AMENDMENT NO. 2. Amend House Bill 4220, AS AMENDED, by replacing everything after the enacting clause with the following:

"Section 5. The Adoption Act is amended by changing Section 12.1 as follows:
(750 ILCS 50/12.1)

Sec. 12.1. Putative Father Registry. The Department of Children and Family Services shall establish a Putative Father Registry for the purpose of determining the identity and location of a putative father of a minor child who is, or is expected to be, the subject of an adoption proceeding, in order to provide notice of such proceeding to the putative father. The Department of Children and Family Services shall establish rules and informational material necessary to implement the provisions of this Section. The Department shall have the authority to set reasonable fees for the use of the Registry. All such fees for the use of the Registry that are received by the Department or its agent shall be deposited into the fund authorized under subsection (b) of Section 25 of the Children and Family Services Act. The Department shall use the moneys in that fund for the purpose of maintaining the Registry.

(a) The Department shall maintain the following information in the Registry:

(1) With respect to the putative father:

- (i) Name, including any other names by which the putative father may be known and that he may provide to the Registry;
- (ii) Address at which he may be served with notice of a petition under this Act, including any change of address;
- (iii) Social Security Number;
- (iv) Date of birth; and
- (v) If applicable, a certified copy of an order by a court of this State or of another state or territory of the United States adjudicating the putative father to be the father of the child.

(2) With respect to the mother of the child:

- (i) Name, including all other names known to the putative father by which the mother may be known;
 - (ii) If known to the putative father, her last address;
 - (iii) Social Security Number; and
 - (iv) Date of birth.
- (3) If known to the putative father, the name, gender, place of birth, and date of birth or anticipated date of birth of the child.
- (4) The date that the Department received the putative father's registration.
- (5) Other information as the Department may by rule determine necessary for the orderly administration of the Registry.

(b) A putative father may register with the Department before the birth of the child but shall register no later than 30 days after the birth of the child. All registrations shall be in writing and signed by the putative father. No fee shall be charged for the initial registration. The Department shall have no independent obligation to gather the information to be maintained.

(c) An interested party, including persons intending to adopt a child, a child welfare agency with whom the mother has placed or has given written notice of her intention to place a child for adoption, the mother of the child, or an attorney representing an interested party may request that the Department search the Registry to determine whether a putative father is registered in relation to a child who is or may be the subject to an adoption petition.

(d) A search of the Registry may be proven by the production of a certified copy of the registration form, or by the certified statement of the administrator of the Registry that after a search, no registration of a putative father in relation to a child who is or may be the subject of an adoption petition could be located.

(e) Except as otherwise provided, information contained within the Registry is confidential and shall not be published or open to public inspection.

(f) A person who knowingly or intentionally registers false information under this Section commits a Class B misdemeanor. A person who knowingly or intentionally releases confidential information in violation of this Section commits a Class B misdemeanor.

(g) Except as provided in subsections (b) or (c) of Section 8 of this Act, a putative father who fails to register with the Putative Father Registry as provided in this Section is barred from thereafter bringing or maintaining any action to assert any interest in the child, unless he proves by clear and convincing evidence that:

- (1) it was not possible for him to register within the period of time specified in subsection (b) of this Section; and
- (2) his failure to register was through no fault of his own; and
- (3) he registered within 10 days after it became possible for him to file.

A putative father who files a verified petition alleging facts sufficient to meet the requirements of the exception set forth in this subsection (g) is entitled to a hearing limited solely to whether his registration falls within said exception, however, in no event is a putative father entitled to a hearing if said petition is filed after the entry of an order terminating the parental rights of said putative father unless he can show that a fraud has been perpetuated upon the court. A lack of knowledge of the pregnancy or birth is not an acceptable reason for failure to register.

(h) Except as provided in subsection (b) or (c) of Section 8 of this Act, failure to timely register with the Putative Father Registry (i) shall be deemed to be a waiver and surrender of any right to notice of any hearing in any judicial proceeding for the adoption of the child, and the consent or surrender of that person to the adoption of the child is not required, and (ii) shall constitute an abandonment of the child and shall be prima facie evidence of sufficient grounds to support termination of such father's parental rights under this Act.

(i) In any adoption proceeding pertaining to a child born out of wedlock, if there is no showing that a putative father has executed a consent or surrender or waived his rights regarding the proposed adoption, certification as specified in subsection (d) shall be filed with the court prior to entry of a final judgment order of adoption.

(j) The Registry shall not be used to notify a putative father who is the father of a child as a result of criminal sexual abuse or assault as defined under Article 12 of the Criminal Code of 1961. (Source: P.A. 94-1010, eff. 10-1-06.)".

The following amendment was offered in the Committee on Electric Generation & Commerce, adopted and reproduced:

AMENDMENT NO. 1. Amend House Bill 4649 by replacing everything after the enacting clause with the following:

"Section 5. The Public Utilities Act is amended by changing Sections 8-406, 8-509, and 8-510 and by adding Section 8-406.1 as follows:

(220 ILCS 5/8-406) (from Ch. 111 2/3, par. 8-406)

Sec. 8-406. Certificate of public convenience and necessity.

(a) No public utility not owning any city or village franchise nor engaged in performing any public service or in furnishing any product or commodity within this State as of July 1, 1921 and not possessing a certificate of public convenience and necessity from the Illinois Commerce Commission, the State Public Utilities Commission or the Public Utilities Commission, at the time this amendatory Act of 1985 goes into effect, shall transact any business in this State until it shall have obtained a certificate from the Commission that public convenience and necessity require the transaction of such business.

(b) No public utility shall begin the construction of any new plant, equipment, property or facility which is not in substitution of any existing plant, equipment, property or facility or any extension or alteration thereof or in addition thereto, unless and until it shall have obtained from the Commission a certificate that public convenience and necessity require such construction. Whenever after a hearing the Commission determines that any new construction or the transaction of any business by a public utility will promote the

public convenience and is necessary thereto, it shall have the power to issue certificates of public convenience and necessity. The Commission shall determine that proposed construction will promote the public convenience and necessity only if the utility demonstrates: (1) that the proposed construction is necessary to provide adequate, reliable, and efficient service to its customers and is the least-cost means of satisfying the service needs of its customers or that the proposed construction will promote the development of an effectively competitive electricity market that operates efficiently, is equitable to all customers, and is the least cost means of satisfying those objectives; (2) that the utility is capable of efficiently managing and supervising the construction process and has taken sufficient action to ensure adequate and efficient construction and supervision thereof; and (3) that the utility is capable of financing the proposed construction without significant adverse financial consequences for the utility or its customers.

(c) After the effective date of this amendatory Act of 1987, no construction shall commence on any new nuclear power plant to be located within this State, and no certificate of public convenience and necessity or other authorization shall be issued therefor by the Commission, until the Director of the Illinois Environmental Protection Agency finds that the United States Government, through its authorized agency, has identified and approved a demonstrable technology or means for the disposal of high level nuclear waste, or until such construction has been specifically approved by a statute enacted by the General Assembly.

As used in this Section, "high level nuclear waste" means those aqueous wastes resulting from the operation of the first cycle of the solvent extraction system or equivalent and the concentrated wastes of the subsequent extraction cycles or equivalent in a facility for reprocessing irradiated reactor fuel and shall include spent fuel assemblies prior to fuel reprocessing.

(d) In making its determination, the Commission shall attach primary weight to the cost or cost savings to the customers of the utility. The Commission may consider any or all factors which will or may affect such cost or cost savings, including the public utility's engineering judgment regarding the materials used for construction.

(e) The Commission may issue a temporary certificate which shall remain in force not to exceed one year in cases of emergency, to assure maintenance of adequate service or to serve particular customers, without notice or hearing, pending the determination of an application for a certificate, and may by regulation exempt from the requirements of this Section temporary acts or operations for which the issuance of a certificate will not be required in the public interest.

A public utility shall not be required to obtain but may apply for and obtain a certificate of public convenience and necessity pursuant to this Section with respect to any matter as to which it has received the authorization or order of the Commission under the Electric Supplier Act, and any such authorization or order granted a public utility by the Commission under that Act shall as between public utilities be deemed to be, and shall have except as provided in that Act the same force and effect as, a certificate of public convenience and necessity issued pursuant to this Section.

No electric cooperative shall be made or shall become a party to or shall be entitled to be heard or to otherwise appear or participate in any proceeding initiated under this Section for authorization of power plant construction and as to matters as to which a remedy is available under The Electric Supplier Act.

(f) Such certificates may be altered or modified by the Commission, upon its own motion or upon application by the person or corporation affected. Unless exercised within a period of 2 years from the grant thereof authority conferred by a certificate of convenience and necessity issued by the Commission shall be null and void.

No certificate of public convenience and necessity shall be construed as granting a monopoly or an exclusive privilege, immunity or franchise.

(g) A public utility that undertakes any of the actions described in items (1) through (3) of this subsection (g) or that has obtained approval pursuant to Section 8-406.1 of this Act shall not be required to comply with the requirements of this Section to the extent such requirements otherwise would apply. For purposes of this Section and Section 8-406.1 of this Act, "high voltage electric service line" means an electric line having a design voltage of 100,000 or more. For purposes of this subsection (g), a public utility may do any of the following:

(1) replace or upgrade any existing high voltage electric service line and related facilities, notwithstanding its length;

(2) relocate any existing high voltage electric service line and related facilities, notwithstanding its length, to accommodate construction or expansion of a roadway or other transportation infrastructure; or

(3) construct a high voltage electric service line and related facilities that is constructed solely to serve

a single customer's premises or to provide a generator interconnection to the public utility's transmission system and that will pass under or over the premises owned by the customer or generator to be served or under or over premises for which the customer or generator has secured the necessary right of way.

(vii) technical diagrams that provide clarification of any item under this item (1) should be included; and

(viii) applicant shall provide and identify a primary right-of-way and one or more alternate

right-of-ways for the Project as part of the filing. To the extent applicable, for each right-of-way applicant shall provide the information described in this subsection (a). Upon a showing of good cause in its filing, an applicant may be excused from providing and identifying alternate right-of-ways.

(C) The public utility may seek confidential protection of any of the information provided pursuant to this Section, subject to Commission approval.

(2) An application fee of \$100,000, which shall be paid into the Public Utility Fund at the time the Chief Clerk of the Commission deems it complete and accepts the filing.

(3) Information showing that the utility has held a minimum of 3 pre-filing public meetings to receive public comment concerning the Project in each county where the Project is to be located, no earlier than 6 months prior to the filing of the application. Notice of the public meeting shall be published in a newspaper of general circulation within the affected county once a week for 3 consecutive weeks, beginning no earlier than one month prior to the first public meeting. Notice of the public meeting, including a description of the Project, must be provided in writing to the clerk of each county where the Project is to be located. A representative of the Commission shall be invited to each pre-filing public meeting.

(4) The public utility shall publish notice of its application in the official State newspaper within 10 days following the date of the application's filing.

(5) The public utility shall establish a dedicated website for the Project 3 weeks prior to the first public meeting and maintain the website until construction of the Project is complete. The website address shall be included in all public notices.

(b) The Commission shall, after notice and hearing, grant a certificate of public convenience and necessity filed in accordance with the requirements of this Section if, based upon the application filed with the Commission and the evidentiary record, it finds the Project will promote the public convenience and necessity and that all of the following criteria are satisfied:

(1) That the Project is necessary to provide adequate, reliable, and efficient service to the public utility's customers and is the least-cost means of satisfying the service needs of the public utility's customers or that the Project will promote the development of an effectively competitive electricity market that operates efficiently, is equitable to all customers, and is the least cost means of satisfying those objectives.

(2) That the public utility is capable of efficiently managing and supervising the construction process and has taken sufficient action to ensure adequate and efficient construction and supervision of the construction.

(3) That the public utility is capable of financing the proposed construction without significant adverse financial consequences for the utility or its customers.

(c) The Commission shall issue its decision with findings of fact and conclusions of law granting or denying the application no later than 120 days after the application is filed. The Commission may extend the 120-day deadline upon notice by an additional 60 days if, on or before the 30th day after the filing of the application, the Commission finds that good cause exists to extend the 120-day period.

(d) In the event the Commission grants a public utility's application for a certificate pursuant to this Section, the public utility shall pay a one-time construction fee to each county in which the Project is constructed within 30 days after the completion of construction. The construction fee shall be \$20,000 per mile of high voltage electric service line constructed in that county, or a proportionate fraction of that fee. The fee shall be in lieu of any permitting fees that otherwise would be imposed by a county. Counties receiving a payment under this subsection (d) may distribute all or portions of the fee to local taxing districts in that county.

(e) Notwithstanding any other provisions of this Act, a decision granting a certificate under this Section shall include an order pursuant to Section 8-503 of this Act authorizing or directing the construction of the high voltage electric service line and related facilities as approved by the Commission, in the manner and within the time specified in said order.

(220 ILCS 5/8-509) (from Ch. 111 2/3, par. 8-509)

Sec. 8-509. If a public utility seeks relief under this Section in the same proceeding in which it seeks a certificate of public convenience and necessity under Section 8-406.1 of this Act, then the Commission shall issue its order under this Section within 45 days after the utility files its petition under this Section.

This Section applies to the exercise of eminent domain powers by telephone companies or telecommunications carriers only when the facilities to be constructed are intended to be used in whole or

in part for providing one or more intrastate telecommunications services classified as "noncompetitive" under Section 13-502 in a tariff filed by the condemnor. The exercise of eminent domain powers by telephone companies or telecommunications carriers in all other cases shall be governed solely by "An Act relating to the powers, duties and property of telephone companies", approved May 16, 1903, as now or hereafter amended.
