

APR 18 1975

1.

Speaker Redmond: "The House will come to order and the Members will please be in their seats. We will be lead in prayer by Chaplain, Reverend Krueger."

Krueger: "Mr. Speaker and Honorable Members of this House , I must first apologize for my not being here to offer the opening prayer and the inconvenience it may have caused yesterday. When I was a youngster in Osh-Kosh High School, I remember an English teacher who cautioned me, one time, pride goes before a fall, and yesterday morning I was elated over the fact that I have broken a 240 pound barrier; and weighed in at 239 pounds, making it a total loss to date of 127 pounds. Even at my heaviest weight, I never crushed a chair and I trust you can understand my chagrin and embarrassment when a defective chair collapsed throwing me backwards to the floor just as Governor Walker was called upon with his response. And because I was momentarily unconscious, three doctors insisted that I be not moved except by ambulance to the emergency room, I was literally held down and steered away from..... thus preventing me from my arrival to perform my duties for this group. It was fortunately in my favor, but even now, I would be amenable to any snake oil potions that would do something to get rid of these horrible muscular pains. And I am grateful to the Clerk, ah... for offering the prayer and I offer that which I had intended on. Bless this House... to they service this day. In the Book of Ecclesiasticus, 7th Chapter, the 8th and 9th verse, there is the end of a thing and the beginning thereof, the patient in spirit is better than that of the proud in spirit, be not hasty in thy spirit to be angry, for anger resteth in the bosom of fools. There was one written by Mohammed in 578 A.D. Let us pray. Oh grant us to love thee, grant that we may love those that love thee, grant that we may do the deeds that win they love. Make the love of thee to be dear to us and ourselves, our families, and wealth."

Speaker Redmond: "Roll Call for attendance. Representative Schlickman moves for a call of the House. Will the State Police go over to the

2.

office building and.....Consent Calendar Second Reading,  
second day."

Jack O'Brien: "Senate Bill 33. A Bill for an Act to amend the  
Vehicle Code. Second Reading of the Bill. House Bill 553.  
A Bill for an Act to amend the Vehicle Code. Second  
Reading of the Bill. House Bill 672. A Bill for an Act  
to amend the Firearms Owner Identification Act. Second  
Reading of the Bill."

Speaker Redmond: "Third Reading. Representative Stone?"

Stone: "Mr. Speaker, Ladies and Gentlemen of the House, a...  
in reference to House Bill 2372, I desire to withdraw as  
chief sponsor and Representative Shea will handle the bill  
as the chief sponsor."

Speaker Redmond: "Any objections? Hearing none, leave is  
granted. House Bills, Second Reading. We'll take them in  
the order of priority of call. Representative Hart."

Hart: "I'd like to have leave of the House to table House  
Resolution 110 of which I am the sponsor."

Speaker Redmond: "Any objection? Leave is granted, the  
resolution tabled. House Bill 114. Take that one out of  
the record. House Bill 112. Representative Griesheimer."

Griesheimer: "This is on Second Reading Mr. Speaker?"

Jack O'Brien: "House Bill 112. A Bill for an Act to amend the  
Criminal Code. Second Reading of the Bill. No Committee  
Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading.  
House Bill 241. House Bill 245. Representative Rayson  
doesn't appear to be here. 316. Representative Palmer?  
Representative Friedrich, for what purpose do you rise?"

Friedrich: "You passed 165, was there some reason for that?"

Speaker Redmond: "There's an amendment on that. We are just  
taking bills that don't have amendments."

Friedrich: "Okay."

Speaker Redmond: "316. Representative Palmer? 334. Representative  
Caldwell? 345. Representative Barnes? 372. Hirschfeld? "

Jack O'Brien: "House Bill 372. A Bill for an Act to amend an Act  
in relation to county zoning. Second Reading of the Bill.  
No committee amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading."

375. Stearney? Is Representative Stearney on the floor?

Representative, 376, Stearney? 378. Berman? 382.

Hirschfeld?"

Hirschfeld: "Mr. Speaker, you may not want to take that bill, there is a floor amendment."

Speaker Redmond: "Thank you. Take that one out of the record.

65, Representative Coffey? Take that one out. 484, Represent-

tative Williams? Representative Williams? Representative

Williams?"

Williams: "A...I was going to hold that as a vehicle bill for the Board of Elections, but if you think it should be moved, I guess they can always tack it on when it gets to the Senate, so whatever you think, if it should be moved, let's move it and..."

Speaker Redmond: "I think we ought to move it."

Williams: "Alright. Okay."

Jack O'Brien: "House Bill 484. A Bill for an Act to amend an Act relating to campaign financing. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading.

489. Kelly, Hanahan. Take it out of the record. 495.

Representative Peters? Amendment, I've been advised.

Representative Peters? Representative Skinner?"

Skinner: "There's an amendment, is there not on the Clerk's desk?"

Speaker Redmond: "I understand that ...."

Skinner: "You have it. I move its adoption."

Speaker Redmond: "We were only taking those bills with amendments until the attendance is a little better."

Skinner: "Fine."

Speaker Redmond: "525. Representative Mugalian? 567, Borchers? 567, I'm sorry, its Representative Hirschfeld."

Jack O'Brien: "House Bill 567. A Bill for an Act to amend the Illinois Pension Code. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading."

House Bill 600. Representative Grotberg. I understand we have amendments on that. I understand there are floor amendments. Yeh. 624, Representative Hanahan?"

Jack O'Brien: "House Bill 624. A Bill for an Act to amend an Act in relation to State Police."

Speaker Redmond: "There's an amendment, we'll have to hold that for Representative Hanahan. We are only taking bills without amendments right now. 344, Representative Griesheimer. Is Representative Stubblefield here? 692? Representative Beatty?"

Jack O'Brien: "House Bill 692. A Bill for an Act to amend an Act authorizing Public Health Districts. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any Amendments from the floor? Third Reading. 776. Representative Fleck on the floor? 778. Representative Schisler on the floor? 779. Representative Willer?"

Willer: ".....that temporarily."

Speaker Redmond: "Representative Berman? 801?"

Jack O'Brien: "House Bill 801. A Bill for an Act to amend the Income Tax Act. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading. House Bill 378. Representative Berman?"

Jack O'Brien: "House Bill 378. Berman. A Bill for an Act to amend the Election Code."

Speaker Redmond: "Any amendments from the floor?"

Jack O'Brien: "No Committee Amendments."

Speaker Redmond: "Third Reading. 375."

Jack O'Brien: "375. 378 he just read. Now he called 375."

House Bill 375. Stearney. A Bill for an Act to amend the Code of Criminal Procedures. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading. 376. House Bill 376."

Jack O'Brien: "House Bill 376."

Speaker Redmond: "376. There's a floor amendment on 376, so we'll have to pass it. 644. House Bill 644. Representative

APR 18 1975

5.

Griesheimer. I understand there is an amendment on that one, we'll have to pass it. 750. Representative Telcser."

Jack O'Brien: "House Bill 750."

Speaker Redmond: "Representative Telcser?"

Telcser: "Mr. Speaker, a point of parliamentary inquiry, I wonder why you are skipping bills that have amendments, is there a reason for it, or...."

Speaker Redmond: "I didn't....I wasn't too sure that we had enough attendance here to justify going on the bills that had amendments. That was the purpose. There was nothing mysterious about it."

Telcser: "Well, Mr. Speaker, as you know, we've worked very hard and diligently for a number of years to open up the process in reform and to call bills in order." I know you would do nothing mysterious sir."

Speaker Redmond: "May I say that...."

Telcser: "I do not object at this point, but I just want to know as a point of clarification why we are skipping around the calendar?"

Speaker Redmond: "Well, that's the reason and if everybody would like to take their seats at 9:00 o'clock, I'll assure you that I will not do it anymore. 750."

Jack O'Brien: "House Bill 750."

Speaker Redmond: "Representative Griesheimer?"

Jack O'Brien: "A Bill for an Act to amend the Civil Administrative Code. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading. Messages from the Senate. Is that sequence proper, Representative Telcser? Representative Telcser."

Telcser: "Well, Mr. Speaker, if my memory serves me right, you can go from one order of business to the other a.... wherever you wish to go, but as the members know and as you know, the rules provide you should go down the order ...the calendar in the order of numerical sequence or by expiration date. And that was my only purpose for making an inquiry, which I did."

Speaker Redmond: "Okay."

Telcser: "Okay?"

Jack O'Brien: "A message from the Senate by Mr. Wright, Secretary."

I am directed to inform the House of Representatives that the Senate has concurred with the House of Representatives in the passage of bills with the following titles to with House Bill 269, by the Senate as amended April 17, 1975.

Kenneth Wright, Secretary.

A message from the Senate by Mr. Wright, Secretary. Mr. Speaker, I am directed to inform the House of Representatives that the Senate has concurred in the House passage of bills with the following titles to with House Bill 84, 97, 352, and 523, passed by the Senate April 17, 1975. Kenneth Wright, Secretary. A message from the Senate by Mr. Wright, Secretary.

Mr. Speaker, I am directed to inform the House of Representatives that the Senate has passed bills with the following titles and the passage of which I am instructed to ask concurrence of the House of Representatives to with Senate Bills 260, 283, 292, 298, 299, 313, and 328, passed by the Senate April 17, 1975. Kenneth Wright, Secretary. A message from the Senate by Mr. Wright, Secretary. Mr. Speaker, I am directed to inform the House of Representatives that the Senate has passed bills with the following titles. And the passage of which I am instructed to ask concurrence of the House of Representatives to with, Senate Bills 324, 326, passed by the Senate April 17, 1975. Kenneth Wright, Secretary."

Speaker Redmond: "I want to call to the attention of the membership that there are about eight or ten bills in Senate Bills' First Reading and there are no House sponsors. If there are any House sponsors, would they please come forward and identify themselves to the Clerk? Consent Calendar, Third Reading, third day."

Jack O'Brien: "House Bill 78. A Bill for an Act to amend the Boat Registration and Safety Act. Third Reading of the Bill. House Bill 443. A Bill for an Act to amend an Act in relation to Fire Preservation District. Third Reading of the Bill. House Bill 459. Sangmeister. A Bill for an Act to amend the Pension Code. Third Reading of the Bill. House Bill 467. A Bill for an Act to amend an Act to designate Joliet-Marquette Trail. Third Reading of the Bill. House Bill 528.

A Bill for an Act to require Braille markings on control devices for elevators. Third Reading of the Bill."

Speaker Redmond: "Is there any discussion? The question is shall these bills pass? All those in favor vote aye. Opposed vote no. This requires 89 votes. Have all voted who wished? Take the record. On these bills, ...Representative Barnes, for what purpose do you rise? Representative Barnes?"

Barnes: "Thank you very much, Mr. Speaker. Just an inquiry before the vote is announced. I'm not in opposition, but I can't find the bill listed on the calendar that I have. Page 13? Thank you."

Speaker Redmond: "On this question, there's 105 yes, no nays, and the bills having received the constitutional majority are declared passed. Representative Maragos, for what purpose do you rise?"

Maragos: "Mr. Speaker, I would like to have leave to have House Bill 357 brought back to Second Reading for an additional amendment. Its presently on Third Reading."

Speaker Redmond: "Any objections? Leave. It will be returned to Second Reading for the purpose of an amendment. Representative Maragos."

Jack O'Brien: "House Bill 357. Alright. A Bill for an Act to amend an Act concerning public utilities. Third Reading of the Bill."

Speaker Redmond: "Representative Maragos."

Maragos: "Mr. Speaker, I now move that House Bill 357 be moved to Second Reading, so I can...there's about 8 or 9 amendments that have been posted and I would like, at this time, to have those amendments adopted in addition to the 7 that already have been adopted prior to this."

Speaker Redmond: "Any discussion? Representative Schlickman?"

Schlickman: "Mr. Speaker, there is an amendment, either Amendment No. 8 or Amendment No. 9, which is going to be offered, I believe, by Representative Mugalian, and he's not on the floor."

Speaker Redmond: "Representative Maragos."

Maragos: "Mr. Speaker, Mr. Lundy is going to handle it for him, and I'm accepting the amendment, there's no problem."

Speaker Redmond: "The question is on the adoption of the amendment. Shall the amendment be adopted? Oh, pardon me. Yeh, read the amendment."

Jack O'Brien: "Amendment No. 8. Mugalian. Amends House Bill 357 on page 1, line 24, by inserting immediately after "prices" the following and so forth."

Speaker Redmond: "Representative Maragos?"

Maragos: "Mr. Speaker, a...as sponsor of the bill, and we are in accord in accepting this amendment, what this amendment does, Representative Schlickman, Amendment No. 8 is the amendment of the environmental groups to place on additional safeguards of environmental capabilities and also to extend the thrust of the siting board to include transmission and distribution facilities as to increase the membership to two public members in addition, who are not in any way interested with power industry or anything else. And a... a...it has many others which gives better notice to the owners of the property and I think it corrects some of the objections that you had, Mr. Schlickman, to this bill, at that time."

Speaker Redmond: "Representative Schlickman?"

Schlickman: "I noticed this morning, that in addition to Amendment No. 8, there's Amendment No. 9. Now are you going to move to table Amendment No. 9?"

Maragos: "If Amendment No. 8 is adopted, I presume that Mr. Mugalian put number 9 as a substitute and a..."

Speaker Redmond: "Representative Lundy?"

Lundy: "Thank you Mr. Speaker, Ladies and Gentlemen of the House, it is my understanding that Amendment No. 8 reflects suggestions made to the sponsor by the Lake Michigan federation and other environmental groups concerned about the subject of power plants siting. I'm glad that the amendment is acceptable to the sponsor....a...I a...I a...have put in a call to Representative Mugalian to try to urge him to get over here so he can deal in more detail than I am able to with the merits of Amendments 8 and 9, but it is my understanding

that 8, at least, reflects a suggestion of the environmental groups and I think it, probably, should be adopted."

Speaker Redmond: "Any further discussion? The question is on the adoption of Amendment No. 8 to House Bill 357. All in favor of the adoption indicate by saying aye. Opposed, no, the adoption....the Amendment is adopted. Any further amendments?"

Jack O'Brien: "Amendment No. 9. Mugalian. Amends House Bill 357 on page 1, line 24, and so forth."

Speaker Redmond: "Representative Maragos."

Maragos: "Mr. Speaker, now that Amendment No. 8 is adopted, I think Amendment No. 9 should be tabled because of the fact they are almost dealing with the same subject with a few variance and if there is any incorrection with the sponsor of that amendment, I would then move in and correct it in the Senate. So I move...."

Speaker Redmond: "The motion is to table Amendment No. 9. All in favor of tabling the Amendment indicate by saying aye; opposed, no; the ayes have it and the Amendment No. 9 is tabled. Any further amendments?"

Jack O'Brien: "Amendment No. 10. Maragos. Amends House Bill 357 on page 2, by inserting at line 33 between the words 'village and or' the following: townships, sanitary force, and park districts."

Maragos: "A..these are ...the next series of Amendments, Mr. Speaker, and members of the House, are corrective amendments and are amendments which further clarify and are housekeeping amendments and I would move the adoption of Amendment No. 10."

Speaker Redmond: "Is there any discussion? Representative Schlickman."

Schlickman: "Do I understand by this amendment, you are expanding the definition of municipality to include township, sanitary force, and park district?"

Maragos: "Correct. I move for the adoption of Amendment No. 10."

Speaker Redmond: "Representative Maragos has moved for the adoption of Amendment No. 10 to House Bill 357. All in favor indicate by saying aye; opposed, no. The ayes have it and the

Amendment is adopted. Any further amendments?"

Jack O'Brien: "Amendment No. 11. Maragos. Amends House Bill 357 on page 3, line 33, by deleting the Board and so forth."

Maragos: "Mr. Speaker and members of the House, this Amendment has been requested by the a...Executive Department in order to clarify who will be in charge of payroll and being in control of the a...implementing and hiring of the members and I will ask for the adoption of this Amendment, its a clarification amendment, Amendment No. 11, I ask for its adoption."

Speaker Redmond: "Any discussion? Representative Schlickman."

Schlickman: "Mr. Speaker, I wish the sponsor of these amendments would describe them. Now, this Amendment, as I understand it, gives to the Chairman of the Illinois Commerce Commission the authority to employ and fix the compensation of the staff of this Board. Is that correct?"

Maragos: "No, the Board, itself, will fix its compensation and other things, but the Chairman, it has to come under somebody's jurisdiction, under who's payroll its gonna be after its adopted. And therefore, we had to do it to show that the Chairman of this Commission would be the one responsible."

Schlickman: "I read to you the bill as it would be amended. 'The Chairman of the Commission shall employ and fix the compensation of such professional, technical, clerical, and other assistants as he consider necessary or desirable to perform the Board's duties under this Article.' Is that correct?"

Maragos: "That's correct."

Schlickman: "That's contrary to your presentation."

Maragos: "No it is not. The point is that the Board is going to have the say so as to what staffing on the other parts of the Act. So he, himself, is not going to be a party deciding after they make a decision, he will do the hiring, but the decision as to what they need will be made by the Board."

Schlickman: "Well, Mr. Speaker, members of the House, I oppose this amendment. Already, this Board will have two members

of the Illinois Commerce Commission on it, and now, we are directly tying this Board into the Illinois Commerce Commission. I think this is going to further aggravate the situation when you consider the tremendous powers that this Board is going to have with regard to the siting of electric generating facilities and the impact that this Board composed of bureaucrats will have on local land use policies and practices. I will admit that some of these amendments that the sponsor is offering today go a short way to improving this bill, but this is an amendment that goes in the reverse direction and one that should be defeated."

Maragos: "Mr. Speaker, may I ask the opponent, Mr. Schlickman, a question? Mr. Schlickman, if I withdraw this amendment, will you support the bill?"

Schlickman: "I'm sorry, what did you say?"

Maragos: "If I withdraw this amendment, will you support the bill?:

Schlickman: "Sam you know doggone well I'm going to fight this bill as hard as I can on Third Reading."

Maragos: "Therefore, this is not the only thing, even after the amendments trying to make it more palatable, you are still going to fight on the other issues. Right? I move for the adoption of Amendment No. 11."

Speaker Redmond: "The Gentleman has moved for the adoption of Amendment No. 11 to House Bill 357. The question is on the adoption of the Amendment? Those in favor vote aye, those opposed vote no. Roll call, we'll get one anyway, so you might as well start. Have all voted who wished? Representative Schlickman."

Schlickman: "Mr. Speaker, in explaining my vote, House Bill 357 I believe, is one of the more significant bills that is going to come before this House in this session of the General Assembly. Its a bill that will, in its present form, that will give to a group of State bureaucrats the absolute authority to determine where electric generating facilities are going to be located. Its a bill that is parochial in nature; its a bill that I think is inherently

a bad bill, but one which, by this amendment, is even going to be worse, giving to the Illinois Commerce Commission, not only a greater prominence on the Board numerically, but then, giving to the Chairman of the Commission, the absolute total authority to determine what the staff of this Board is going to be like. I think its bad. I think this Amendment should be defeated and would urge a no vote."

Speaker Redmond: "Any further explanation? Have all voted who wished? Take the record. On this question there are 50 ayes and 30 nays, having received the majority, the Amendment No. 11 is adopted. Any further amendments?"

Jack O'Brien: "Amendment No. 12. Maragos. Amends House Bill 357 on page 5, by inserting on line 6 between the words "Board and" the following, "or his designee"."

Speaker Redmond: "Representative Maragos, can you take the record on that last..."

Maragos: "Yes. Mr. Speaker, Amendment No. 12, as my original... this was originally in the bill, then we had changed it before we had introduced it to state that in the event one of the department heads is not available, he can designate somebody to serve on the Board and make the decisions on the final act, as been asked by the department heads, would be involved, that we adopt this amendment. I ask for your consideration as the adoption of Amendment No. 12."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment 12 to House Bill 357, all in favor indicate by saying aye; opposed, no. The ayes have it, the Amendment is adopted. Any further amendments?"

Jack O'Brien: "Amendment No. 13. Maragos. Amends House Bill 357 on page 7, line 1, by deleting facility or any energy source and inserting in lieu thereof the following, electric generating facility."

Maragos: "Mr. Speaker, members of the House, Amendment No. 13 corrects an additional omission to make the definition, electrical generating facilities, so comprehensive so it is uniform. Its a housekeeping amendment and I would respectfully ask for the adoption of House Bill.... a...Amendment No.

13 to House Bill 357."

Speaker Redmond: "Representative Schlickman?"

Schlickman: "Well, Mr. Speaker and members of the House, I suggest, respectfully, that this Amendment is more than housekeeping. It substitutes the words "facility or energy source" with the word "electric generating facility". It firms up the context of this bill, and I used the word "parochial" before, it firms up the parochial context of this bill to electric generating facility completely, totally, ignoring, or putting to the side other sources of energy. And I suggest, respectfully, Mr. Speaker and members of the House, that the sponsor has the burden of why there would be further limitation on this bill with respect to the sort of energy and why competition with other sources of energy are eliminated."

Speaker Redmond: "Any further discussion?"

Maragos: "Mr. Speaker, I personally am not that hung up on the support of this particular amendment, excepting what has been brought to us by the sources is the fact that we are only dealing with electrical generating facilities that that be the only consideration to this bill. Now if Representative Schlickman feels that there is some points here that would study it, I would not have the objection to withdraw and if he further can explain to me why he does feel that this would be any more confining than a bill of his in its generic terms."

Speaker Redmond: "Representative Mugalian."

Mugalian: "Will the sponsor of the amendment yield for a question?"

Maragos: "I will be glad to, Mr. Speaker."

Mugalian: "A...I haven't had a chance to a...see a...how the amendment fits into the language, Representative Maragos, but my question is, does this amendment in any way effect Amendment No. 9, which included a transmission line. Does it reduce the applicability of the a...."

Maragos: "No, by the way, Representative Mugalian, it was a...a... Amendment No. 8 that was adopted and No. 9 was tabled because of the adopting of Amendment No. 8, we didn't know which one

earlier, so... it was Amendment No. 8, which you had proposed, and a...a...therefore, we tabled No. 9, because you a... we are already adopting Amendment No. 8. In any case, both of those amendments does not in any way limit the transmission lines or any other power."

Mugalian: "Thank you."

Speaker Redmond: "The question is in the adoption of Amendment No. 13 to House Bill 357. All those in favor vote aye, those opposed, vote no. Have all voted who wished? Take the record. Representative Leon, aye. On this question, there are 56 ayes, 33 no, having received the majority, the amendment is adopted. Any further amendments?"

Jack O'Brien: "Amendment No. 14. Maragos. Amends House Bill 357 on page 11, line 7, by deleting local government and inserting in lieu thereof, the following and so forth."

Speaker Redmond: "Representative Maragos."

Maragos: "Mr. Speaker, Amendment No. 14, I think, will not be objectionable by Representative Schlickman because it further defines the word local government and putting in there, municipality, so therefore, a...it makes it more uniform, and I think he will find that palatable to his taste."

Speaker Redmond: "Representative Schlickman."

Schlickman: "Just to show that the sponsor of this bill is not only wrong with regard to the bill, but he's also wrong with regard to the amendment. I would suggest to the sponsor that when he substitutes the word municipalities for local government, he has a capital M on municipalities, and not small. Because you are talking about a caption of a section. And when you substitute municipalities for local governments, please know that local governments is capital L, governments is capital G. And I would further suggest, Mr. Speaker, and members of the House, just to emphasize how badly drafted this bill is, the sponsor previously had offered an amendment substituting the words electric generating facilities with capital, initial capital letters, but if you'll go back to pages 1 and 2 of this bill, under Legislative Declaration, you'll notice that he forgot to amend a...phrases in there,

which make the legislative declaration contained in his bill not consistent with the substantive parts of this Bill."

Maragos: "Well, Mr. Speaker, I'm glad that Mr. Schlickman brought it up because if he noticed Amendment No. 1 does do that in its entirety on all corrections, except that we've missed a few spots in Amendment No. 1 and No....a...Amendment No. 14 is to correct that additional thing that was missed by Amendment No. 1."

Speaker Redmond: "Representative Schlickman."

Schlickman: "I would suggest if he looked at Amendment No. 1, he'll see that Amendment No. 1 starts with amending page 2, line 23, which follows the declaration, legislative declaration."

Maragos: "That is correct, but at the time on No. 14 to do it, but we did make it many facilities on this...on this... because of declaration, so I'll stand corrected on that one."

Speaker Redmond: "Any further discussion? The question is on the adoption of Amendment No. 14 to House Bill 357. All those in favor indicate by saying aye; opposed, no, the ayes have it, the Amendment is adopted. Any further amendments?"

Maragos: "No other amendments that I know of."

Speaker Redmond: "Third Reading. Turn to the order of House Bills' Second Reading, they will be called according to priority and that's the date of expiration. The first one appears is House Bill 114. Take it out of the record. House Bill 121."

Jack O'Brien: "House Bill....its being printed?"

Speaker Redmond: "Representative Porter?"

Porter: "I understand the amendment has not returned from the printer on that."

Porter: "Right, we just put that in this morning and if you can come back to that later today, we'd like to move it."

Speaker Redmond: "If its humanly possible, we will."

Porter: "Thank you."

Speaker Redmond: "315. Representative Palmer. House Bill 315. The sponsor is in the chamber."

Jack O'Brien: "House Bill 315."

Speaker Redmond: "Take it out of the record. House Bill 119.  
Representative Porter."

Jack O'Brien: "House Bill 119. A Bill for an Act to amend the  
School Code. Second Reading of the Bill. One Committee  
Amendment."

Speaker Redmond: "Representative Porter on the amendment."

Jack O'Brien: "Amends House Bill 119 on page 1 and so forth."

Porter: "Mr. Speaker, Ladies and Gentlemen of the House, a...  
the original bill that I submitted sought to provide  
equitable treatment, equitable treatment for learning  
disabled children, who were attending public school and  
who would be materially benefitted by being provided summer  
tuition...as is now provided for children attending  
private schools. This amendment would cover not only  
learning disabled children, but would cover all handicapped  
children in the public schools and it would encourage the  
public schools to set up a summer school program for  
handicapped children by providing actual costs up to  
\$500 per child, per summer, and by eliminating the \$100  
the local districts have to...a...are required to provide  
now, and I would move the adoption of Committee Amendment  
No. 1."

Speaker Redmond: "The Gentleman has moved the adoption of  
Amendment No. 1 to House Bill 119. Any discussion? The  
question is on the adoption of the amendment. All in favor  
of the adoption vote aye; and those opposed vote no. The  
ayes have it, the Amendment is adopted. Any other amendment?  
Third Reading. House Bill 121. No I'm in error there.  
House Bill 288."

Jack O'Brien: "House Bill 288."

Speaker Redmond: "It doesn't appear on the calendar, so we'll  
go to House Bill 912."

Jack O'Brien: "House Bill 912. Flinn. A Bill for an Act to  
amend an Act making appropriations to the St. Louis Metropolitan  
Area Airport Authority. Second Reading of the Bill. One  
Committee Amendment. Amends House Bill 912 on page 1, line 1,

by deleting one and repeal section, and so forth."

Speaker Redmond: "Representative Flinn on the amendment."

Flinn: Thank you Mr....Thank you Mr. Speaker. Amendment No. 1 was suggested by...Amendment No. 1 was suggested by Committee Chairman, Ted Lechowicz, to keep from changing a...eliminating Section 2 of the Act, and all we did was move the figure down into Section 2. It is purely and simply a technical amendment and I move for its adoption."

Speaker Redmond: "Discussion? The question is on the adoption of Amendment No. 1 to House Bill 912. All in favor indicate by saying aye, opposed no, the ayes have it, the amendment is adopted. House Bill 3. Any further amendments? Any further amendments? Third Reading. House Bill 3. Representative Katz, House Bill 3."

Jack O'Brien: "A Bill for an Act to amend the Workmen's Compensation Act and the Workmen's Occupational Disease Act. Second Reading of the Bill. One Committee Amendment. Amends House Bill 3, page 6, line 28, by deleting "proceeding" and inserting in lieu thereof and so forth."

Speaker Redmond: "Representative Katz."

Katz: "I will move the adoption of the Committee Amendment. The Committee Amendment is simply a technical amendment; the Reference Bureau found that they made a slight mistake. It is not a substantive change and I would move the adoption of Amendment No. 1."

Speaker Redmond: "Any discussion? The Gentleman has moved the adoption of Amendment No. 1 to House Bill 3. All in favor indicate by saying aye, the opposed no, the ayes have it, the amendment is adopted. Third Reading. House Bill 6? House Bill 90. Representative Palmer."

Jack O'Brien: "House Bill 90. A Bill for an Act to amend the Illinois Municipal Code. Second Reading of the Bill. One Committee Amendment. Amends House Bill 90 on page 1, line 16, by deleting as soon as practical and so forth."

Speaker Redmond: "Representative Palmer on the amendment."

Palmer: This amendment is a procedural amendment and is part of the local a..a...as far as the local boards are concerned, it needs the approval of the Board of Fire....that is, the people that are involved in this kind of thing, and I urge your a...a...a...adoption, urge the adoption of the amendment."

Speaker Redmond: "Representative Palmer?"

Palmer: I move the adoption of Amendment No. 1 which requires the posting of eligibility lists after police and firemens' examinations."

Speaker Redmond: "Discussion? The question is on the adoption of Amendment No. 1 to House Bill 90. All in favor indicate by saying aye, opposed no, the ayes have it and the amendment is adopted. Third Reading. There's a mistake in the calendar. I've been advised there's a mistake in the calendar, House Bill 160 appears in the order of Third Reading in spite of the fact it should be the order of Second Reading. And with leave of the House, I'll call House Bill 160 on Second Reading."

Jack O'Brien: "House Bill 160. Borchers. A Bill for an Act to prohibit the employment in this State, of aliens, who are in the United States illegally. Second Reading of the Bill. Amendment No. 5. Amendment No. 5 amends House Bill 160 on page 1, line 20, by striking the words "as a prerequisite to the employment every" and on page 1, by striking line 21 through 23."

Speaker Redmond: "Representative Borchers."

Borchers: "A...Mr. Speaker, a...and fellow members. I would request the defeat of this amendment. A...what this a... what that amendment does, does is eliminate a...a prerequisite of employment of every employer to demand and receive proof by the job applicant or prospective employee of his citizenship. Now the a...a...the a...the a...proof is very easy. Its a matter of a social security card which could be a fraudulent card. Birth certificate or any other type of a...any other type of a proof of citizenship. Now.. the employer....if its fraudulent, the employer is not

held responsible. Its only...it is only if he knowingly and willingly hires an illegal alien. If the illegal alien has proof of a...of a...and shows a fraudulent proof, that is not the responsibility of the employer and he cannot be held liable. This would really kill one of the most important provision of this bill and I request its defeat."

Speaker Redmond: "Representative Lauer, I understand that I picked the wrong sponsor of the amendment. Representative Lauer. I want to take this out of the record, the sponsor of the amendment is not here." Representative Washburn, for what purpose do you rise?"

Washburn: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House, we are honored this morning, by having in the Speaker's gallery, Sister Casantha, head librarian of Phylician College in Chicago. Its located in the 15th District represented by Representative Peters, Laurino and Greiman. Sister Casantha, would you stand and be recognized?"

Speaker Redmond: "Representative Lundy? We'll go back to House Bill 160. Representative Lauer. Page 1 on the Amendment 160."

Jack O'Brien: "Amendment No. 5. Lauer. Amends House Bill 160 on page 1, line 20 and so forth."

Speaker Redmond: "Representative Lauer."

Lauer: "Mr. Speaker, the purpose of line 5 is to ...of...of Amendment No. 5 is to remove the requirement that the employer must have a prior proof. Now the employer, as a means of continuing employment certainly, then, has the right to be required to furnish the proof and to require his employee to furnish the proof. It seems to me, discriminatory, particularly when we consider situations of migratory labor, where the potential employer needs help in a hurry, that he have the requirement of a prior proof. But certainly, it would be reasonable to expect that he could expect that proof within a short period of time after employment. I think that we are taking by this amendment, a necessary step to protect the employer and to put the

burden of the proof on the employee where it belongs as a requirement for continuing employment. Mr. Speaker, I move for the adoption of Amendment No. 5."

Speaker Redmond: "Any discussion? Representative Borchers."

Borchers: "I've already given the reasons of why that its a very simple matter showing us a...even a fraudulent birth certificate, or a fraudulent social security number. A...any proof of citizenship is applicable, an alien that is legally in this country has to have on him and with him or quickly available, its entry permit, his visa it is nothing to comply with the bill as it is now. I might point out that I'm going to support a.. the a...Amendment No. 6 of Representative Lauer because it helps to see that an employer will not have a suit filed against him of discrimination. So I request that this amendment be defeated."

Speaker Redmond: "Any further discussion? The question is on the adoption of the Amendment No. 5 to House Bill 160. All in favor of the adoption indicate by saying aye, opposed no. It is the opinion of the Chair that the yeas prevail, the amendment fails. Any further amendments?"

Jack O'Brien: "Amendment No. 6. Lauer. Amends House Bill 160 on page 1, line 23, by adding the following immediately after the period and so forth."

Speaker Redmond: "Representative Lauer."

Lauer: "Mr. Speaker, Ladies and Gentlemen of the House, the purpose of Amendment No. 6 is to, well its quite short, I'll read the entire amendment. Amendment No. 6 on page 1, line 23, by adding immediately following after the period, however, the fact that an employer requires pre-hirer evidence of citizenship or legal residence, shall not provide a basis for assumption that the employer discriminates against the job applicant or a prospective employee in violation of the Illinois Fair Employment Practices Act, or the Federal Civil Rights Act of 1964. This a...amendment would act as a defense the suit filed accusing the employer of a ...of a...discrimination in hiring under either the

State Fair Employment Practices Act, or the Federal Act. It seems to me that the employer should have a defense against prosecution under these two Acts by the very fact that he does require some kind of a pre-hire proof of residence or citizenship. Mr. Speaker, I move for the adoption of Amendment No. 6."

Speaker Redmond: "Any discussion? Representative Borchers."

Borchers: "Mr. Speaker, I agree that this is a good amendment.

I feel that a employer should be protected against someone a...taking him to court because he was required a...to show proof of citizenship. So I support this amendment."

Speaker Redmond: "The question is on the adoption of Amendment No. 6 to House Bill 160, all in favor indicate by saying aye; opposed, no. The ayes have it, the amendment is adopted. Any further amendments. Third Reading. Return to House Bills' Second Reading on the order of priority and call appears House Bill 584." This is good news. I wish we'd give the Gentleman attention. Representative Lundy."

Lundy: "Thank you Mr. Speaker and Ladies and Gentlemen of the House, I would ask for leave of the House to table House Bill 584."

Speaker Redmond: "Any objections? Leave granted. House Bill 584 is tabled. House Bill 165."

Jack O'Brien: "House Bill 165. A Bill for an Act to amend the Illinois Municipal Code. Second Reading of the Bill. One Committee Amendment. Amends House Bill 165 on line 27 by deleting three and so forth."

Speaker Redmond: "Representative Friedrich."

Friedrich: "This amendment was adopted in committee and I move its adoption."

Speaker Redmond: "Any discussion on the amendment? Ready for the question? Representative Schlickman."

Schlickman: "I'm sorry, Mr. Speaker, did the sponsor explain his amendment?"

Friedrich: "There is an amendment a...the original, the law now says that the distance is a mile and a half without consent,

I put the bill in at 3 miles and this amends it back to what the current law is. All the bill does now with this amendment is lower the population from 400 to 250 and there's also an amendment to a ...self-repealer."

Speaker Redmond: "Any further discussion? The question is on the adoption of Amendment No. 1 to House Bill 165. All in favor indicate by saying aye; opposed no, the ayes have it and the amendment is adopted." Any further amendments?"

Friedrich: "There should be two amendments, I believe."

Speaker Redmond: "All we have is a..."

Friedrich: "Which one is that one?"

Speaker Redmond: "1, was the one that was adopted and that's the only amendment on the Clerk's desk."

Friedrich: "Which amendment do you have?"

Jack O'Brien: "Amends House Bill 165 on line 27, by deleting three underlined, 1 and a half, line through, and inserting in lieu thereof, 1/2."

Friedrich: "Well, we'd better hold it because there was a self-repealer amendment also, adopted by the committee and I don't know what happen to that but I'd better run it down. It should be on there because that's an agreed, an agreed that it would be a self-repealer."

Speaker Redmond: "Take that one back to Second Reading then. I move, and we'll hold it there."

Friedrich: "Thank you."

Speaker Redmond: "House Bill 174. Representative Geo-Karis." 174. Is Representative Geo-Karis in the chamber?"

Jack O'Brien: "House Bill 174. A Bill for an Act in relation to the payment and cost of fire protection rescue and ambulance services furnished in State and county parks. Second Reading of the Bill. One Committee Amendment. Amends House Bill 174 on page 1, and so forth."

Speaker Redmond: "Representative Geo-Karis."

Geo-Karis: Mr. Speaker and Ladies and Gentlemen of the House, I put this Committee Amendment at the request of the Department of Conservation and I feel they are right. We removed the words "protection rescue and ambulance" from the

bill and put in there "protection or rescue" because we felt that the person who has to have an ambulance should defray his or her own costs. And I move the adoption of Amendment No. 1."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 174. All in favor indicate by saying aye; opposed no. The ayes have it and the Amendment is adopted. Any further amendments?"

Jack O'Brien: "Amendment No. 2. Geo-Karis. Amends House Bill 174 on page 1, line 1, by deleting "of fire" and so forth."

Geo-Karis: "This Amendment, Mr. Speaker and Ladies and Gentlemen of the House, we include police protection as well as fire protection, and I respectfully request the adoption of this amendment."

Speaker Redmond: "Any discussion? No discussion. The question is on the adoption of Amendment No. 2 to House Bill 174. All in favor indicate by saying aye; opposed no, the ayes have it and the Amendment No. 2 is adopted. Any further amendments?"

Jack O'Brien: "Amendment No. 3. Geo-Karis. Amends House Bill 174 on page 1 by striking all of line 13 through 18, and so forth."

Speaker Redmond: "Representative Geo-Karis."

Geo-Karis: "Mr. Speaker, in this Amendment, and Ladies and Gentlemen of the House, we remove the word "reference to county" by striking all of lines 13 through 18."

Speaker Redmond: "Any discussion? You move the adoption of Amendment No. 3 to House Bill 174, Representative Geo-Karis?"  
The question is on the adoption of Amendment No. 3. All in favor indicate by saying aye; opposed no. The ayes have it and Amendment No. 3 is adopted. Representative Schlickman."

Schlickman: "Mr. Speaker, the potential expense to the State was increased by the adoption of Amendment No. 2 and I therefore, at this time, ask for a fiscal note, which by the rule, would require this bill to stay at the order of Second Reading."

Speaker Redmond: "The Chair recognizes Representative Geo-Karis."

Geo-Karis: "Mr. Speaker and Ladies and Gentlemen of the House, this Bill, if my colleague will look into it, refers to the State conservation areas a...and all it says in essence, is for the purpose of this Act, the Department of Conservation may contract, may contract with any fire department or police department in close proximity to the property to be protected both with respect to the fire and police protection to be furnished, as well as the reasonable cost for such services, which are to be paid to the fire or police department. So its a may bill."

Speaker Redmond: "It would appear to the Chair, that Representative Schlickman has filed in writing a request for a fiscal note. I would suggest that the sponsor obtain one and we'll have to hold it on Second Reading until then." House Bill 178."

Jack O'Brien: "House Bill 178. Merlo. A Bill for an Act to amend the Criminal Code and Unified Code of Corrections. Second Reading of the Bill. One Committee Amendment. Amends House Bill 178 on page 3, line 2, by inserting after the word "the following" and so forth."

Speaker Redmond: "Representative Merlo."

Merlo: "Mr. Speaker, and members of the House, the amendment merely provides that its provision be effective only for a period of two years from the date that it becomes law. And I move its adoption, Mr. Speaker."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 178. All in favor of the adoption indicate by saying aye; opposed, no the ayes have it and the Amendment is adopted. Any further amendments? Third Reading. House Bill 212."

Jack O'Brien: "House Bill 212. A Bill for an Act to amend the Criminal Code. Second Reading of the Bill. Was Committee Amendment No. 1 tabled? Committee Amendment No. 2. Amends House Bill 212 on lines 2 by deleting the period and inserting and so forth."

Jaffe: "Mr. Speaker, Amendment No. 2 is a product of the sub-committee and basically, what it does is it permits eavesdropping with one party consent and a court order

and has court review and reports to a court administrator and I move its adoption."

Speaker Redmond: "Any discussion? The Gentleman has moved the adoption of Amendment No. 2 to House Bill 212. All in favor of the adoption, indicate by saying aye; opposed no. The ayes have it and the Amendment is adopted. Any further Amendments. Third Reading. House Bill 214."

Jack O'Brien: "House Bill 214. Palmer. A Bill for an Act to amend sections of an Act in relation to township community building. Second Reading of the bill. One Committee Amendment. Amends House Bill 214 on page 1, line 9, by deleting 50 and inserting in lieu thereof not less than 5 per cent, and so forth."

Speaker Redmond: "Representative Palmer on the amendment."

Palmer: "Mr. Speaker, Amendment No. 1 is a Committee Amendment; it only enlarges the population maximum to townships, which may, by referendum, establish community buildings. It also changes the a...a...required number of signatories in order to accomplish this purpose from 50 to 5%. I move its adoption."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 214. All those in favor indicate by saying aye. Oppose no. The ayes have it, the amendment is adopted. Any further amendments? Third Reading. House Bill 240."

Jack O'Brien: "House Bill 240. Rayson. A Bill for an Act to grant public employees the right to organize and bargain collectively. Second Reading of the Bill. Three Committee Amendments. Amendment No. 1 amends House Bill 240 on page 5, line 6, by deleting regulation and inserting in lieu thereof regulations and so forth."

Speaker Redmond: "Representative Rayson."

Rayson: "Thank you very much. This is House Bill 240, not 241, as the Board shows. This is just an error in a word, the technical amendment of the Reference Bureau. I move the adoption on Committee Amendment No. 1."

Speaker Redmond: "Any discussion? The Gentleman has moved the

adoption of Committee Amendment No. 1 to House Bill 240. Those in favor of the adoption indicate by saying aye; opposed no; the ayes have it, the amendment is adopted. Any further amendments? "

Jack O'Brien: "Amendment No. 2. Amends House Bill 240 on page 13, line 19, by deleting the word "after" and inserting in lieu thereof invoke."

Speaker Redmond: "Representative Rayson."

Rayson: "Again, Mr. Speaker, its a word that was left out in the original drafting, a technical amendment of clarity, and I move the adoption of Committee Amendment No. 2."

Speaker Redmond: "Any discussion? The question is on the adoption of Committee Amendment No. 2 to House Bill 240. All in favor of the adoption indicate by saying aye; opposed no, the ayes have it and the amendment is adopted. Any further amendments?"

Jack O'Brien: "Amendment No. 3. Amends House Bill 240 on page 1, line 16, by deleting non-profit hospitals and nursing and so forth."

Speaker Redmond: "Representative Rayson."

Rayson: "This amendment was requested by the Illinois Hospital Associations on this collective bargaining bill for public employees, and that is because a recent ruling has said that all non-profit hospital personnel are now under the Taft-Hartley Act and would not be covered under this kind of legislation. I, therefore, move for the adoption of Committee Amendment No. 3."

Speaker Redmond: "The Gentleman has moved the adoption of Committee Amendment No. 3 to House Bill 240. All in favor of the adoption indicate by saying aye; opposed no, the amendment is adopted. Any further amendments?"

Jack O'Brien: "Floor Amendment No. 4. Tuerk. Amends House Bill 240 on page 11, line 26, immediately after the agreement all language contained in line 26 through 33 by inserting in lieu thereof, a period."

Speaker Redmond: "Representative Tuerk on the amendment."

Tuerk: "Mr. Speaker and members of the House, Amendment No. 4

to House Bill 240 sites some language which, in effect, gives an employee the option of whether or not to pay the dues. What the language is now, an employee who does not become a member of the employee organization shall be required, as a condition of employment, to pay the employee organization in recognition of and reimbursement for services performed by the exclusive representative. In other words, what it does is give the employee with option whether or not to pay the dues. I would move for the adoption."

Speaker Redmond: "Any discussion? Representative Rayson."

Rayson: "Well, Mr. Speaker, and members of the House, House Bill 240 is a bill that creates an Illinois Public Employment Relations Act. It establishes standards for collective negotiations between public employers and public employees and in short its quite a conference in modern approach to this problem that we are vexed with in Illinois. We have one bill out for consideration before you, which is a fine bill, in which I'll support; but I also have an alternative bill here, and this particular..."

Speaker Redmond: "Give the Gentleman your attention please."

Rayson: "Thank you very much Mr. Speaker, this is is an important amendment that I wish the House would pay close attention to on this collective bargaining bill for public employees. Now this amendment, by deleting certain language, sets forth within the Bill, the principle of the right to work. Now, a...I mention that this is a moderate approach to the problem of collective bargaining in Illinois, and we took great pains to recognize this principle in part, by suggesting that an employee need not necessarily become a member of an employee organization, but if he gets the benefits of such organization collective bargaining, he would have to pay dues in the same manner as other employees. Now I suggest that that is a language that recognizes this concept of whatever pragmatic it might have, but certainly, to adopt Amendment No. 4, would seriously impair the effect of this bill and I suggest that it should be defeated."

Speaker Redmond: "Any further discussion? Representative Tuerk."

Tuerk: "Mr. Speaker, members of the House, in response to the Gentleman, I know what he says, but what this amendment intends to do is to not necessarily, or not mandate, the fact that an employee within that group has to pay dues if its really against his better judgement. Now, I'm not so naive to think that in the State, where there are private agreements between an employer and a bargaining agent that we should be attempting to make a right to work law. But in this case, where a new act is being considered, and I think where public employees are involved, there's an awful lot of public employees that don't necessarily agree with the concept of collective bargaining, and I think they should have the right of whether they are going to pay the dues or not to pay dues. And I would move for the adoption of this Amendment."

Speaker Redmond: "The Gentleman has moved for the adoption of Amendment No. 4 to House Bill 240. All in favor of the adoption vote aye, and those opposed vote no.

Roll call vote. Representative Leinenweber."

Leinenweber: "Thank you Mr. Speaker, in explaining my vote aye vote, I would once again like to respond to Representative Rayson's veiled argument, the so-called "free-rider" concept. Now the bill, as I understand it, provides that every individual within that bargaining unit must be represented by the particular labor organization that is selected to represent them. Consequently, even though he may wish to bargain for himself; nevertheless, this bill denies him that right. So really, rather than be a free-rider, the gentleman, the employee is really a force-rider. Now for those who believe in civil liberties, I think this is a rare opportunity to vote a green light in behalf of the civil liberties of all public employees."

Speaker Redmond: "Have all voted who wished? On this question there are 75 noes, 31 ayes, the amendment is lost. Any further amendments?"

Jack O'Brien: "Amendment No. 5. Tuerk. Amends House Bill 240 on page 12, line 13, by deleting or and so forth."

Speaker Redmond: "Representative Tuerk on the amendment."

Tuerk: "Well, Mr. Speaker and members of the House, this is a similar amendment to the one we just considered. What this says, if an employee indicates that membership in an employee organization runs contrary to personal or religious beliefs concerning such membership, that he be given the right to either join or not join. In other words, it eliminates the close shops element and opens the situation to an open shop. That's simply what it does and I would move for the adoption of the amendment."

Speaker Redmond: "Any discussion? Representative Rayson."

Rayson: "Well, Mr. Speaker and members of this House, this is a rather ingenious amendment, which in a back-door way, tries to do what the Gentleman tried to do by Amendment No. 4 and it tries to suggest that no employee may be terminated for reason of not joining an employee organization if it runs counter to his personal or religious beliefs. Now I don't know, really, what that means, but as I said earlier, the bill provides that no member need not be a member of a union. Just that he has to pay dues in accordance with what might be prescribed. This amendment, in its peculiar way, would re-establish what the Gentleman couldn't achieve on Amendment No. 4, and I would say that it would be a very bad amendment to this otherwise decent bill, and I therefore, urge the membership to defeat Amendment No. 5."

Speaker Redmond: "Any further discussion? The question is on the adoption of Amendment No. 5 to House Bill 240. All in favor of the adoption vote aye. Those opposed vote no. Have all voted who wished? On this question there are 24 ayes, 90 nays, the amendment is lost. Representative Leon, for what purpose do you rise? Representative Leon."

Leon: "A point of personal privilege, Mr. Speaker."

Speaker Redmond: "State your point."

Leon: "We have with us, today, one of the foremost judges of the County of Cook, a former member of this House. I would like us to recognize B. B. Wolfe, who is now on the floor."

Speaker Redmond: "I'd like to tell you that not only being the

world's greatest jurist, he is also the finest chef for lox and bagels, which he demonstrated in the Speaker's office."

Wolfe: "Point of order, Mr. Speaker, I bet you miss that, huh? I spent ten years in the House and never once did I get the opportunity to really stand on the Speaker's platform and address the members, and if possible Ladies and Gentlemen, quiet for one minute, nothing has changed in the House, except that I wonder where you got the beautiful baby blue chairs and carpet. Hi, Danny. You've got your work cut out, believe me, I'm not going to take up any more of your time. Good luck to all of you. There is one change. At one time on this board this past year, there were three Wolfes on that board. Frank, Jake, and B. B., and that's where I got the nickname, B.B., because Speaker Jack Walker, couldn't distinguish between the three Wolfes in the House; he was more interested, probably, in the other Wolfes that were running on the floor of the House, and he would address ...and when he would address any one of us, he would say Wolfe, B.B; Wolfe, Frank; or Wolfe, J. J. So this is how I got tagged Wolfe, B. B. It actually stands for Big Bad. Its been wonderful down here the last day or so, as I say, you've got your work cut out. Great Speaker Bill, go ahead run this House, or maybe you want me to go down this list and wrap up about 42 bills in 20 minutes. Good luck to all of you. Thank you very much."

Speaker Redmond: "Any further amendments?"

Jack O'Brien: "Amendment No. 6. Tuerk. Amends House Bill 240 by deleting on page 16, line 31, immediately following strikes, the following and so forth."

Speaker Redmond: "Representative Tuerk. Do the Democrats desire a conference in the aisle? Representative Tuerk."

Tuerk: "Mr. Speaker, Amendment No. 6 really prohibits strikes by certain people, such as firemen, prison guards, police, hospital employees, and so forth, in the public interest for safety, health, welfare, etc. I move for the adoption."

Speaker Redmond: "Representative Rayson."

Rayson: "Mr. Speaker, did you announce the results of the vote

on Amendment No. 5?"

Jack O'Brien: "It lost."

Rayson: "Alright, Amendment No. 6 suggests that police, firefighters, prison guards, and other security personnel, and essential court personnel, have no right whatsoever to strike for any possible conceivable reason. And instead, it imposes binding arbitration of...on these disputes. Now, House Bill 240 says that these same personnel shall not strike if a clear and present danger or threat to the public or health or safety exists. Now that was carefully drawn language to suggest that they do have an inherent right of strike, but its subject to the public will, and its subject to an injunction, of course, and if they did strike and these conditions existed, but the amendment, therefore, will remove any possible right for a good deal of the personnel under this Act to strike whatsoever, for binding arbitration and I consider it a very harsh amendment, and I consider it defeats the purposes of this otherwise moderate approach to collective bargaining, and therefore, I would ask the membership to vote Amendment No. 6 down."

Speaker Redmond: "Any further discussion? Representative Tuerk, do you desire to..."

Tuerk: "Well Mr. Speaker and members of the House, the sponsor of this bill characterizes this bill as a moderate approach. I would have to give him his dues that it is more moderate than some I've looked over the course of my time here. But it still is a collective bargaining bill for the public employee sector. Now all this amendment does is eliminates some vague non-understandable language, and inserts some language with some teeth in it, which says that certain people who are a...important to the public health, safety, and welfare of the State, they are now allowed to strike. Now that's what the amendment does. He knows that. He has characterized it as such, and he's right. And that is the intent of the amendment. And I think its a good amendment. I think one that is needed on this bill and I would reissue my motion to adopt this Amendment No. 6 to House Bill 240."

Speaker Redmond: "The Gentleman has moved the adoption of Amendment No. 6 to House Bill 240. All in favor of the adoption vote aye; those opposed, vote no. Have all voted who wished? On this question. Take the record... on this question, there are 28 ayes, 68 nos. and the amendment is lost. Any further amendments? No further amendments. Third Reading. House Bill 245."

Jack O'Brien: "House Bill 245."

Speaker Redmond: "Take that one out of the record. I've been advised by the sponsor. 316? Representative Palmer."

Jack O'Brien: "House Bill 316. Palmer. A Bill for an Act to amend the Illinois Municipal Code. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading. House Bill 334."

Jack O'Brien: "House Bill 334. Caldwell. A Bill for an Act to amend the Small Business Purchasing Act. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor?"

Jack O'Brien: "Amendment No. 1. Caldwell. Amendment No. 1. Caldwell. Amends House Bill 334 on page 1, line 9, by deleting the word shall and inserting in lieu thereof, may."

Speaker Redmond: "Representative Caldwell on the amendment."

Caldwell: "Mr. Speaker this is an amendment that was agreed on in committee. I move its adoption."

Speaker Redmond: "Discussion? The Gentleman has moved the adoption of Amendment No. 1 to House Bill 334. All in favor indicate by saying aye. Opposed, no. The ayes have it and the amendment is adopted. Third Reading. 345."

Jack O'Brien: "House Bill 345."

Speaker Redmond: "Representative Barnes."

Jack O'Brien: "A Bill for an Act to amend Sections of the Fair Employment Practice Act. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor?"

Jack O'Brien: "Floor Amendment No. 1. Simms. Amends House Bill 345 by deleting from page 3, line 25, after the word

"militia" the following and so forth."

Speaker Redmond: "Representative Simms on the amendment."

Simms: "Mr. Speaker, I move to table Amendment No. 1."

Speaker Redmond: "The Gentleman has moved to table Amendment No. 1 to House Bill 345. All in favor of tabling the amendment, indicate by saying aye; opposed no; the amendment is tabled. Any further amendments?"

Jack O'Brien: "Amendment No. 2. Simms. Amends House Bill 345 by deleting on page 3, line 25, after the word "militia" the following and so forth."

Simms: "Mr. Speaker, Committee Amendment ....a....Mr. Speaker, Amendment No. 2 is an amendment which adds to that classification is R. E. 4 or the equivalent thereof. This amendment, I feel, improves the bill. It does have the agreement with the sponsor of the bill, Representative Barnes, and I would move for its adoption."

Speaker Redmond: "Representative Barnes."

Barnes: "Thank you very much, Mr. Speaker. I concur with the sponsor of this amendment. This amendment only clarifies language in the bill and as I see it in discussing it with the sponsor, will make the bill much stronger. I concur in the motion for moving the adoption of Amendment No. 2."

Speaker Redmond: "The question is in the adoption of Amendment No. 2 to House Bill 345. All in favor of the adoption of the Amendment indicate by saying aye. Opposed no. The Ayes have it and the amendment is adopted. Any further amendments? Third Reading. 367. Representative Hirschfeld."

Jack O'Brien: "House Bill 367. A Bill for an Act to amend an Act relating to alcoholic liquors. Second Reading of the Bill. One Committee Amendment. Amends House Bill 367 on page 3, line 19, by deleting the period and inserting in lieu thereof, a semicolon and so forth."

Speaker Redmond: "Representative Hirschfeld to explain the amendment."

Hirschfeld: "A...Mr. Speaker, Ladies and Gentlemen of the House, the amendment to House Bill 367 a...is incorrect, and I

believe that, if the Clerk would check, isn't there a Floor Amendment filed on this also? And I would move to reconsider the vote by which the amendment in the Committee was placed on the Bill."

Speaker Redmond: "What number is that, Committee what? The gentleman has moved to table Amendment #1 to House Bill 367. Any objections? The amendment..... Representative Williams?"

Williams: "I'd like to question, ah.. so this was offered in the Cities and Villiages Committee and it was put on there for a very definite reason, and I'd like to find out why it's being tabled now?"

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Ah.... that's a very fair question, but the ah... but the ah... if you'll remember, Representative, the amendment didn't go far enough in Committee and they ask me to add, to reinclude the law enforcement officers and so the new amendment that we'll propose today has everything in it that the amendment you wanted does, plus the addition re...."

Williams: "All right, thank you."

Speaker Redmond: "The question is on the motion to table the amendment. All in favor of tabling, indicate by saying 'aye' and opposed 'no'. The 'ayes' have it and the amendment is tabled. Are there any further amendments?"

Jack O'Brien: "Amendment #2, Hirschfeld. Amends House Bill 367 on page 3, line 19, by deleting the period and inserting in lieu thereof the semicolon and so forth."

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Thank you, Mr. Speaker and ladies and gentlemen of the House. The amendment that I'm now offering, Amendment #2, will preclude the sheriff, deputy sheriff, or policemen, or anyone who has the power to issue liquor licenses from engages in the manufacture, or sale, or disposition of alcoholic liquor. It was felt these should be added as an amendment to the Bill because if we're permitting these people to hold offices now, the ones that are being exempted in this amendment should not be included and I would move for the adoption of Amendment #2."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 2 to House Bill 367. All in favor indicate by saying aye; opposed, no; the ayes have it, the amendment is adopted. Any further amendments? Third Reading. 376."

Jack O'Brien: "House Bill 376. Stearney. A Bill for an Act to amend the Code of Criminal Procedure. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor?"

Jack O'Brien: "Amendment No. 1, Lundy..."

Speaker Redmond: "Representative Stearney."

Jack O'Brien: "Amendment No. 1, Lundy. Amends House Bill 376 by deleting line line 31 and 32, and inserting in lieu thereof the following: commits a Class 4 felony and in the contempt of court, subject to proceedings in accordance with law."

Speaker Redmond: "Representative Lundy."

Lundy: "Thank you Mr. Speaker, Ladies and Gentlemen of the House. Amendment No. 1 is not a Committee Amendment simply because that when House Bill 376 was considered by the Committee, it was so close to the 45-day limit, that it was not possible for the bill to be held in committee and amended there. However, Amendment No. 1 does reflect, I believe, the sentiment of the committee....a...that a... a person who breaks the confidence of the Grand Jury should be subject to two possible sanctions. The bill, as originally introduced, would have substituted the Class 4 felony sanction for the contempt sanction, the amendment simply permits both possible sanctions to be applied and I believe the amendment is acceptable to the sponsor."

Speaker Redmond: "Representative Stearney."

Stearney: "Mr. Speaker, as a sponsor, I concur in that amendment."

Speaker Redmond: "Any further discussion? Representative Hart."

Hart: "A..Representative Lundy, a...are you telling me that Judiciary II Committee, that a bill out of its committee with an amendment to be put on on Second Reading, rather than hold it there in accordance with their stated policy of as late as last night?"

Speaker Redmond: "Your point of order is not well taken."

Hart: "I'd like an answer to the question."

Speaker Redmond: "Well I don't think that's appropriate, I think we addressed ourselves to the adoption of the amendment and any comments other than that, I don't believe is in order. The question is on the adoption of Amendment No. 1 to House Bill 376. All in favor of the adoption indicate by saying aye, the opposed no, the ayes have it, the amendment is adopted. Any further amendments? Third Reading. House Bill 382."

Jack O'Brien: "House Bill 382. Hirschfeld. A Bill for an Act concerning disability of evidence in prosecutions relating to rape. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any Committee Amendments? Any Floor Amendments?"

Jack O'Brien: "Floor Amendment No. 1. Hirschfeld. Amends House Bill 382 on page 1, by deleting line 12 and inserting in lieu thereof the following and so forth."

Hirschfeld: "Well Mr. Speaker and Ladies and Gentlemen of the House, House Bill 382 was introduced one year ago and reintroduced this year before the Rape Study Commission came forth with its series of bills. Now I have supported the Rape Study Commission, I think it was a step in the right direction. I think they are excellent bills. House Bill 382 is a redaction of the California law, which is very similar to one of the bills that Representative Jaffe passed. However, a number of attorneys in the State of Illinois, have questioned the constitutionality of one of the Jaffe bills due to the fact that it absolutely prohibits any type of opinion evidence concerning the past sexual conduct of the victim. I frankly favor that concept, but I'm worried, also, about the constitutionality of that since the only defense that a defendant in a rape case has is either that he did not commit the crime or consent of the victim. This particular amendment to this bill, and I hope to pass this bill as an alternative to Representative Jaffe's bill, in case his bill would be declared unconstitu-

tional, I personally hope it will not, but this amendment will permit the defense attorney to go into the trial judges chambers, out of the hearing of the jury, and make an offer of proof as to any specific instances of the victim's past sexual conduct. The judge will then have the right to determine the relevancy of that testimony. If it is irrelevant, it will not be omitted. If it is relevant, it will be permitted, and I would move for the adoption of Amendment No. 1 to House Bill 382."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 382. All in favor indicate by saying aye; opposed, no, and the ayes have it and the amendment is adopted. Any further amendments? Third Reading. 396."

Jack O'Brien: "House Bill 396. Ms. Younge. A Bill for an Act to create the Illinois Depressed Area Land Use and Community Development Authority. Second Reading of the Bill. Three Committee Amendments. Amendment No. 1 amends House Bill 396 on page 25 by inserting between lines 32 and 33 the following: Section 15 and so forth."

Speaker Redmond: "Representative Younge."

Younge: "Mr. Speaker and members of the House. House Bill 396 would create the Illinois Depressed Areas Land Use and Redevelopment Authority, which would be a public developer to implement a...a...comprehen.....a..the Amendment No. 1 is a a..a.home rule rule amendment and I have no objections to it and I move its adoption."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 396. All in favor indicate by saying aye; opposed, no; the ayes have it. Any further amendments?"

Jack O'Brien: "Amendment No. 2. Amends House Bill 396 on page 26 by inserting below the last line the following: Section 16 and so forth."

Speaker Redmond: "Representative Younge."

Younge: "Mr. Speaker, this is a home rule amendment also, exactly like Amendment No. 1, and I move that it be tabled."

Speaker Redmond: "The Lady has moved to table Amendment No. 2, any objections? Amendment No. 2 is tabled. Any further amendments?"

Jack O'Brien: "Amendment No. 3. Amends House Bill 396 on page 1, line 34, by deleting H. and inserting in lieu thereof, the following and so forth."

Speaker Redmond: "Representative Younge."

Younge: "Amendment No. 3 is a...an amendment which I put on this bill...a...it is pages and pages of punctuation corrections and grammatical corrections. There is one a...part of it that would take out an \$11,000,000 bonding request and a... provide that the General Assembly shall receive the financial plan and then decide what the bonding level will be. I move its adoption."

Speaker Redmond: "Any discussion? The question is in the adoption of Amendment No. 3 to House Bill 396. All in favor indicate by saying aye; opposed, no; the ayes have it, and amendment is adopted. Any further amendments? No further amendments. Third Reading." House Bill 397. Representative Getty."

Jack O'Brien: "House Bill 397. Getty. A Bill for an Act to amend the Probate Act. Second Reading of the Bill. Two Committee Amendments. Is Representative Getty on the floor?"

Speaker Redmond: "Take it out of the record. House Bill 39..... check the signals. House Bill 405. Representative Bluthardt in the chambers? That, I understand, is supposed to be held. Is that correct, Mr. Tuerk? Representative Tuerk."

Tuerk: "Mr. Speaker and members of the House. In conference with my seat mate yesterday, he will be here at a later time this morning, but I asked him if he wanted me to handle it and if its your wish I'll proceed with that, Mr. Speaker. Actually what this amounts to is tabling of one amendment and adopting another Committee Amendment."

Speaker Redmond: "Representative Shea, for what purpose do you rise?"

Shea: "I have an amendment to the bill; its being drafted and I think Representative Bluthardt will accept it, but I'd

APR 18 1975

39.

rather have him hear it if its alright with you."

Tuerk: "That'll be fine. He should be here within a half an hour or so."

Speaker Redmond: "Take it out of the record. House Bill 465."

Jack O'Brien: "House Bill 465. Coffey. A Bill for an Act to amend the Election Code. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Representative Coffey on the floor. Yeh, Representative Coffey. Are there any amendments from the floor?"

Jack O'Brien: "Amendment No. 1. Shea. Amends House Bill 465 by deleting "have a population of 100,000" and inserting in lieu thereof and so forth."

Speaker Redmond: "Representative Shea on the amendment."

Shea: "Mr. Speaker, I, yesterday, put two amendments on the desk, and this morning, put the third amendment, and I'm wondering if the third amendment has been printed yet."

Speaker Redmond: "Evidently it has not."

Shea: "If nobody has an objection, what I'd like to do is table Amendments No. 1 and 2. Amendment No. 3 is identical to Amendment 2 except it says 30,000 instead of 20,000, and if I could proceed with that, then I would like to speak to the amendment."

Speaker Redmond: "Representative Schlickman."

Schlickman: "Well Mr. Speaker, if I had Amendment No. 2 on my desk, I think I'd go along with the Gentleman, but I don't even have that."

Shea: "The Clerk tells me that Amendments 1 and 2 were printed."

Schlickman: "I think you appreciate the difference between printing and distribution."

Shea: "Well, I, somebody's indicating that they got a copy of the amendments on their desk."

Schlickman: "Well, I don't."

Shea: "Mr. Williams, do you have a copy that you could give our good friend, there?"

Speaker Redmond: "Representative Schlickman's microphone please?"

Sclickman: "I now have a copy of Amendment No. 2 and I'm wondering if the Gentleman would re-explain Amendment No. 3."

Shea: "Amendment No. 3 is identical to Amendment No. 2 except that in line 2, where it says and inserting in lieu thereof 20,000 on Amendment No. 2; Amendment No. 3 will read 30,000. Mr. Schlickman, perhaps if I...do you have any objections? Then, with leave of the House, Mr. Speaker, I would move to table Amendments 1 and No. 2 and proceed with Amendment No. 3."

Speaker Redmond: "Does the Gentleman have leave? Amendments 1 and 2 are tabled. Amendment No. 3."

Jack O'Brien: "Amendment NO. 3. Shea. Amends House Bill 465 by deleting 100,000 and inserting in lieu thereof 30,000 and so forth."

Speaker Redmond: "Representative Shea."

Shea: "Mr. Speaker, Ladies and Gentlemen of the House, this bill, the purpose is to provide voting machines, or automatic voting devices in the counties throughout the State. At the present time the law is that automatic voting devices will be used in all counties of 40,000 and over. The purport of the Gentleman's bill is to raise that figure to 100,000. The purpose of my amendment is to reduce those...to reduce to 30,000 the population in which counties will be required to have automatic voting devices and to reaffirm our intentions that all counties of 40,000 or over will have automatic voting devices for the 1976 general election. And I would move for the adoption of the amendment."

Speaker Redmond: "Representative Kempiners."

Kempiners: "Maybe the sponsor of the bill would like to be recognized before I am, Mr. Speaker."

Speaker Redmond: "Representative Coffey."

Coffey: "Mr. Speaker, Ladies and Gentlemen of the House. I would like to rise in opposition of this amendment. I think its time that this legislature remembers where they came from in their district and that we...and that we stop

putting pressure on local government. Now we've went from 100,000 down to 40,000 on the population that must have voting machines. Now they a...they started out, they want all counties to have voting machines, now their back up to 30,000, and it'll only be a matter of a few months or a year or two, and they'll try to force every county in this State to have voting machines. Myself, I have some smaller counties in my district that cannot afford to have voting machines. And I think that we should leave it up to the local county boards. If they would like to have the voting machines, that their people and their constituents in those areas, would like the voting machines, if they can afford to buy these voting machines, then I think that it is up to them to make the changes and to buy these voting machines. But I don't think that the State legislature should force a...this on the county government. I think that the tax dollars that we are now spending and the way the economy is right now that we should allow these local governments to make some of their own decisions, and I've heard many of my colleagues here in this House upset when they see the federal government, the United States Congress, enforce laws on the State government. And I think its time that we recognize the same thing and that we quit forcing regulations on our county government."

Speaker Redmond: "The Gentleman from Adams, Representative McClain."

McClain: "Thank you Mr. Speaker. Question. Has this amendment been distributed? I don't have a copy of it."

Speaker Redmond: "Amendment No. 3 been distributed?"

McClain: "Representative Shea says he asked leave of the House for this amendment to be considered even though it had not been distributed. Is that to your recollection?"

Speaker Redmond: "Representative Shea."

Shea: "This Amendment No. 3 was identical to Amendment No. 2 except that in line 2, instead of reading 20,000, it reads 30,000. I tabled Amendments No. 1 and 2 and wanted to proceed with Amendment No. 3."

McClain: "May I ask a question of the sponsor of the amendment, then,

Mr. Speaker?"

Speaker Redmond: "Proceed."

McClain: "A...Representative Shea, could you inform me, is there any money available to help these smaller counties in paying for these voting machines?"

Shea: "The original law let them issue bonds to pay for it. If I could be...any way be assured, I'd put in the appropriation bill to let the State pay for it, but at the present time, the counties, themselves, must pay for it."

McClain: "Well, then I'd like to speak to the amendment if I may? Thank you, Mr. Speaker. I've received a lot of communications from the smaller counties..."

Speaker Redmond: "For what purpose does Representative Telcser rise?"

Telcser: "Mr. Speaker I understand that this amendment has not been distributed is that correct?"

Speaker Redmond: "There seems to be a difference of opinion."

Telcser: "Well, it has not been distributed on our side of the aisle."

Shea: "Mr. Telcser, Amendment No. 3 is the same as Amendment No. 2 except that it changes in line 2, 20,000 to 30,000."

Telcser: "I understand that, Representative, but if it hasn't been..."

Shea: "Mr. Schlickman...Mr. Schlickman raised the objection, I explained it. I thought we had leave of the House to proceed without it. I'd just as soon wait until the amendment is printed and on the desk."

Telcser: "Fine. Thank you."

Speaker Redmond: "I think that's a better procedure. So take this one out of the record. 470."

Jack O'Brien: "House Bill 470. A Bill for an Act to amend the School Code. Second Reading of the Bill. Two Committee Amendments. Amendment No. 1 amends House Bill 470 on page 1, line 20, by deleting primary and inserting in lieu thereof, general."

Speaker Redmond: "Representative Tuerk."

Tuerk: "Mr. Speaker and members of the House, House Bill 470 allows school districts to hold their elections the same time as municipal elections, and what this amendment does is change from the primary to the general election. Its a Committee Amendment and I would move for its adoption."

Speaker Redmond: "Any discussion? The Gentleman has moved the adoption of Committee Amendment No. 1 to House Bill 470. All in favor indicate by saying aye; opposed, no. The ayes have it; Committee Amendment No. 1 is adopted." Any further amendments?"

Jack O'Brien: "Amendment No. 2. Amends House Bill 470 on page 1, line 21, by striking election commission and inserting in lieu thereof, the following: 'county clerk for the board of election commissioners.'"

Speaker Redmond: "Representative Tuerk."

Tuerk: "Mr. Speaker, this Committee Amendment was just a house keeping amendment so that we clarify in the language of the bill the election authority involved. And I move for the adoption. Any discussion?"

Speaker Redmond: "The question is in the adoption of Amendment No. 2 to House Bill 470. All in favor of the adoption indicate by saying aye; opposed no; the ayes have it and the amendment is adopted. Any further Committee Amendments? Any amendments from the floor? Third Reading. 489."

Jack O'Brien: "House Bill 489. Kelly. A Bill for an Act relating to the right of teachers and other educational workers to unions. Second Reading of the Bill. No Committee Amendments. Amendments from the floor?"

Speaker Redmond: "Any amendments from the floor?"

Jack O'Brien: "Amendment No. 1. Geo-Karis. Amends House Bill 489 by adding on page 1, line 17, immediately after and so forth."

Speaker Redmond: "Representative Geo-Karis."

Geo-Karis: "Mr. Speaker, Ladies and Gentlemen of the House. This simply clarifies the bill. The bill has the right of collective bargaining and a....it also is not clear about strikes, so all this does, is nothing in this provision shall be

APR 18 1975

44.

interpreted as granting teachers and other employees the right to strike, which shall be expressly exempted from this Act. I move the adoption of this amendment."

Speaker Redmond: "Any discussion? Representative Kelly."

Kelly: "Mr. Speaker and members of the House. I object to Amendment No. 1 to House Bill 489. This would take away any right of teachers to strike. Now during the last session, there was a bill introduced by Representative Hanahan, and of course he's a co-sponsor with me on this bill, and I know he feels strongly, as I do, against this amendment adoption...adoption of this amendment. Now this amendment takes away many things it shouldn't. As far as I know, the school board, you know as well as I, there are school teachers who are striking and so forth, and I don't even think the school boards, in fact, in my district, that they'd even object to this. Their concern is with this binding arbitration and I think that this is a bad amendment and I certainly would urge my colleagues to defeat this amendment."

Speaker Redmond: "Any further discussion? Representative Geo-Karis."

Geo-Karis: "Mr. Speaker and Ladies and Gentlemen of the House, there has been a United States' Supreme Court decision; there have been two Illinois' Supreme Court decisions which specifically state that public employees do not have the inherent right to strike, the Constitutional right to strike because the health, safety, and welfare of the people. By my amendment, I am asking that there be compulsive arbitration and I'm asking that collective bargaining remain. We are in favor of collective bargaining. But since there has been decisions by the highest court in the land and our highest court of the State on the same subject, and when this bill was presented to the committee, they quietly eliminated mentioning anything about the fact that under this bill, the teachers do have the right to strike. They presented it as an innocuous bill only allowing

teachers to join unions so I submit they did not fully inform the committee. Therefore, Mr. Speaker and Ladies and Gentlemen of the House, all I'm doing is asking for compulsory arbitration and I'm asking that the collective bargaining remain, but the teachers being public, professional people, not be given the right to strike in view of the fact they do effect the inherent safety, health and welfare of the people. When the children are on the streets, the teachers have no pay under strike, but under compulsory arbitration, they will be getting paid, the children will be getting their education, and the parents will not be mad at the teachers. So I feel it is a good amendment for the sake of the teachers and I urge, respectfully.....and I urge the adoption of the amendment for the sake of the teachers and of the people of the State of Illinois."

Speaker Redmond: "The question is on the adoption of Amendment No. 1. All in favor indicate by saying aye. Opposed, no. The Chair is unable to decide. All in favor vote aye, and opposed vote no. Have all voted who wished? Take the record. On this question there are 15 ayes, 95 noes, the amendment is lost. I don't understand where there were so many loud voices out of 15 people. Is Amendment No. 2 identical with Amendment No. 1. It appears that...Representative Geo-Karis."

Geo-Karis: "Mr. Speaker and Ladies and Gentlemen of the House, Amendment No. 2, it just cleared up the language because it indicated which activities that the teachers and other public officials are not allowed to do because in the bill it allows all activities permitted by in the union. And of course, again, it accepts the right of strike. And it does provide for compulsory arbitration. I respectfully urge the vote in favor of this amendment."

Speaker Redmond: "The question is on the adoption of the amendment. Those in favor of adopting Amendment No. 2 to House Bill 4.... Representative Kelly."

Kelly: "Mr. Speaker and Members of the House, Amendment No. 2

is just as bad as Amendment No. 1. And I certainly would ask for a similar vote on this in voting down this Amendment. It doesn't offer any more than Amendment No. 1 and I'd ask for you joining me in voting no on this amendment."

Speaker Redmond: "The question is on the adoption of Amendment No. 2 to House Bill 489. Those in favor of the adoption vote aye; those opposed vote no. Roll call vote. Have all voted who wished? Take the record. On this question there are 17 ayes, 89 noes, the amendment is lost. Any further amendments?"

Jack O'Brien: "No."

Speaker Redmond: "Third Reading. 495."

Jack O'Brien: "House Bill 495. A Bill for an Act to amend the School Code. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor?"

Jack O'Brien: "Amendment No. 1. Skinner. Amends House Bill 495 on page 1, line 2, in the title, by changing the period to a comma and adding and so forth."

Speaker Redmond: "Is Representative Peters on the floor? Representative Skinner for the amendment."

Skinner: "The explanation is here some place. Here it is."

Speaker Redmond: "Representative Skinner."

Skinner: "Yes, Mr. Speaker, this adds community college boards to a...Representative Peters' bill. It now only effects high school boards and I see no difference between the two."

Speaker Redmond: "I've been advised by the sponsor, he has no objection to this amendment. Any further discussion? The question is on the adoption of Amendment No. 1 to House Bill 495. All in favor of the adoption indicate by saying aye. Opposed, no. The ayes have it, the amendment is adopted. Any further amendments? Third Reading. We'll return to House Bill 165, the one where we had evidently lost an amendment. Representative Friedrich's."

Friedrich: "This amendment was actually adopted in committee, but for some reason in the shuffle of papers, it didn't

get over here. I have talked to Chairman Taylor of that committee, who's willing to verify that and Representative Epton, who is the minority spokesman, he'll also verify it, and the Chairman of the subcommittee, Representative Williams. It just is a self-repealer on the bill. It just says that it opens up for two years and is then repealed. And I would urge the adoption of the amendment."

Speaker Redmond: "Representative Schlickman."

Schlickman: "Could the sponsor read the amendment, I don't have a copy of it."

Friedrich: "Yes, I'm sorry, the reason, as I explained to you, I thought the bill, that it was there, it says on page 1, line 13, by inserting after the word "inhabitants" the following: in the case of a petition filed before July 1, 1977, and at least 400 inhab....and at least 400 inhabitants in the case of the petition on or after July 1, 1977, so after July 1, 1977, it reverts to its present form. It opens it up for two years."

Schlickman: "This bill provides that the minimum number of people who can incorporate into a village shall be reduced from 400 to 250. If this is such a good idea, why are we applying the reduction for a limited period of time, is there a particular area within your district wherein it would apply?"

Friedrich: "There are two or three communities around the State which have this problem. The particular community in my area which has the problem, is the community of Damensville. Its getting one of the new modern mines which will employ 600 people; it has also become the opening or the access of an interstate. The population is going to expand unbelievably within the next two years and they need to incorporate now in order to get prepared for this. Frankly, that's the thing. Its a very active community, its doing a good job, now, but they do need to incorporate."

Schlickman: "Thank you."

Speaker Redmond: "Any further discussion?"

Friedrich: "I move the adoption of the amendment."

Speaker Redmond: "The question is on the adoption of Amendment No. 2 to House Bill 165. Those in favor indicate by saying aye; opposed, no, the amendment is adopted. 522."

Jack O'Brien: "House Bill 522. A Bill for an Act to amend sections of the School Code. Second Reading of the Bill. One Committee Amendment."

Speaker Redmond: "Read the amendment."

Jack O'Brien: "Amend House Bill 522 on page 2, line 15, by changing 15 to 13."

Friedrich: "Mr. Speaker and members of the House, this was a clerical error in drafting and it was caught before it was brought to committee and I introduced the amendment, it was adopted in committee so it would be uniform throughout the bill."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 522. All in favor indicate by saying aye. Opposed no, the ayes have it and the amendment is adopted. Third Reading.

House Bill 405. Representative Tuerk. Chambers? Yeh. 405."

Jack O'Brien: "House Bill 405. Bluthardt. A Bill for an Act to provide compensation for certain judges of election. Section Reading of the Bill. Committee Amendment No. 1 was evidently defeated in committee. Committee Amendment No. 2 amends House Bill 405 on page 1, line 18, by striking shall and inserting in lieu thereof, may, and so forth."

Speaker Redmond: "Representative Tuerk."

Tuerk: "Now, that's Committee Amendment No. 2, is that correct Mr. Clerk? Well, I would move to table Committee Amendment No. 2, so that we can then move to adopt Committee Amendment No. 3."

Speaker Redmond: "Leave? Any objection to tabling Amendment No. 2? The amendment is tabled. Any further amendments?"

Jack O'Brien: "Floor amendment No. 3. Bluthardt. Amends House Bill 405 on page 1, line 8, by striking and in the same manner and so forth."

Tuerk: "Well as I understand this, Mr. Speaker, this is a Committee Amendment, and it makes the bill permissive and

deals with the referendum provisions of the bill and it was apparently drafted by one of the Democratic staff members and Mr. Bluthardt's in agreement and I move for the adoption."

Speaker Redmond: "Any discussion? The question is on the Amendment No. 3 to House Bill 405. All those in favor indicate by saying aye. Opposed, no. The ayes have it and the amendment is adopted. Any further amendments? Third Reading. 525. Representative Mugalian in the chamber?"

Jack O'Brien: "House Bill 525. Mugalian."

Speaker Redmond: "Take that out of the record, I don't see him. Oh, okay."

Jack O'Brien: "A Bill for an Act to amend Section 50 of the Civil Practice Act approved June 23, 1933, as amended. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Any floor amendments? Third Reading. 537."

Jack O'Brien: "House Bill 537. Kempiners. A Bill for an Act to amend the Grain Dealers Licensing Act. Second Reading of the Bill. One Committee Amendment. Amends House Bill 537 on page 1 by deleting lines 29 through 34, and inserting in lieu thereof the following and so forth."

Speaker Redmond: "Representative Kempiners."

Kempiners: "Thank you Mr. Speaker. This is an amendment which was offered to me by the Illinois Department of Agriculture. It is acceptable to me, it is acceptable to the committee, and it was acceptable to the Illinois Agricultural Association. It does change the bill somewhat, but it still accomplishes my purpose, and I would move its adoption."

Speaker Redmond: "Any discussion? The Gentleman has moved the adoption of Amendment No. 1 to House Bill 537. All in favor indicate by saying aye; opposed, no, the amendment is adopted. Any further amendments? Any further amendments? No further amendments, I understand."

Third Reading. 566."

Jack O'Brien: "House Bill 566. Hirschfeld. A Bill for an Act in relation to economic impact statements. Second Reading of the Bill. One Committee Amendment. Amends House Bill 566 on page 3 by deleting lines 31, 32, and inserting in lieu thereof the following, and so forth."

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Thank you Mr. Speaker and Ladies and Gentlemen of the House. Amendment No. 1 to House Bill 566 was a ...put on at the recommendation of the a...Chairman and minority spokesman on the Executive Committee to permit both sides of the aisle to request these impact statements and to require that they be furnished in 20 days in order that we did not violate the 45 day rule of the House and I would move for the adoption of Amendment No. 1."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 566. All in favor of the adoption indicate by saying aye; opposed, no; the amendment is adopted. Any further amendments? No further amendments. Third Reading. 580. Is Representative Hoffman in the chambers?"

Jack O'Brien: "House Bill 580. Ron Hoffman. A Bill for an Act to amend the Illinois Insurance Code. Second Reading of the Bill. Two Committee Amendments. Amendment No. 1."

Hoffman: "Mr. Speaker, prior to the Clerk reading that, under agreement with some of the people who have participated me, I'd like to hold this bill."

Speaker Redmond: "Okay, take that one out of the record. For what purpose does Representative Washburn arise?"

Washburn: "Thank you Mr. Speaker and Ladies and Gentlemen of the House, I wish I could have the attention of the House and the pages if I might."

Speaker Redmond: "This is a very very very important announcement, would you please give the Gentleman order?"

Washburn: "I've discussed this matter with the Speaker and I

think we should have the attention of all the members and the pages, particularly. Last night, sometime between the hours of 7 and 10, a bill book similar to the ones we all have on our desks, was removed from Representative McCourt's desk. It was jointly used by Representative McCourt and Representative Ebbesen. A...they kept it in good order, they had their own individual method of marking the bills, their own unique procedure, so the bill book can be easily identified. I certainly don't want to cast a finger of suspicion on any one. Particularly, any legislator, but its very possible that this book was removed to someone's desk by someone else, who's book wasn't properly kept. And I would suggest, Mr. Speaker, that the bill book be returned to Representative McCourt's desk tonight just as mysteriously as it was removed last night. And if it isn't there in the morning, the Speaker and I will do our very best to find out what did happen to it and take proper action against the person responsible. Do I have your support on that, Mr. Speaker?"

Speaker Redmond: "You have my support."

Schlickman: "Here it is. Here it is."

Speaker Redmond: "Mr. Schlickman had it."

Washburn: "Mr. Speaker, but I do think that this is a very serious matter and we cannot permit it to happen again and we want this book returned tonight."

Speaker Redmond: "House Bill 598."

Jack O'Brien: "House Bill 598. Gene Hoffman. A Bill for an Act to amend the Mental Health Code. Second Reading of the Bill."

Speaker Redmond: "Take it out of the record. 600. Representative Grotberg."

Jack O'Brien: "House Bill 600. Grotberg. A Bill for an Act to amend the Illinois Municipal Code. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor?"

Jack O'Brien: "Amendment No. 1. Grotberg. Amends House Bill 600 on page 1, line 22, by striking the word "twice" and inserting in lieu thereof "once" and so forth."

Speaker Redmond: "Representative Grotberg."

Grotberg: "Thank you Mr. Speaker, Ladies and Gentlemen of the House, the thrust of 600 has to do with the amendment. The thrust is a publication bill for zoning notices for municipalities and a... instead of ...a....publishing twice which is in the original bill, as drafted, we are reducing it back to once, as it is currently in the statute. This is zoning notice in municipality reducing the publication notice to once as it is in the original... as is currently in the statutes, and deleting twice, and I would move for its adoption."

Speaker Redmond: "Any discussion? The Gentleman has moved the adoption of Amendment No. 1 to House Bill 600. All in favor indicate by saying aye; opposed, no, the ayes have it and the amendment is adopted. Any further amendments?"

Jack O'Brien: Amendment No. 2. Taylor. Amends House Bill 600 on page 1, line 1, by striking 11, 13, 5, and inserting 11, 13, 6, and so forth."

Speaker Redmond: "Representative Taylor."

Taylor: "Mr. Speaker and Ladies and Gentlemen of the House, Amendment No. 2 simply deletes Chicago from the bill because we feel that Chicago has the better publishing ordinance than is required for in this particular bill. I solicit your support for Amendment No. 2 to House Bill 600."

Speaker Redmond: "Representative Grotberg."

Grotberg: "Thank you Mr. Speaker. This Amendment is effectively the home rule amendment, as Mr. Taylor suggests. It removes Section 11-13-6 from the bill, which has to do with the cities with population of 500 or more. The issue at stake in my resisting this amendment, Mr. Speaker, and Ladies and Gentlemen of the House, is in the statutory area that on the books, now, as of two years ago, is our legislative statute that says that any laws having to do with publication notices, that home rule units and non-home rule units are equal and, therefore, Mr. Taylor's amendment is illegal, to say the least,

may I read this too, this is an important bill, Ladies and Gentlemen of the House, because there is a philosophical and a legal issue at stake. In Chapter 100 on publication, Section 8.2, Home Rule Units Laws Applicable, paragraph 10. And here's what it says. Laws which require notice to be published or posted by a municipality or a county, or an officer of a municipality or a county, shall apply to municipalities and counties which are home rule units as well as municipalities and counties which are not home rule units. Any home rule unit may enact an ordinance prescribing more stringent requirements binding upon itself, which would serve to give further notice to the public, but they may not diminish the existing statute. And for that purpose, Mr. Chairman, I would move to table, do not adopt, Amendment No. 2, as offered by Mr. Taylor."

Speaker Redmond: "Representative Hirschfeld, do you desire recognition?"

Hirschfeld: "Well, Mr. Speaker and Ladies and Gentlemen of the House, I rise in opposition to this Amendment for the same reasons given by Representative Grotberg, due to the fact the amendment proposed by the distinguished Gentleman from Cook, is illegal on its face and would subvert the current statute that we've got, which effect publication, both home rule and non-home rule units. And I'd like to remind the members of this House, that the issue we are fighting on this amendment is the same issue we fought for 15 straight hours on this House, when we dealt with the pre-emption bill. And the distinguished Majority Leader, he was Assistant Minority Leader at that time, with great specificity tried to put amendment after amendment on the pre-emption bill, and one of those amendments was, of course, the home rule amendment. This amendment is a very bad amendment. Its worse than the ones that the distinguished Majority Leader tried to put on last year, because this one flies in the face of current statutes. And I would respectfully request that we give this amendment a no vote and preserve the statutes as they now exist, just as we gave the

amendments of the distinguished Majority Leader a no vote last year. There is no reason whatsoever either legally or otherwise for Cook County to have a home rule exemption on this particular bill and I would request a no vote on the amendment."

Speaker Redmond: "Representative Shea."

Shea: "Mr. Speaker, Ladies and Gentlemen of the House, would the sponsor of the bill yield for a question?"

Speaker Redmond: "He indicates he will."

Shea: "As I understand it, your bill deals with a specific requirement that if a zoning, a county, an application for a county zoning, is made, that it be published in the township in which the zoning takes place."

Grotberg: "That is technically correct and if there is no paper in the township then it escalates to the paper of general circulation in the county, or in the municipality."

Shea: "At the present time, most notices in Cook County are published in papers of general circulation throughout the county."

Grotberg: "Mr. Shea, could I interrupt just a second. We are on 600, which is municipalities, if we keep our vernacular within municipalities, I'll think we'll be....there is a similar bill, 601, which has to do with counties, so for clarification purposes, for the members of the House, let's then go ahead and debate the municipal bill in that language."

Shea: "Alright, I read the wrong part of it."

Grotberg: "Yeh, but there are no townships...."

Shea: "It...it...it goes to the same thing a..."

Grotberg: "Right."

Shea: "If a municipal ordinance, let's say in a town such as McCook, they have a paper, its a give-away paper there, called the Times Publication."

Grotberg: "Does it qualify for notices on a circulation basis?"

Shea: "I believe it does, yes. Alright, now, you'd be mandating the town to put it in that paper rather than a paper of general circulation throughout the county."

Grotberg: "I would prefer a better example than a give-away

paper under the Publication's Act, Representative Shea, if they do qualify, but go ahead. Let's take a neighborhood newspaper."

Shea: "You know, that's the problem that we run into with the bill. I'm wondering if you might take these out of the record so we could talk about them, John."

Grotberg: "I will always accede to such a request from you, the distinguished Minority Leader, and for the information of the House, these bills are....Majority Leader, I'm sorry."

Shea: "Thank you, John."

Grotberg: "Representative Shea, but these bills are under discussion by Mr. Shea and myself and the interested power structures that prevail in these areas and I'd be delighted to continue the dialog until we find out, but the ...the a...it'll be the same thing on 601, Ladies and Gentlemen, so whenever it comes up, I think we should all be listening, and I would hope that the press is listening because some of its in their gut. Thank you."

Shea: "Thank you, John."

Grotberg: "Take it out of the record."

Speaker Redmond: "Take it out of the record. 624."

Jack O'Brien: "House Bill 624. A Bill for an Act to amend an act in relation to State Police. Second Reading of the Bill. One Committee Amendment.. Amends House Bill 624 on page 1, by deleting lines 18 through 28 and inserting in lieu thereof the following and so forth."

Speaker Redmond: "Representative Hanahan."

Hanahan: "Mr. Speaker and Members of the House, this amendment was agreed upon by the administration and the State Police Trooper Lodge that were representing this and I move for the adoption of this amendment."

Speaker Redmond: "Any discussion? The Gentleman has moved the adoption of Amendment No. 1 to House Bill 624. All in favor indicate by saying aye; opposed, no; the ayes have it and the amendment is adopted. Any further amendments? Third Reading. 628."

Jack O'Brien: "House Bill 628. Walsh. A Bill for an Act to

amend the School Code. Second Reading of the Bill. One Committee Amendment. Amends House Bill 628 on page 1, by deleting held in line 8, all of line 9, and district in line 10, and so forth."

Speaker Redmond: "Representative Walsh on the amendment."

Walsh: "Mr. Speaker and Ladies and Gentlemen of the House, Committee Amendment No. 1 changes the procedure for referendum by including all of the effected area, instead of as the bill called for, having two referenda for the purpose of annexation and I move the adoption of Committee Amendment No. 1."

Speaker Redmond: "Any discussion? The Gentleman has moved the adoption of Amendment No. 1 to House Bill 628. All in favor indicate by saying aye. Opposed no, the ayes have it and the amendment is adopted. Any further amendments? Third Reading. 644."

Jack O'Brien: "House Bill 644. Griesheimer. A Bill for an Act to amend the Illinois Public Aid Code. Second Reading of the Bill. No Committee Amendments?"

Speaker Redmond: "Any amendments from the floor? Third Reading. 648."

Jack O'Brien: "House Bill 648. Yourell. A Bill for an Act to amend an Act relating to township purchasing. Second Reading of the Bill. One Committee Amendment. Amends House Bill 648 on page 1, line 11, by deleting \$500 and inserting in lieu thereof, \$1500."

Speaker Redmond: "Representative Yourell on the amendment."

Yourell: "Mr. Speaker and Ladies and Gentlemen of the House, Committee Amendment No. 1 a...a...moves the Purchasing Act from what we....I tried to make it down to \$500 from \$2500, and the committee adopted Amendment No. 1 to raise it back up \$1000, at \$1500, I move the adoption of Committee Amendment No. 1."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 648. All in favor of the adoption indicate by saying aye; opposed, no; the ayes have it and the amendment is adopted. Any further

amendments?"

Jack O'Brien: "Floor Amendment No. 2. Yourell. Amends House Bill 648 in line 11, by inserting new immediately before equipment."

Speaker Redmond: "Representative Yourell."

Yourell: "At the request of Troy township officials, he indicated that they would rather have the word "new" a..a...placed immediately before equipment so that a...they could purchase new equipment as well as used equipment, and I move the adoption of Committee...er a Floor Amendment No. 2."

Speaker Redmond: "Any discussion? The question is on.... Representative Schlickman."

Schlickman: "Would the sponsor yield?"

Speaker Redmond: "He indicates he will."

Schlickman: "May I suggest that by the insertion of the word "new" that you would be allowing used equipment, whatever the cost, without competitive bidding."

Yourell: "I didn't hear it Gene, the last part of it."

Schlickman: "I'm just suggesting that by the qualifying word "new" you would be allowing a township to buy any equipment, any used equipment, without competitive bidding regardless of the cost."

Yourell: "You're right."

Schlickman: "In other words, you would be totally exempting used equipment from the necessity of competitive bidding, regardless of cost."

Yourell: "I think you are right, let's take it out of the record."

Speaker Redmond: "Take it out of the record. 650."

Jack O'Brien: "House Bill 650. A Bill for an Act in relation to strike breakers. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Any amendments from the floor? Third Reading. We will now return to 648."

Jack O'Brien: "Its been read."

Speaker Redmond: "Representative Yourell."

Yourell: "Yes, Mr. Speaker, I completely agree with the objections

raised relative to Floor Amendment No. 2 to House Bill 648 and I move to table Amendment No. 2."

Speaker Redmond: "Any objection? Amendment No. 2 is tabled. Are there any further amendments? Third Reading. 651."

Jack O'Brien: "House Bill 651. Caldwell. A Bill for an Act to amend Sections of the Municipal Code. Second Reading of the Bill. One Committee Amendment. Amends House Bill 651 on page 2, line 34, by deleting 30 days or less, and inserting in lieu thereof, more than 5 days."

Speaker Redmond: "Representative Collins....Mr. Shea, for what reason do you rise....Mr. Schraeder, I mean."

Schraeder: "Mr. Speaker, I wonder if the sponsor would tell us a little bit about the bill, because the digest doesn't have it listed."

Speaker Redmond: "Representative Caldwell."

Caldwell: "A...Mr. Speaker and Ladies and Gentlemen of the House, this is an amendment....651, Mr. Speaker, and Ladies and Gentlemen of the House, amends the Illinois Municipal Code. It affords an opportunity for a hearing to policemen suspended without pay for 30 days or less in cities with population of more than 500,000. It prevents...it provides machinery and procedure rights for such hearing. It amends the provisions relating to the Boards of Fire and Police Commission to delete the Board's power to discharge or increase suspension on a P. O. from suspension by the Chief. The amendment sets forth the machinery and procedure rights for the hearing, heretofore not clearly articulated, makes provision for the discrimination of police board rules governing procedures. This is a simple amendment. The amendment stipulates that the hearing must be five days or more, not under five days. I move its adoption."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 651. All in favor of the adoption indicate by saying aye. The opposed no, the ayes have it, and the amendment is adopted. Any further amendments? No further amendments?"

Third Reading. 665."

Jack O'Brien: "House Bill 665. Hart."

Speaker Redmond: "Is Representative Hart in the chambers?"

Take it out of the record. 668. Representative Deavers  
in the chamber?"

Jack O'Brien: "House Bill 668. Deavers."

Speaker Redmond: "I don't see Representative Deavers. Take  
that one out of the record. 681. Representative Ewell."

Jack O'Brien: "House Bill 681."

Speaker Redmond: "Take that one out of the record. Okay, in  
the record."

Jack O'Brien: "Ewell. A Bill for an Act to amend the vital  
records Act. Second Reading of the Bill. No Committee  
Amendments."

Speaker Redmond: "Any amendments from the floor? Third  
Reading. 696."

Jack O'Brien: "House Bill 696. Dyer."

Speaker Redmond: "Representative Dyer? Take it out of the  
record. 705."

Jack O'Brien: "House Bill 705."

Speaker Redmond: "Representative Reed. Proceed."

Jack O'Brien: "Reed. A Bill for an Act to amend the Illinois  
Public Library District Act. Second Reading of the Bill.  
One Committee Amendment. Amends House Bill 705 on page 1,  
by inserting after line 19, but before line 20, the following,  
and so forth."

Speaker Redmond: "Representative Reed."

Reed: "Amendment No. 1 to House Bill 705 provides for a referendum  
by the votes of the district library to enable them to  
finance the replacement or the rebuilding of a library  
destroyed by a flood or fire or some other catastrophe. I  
move for the adoption, Mr. Speaker."

Speaker Redmond: "Is there any discussion? Representative  
Schlickman."

Schlickman: "Only to suggest, Mr. Speaker, that perhaps, since  
this is not a new Act, that the language that is added  
by the amendment be underscored."

Reed: "Gene, I didn't understand you."

Speaker Redmond: "Would you repeat your comments, I..."

Schlickman: "Well my only comments Mr. Speaker, is that since we are not talking about a new Act, and by the amendment, are adding language that this new language provided for in the amendment be underscored."

Reed: "Fine."

Speaker Redmond: "Representative Reed?"

Reed: "I think that's fine. Where do I go from here?"

Speaker Redmond: "I've been advised by the Clerk that we can handle the underscoring in enrolling and engrossing."

Schlickman: "Transcribe it, yeh."

Speaker Redmond: "The question is on the adoption of Amendment No. 1 to House Bill 705. All in favor indicate by saying aye; opposed no; the ayes have it; the amendment is adopted. Any further amendments? Third Reading. We would return that to the order of Second Reading and maybe Representative Reed would discuss that with Dave Epstein. We'll just hold it on Second. 736. Representative Stubblefield."

Jack O'Brien: "House Bill 736. Stubblefield. A Bill for an Act to amend the Nursing Homes Shelter Care Home and Home of the Aged Act. Second Reading of the Bill. One Committee Amendment. Amends House Bill 736 on page 2, line 4, after the word ordinance and so forth."

Speaker Redmond: "Representative Stubblefield."

Stubblefield: "This amendment was offered by myself as chief sponsor and approved by the committee. Very simply, what this does is make the Act applicable to successors who would later buy the business and required them, as well as the owner at the time of the application, to file the report, provide the information to the Department, so that there could be an effective administration of the Act."

Speaker Redmond: "Further discussion? The Gentleman has moved the adoption of Amendment No. 1 to House Bill 736. All in favor of the adoption indicate by saying aye. Opposed, no; the ayes have it and the amendment is adopted. Any

further amendments? Third Reading. 742."

Jack O'Brien: "House Bill 742. Flinn. A Bill for an Act to amend the Civil Administrative Code of Illinois. Second Reading of the Bill. One Committee Amendment. Amends House Bill 742 on page 1 by deleting lines 9 through 23 and inserting in lieu thereof the following, and so forth."

Speaker Redmond: "Representative Flinn."

Flinn: "Thank you Mr. Speaker. Mr. Speaker, Amendment No. 1 is a Committee Amendment and was offered by myself, as a member of the committee, to clarify the language of the bill. All it does is clear up what we really mean in the bill. I move for its adoption."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 742. All those in favor of the adoption indicate by saying aye. The opposed, no. The ayes have it and the amendment is adopted. Any further amendments? Third Reading. 754. Representative Tuerk."

Jack O'Brien: "House Bill 754. Tuerk. A Bill for an Act to amend an Act in relation to county zoning. Second Reading of the Bill. One Committee Amendment. Amends House Bill 754 on page 2 immediately after line 2 by adding the following and so forth."

Speaker Redmond: "Representative Tuerk."

Tuerk: "Mr. Speaker and members of the House, this is a Committee Amendment, it was requested by a....Cook County to exempt the home rule amendment is what it is and I would move for its adoption."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 754. All in favor indicate by saying aye. Opposed, no. The ayes have it and the amendment is adopted. Any further amendments? No further amendments. Third Reading. 776."

Jack O'Brien: "House Bill 776. A Bill for an Act to amend an Act to provide into law in relation to divorce. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading.

Speaker Redmond: "At this point, the Chair recognizes Representative Barnes for a most important announcement. Please give close attention."

Barnes: "I request permission to have House Bill 2554 tabled."

Speaker Redmond: "Any objections? Leave is granted. 776."

Representative Fleck. 778, Representative Schisler. 778."

Fredric B. Selcke: "House Bill 778. A Bill for an Act to amend the Vehicle Code. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading. 779."

Fredric B. Selcke: "House Bill 779. A Bill for an Act to amend the Vital Records Act. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor?"

Fredric B. Selcke: "Amendment #1, Willer. Amend House Bill 779 on page 1, line 23 by inserting immediately after the word 'hospital' the following and so forth."

Speaker Redmond: "Representative Willer."

Willer: "Mr. Speaker, I added this amendment as a suggestion of members of the Executive Committee to ah.. exclude home rule counties. I move it's adoption."

Speaker Redmond: "Any discussion? The lady has moved the adoption of Amendment #1 to House Bill 779. All in favor indicate by saying 'aye' and the opposed 'no' and the 'ayes' have it and the amendment is adopted. Any further amendments? Third Reading. 787."

Fredric B. Selcke: "House Bill 787. A Bill for an Act to amend an Act authorizing townships to require and maintain land for park purposes. Second Reading of the Bill. Two Committee Amendments. Amendment #1, ..... the Sponsor? The Sponsor is Dyer. Amendment #1, ah..."

Speaker Redmond: "Take it out of the record. She is not on the floor. 837. Representative McGrew. 838, pardon me."

Fredric B. Selcke: "House Bill 838. A Bill for an Act to amend the Election Code. Second Reading of the Bill. One

APR 18 1975

63.

Committee Amendment. Amend House Bill 838 on page 1, line 9 and so forth."

Speaker Redmond: "Representative McGrew."

McGrew: "Thank you very much, Mr. Speaker. Ladies and gentlemen of the House, this is a Committee Amendment that merely ah... provides that those things that are under \$500 would not have to be bid competitively and I move for its adoption."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment #1 to House Bill 838. All in favor indicate by saying 'aye'. All opposed 'no'. The 'ayes' have it and the amendment is adopted. Any further amendments? Third Reading." 874."

Fredric B. Selcke: "House Bill 874. A Bill for an Act to amend an Act requiring employers under certain circumstances to except cash from their employees in lieu of payroll deduction for payments to medical service plans and so forth. Second Reading of the Bill. One Committee Amendment. Amend House Bill 874 on page 1, line 18 and so forth."

Speaker Redmond: "Representative Bradley."

Bradley: "Thank you Mr. Speaker and ladies and gentlemen of the House, ah... Committee Amendment #1 to House Bill 874 provides some clarifying language. We've broadened the coverage in the ah... medical service area and also ah... took care of the problem of the ah... employee who is not contributing to the ah.. hospitalization plan, but that the employer is paying all the benefits. We just took care of that so that there would be no question about who would be paying it. I move for the adoption of Committee Amendment #1 to House Bill 874."

Speaker Redmond: "Any discussion? The question is on the adoption of Committee Amendmnet #1 to House Bill 874. All in favor indicate by saying 'aye'. All opposed, 'no'. The 'ayes' have it and the amendment is adopted. Any further amendments? Third Reading. 893."

Fredric B. Selcke: "House Bill 893. A Bill for an Act to amend the Illinois Purchasing Act. Second Reading of the Bill. One Committee Amendment. Amendment #1, amend House Bill

893 on page 6 by deleting line 3 and so forth."

Speaker Redmond: "Representative McGrew."

McGrew: "Thank you very much, Mr. Speaker. Again another fine Committee Amendment and I move for its adoption."

Speaker Redmond: "Discussion? The gentleman has moved the adoption of Amendment #1 to House Bill 893. All in favor indicate by saying 'aye', all opposed 'no'. The 'ayes' have it and the amendment is adopted. Any further amendments? Third Reading. 901."

Fredric B. Selcke: "House Bill 901. A Bill for an Act to amend Section 8 1/2 of an Act in relation to state finance. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading. House Bill 936."

Fredric B. Selcke: "House Bill 936. A Bill for an Act to amend the School Code. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Representative Griesheimer." "936. Any amendments from the floor? No amendments from the floor. Third Reading. Is Representative Calvo on the floor? Representative Lucco, for what purpose do you rise?"

Lucco: "Mr. Speaker, Members of the House, I rise to make a motion in regards to Senate Bill 540. Ask that it be placed on Second Reading, Second Legislative Day, without reference, please."

Speaker Redmond: "Representative Calvo."

Calvo: "Mr. Speaker and ladies and gentlemen of the House, I was just recognized for the same purpose, but that's fine. I was going to make the same motion. We made this motion yesterday, Mr. Speaker and the ah... Bill was not on the desks. It was delivered to every desk yesterday afternoon and ah... I would appreciate the 107 votes to suspend the rules and place this Bill on Second Reading without reference to Committee, Second Legislative Day. The reason ah... the only thing this Bill does is amend the ah.. Convention Center Act by making it effective ah... you know, shortly instead of the original effective

APR 18 1975

65.

date, in order that the cities getting ready to construct convention centers can proceed immediately."

Speaker Redmond: "I understand that this was left off the Calendar in error, is that correct?"

Calvo: "That's correct, Mr. Speaker. We did request the Clerk that it be on the Calendar today. It was ah... a written motion was filed yesterday, however by inadvertence, it does not appear on the Calendar."

Walsh: "Mr. Speaker, I was going to raise that point. It is not on the Calendar and therefore I do not see how we can consider it. I of course, am opposed to it and would be opposed to ah... either saying that it was left off the Calendar by inadvertence ah... if we are going to consider it ah... I think we would have to have a Supplemental Calendar and I hardly think that it is worth that trouble."

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Mr. Speaker, I wanted to raise another point of order ah... it's my understanding that we can't move from Second Reading to Senate Bills, without leave of the House and to the best of my knowledge leave was not granted to move to Senate Bills and ah... I would like to raise that point of order also."

Speaker Redmond: "Representative Tuerk."

Tuerk: "Well, Mr. Speaker and Members of the House, we've debated this issue for the last two days now and we can keep bringing up all kinds of inquiries and so forth, but the fact that it isn't on the Calendar is apparently an error of the Clerk's Office, unfortunately. We've gone through all the motions here properly to get this on ah... for the recognition of the Membership and as Representative Calvo rightfully described this, really all this does is move the effective date of this Public Act up to a sooner effective date and that's all it does and there is no reason to send this to Committee and go through alot of debate and take alot of time of the House Members and we could move this on to Second Reading and move in an orderly

fashion for the benefit of those areas that are ready to go ahead with their civic center project. Now I understand Representative Walsh's objections. He has an objection to the whole concept, but that isn't the issue at hand here. The issue is whether or not we're going to put barriers in the front of the communities that are ready to move on this important ah.... step and therefore I think his objections are more toward the concept, rather than whether we move this to Second Reading without reference. I've talked to the leadership on our side of the aisle. They have given their approval, with the exception, as I understand it ah... Representative Walsh, and I think it has the approval of both leaderships ah.... 90% of the leaderships of both sides at any rate."

Speaker Redmond: "Representative Mudd."

Mudd: "Yes, Mr. Speaker, I rise to support this action and I think it is a very necessary step. Those that ah.. oppose the general concept of the legislation ah.... I might suggest to them, if they are interested in the taxpayers, ah... by delaying this particular action at this time would only cause an increase in expenditures in this area and I would hope that they would realize this and balance that with their objections and give us a favorable consideration in this matter. Thank you."

Speaker Redmond: "Representative Walsh."

Walsh: "Well, Mr. Speaker, I spoke before ah.... as a point of order ah..... ah... I don't know whether it came out that way or not, but I would like a ruling whether we can consider this at this time."

Speaker Redmond: "Representative Calvo. Maybe I'm ahead of myself here. Representative Walsh, will you state that again, please?"

Walsh: "Ya ah.... I ask for a point of order. The Bill is not on the Calendar and therefore it is my opinion that we cannot consider it at this time and if we were to consider it, we would have to have a Supplemental Calendar

printed up at great expense to the people of the State of Illinois and I simply don't think saving a few days on this Bill is worth that and that it ought to go to Committee."

Speaker Redmond: "I've been advised by the Parliamentarian that this motion is not necessary that the Bill be on the Calendar for this motion. Representative Calvo."

Calvo: "Well, Mr. Speaker, that was the point that I was going to make. I don't believe a motion to advance to Second Reading without reference to Committee ah... it... it's not necessary that it be on the Calendar or that there be a Supplemental Calendar. I believe the gentlemen's point is in error."

Speaker Redmond: "Any further..... Representative Walsh."

Walsh: "Could I have a moment to research this, Mr. Speaker?"

Speaker Redmond: "You have a moment. Times up! Representative Hirschfeld."

Hirschfeld: "Mr. Speaker, I'm not opposed to the Bill or moving it or anything like that, but the point that I raised that I did not get an answer to was, I would like to know how we got there? I did not hear anyone ask for leave to go to Senate Bills and leave House Bills, Second Reading and I do believe that the policy of the House requires to get leave of the House to jump around the Calendar."

Speaker Redmond: "I don't believe to move from one order to another, it's necessary to get leave of the House. I think that's what the House Rules now say. Representative Walsh."

Walsh: "Mr. Speaker, I call your attention to Rule 30 and under Rule 30 (b), when a House Member identifies himself to the Clerk as the House Sponsor, the Bill shall then be read a first time. (c), the name of the House Sponsor shall be printed on the Calendar in brackets and on the printed Bill. Now I submit to you that we do not have the name of the House Sponsor ah... much less the Bill ah... printed on the House Calendar and so under the provisions of Rule 30 (c),

I don't believe that we can consider this motion."

Speaker Redmond: "Representative Calvo."

Calvo: "Mr. Speaker, that was on the Calendar Wednesday. The Bill was on Senate Bills, First Reading and Mr. Lucco's name was shown as House Sponsor on Wednesday."

Speaker Redmond: "Representative Walsh."

Walsh: "Mr. Speaker, today is Friday. It is not on the Friday Calendar."

Speaker Redmond: "I've been lead to understand that it isn't necessary. It has already been....."

Walsh: "Well, could I have a ruling then on Rule 30 (c)?"

Speaker Redmond: "Representative Lucco."

Lucco: "Mr. Speaker, Mr. Walsh, I have here a Supplemental Calendar that was put out yesterday, Thursday, April 18 and it does cover that. Shouldn't that carry over until today?"

Speaker Redmond: "No, no, no. The ruling is that the motion is in order and it doesn't have to be on the Calendar for this type of a motion that has already been on the Order of First Reading. The.... Representative Lucco's name is here as the Sponsor. For what purpose does Representative Walsh arise?"

Walsh: "Mr. Speaker, that is your ruling then?"

Speaker Redmond: "That's my ruling."

Walsh: "I have not the slightest doubt that an appeal from the ruling of the Chair would prevail, as I believe very sincerely that the Chair is in error. However, I'm not going to do that. I am though going to urge every Member to vote 'no' on this motion and suggest to them that there is plenty of time to consider this..... this you understand is a Senate Bill. We're inundated with House Bills. We're going to be working Monday through Saturday on House Bills in House Committees and Monday through Saturday the following week, for the same purpose. We should not be taking our time now working on a Senate Bill and referring it to Second Reading without reference to a Committee. There is just no excuse for this action. Secondly, it's a bad concept

and maybe we have an out. We did something wrong last time and alot of the people that were here last time aren't here anymore, maybe this is one of the reasons. There probably were several, but this might have been one of them. Now I suggest to you, Mr. Speaker, that this is going to cost the people of the State of Illinois, it's going to cost them in additional interest because the state is guaranteeing bonds that these Civic Center Authorities are going to be issuing and it's going to effect the state bond rating. There is simply no excuse for doing it if the Committee thinks that it's a good idea, well then let the Committee consider it and ah... treat this as we do every other Bill. This action is totally unwarranted and I urge you to vote 'no'."

Speaker Redmond: "Representative Tuerk, do you still desire recognition?"

Tuerk: "Well, Mr. Speaker, I was just going to raise a point of order and remind the distinguished Assistant Minority Leader to stay on the motion and not debate the merits of the Bill or the Public Act, you see? That's all I was going to call to his attention."

Speaker Redmond: "Are you ready for the question? The question is the motion to advance Senate Bill 540 without reference to Committee to Second Reading. All in favor vote 'aye', all opposed vote 'no'. It takes 107. Have all voted who wished? Representative Calvo?"

Calvo: "Just briefly to explain my vote, Mr. Speaker. All this does ah... so that ah... we're not trying to evade consideration of the Bill on Second Reading as far as the ah.... it would be ridiculous from the standpoint of taking the time of the House when we have two weeks of Committee work ahead of us that we have, to put this Bill in there for consideration when all it does is advance the effective date of this Act. This Act passed this General Assembly last Session and all we're doing is moving the effective date up for the convenience of some of the cities in Illinois who want to move ahead immediately with the... with the selling of their

bonds and the building of these Convention Centers. This isn't just for me or Representative Lucco that want this, we're hardly anywhere near that stage. We've just gotten our authority appointed by the Governor and we haven't even been confirmed yet for the Senate. This is for the benefit of the rest of the state, Springfield, Peoria and some of the other cities and I ask five more votes so this Bill can move ahead to Second Reading and these people can get on with their work."

Speaker Redmond: "Representative Byers."

Byers: "Mr. Speaker, I feel that we have enough votes now, thank you."

Speaker Redmond: "Have all voted who wished? Representative Walsh, for what purpose do you rise?"

Walsh: "Well, since we got into the merits of the Bill a little bit ah.. not through anything I say, but ah...through the previous speaker; let me say that the Bill has an effective date now of April 15, now that to my mind would make this an ex post facto Bill and we would have to amend that date out of there and change it to something in the future. Now I submit to you that the place that that ought to be done is in a Committee. Now from the standpoint of tying up this House, this Bill is going to have nothing to do with tying up this House, because this Bill wouldn't be heard in Committee if we are to function at all efficiently, since it's a Senate Bill, until two weeks from now. Then we could consider it in the Committee. This action is just inexcusable. There is no reason on earth for this Bill to be heard now and for us to be wasting all this time when we could be spending time on House Bills. Furthermore, there's some question as I understand it, that this Bill corrects the original Act so that the effect of this is that we're really voting on whether these civic centers should be built or not and I think that we are entitled to consider that. I think this General Assembly oughta have an opportunity to consider something as important as this. It amounts to many

APR 18 1975

71.

millions of dollars that the state is obligating itself for, for things that the local people have turned down by in Peoria, as I recall it, a 2 to 1 margin in a referendum. The people of Peoria apparently are willing to have the state buy the damn thing, but aren't willing to pay anything for it themselves. So I suggest to you, Mr. Speaker, that we ought to... we ought to send this to the Committee because there is a possibility that we can nullify what the previous General Assembly did."

Speaker Redmond: "The Chair is grateful to the last speaker for confining his remarks to the motion. Representative Tuerk."

Tuerk: "Mr. Speaker and Members of the House, I just sent a Page for ah... the physician to take Mr. Walsh's blood pressure. He's getting all exercised about this Bill or ah... this motion. Let me try and clarify for the distinguished Assistant Minority Leader what that April 15 date is. I've checked with many many Constitutional Lawyers and I can understand that I'm not one and nor is he and when he tries to tell us that this would invalidate the whole Act, he is not speaking with any authority because it wouldn't invalidate it. What it does is, we have a Public Act on the record and all this Bill does is move the effective date from July 1 of this year back to April 15 and the Second Section of the Bill says that it will become effective on becoming law. When the Governor signs the Bill, that's when the effective date will take place and what has been said is that we in Peoria are ready to move and what we do need is this to try and float the bonds, sell the bonds and we've gotten into the discussion of the merits of the Bill, which should be done on Third Reading, but the fact remains that we have enough votes here so let's get on with the business and stop wasting our time."

Speaker Redmond: "Representative Londrigan."

Londrigan: "Mr. Speaker, Springfield has an empty lot across from Forum 30 and we thank you for your vote. Let's get on with the Roll Call."

APR 18 1975

72.

Speaker Redmond: "Take the record. On this question there are 116 'ayes' and 25 'nays' and 8 'present' and the Bill having received.... the motion is carried." House Bills, Second Reading. House Bill 584. Is Representative Lundy on the floor? Nevermind that, Lundy isn't here. 94."

Fredric B. Selcke: "House Bill 94. A Bill for an Act to amend the Illinois Vehicle Code. Second Reading of the Bill. Apparently Committee Amendment #1 was tabled. Committee Amendment #2, amend House Bill 94 by striking everything after after 'the inacting clause,' and so forth."

Speaker Redmond: "Representative Williams."

Williams: "Thank you, Mr. Speaker and Members of the House, Amendment #1 was tabled. Amendment #2 in fact ah.. makes it a new Bill, however, it was worked out with the Members of the Committee with the Fruit Growers Association, Teamsters and so forth and this amendment now has the approval of the Teamsters. Essentially, what it does is it confines the ah... area of this Bill to urban area immediately contiguous to a land fill operation and I move the adoption of Amendment #2 to House Bill 94."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment #2 to House Bill 94. All in favor indicate by saying 'aye', opposed 'no' and the amendment is adopted. Any further amendments? Representative Williams, was Committee Amendment #3 tabled?"

Williams: "Committee Amendment #3 was tabled. It was not adopted."

Speaker Redmond: "No further amendments? Third Reading. 102, Representative Peters."

Fredric B. Selcke: "House Bill 102, ah... is he here?"

Speaker Redmond: "Is Representative Peters in the Chamber? Take that one out of the record. 141."

Fredric B. Selcke: "House Bill 141. A Bill for an Act to amend the Illinois Income Tax Act. Second Reading of the Bill. One Committee Amendment. Apparently Committee Amendment #1 was tabled. Amendment #2, amend House Bill 141

on page 2 by deleting lines 20 through 24 and so forth."

Speaker Redmond: "Representative Porter."

Porter: Mr. Speaker and ladies and gentlemen of the House, this ah... amendment is the one suggested by the Department of Revenue ah... and it merely clarifys the original intent of the Bill and I would move its adoption."

Speaker Redmond: "He moves the adoption of Amendment #2 to House Bill 141. All in favor of the adoption indicate by saying 'aye', opposed 'no', the 'ayes' have it and the amendment is adopted. Any further amendments? Third Reading. Representative Schlickman."

Schlickman: "Mr. Speaker, if this Bill is passed by the legislature and approved by the Governor, this will be the first deduction that we will be providing for under the Illinois Income Tax Act. I therefore, request a fiscal note requiring that this Bill stay at the Order of Second Reading."

Speaker Redmond: "Have you made your request in writing to the Clerk? We'll hold it on Second Reading then. Move that one back to Second Reading. 322."

Fredric B. Selcke: "House Bill 322. A Bill for an Act to amend the Illinois Vehicle Code. Second Reading of the Bill. One Committee Amendment. Amend House Bill 322 on page 1, line 1 and so forth."

Speaker Redmond: "Representative Hoffman."

Hoffman: "Thank you, Mr. Speaker and ladies and gentlemen of the House. This amendment was suggested by the Secretary of State's Office. It clarifys the language and I would move its adoption."

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment #1 to House Bill 322. All in favor of the adoption indicate by saying 'aye', opposed 'no', the 'ayes' have it and the amendment is adopted. Any further amendments? Third Reading. 360."

Fredric B. Selcke: "House Bill 360. A Bill for an Act to amend the Vehicle Code. Second Reading of the Bill. One Committee Amendment. Amend House Bill 360 on page 2 by deleting line 32 and so forth."

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Thank you Mr. Speaker and ladies and gentlemen of the House, the amendment that is on this particular Bill was recommended by the Secretary of State's Office in Committee. This is the Bill that increases the penalties for people who pass stopped school buses and the Secretary of State's Offices wanted it under the suspension and revocation part of the statute that was permissive rather than mandatory and this will put it under that Section of the statute and I would move for the adoption of Committee Amendment #1."

Speaker Redmond: "Any discussion? The gentleman has moved for the adoption of Amendment #1 on House Bill 360. All in favor indicate by saying 'aye', opposed 'no' and the 'ayes' have it and the amendment is adopted. Any further amendments? Third Reading. House Bill 365."

Fredric B. Selcke: "House Bill 365. A Bill for an Act to establish uniform system juries selection and service. Second Reading of the Bill. One Committee Amendment. Amend House Bill 365 on page 2, line 22 and so forth."

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Thank you, Mr. Speaker and ladies and gentlemen of the House. House Bill 365 is the Uniformed Jury Selection Bill. There were a number of problems raised in Committee and there have been four major changes. Number one, did nothing more than correct some clerical errors that were made by the Legislative Reference Bureau. Number... change number two, removed the Section on abortions because it was no longer thought applicable under the Constitution, from the decision of the United States Supreme Court. Number three, was a very controversial part of the Bill and the Bill will now permit only the Chief Judge of a Circuit to impanel a Grand Jury, rather than permitting all judges of the circuit and the fourth change ah... which put in the Bill, states that a Grand Juror may not step down from it's position as a member of the Grand Jury and

testify against the defendant in the Grand Jury. This Bill was then voted out of committee unanimously and I would move for the adoption of Committee Amendment No. 1 to House Bill 365.

Speaker Redmond: "Any discussion? The question is on the adoption of Amendment No. 1 to House Bill 365. All in favor indicate by saying aye. Representative Lechowicz, for what purpose do you rise?"

Lechowicz: "Mr. Speaker, did the sponsor indicate that that was a Committee Amendment?"

Hirschfeld: "Yes, I did."

Lechowicz: "Did you also indicate in your explanation of the amendment that the Chief Judge would have Grand Jury powers within the respective circuit?"

Hirschfeld: "Yes, I did, Representative Lechowicz. He does now. As you remember, there was a big fight in Cook County between the State's Attorney and the Chief Judge. The bill did provide that any circuit judge would have those powers and we removed that so that we're back where we were, only the Chief Judge may impanel a Grand Jury."

Lechowicz: "Alright, thank you."

Speaker Redmond: "The question is on the adoption of Amendment No. 1 to House Bill 365. All in favor indicate by saying aye. Oppose, no. The ayes have it and the amendment is adopted. Any further amendments. Third Reading. 557."

Fred Selcke: "House Bill 557. A Bill for an Act to amend Section 1 of an Act to tax gifts, legacies, and inheritance, transfers, appointments and so forth. Second Reading of the Bill. One Committee Amendment. Amend House Bill 557, page 4, line 4, by inserting immediately after the word "portrait" the words "photograph or" and so forth."

Speaker Redmond: "Representative Borchers."

Borchers: "Mr. Speaker and fellow members of the House, all this is ...is there's just two parts to this. One, it adds the word "portrait" a....to what is family memoranda. The second part is to define what a family is. That was the request of the committee to define what is a family under this bill."

So I move....I move that the bill be accepted.....I mean the amendment be accepted."

Speaker Redmond: "Any discussion? The Gentleman has moved that Amendment No. 1 to House Bill 557 be adopted. All in favor indicate by saying aye. Opposed no, the ayes have it and the amendment is adopted. Are there any further amendments. Third Reading. 671."

Fred Selcke: "House Bill 671. A Bill for an Act to amend the Illinois Vehicle Code. Second Reading of the Bill. One Committee Amendment. Amend House Bill 671 on page 2, line 8, and so forth."

Speaker Redmond: "Representative Londrigan on House Bill 671."

Londrigan: "I move the adoption of Amendment No. 1 which was put on in committee."

Speaker Redmond: "The Representative has moved the adoption of Amendment No. 1 to House Bill 671. All in favor indicate by saying aye. Opposed no. The ayes have it and the amendment is adopted. Third Reading. House Bill 747."

Fred Selcke: "House Bill 747. A Bill for an Act to amend the Illinois Highway Code. Second Reading of the Bill. One Committee Amendment. Amends House Bill 747, page 1, line 10, and so forth."

Speaker Redmond: "Representative Rigney."

Rigney: "Mr. Speaker, House Bill 747 will require units of government to mow the entire right-of-way when requested to do so by a property owner. The amendment makes it clear that it only has to be done at the time that they are mowing the balance of that right of way. I move for the adoption."

Speaker Redmond: "Representative Lechowicz."

Lechowicz: "Mr. Speaker, I was wondering if...I'd like to request a fiscal note on this bill."

Speaker Redmond: "Have you requested it in writing at the Clerk's desk?"

Lechowicz: "No, I'm just making notice that I'm going to do it now."

Speaker Redmond: "Any further discussion on the amendment?"

The question is on the adoption of Amendment No. 1 to House Bill 747. All in favor of the adoption indicate by saying aye. Opposed, no. The ayes have it and the amendment is adopted, and it stays on Second Reading until the fiscal note is furnished. 751."

Fred Selcke: "House Bill 751. A Bill for an Act to amend the Revenue Act of 1939. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any amendments from the floor? Is Representative Ewing in the chambers? Third Reading. 756."

Fred Selcke: "House Bill 756. A bill for an Act to amend the Illinois Vehicle Code. Second Reading of the Bill. One Committee Amendment. Amend House Bill 756 by deleting lines 31, 32, and so forth."

Speaker Redmond: "Representative Stubblefield."

Stubblefield: "The amendment was offered by the sponsor to the committee...a....at the suggestion of the Secretary of State's office, this makes the bill acceptable to them, and also acceptable to the Uniform Anatomical Gift people. And in effect, what the amendment will do is provide that a decal be placed on the driver's license, there is sufficient place there, the decal will indicate that the driver wishes to make an anatomical gift and that there is a uniform gift card on the person."

Speaker Redmond: "The Gentleman has moved the adoption of Committee Amendment No. 1 on House Bill 756. All in favor indicate by saying aye. Opposed, no. The ayes have it and the amendment is adopted. Any further amendments? No further amendments. Third Reading. 777."

Fred Selcke: "House Bill 777. A Bill for an Act to amend the Vehicle Code. Second Reading of the Bill. No committee amendments."

Speaker Redmond: "Any amendments from the floor? Third Reading. The Chair would like to remind the members that the ethics statements, or Statements of Financial Interests are due very shortly. We sent a letter to all of those who have not filed in the Index Division, but I'd like again to

call it to your attention. I understand it took an hour and a half to wind down yesterday. Do we have any announcements now before we start? Any announcements from Committee Chairmen? Representative Leon." Representative Leon?

Leon: "Mr. Speaker, I'd like to make an announcement for the members of the Committee on Banks and Savings and Loan. The meeting will convene exactly and promptly at 2 o'clock. It will be a short meeting. If we have a quorum, we'll be out of there in fifteen or twenty minutes. I'd appreciate the prompt attendance of all members of the committee."

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Point of information, Mr. Speaker. Are we getting ready to adjourn?"

Speaker Redmond: "We are getting ready to be able to go to committees today. We thought there would be sufficient time so the members could get something to eat."

Hirschfeld: "Well, I would like to raise a serious question, then, Mr. Speaker. When the distinguished Majority Leader was occupying your chair on a temporary basis yesterday,.... a....the question of this....a...atrocitiy that calls itself a calendar, was raised, and we were informed by the distinguished Majority Leader that there was a meeting going to be had as soon as we adjourned yesterday to straighten this problem out. And to the best of my knowledge, no member has been told anything about next week's schedule, other than these sheets that have been handed out on some of which the blocks, there's question marks. And I would like to know what the status of our committees and our floor sessions is for next week?"

Speaker Redmond: "Representative Shea, do you desire to explain the hieroglyphics?"

Shea: "Well, Mr. Speaker, Ladies and Gentlemen of the House, our schedule calls for us to return to Springfield on noon on Monday and have floor action all day on Monday. We will then have committees starting Tuesday at 8 o'clock in the morning, and go through Saturday."

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Well, Mr. Speaker and Ladies and Gentlemen of the House, I dislike taking the Majority Leader to task, but Representative Collins brought up before this General Assembly yesterday that this so-called calendar was atrocious and I certainly got the impression from Mr. ...a....the Majority Leader's comments that something was going to be done to straighten this mess out. And I think its a sad commentary for the Majority Leader to stand up now and say that the calendar's the same way that it was yesterday when the question was raised, particularly when Mr. Collins was cut off after that point with a very casual off-the-hand answer that nothing was going to be done yesterday, we'd be informed today as to what changes were made, and I'm beginning to wonder whether, perhaps, there's no attempt made to make any changes whatsoever. A...we are not full time legislators from the point of view that we can come down here and serve as to the willy-nilly whims of the leadership on the other side of the aisle. And I personally resent an imposition on the time of coming down here six days next week and six days the following week, its only the middle of April. I will say this to the Democrat leadership, and I mean this with all sincerity, at least when the Republican members ran this House of Representatives, we did not serve these type of hours until June, and I think something should be done by the leadership, they've had four months to straighten this mess out, and its still a mess and its getting worse by the day. Now there's no reason to have these artificial deadlines that have been imposed upon the membership, and I think this is a perfect example of it. If we come down here and do our duty and work from 9 to 5, we wouldn't be faced with calendars like this that I do not believe that can possibly be met by any responsible member. And I think that the leadership should get together before we leave today so we can inform our people back home, particularly in our offices, what type of a schedule we are going to meet that is reasonable. I think this is atrocious,

I think its a sad sign of leadership and I would hope that something be done about it before we leave today."

Speaker Redmond: "Representative Shea."

Shea: "Well, Mr. Speaker, Ladies and Gentlemen of the House, nobody said that we had to run for public office, we all ran for it and got elected. A majority of the members of this House passed the rules under which we are operating. I noticed from this morning's paper that the Gentleman is one of the persons who has filed more bills in this session of the General Assembly than any other member. Now there's 2963 bills pending before this House, and I will tell you, Mr. Hirschfeld, I met this morning with your leadership at about 8 o'clock to discuss this situation. Your Minority Leader is as concerned as we are on this side of the aisle. But I think we are more concerned about getting on with the business of the House rather than going home and worrying about our law business. I, like you, am a lawyer, sir, and I have told my clients that my first duty is to my elected office here in Springfield."

Speaker Redmond: "Representative Hoffman."

Hoffman: "Mr. Speaker, would you ask the Gentleman who's running the P.A. to turn it down? The debate's a little loud for me."

Speaker Redmond: "Representative Hanahan."

Hanahan: "Well Mr. Speaker as long as we are here to do the business of the people of the State of Illinois, there's a lot of bills on Third Reading that I'm willing to stay here and vote on, today, I don't see any reason why we have to adjourn at 12:30 today. I think we can continue going. I think its bad practice to cut off on Third Reading when we have these amounts of bills before that are going to have to be faced. Nobody has to go home right now, nobody has to go out to lunch. We understand the problem, we want to help you and let's continue on with House Bills in Third Reading and continue on knocking down the calendar, the committees don't begin until 2 o'clock."

Speaker Redmond: "Representative Duff."

Duff: "Well, Mr. Speaker, I was going to address myself partly

to what Representative Hanahan just said. I note that there are a number of bills that are going to die next week on the calendar if they are not treated, and the thing I wanted to ask for a clarification on...yesterday when the Minority Leader addressed himself to the subject, he mentioned the fact that the calendar would provide for some Third Readings, some floor action everyday next week, but I think when the Gentleman...the Majority Leader spoke, he said we would have floor action on Monday and then only committees the rest of the week. I think as a point of clarification, we are going to have floor action, are we not, through every day next week?"

Speaker Redmond: "You are, 11:15 to 1:30, as I recall."

Representative Washburn."

Washburn: "Thank you Mr. Speaker and Ladies and Gentlemen of the House, I think that Representative Hirschfeld was under the same impression that most of us were on this side yesterday when the leadership meeting was called immediately after the session to discuss the schedule for the next two weeks. That leadership meeting happens to be a meeting of the Democrat leadership for everyone's information and I went down to see Representative Shea this morning on my own to discuss this matter with him, And how we can hold committee meetings at 8 o'clock in the morning on Monday and....a... and a....10 o'clock at night on Saturday night is beyond me."

Speaker Redmond: "Representative Griesheimer."

Griesheimer: "Well, Mr. Speaker and Ladies and Gentlemen of the House, without getting completely involved in the leadership position, here, I would call to your attention that if your intention is to adjourn for lunch for the convenience of the members, there's at least three bills on Third Reading today, one of which is mine which will die if we don't go to Third Reading. We have one of Mr. Hirschfeld's and one of Ms. Chapman's, and I don't think that you are intending to kill these bills from Third Reading, but if you adjourn now for the convenience of lunch, you'll certainly kill them."

Speaker Redmond: "What are the members that you are talking

about, Representative Griesheimer?"

Griesheimer: "Well, House bills on Third Reading...a....House Bill 323, that's my bill; a....House Bill 368 is Mr. Hirschfeld's bill, and House Bill 510 is Mrs. Chapman's bill."

Speaker Redmond: "What was Mr. Hirschfeld's....6...what?"

Griesheimer: "368."

Speaker Redmond: "And Mrs. Chapman's? One thing that I would like to call your attention is the fact that we have about 2300 bills that are in committee and in committee, Mr. Hanahan, not on the floor, and it seems to me that we've got a deadline of May 2nd, and that was adopted, it was joint rule between the House and the Senate, and I personally don't think that there's very much chance of having that waived. And I don't think that the members want to, in large numbers, have their Houses....their bills killed in committee because they are not out prior to May 2nd, and that's the reason for the emphasis on the committee action, and I may say that I don't think that I have a bill that I've sponsored and I'm willing to stay here just as long as anybody else for many days so that all the members will have the opportunity to have their bills heard. Representative Hirschfeld."

Hirschfeld: "Well very briefly, Mr. Speaker and Ladies and Gentlemen of the House, I'm rising on a point of personal privilege since my name was used by the distinguished Majority Leader. And I realize I have a great number of bills introduced this year, but I would like to inform the distinguished Majority Leader that unlike some other members, particularly in the leadership on that side of the aisle, I followed the rules last year which said we were going to introduce only revenue and appropriation matters only and emergency matters, and I didn't introduce a single bill last year that I called because I did follow the rules. With regard to the comments about the law practice, let me say this. I'm not concerned about going back to law practice, I haven't been there in three weeks anyway, but I would like

to be in a position to at least let my people know, my clients and my secretary and my law partners, what the status of this matter is down here. And thirdly, I do believe that the presumption was raised, at least, by the distinguished Majority Leader, that there was going to be a meeting between the leadership, which I think the distinguished Minority Leader has emphasized by his comments, and that some kind of reasonable compromise is going to be worked out. I don't mind staying down here, and I'm sure the distinguished Majority Leader knows that fact. But this kind of a calendar is not going to work and I see no reason for having these artificial headlines."

Speaker Redmond: "Representative Bradley."

Bradley: "Mr. Speaker and Ladies and Gentlemen of the House, its not a....a....I'd like to call attention to the Gentleman from Champaign, its not an artifical deadline, its a hard and fast deadline. And it would seem to me that we heard the same comments last week that we would not be able to meet the deadline of last Saturday night, that there would be bills that would not be introduced, legislation that members of this House had asked the Reference Bureau to produce and it couldn't be done, or I'd like to call to his attention that it was done, and there is a schedule that will work, that the bills in the committees can come out, he's been here before and he knows that this work can be done, so I suggest to him that we go on with the business of the House, that we go to committees, we do what has to be done, and it can be done, and let's go ahead and proceed and meet that deadline as we adopted the rules that we can go ahead and proceed in an orderly fashion without standing up and hollering that it can't be done. It was done last week, it can be done again. Thank you Mr. Speaker."

Speaker Redmond: "Representative Duff."

Duff: "Well, Mr. Speaker, I...as a point of clarification, it seems to me it might help some of the House members to have a more complete clarification of the bind we are in with the rules we have passed. A...with the number of bills that has to be heard in committee, if we're going to suspend the May 2nd deadline, we have to have a 2/3's vote and an agreement in the Senate. Isn't that correct? In other words...."

Speaker Redmond: "That is correct."

Duff: "In other words, effectively, there is no way in the world we can take off the deadline, and so we have to proceed under that premise. That's the way I understand it. Now, it seems to me the only real concern we have here is the members who do have bills on Third Reading that will die and it seems that all we need is to make some assurance that their bills will be heard."

Speaker Redmond: "You have that assurance." Representative Totten."

Totten: "Thank you Mr. Speaker and members of the General Assembly. I want to point out to the Speaker, the previous speaker, the previous speaker from the other side of the aisle, that we argued strenuously that that Legislative Reference Bureau would not get all their bills out on time, and they did not. Many bills were introduced in shells, which will cause confusion in this General Assembly for the next several months that we are here. Secondly, we know of at least twelve bills on this side of the aisle that we introduced by members prior to that April 1st deadline that are still in the Reference Bureau. Thirdly, when we are going to hear over 1500 bills in committee in the next two weeks, we are doing disservice to the members who have spent the time researching and drafting all those bills for consideration, and fourthly, we are doing a disservice to the constituents that we represent by having those bills heard in such a hurried manner. And this May 2nd date ought to be removed by resolution of this House and sent over to the Senate so they can act on it on

Monday, so we can get about this business in a reasonable manner."

Speaker Redmond: "Representative Kosinski."

Kosinski: "Mr. Speaker, I do have great concern when we consider the possibility of an influx of Senate Bills next week about the one hour portion of our lunch period being used for House action. With this heavy agenda, Mr. Speaker, may I respectfully suggest that at least for a couple of more hours, we continue with Third Reading, that we might move some of this in advance of the receipt of those Senate Bills?"

Speaker Redmond: "Is there further discussion? Representative Collins."

Collins: "Yes, Mr. Speaker, I've been listening to a lot of what I can only classify as nonsense. They are trying to justify this unconscionable mess in which we find ourselves, but I think our best argument in support of Representative Hirschfeld's position, are the arguments made by Representatives Shea and Bradley. Yes, we do have a record number of bills, over 2900 bills, and yes, our first duty is to our job here in Springfield, and that's exactly what Representative Hirschfeld and I have suggested we address ourselves to. We should work here and address ourselves to the matters that come before this General Assembly in record numbers. However, how can we operate in the dark? Even yesterday, we were working on bills that were introduced before the deadline which are not yet printed. We are told that there are hundreds and hundreds of bills that have been introduced in shell form, in which assumably, the Majority Leader will fill in later. But we don't know. But we are being asked to operate entirely in the dark. Now I asked the leadership last week, please meet with the leadership on the other side of the rotunda and discuss lifting these arbitrary deadlines, and they can only be called arbitrary. So now we are faced with the failure of leadership to meet last week, now we are again told that the leadership failed to meet, even though I was assured

that they would last night to discuss this mess that we are in so now we look at this horrendous schedule that no one can humanly operate under. There is no way that bills can be considered properly. We are asked...we are asked to operate in the dark for no reason, for no good reason at all other than we adopted a ridiculous joint rule, one that I, among others, voted against this time and also in the last session. We have proven conclusively that deadlines don't work. We should abolish them altogether but failing that, I would ask the leadership in both Houses, get together and lift this ridiculous May 2nd deadline. I think that if we didn't have a deadline, we'd probably have less bills. But be that as it may, I think the time has come to realistically assess our position, say deadlines have failed, which we have failed to meet the task that is before us, now lets realign and lets sensibly approach these problems, lets approach the bills in orderly fashion, we can work a regular work day for the next four, five, six weeks, whatever it takes, but there is no reason to create this unrealistic crush for the next two weeks where people are unable to consider bills even if they had the bills before them, and they won't even be printed. So please, lets be honest about this, Mr. Speaker...lets...lets...lets move in an orderly fashion. Now I would certainly urge you again to meet with leadership on both sides of the aisle, both sides of the rotunda, and resolve this horrible confusing mess."

Speaker Redmond: "Representative Schlickman."

Schlickman: "Mr. Speaker and members of the House, with respect to the three bills that are at the order of Third Reading, which die today if they are not acted upon, I respectfully suggest that we go to that order of business."

Speaker Redmond: "The point is well taken. House Bills' Third Reading and on House Bills' Third Reading appears House Bill 323."

Fred Selcke: "House Bill 323. A Bill for an Act to designate Senior Citizens Day. Third Reading of the Bill."

Speaker Redmond: "Representative Griesheimer."

Griesheimer: "A...Mr. Speaker, may I ask leave to return this to Second Reading for an amendment?"

Speaker Redmond: "The Gentleman has asked leave to return it to Second Reading. Are there objections? Representative Berman."

Berman: "Mr. Speaker, a parliamentary inquiry."

Speaker Redmond: "State your point."

Berman: "If we move it back to Second, will it be the policy of the chair to move it back to Third and vote on it today?"

Speaker Redmond: "No."

Berman: "Thank you."

Speaker Redmond: "The policy of the chair is to have it stay on Second Reading and then move it to Third and then have it on at the next calendar. Representative Geo-Karis, do you desire to withdraw the amendment."

Geo-Karis: "No, Mr. Speaker, Ladies and Gentlemen of the House, if you recall, this was the bill that came up a few days ago, in which the distinguished Majority Leader said it expires Friday and I have an amendment and its agreed by the sponsor, there's no problem, and then it was agreed that they would bring it back to Second Reading on Friday, and put the amendment on and pass the bill. I would like to hear a respectful consideration."

Speaker Redmond: "Its been the policy of the chair that it has to go back to Second and then moved to Third and that's what we've done in all times passed. Now I would suggest that there's a way to take care of it over in the Senate, you know, if you pass it out of here, and amend it over there and then have conference report. Representative Griesheimer."

Griesheimer: "Mr. Speaker, based upon my lack of understanding of the rules, here, I can see where I'd be killing my own bill. I would point out to the leadership, though, that this somewhat confirms the problem that I think that all of the members on this side have been trying to point out

to the leadership. I asked the Acting Speaker yesterday to call this bill, and he said why don't you call it tomorrow. And so this is just the dilemma we are finding ourselves in. But I will withdraw my request and I will work with my colleague from Lake County, we will amend this in the Senate. And I'll proceed on Third Reading."

Speaker Redmond: "Proceed, Representative Griesheimer."

Griesheimer: "Ladies and Gentlemen of the House, this bill is a very simple bill. All it does is establish a day of recognition in the State of Illinois for senior citizens. A similar bill has been introduced in the United States Congress I am advised. We will be one of the first states to adopt such a bill. The bill, as it reads now, provides for the second Sunday in October, and its my understanding that when it does go through to the Senate, the amendment we would have put on it here will be to change that to the Third Sunday in August, and we are doing that so that the weather is better and we can more appropriately honor the senior citizens. I would request your support for this bill."

Speaker Redmond: "The question is shall this bill pass? All in favor indicate by voting aye. Those opposed, vote no. Have all voted who wished? Have all voted who wished? Take the record. On this question there are 150 ayes, 1 no, and the bill having received the Constitutional majority is hereby declared passed in time. House Bill 368."

Fred Selcke: "House Bill 350.....368. A Bill for an Act to amend the School Code. Third Reading of the Bill."

Speaker Redmond: "Representative Hirschfeld."

Hirschfeld: "Well thank you Mr. Speaker and Ladies and Gentlemen of the House, I'm always happy to be in a position of calling a bill after I have engaged in a rather lengthy drive on the floor of the House, such is life and here we are. I'd better explain something first. I did promise to hold this bill for Representative Katz for purposes of an amendment and I think the members should know what that amendment is because I can't put it on now or we'll lose it."

APR 18 1975

This Bill, unamended, provides for separate buildings and facilities for children who because of a handicap cannot be served in the public schools. Representative Katz has an amendment, which would call for mainstreaming; in other words, if the public schools can provide a facility they should do everything they can and we should try and avoid these separate special education facilities and I agree with that concept. Unamended, and I think this is very important, ladies and gentlemen, unamended the Bill would permit a levy back in the districts without... without a referendum. The amendment that Representative Katz has proposed would call for a referendum. I also agree with that concept. Unfortunately, when I called the Bill yesterday the amendment was not prepared. Representative Katz did everything he could to get it prepared. He is at a speaking engagement now and he told me to handle this as I saw fit. So I will try and pass the Bill in it's unamended form with the promise of the Members of this Body, that if we do pass in that form, that I will put the referendum amendment on in the Senate and will also put on the mainstream amendment in the Senate. I believe that this is an extremely important Bill because it will provide equal opportunity for all children, as our Constitution requires. It's impossible for severely retarded children to be effective when they are trying to work with the facilities or decidedly, make shift. There are certain schools in every community which are not served by the public school system. This Bill will attempt to alleviate that problem and I would appreciate a favorable Roll Call and you have my word that I will put the amendment on in the Senate if the Bill passes."

Speaker Redmond: "Representative Berman."

Berman: "Would the Sponsor yield? Ah... John, as the Bill stands now what is the nonreferendum tax increase that it proposes?"

Hirschfeld: "It is \$.10 ah... Representative."

Berman: "Per \$100.00?"

Hirschfeld: "Right."

Berman: "Alright, can you give me any ah...dollar examples of

what that would be in ah... any of the applicable school districts as far as a ah... increase. If I've got a house that's assessed at \$10,000, ah... what would ah.... would that be an increase in my tax bill?"

Hirschfeld: "I can't give you that off the top of my head, but that question was raised in the Committee and that's why we're going to put the referendum on. We think that there will be considerable opposition if there is no referendum."

Berman: "All right. Well, if I might address myself to the Bill. There are methods now for the construction of special education facilities ah... through ah... a state assistance of \$1000 per ah.. worker and a built in levy for every school district that wants to construct special education facilities. In addition to that, in the Governor's Excellerated Bond Program, there is provisions for additional money that would be available to the bonding program for the construction of special education facilities through the Capital Development Board. I don't doubt that there is a need in many districts for these additional facilities, but for myself, I'm only going to vote 'present' on this Bill at this time because of number one, the problems with the way the Bill has provided and number two, I think that ah... you are suggesting a tax increase ah.... whether it be by referendum or nonreferendum, ah... for ah... facilities that I'm not sure it ah.. in the proper priority in the ah... allegation of local tax money and so for my vote on this Bill at this time, I'm going to vote 'present'."

Speaker Redmond: "Representative Walsh, do you desire recognition?"

Walsh: "Well, ah.. yes, Mr. Speaker. I agree with the last speaker that this ah... this Bill is not good as it is presently written. I have no idea what Representative Katz's mainstreaming amendment provided, but the referendum amendment, I don't see any point in that because be referendum ah... school district can pretty well do this now. They can use the facilities as they wish. They're mandated to have special education...."

Speaker Redmond: "I wonder if I might interrupt? May I recognize Representative Madigan for the purposes of an introduction?"

Madigan: "Mr. Speaker and Members of the House, I rise to introduce the group of students in the West Gallery of the Chambers. They are from the Westside School in Chicago, the 13th District represented by Representatives White, Houlihan and Randolph."

Speaker Redmond: "Pardon me, Representative Walsh, but I saw that the students were leaving and I....."

Walsh: "Now if I can get myself all wound up again, Mr. Speaker, ah... again a referendum to my way of thinking is ah.. is unnecessary. That amendment need not be because right now a school district may by referendum do this and this is the way that they certainly ought to do it because ah... the people in the district oughta be advised as to what ah.. the school district is doing and I mean all of the people in the district, not just those people who have kids in school. Now I suggest to you that another bad aspect about this Bill is that it might force school districts, ah... the school board, to isolate those people in need of special education for reasons that are not entirely good. There might be a group of people who are very important and influential in a school district who might think that they don't want their children going to school with the people in need of special education. They don't want their children associated, for example, with the mentally retarded. They would rather isolate the mentally retarded and put them off some place where their children won't be in contact with them. I suggest to you that this might happen and this would be a very very bad effect of this Bill. Now right now, any school district that wants to, and I think this is very important and I think this is a key to the Bill, any school district that by referendum votes to issue bonds for the building of a facility for special education may do so and indeed the districts are mandated to provide special education. So where there is a real need, they will do this, but I think that it is

important that all of the people in the district be involved in it and not just those who might have the ear of the school board or the school superintendent. So I suggest to you that this is a bad Bill and that we ought to vote 'no' on it and consider it maybe with this mainstreaming amendment ourselves and not trust the Senate to do it."

Speaker Redmond: "Any further discussion? Representative VanDuyne."

VanDuyne: "Thank you, Mr. Speaker. I agree with Representative Walsh and I would like to add one or two more things if I might. Ah... I think, and this was discussed in Committee at great length and it came out of Committee only 9 to 8 in the affirmative. Ah.. some of us felt in Committee that these children that we're talking about ah.. really should be mixed with our normal children because in their life there are very few ah.. pleasures that they have now and we are going to take away the association that they would have in the school day. We already have ah... state law that prohibits us from making our buildings only receptive to the people who can walk in and out of them ah... it is already incorporated in our Building Code. Ah.... well, I think with that I will just let it go and ask for a negative vote on this Bill."

Speaker Redmond: "Representative Gaines."

Gaines: "Having been the product of a special education school in Chicago, for the physically handicapped, there is a definite need for persons who have various handicaps to have an environment conducive to their getting proper treatment, being able to go to clinics, being able to get proper physiotherapy and all that type of help, which they cannot get in a regular school. Also, when they are a identifiable minority, they are all the time teased and misused by children. Therefore, it is needed and it is just a cop-out when people talk about mainstreaming because mainstreaming does not help the handicapped folks. Now it may save on somebodys budget and push the handicapped kids at the bottom

of the list, but handicapped kids need special attention and anybody who says otherwise, who is not handicapped, just doesn't know what they are talking about."

Speaker Redmond: "Representative Maragos."

Maragos: "Mr. Speaker, I think that this issue has been adequately debated and I move the previous question."

Speaker Redmond: "The question is shall the main question be put. All in favor indicate by saying 'aye', opposed, 'no', the 'ayes' have it. Representative Hirschfeld to close."

Hirschfeld: "Mr. Speaker and ladies and gentlemen of the House, I will try and answer the objectives that have been raised. First of all, to Representative VanDuyne, to the best of my knowledge he did not hear this Bill in Committee because it was in Elementary and Secondary Education.... oh, you were in the back of the room? Well, I didn't see you as a Committee Member and so I did not think you heard it. Ah... secondly, ah... with regard to Representative Walsh, let me just read one part of the amendment. 'Wherever possible children requiring special education shall attend regular class and shall be educated with children who do not require special education.' And it goes on ah... from there because we are trying to mainstream these children into the regular education. We are not trying to segregate them under any circumstances. To Representative Berman's comment about the Governor's Bond Program; all I can say is this, to the best of my knowledge and I'm the only Republican that's gone on record for support of the Governor's Bond Program, and if that's typical that leaves me to believe that I may be a minority of one and while I support the Governor's Bond Program, it looks to me like it's going to have very little chance of passing. I would hate to have this Bill dependent upon the Governor's Bond Program. Now the simple fact of the matter is, ladies and gentlemen, out of the 102 counties in the State of Illinois, there are hardly any... any school districts that are supplying these facilities for the mentally retarded children and that's what we're trying to accomplish. It is no tax increase

if they do not pass the referendum. I would prefer to have it without a referendum, but I know what would happen if that happ..... if I tried to pass that Bill. It couldn't pass. In conclusion, let me just say this about special education today; from my point of view and the reason why this Bill has been introduced is because for special education we need alot more, we need it alot earlier and we need it alot longer and I would appreciate a favorable Roll Call on this Bill."

Speaker Redmond: "The question is shall this Bill pass. Those in favor vote 'aye' and opposed 'no'. Representative Pierce."

Pierce: "Mr. Speaker, I was appointed to this Bill originally, but there has been an amendment put on here and I think the gentleman from Cook, Representative Gaines, is entirely correct. We shouldn't be stating in legislation, what the philosophy of special education is. Some children should be mainstreamed and educated in the same classroom, or in the same classroom in the same building, or partially in the same classroom and partially not, other children should not be mainstreamed, other children need a special separate facility and we shouldn't put in legislation in the laws of this land that the... that the philosophy ah... should be all children mainstreamed because the educators will use that to deny the special facilities that special education, handicapped, physically and mentally handicapped children need. They'll say the legislature told us in the Hirschfeld Bill, they won't even realize that it was Katz's Amendment, the legislature told us that we have to mainstream all these kids and we're against them spending all this money on special ed anyway, we don't like it and this gives us an excuse not to spend it because we've got our legislative directive from mainstreaming all children in the regular classrooms. You know what that means in Chicago? Representative Gaines knows. It means that they sit in the back of the classroom and they get promoted every year, whether or not they should be and as long as they keep

quiet in the back of the classroom, the handicapped children sit in the back and get promoted and they get to high-school and they can't read or write and they drop out. That's what mainstreaming has been in the Chicago public schools and many other public schools for years and years and because of that amendment, I'm going to vote 'no' on this Bill."

Speaker Redmond: "Representative Schneider."

Schneider: "Thank you, Mr. Speaker. Very briefly, I don't think the amendment was adopted in regard to mainstreaming or to a referendum so we really aren't addressing ourselves to that. I think it was offered as a palliative to the Bill because of its poor condition in its present form. As to Representative Berman's remarks, I think they are accurate ah... its a nonreferendum procedure for a tax increase with a ah... ah... procedure for building facilities or for transporting special ed kids already exist ah... so I think it is a unnecessary Bill. The amendment is not on the Bill and I think we ought leave the Roll Call just as it is."

Speaker Redmond: "Representative Satterwaite."

Satterwaite: "Mr. Speaker, I intend to vote 'present' on this Bill and I want the record to show that the reason why I am voting 'present' is because I have two brain damaged children who might be included under provisions of this Bill for special education funding and I therefore feel that it is inappropriate for me to vote either for or against it."

Speaker Redmond: "Any further discussion? Take the record. On this question there are 39 'ayes' and 35 'nays' and the Bill having failed to receive the constitutional majority is hereby declared passed. Lost rather, pardon me."

Speaker Redmond: "House Bill 510. Representative Chapman, is that yours, ah... 510? Read the Bill."

Jack O'Brien: "House Bill 510, Chapman. A Bill for an Act to amend the Illinois Health Facility Authority Act. Third Reading of the Bill."

Speaker Redmond: "Representative Chapman."

Chapman: "Mr. Speaker and Members of the House, ah.. House Bill 510 is one of those delightful Bills. It ah... has no opponent. It is an important measure, however. It is ah... an amendment to the Illinois Health Facility Authority, which was created by this Body in 1972. They've had a chance to ah... see how the law works and so now the Authority is coming to us with requests for revision in the legislation. The Illinois House Facilities Authority is an organization of state government which does not cost the State of Illinois one penny. It issues tax exempt bonds, which help contain health costs by ah.. offering reduced interest rates to hospitals and other not for profit health facilities that are involved in building, remodeling, expanding ah... their facilities. Along with the health keeping changes that the Bill proposes are a couple of major changes. Right now the Act requires the Authority to take the title to a health facility in order to provide ah... financing. For a number of reasons ah.. this provides a problem with some institutions. Some of them find it difficult or because of the nature of the gift, or bequest, or purchase under which they acquired title impossible to convey title to the Authority. So the proposal before you permits mortgage loans for the ah... Authority along with the present Authority to ah... issue bond and take title. I will be delighted if there are not questions to ask for your approval of this good legislation."

Speaker Redmond: "Any questions? Any discussion? Representative Barnes."

Barnes: "Thank you very much, Mr. Speaker. Would the Sponsor yield for just one question, please?"

Speaker Redmond: "She indicates that she will."

Barnes: "Representative Chapman, in reading the digest, there is a provision in there that says this Bill would delete the requirement of the Authority to submit applications for health institution loans to comprehensive health planning agencies for review and comment. Would you explain exactly how that will effect the ah... the ah... the institutions that come under this Act?"

Chapman: "I'm glad to and ah...that was what I was about to go into when it seemed to me that maybe I was beginning to bore the Members of the House. The reference to the comprehensive health planning agency has been eliminated because the Health Facilities Planning Act has been inacted by the legislature. The Planning Act, commonly called 'The Certificate of Need Legislation', provides planning constraints and sanctions and hospital development. As a practical matter the ....."

Barnes: "Mr. Speaker, I can't hear what the ah....."

Speaker Redmond: "Will you give the lady order, please?"

Chapman: "Ah.... Gene, what it amounts to is ah... those provisions in the law are no longer necessary since we passed Certificate of Need."

Barnes: "Thank you."

Speaker Redmond: "Representative Lechowicz."

Lechowicz: "One question, Mr. Speaker, if the lady will respond. Jeanie, ah.. under the ah.. the Bill it says that the Authority will permit the ah... or delegate certain functions to an Associate Director. What functions are they delegating?"

Chapman: "Where is that ah... Ted, please?"

Lechowicz: "Page 540 ah.. on the synopsis and maybe the synopsis is in error, but it says that the Authority will delegate...."

Chapman: "I'm looking for the place. I believe that ah... it never occurred to me that that would be something that ah.. would come up. I believe that was what they regarded as one of their minor changes essentially. They are having enough activity so ah.. in addition to a director, they now believe

APR 18 1975

they need an assistant director."

Lechowicz: "I believe they have an assistant, but they're saying that they are delegating certain functions to an Associate Executive Director and I'd like to know what functions they're delegating."

Chapman: "Well, it's ah.. 19 page Act and ah...I'm looking to find the reference in the law and I am sorry. You do not have the Section there ah.. you just are ah...."

Lechowicz: "Jeanie, doesn't it also state that they can refinance the bonds?"

Chapman: "Yes, it does and they were permitted to do that previously."

Lechowicz: "How far back can they go?"

Chapman: "I don't believe that the proposal changes what it ah.. permitted and I cannot answer that question. I cannot find the place where it calls, ..... here we go. The Act provides for the appointment of an Associate Executive Director, but failed to provide the power to delegate duties to such a person. So the intent of the legislation is to permit the director to delegate those duties ah.. that he desires to the Associate Executive Director."

Lechowicz: "All right, thank you."

Speaker Redmond: "Any further questions? Representative Kempiners?"

Kempiners: "Thank you, Mr. Speaker. Will the lady yield?"

Amendment #1 states that it adds non-profit to licensed private hospitals which is included in definition of health facility. What is the effect of that ah.. requirement?"

Chapman: "That was an omission in the original. It was never intended and in the original law there is no permission for any other facility to make use of the Authority, except non-profit."

Kempiners: "All right, now you mentioned earlier in your testimony that this was a Certificate of Need Law, I ah....."

Chapman: "No, I'm sorry. There must have been too much... ah .... there must have been too much noise. What Gene Barnes was, 'Why are we deleting the planning function from the Bill?'

The Bill does provide the original law provided for certain planning functions and the answer is, they are deleting the planning functions since the Certificate of Need Legislation has been inacted. There is no longer any need and actually it would amount to duplication."

Kempiners: "O'kay. You really worried me when I heard that part of it because being the Sponsor of that particular legislation and then reading that ah... I didn't recognize that it belonged there and I think that answers my question. Thank you."

Chapman: "There is no need for concern."

Speaker Redmond: "Representative Ebbesen."

Ebbesen: "Mr. Speaker, would the Sponsor yield for a question?"

Speaker Redmond: "She indicates that she will."

Ebbesen: "You indicated in your testimony that this Bill ah... actually will cost ah.. not a dime of the State of Illinois and then you talk about through the legislation that we would ah... be authorizing a possibility of ah... an Associate Executive Director ah... where does that money come from?"

Chapman: "That money comes from the proceeds of the bonds, which are issued so that the expenses for the administration of the Authority are paid for by the hospitals and other health facilities that make use of ah... the ah...of the Authority. So if you apply to the Authority for help in financing your ah.. building plans then as you pay back the money that you have borrowed, you are also paying back an amount which covers the cost of the administration of the Act."

Ebbesen: "Well, how much money does the state give to the Authority?"

Chapman: "The state does not give one penny. There is not one penny in state money that ever has been used for the Illinois Health Facility Authority, except the paper on which this Bill is printed."

Ebbesen: "Thank you."

Speaker Redmond: "Representative Skinner: "Yes, I regret this Bill did not either go to the Revenue Committee or some

committee where there was a relatively high degree of expertise in financial backing. I'm wondering ah... are these bonds backed by the state in any way whatsoever? Is there a moral obligation that the state will pay them, for instance if the Revenue Bonds default?"

Chapman: "My understanding is that there is not and by the way for those of you who follow bonding pretty closely, ah.. Chapman and Cutler has looked very carefully at ah.. not only the original Act, but at this proposed amendment."

Skinner: "Well of course Chapman and Cutler is only interested in whether it is legal or not. They are not interested in whether the states financial rating goes up or down. At least my knowledge of what their function is. Ah... is there a moral obligation that the state will pick up a Revenue Bond should they default,.. like there is a moral obligation with the ah... Illinois Housing Development Authority Bonds?"

Chapman: "The answer is no, and I might point out that that has not changed in this Bill."

Skinner: "Well, just because it has not changed doesn't mean that the Department of Law is good."

Chapman: Yes, ah..."

Skinner: "Could this bond money be given to a local hospital without legal C.H.P.A. approval?"

Chapman: "No."

Skinner: "Absolutely not?"

Chapman: "It comes under the Certificate of Need and ah... there is no way that they would help ah.. any facility unless the requirements of the Certificate of Need Legislation that we passed last year were met."

Skinner: "That.... perhaps you could broaden my knowledge of that legislation. If a local comprehensive health planning agency or its successor agency recommends that a hospital not be built, is there any way around that local agencies ah.. negative recommendation?"

Chapman: "We are talking now about the Certificate of Need Legislation rather than about the Illinois Health Facilities

Authority ah.. Law. The Illinois Health Facilities Authority Law could not ah... offer under the Illinois Health Facilities Authority Law there could be no help offered unless the Certificate of Need Legislation ah.. has ah.. requirements have been met."

Skinner: I think that your answer is slipping through my question. I think that we're missing each other. I want to know if I .... I guess I want to know whether a Certificate of Need can be issued if the local comprehensive health planning agency or its successor agency does not approve of the Certificate of Need. That is recommend against the Certificate of Need."

Chapman: "I think to be sure that I was giving you an accurate answer I would have to get that information for you later. It isn't relevant to this Bill, but if this is a matter that interests you ah.. I would happy to..to help you get the answer to that later."

Skinner: "Well, I'm afraid that I know enough about health financing and what hospital ah...some hospitals are trying to do to be extremely curious about potential in runs about present regulations that absolutely do... you know, ah... do something that may be different. Representative Kempiners seems to know the answer to my question perhaps if Representative Chapman ah... may I yield to Representative Kempiners to having the answer to my question?"

Speaker Redmond: "You may not yield, but I'll recognize him."

Kempiners: Thank you, Mr. Speaker. I know a little bit about the Certificate of Need, but I don't know very much about her Bill, but I would like to ah... you know, draw a distinction. The Certificate of Need deals with planning. Her Bill or ah.. the Act that she is amending deals with the construction and the question you're asking really doesn't effect what she is attempting to do. The answer to your question is yes, ah.. if a local agency has denied or has recommended against an application there are procedures where they can have that recommendation reversed, or if they recommend for there is a procedure that they may be over-

ruled at a later time, but that should not.... that procedure falls under the Certificate of Need Law and not under the Illinois Health Facilities Act, which she is amending. I'm following some of this debate myself because I have questions on the financing, but I don't think you oughta confuse the two Acts, which I wanted to clarify earlier in my questioning."

Speaker Redmond: "Mr. McCourt."

McCourt: "Mr. Chairman, I would like to ask the Sponsor one question if I may. Mrs. Chapman, as I understand it from the digest and what you have said, ah.. this doesn't cost the state any money." Is that correct?"

Speaker Redmond: "Representative Chapman."

Chapman: "Not one penny."

McCourt: "But yet the Act will give the Authority the power to make mortgages on other secured or unsecured loans for the cause of project defined in the Act or to refinance existing mortgages of these health facilities. Now is not the full faith and credit of the state behind any of the ah.. the ah...Authorities financing methods that they use in giving this money to these institutions?"

Chapman: "I wonder if ah.. I could refer to a similar authority that you might be more familiar with, Mr. McCourt? That is the Illinois Private Higher Education Building Authority of which Representative George Furgget was the Chief Sponsor and ah... we passed legislation last year that did essentially the very same thing to ah.. that authority as we are proposing today for this authority. No, it doesn't cost the state any money. You can look through the Budget as much as you want to, there is no penny anywhere that is spent for the Illinois Health Facilities Authority. The Illinois Health Facilities Authority issues bonds. The proceeds of the bonds are used by ah.. not for profit health facilities in their various plans for building ah... expansion, remodeling ah.. refinancing. The health facilities pay for that. The merit ah... the benefit of applying to the Authority for help, for a loan, is that you are able to get tax exempt money and therefore these bonds are tax exempt and therefore the interest rate is substantially lower and the Illinois Hospital

APR 18 1975

Authority in supporting this legislation originally, pointed out that we could save substantially in the State of Illinois ah.. and are saving substantially now, I might mention, because the state is one of the largest providers in our health organizations because they pick up the tab for the public aid recipients. They pay the Bill, so actually this is not costing the State of Illinois money, but this is saving the State of Illinois money because every Public Aid Bill that is paid, that goes to a hospital where that hospital has used funds made available to it for the Illinois Health Facilities Authority, they have a lower cost or are able to have a lower cost because they have been able to make use of these low interest loans."

McCourt: "Mr. Speaker, may I just get one thing clarified? If there is a particular facility say in Roger's Park and the Authority says that this is a good facility and we're giving.... and they already have a Certificate of Need and it's going to cost \$1,000,000 and they give the ah... issue say \$1,000,000 worth of bonds to The First National Bank of Chicago and let's say after five years this facility turns to be a red hearing and it ah... no one is using it. Who pays the \$1,000,000 of outstanding bonds? Or does the bank eat them?"

Chapman: "There was not going to be a problem. I tried to make that point earlier that these bonds and the law has been looked at very carefully by Chapman and Cutler, the people who are purchasing these ah.. bonds are in ah... in a position where they are getting a very good deal, but the ah... this is like the Illinois Higher Education Facility, the State of Illinois is not liable."

McCourt: "In other words, the full faith and credit of the state is not behind any of the obligations issued by the Authority. Is that what you're saying?"

Chapman: "I wish I could find in the law ah.. the exact language, but we are not liable."

Speaker Redmond: "Are we ready for the question? The question is shall this Bill pass. Those in favor vote 'aye' and those

APR 18 1975

opposed vote 'no'. Representative Skinner, for what purpose do you rise?"

Skinner: "I rise to explain my vote. Since you didn't allow me to yield to Representative Kempiners to continue asking the questions that still have to be asked on this Bill. I'm particularly interested in what specific applications for funding that are now on file with the Illinois House Facilities Authority will be funded as a result of this Bill and I don't know where I'm going to get the answer to that. Maybe we're not going to get the answer to that, but if the Representative is making the argument that we will be saving money through the subsidized interest program, I would like to suggest that if we build excess hospitals in the wrong place, we are not saving money. Dr. Joyce Lashoff herself told me that the evidence is very clear that if you build a hospital, the doctors fill it up and if the doctors fill it up, guess who ends up paying higher medical insurance premiums? The cut-off date is extremely crucial on this proposal and we don't know what that cut-off date is at this time. I would like to quote from the Illinois Economic and Fiscal Commission Report that was approved unanimously last ah... yesterday on bond markets and I would like to suggest that those of you who are at all worried about the Governor's program ah.. for moral obligation bonds, ah.. might take a look at it because it has direct parallel to this issue, I believe. Let me quote from it. Page three. 'There is a strong market for high grade bonds, but there is not much demand for low grade bonds. The market's recent experience with New York Urban Development Corporation, which was not a full faith and credit bond in the State of New York, but a moral obligation Revenue Bond similar to this one, was identified as a major factor behind the markets increasing concern for quality. In fact, the markets reaction to New York's financial mismanagement is strongly conditioning attitudes toward anything that looks like a moral obligation of quote 'gimmick', unquote, issue or an effort to finance current operations through long term debt. Well, I would like to suggest that not all of that .....

not all of that is parallel, but some of it is and I would suggest that answers to questions like these need to be made before we approve this Bill and if it takes 107 votes to delay the passage of this Bill until questions like that can be answered, I certainly would be willing to give one of those 107 votes. So I will vote 'no' at the present."

Speaker Redmond: Take the record. On this question there are 98 'ayes', 2 'nays' and this Bill having received the constitutional majority is hereby declared passed." Ah....

Representative Hart, for what purpose do you rise?"

Hart: "Thank you, Mr. Speaker. This has been cleared with both sides of the aisle. I move to suspend the appropriate rule so that ah... House Bill 337, which is in ah.. Judiciary II ah... the 45 day rule runs today. It is posted for Tuesday and the Bill was heard in Committee last night and because there was not an amendment prepared ah.. it was held in Committee. Representative Katz said that he would ah.. help me to suspend the rule ah... I don't think he is on the floor, but I have discussed it with him. I've discussed this with ah.. the Republican side and I'm advised that there is no opposition to it and so I would like to suspend the rule ah... the 45 day rule on House Bill 337 so that it may be heard in Committee Tuesday."

Speaker Redmond: "Through next Tuesday, is that correct?"

Hart: "That's correct."

Speaker Redmond: "Representative Shea."

Shea: "Mr. Speaker, I think that this is an extremely important Bill. Representative Hart talked to me about it and I suggested that he talk to the Republican Leadership and he tells me that he has cleared it with that side of the aisle and I think that the motion should be allowed."

Speaker Redmond: "Anybody speaking on behalf of the Republican Leadership? Representative Duff."

Duff: "Mr. Speaker, Representative Hart did clear it with us and there is no opposition to this motion that I know of."

Speaker Redmond: "The question is on the suspension of the rules on House Bill 337 through next Tuesday. All those in favor

indicate by saying 'aye', all opposed 'no'.... Roll Call vote, pardon me. I've been advised that I am in error. All those in favor vote 'aye' and opposed vote 'no'. 107 votes. Have all voted who wished? Take the record. On this question there are 133 'ayes' and no 'nays' and the motion is granted. Representative Maragos, 'aye', Porter 'aye'. Representative Beatty, for what purpose do you desire recognition?"

Beatty: "Mr. Speaker and Members of the House, at this time I would like to have House Resolution 208 read, relative to the birthday celebration of my running mate, Mike Madigan. Mr. Clerk, will you please read this resolution?"

Speaker Redmond: "I guess you're out of order right now. House Bill 288. Wait a minute. Representative Berman." Mr. Ebbesen, for what purpose do you rise?"

Ebbesen: "Yes, Mr. Speaker, ah... a point of order here. On these birthday resolutions, we adopted a resolution and I have the Roll Call in front of me ah..... on March 19th to discontinue this practice. I think we oughta adhere to that because it passed out of here at 148 to 0. I would just like to bring that to your attention."

Speaker Redmond: "Thank you, Sir. Mr. Madigan was not born. Representative Berman."

Berman: "Well, Mr. Speaker, ah.. I'm not sure of the ah.. order of ah... that we're on, but 288 was referred back by a motion I presented yesterday to the Appropriations Committee. It's on the Calendar in error and we moved it back to Appropriations Committee on a motion yesterday."

Speaker Redmond: "I would like to advise the Membership that I will have an analysis of all of the Bills pending in the House ah... and you'll have it when you get here Monday. We are going to go to the first order of business which will be Third Reading on Monday at 12:00 and the first Bill will be House Bill #1, which does not expire until the 23rd. Representative Hanahan."

Hanahan: "I was just going to comment, Mr. Speaker and Members of the House, that it is very unusual that a Bill always is

ah... when there is alot of Membership here on the floor, and ah... right now we could debate, I'm sure, House Bill #1 and alot of public employees in the state could have their questions answered on whether or not this General Assembly is in favor of House Bill #1 today. Or it could be put off over the weekend and it could be put off until a time when many of the Members who are traveling to Springfield don't get here on time and it seems very odd that the break-off on House Bill #1 has been projected a few times. This isn't the first time House Bill #1 ah.... and I resent it. I think if it was a Bill concerning usery interest rates; I think if it was a Bill concerning other types of ah... importance to the municipal league and a few other people, it would seem to have some priority. I just wondering why House Bill #1 today is all of a sudden being short-changed again, from being called and considered when there is a full Membership here and ah.... and could be heard and debated right now before the Membership of this House."

Speaker Redmond: "Because the Bills on House Bills, Third Reading would have expired today. House Bill #1 does not expire today and I would like to move to Committees today, that's the purpose of it, Mr. Hanahan and you will be called first." Committee Reports."

Fredric B. Selcke: "Mr. Yourell, from Counties and....."

Speaker Redmond: "Mr. Hanahan, for what purpose do you rise?"

Hanahan: "Mr. Speaker, I believe I need five Members to change the order of business and I would like to now move that we move to the order of House Bills, Third Reading of consideration of House Bill #1. I'd like to have five Members join me in that motion."

Speaker Redmond: "Have five Members joined in the motion? The question is moving from the order of business to House Bills, Third Reading. All those in favor of the motion signify by saying 'aye' and opposed 'no'. Take a Roll Call vote here. Those in favor vote 'aye' and the opposed 'no'. Representative Hanahan, for what purpose do you rise?"

Hanahan: "I'd like to explain my vote."

Speaker Redmond: "Proceed."

Hanahan: "Mr. Speaker and Members of the House, we're not kidding anyone here. Who is trying to kid who? If we want to go and address ourselves to House Bills #1, ah... we had all morning to do that. The dilatory tactics of ah.. fooling around with the Memberships ah... all day has been certainly apparent to me. I'm not a dumbbell, I have been here six terms. I'm sure that both you and I recognize when things happen around here questions are asked to Sponsors of Bills that everyone is for and things of that nature happen and we know what is going on. Labor is not going to take a backseat on this. Once again, if this was a usery Bill I'm sure we would have all sorts of interests in trying to get it passed today. If it were some other kind of Bill for certain other interests, but when it comes to the interests of working men and women that we proport to represent, that we proport when we ask for their help and support, then all of a sudden they are put on the back burner. I resent it in their behalf and I say to, Mr. Speaker, very honestly, if you think dilatory tactics could happen today, just wait and see."

Speaker Redmond: "Representative Giorgi." On this question ~~there~~ there are 47 'ayes' and ah... take the record, ya."

'Ayes', 50 'noes' 62 and the question having failed to receive the necessary majority is lost. Committee Reports."

Fredric B. Selcke: "Mr. Yourell, from the Committee on Counties and Townships, to which House Bills 19,100, 219 and House Bill 426 were referred, returned the same back pursuant to Rule 23 (d), they were ordered tabled. Mr. Washington, from Judiciary I, to which House Bill 239 was referred, reported the same back and the Bill was ordered tabled. Mr. Schneider, from Elementary and Secondary, to which House Bill 514 was referred, returned the same pursuant to Rule 23 (d) and the Bill was ordered tabled. Mr. Katz, from Judiciary II, to which House Bill 738 was referred, was reported the same back with the recommendation that the

Bill do pass and be re-referred to the Committee on assignment of Bills. Mr. Katz, from Judiciary II, to which House Bill 619 was referred, reported the same back with the recommendation that the Bill do pass. Mr. McLendon, from Personnel and Pension, to which House Bill 812 was referred, reported the same back with the recommendation that the Bill do not pass. Mr. McLendon, from Personnel and Pension, to which House Bills 632 and 727 were referred, reported the same back with amendments thereto with the recommendation that the amendments be adopted and those amended do pass. Mr. McLendon, from the Committee on Personnel and Pension, to which House Bills 442, 533, and 574, 631, 634, 876, 987, 988 and 1069 were referred, reported the same back with the recommendation that the Bills do pass. Mr. Matijevich, from Executive, to which House Bills 155, 669, 818, 894, 959, 981, 1051, 1121, 1319 and 1479 were referred, reported the same back with the recommendation that the Bills do pass. Mr. Matijevich, from Executive, to which House Bill 804 was referred, reported the same back with the recommendation the Bill do pass and be placed on the Consent Calendar. Mr. Matijevich, from Executive, to which Senate Bill 122 was referred, reported the same back with the recommendation that the Bill do pass. Mr. Matijevich, from Executive, to which House Bills 905, 982 and 1397 were referred, reported the same back with the recommendation that the Bill be reassigned to the Interim Study Calendar. Mr. Pierce, from Environment, to which House Bill 614 was referred, recommended Bill be referred to the Interim Study Calendar. Mr. Pierce, from Environment, to which House Bills 959, 645, 646, 676, 784, and 654 were referred, reported the same back with amendments thereto with the recommendation that the amendments be adopted and those amended do pass. No further Committee Reports."

Speaker Redmond: "I have another announcement. I understand that the National Forensic League will be occupying the Chambers over the weekend and I suggest that you lock your drawer ah... the drawers of the desks. Representative

Giorgi."

Giorgi: "Mr. Speaker, the Agreed Resolutions, ah... have they been read?" Just the titles or ah.. numbers?"

Speaker Redmond: "Resolutions, huh?"

Giorgi: "The Agreed Resolutions?"

Speaker Redmond: "Agreed Resolutions."

Fredric B. Selcke: "Agreed Resolutions. House Joint Resolution 41, Hanahan et al. House Joint Resolution 42, Palmer et al. House Resolution 194, Rayson. House Resolution 205, Younge. House Resolution 206, Madigan et al. House Resolution 207, Terzich, et al. House Resolution 208, Beatty et al."

Speaker Redmond: "Representative Giorgi."

Giorgi: "Mr. Speaker, House Joint Resolution 41 is Hanahan's and has to do with the Carpenter's Union. Palmer's has to do with the Rock Island Line that is being shut down. Representative Rayson's Resolution has to do with survival week on our planet. Ms. Geo-Karis is in here again about a tree planting at each facility. Younge is honoring the new black Mayor of East St. Louis. Madigan is honoring the Republic Savings and Loan for a fine job in the Rockford and Chicago land area. Terzich honors former Representative Leroy Lemke who went to the Senate as a Senator and I move the adoption of all Agreed Resolutions."

Speaker Redmond: "The question is on the adoption of the resolutions. All those in favor indicate by saying 'aye', opposed 'no'. The resolutions are adopted. Further resolutions?"

Fredric B. Selcke: "Further resolutions. House Resolution 188, Fary."

Speaker Redmond: "Representative Fary."

Fary: "Representative Zeke Giorgi will explain the resolution, Mr. Speaker."

Giorgi: "Mr. Speaker, House Resolution 188 demoralizes Congress to relieve the laws that have banned the advertizing of Bingo on T.V., Radio and Newspapers because we've had such good fortune in Illinois with the Bingo Bill so I move the adoption of Resolution 188."

Speaker Redmond: "Representative Giorgi."

Giorgi: "Mr. Speaker, I move for the adoption of Resolution 188 that memorializes Congress to help us with the Bingo Laws."

Speaker Redmond: "The question is on the adoption of the Resolution. All in favor indicate by saying 'aye', opposed 'no'. The resolution is adopted. Further resolutions?"

Fredric B. Selcke: "House Resolution 198, Geo-Karis."

Geo-Karis: Mr. Speaker and ladies and gentlemen of the House, yesterday I attempted to pass this resolution ah... asking the ah... State Conservation Department to plant a tree at each state facility and I was asked to get a fiscal note. I thought that you would like to know that I did get a fiscal note and I got a letter from the Department of Conservation, which I would like to read to you as follows: 'The Department of Conservation approves of your House Resolution 198 and we will be pleased to plant a tree on our state facilities and now there is a Bi-Centennial Celebration. This will be accomplished by Forest Tree Division at an estimated cost of \$3,000.' So I respectfully move the adoption of this resolution and the State Conservation Department thought it was an excellent idea and they say they've got the funds so it doesn't mean anymore appropriations. Please vote for this very good resolution commemorating the Liberty Tree of the Revolutionary War of 1775. Thank you."

Speaker Redmond: "The question is on the adoption of the resolution. All those in favor indicate by saying 'aye', opposed 'no' and the resolution is adopted. Adjournment Resolution."

Fredric B. Selcke: "Senate Joint Resolution #32. Shea. Resolved by the Senate of the 79th General Assembly, State of Illinois, the House of Representatives concurring herein, that when the Senate adjourns on Thursday, April 17, 1975; it stand adjourn until Monday, April 21, 1975 at 12:00 noon;

and when the House of Representatives adjourns on Friday, April 18, 1975, it stand adjourn until Monday, April 21, 1975 at 12:00 noon, Central Daylight Savings Time."

Speaker Redmond: "Before we put the motion ah... I would like to have that last resolution be returned. I didn't take a Roll Call vote and I guess Representative Geo-Karis is spending alot of money so I guess we better get a Roll Call."

Geo-Karis: "I understand, Mr. Speaker, in order to be proper about this, we do need a Roll Call vote and as I said the fiscal note is \$3,000 for all those trees and the Department of Conservation tells me they have the money so there is no need for an appropriation. I would respectfully ask that all of us vote for this resolution commemorating the Tree of Liberty of the Revolutionary War."

Speaker Redmond: "Representative Shea."

Shea: "Well, Mr. Speaker, before we move to go back, ah... could I just move to adopt the Adjournment Resolution?"

Speaker Redmond: "It's been moved to adopt the Adjournment Resolution. All in favor signify by saying 'aye', opposed, 'no' and the 'ayes' have it and the resolution is adopted. Now we will return to..... the question is shall the House adopt Resolution 198. All in favor vote 'aye' and opposed, 'no'. It takes 89 votes. Have all voted who wished? Take the record. Wait.... Representative Collins wants to explain his vote."

Collins: "Well, Mr. Speaker, briefly to explain my vote in voting against the resolution. I would just like to say ....."

Speaker Redmond: "Your too late on that one, Representative Collins. This is ah... Representative Geo-Karis spending \$3,000."

Collins: "I beg your pardon."

Speaker Redmond: "Representative Schraeder. Take the record on this one. Have all voted who wish? Take the record. 116 'ayes' and 3 'no' and the resolution is adopted. Representative Schraeder."

Schraeder: "Mr. Speaker, I would just like to say it looked like

APR 18 1975

113.

the young lady did her homework. She always does and she is here early in the morning."

Geo-Karis: "Mr. Speaker, I'd like.... I would like anybody who would like to join as a Co-Sponsor of this resolution, feel free to do so and I really appreciate this and I love all of you and thank goodness that we have so many nice guys."

Speaker Redmond: "We're now in adjournment. Wait, wait.... Representative Shea."

Shea: "Mr. Speaker, I move that we do now adjourn until 12:00 noon, Monday."

Speaker Redmond: "The gentleman has moved that we adjourn until 12:00, Monday. All in favor indicate by saying 'aye', opposed, 'no', the motion is carried. Representative Hirschfeld can spend the week-end here."
