the intergovernmental agreement shall automatically be disconnected from the county in which it lies and connected to the county which approved the referendum for purposes of a surcharge on telecommunications carriers.

(b) For purposes of computing the surcharge imposed by subsection (a), the network connections to which the surcharge shall apply shall be those in-service network connections, other than those network

connections assigned to the municipality or county, where the service address for each such network connection or connections is located within the corporate limits of the municipality or county levying the surcharge. Except for mobile telecommunication services, the "service address" shall mean the location of the primary use of the network connection or connections. For mobile telecommunication services, "service address" means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. With respect to network connections provided for use with pay telephone services for which there is no billed subscriber, the telecommunications carrier providing the network connection shall be deemed to be its own billed subscriber for purposes of applying the surcharge.

(c) Upon the passage of an ordinance to impose a surcharge under this Section the clerk of the municipality or county shall certify the question of whether the surcharge may be imposed to the proper election authority who shall submit the public question to the electors of the municipality or county in accordance with the general election law; provided that such question shall not be submitted at a consolidated primary election. The public question shall be in substantially the following form:

Shall the county (or city, village or incorporated town) of impose a surcharge of up to ...¢ per month per network connection, which surcharge will be added to the monthly bill you receive for telephone or telecommunications charges, for the purpose of installing (or improving) a 9-1-1 Emergency Telephone System?	YES NO
--	---

If a majority of the votes cast upon the public question are in favor thereof, the surcharge shall be imposed.

However, if a Joint Emergency Telephone System Board is to be created pursuant to an intergovernmental agreement under Section 15.4, the ordinance to impose the surcharge shall be subject to the approval of a majority of the total number of votes cast upon the public question by the electors of all of the municipalities or counties, or combination thereof, that are parties to the intergovernmental agreement.

The referendum requirement of this subsection (c) shall not apply to any municipality with a population over 500,000 or to any county in which a proposition as to whether a sophisticated 9-1-1 Emergency Telephone System should be installed in the county, at a cost not to exceed a specified monthly amount per network connection, has previously been approved by a majority of the electors of the county voting on the proposition at an election conducted before the effective date of this amendatory Act of 1987.

(d) A county may not impose a surcharge, unless requested by a municipality, in any incorporated area which has previously approved a surcharge as provided in subsection (c) or in any incorporated area where the corporate authorities of the municipality have previously entered into a binding contract or letter of intent with a telecommunications carrier to provide sophisticated 9-1-1 service through municipal funds.

(e) A municipality or county may at any time by ordinance change the rate of the surcharge imposed under this Section if the new rate does not exceed the rate specified in the referendum held pursuant to subsection (c).

(f) The surcharge authorized by this Section shall be collected from the subscriber by the telecommunications carrier providing the subscriber the network connection as a separately stated item on the subscriber's bill.

(g) The amount of surcharge collected by the telecommunications carrier shall be paid to the particular municipality or county or Joint Emergency Telephone System Board not later than 30 days after the surcharge is collected, net of any network or other 9-1-1 or sophisticated 9-1-1 system charges then due the particular telecommunications carrier, as shown on an itemized bill. The telecommunications carrier collecting the surcharge shall also be entitled to deduct 3% of the gross amount of surcharge collected to reimburse the telecommunications carrier for the expense of accounting and collecting the surcharge.

~~(h) (Blank). Except as expressly provided in subsection (a) of this Section, a municipality with a population over 500,000 may not impose a monthly surcharge in excess of \$1.25 per network connection.~~

(i) Any municipality or county or joint emergency telephone system board that has imposed a surcharge pursuant to this Section prior to the effective date of this amendatory Act of 1990 shall hereafter impose the surcharge in accordance with subsection (b) of this Section.

(j) The corporate authorities of any municipality or county may issue, in accordance with Illinois law,

bonds, notes or other obligations secured in whole or in part by the proceeds of the surcharge described in this Section. Notwithstanding any change in law subsequent to the issuance of any bonds, notes or other obligations secured by the surcharge, every municipality or county issuing such bonds, notes or other obligations shall be authorized to impose the surcharge as though the laws relating to the imposition of the surcharge in effect at the time of issuance of the bonds, notes or other obligations were in full force and effect until the bonds, notes or other obligations are paid in full. The State of Illinois pledges and agrees that it will not limit or alter the rights and powers vested in municipalities and counties by this Section to impose the surcharge so as to impair the terms of or affect the security for bonds, notes or other obligations secured in whole or in part with the proceeds of the surcharge described in this Section.

(k) Any surcharge collected by or imposed on a telecommunications carrier pursuant to this Section shall be held to be a special fund in trust for the municipality, county or Joint Emergency Telephone Board imposing the surcharge. Except for the 3% deduction provided in subsection (g) above, the special fund shall not be subject to the claims of creditors of the telecommunication carrier.

Section 10. The Wireless Emergency Telephone Safety Act is amended by changing Section 45 as follows:

(50 ILCS 751/45)

(Section scheduled to be repealed on April 1, 2008)

Sec. 45. Continuation of current practices. Notwithstanding any other provision of this Act, a unit of local government or emergency telephone system board providing wireless 9-1-1 service and imposing and collecting a wireless carrier surcharge prior to July 1, 1998 may continue its practices of imposing and collecting its wireless carrier surcharge, but in no event shall that monthly surcharge exceed ~~\$2.50~~ ~~\$1.25~~ per commercial mobile radio service (CMRS) connection or in-service telephone number billed on a monthly basis. For mobile telecommunications services provided on and after August 1, 2002, any surcharge imposed shall be imposed based upon the municipality or county that encompasses the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. HOUSE JOINT RESOLUTION 63

Offered by Representative Molaro:

WHEREAS, Illinois has an unacceptably large and increasing funding disparity between affluent school districts and all other school districts, a growing achievement gap, and a teacher shortage; and

WHEREAS, The majority of schools in this State are deficit spending schools; and

WHEREAS, In terms of education spending, the State's minimum per student foundation level of support is inadequate considering what it costs to prepare students to pass the State's standardized tests; and

WHEREAS, National organizations, such as Education Week, continually assign Illinois the failing grade of "F" for school funding awareness; and

WHEREAS, Illinois has the worst spread in the nation in terms of school funding between school districts, and Illinois ranks 49th in the portion of school funding provided from State rather than local resources; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE SENATE CONCURRING HEREIN, that, pursuant to subsection (a) of Section 1 of Article XIV of the Illinois Constitution, in order to resolve the issue of school funding in this State, we direct that the question of whether a Constitutional Convention should be called be submitted to the electors at the general election next occurring at least 6 months after the passage of this resolution by at least three-fifths of the members elected to each house.
