Speaker Mautino: "The hour of 10:00 having arrived, the House shall be in order. Members and guests are asked to refrain from starting their laptops, turn off all cell phones, and rise for the invocation and the Pledge of Allegiance. We shall be led in prayer today by Pastor Steve Ziegler who is with First United Methodist and Congregational Church of West Chicago in West Chicago, Illinois. Pastor Ziegler is a guest of Representative Fortner. Pastor Ziegler."

Pastor Ziegler: "Would you all please.. please, as you are led by the Lord, be in an attitude of prayer. Oh God, You created all that is in heaven and earth. You made us male and female, and have given us dominion over that earth. In Your wisdom You allow us to choose right from wrong, good from evil. Through our dominion over the earth and our free will we have chosen self-governance. The women and men gathered in this place this morning have been elected by Your people, the people of God, to speak and act on their behalf, on Your behalf. We pray that You will make Your presence know to them this day and every day, that You will guide them in the decisions they make. It is the prayer of the people of God that their decisions will be in the best interests of the trust You have placed in us to hold dominion over all Your creation on this earth. It is the prayer of the people of God that our work, honor, and glorify You. And we thank You for Your gracious gift of creation and ask that You continue to create and recreate in us the wisdom to make right choices and the passion to live life to the fullest without limiting the ability of

Speaker Mautino: "The Gentleman from Vermilion, Representative Black."

Black: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. This Bill's been worked on for about 4 years and it tries to clarify, I think it does, in

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

fact, clarify what is eligible for the privilege tax as opposed to what will be eligible for real estate tax. Everybody from the county assessors to PTAB to county clerks, county treasurers, Mobile Home Owners Association have all been involved in these discussions. What this Bill does is to make it very clear that a manufactured home in a mobile home park is subject to the privilege tax, which is 30 cents a square foot. After five years it goes down to 7 cents a square foot and one of the advantages under this Bill for senior citizens, once that what I grew up calling a mobile home or a trailer, after that value is down to \$18 thousand, the senior will not even pay the 7 cents per square foot which could save them a considerable amount of money. On the other hand, a modular home, which is a stick built home built in a factory, delivered and installed on your footing, will be considered as real estate and would be taxed accordingly. The mortgage bankers also weighed in on this Bill. They prefer to have this definition because they cannot make real estate loans on what traditionally have been mobile homes. So, I think after many years of work and getting all the people together, we have a Bill that clarifies with the Department of Revenue and the assessors and the Property Tax Appeal Board, what kind of dwelling is eligible for the privilege tax and what kind of dwelling will now be eligible for the real estate tax. And I'd be more than happy to answer any questions that you have."

Sacia: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Mautino: "He indicates that he will."

Sacia: "Representative Black, I applaud your legislation and being an individual who resides in I... I'm trying to determine the latest terminology, but I reside in a mobile home park here in Springfield, having made a significant purchase several years ago in the sum of \$1 thousand dollars for a quality dwelling. And... and as I approach the status that some refer to as senior status, how will this affect me in a 12 X 60 mobile home?"

Black: "Representative, to the best of my knowledge, if... if you have your senior citizen status and the mobile home or manufactured home that you live in is worth less than... I misspoke... it's worth less than \$8 thousand, you will not even pay the privilege tax on that home anymore. You will have no... no personal property tax for lack of a better word on that dwelling."

Sacia: "Representative... Representative Black, my home is worth considerably more than \$8 thousand. I just shared with you what I paid for it, in fact it would be for sale for a significant amount over that, but thank you for your answer."

Black: "In... in your case, you would pay, once you'd live there five years, you'd pay 7 cents a square foot."

Sullivan: "Thank you, Mr. Speaker. To the Bill. Ladies and Gentleman, this Bill for the assessment industry is a significant piece of legislation. A lot of the problems that people have with their assessments is when one assessor follows one set of rules and another assessor follows a different set of rules. What we're doing is telling assessors, or guiding assessors to how we're going to assess these types of properties. And so with that, it's a very significant piece of legislation. It will streamline what we do in our process in regards to these homes. And I want to thank the Sponsor for working diligently over the years to come up with an agreed Bill. Thank you."

Speaker Mautino: "The Gentleman has moved adoption of Floor Amendment #2. All in favor say 'yes'; opposed 'no'. The 'yesses' have it and the Amendment is adopted. Any further Amendments?"

STATE OF ILLINOIS  
96th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

120th Legislative Day

3/25/2010

Colvin: "Thank you, Mr. Speaker. House Bill... I have for your consideration this morning House Bill 4781, which is the State of Illinois's attempt to regulate and bring some regulation to a growing industry, not only in Illinois but in the United States of America. It deals with the businesses of debt settlement, companies who do business with Illinois consumers and people around the country in an attempt to help them resolve outstanding personal debt. What we've found in many of these companies, and not all but many of these companies, quite frankly, is anything but that settlement. Oftentimes, people contract with these firms in an attempt to help resolve their debt. Unfortunately, their success rate hasn't been all what we had hoped for. Now, while they make no guarantees that they will be able to resolve anyone's debt, what... the real troubling problem, with regard to that settlement, is quite frankly, some of their fee structures and what they will contractually agree to accomplish. We've put together a comprehensive Bill, in an exhaustive fashion, to address some of those concerns that exist with respect to debt settlement. One of our main goals was to codify and deal with the issue of how these companies are paid and how they are dealt with in a contractual basis with their clients and potential clients. The Bill makes several provisions, several very important provisions. It allows debt settlement companies to charge their customers a maximum of 15 percent of the savings from which they agreed to settle debt of the debt they actually settle. It provides that secretary of the Department of Financial and Professional

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

Regulation will set application fees for debt settlement providers by rule. It also allows debt settlement providers to charge a onetime enrollment fee of \$50. It provides for a surety bond to be issued for performance of such duties as laid out in their contractual agreement with their customers. It provides a number of other provisions I'd be happy to discuss in questions and answers. I know there'll be questions. I'll be happy to answer any questions that any Members may have."

Speaker Mautino: "The Gentleman has moved passage of House Bill 4781. And on that question, the Gentleman from Lake, Representative Sullivan."

Sullivan: "Thank you, Mr. Speaker. To the Bill. I rise reluctantly to oppose this legislation. Certainly, the Sponsor's done a tremendous job in trying to bring all parties to the table to get an agreed Bill, and he's done a tremendous job getting a large majority of this Bill drafted correctly to end some of the abuses that have taken place, but there is still significant opposition to this and it has to do with how these companies can make a living. And that is the crux of... of what I would like to talk about briefly. You heard from the Sponsor that they can have a \$50 registration fee and the back end make 15 percent of the savings. What that does is force these companies to work for free, in essence, before they may or may not make any money. So, imagine if you were any type of business out there and you were required to perform a service without any money up front. If you're a lawyer, you couldn't have any contingency fees. If you're a

STATE OF ILLINOIS  
96th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

120th Legislative Day

3/25/2010

builder, you'd have to buy all the supplies yourself, build that house and then get paid. This the first time that I realized that we are going to legislate a business model. Imagine that, Ladies and Gentlemen, we're going to legislate a business model. I think that is just inherently unfair to an industry that, well, the Representative has done a very good job to bring needed reform, and the industry embraces that reform, you just cannot ask them to try and work and not get paid. No business can capitalize itself to, in essence, run a contract to save people money for 36 months. They have salaries they have to pay; they have buildings they have to furnish, and lighting that they have to pay for. There's lots of expenses. You're in essences, at the end of the day, going to drive these businesses out of.. out of Illinois."

Speaker Mautino: "Give the Gentleman another minute. Now, this Bill is on Short Debate. There are a number of speakers requesting to speak on the issue. Please give them some additional time."

Sullivan: "Can we move this off of Short Debate, on to Standard Debate, please?"

Speaker Mautino: "Yes, we can."

Sullivan: "Thank you. The other issue that we have here besides whether they can get paid or not get paid is surety bonds. We've had a discussion earlier with Representative Sente's issue in regard to whether we will have surety bonds or not. This Bill treats everybody the same way, whether you're a smaller company or a larger company,

STATE OF ILLINOIS  
96th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

120th Legislative Day

3/25/2010

you're going to have pay a surety bond at the same rate. So, once again, inherently, this is unfair to a lot of the people that are in this industry. Now, I realize that this is a very new and expanding industry and we don't have a lot of rules in place, and that's why we want to do this, but, at the end of the day, this Bill will just simply drive jobs out of the State of Illinois. We really actually don't need this job... this Bill. You can have a one sentence Amendment that basically says debt settlement companies are hereby declared illegal in the State of Illinois. That is the true intention of the Attorney General's Office in regard to this industry. Imagine that. What other industry... what other industry do we want to drive out of the State of Illinois. One person in one elected statewide office can unilaterally decide we don't like you. The doors to Illinois are closed. We don't want your jobs. Is that the message that we want to send out to the world, to the rest of the United States? We don't like you; we have one person that doesn't like you, so please leave. That's what this Bill does, Ladies and Gentlemen. This is an absolute jobs killer. I would hope that we can realize that and vote 'no'. Thank you."

Speaker Mautino: "The Bill is on Standard Debate. The Gentleman from Vermilion is seeking recognition, Representative Black."

Black: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. In all due respect to the previous Speaker, I've lived a little longer than he has and have been in constituent service a little longer than he has. I

rise in strong support of this Bill. My office staff probably deals with 10 of these complaints every month. Ladies and Gentlemen, you've all seen the television ads. Contact us, we'll settle your credit card debt: contact us; we'll get you out of debt: contact us, we'll solve all of your debt problems. Then when you contact them, let me show you what they can do because they are not regulated in the State of Illinois. Let's say that you owe \$15 thousand in credit card debt, not unusual to see today. If you sign a contract with 99 percent of these companies, that company will charge you \$3 thousand in up-front fees before they even begin to deal with your credit card debt. Many of them then tell the consumer, I've had people in my district office, they tell the consumer just stop paying your bills. Just stop paying; we'll take care of it. Well, if you don't have an agreement with your creditor or your credit card company, then your credit score is ruined. You can't do that. You can't just stop paying on these bills. These companies are in business for one reason and one reason only, and that is to make money off the misfortune of someone who has gone into debt, which is not difficult to do in these difficult times. And yes, they will try and help you get out of this debt, but the up-front fee could be far more money than you could possibly pay, so you're further in debt. You know... these companies are operating very, very close to the line of... and there are a few, a few, who are certified as consumer credit counselors and that list is available from the Illinois Attorney General. Now, I had someone from the industry in my office and he

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

was very upset with me that I was going to support this Bill and he said, well Representative, you're putting your fellow Illinoisans out of work. I don't want to put any of my fellow Illinoisans out of work. My district has one of the highest unemployment rates in the state, but if you look at where these companies are chartered and incorporated, 99.4 percent of these companies are not chartered or regulated by the State of Illinois. Most of them come from Texas, Florida and California and I have a file cabinet full of constituents who have tried to get their debts taken care of by some of these companies and they end up further in debt. They end up having wages garnisheed, not to pay off the debt that they wanted to get out of, but by the company who is supposed to get them out of debt. You just can't have a Wild West environment when you get to these things. Like my colleague, I don't like regulations on business. My family's been in a small business environment for 80 years, but we have all kinds of regulations on the family business. We have to have licenses, we have to have audits, we have to do all kinds of things to make sure that what we do is in accordance with the law and the Building Codes. And those laws weed out the bad people in the business, hopefully. This is a good Bill. It's a good consumer protection Bill. It's aimed at companies that are taking advantage of Illinois consumers, not aimed at putting Illinois companies out of business or Illinoisans out of work. Because as I said, almost 100 percent of these companies are chartered in California, Texas and Florida. And I can give you file

HOUSE OF REPRESENTATIVES

after file of my constituents who say they didn't do what they said they were going to do. They promised me everything. I ended up not only still owing \$15 thousand on my credit card debt, but then I ended up owing them 3 or 4 thousand dollars for services rendered which they didn't render. I didn't... I didn't get my debt reduced at all. It's a good Bill. I hope you can vote 'yes'."

Speaker Mautino: "Further discussion? The Gentleman from DuPage, Representative Reboletti. Out of the record. Representative Lang, the Gentleman from Cook.

Lang: "Thank you, Mr..."

Speaker Mautino: "Further discussion?"

Lang: "Thank you, Mr. Speaker. I rise in support of the Bill. This has been worked through very carefully and Mr. Black made some very important comments on the Bill and he's totally correct. Many of these companies will say to the consumer stop paying your bill and they do that because they have been charging based on the person's total debt rather than the amount of money they actually saved the people. This Bill will put a cap on fees and put a... cap on the fees and base the fees on what these companies actually save the consumer, not what their total debt is. What they've been doing has been inappropriate and unfair. There is a place for these companies. I'm glad the Bill doesn't go far enough as to abolish them or make it more difficult for them to do their work because they do provide a valuable service to some of our constituents. However, some of these companies have run amuck, certainly not all of them, but to the extent that some have, we need to rein

in some of the bad practices and this Bill will go a long way toward doing that. I recommend your 'aye' vote."

Speaker Mautino: "Further discussion? The Gentleman from Cook, Representative Zalewski."

Zalewski: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Mautino: "Indicates he will."

Zalewski: "Representative, there... does this Bill apply to the companies that advertise that they'll be able to reduce your tax burden to the IRS?"

Colvin: "It's an element of the business. Certainly, we're talking about companies that contact Illinois consumers with the promise that they will reduce their debt burden. I have seen those ads where those companies specifically speak to reducing one's tax burden, but what we're going on... what we're doing here is targeting the debt settlement companies with respect to many and the vast majority of these cases personal consumer debt, where people have gotten in over their heads and contact these companies to deal with consumer debt."

Zalewski: "But it's your understanding that under the definitions in the Act that a company that represents itself that can lower your burden..."

Colvin: "Yes. Yes."

Zalewski: "...to the IRS is covered."

Colvin: "To your point, yes. Correct."

Zalewski: "Thank you... thank you, Representative."

Speaker Mautino: "He indicates that he will."

Yarbrough: "Representative, I want to thank you for the hard work that you put forth on this Bill as well. To the Bill, Mr. Speaker. I was actually carrying a very similar Bill for the Treasurer's Office and for the Treasurer's Office and the Attorney General's Office to come together and put this Bill forth, I would also want to acknowledge them as well. And ask my colleagues for an 'aye' vote. Thank you."

Speaker Mautino: "Representative Colvin to close."

Colvin: "Thank you, Mr. Speaker. I want to thank my colleagues who spoke so well in defense of this piece of this legislation. Representative Black and Representative Lang, as a result of their years of experience and knowledge, I think did a very good job articulating what we were trying to accomplish on the behalf of the Illinois consumer. This is a very good consumer protection Bill. It has a lot of fixes to a lot of abuses that we've experienced here in the State of Illinois. I want to thank our Attorney General, Lisa Madigan, and our State Treasurer, Alexi Giannoulias, for coming together in a collaborative fashion, to come up with one good consumer protection Bill. Their offices and their staffs have worked very hard to put together what, I think, is a very good piece of legislation that goes a long way to regulate and curb the abuses that we've seen. And the abuses are real. Our Attorney General is suing seven companies, seven, not several, but seven different debt collection companies that have harmed Illinois consumers. These are not frivolous lawsuits. They're very real and

they're asking for very real damages for people who have been harmed by these companies. I appreciate the people who came to committee. Real Illinois citizens who testified and put their business, 'in the street' and told about their enormous debt, how they contacted these companies out of desperation, only to end up in worse shape than when they first made those phone calls. There was an issue brought up about surety bonds. Well, anyone who performs a professional service for you is required to have a surety bond in the State of Illinois. It's standard business procedure. There's nothing new or radical about asking someone to guarantee their work with a performance bond, which is what a surety bond really is. Having said that, I again I just want to thank all those individuals who worked on this. We spent an awful lot of time and effort putting this together. And I'd appreciate an 'aye' vote. Thank you."

Speaker Mautino: "The Gentleman moves passage of House Bill 4781. On that question, all in favor vote 'yes'; opposed vote 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Speaker Mautino: "Representative May."

May: "Thank you Speaker, Ladies and Gentlemen of the House. I bring together a very important Resolution this morning for pediatric cancer awareness, and I'd like to ask in the gallery all of the kids from the Children's Oncology Services, Inc. to arise at this time. This is a salute to these brave children. We have twenty of them who are ages 12 to 15. They are long-term survivors of cancer and leukemia. Their stories are very compelling and I know many of them came to your offices to tell you. From ages 1 and 5 and 6 and 10, they were flown by helicopter to Children's Memorial Hospital. They've undergone radiation. They've undergone chemotherapy. They've undergone blood transfusions. They've undergone surgeries, and they have a very optimistic outlook on life. They are here as a learning experience because they will have health care issues for the rest of their life. They are learning how to advocate and to work with the legislature and other public policy officials to advocate for services that they will need. They are very, very brave children. They're here with volunteers, Penny Yoselle and Jeff Farkas, and I'd like to especially mention Jack Trapani who's, I believe, 12 from Deerfield, who is my constituent. But they've come to visit you and tell you their story. So, we are designating this week as Pediatric Cancer Awareness Week. There are great cure rates, 900 people ages 16-44

are survivors of pediatric cancer and we are grateful for that, but they have long-term medical, financial, psychosocial and neural cognitive problems that will be with them... be with them for the rest of their lives. As they talk to me, and as they talk to you, they said can't we just find a pill so we don't have to go under these radical treatments for our cancer? While they're grateful to be alive, they have gone under some incredible treatment protocols. We are hoping that they will lead long and productive lives. So, whether they become a Philadelphia lawyer, a Chicago doctor, a New York stockbroker, or a scientist, I hope that one of them, or all of us can work with them so that we discover a cure for cancer. I ask you to join me in passing Resolution 858 for Pediatric Cancer Awareness Week. Thank you very much."

Reboletti: "Well, I guess it could. It's the same way as U.S. mail. We have to rely that there's probably some level of inefficiency and probably not 100 percent, but neither is U.S. mail."

Gordon, C.: "Right. And so, potentially a warrant could be issued for someone's arrest based upon notice going into a spam e-mail box. Is that correct?"

Reboletti: "I would find it highly unlikely that people would take e-mail for traffic tickets, which I think this is more or less aimed at."

Gordon, C.: "All right. So, to the Bill, Ladies and Gentlemen. While I'm all for saving money and I'm all for cutting down on... on paper mail and saving trees, and I understand what the Representative is doing. I think this is a dangerous step while moving forward with notice for court dates going into electronic mailboxes for things that could result in lawsuits, result in people's freedom, result in things that could be shut down. While they enter into it voluntarily, people who may lose on foreclosures could go into all sorts of things that they may not necessarily know about. And I think this is a dangerous step that we're not quite ready for. So, while I appreciate the Representative's intentions, I don't necessarily think this is a step in the right direction. And I would request a 'no' vote. Thank you."

Speaker Mautino: "Representative Reboletti to close."

Speaker Mautino: "Lady from DuPage."

Pihos: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. This Bill provides that the Illinois Department of Public Health may present annually a program dealing with playground safety and they shall adopt rules by June 30 of 2011 dealing with playground safety. They may offer the program up front or offer the program at line... online. So,

this is just looking at the safety issue, not making it a 'shall' but a 'may' at this point in time."

Speaker Mautino: "The Lady's moved passage of House Bill 6034. No one seeking recognition, the question is, 'Shall this Bill pass?' All in favor vote 'yes'; opposed vote 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Representative Black, Chapa LaVia. Mr. Clerk, take the record. 114 voting 'yes', 1 voting 'no', 0 voting 'present', House Bill 6034 is declared passed. Representative Hamos, on Second Reading is House Bill 6441. Read the Bill."

Clerk Mahoney: "House Bill 6040... 6441, a Bill for an Act concerning health. Second Reading. Floor Amendment #1, offered by Representative Hamos, has been approved for consideration."

Speaker Mautino: "Representative Hamos on Floor Amendment #1."

Hamos: "Thank you, Speaker, Ladies and Gentlemen. I know we'll be debating this Bill at length on Third Reading. It creates the Illinois Health Information Exchange and Technology Act. It's a major initiative of the administration dealing with electronic medical records. And I... I think this is... it has been a long time in coming. This is part of where we have to go with health care reform, is to reduce costs, reduce errors, provide... deal with racial health care disparities and create a more efficient system. This has been worked out by an important group of stakeholders that includes a broad range from AARP, to the insurance industry, to the State Chamber of Commerce, to the... all of the health care providers. And

I'm open for questions, but I know we'll be discussing this on Third Reading."

Speaker Mautino: "The Lady moves adoption of Floor Amendment #1. And on that question, the Lady from Cook, Representative Mulligan."

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Mautino: "Yes."

Mulligan: "Representative, are these for individual records or statistical records, or both?"

Hamos: "So, what we would be creating under this Bill is a new health information exchange. We're first creating an authority which is a public/private partnership is completely the way you think about it. It has a separate board, mostly of the stakeholders involved in the health care system and they would be, over time, developing a health care exchange, which is an opportunity for health care providers to exchange data, health care data, about individual patients at the time that they need health care under, of course, privacy, under great security measures, and with patient consent. But this is an opportunity for patients to move from one provider to the other and have a... and be able to have access to their health record at the time that they need the service."

Mulligan: "All right. I'm interested in this. I recently updated my will and as part of that there was a service provided from the attorney to a private company that, for a small amount of money, they would put online your medical power of attorney, all the other stuff, and you could also add prescriptions, allergies, different things, and it goes

on a card that you carry in your wallet. So, if you go somewhere, you give them the card. And then I happened to be at a program at Lutheran General and the nurses came up to me and said they were having a problem with records following over nursing home patients. And I thought, well that would be very interesting, if you could put their information on a card, that would just automatically to be hooked around the neck or whatever, so that when they came in, they could do that. Now, what I'm trying to figure out is this the type of thing you're ultimately trying to create? Is it for individual records, or is it something bigger for operations or the number of something, or are you not sure yet exactly what all it's going to encompass?"

Hamos: "I personally believe that the future of electronic health records is that each of us will have something like a credit card in our pocket that will have our entire health record on it. But in the shorter term, every health care provider, whether it's a doctor's office or a hospital, will be incentivized. The federal money... the Federal Government is creating financial incentives for every office and every hospital to become technological and to have electronic medical records for each patient. So, in the shorter term, this exchange will allow for key information to be shared from one health care provider to another at the time the patients need service, but I think, you're raising an important point. Long-term, I think we're all going to have our own card."

Mulligan: "Okay. So, is this... what you're trying to do is just create something that would look at how we would go about

doing this, not actually doing it, or are you trying to actually accomplish it with this Bill or..."

Hamos: "No, this is actually..."

Mulligan: "...subsequent..."

Hamos: "...this is actually a very serious effort, because with this Bill, we would be creating a... a health information authority. We would spin it off... out of State Government. It would set up its own board, and it would begin to work on the standards and the procedures and the protocols that..."

Speaker Mautino: "The Bill is on Short Debate. We'll grant another minute to the Lady."

Mulligan: "Okay. I'm just... I still don't think I have an answer to the question. I think what I'm trying to figure out is... is what you're trying to accomplish with this. And I think it looks like to me, from looking at our analysis, you're trying to capture federal funds in order to do this, accomplish it, and you're trying to put a group together that would be the one's that would do it. And I presume it might go in hand and hand with your, perhaps, new job, but we won't go there. So, it seems to me to be very interesting, and I find it interesting. I just want to make sure that we're not doing it for a private company, we are doing it for the state, and we're trying to recover dollars there."

Hamos: "Thank you. The future of health care, Ladies and Gentlemen, is for electronic health records and electronic medical records, which are what is our... our medical record at the point... at... that the provider has for each of us,

Speaker Mautino: "The Lady's time has expired. Further discussion? Representative Watson on the Amendment."

Watson: "Thank you, Mr. Speaker. To the Bill. I would just like to commend the Lady for a great Bill. We had a... an opportunity to sit down with one of the folks that may be a vendor for this and I think she's onto something. If you have a chance or if need any concerns allayed, I would just encourage you to go talk to her after this. But this is a good Bill and I encourage an aye vote."

Speaker Mautino: "Representative Osmond."

Osmond: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Mautino: "Indicates that she will."

Osmond: "Representative, with this legislation, is this going to help prevent Medicaid fraud?"

Hamos: "Well, I think... I think it will, actually. It will reduce... it will make data available in a very new way. In real time, and we... it will be able... we will be able to track in an aggregate what providers are doing. So, I think it will help that effort as well. It will also, in a very significant way, reduce errors and reduce duplicate services, which is what really boosts health care costs."

Osmond: "Which... so, it basically, it's also helping medical malpractice?"

Hamos: "Well, I think that's right because I think when doctors have information in front them and they're able to see exactly what procedures have been provided, and have been prescribed, it will allow them to all be more effective doctors. So, in that sense, it will... it will also reduce errors and assist in that effort."

Osmond: "And in doing so, it will help with possible medications that are given and what was maybe given previous, the doctors would have a better understanding of what the patient is being given in the way of drugs."

Hamos: "Well, exactly, and not only one doctor, but if, in fact, the patient decides to go from place to place looking for medications that they shouldn't have, they will be, the doctors who before they prescribe, will be able to track, in fact, what has already been prescribed. So, for those patients who are trying to scam the system or trying to get access to medications they shouldn't have, this will also assist in that effort."

Osmond: "Thank you very much. I strong... I stand in strong support of this. I think this is what is needed in the future and I am very honored to, hopefully, be a Cosponsor of this Bill."

Speaker Mautino: "The Lady's moved adoption of Floor Amendment #1. The Gentleman from Cook, Representative Will Davis on the Amendment."

Speaker Mautino: "Your choice."

Davis, W.: "I'll speak right now then. Will the Sponsor yield?"

Speaker Mautino: "Indicates she will."

Davis, W.: "Representative, the dollars that will be used to, I guess, fund this Act, as I read it in the analysis, where will those dollars come from?"

Hamos: "We envision that we will not need state dollars toward this. Now, in the short-term, there are federal dollars being made available to all the states to really launch these kind of efforts, but in the longer term, we think that by creating this exchange, that health care providers will be asked to pay a fee for access to these services. A small fee, but it will be available through that kind of private funding."

Davis, W.: "So, right now, there are no..."

Hamos: "And let me say this to the reason, and this is a very important question and I thank you for asking it. The reason that we are spinning this off as a separate public/private authority is because what we're really hoping is that the stakeholders around the table, including the insurance companies, will be part of funding a full statewide effort."

Davis, W.: "Okay. In order to implement such a health information exchange, there will be the need to contract

with companies to provide various aspects of this, correct?"

Hamos: "Yes."

Davis, W.: "Okay. So, in your language, does your language speak to the contracting that will take place as a result? I'm asking about your language in the Bill. Does it speak to contracting?"

Hamos: "Yes, it does. And I'm going to find the... the language for you."

Davis, W.: "Okay. Well, since you're looking, then can you please also, as you're looking, and hopefully it will be in there, will you speak to the numbers or the percentages that will be given for minority... minority participation, minority companies, Black, Hispanic, other ethnic groups, women? Your language... does your language speak to that?"

Hamos: "Yes, it does. And if we looked..."

Davis, W.: "It does?"

Hamos: "...and we thought ahead, because this is a very important goal of mine to share with you. The Bill says, the authority may enter into all contracts and agreements necessary. The author... the authority's expenditure of private funds are exempt from the Illinois Procurement Code. Notwithstanding this exemption, the authority shall comply with the business enterprise for Minorities, Females, and Persons With Disabilities Act. So, it is fully intended that the fees coming in, which become part of this state fund, and as well as, anything but private funds will be subject to the... the... the minority..."

Davis, W.: "Thank you. So, it'll be subject to... so, we'll... but at some point, will you have specific percentages that exist and which those... that'll have to be met? I'm looking for something very specific, Representative, because generally, when you give the latitude for someone to make those decisions, generally, those numbers for minority participation are extremely, extremely low. And I read also in here that you have \$18.8 million coming from the Federal Government, I assume to help further this effort. And I've been talking to someone from HFS, trying to make sure that there are specific minority goals placed on those dollars as well. And what lead... what prompts this, Representative, is under the past administration there was an \$85 million contract, disease management contract, that was given to a company, not from Illinois, that went out without any minority participation. There is absolutely no reason why that should be. So, my objective is just to make sure that as this comes on board, that we know specifically what will be available for minority businesses, both ethnic and gender minority businesses."

Hamos: "Well, and..."

Speaker Mautino: "The Lady may go ahead and answer."

Hamos: "Thank you. Representative Davis, I appreciate what you're saying because actually, over the next five years, there will be full deployment in all the neighborhoods with all the health care providers for getting online service, I mean, electronic systems in place. And there will be a lot of vendors out there. This Bill is not going to regulate that. The... there will be a lot of activity though for

minority, potentially minority vendors and I... I agree with you that we should take an overview of that, but I don't... it's going to happen in every neighborhood with every health care provider for their own... using their own ways to contract, but this Bill... but this Bill... this Bill... but this Bill doesn't have to do with that. This Bill sets up a small office that provides for an exchange and it will be just one component of a statewide effort. This Bill doesn't do that. And I think to the extent that we should look at that, this does not regulate every provider in the state. It is not contemplated that every doctor... every doctor's office, every hospital has to now come to the state..."

Speaker Mautino: "Gentleman from Vermilion, Representative Black."

Black: "Thank you very much, Mr. Speaker. This Bill came out of a meeting adjacent to my district with the City of Champaign and the City of Urbana. I believe Representative Jakobsson was at this meeting and the municipal attorney for the City of Champaign pointed out that the municipal conviction fee for Vehicle Code violations had not been changed since the early 1980s and remains at \$10. They suggested because of the cost of adjudication and court that this Vehicle Code violation would be raised from \$10 to \$25 because it simply has not kept pace with inflation and the cost of running the county courts. As far as I know, there is no opposition of the Bill. It's supported by the DuPage Mayors and Managers, the West Central Municipal Conference, the Municipal Prosecutors, and the Illinois Municipal League. I'll be more than happy to answer any questions that you have."

Graham: "Thank you, Mr. Speaker. Serving on Human Services Appropriations and having several shelters in my district and in and around the city in the State of Illinois, it's come to my attention that several of the shelters have a hard time operating because their budgets have been cut drastically. Because of the high foreclosure rate, people are needing the shelters more and more. There was also... there is also a waiting list, but the waiting list has grown tremendously. So, I ask for the adoption of this House Joint Resolution so that we can send it on to the President and ask him not to forget about the homeless shelter's facilities."

As you all know, that she will be leaving us today, very soon actually, and... so that she can prepare herself to be sworn in tomorrow as the new alderman in the 29th District. And I'm reminded back in 2003 that we all... we came in together. She was my classmate in 2003 in the 93rd General Assembly. And with the help of Tim Mapes, I tracked down a little information. And the class of 2003 was one of the largest,

I believe, one of the largest classes that was ever sworn into the General Assembly. And there were a total 22 Members that were sworn in in that particular class. And out of those 22, 6 of them have already departed this chamber: Frank Aguilar, Patricia Bailey, Joe Dunn, Robin Kelly, John Millner, and Kathy Ryg. And now we have the honor to add a seventh Member that will be departing from the class of 2003, our friend, our colleague, my travel mate. We had the opportunity to recently travel to Israel together and had a great time. We've shared a lot of laughs, a lot of time. I've had the pleasure of working with her a little bit closer, as treasurer of the Black Caucus, and just to see her leaving and moving on is something that... I'm sad to see her go obviously because she's someone who... when we come down here, of course, we don't know what to do necessarily or exactly how to do it and you have to grow into these roles as Representatives. You learn procedures, you learn your districts, you learn issues and... and she is someone that I can truly say has really grown into the role of Representative. She's done an outstanding job of representing her district, which is a very diverse district on the west side of Chicago and western suburbs, and she's worked hard to be a good Representative. And I have absolutely no doubt that she will be an outstanding alderman of the 29th District, our friend, our colleague, Representative Deborah Graham."

And I just want let Debbie know that it was a pleasure serving with you, and good luck to you in the City Council. Thank you, Deb."

Speaker Mautino: "The Gentleman from Cook, Representative Osterman."

Osterman: "Thank you, Mr. Speaker. I also want to commend Alderman Graham for her success and for her advocacy on behalf of the people of the City of Chicago down here. She has taken up the issue of education, of health care, and of public safety, and when those issues become sometimes volatile or heated, she always dealt with it in a positive way, but as a strong advocate for her community. She will do the same in the City Council. And we wish you all the success in the world. Although the aldermen in the city are able to have conceal and carry, we know that you are not going to take that opportunity. But in all sincerity, I've always appreciated the teamwork and the efforts that you've put on behalf of the people of the City of Chicago and the great State of Illinois and wish you nothing but the best."

Deborah came in in a virtual tie in her first Primary Election. A tie, that had to go to court, that had to be decided, I believe, months after the election. And so, for those in the sound of my voice who don't think that voting matters, it really, really does. I mean, and so for someone who entered here in a tie, you get a certain trepidation about, you know, who are these people, what are they all about, and you're nervous. Myself, I won my first election by 50 votes. You can only imagine the toughness and everything you have to watch and what you do and all the people that you meet from all across the state. And Debbie did have that sort of trepidation and just concern, but also along the way she met some good friends. One who is the former State Representative, Robin Kelly, who were like two peas in a pod among all... in addition to all of the folks that she met here and friendships like that and friendships that help her get through those initial years, and those initial tough times. Since that time, I've witnessed Debbie grow. Grow in a lot of ways in which not only just thinking that folks are out to get her, but to really try to be a spirit and a voice for people in her district. And not just the west side of Chicago, but also the parts in Oak Park that she represents. And to understand, the fact of the matter is, for someone not just to be a Representative but also to grow as a person is a testimony to her and to all of us. And with that I just want to say congratulations. I know she's had some dental work done, and as she's asked me for some dental advice, and that offer... and yeah, I'm a dentist... and I just want to

say all the best to her. You know, the one thing we want to make sure that only our legislation and things that we do that are satisfying our community, but also that we take something home. And Debbie, all of us will take a piece of you home with us, too. Thank you and God bless you."

Speaker Mautino: "Representative Nekritz."

Nekritz: "Thank you, Mr. Speaker. It was indeed my honor to be sworn in with Deborah Graham, back in 2003. But I remember... I remember meeting her, the person that she tied with, in that Primary, because I was part of the candidate training that we had at that time, and her opponent was actually, you know, someone that the rest of us that we're going through that training met, really liked and was like wow, I couldn't even imagine that that other woman could compare or, we don't know her, you know, we hope, we we're telling her this other woman, we hope you stay, we hope your successful, and that other woman that you tied with, you know forget her. And so, when I met Deborah, it was a little awkward 'cause I could remember, you know, meeting your opponent, and I was like well, I hope she... hope she's as nice as that other woman. And I have to say that I would agree with Representative Miller. Watching you grow, and watching you develop as a Legislator, I can't really imagine my experience here without you, and I think the rest of the General Assembly feels the same way. So, you will be greatly missed, best wishes on your new career."

Representative Osterman mentioned the concealed carry and if you decide not to, my seatmate has volunteered to be a surrogate in your place."

Speaker Mautino: "Representative Jakobsson."

Jakobsson: "Thank you, Mr. Speaker. Congratulations to the future alderwoman, my friend and colleague and former seatmate. Representative Graham used to sit in what we then called 'chick row', we were all women in this row. And it was really fun to get to know her. When we first got to know each other, she didn't offer a lot of comment on the floor, and it's really been fun, amazing, and wonderful to watch and experience, and observe Deborah. And as we got to know each other, we talked about our children, our grandchildren, and I hope that we can remain the friends that we've become. Congratulations."

Speaker Mautino: "Representative Bellock."

Bellock: "Thank you very much, Mr. Speaker. I would just like to extend my congratulations and best wishes to you, Debbie, and how much we've appreciated you on both sides of the aisle and especially with the Conference of Women Legislators. All the time that you've put in right from the beginning, in getting involved with mentoring young women and all the other things that we've pursued. So, thank you very much, and best wishes and good health to you."

Speaker Mautino: "Representative Black."

Black: "Thank you very much, Mr. Speaker. I just want the record to reflect that Representative Miller gave a paid political announcement about the importance of voting and

he also gave a professional statement about dental care.  
So, he got two birds in there with one."

Speaker Mautino: "He's a talented man."

Black: "Representative, I wish you the very best. You've been a delight to work with. The Chicago City Council, I know you'll be shocked to know sometimes I don't always agree with them, but they will be well served by your expertise. This Body, unfortunately, will not be as well served by your leaving. I wish you the very best. Chicago is faced with problems as all of the communities in our state are. They're faced with a fiscal crisis as the state is. I know you'll do what you have done here to bring some insight and wisdom to the Chicago city government. But I just would like to say that one of the things I will miss about you is that you have been a person of integrity. You have always kept your word. You... when you said you would check with our side of the aisle or you would bring an Amendment over for us to look at, you always did that. And that's not always the case anymore. It was... legislative courtesy used to be very important down here, perhaps not as important today as it was when I came here years ago, but you've always kept that first and foremost. And integrity and keeping your word will serve you well in your future endeavors. And I wish you the very, very best. And to tell you the truth I'm a little jealous, because I know when that I leave here I won't get these kinds of statements. They will simply be lined up to carry my bags out. But I wish you the very best. Good luck."

Feigenholtz: "Thank you, Mr. Speaker. I, too, want to wish my best to Representative Graham and talk about her unique nature. She is a Legislator who legislates from the heart and I think she has shared her own personal... Deborah, are you crying? She has shared some wonderful things and given us gifts that we will always remember because she has taken a lot of risks here and talked about real life, not only about her constituents and improving their lives, but everyone in Illinois. The City Council is blessed to have you. Please come back and visit. And I'm very proud of you. Good luck."

Speaker Mautino: "Will Davis."

Davis, W.: "Ladies and Gentlemen of the House, I invite you all to Skip Saviano's office to enjoy a celebratory piece of cake in honor of our friend and our colleague, Representative Deborah Graham."

Speaker Mautino: "Representative Mendoza."

Mendoza: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I, too, would like to add my sincere congratulations. And the reality here that, Deb, I'm really, really going to miss you. I think that you have been such an amazing inspiration to so many people. As a colleague of mine, it's been a real pleasure and an honor to have served with you. When the vacancy arose, I couldn't think of anyone that I would personally, had I lived in that district, wanted to serve me more than you. So, I know that the City Council will be well served, but most importantly, the people of your ward are going to be so lucky to have a person who not can just get the job done

because the services and the city services that you'll be able to provide to people, while they're important, and I know you'll be able to do them, you know, a lot of people can do them but the level of service that you'll be able to give your constituents and the caring that you will show for them and that you will display to them is something that not everybody has. You've shown that you care more than so many people day in and day out in this chamber. And you're story is a story of inspiration. It's a story of survival. And it's a story of success. You've gone from a situation that many of us can't even fathom and you have not been stuck there. You've risen out of that dark place, and you've been a really shining light in this chamber and serve as a model and a role model and an example to many, many people, including us, Deb. So, I just want to say it's really, really been an honor for me to serve with you. I congratulate you, but also your constituents because they're in for a really good, positive time with hopefully one of the best aldermen that we will continue to be serving with here in our capacity as the Reps and you as an alderman. But God bless you. Thank you for serving as... as an inspiration to so many and I just love you very much. Congrats."

Speaker Mautino: "Representative Yarbrough."

Yarbrough: "Thank you, Mr. Speaker. So, my tears are matching your tears, but I remember when you came here. And I remember your trepidation and I think today is a wonderful day for you because all of the time that you didn't understand or didn't know what people really thought about

you, Deborah, today you know. I love you. I look forward to our bike rides. Okay? Deborah's district is right next door to mine. I expect to see you. I know you're going to, as you've done here, you're going to excel in the City Council because you've done that here. I look forward to seeing you in the district, in my district, in your ward, because you're now one of my aldermen that I'll be interacting with. So, go in grace and peace, sister. Thank you."

Speaker Mautino: "Representative Joyce."

Joyce: "Thank you, Mr. Speaker. Deb, you know, I... I'll say it in front of you, but... and we've always had some good discussions, but after hearing all of these people get up and talk, I think I must have been asleep the last 8 years 'cause since we came in here, I never recall Black, you know, and you being always on the same side of issues. And I started thinking, you know, this is the Legislature and every day I've always tried to find something, when we're down here, to learn something new. And I think I learned something real new today, you know, I mean, it's finally hit home. I was thinking, wow, listen to all of these people get up and say all these wonderful things about Deb who gave her all these hard times over the years. But I figured out, I mean, I know Black's angle, he wants the free Cubs playoff tickets that the City Council members get, you know. I got to imagine that if you were just another normal Member of the class of 2003, on your way out to another career, you know how you'd get, you know, obviously, you know, your seatmates and you know, Will

Davis would get up and say nice things. And you know, certainly you have great qualities and you've really put your heart into this job. I think everybody realizes that, and I think every Member does, but you're going to the City Council. And as the son of a former alderman, they're all looking for an angle here, Deb, don't believe everything they're saying here. In an effort to keep it light and to understand, I know that there's probably no harder job in government and I believe the smaller, the more local level you get, the harder and more time consuming and more attention you have to pay to your constituents. I think it's a great, very challenging job in a very challenging time and I commend you for taking on this challenge. And I think the people of the 29th Ward, I think the people of the City of Chicago and I believe the mayor of the City of Chicago are very fortunate to have someone that will bring her passion that you bring every day and I wish you the best of luck. But remember, if you weren't going to be an alderman, you wouldn't have the Senator Harmon here, sitting here, looking over you, who I know you've worked so closely with. But I wish you the best of luck and I wish you as much success and joy that you have brought to all of us here."

Speaker Mautino: "Representative Soto."

Soto: "Thank you. Thank you. Deborah, you've been a good friend. I know I call a lot of people... a lot of friends amigas and amigos, but you are a special amiga, and don't you ever forget that. When you mentioned that you were interested in the aldermanic position, I thought there

couldn't be a better person to serve that ward. So, you are the best. I'll always have you in my heart. You're very passionate about the work that you do, and I appreciate it because I have that same passion, too, for my constituents. So, again, I congratulate you and always remember that you have a friend in me."

Speaker Mautino: "Representative Monique Davis."

Davis, M.: "Good afternoon. Deborah, I just want to say that it's rare in this Body that people leave of their own volition and to do a Resolution to someone who's going to what they choose is an honor for all of us. I know that you will be a strong voice for your district, just as you have been here. And I know that you have a wonderful family who'll be glad you don't have to go up and down the highway every week. You'll enjoy that grandbaby. And I want you to do me a favor in the Illinois... of the council. I want to... don't lose your voice. Let us hear from you. Don't lose your voice. You have a strong compassion for people. You have a very vivid way about you, don't lose that. And I have already sent word by... to Deborah's dad, Alderman Mell, and to Zalewski's dad, Alderman Zalewski, to be there waiting for you with open arms and help to guide you in your early days. Congratulations."

Speaker Mautino: "Representative Colvin."

Colvin: "Thank you, Mr. Speaker. You know, it's ironic that only in Illinois can you go from State Government to local city government and it be considered a promotion. But that's what our colleague here is doing today, and it is indeed a promotion to become a Legislator in the third

largest city in the world's greatest country, but it's a challenge I think Deborah is ready for. She got here in 2003, she was green as any of us, and she was full of spit and fire and ready to do the work of the people. And Deborah... and most of us know Deborah is a very intense Legislator. You know, my office is a couple doors from Deborah and most mornings when I come into the Stratton Building all the chairs in my office would be taken out and they'd be in Deborah's office because Deborah knew how to attract a crowd of lobbyists working against all those Bills she was trying to pass. I always tease her about having all those, what I call, 'fetcha' Bills that she would file every year. But Deborah is tested and she's ready. And the people of the 78th Representative District have had the privilege to call her Representative and tomorrow, at 10, the people of the 29th Ward will have a great honor in calling her alderman. She's going to do a tremendous job. And Deborah, while the discussion is going to change from getting the guns off the street to going to block club meetings and talking about getting the paper off the street, I know you're going to handle that with all of the grace and class that you have brought to this job. We've shared a lot of jokes and laughs over the years sitting here, and I think you're going to do a... just a fantastic job. You've become a real good friend to me and my family and we wish you nothing but the best. And in another month when you get on that bus with those 20 or 25 other alderman that come down here looking for money, we know right now that you can give them the answer and save

them a bus trip. So, with that, I wish you all the best. You're a good friend and a good colleague. I wish you all the best."

Speaker Mautino: "Representative Flowers."

Flowers: "You know, Deborah, it seems like it was just yesterday with the flip of a coin that you came into all of our lives. And so, that was the beginning of your lucky stars. And I hope that when you go to the City Council you continue to take those blessings and that luck with you. I've enjoyed your tenacity. I watched you grow over the years, and I can truly say, as I've often said to you, that you reminded me of my little sister and you know what little sisters are like. So, good luck to you, and may you give them hell in the City Council. Thank you very much."

Speaker Mautino: "Representative Golar."

Golar: "Thank you, Mr. Speaker. Deborah Graham, such a pleasure to work with you, and also now to congratulate you on your new endeavor. I think the closeness that we had had to do with some of the legislation that came out where you and I were attacked, and you were the only person that I could cry with, and say can we make it with all of the criticism that we're coming up with. And I appreciate that because now, I don't know who I'm going to cry with. But, I want to look back at March of 2009, when you were... you had taken over our conference and there were a lot of things that were going on and yet we were somewhat reluctant in terms of following your lead, but it turned out to be a wonderful conference. And at that conference, I actually wrote... actually sang a song to you, and I'm

going to do that right now. We're happy for you. We're happy for you, Deborah Graham. We're happy for you. When I heard the news, my heart was amused. Deborah, we're happy for you. As this celebration takes place, the angels will sing, Deborah, we're happy for you. As this celebration takes place, the angels will sing, Deborah, we're happy for you. We're happy for you. We're happy for you. Deborah, we're happy for you. Oh yes, we're happy for you, we're happy for you. Speaker Madigan is happy, Will Davis is happy, Ester Golar is happy, the Black Caucus is happy and we are so happy for you."

Speaker Mautino: "Welcome, Senator Harmon. Representative Brauer, who is happy."

Brauer: "If I sang it would bring tears to everybody's eyes, so I'm going to refrain from that. They won't even let me sing happy birthday to my own children, I'm that bad. Debbie, I want to congratulate you. You know, I mean, I'm a little like Representative Black, that we've agreed a few times... few times we haven't agreed, but I guess what I've always appreciated about you is your passion. And it's not only the passion for the job you do, but it's the passion to... to really... to try and understand at times what we are downstate. And because you wanted to be a friend of agriculture in Menard County, you came down to my county and really applied yourself, tried to expand your horizon and understand some of the issues that we have down here in rural Illinois. Now, I know you're probably not going to miss the cornfields and cornfields and cornfields and cornfields on the trip down, but I think you will certainly

I was okay until you started crying and then I said, well, I don't think I'm going to say anything because every time I look at you, then I start crying, too. But I guess, I just want to say that, obviously, you're going to be living in the same state with me. We'll be seeing each other at probably many of the events, whether they be community or political, and you should know, that whatever I can do to make your job easier, I'm there. Godspeed to you. And I know you're going to do a wonderful job and be an asset to the City Council in the City of Chicago. You're wel..."

Speaker Mautino: "Representative Harris."

Harris: "Thank you, Mr. Chairman. Representative, you know, there are so many interests that clamor for our attention down here. You know, you walk out that door there are all sorts of lobbyists representing all kinds of interest groups that all want something. And I think it just speaks volumes about you as a person that as your last act of all the people who wanted your help, of all the people who you could have helped out as you left here, that you took the time to care about those who are homeless, those who struggle, those who, from no fault of their own, are in need of hope, inspiration, and help. You are truly an inspiration to me, to the other Members of this Body, for your caring about those who are the least of us and hoping

Speaker Mautino: "Representative Collins."

Collins: "Thank you, Mr. Speaker. I just want to say good luck to you Deborah and try to enjoy life. All right."

Speaker Mautino: "Representative Ford."

Ford: "Deborah, I wouldn't let you leave without telling you how you made my road here easier by just taking me right in your office and teaching me how to do things. You know, it's not easy when you come down here, you really don't know where the bathroom is. You know, and you showed me how to service the constituents in an easy way. And you had no problem with that, so I really appreciate that. But I... I'm going to agree with Kevin, you're my alderman. So, I'm going to get my service request in right now. So, I look forward to you representing me as the 29th Ward alderman. And I know where you live and I'll just put my request in your mailbox."

Speaker Mautino: "Deborah, good luck to you in the... in your future service to the city and thank you for your service to all the people of the State of Illinois. Representative Will Davis for a final announcement."

Davis, W.: "Ladies and Gentlemen, stand up and give a round of applause to the newest alderman in the 29th District, our former colleague, Representative Deborah Graham."

Graham: "Well, today is certainly a bittersweet day. When I came here, I did not feel like I fit in. It was a big place, it was a new environment, and I had a tough time fitting in, but I came to love this place. I was exposed to so many different industries in working with my colleagues on both sides of the aisle. It's easy to get a misunderstanding, in terms of how people really work issues and not being a... being a sore loser at times, but I've learned a lot from each and every last one of you. You have really helped me grow in this process, and I've learned a lot. I could say that this place has truly changed my life. I've had an opportunity to travel to places I wouldn't have ever been able to travel. Most of you don't know that in one point in my life I was homeless, for about 8 months, was a survivor of domestic violence, and when you go through trauma like that, it takes the wind out of you. It takes a whole lot to bounce back. I come from a place where I was afraid to drive my car, to driving up and down the highway, three hours each way weekly. I was afraid to drive the highway, but each step, God broke shackles off of my life. And that's what I wanted to come here and do, break the shackles off of my constituent's lives and work through some of the tough issues that our communities had. I want to thank each and every last one of you for helping me, advising me, and just correcting me when I was wrong or made some missteps. And I just want to thank the Speaker of the House, Michael Madigan, for just being who he was. His yes was always a yes, and his no was a no. Everybody around the world or around the State of

Illinois has a story to tell about our Speaker, but I'm here to say that I am glad that I've had an opportunity to know him, and not be affected by the other stories that are told of him. I want to thank him for his character and just working with a person, like myself, and just saying, you know, you need to take a step back or just rethink this, trying to help me not fall on my face at times. So, I want to thank him for his leadership and his guidance through some tough times of learning how to make the proper decision down here. I want to thank the Illinois Legislative Black Caucus, and all of my colleagues, the class of 2003 in helping me to develop throughout this time. And my family who has allowed me to take the trips and be away from my house, you know, half the year, and thank everybody, lobbyists and all. I'm going to tell the story of the General Assembly. When I leave here, I won't let them trash you and say that we're not working hard down here, 'cause I know that people on both sides of aisle do what they have to do for their constituents. I do think that we can do better and I hope that we can pass a budget that will help all of our constituents, and we can find some revenue, that we're not going away and leaving people hanging. And that's not to put anyone on the spot, but having served on Human Services Appropriations since I've been here, the one thing that's been consistent, I've heard the pain of our constituents, wondering how they were going to make it the next day, or how they were going to survive without a particular program. So, I would ask you guys to help out in that measure and let's find a solution and you

Speaker Mautino: "Third Reading. Representative Senger, House Bill 5656 is on Second Reading. Would you like to move this Bill to Third Reading? Read the Bill."

Clerk Mahoney: "House Bill 5656, a Bill for an Act concerning education has been read a second time, previously. No Committee Amendments. A Floor Amendment has been referred to the Rules Committee but not reported out. No Motions filed."

Speaker Mautino: "Leave this Bill on Second. Representative Reitz, House Bill 5991 is on Second Reading. Would you like to move this Bill? Mr. Clerk, read the Bill. The Bill is on Third Reading. convicted of involuntary manslaughter, who kill a baby by baby shaking and people convicted of endangering the health or life of a child who kill a baby by baby shaking register on the child murderer and violent offender against youth registry. I request your support of this Bill. And I'm open for the floor to any questions."

Speaker Mautino: "The Gentleman certainly knows how to choose a first Bill. On that, the Gentleman has moved passage of House Bill 5762. The Gentleman from Vermilion, Representative Black."

Black: "Thank you very much, Mr. Speaker. Will the Gentleman yield?"

Speaker Mautino: "He indicates that he will."

Black: "Representative, don't hide behind the good will from Representative Graham by trying to present this Bill. This... this Bill seems to only apply to someone who is found not guilty by reason of insanity. Is that... is that what the Bill does? If they're found not guilty by reason of insanity, then they're going to have to register?"

Carberry: "No. That's not accurate."

Black: "Well, let me read what staff says. Provides that a person convicted, found not guilty by reason of insanity, or found unfit to stand trial for the offenses of involuntary manslaughter where baby shaking was the proximate cause of death, or endangering the life or health of a child, resulting in the death of said child, where baby shaking was the proximate cause of death must register on the child murder... murderer and violent offender against youth registry, defines baby shaking. Now, what I don't

understand is provides that a person convicted or found not guilty by reason of insanity. If they're found not guilty by reason of insanity, then how can you make them register for anything?"

Carberry: "Because they're still a threat and the public should still be aware of... and our children should be protected, our youth, should be aware and have access to the information of someone who committed a violent act against our youth."

Black: "I... I have no disagreement with that. Are you an attorney, Sir?"

Carberry: "Pardon me?"

Black: "Are you an attorney?"

Carberry: "No, I am not."

Black: "Do you have a staff person over there with you?"

Carberry: "Yes, right behind me."

Black: "Okay. I... I just was under the impression that if you're found not guilty by reason of insanity, then no verdict is rendered and I'm not sure that the court could order that person, who in effect has been acquitted for lack of a better word, to register as a violent offender. In other words, if they were found not guilty by reason of insanity I assume that they're free to walk out of the courthouse. We may not want them to, but I assume that they can, and that they would not then be... would not be able to be forced to register on what you're attempting to do."

Carberry: "It is not an acquittal that... what you described is not an acquittal."

Black: "Hang on a second. All right. I stand corrected. Staff said the court would not order the person to register, the Bill that you're passing by statute would have them register. So, I think that... that's the distinguishing differential because I don't think that the court could do it. So, that straitens that out, and I appreciate your indulgence, Representative. Ladies and Gentlemen of the House, it has been a long-standing tradition..."

Speaker Mautino: "Grant the man additional time."

Black: "Yeah, I'll finish up very quickly. It's been a long-standing tradition that on any Legislator's first Bill we can have some fun with it, and try to poke some holes in it. I would simply suggest to you that there's nothing funny about this Bill. There's no way to poke a hole in this Bill. I've had two of these cases occur in my district in the last year. This is a horrific crime. I have a Bill that I think has already passed the House and in the Senate. I think the Gentleman has a good Bill. I think this is a... something that we don't need to joke about it. We don't need to have fun about. There's nothing fun about going to the funeral, as I did, of a two-and-a-half-year old baby who was shaken to death by a person who should have known better and was convicted and will serve less than two years in prison. It's an outrage. The Gentleman is trying to correct something that needs to be corrected. I commend him for it. First Bill or last Bill or second Bill, a good Bill is a good Bill. Let's vote 'yes' because these kinds of cases of child abuse are on

the increase and it's time we get serious about it and it's time we tell the judges in the courts we're not going to stand by and let you sentence someone to less than two years in prison for violently shaking a two-and-a-half-year-old baby to death. Congratulations, Representative. Your first Bill is a good Bill, and I intend to vote 'yes'."

Speaker Mautino: "Representative Reboletti."

Reboletti: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Mautino: "Indicates that he will."

Reboletti: "Representative, one of the issues I do have with this Bill, in all seriousness, is the proximate cause language that you have in there 'cause when you add a civil burden into a criminal case, it's a conflict. In a criminal case everything has to be proven beyond a reasonable doubt and here you're adding a civil cause, a civil burden of proof, which is tip... just tipping the scales about 51 percent sure that something happened. And that... a preponderance of the evidence has been tossed out by the Illinois Supreme Court in a case that I worked on out of Will County with respect to the proximate causation dealing with a reckless homicide case. Have you talked to staff or to others or has anybody else shared this concern with you?"

Carberry: "What exactly is your question?"

Reboletti: "Well, the problem, Representative, is that you're putting a civil cause, a civil burden of proof, into the Criminal Code. And my concern is that if this becomes the law, that at some point it will be challenged and it may be

found to be unconstitutional. So, I want to make sure that if we're going to do something and I have prosecuted shaken baby cases before, that what we're doing here is going to pass constitutional muster and I'm... and I'm... passed the part of it's your first Bill. I want to make sure that we're not going to pass something that's unconstitutional."

Carberry: "Based upon the review of the staff, there were..."

Speaker Mautino: "Turn the Gentleman's mic back on."

Carberry: "After review of the staff, we do think it's constitutional and will... it will pass. It will uphold."

Reboletti: "Representative, with all due respect, I don't know if it is constitutional. I don't have... I'm not a judge at this time but I can tell you that having dealt with these types of cases, when you add approximate causation into a criminal case, the courts are going to error on the side that you had to prove up everything beyond a reasonable doubt and that I just don't want to help you pass the Bill so we can pass it out of here, but I want to make sure that we do it right. And I think that it would still have to be proved beyond a reasonable doubt that the shaken baby case, when that person caused that child's death beyond a reasonable doubt. Even though in this type of case you're looking at the person being either convicted or being found not guilty by reason of insanity. If you're convicted of the case, obviously, we've already reached the burden of proof... of proof beyond a reasonable doubt. With respect to what Representative Black was talking about, the court still set... puts you into some type of sentence when it's not guilty by reason of insanity, usually it's like in

Carberry: "We're okay with taking it out for a moment and putting it back in."

Speaker Mautino: "We will return to the Bill during that order. This is a legitimate request."

Reboletti: "Thank you."

Speaker Mautino: "Take the Bill out of the record. On page 21 of the Calendar, Representative Farnham, House Bill 6748. Mr. Clerk, read the Bill."

Clerk Mahoney: "House Bill 6748, a Bill for an Act concerning State Government. Third Reading."

Speaker Mautino: "Representative Farnham."

Farnham: "Thank you, Mr. Speaker, Members of the House. HB6748 authorizes DCEO to establish a contingency allegation to pay certain reimbursements to sellers of white good appliances who participated in the white goods appliances portion of the Retail Energy-Efficiency (Sic-Efficient) Appliance Program. This is ultimately a completely federally funded program similar to the auto industry cash for clunkers. DCEO already has on hand enough designated federal funds to cover the cost of the program. I urge a 'yes' vote."

Speaker Mautino: "Gentleman moves passage of House Bill 6748. And on that question, the Gentleman from Crawford, Representative Eddy."

Eddy: "Thank you. Will the Sponsor yield?"

Speaker Mautino: "Indicates that he will."

Eddy: "Representative, would you kind of describe to the Body how this program works in practical terms."

Farnham: "Yes. It's determined that the contingency allotment needed to pay the program participants..."

Eddy: "I mean, there's a rebate involved..."

Farnham: "There is. The state contingency allocation is put in place to bolster confidence among appliance merchants participating in REEAP that they will be reimbursed in a timely matter for in-store rebates given to customers trading in designated older household appliances for new, more energy-efficient. Any money advanced by the state by DCEO to participating appliance merchants, shall be reimbursed into the GA... GRF."

Eddy: "Okay. So, my understanding is, the appliance has to be certified or qualified as an Energy Star appliance and it applies to clothes washers, dishwashers, freezers, air conditioners, that type of appliance. And if you go purchase an appliance that qualifies, you get a point of purchase rebate from the retailer and then the retailer would request that the rebate re... be reimbursed?"

Farnham: "That's correct."

Eddy: "So, my only question is, is this money that's already deposited... received from the Federal Government that the retailer is guaranteed to receive their rebate?"

Farnham: "Yes."

Eddy: "So, the money is here. It's on hand. It's not some..."

Farnham: "It is."

Eddy: "All right. Thank you, Representative."

Farnham: "No. This is federal money."

Nekritz: "Only federal money that's sitting in DCEO?"

Farnham: "We will put a GRF backfill in this, but we'll never touch it because the money is there."

Nekritz: "Okay. I guess I'm a little... I'm still confused because I thought... yesterday I was told that there... that the reason for this was because we were concerned that the federal money, the stimulus money, was going to be insufficient to meet the demand that there were going to be hoards of people coming in to buy these energy-efficient appliances, and we were concerned that retailers would be... would... would use up the federal funding and then this was a back stop to have state funding available in order to assure that the retailers were not out the money. Is that... did I misunderstand?"

Farnham: "The department doesn't believe that that would occur. This is a feel-good measure for the merchants, just to ensure them, but the department believes that there is enough money to cover the program."

Nekritz: "So, they believe that there... that these hoards of people are not going to show up on day one and eat up all

the federal money and then we have to dip into state money.  
Is that..."

Nekritz: "Okay. Thank you."

Speaker Mautino: "The Gentleman has requested passage of House Bill 6748. All in favor vote 'yes'; opposed vote 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Representative Hamos, Berrios, do you wish to be recorded? Mr. Clerk, take the record. 112 voting 'yes', 2 voting 'no', 0 voting 'present', House Bill 6748 is declared passed. Representative Smith, House Bill 6749. Mr. Clerk read the Bill."

Clerk Mahoney: "House Bill 6749, a Bill for an Act concerning appropriations. Third Reading of this House Bill."

Speaker Mautino: "Representative Smith."

Smith: "Thank you, Mr. Speaker, Ladies and Gentleman. This is a supplemental appropriation for the... the cash for appliances program, similar to the cash for clunkers. This is an appropriation to the Department of Commerce and Economic Opportunity. It's a companion Bill to Representative Farnham's Bill, which I believe we've already addressed. This is simply to make sure that there are funds in this program that will be reimbursed by federal funds. And this is simply to provide, I think, the confidence that is needed on the part of appliance retailers throughout the state that we do indeed intend to support this program. This is an initiative of the

Illinois Retail Merchant's Association. And I know of no opposition. I'd be happy to answer any questions."

Speaker Mautino: "Gentleman's moved passage of House Bill 6749. On that question, the Gentleman from Crawford, Representative Eddy."

Eddy: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Mautino: "Indicates that he will."

Eddy: "Representative, I just want to clarify this point, and I think it's been made a couple of times. This is general revenue that the state is kind of making available in an appropriation in addition to the federal money or to guarantee that the federal appropriation has the appropriation authority to be paid?"

Smith: "It would be the latter, Representative. It's to guarantee the full faith and credit, if you will, of the State of Illinois."

Eddy: "So, we're not going to spend any state money directly on rebates for appliances at a time when we have the type of deficit we do. What we're doing here is we're making the appropriation so that there will be something behind the federal money."

Smith: "That... that is correct."

Eddy: "All right."

Smith: "We are in line to receive \$3.4 million from the Federal Government. So, this is just making sure that that is in place, giving the assurance to the retail community that in offering these rebates, that there will be money in place and that they're not going to be caught up in all the budgetary problems here in Springfield."

Speaker Mautino: "Further discussion? Representative Mulligan. Representative Mulligan."

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Mautino: "He indicates he will."

Mulligan: "In my eagerness to overturn the last Bill because I don't see spending 3.4 million on this, I wasn't paying total attention to what Representative Eddy said, and supposedly as your staff is telling me this is paid by the Federal Government. But quite frankly, since we're not getting money back for education and we're not doing a lot of things we should be doing, \$3.4 million for appliances seems to me a little bit to generate consumerism that we could best be used in other ways. So, I'm not particularly in favor of this Bill. It sounds real good, and it sounds like the Federal Government's paying for it, but some of this stuff is idiotic. I'm sorry."

Speaker Mautino: "Further discussion? The Gentleman from Champaign, Representative Rose."

Rose: "Thank you. To the Bill. Danny, this is exactly why I voted 'no' on the last Bill. Three point four million is two weeks' worth of payroll at Eastern Illinois University. districts. Three point four million's a lot of money when we haven't paid teachers, universities, health care vendors, all of our vendors. I intend to vote 'no' again. Thank you, Mr. Speaker."

Speaker Mautino: "Further discussion? The Gentleman from Madison, Representative Hoffman."

Hoffman: "Thank you, Mr. Speaker. To the Bill. To the previous speakers, this is not state money. This is federal money that's going to be... come to the state for this program. The Department of Commerce and Economic Opportunity has indicated that they're not going to take a chance of having any state money be put into this program. This is a program that's going to put people to work in Illinois by selling appliances. It's going to help out the retailers. If the retailer sells the appliance, they want to make sure they're going to get their reimbursement. They want to make sure they're going to get their money. This is just a backstop to make sure they're going to get their money, not one state dollar. Vote 'aye'."

Speaker Mautino: "Representative Coulson, the Lady from Cook."

Coulson: "Thank you, Mr. Speaker. The concern that I have and under our fiscal summary, this is GRF money. Is that correct?"

Speaker Mautino: "Representative Smith."

Smith: "Yes, Representative Coulson, that is correct. This would be general revenue funds, but let me... let me just state as Representative Hoffman did. You know, we're talking about a federal program and federal funds that we'll be receiving. So, this is not money that could be

used to operate any school district or pay any payroll at a university."

Coulson: "But... I've been on appropriations committees for 14 years, and when there's federal money available and we need to appropriate it, it's under the federal fund line item, not GRF. And so, I'm very concerned that you have it here under GRF and while I understand it's not your intent, because I know how important education funding is to you, because it's under GRF it could be money taken from other GRF programs. It might not be education, it could be corrections or it could be somewhere else. Normally, in an appropriations Bill that's going to be federal funds, you have federal fund lines and it's stated that it's federal funds. So, that there would never be the inadvertent mistake of taking it out of GRF. And that's my concern on this particular Bill. If we can fix that, I would be... I agree it sounds like a good backstop, but I'm very concerned that it's under GRF. And I would urge an 'aye' vote as long as it's under the GRF portion... 'no' vote."

Speaker Mautino: "Representative Fritchey."

Fritchey: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Mautino: "Indicates he will."

Fritchey: "Representative, I want to make sure that I understand this in relatively simplistic terms. We're looking for three and a half million dollars to essentially advance money to these retailers that they should be getting from the feds anyway, correct?"

Fritchey: "Representative, I apologize. I just wanted to make sure that I'm going in the right direction with this line of questioning."

Smith: "I understand."

Fritchey: "All right. Let me... I appreciate our staff giving some additional information. Let me try it from this way. Is... is there any circumstance under which the state could wind up on the hook for dollars for which they are not reimbursed from the Federal Government?"

Smith: "No, the... my understanding is that the allocation from the Federal Government has already been approved. And so it's simply a matter of getting those funds from Washington. So..."

Fritchey: "Is it... do we run any risk that the amount allocated by the feds will not be sufficient to cover the payouts that would be made under this... under this fund?"

Smith: "No. We're told by the department that, no, that's not the case."

Fritchey: "So, this is simply being used really as a stopgap to provide the payments to the retailers while the federal money is being processed? But the... the federal money's in already isn't it? So, if the federal... and I'm not... I'm not

Smith: "Representative, I... the merchants, the retail community have asked for this... this extra protection. I think you would agree there's a lot of skepticism among businesses in the state that we will do what we say we're going to do."

Fritchey: "Well, I understand why the skepticism would exist as to what the state does, but why are they looking for extra protection for federal moneys that are already been received apparently?"

Smith: "I don't..."

Fritchey: "I mean, it... it's almost like there asking for a guarantee for funds in case the funds don't come in, but we're being told that the funds are already in."

Speaker Mautino: "Grant the Gentleman an extra minute."

Smith: "That's right."

Fritchey: "All right. Now, I find it odd that we are potentially extending \$3.4 million just to give them peace of mind, but if somebody deemed that it made sense to put \$3.4 million dollars out there that won't be used simply to give them peace of mind, that's fine. I just wanted to make sure, and I'm not taking issue of what you're doing, I just wanted to make sure that people understood here that based on what I'm being told, and I trust Mr. Lowder implicitly on these things, that we do have no exposure here. Speaker Mautino: "The Gentleman's time has expired. Very briefly, John."

more sense it makes. Thank you. And I request an 'aye' vote. Speaker, thank you for your indulgence."

Speaker Mautino: "Representative Hoffman, on a point of clarification."

Hoffman: "Yes. I just wanted to clarify. I did... I did misspeak. It is GRF money, but the money, the GRF money is not going to be used. The GRF money is not going to be used. There is federal money that is available. It's already at DCEO. DCEO is going to monitor the program. This money is to ensure that appliance dealers will participate in this program, put people to work, and get this up and running. There's no intent to utilize the GRF money."

Speaker Mautino: "Representative Washington."

Washington: "Thank you, Mr. Chairman. Will the Sponsor yield?"

Speaker Mautino: "He indicates he will."

Washington: "Mike, let me ask you a few questions. So, this is the program that is basically... the Federal Government, it's their program, right? Correct?"

Smith: "That is correct. Yes."

Washington: "And so, the business security, the retail merchants want the state to put a risk capital reserve in a series of events of assuming that the money will run out. Is that correct?"

Washington: "Well, see that's the same thing I just said. So, I may want to state..."

Smith: "Sorry, I didn't hear your question."

Washington: "Okay. I'm sorry. So, I'm trying to understand it. So, the retail merchants want the state to put together risk capital to back up this particular program of the Federal Government in terms of appliances and they want this reserve, 3.4 million to be set aside as a constit... contingency capital that if the money runs out, that they won't have any loss and it'd be a total complete win-win program for them, but yet the state will have maybe a shortfall in... How... how would the state recover it's... it's losses, if that happened?"

Smith: "Well, you're right on the first part, Representative Washington. Any funds that would be expended would be reimbursed by the money that is coming from the Federal Government."

Washington: "So, in other words, we would be the ones having to collect from the Federal Government rather than the retailers waiting for the Federal Government? So, the state would assume the risk of the retailers, basically. That's what they asking us to copartner with them, in a situation that might prove very prosperous, but at the same time they see possibilities that it might not be as prosperous and that they may have losses and have to wait..."

Smith: "Yes. This is just a reassurance to the retail community."

Washington: "You know, let me say this, Representative. That's a... that's a good business deal, if you can get it like that, but you know, nobody backs my risk and I'm just saying that I think our retailers are taking a chance or put in a position where they might not be comfortable, but I think at a time of economic crowd that we're facing, I don't know if this would be in the best interest of the entire state 'cause everybody's not going to have an appliance to bought off."

And so, to the extent that we're receiving the money from the Federal Government, this just simply gives some assurance to the retail community that indeed, if they participate in the rebate program and the incentives that are offered, that they're going to receive the money, which comes from the Federal Government through the state."

DeLuca: "That's basically what this program is. And the money that the Federal Government is allocating to this for Illinois is how much?"

Smith: "Three point four million."

DeLuca: "Okay. So, at the time that that money is used up, from the time the money is no longer available, there's still sales taking place by businesses in Illinois? The money that is due to the retailers from the time the money is used up to the time they are notified the program is cancelled, that's the insurance program that they're asking from the state. There are no state matching dollars or no state dollars to extend the program or to cover that gap period that you might be talking about. I believe the department will fully manage what is approved and keep it under the constraints of \$3.4 million. This is, as we've said, an assurance to the retail community that the state is fully behind this measure and if there were any state funds expended, they would be reimbursed by the federal funds."

DeLuca: "And what are the retailer merchants looking for? If it's federal money, what are they looking for from the state?"

DeLuca: "...that's what I'm trying to figure out is, I... the way I understand it is the state... we are taking some of our GF... Smith: "The federal allocation is 3.4 million."

Rose: "So, it's got 3.4 million federal. Okay. So, there's 3.4 million and the department believes that they can stop the program at exactly 3.4 billion (sic-million) worth of vouchers... rebate requests being submitted."

Rose: "And... and they... Okay. So, actually, I don't think we need to take it from the record at all. I think that's exactly it. And I think I go back to what I said before is, any amount of money over the three and a half that came from the Federal Government would be coming out of GRF and would be better positioned to go pay vendors who already have bills outstanding..."

Smith: "No... no, that's not true. That's not true."

Rose: "There aren't any bills owed by anyone at DCEO?"

Smith: "Well, I... I don't know, but the department has the additional funds to cover any amount above the 3.4 million."

Speaker Mautino: "The Gentleman's time has expired. You may finish your answer, Sir. The Lady from Will, Representative Kosel."

Kosel: "Mr. Speaker, I'd like to yield my time to Representative Rose. Chapin."

Speaker Mautino: "He is in... The Gentleman from Vermilion is seeking recognition. Representative Black."

Black: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. I have the upmost respect for Representative Smith. Certainly the Illinois Retail Merchants are a very integral part of my district as they are in your districts, but the bottom line as I see it is this. We are setting aside scarce general revenue, Illinois tax dollars, to backstop a federal program. Now let me remind you what happened to the cash for clunkers program. The cash for clunkers program was going to give everybody's \$2500 if you trade in your old gas guzzler and

buy a new car, and the money appropriated by the Federal Government was going to last, I don't know, 6 or 8 months. It was gone in 6 weeks. So, Congress had to go back and appropriate more money and then that money was gone. And so, they had to cancel the program. Now, in all due respect to Illinois merchants, and I don't want to put them at a disadvantage, but when you ask the state to back a federal program, whoa, wait a minute, ask the Federal Government to use our federal tax dollars to back up the program. Don't ask my local taxpayers to back up a federal program that as Representative Rose has already, clearly, and I think accurately stated, we don't know how popular this program is going to be. People could run into the Sears and Roebuck or hardware stores and they could buy 10 thousand refrigerators and I don't know how many ranges and dishwashers, washers and dryers and there's no real-time data to cut that off. It may take a week or 10 days. So all of a sudden some poor retailer is stuck with... hey, wait a minute, I'm owed \$25 thousand on this rebate program and Uncle Sam says, sorry, we're out of money. Oh, that's okay. The State of Illinois put \$3.4 million as a backup, I'll get it from the State of Illinois. No, this is... this is backwards. Thank... thank you very much. I'll finish up."

Speaker Mautino: "Grant the Gentleman additional time."

Black: "Thank you, Mr. Speaker. In all due respect to the Sponsor, I would hope he'd take this Bill out of the record. This is a cash for clunkers... its Déjà vu all over again. I can't go home and ask my taxpayers who have been laid off, teachers who have been laid off, social service

agency workers who have been laid off, as to whether or not they want to backstop a federal program up to \$3.4 million, in case this program is so successful that the federal money runs out and before we can find that out, some retailers are stuck. I don't want the retailer to get stuck, but this was a federal program. Let the Federal Government use our federal tax dollars to back it up. Illinois does not have the money to do this."

Speaker Mautino: "Representative Smith to close."

Smith: "Mr. Speaker, I'd like to take this Bill out of the record. I think we have... we have some assurances we need on the other side. I think if we could just have a few minutes, we may have some of the concerns addressed."

Speaker Mautino: "Out of the record at the request of the Sponsor. Representative Jefferson, on the Order of Third Reading is House Bill 1629. Read the Bill."

Clerk Mahoney: "House Bill 1629, a Bill for an Act concerning local government. Third Reading."

Jefferson: "Thank you, Mr. Speaker and Members of the General Assembly. This is simply a Bill as it relates to the city of Rockford. I would ask for an 'aye' vote."

Speaker Mautino: "The Gentleman has moved passage of House Bill 1629. And on that question, the Gentleman from Crawford, Representative Eddy."

Eddy: "Thank you. Would the Sponsor yield?"

Speaker Mautino: "He indicates that he will."

Eddy: "Representative, I was interested in your description of this Bill and I think you said this simply deals with the City of Rockford. I ask for an 'aye' vote. Could you be a

little more specific as to how this deals with the City of Rockford?"

Jefferson: "Absolutely, Representative. This Bill was brought to me by the City of Rockford. It's an annexation Bill that's exclusive to Rockford. It was my understanding the mayor from the City of Rockford along with the majority of the of the city council members asked for this legislation to be passed so that they can start to incorporate some unincorporated areas that have been within the city limits, but unincorporated for at least the last 10 years."

Eddy: "Well, Representative, I understand there's some significant opposition to allowing the city the power to forcibly annex certain parcels of land. Would you characterize this as being so that there's some considerable opposition?"

Jefferson: "No, I would not; because when you've got the mayor and the majority of the city council members on board with this, where's the opposition come from? They represent all 14 wards in the City of Rockford."

Eddy: "Well, Rep... Representative, I got to tell you, I would guess that the Floor Amendment that passes with less than a majority of the total Body would be one indication that there is some considerable opposition. The Floor Amendment passed 57 to 55; it takes 60 votes in this Body to pass a Bill. So, I think there are some individuals who are concerned including two Representatives on our side of the aisle who represent the individuals who... who are concerned and I would at least characterize that as some pretty considerable opposition."

Speaker Mautino: "Grant the Gentleman additional time. This Bill is on Short Debate. Representative Eddy."

Eddy: "Well, there's going to be others speak on it. I do have an inquiry of the Chair."

Speaker Mautino: "State your inquiry, Sir."

Eddy: "I would ask the parliamentarian if this takes 71 votes."

Speaker Mautino: "I will get an answer for you on that, Sir. Is it okay if we proceed with the other speakers while we're awaiting the parliamentary inquiry?"

Eddy: "The other request that I have is a verification Roll Call of this... this Bill."

Speaker Mautino: "There's been a request for a verification and a Roll Call, and that will be granted, Sir."

Eddy: "Thank you."

Speaker Mautino: "Further discussion, on this Bill. It is on Short Debate. Representative Durkin, the Gentleman from Cook."

Durkin: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Mautino: "Indicates that he will."

Durkin: "Representative, could you explain to me what would be the process for the forcible annexation?"

Jefferson: "The process of forceful annexation... the process would be without this legislation it would be forceful."

Durkin: "I guess, what I'm saying. Would it be by petition, would it be just by the unilateral act of the City of Rockford City Council?"

Durkin: "How would that process take place?"

Jefferson: "...public hearings in order to do this. They would have to have a public hearing within the city limits to be able to do this."

Durkin: "But what would be the action that would take.. which would constitute the annexation?"

Jefferson: "It would be done by ordinance."

Durkin: "I'm a little hard of hearing; could you repeat that, Sir?"

Jefferson: "It would be done by ordinance by the City of Rockford."

Durkin: "Okay. Would it require the approval of the individuals who are living in those subdivisions to sign... to sign off on that prior to the City of Rockford's ordinance?"

Jefferson: "There would be a public hearing and they would have the ability to state their case."

Durkin: "If they object would that stop the process? Would it stop the annexation?"

Jefferson: "Not necessarily, but they would have the ability to state their reasons why they don't want to be in... annexed to the city. You know, Representative, I understand what you're asking me, but the City of Rockford brought this legislation to me saying this was in the best interest of the City of Rockford. We try not to micromanage anybody else's municipalities. The same as yours, you know, if you had an annexation that was requested by your municipality,

I think it's incumbent upon us to support those individuals as long as it's not affecting anyone outside of that area."

Durkin: "I understand that and I... but I also have, you know, I think we got to be careful when we go down the path of having forceful annexations 'cause sometimes it's for the, you know, the good of all but sometimes there are municipalities who just are seeking to add to their tax base. And when you do have individuals who, we are going to say..."

Speaker Mautino: "Grant the Gentleman additional time."

Durkin: "What I want to say is that when we have situations like this that we're going to tell a group of individuals who are not part of the City of Rockford, or any other large municipality, that you're going to join us whether you like it or not. I do have some reservations about it. Thank you."

Speaker Mautino: "Further discussion? The Gentleman from Boone, Representative Wait."

Wait: "Thank you, Mr. Speaker. Yes. Representative, is this the great land grab Bill that Rockford is trying to force people who... right now the law is only 60 acres you can force in and this would incorporate some 400, 500, and 600 acre island? Is that not correct?"

Jefferson: "At this point in time, Representative, I don't think we have any one individual that owns a parcel of land that's five or six hundred acres on an individual basis. This legislation simply says that if you own 60 plus one acres, you would not be included in this process, if you are an individual."

Wait: "No. But this... right now, the law for the State of Illinois says if you have 60 or less acres, you can force them in. These areas are much bigger; in fact, some of them are 10 times as large as the current State Law is. So, we would be in... it's one thing if you want to increase it from 60 acres to 70 or 80 acres, but to increase it to 500 to 600 acres, which some of these parcels are, don't you think that's definitely overreaching?"

Jefferson: "I was told, Representative, by the mayor of the City of Rockford, who asked for this legislation, that we have no pockets in the City of Rockford that large. So, I don't know where those numbers come from, but we have no pockets that large in the City of Rockford in unincorporated areas."

Wait: "Well, I have the map and on these maps it... it shows where there 400, 500, and 600 acre parcels is what they are. Anyway, the bottom line is, I represent most of these areas in the Rockford area and they do not want to be forced into Rockford. To me, we should have democracy in this state and in this area. We should not force them in. We know that Rockford is hurting for money and that's why they want this because the persons... the homeowners and these are mo..."

Speaker Mautino: "The Gentleman will be granted an additional minute."

3 hundred, 4 hundred, \$5 hundred more a year just to the City of Rockford. Rockford has one of the highest tax rates there is and I would just ask all of you, please do not support this. Because, if they can do this, this year to our community, next year they could do it to your community. Thank you."

Speaker Mautino: "Representative... Further discussion? Representative Fritchey. Representative Winters. Representative Winters."

Winters: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Mautino: "He indicates that he will."

Winters: "Chuck, I have some information on the... the impact on the homeowners in this area. I don't think it was available during committee. The average price of the houses in this area, all of the people that are affected, about 2400 people is an average of about \$150 thousand, is that correct?"

Jefferson: "I don't know that to be a fact, Representative."

Winters: "Well, those are the figures given to me by the city. They did check the assessed values of all the island properties. They also pointed out that this is a four-year phase in, so that people would only pay a quarter of the property tax and the average property tax on that house at full taxation is about \$960 a year. In return, because they are not going to be in a volunteer fire department district paying taxes to them, the city tax will pick up the fire district in... for about a \$275 saving. They also currently pay double the rate of a city residence for their water service. Most of these areas are already serviced by

city water and they pay a double rate so there would be an additional savings of \$360. So, the homeowner, if annexed, will have the right to a public hearing before that city ordinance would take place and only in the third year do they actually pay more than they currently are. There's actually a net savings the first two years, and it would be not until the fifth year that their property tax would have ultimately cost them more than the savings that they would be getting, again, from the lowered fire district tax and the lower water Bill. Additionally, they would be receiving snowplowing service and garbage pickup which they currently pay for privately and it would have access to the Rockford library system through the city taxes. I just wanted to put some of those details on the record. And I'll watch the vote. Thank you."

Jefferson: "Thank you, Representative."

Speaker Mautino: "Representative Eddy, you had an inquiry of the Chair. We're ready at this time to respond. Parliamentarian for the House, Dave Ellis."

Parliamentarian Ellis: "Representative Eddy, on behalf of the Speaker and in response to your inquiry, House Bill 1629 in it's current form has no Home Rule preemption in it. It does not preempting Home Rule explicitly and therefore it cannot have the effect of having Home Rule. So, it's a 60-vote requirement."

Jefferson: "Thank you, Mr. Speaker. You know, this is very important to the people in Rockford. This is a win-win situation for the second largest city in the State of Illinois. To say that this is coming from their city council, this is coming from their mayor. We all have problems in our municipalities, in our communities. We're all faced with problems. This is exclusive to Rockford, doesn't affect anyone else. This is something the city council is asking for; this is something the mayor is asking for. To just kind of echo what Representative Winters said, with this annexation you pick up fire, you pick up police, you pick up the ambulance service, you pick up snow removal, libraries, septic, street, garbage, city water, just to name a few. We've had incidences in Rockford where people could not... the fire department could not reach individuals' homes in a timely matter. The homes burnt to the ground. This would bring those people in compliance with the city; they would be available for city water, for city fire, and all the other services that the city offers. You know, this is something that all municipalities are faced with. This is for the City of Rockford. They're asking for your help in making their communities just function a little bit better. We all have problems in our individual communities that we represent. All I'm doing here is representing the City of Rockford who sent me here. My constituency says this is something that they want. And in the long run, 160 people... a 160 thousand people in Rockford are going to benefit from this. So, you know, I appreciate the fact that you're helping to

It does not affect anyone else and I appreciate all the comments and all the micromanaging from all the other areas, but this is exclusive to Rockford. It doesn't affect anyone else. Sometimes, over 60 percent of the people that were doing these excessive speeds, they're getting supervision and the Secretary of State's Office is never even being notified of this moving violation or their insurance companies and these people are just walking away free. So, please be ready when your Bill is called and if you continue to take them out of the record, we may not get back to them. This is Thursday, tomorrow is the deadline. House Bill 5916, Representative Collins. Please read the Bill."

Clerk Mahoney: "House Bill 5916, a Bill for an Act concerning courts. Third Reading."

Speaker Lang: "Representative Collins."

Collins: "Thank you, Mr. Speaker. House Bill 5916 increases the minimum age of detention from 13... from 10 to 13. It makes it consistent with the minimum age of census to the Department of Juvenile Justice. Currently, you can sentence a kid to the Department of Juvenile Justice, you can't sentence them until 13, but you can sentence them to the detention center at age 10. We wanted to make that age consistent and move it up to 13 and find alternative placements if we have to. Currently, last year in Cook County we only had about 8 such kids that we had to do that for and we can, you know, usually deal with them with the Department of Children and Family Services and send them to... if they need to go to a mental health facility or to an alternative placement, such as a residential placement or something like that. And I ask for an 'aye' vote."

Speaker Lang: "Lady yields."

Reboletti: "Representative, what type of cases would this qualify for? Like would kids who commit predatory criminal sexual assault, or robbery or murder? What would happen to them if they were under the age of 13 if this Bill were to pass? Where would they go?"

Collins: "Currently, no kid can be sentenced to the Department of Juvenile Justice until the age of 13. Currently, a kid between the ages of 10 and 13 would go to a residential placement. They'll go to foster care, some DCFS placements, maybe a mental institution because you've got to remember, too, those kids can only be in the Department of Juvenile... in the detention center for only up to 30 days as well and they can't come to the Department of Juvenile Justice. So, those kids already have to have an alternative placement."

Reboletti: "Well, between the ages of 10 and... right now, they could be sentenced to incarceration or placed in a... in a locked down facility right now, correct?"

Collins: "No, they cannot."

Reboletti: "Well, where do they go? Because if a 12-year-old commits murder, and it does happen, but if a 12-year-old commits rape, and I've seen those cases, and I talked to you about those in committee, they usually end up in some type of incarceration setting. But under your Bill, wouldn't this allow the court or maybe DHS or whomever, to return that child back home?"

Collins: "No. What happens now is that those... you cannot go to the Department of Juvenile Justice until you are 13 years old. That's a fact. Now, if a kid between the ages of 10

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

and 12, you can only hold them in a detention center for 30 days. Now, if the kid committed rape or murder, or whatever you say, that kid would go to maybe a mental institution. That kid would go to a placement at DCFS in the... a group home or a residential placement center. That kid would go to maybe a foster home. There are many alternative placements that we would use. Now, if a kid cannot be placed in the Department of Juvenile Justice and studies have shown that if you put a kid incarceration for even up to 30 days, which is all that they can be there for is 30 days, the effects are very detrimental to that kid and to his healing. And so, we recommend that, and in Illinois last year, we only had about 150 cases throughout the whole state, and in Cook County we only had 8 such cases that we had to deal with."

Reboletti: "What kind of charges did those 8 children have? Do you know?"

Collins: "Cook County didn't give us the exact charges, but I... I'm not sure what they were."

Reboletti: "Mr. Speaker, to the Bill. I'm not exactly sure what we would then when these people, who are, these young minors, are charged with the crimes I've already mentioned, rape, robbery, murder, home invasion. It's unfortunate that children commit these crimes, but they do. And the fact of the matter is is that we wouldn't be able to put them in a detention facility, we would probably end up releasing them potentially back home to revictimize other family members or to end up back on the street committing more crime. I'm not exactly sure why we need to do this at this time, but

we have to have a place that's secure when you have violent offenders committing these types of crimes. And I would urge a 'no' vote. Thank you, Mr. Speaker."

Collins: "Well..."

Speaker Lang: "The Chair recognizes Representative Hamos. Do you wish... I'm sorry. Representative Collins, do wish to respond?"

Collins: "Yes. I was going to respond to tell him that, currently today, you cannot keep a kid past 30 days and we have to place those kids anyway. So, the argument would be, if you have to place a kid after 30 days anyway, why put them in an institution and lock them up? That's the answer. We want to make the law consistent with the Department of Juvenile Justice. Today, this day, you cannot place a kid in a Department of Juvenile Justice until that child reaches 13. So, if a kid 12, 11, 10... now, you were talking about fourth, fifth, sixth grade kids. If we cannot find a placement for those kids... now remember in Cook County alone, it was only 8 kids... it is our responsibility to find a placement for 8 children. It was only about 8 children. And if we put them in a detention center, which is the county detention center, we can only hold that kid for 30 days. So, why wouldn't we spend the time, before we put them into a locked facility and ruin them anyway for those 30 days to put them someplace else: in a residential placement, a mental institution, into a treatment facility. Those are the types of places that we already utilize after the 30 days. So, we're just asking

STATE OF ILLINOIS  
96th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

120th Legislative Day

that we not have those 30 days to put them into a facility."

Speaker Lang: "Representative Hamos."

Hamos: "Thank you. I was really going to start with a question of the Sponsor, but I think she's really trying to answer the questions that may be on our minds pretty well. So, let me speak to the Bill. I think that what Representative Collins is pointing out is that this is a problem that we have in the law, which is just a very short-term placement of where a young person goes before the court case. This is pretrial. This is trying to figure out the best possible placement, in fact, to rehabilitate a young person whose first brush with the law is likely to be at age 10, 11, 12. If they're going to get in trouble with the law, it's a very young age, we'd better find, as a society, a better way to handle these cases. To just throw them in a county detention facility, without trying very, very hard for a better placement, is what this Bill is trying to address. This Bill, if this passes, would force all of the players in that young person's life to look for the most appropriate placement, in fact, to provide rehabilitation. Because after all, if there is a conviction or a finding of delinquency at trial, they won't... that child is not going be able to go into the detention facility. That child is not going to be able to go into the Department of Juvenile Justice. We're going to have to find the most appropriate placement. So, this almost feels like a loophole or a weird anomaly in the law that doesn't force the system to start working on day one for a more appropriate placement,

STATE OF ILLINOIS  
96th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

because after all, after the court case, that's what's going to be required. That's what's needed here and I think by talking about the most serious crimes that, yes, some people commit, some young people commit, it ignores everything we've been trying to do as a state in trying to make sure that young people, that we start somewhere, and that we start somewhere with young people with their first brush with the law to try to provide a more appropriate intervention. That's all this Bill does. And I stand for a strong 'aye'."

Speaker Lang: "Representative Sullivan."

Sullivan: "Thank you, Mr. Speaker. I'd like to yield my time to Representative Reboletti, please."

Speaker Lang: "Mr. Reboletti."

Reboletti: "To address the last speaker, this is not about first offenders. I prosecuted a case where a 12-year-old raped his 5-year-old stepsister. That 12-year-old belonged in custody. What the prosecutor and the defense lawyer do with that case they can obviously review it based on all the evidence. They need that time anyway. And then as far as placement is concerned, we don't want that child being placed back at home. That child doesn't need to be in treatment at that particular time, that child needs to be incarcerated until the courts can make a determination if that child is delinquent. Thank you for the... Mr. Speaker."

Speaker Lang: "Representative Zalewski."

Zalewski: "Thank you, Mr. Sponsor... thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Lady yields."

Zalewski: "Representative, just a couple quick questions. Isn't it true that there were only 8 instances last year where a person 13 years or younger would have been detained under your law... under your change?"

Collins: "That's correct."

Zalewski: "And isn't true that of those 8 instances that the individual... the young people accused were accused of serious crimes, significant crimes of violence including aggravated criminal sexual assault?"

Collins: "I'm not exactly sure what the charges were."

Zalewski: "Did the Cook County State's Attorney's Office testify about this Bill in committee?"

Collins: "They... they gave us the number of 8, but they didn't have like exactly what the kid had actually done."

Zalewski: "And... and the Cook County State's Attorney's Office is opposed to this legislation?"

Collins: "Yeah. The Cook County State's Attorney is opposed, but there are a lot of other people that are for the Bill."

Zalewski: "Representative, would you agree that in instances of significant violence, where the accused is accused of violent behavior or significant violent behavior, it might be in the best interest of these young people to have them in an adult detention facility if and... the age really, the difference between 10 and 13 years old isn't really that big of a difference?"

Collins: "Could you say that again? Do I agree that they should be in an adult facility? Is that what you're saying?"

120th Legislative Day

3/25/2010

Zalewski: "I... tell me why you're changing it from 10 years to 13 years, Representative."

Collins: "Well, because the law today, if you are going to be committed to the Department of Juvenile Justice today, you cannot be until you turn age 13. So, that sets a problem for us with kids that are ages 10 to 13. In the example that Representative... the previous Representative used, if a kid... a lot of times kids do molest other kids in the home. Now, DCFS will be called and that makes it okay because, I mean, in the sense that DCFS... the department is now going to... to... it's going to be turned over to the Department of DCFS. But what would happen in that case is DCFS would come out, they'll make an investigation, and then they will remove one of the kids from the home. They'll make alternative placements. So, they would ask the parent are there any other relatives that this kid could go to. Today, if that kid was 12 years old, you still couldn't send them to the Department of Juvenile Justice. You would have to find an alternative placement because by law, by statute, you cannot send a kid that is not 13 to the Department of Juvenile Justice. Today, we have to find alternative placements for that kid. You couldn't send them to adult facility; you couldn't send them to the Department of Juvenile Justice. We'll have to send them to a treatment facility and yes, if the kid was 9, we couldn't do any of that. We couldn't even send them to the department... to the detention center because he's not 10 yet. We... and this only even if that kid was 12-years-old, you could only send them to the department... to the

detention center for only 30 days. So, my point is to be consistent with the law, that we should... we have to find alternative placements for that kid in 30 days anyway. So, why not wait... why wait those 30 days and find an alternative placement on the first day. You cannot send them to the Department of Juvenile Justice. You just can't do it."

Zalewski: "Representative... To the Bill. I respect what the Representative is doing, but in light... in light of the statistics offered by law enforcements, I just don't necessarily feel that the Representative's, while her goals are noble, that it'll have the intended effect. I urge a 'no' vote on this Bill."

Speaker Lang: "Representative Sacia."

Sacia: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Lady yields."

Sacia: "Representative, I was somewhat conflicted in your previous comment stating that a young person currently cannot be sent to the Juvenile Justice center, right? Is that correct?"

Collins: "Until they're 13."

Sacia: "So, they have to find an alternative center, but I guess, you know, when you just read the... the legislation, you take a first brush look at it, it's hard for folks to comprehend that someone between the age of 10 and 13 can be a violent criminal. Would you agree in some cases they can?"

Collins: "I agree that in some cases that a 10-year-old, or a 12-year-old have committed some violent offenses. Yes."

Sacia: "In... in a former life, Representative, I arrested a bank robber who was 12 years of age. The reason it... it still had such a significance on my life to this day, is at that time I had a son who was 12 years old. This young man was a... was a member of the gang, wanted to be... he was a wannabe. He went with a gang member, the Gangster Disciples, robbed a bank in Rockford, Illinois. The reason he was taken with the other gang member is he had the loaded 9 millimeter semiautomatic pistol. This young man had more street smarts than I could ever hope to have. This young man had attended a total of 182 days of actual schooling from the time he entered kindergarten until the age of 12. He could barely sign his name in cursive, but he literally... he had a PhD in street smarts. I just can't imagine, Representative, how your legislation helps that young person. This young person is a gangbanger at age 12. This young person carried a loaded semiautomatic pistol. When you carry a loaded semiautomatic pistol into a bank, don't tell me that he didn't intend to use it if he had to. And I believe he was capable of it. So, in my opinion here, we had a violent young person. We could and... and you and I have had different conversations like this. We could talk at length about how he got to where he was, but this young man needs detention. I'm not denying he probably needs rehabilitation, but why..."

Collins: "But Representative Sacia, your case given, right, the case you just gave, for detention he's 12 years old. He can only serve 30 days in detention today under current law. He could only serve 30 days. So, he... we have to find

STATE OF ILLINOIS  
96th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

120th Legislative Day

a placement for this young man. When the thirtieth day is up, we have to find a placement for him. Now, he can't stay at the local detention center, he cannot stay at the Department of Juvenile Justice. What are we going to do? Now, we have to find alternative placement. The alternative placements would be a residential treatment facility, an alternative placement would be a group home facility, a residential treatment would be a mental health facility. A residential treatment would be maybe moving him from this state and sending him to afar. Whatever the resources that the Department of Juvenile Justice, the Department of Children and Family Services, Department of Mental Health, or any of the other shared service agencies could come up with that would be appropriate for this young man, that's where he would go, but, he would not go to the Department of Juvenile Justice. He just would not. So, this Bill only makes the law consistent. So, if we can't put them in a detention center, and we can't put them in the Department of Juvenile Justice, it forces us to do something. Now, in Cook County last year... These are detention admissions in 2008. In Cook County, 10-year-olds, we only had two kids that were admitted. In northern counties, we had one kid. In central Illinois, we had 5 kids, and in southern Illinois we had 6 kids. And we had a total of 14 kids. So, we should be able to find something to do with those 14 children. That's all I'm saying and I'm just telling, we have to do something because we can't send them to the Department of Juvenile Justice."

Ladies and Gentlemen, what we should be doing is fixing this Bill so they can stay more than 30 days when you have the type of young person that I do... that I was involved with, that is a violent young man and needs to be incarcerated. Thank you, Mr. Speaker, for your indulgence."

Speaker Lang: "Representative Collins, do you wish to close?"

Collins: "Yes. Thank you, Mr. Speaker. So, this Bill just really helps to make the law consistent. Right now, you cannot go to the Department of Juvenile Justice, you cannot stay in the Cook County... in any of the detention centers in our counties. So, we want people to understand that we may have one kid that is as Mr. Sacia, Representative Sacia, or the other Representative said, but they're very few and far between. And so, at age 10, these kids intent... and you are 10 years old you're about fourth grade or fifth grade. We, as a society and we, as a state, should be able to find alternative placements for these children and the responsibility rests upon us as adults. And I ask for an 'aye' vote."

Speaker Lang: "Mr. Fortner."

Fortner: "Thank you, Mr. Speaker, Members of the House. House Bill 5191 will, I think, greatly improve our ability to report the impact of rulemaking as it affects small businesses in Illinois. This Bill provides for more specific guidelines than JCAR currently has when they see their rules. It also makes sure that for those types of rules like to pass through federal rules that IEPA deals with that those are handled correctly. I'd appreciate your support and happy to answer any questions."

fiscal year '11 cost of living agreement for Constitutional Officers, department and agency directors, General Assembly Members and state's attorneys. In a year, when we are faced with a record \$14 billion deficit, \$4.6 billion in unpaid bills, a budget that calls for \$1.3 billion cut to education, the Illinois State Police may be laying off 420 State Troopers, and the list could go on and on and on. For those of you who live in Chicago, most of those troopers will be taken off Chicago expressway duty and I was here when that deal was cut. The State of Illinois for the ability to sell lottery tickets at O'Hare, we then, the state, then agreed to patrol Chicago expressways. I don't think the mayor wants those troopers removed. Although, I have tried to get a hold of him and say if he would allow the troopers to only work four days a week, we could save enough money so that they could do that. But I don't know how anybody wants to go home and face the voters and say, well, I know we're in trouble, but agency directors making \$147 thousand a year, state's attorneys making \$160 thousand a year, General Assembly Members who rank much lower than that are going to get a pay increase next year. We're going to have to face this before we leave. Our constituents are in absolutely no mood to discover that some of the bureaucrats will get a 6, 7, 8, 9 thousand dollar raise. It's unconscionable. It's wrong, and that's all House Bill 6622 does. And I think at some point, we're going to have to take it up. Why not join us now and move the Bill to Second Reading and if you don't want to vote for it, fine. But we're going to have to take a position

Clerk Bolin: "House Bill 5853, a Bill for an Act concerning courts. Third Reading of this House Bill."

Speaker Lang: "Representative Collins."

Collins: "Thank you, Mr. Speaker. This Bill amends the Juvenile Court Act, so that we don't commit misdemeanants to the Department of Juvenile Justice. Under current law, if you are an adult and you get a misdemeanor charge, you cannot be sent to the Department of Corrections but as a juvenile, you can. Now, we just want to comply with the Department of Juvenile Justice master plan. And according to that, DJJ should reallocate its nonviolent youth population to youth based options that are more comiser... commiserate with the assessed risk and the needs of the kids. Right now, we're spending about \$85 thousand a year to commit a juvenile to the Department of Juvenile Justice. If we... if we relied on Redeploy Illinois and some of the other diversion programs, we can divert a lot of those dollars on the front end and spend maybe \$2,500 in rehabilitation services, as opposed to spending \$85 thousand a year housing a kid in the Department of Juvenile Justice. Under current law, Section 705 the Illinois State 405-5 the statute states in no event shall a guilty minor

be committed to the Department of Juvenile Justice for a period of time in excess of that for which an adult could be committed for the same act. So, what they're saying, if you're an adult and you commit a misdemeanor crime, you wouldn't get an excessive amount of time. You would be charged with less than a year and you wouldn't go to the Department of Corrections. So, we want to make this law commiserate with adult law. So, we want the juveniles to be... they should be treated better than adults, but under this law, they're being treated worse. So, all we're asking is that we not send kids who have a misdemeanor charge into the Department of Juvenile Justice. And I ask for an 'aye' vote."

Speaker Lang: "Lady moves for the passage of the Bill. And on this question, the Chair recognizes Representative Reboletti."

Reboletti: "Yes, thank you, Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields. This Bill is on Short Debate. The timer is on."

Reboletti: "Representative, we just expanded the age group for people to be considered as minors up to age 17. Didn't we do that last year or the year before?"

Collins: "For misdemeanor charges, yes."

Reboletti: "Right. And so now this Bill, if it passed, would it be fair to say that if somebody had a conviction for domestic battery at age 16 or 17, that they couldn't be sentenced to DJJ. That's what would happen here, right?"

If you violate a probation or a conditional discharge and at some point in time the court feels it's appropriate to sentence them to a term of incarceration, isn't that what the Department of Juvenile Justice is for?"

Collins: "Well... we had research support that our community based alternatives do work. And then the MacArthur did a foundation in our models for change and Illinois is one of those states for research on the pathways to... They released a study in December 2009, it shows that institutional confinement for low-level offenders raise the level of offending. The report states that expensive institutional placements are often being used in cases where there is little need for such investment, and where it may, in fact, be counterproductive. Speaker Lang: "Mr. Reboletti, do you need more time?"

Reboletti: "A minute, Speaker."

Speaker Lang: "One minute, Sir."

Reboletti: "One minute. To the Bill. I think this Bill is too broad. You have crimes of violence, such as domestic battery. You have cases of reckless conduct. You have cases of misdemeanor sexual battery. You have other cases, gun crimes, that would fit into this. I think those types of crimes should have the option... with... let the judge have the option to sentence them to DJJ. If this Bill had looked at a smaller portion, maybe your Class E misdemeanors, your Class B misdemeanors, things that are nonviolent in nature, I think I might be able to support that measure to take some of those kids out of the system, maybe put them into custody back in their county youth facilities, and maybe into some type of other residential placement. But I think at this time it's too broad. We cannot take that option away from the courts. And I would urge a 'no' vote. Thank you, Speaker."

Speaker Lang: "Mr. Fritchey."

Fritchey: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lang: "Lady yields."

Fritchey: "Representative, just a quick question. I'm looking at the analysis. It says right now the only situation in which a juvenile will be committed to the Department of Juvenile Justice is if there was a finding that the parents were unfit or unable to care for that juvenile, or if it's necessary to ensure the protection of the public from the

consequences of criminal activity of the minor. Is that correct?"

Collins: "That's correct."

Fritchey: "Aren't both of those... I mean, both of those... and I supported you in your last piece of legislation, so you know. But aren't both of those legitimate reasons for putting a minor in DJJ?"

Collins: "Well, what we're seeing is that if it's a misdemeanor, adults today cannot go to jail for a misdemeanor. So, we wanted to make sure that the juvenile law and the adult law is the same. So, now... so, the only thing it does is that you can still send the kid to the Department of Juvenile Justice, but we're just asking that right now, 45 percent of the population in DJJ... in 2009, we had 191 youth, or about 13 percent of the juveniles, committed to DJJ were misdemeanor offenses. We would better utilize spending our resources elsewhere. It was only about 13 percent of those kids that were sent. So, these are youth who with Class III or IV felonies to determine whether it is in the best interest of a minor and the community to be based on alternative placement."

Fritchey: "And I get the desire to see some level of consistency, but there's two factors here that don't apply in a adult situation. You know, the DJJ finding would be if the parents were unable to take care of the child and if we can't send them to Juvenile Justice... what would we do with them under this situation? If they were... if they were charged with a misdemeanor, but the court says either your parents are unfit or unable to take care of you, or based

on the nature of the crime, you pose a threat to society.  
But you're saying now that we can't..."

Speaker Lang: "Please complete your comments, Mr. Fritchey."

Fritchey: "But you're saying that even in those situations we couldn't send them to Juvenile Justice. What would happen to them under those?"

Collins: "Well, the same thing. We'd have alternative placements. So, as the department merges with the Department of Juvenile Justice, and we have a Bill that we passed... this legislation just passed the other day... about shared services, who we place into alternative placements. So, they can go to a residential treatment, they can go to foster care if DCFS had custody of the kid, if the parents were unwilling or unable to take care of the kids."

Fritchey: "But... but under the other finding that there is a threat to the public because of the consequences of the criminal activity."

Collins: "Residential treatment."

Fritchey: "...that... that might have made..."

Collins: "That's why they have residential treatment. That's why they have the mental health assessment and they may need mental health treatment. You said they were going through..."

Fritchey: "But this isn't really a mental health situation. I apologize for interrupting you."

Collins: "No. They go... they're... many of the same alternatives that we use today when we can't place a kid in the Department of Juvenile Justice, well, we use those other placements. That's what we would use those same things."

Collins: "Yes."

Washington: "Representative, what are you trying to do? I mean, you either too broad or you're too narrow? You're too tall or too short? What are you trying to do here?"

Collins: "Well, what we're trying to do is to make sure that current law states that in no event shall a guilty minor be committed to the Department of Juvenile Justice for a period of time, in excess of that period, for which an adult could be committed for the same act. So, if you were an adult and you receive the misdemeanor charge, you would not go to jail. You'd probably get under a year in probation... probation, if you were committed... if you were found guilty of that offense. So, we're asking the same thing. If I am a juvenile and I committed a misdemeanor charge that I would not go to the Department of Juvenile Justice or receive incarceration, and that would make it in line with adult treatment. Juveniles should not be treated any worse than an adult would be treated for the exact same crime. And so, we're just asking that the law would state that and would do exactly that. So, if a juvenile committed the same offense that an adult did, then they would not go to jail. We are asking that a juvenile not go to jail as well, but there will still be consequences for their action. It just wouldn't be incarceration."

Speaker Lang: "Representative Collins to close."

Collins: "All right. Thank you. What would happen under this Bill is... under this legislation, judges could continue to lock up juveniles with misdemeanors in the county detention centers. It would also reduce the number of plea deals offered to youth for felony charges response inability to sentence adult misdemeanors to the Department of DOC has not reduced pleas in the adult court. Don't expect a reduction to be in juvenile either. So, this Bill would save money. Those kids that were committed to DJJ for misdemeanor offenses in 2009 were only 191 kids and for felonies that 3... low level... we had about 32 percent of the population was committed for low level offenses. Right now, it costs us about \$85 thousand per year to house a juvenile in a detention... in our Juvenile Justice Center. With

And basically, what this does is when there's a consolidation of schools, they get a grant index given to them and there's usually a high and a low but the law is silent on what to do after that point. What this Bill does is allows a merger of those two, an average of those indexes, and then allows them to be competitive. It certainly would rule out some other school districts or you could use the high one. You know, I guess my frustration obviously isn't with you, it isn't with the Bill. It is somewhat with CPS, who is quick to come and tell us that the sky is falling and have us take drastic actions yet, you know, we tend not to see too many improvements from them. I'm just.. I'm just try.. I'm trying to understand, you know, where this leads us. Not just with respect to the state, but for those of us who have districts that are solely within the City of Chicago. Therefore, we only have one school district, that being Chicago Public School system. If this does.. if this, in any way further taxes.. no, let me use a different word, if this further strains the financial situation of the Chicago Public School system."

But in the scheme of trying to help retirees, maybe years ago, retiree benefits would have been able to cover their health costs, but certainly with the rising cost of health insurance, this is an opportunity to give them the opportunity to help cover rising costs for their particular retirees, which is why they seek this particular piece of legislation. It's something that has been in this chamber several times before. Former Representative Molaro has worked to try to pass this before. Davis, M.: "Thank you, Mr. Speaker. With the conditions of the economy, this is the Bill to help give people whose licenses have been suspended for not paying child support the opportunity to drive to look for jobs so they can meet their financial support obligations. The law already allows a court to give someone a family financial responsibility permit so they can drive to work or to a drug and alcohol treatment center, even after their license has been suspended for not paying child support. This Bill simply extends the purpose of that permit to allow for seeking employment. It would be limited between Monday and Friday from 8 a.m. to noon, unless the person can show good cause and to ensure compliance. The person must be required to show proof, such as a memo, a diary or other evidence that they are looking for work. The permit can also be limited in accordance with the hours of job training and placement programs. This program also allows the Department of Healthcare and Family Services to direct the Secretary of State to give the permit as well, which they cannot currently do. The department currently certifies the suspension of licenses for the nonpayment of child support. Now people can make payment... a payment plan with the department to avoid having their license suspended. I ask for an 'aye' vote."

It's a Bill called Jasmine's Law, and it was about a young lady who was molested by a family member when she was 11 years old. And that family member used alcohol to get her in a... in a state where she was not able to help herself and protect herself. What this would do is add, as an aggregating factor to our Criminal Code, the use of alcohol

as an aggregating factor to which the courts could then sentence the offenses of predatory criminal sexual assault, add crim sex assault to sex crimes to extended term eligibility. What that would mean if the case was 4 to 15 years, the judge would have the option to sentence that person from 4 to 30 years after a hearing to show that the.. the person that committed the offense to the minor had used the alcohol to get them in that state. So, I'd entertain any questions."

Speaker Lang: "Gentleman moves for the passage of the Bill.

Chair recognizes Representative Fritchey."

Fritchey: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Fritchey: "Representative, and I hope you'll pay attention, I want to find out if this does what I think it does. What you're looking for is an enhanced sentence if it turns out that the minor victim had consumed alcohol, correct?"

Reboletti: "That's correct."

Fritchey: "What's potentially troubling here while none of us have sympathy for the offender in a case like this, is there any requirement that the offender knew... Now, I know that there's no requirement if the offender had to be the one who provided the alcohol. Is there any requirement that the offender knew that the victim had consumed alcohol?"

Reboletti: "This would be if the offender used alcohol to put the person into the state."

Fritchey: "Well, as I am looking at this, Dennis.. Representative, I mean, it... I'm looking at language, that regardless of whether or not the alcohol was supplied by

the offender... Where is it that... where is the language here? Maybe I am just looking at the Amendment and perhaps it's in the underlying Bill, of the language that the offender used the alcohol in commission. If that's the case, I'm with you 100 percent, but that's not how our analysis reads."

Reboletti: "Well, you know what, Representative, let me take it out of record for a second and I'll check that with you."

Fritchey: "Well, I don't want to... I don't want to make you do that if it's unnecessary."

Reboletti: "What we've done, Representative Fritchey, is make it consistent with the other aggravating factors. So right now, if you use narcotics in the same situation, it could be an aggravating factor. What we've done is just mirror the language from the statute and make alcohol one of those aggravating factors."

Fritchey: "Well, Representative, let me ask you. If you want to take it out, that's great. If you don't, we can debate this now. I don't think you need to take it out. I... I've looked at underlying Bill and the language. What it says though is that there will be an extended sentence if the victim of the offense is a minor, under 18 at the time of the commission, and during the commission the victim was under the influence of alcohol, regardless of whether or not the alcohol was supplied by the offender. What there... what's lacking here is any requisite knowledge on the part of the offend..."

Currently, joinder is permissible for two or more acts and we would... in this Bill, we would simply be adding financial exploitation of an elderly person or person with a disability, identity theft, aggravated identity theft, misappropriation of financial institution property, commercial bribery involving financial institution, financial institution fraud, loan fraud, continuing financial crimes enterprise, and organizer of continuing financial crimes enterprise. These offenses would be added to the joinder law. This is an initiative from DuPage County. There is no known opposition at this time. Speaker Lang: "The Gentleman yields."

Collins: "Yeah. Just to the Bill... to the Bill. Well, we debated this Bill in committee and come to find out, a lot of... when I was doing... as an investigator with the Department of Children and Family Services, we had a lot of teenagers who did babies shaken syndrome. And they shook the baby, and their intent was not to kill the baby. And now, we put a young kid on the registry because she shook the baby with no intent to kill. I just don't think that we should do that. And so, because our law is so broad that it goes from the person with the least to all the way to the maximum, that this would include a lot of juveniles and a lot of teenagers who are young parents and who, when they leave the hospital, don't give them a lot of information about shaken baby syndrome. And so, yet, when they're trying to quiet a baby, they shakes a baby. I had

And so, normally, if you shake a baby, the ba... the head is fractured and you might have gotten a few fractures before, actually, the baby died and they never took the baby to the hospital. Now, I'm not saying that they should not be punished, but I'm... I am saying that we should, as hospitals, as educators, this... there should be more information given to our young children who are..."

Speaker Lang: "Representative, I'll give you an additional minute."

Speaker Lang: "Representative Monique Davis."

Davis, M.: "First, I'd like to welcome our new Legislator over there. You're real close to my district, so I'm sure we'll be work... working on things together. I have to agree with the previous speaker. You know, years ago, people had grandmothers at home with them, or their parent was home with them, and they taught... you learned... that's how you learned to take care of your baby, from some older adult being present. And too often today, we don't have an older adult in the home, or someone available to teach you how to

take care of a baby. I've noticed people on television who, you know, they're just there with their children and I've noticed they'll start shaking the baby on their knee. And some people don't realize that you should not shake a baby and sometimes the more the baby cries, the faster they'll shake, not trying to hurt, because they think it's consoling. So, my question to you, Representative, is where do people... where do we learn not to shake a baby, today?"

Carberry: "Well, I think it's... empathy is a great quality, but in... in this situation, baby shaking is dev... defined as the vigorous shaking of an infant, a young child, that results in the death of a child and is usually... and that usually is determined by the coroner. But where do you learn it? You know, education's a great thing but what this... all this does is get a ma... it facilitates information to the public so you don't have, possibly, someone coming into your home to babysit your child, or grandchild, or niece, or neph... or niece or nephew that has been responsible for the death of a child."

Davis, M.: "But I just think some..."

Speaker Lang: "Please take an additional minute, Representative."

Davis, M.: "Thank you, Mr. Speaker. That's very polite of you. I just think some place, we have to realize that today there is limited information for young people having children about how to care for those children and there's usually not an adult around to teach them. So, it's usually at this point in our lives, it's trial and error."

So, I do support you in what you're trying to do, but I'm going to have to vote 'present' on your Bill."

Speaker Lang: "Representative Bradley."

Bradley: "Thank you, Mr. Speaker. This was actually my Bill, and I still think it is. Representative Carberry took a great interest in this and wanted to get involved. We had a lady in my district whose baby was tragically killed, and she came up and testified very passionately in committee, in support of this Bill. And all we're trying to do here is there's a list of violent crimes against children, which lands you on the child registration list, and that's all we're trying to do is add baby shaking to that because this is a very serious issue and it... it causes... it's a very, very horrible situation, and that's all we're trying to do. And so, I commend Representative Carberry for taking this Bill, taking the lead on this. I stand 100 percent behind him. We're not enhancing penalties here necessarily. We're trying to make sure that people that commit these offenses stay away from kids, and that's all we're trying to do as... as in, don't shake babies. And by doing this, we hope that we can also raise awareness, that it's never appropriate to shake a baby. And that was our hope as... as through going through this. Not only in putting this on the registry, that we could also educate people and raise awareness of how... how dangerous a situation this is. So, I would ask you humbly for an 'aye' vote in support of this Bill, which directly affects constituents in my area and the rest of the people of the State of Illinois."

actuary principles. It also says that it's unlawful to discriminate against individuals who are of the same risk classification and the insurance company must treat people equally, but it goes on to say, unless there is a rational basis for the decision to treat a person less favorably. I would like to, with House Bill 4679, take those exceptions out of the Code and make it against the law to discriminate. And I'll be more than happy to answer any question you may have."

Speaker Lang: "The Lady moves for the passage of the Bill. This Bill is on Standard Debate. The Chair recognizes Representative Watson."

Watson: "Thank you, Mr. Speaker. The Sponsor yield?"

Speaker Lang: "The Lady yields."

Watson: "Representative, I do understand your intent. I think the concern that was expressed to me by some of the... the industry folks was that if you... if you don't make everybody get on, and then you have no preconditions, as... as far as whether letting somebody come in or out, then... then what will happen is there would be no incentive to... to go and buy health insurance until you actually get sick. I mean, so that's the concern, is that... is that, why would I go now if I could go once I got sick, then I could go in and buy it, and then we're going to be at this higher rate. Does that make sense?"

Flowers: "No. None whatsoever. Because we're talking about people with disabilities, and it doesn't talk about rate. It says that you may discriminate to the extent that the reasons for doing so is based on sound, actuary principles.

Then it goes on to say that you may discriminate if there is a rational basis for decision to treat a person less favorably. So, I can't imagine what that rationale would be for anyone to think that they could treat you or I less favorably. That is discrimination. The law says in the beginning that... provide that no company in any policy or absence of health insurance shall make or permit any distinction or any discrimination, that's what it says, but then it goes on to make an exception. The next section says, House Bill 46... well, anyway, my point to you is it's not right to make that distinction against people with disabilities, against people for less favorable reasons. There's no rationale for it at all. And if this... if in the first part of the section it's discriminatory, it's discriminatory in the second part. There should be no carve outs for any reason for discrimination."

Watson: "Thank you... thank you, Representative. I do think that, you know, this came up when they were debating the federal health insurance program, which just passed, and... and one of the reasons that they ended up saying that they were going to make sure that you have to buy it was for the very reason that folks would just opt out to buy until they actually needed it and that... that's the concern. It's not the intent of what you're trying to do, 'cause I understand it. It's more just, how do you actually implement that if you don't make everybody go in? So, I hope you understand that's the concern I'm voicing. Not... not your intent."

Flowers: "I just want to clarify something. I introduced my Bill back in '09, so I don't know what the intent of the

Federal Law was. But the most important thing with the Federal Law, it will soon be law that we all must pay for the insurance and it doesn't say, to the extent in which you are able. If you're not able, there will be some ways and means provided. Some provisions will be made for that insurance company to get your money."

Speaker Lang: "Have you completed your comment, Sir?  
Representative Osmond."

Osmond: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "The Lady yields."

Osmond: "Representative, originally, when this came up in committee, you had said you were going to hold it for an Amendment. What type of Amendment were you looking for?"

Flowers: "Well, someone had mentioned in committee, Representative, that this was already the law as far as not being able to discriminate. And so, I said I will hold it and come back with an Amendment or I will not call the Bill if such existed, but the purpose of me introducing the Bill was to eradicate the exception. And so, therefore, that's the reason why I came over to talk to you, and I explained to you about this particular Bill and I showed you specifically what it is that I was initially trying to do in committee. And therefore, the reason why an Amendment would not be necessary because the Bill, as it stands, was doing exactly what I wanted it to do, eliminate that part of the discrimination."

Osmond: "But in what recently happened in Washington this past week, aren't all of these addressed already?"

Flowers: "This is the law. It's not like I can recuse myself or say, well, I'm not going to get any insurance because I'm know they're going to discriminate against me."

Osmond: "But I believe in the Federal Law that was just passed, discrimination is in there and it's not allowed because everyone will be treated equally. Everyone will be afforded health care and no one will be discriminated against."

Flowers: "Well, Representative, you know, in the present law that was passed by the Federal Government, there's time lapse for different parts of the law. And that particular section in which you are talking about will not take effect until 2... 2014. So, in the meantime, we have between 2010 and 2014 that these people will be trying to get insurance and they will be discriminated against for... to the extent that the reason for doing so is based on sound, actuary principles or provide that there is a rational basis for the decision to treat a person less favorable."

conditions. So, that's the reason why it's important that we eradicate these few lines."

Osmond: "Have you removed the opposition from the Illinois Life Insurance Council or Blue Cross Blue Shield?"

Flowers: "You know, quite frankly, I have not heard from them and it's impossible for me to remove their opposition because it is the industry that benefits from this because they can discriminate. They can rescind anyone's policy. They can take it upon themselves to pay or not to pay. That's their choice. They don't even adhere to the rules that the Department of Insurance put up in regards to rescissions. So, I wish I could do something about them, but unfortunately, I can't. And this is the closest that I could come to having them not to discriminate."

Osmond: "To the Bill. I strongly feel that this has already been taken care of in the Bill that we just have watched pass in Washington. And I think that this would be a duplicate of efforts. And I urge a 'no' vote."

Speaker Lang: "Representative Tracy."

Tracy: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "The Sponsor yields."

Tracy: "Representative Flowers, when you talk about a rational, reasonable actu... actuarial basis, isn't it actuarial tables that will tell you that a person 80 may not live as long as a person that is 25 seeking those type of life insurance benefits?"

Flowers: "Representative, may I say to you that in the... in the Bill, it says, in the current law, prohibit any insurance company from discriminating against people with

disabilities in connection with the premiums, the rates, the benefits, or any other terms, or condition of coverage. That's one Section. Then it goes on to say that it's unlawful to discriminate against individuals who are of the same risk classification. The insurance company must treat people equally to the extent, based on their age, their gender, their health, their history, their diagnosis, and other factors. The individual represents the same level of risk. So, as far as age, according to the insurance, they are not to discriminate. That's current law. But then it goes on to say, unless there is a rational basis for decisions to treat a person less favorable. And it goes on to say, notwithstanding, an insurance company may legally treat people with disabilities less favorably. That is unacceptable. That is totally unacceptable."

Tracy: "So... I mean... what I'm... I agree with your philosophy about the discrimination, if all things are equal, but it seems to me that an actuarial table is a study of different risks and since an insurance industry is a business, that they... it's just like if you have a beach house, it might be susceptible to more catastrophic conditions than someone having a house in a very small rural town. That's your actu... actuarial risk involved. And I'm just saying that you may have age or whatever, and it seems to me that you have the safeguard of the reasonable, rational basis of actuarial tables because, actually, there is some substance to those, and being a business, they do risk basis calculations."

Flowers: "And Representative, you know, certain things in life you have control over. Where your beach house sit versus where someone else's beach house may sit. You have control over that, but again, I'm say... what I'm reading to you is the current law. The current law says, it's also is unlawful to discriminate against individuals who are of the same risk classification and it gives an example. An insurance company must treat people equally to the extent based on their age, their gender, their health history, diagnosis, and other factor. Now, that's what it says, but it goes on to say, unless... So, by whose opinion is this unless there's a rational basis for decisions? So, is it... it's not because of age. It's not because of gender. It's not because of health because that part is against the law."

Tracy: "Would this have guaranteed issue without guaranteed mandates?"

Flowers: "Pardon me?"

Tracy: "Well, it seems to me what you're wanting the insurance to do... because it is a risk business. It's a... I mean, it's a business, and it... they're basing their premiums on risk and so to me, it seems like you would ask them to be a guarantor if you make them absolutely... because as you mentioned, things are sometimes outside of their control. Everything is outside of our control. But why... why would we ask that business to risk everything on... I mean, who would be the best person or the best balance there to take that risk?"

Flowers: "Well, Representative..."

Speaker Lang: "Representative Flowers to complete her answer."

We're taking a risk on them as well, because we're playing... they're playing Russian roulette with our lives. And the insurance industry is the only... they're play... they can't have it both ways. They're saying in one section, and I'm... I will continue to repeat this because I'm repeating current law. It is also unlawful to discriminate against individuals who are of the same risk classification. An insurance company must, must... current law says insurance company must treat people equally to the extent based on their age, their gender, their health, their history, their diagnosis and other factors. Speaker Lang: "Mr. Mautino."

Mautino: "Yes, Speaker. Will the Sponsor yield?"

Speaker Lang: "The Lady yields."

Mautino: "Mary."

Flowers: "Oh, yes."

Mautino: "Yes, right behind you, over here."

Flowers: "Yes."

Mautino: "And I apologize. I was out of the room when you were... began presenting the Bill. As I... as I look in here and I understand the language about nondiscrimination. And in the language itself, will this then make the State of Illinois a guarantee issue state? In other words, if someone does not... if you are diagnosed with cancer today,

and you go to the insurance company tomorrow, will they have to then, by action of this law, write a policy for you?"

Flowers: "Representative, I just want to show you the headlines of the USA Today's newspaper. The president is signing the Bill. It is the law. It will take effect 2014 that everyone in this country, not you may have, but you must have. That is a mandate. If you don't have insurance, you will be penalized. So..."

Mautino: "Correct. That is not the answer to the question I asked you."

Flowers: "So... and your... your question?"

Mautino: "With passage of this Bill today, will the State of Illinois become a guarantee issue state? It's a yes or no."

Flowers: "No."

Mautino: "That's not correct the way..."

Flowers: "Yes, it..."

Mautino: "...I read your Bill."

Flowers: "Sir, the only thing my Bill..."

Mautino: "The second question that I would ask for you..."

Flowers: "...the only thing my Bill is doing is eliminating what the first part of the paragraph says, it shall not discriminate, put a period right there."

Mautino: "In the case of preexisting conditions..."

Flowers: "It does... we're not talking about preexisting conditions because, again, the Bill says... the current law... I'm reading current law. It is also unlawful to discriminate against individuals who are of the same risk

classification. An insurance company must treat people equally to the extent based on their age, their gender, their health history, their diagnosis, and other factors, and other factors. The individual represent the same level of risk. That's current law."

Mautino: "So, in the Bill, do you have an individual... as I read this, and this is the reason that I ask because I understand that nondiscrimination on disability, and I agree with that. My concern is in the way that you have drafted the Bill. As I read it, you have created a situation which would also encompass and roll in preexisting condition. I understand that and I think on the Federal Law that is going to be dealt with, but should the language in there, as it appears today, go into effect without an in... individual mandate, my concern is that your Bill will, by either choice or accident or... or intention, cause that to happen. And that's the only concern I had in the language is... is we may want to ensure that until 2014, when there is an individual mandate and coverage and everyone is in, that this language be carefully crafted so that it doesn't have adverse consequences."

Flowers: "Adverse consequences? Representative, we're talking about the current law. Please. Now, wait a minute. You do not put more into my Bill than what the actual Bill says. It doesn't... my Bill, again, would merely eliminate the existing exception to the Insurance Code prohibiting against discrimination that would permit insurers to legally treat people with disabilities less favorably, Sir, to the extent that the reason for doing so is based on

sound, actuary principles. House Bill 4679 also would prohibit any insurer from making distinctions among members of the same risk classification such as age, gender, health history, relative to premium benefits or terms of condition. House Bill 4679 remove the existing exceptions that allow distinction between members of the same risk category provide that there's a rational basis for decision. So, the only thing my Bill is doing is eliminating the part that allows a person with disability to be treated less favorably. I want to disallow an insurance company may legally treat people with disabilities less favorable."

Speaker Lang: "Mr. Mautino, are you completed with your remarks?"

Mautino: "I understand to the Bill, Sir. I just have concerns on the language. I understand what the intent... I don't know that that's what the language does and... and I have those concerns. I wanted to share those with the Body."

Speaker Lang: "Thank you. Mr. Fritchey, are you speaking for or against the Bill, Sir?"

Fritchey: "Speaker, my intention was to move the previous question."

Speaker Lang: "You don't need to. Representative Flowers to close."

Flowers: "Mr. Speaker, Ladies and Gentlemen of the House, I would appreciate an 'aye' vote to eliminate discrimination in the State of Illinois against people with disabilities and other reasons why, currently, that the insurance

Speaker Lang: "Mr. Fortner."

Fortner: "Thank you, Mr. Speaker. House Bill 5756 will... would allow that the fiber optic conduit that was approved as part of the capital Bill last summer would be marked with an underground marking tape. This underground marking tape is a lot like the kind of tape you see with police lines. It can be color coded. It's metalized. It's cheaper than the traditional wire that's used, and it is also more robust and resists breakage. There are still some questions and concerns. I have an agreement with JULIE and with the Illinois Telecommunications Association. We have a meeting set up during our break and they have agreed that we will continue working on this in the Senate."

Speaker Lang: "Gentleman moves for the passage of the Bill. And on this question, the Chair recognizes Representative McCarthy."

McCarthy: "So, if that is... there's construction on some of our interstate system..."

Fortner: "That's right. We're..."

McCarthy: "...even though because they are federal... well, they're federal highways, but they..."

Fortner: "It's where..."

Fortner: "Yeah. The main thing is what... they're concerned because they just have less familiarity with this technology. So, I'm going to be making a presentation with a vendor who actually deals with both of these types, traditional and this one, during the break. We've already set that up with JULIE."

McCarthy: "Senator Wilhelmi. Okay."

Fortner: "And that was at the... that was at the request of JULIE."

McCarthy: "Of JULIE? Very good. Thank you, Representative."

Speaker Lang: "Mr. Fortner to close."

daughter Haley, and his daughter Hannah that are here with us today. Welcome to Springfield."

Speaker Lang: "Next, Mr. Clerk, House Bill 4658. Representative Frank... Franks. Please read the Bill."

Clerk Bolin: "House Bill 4658, a Bill for an Act concerning employment. Third Reading of this House Bill."

Speaker Lang: "Mr. Franks."

Franks: "Thank you, Mr. Speaker. I appreciate this opportunity and I want to first thank Representative Rose for helping me on this Bill. And this is a Bill... thank you. I think it's a very important Bill that's dealing with the reality of today. This Bill, House Bill 4658, creates the Employee Credit Privacy Act, which would prohibit an employer from inquiring about or using a current or prospective employee's credit history as a basis for employment. The Bill does provide exemptions for the banking and financial industry, state law enforcement, and investigation units, and some state government agencies. Our nation, as you know, is facing the harshest economic situation we've seen in decades and our jobs are scarce. Here in Illinois, one in 12... I'm sorry, one in 8, not one in 12. One in 8 Illinoisans are underemployed, and that does not include our underemployment numbers. And while citizens continue to struggle to find employment, they also continue to experience financial hardships that are often unpreventable and hardworking citizens should not be faced with yet another obstacle to obtaining employment based on the credit history that may be simply a reflection of today's troubled economy. And credit checks are a practice that

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

victimizes people who have lost their jobs and this practice has not been administered fairly and therefore, we need to change it. I was inspired to fill this legislature.. to file this legislation while hearing the stories of my own constituents. And since we have filed this legislation, we've heard from many more. These people are losing their homes because of the economy, and because they've lost their jobs. And we need to protect individuals who have.. who, through no fault of their own, have found themselves in this difficult situation. People deserve a second chance. Now, I'm a business owner and I understand both sides of this issue. And it's important that we do not create a permanent underclass as a result of this recession. As elected officials, we need to be doing everything we can to help people get back to work. Now, some of the biggest employers in our country received federal bailout money in 2009, and many of those same employers also filed bankruptcy but, those are the same companies that have taken those taxpayer dollars, that are discriminating against potential employees based on their credit history, and that's absurd. These companies were in need of bailout money for the same reasons that job seekers are in need of this Bill, poor economic circumstances. Now, I've heard a lot from many of our constituents. Now, today, if you read the Chicago Tribune, there's an article written by Greg Burns, and he.. and this was very interesting. He talked about for millions of Americans laid off in this recession, the job search just isn't working. And the really bad news is, almost no one will be

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES

able to recover the financial ground net that they've lost. Involuntary layoffs result in lower lifetime earnings. Income lost in a layoff, mostly stays lost forever. Layoffs also resolved in devastating health consequences because people lose their health insurance. Families suffer. Also, job loss of a parent leads to higher dropout rates and lower tests scores for their children. We need this Bill. I was... I received, literally, hundreds of e-mails from constituents and from members from all throughout the state about this Bill. One lady from Wheaton says I want to thank you for sponsoring this Bill to stop employers from looking at anyone's credit report. For us, the unemployed, we have so many challenges to meet. When can we expect this Bill to pass? I got an e-mail from a Shaw... Shanta in Chicago who told me about her cousin Tiffany, whose mother had bad credit and she used Tiffany's information and gave her bad credit. So, at 15 years old, Tiffany had a house, cell phone, and host of other items in her name. And now that Tiffany's 26, she's unable to get a car loan or anything else because of her damaged credit. And there's many, many more of these type of letters that we're getting. I'd be happy to answer any questions."

Speaker Lang: "The Gentleman moves for the passage of the Bill.

And recog... and the Chair recognizes Representative Rose."

Rose: "Thank you, Mr. Speaker. To the Bill. I appreciate Representative Franks bringing us back to the original underlying text, rather than the Amendment that was adopted in committee. The original Bill was exactly what's needed. No one should be discriminated against based on their

credit. You stop and think about the number of people out of work right now, and maybe missed a payment, or two payments on their mortgage, and suddenly they're knocked out of contention for the next job that would have paid their mortgage. This is absolutely ridiculous what's going on, and I'm... I'm glad Representative Franks brought this Bill. It's a good Bill. And we are... I would strongly urge everyone to vote for it. Thank you very much, Mr. Speaker."

Speaker Lang: "Mr. Watson."

Watson: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Watson: "Representative, is there any opposition?"

Franks: "Yes. The credit reporting companies don't like it because then they're going to sell less credit reports."

Watson: "I understand. Weren't the Chamber and IMA?"

Franks: "They haven't contacted me on this. I presume, I know that other chambers in other states... and I'm glad you brought that up. There's 16 other states that are looking at this right now. A couple have already passed it, including Hawaii and Oregon, but they were the... there was some oppo... there was some opposition, I believe, in Maryland, but nobody from any of the business communities have contacted me on this."

Watson: "So, the Chamber did not come to you and the IM..."

Speaker Lang: "He will yield."

McCarthy: "Representative Franks, it says in their analysis that the change you made, in one of the Amendments, was to eliminate the required... or credit history and to change it to credit score. What... could you explain what that... that made a difference why?"

Franks: "Well, we did... I'm glad you brought that up. I went back to the original Bill, so it'd be the credit history. The credit score, I thought as a compromise when I was dealing with the... with the credit agencies, the reporting agencies. And then as I got more into it, I realized that that would've not been what we're trying to do because most employers don't use the credit score, they utilize the credit history. So, after getting more research on it, I decided let's go back with the original Bill."

McCarthy: "So, credit history is still in the Bill as..."

Franks: "Yes, Sir."

McCarthy: "...presented here, today? And Floor Amendment #2, was that added to the Bill yesterday or today?"

Franks: "Yes. It was added to... it was added yesterday. And it... it's a gut and... I believe it's a gut and replace. It changed it back to what we had originally..."

Black: "...may I be recognized for a point of personal privilege?"

Speaker Lang: "Surely, Sir."

Black: "Ladies and Gentlemen of the House can you... Mr. Speaker, can you give us some idea when we're going to adjourn today? I have a good reason for asking."

Speaker Lang: "We have a little more time on the floor..."

Black: "All right."

Speaker Lang: "...Sir."

Black: "Ladies and Gentlemen, if you would, I want you to look at Roger Eddy's white sport coat, pink carnation. All right. He's on his way to the prom tonight, and he... and he just simply wants to know if he needs to call his date and say he's going to be late. I mean, why else would anybody wear a white sport coat? Look at this. And he's lost his pink carnation. But he has to... he has to pick up his date at 6:30. So, if we could get out in time, he'd really appreciate it."

Speaker Lang: "I think we may make that deadline, Sir. The Gentleman moves for the passage of the Bill. Those in favor vote 'yes'; opposed 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Carberry, Golar. Please take the record. On this question, 89 voting 'yes', 24 voting 'no'. And this Bill, having received the Constitutional Majority, is hereby declared passed. House Bill 5242, Representative Bellock. Please, read the Bill. Representative, you need to move the Bill back to Second, I understand. Is that correct?"

Clerk Bolin: "House Bill 5242, the Bill was read a second time on previous day. No Committee Amendments. Floor Amendment #1, offered by Representative Bellock, has been approved for consideration."

Speaker Lang: "Representative Bellock."

Bellock: "Thank you very much. This Amendment was approved in committee."

Speaker Lang: "The Lady moves for the adoption of the Amendment. Those in favor say 'yes'; opposed 'no'. Representative Tryon, I did not see your light on. Do you have a comment on this Amendment, Sir? We'll get back to you. Those in favor of the Amendment say 'yes'; opposed 'no'. In the opinion of the Chair, the 'ayes' have it. And the Amendment is adopted. Mr. Clerk."

Clerk Bolin: "House Bill 5242, a Bill for an Act concerning public aid. Third Reading of this House Bill."

Speaker Lang: "Representative Bellock."

Bellock: "Thank you very much, Mr. Speaker. And what this Bill does, it's House Bill 5242, it authorizes the Department of Healthcare and Family Services to contract with third party entities to conduct Payment Recapture Audits. This will provide transparency in a lot of the billing. This is

something that we discussed quite a bit in committee. I took it back. I did an Amendment and what we did is something that the President has been promoting throughout the United States to recapture billions of dollars. Last year, in the United States Government, \$98 billion was lost to either duplication of services or fraud. And so, this is something that's been done as a pilot program in five other states. They're asking that all states throughout the United States look into these recapture audits. And I think it would be very, very good for our system."

Speaker Lang: "Lady moves for the passage of the Bill. The Chair recognizes Representative Fritchey."

Fritchey: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lang: "The Lady yields."

Fritchey: "Representative, two questions. Number one, why are a number of the various human service agencies Heartland Alliance, Fraternal Child Health Coalition opposed to the Bill?"

Bellock: "Excuse me. They were opposed to the original Bill. I don't know if... I don't think that there was opposition to when we did the Amendment on the Bill."

Fritchey: "Are you aware of any opposition to the Bill now?"

Bellock: "HFS is still..."

Fritchey: "Un... understood."

Bellock: "...concerned about it. That was the only one that..."

Fritchey: "Is their concern cost driven?"

Bellock: "Yes, and I actually, today, when we discussed it, I said I really didn't see where the cost to them was. This is to third party entities who are not going to be paid

upfront. They're going to recapture the incentive of the money that they recapture, so..."

Fritchey: "And that was actually the next part. So, if there's not an upfront cost to us to perform a forensic audit, so, the agencies that we would hire to do this would do this on a contingent basis?"

Bellock: "Yes."

Fritchey: "What percentage would they get of what's recaptured?"

Bellock: "We would have to work that out through rules."

Fritchey: "Do you know... Well, it's not really worked out through rules. It's probably going to be worked out through contractual agreement."

Bellock: "Well..."

Fritchey: "I mean, do we know if it's a third, if it's a quarter? I mean, my concern is the... the idea is a great idea."

Bellock: "Right."

Fritchey: "We should really do this in a lot of areas, but if there's no parameters so to how this is entered into... Let's say they find us \$2 billion in savings, and they get a third of that. They now stand to reap, you know, two thirds of a bill... you know \$666 million as a fee for doing an audit that may have a private market value of a million dollars, let's say."

Bellock: "Right."

Fritchey: "And yeah, I'm pulling numbers out of thin air here, but you... you understand my concern?"

Bellock: "Right. Yeah. And I think that this is something we're going to continue to work on in the Senate. We just did the Amendment this morning because they didn't want the Medicaid forensic audit, so we came back with what the President had recommended. We looked into the pilot programs, and I can't see it in my record right now, but I thought it was to... a form of rules as to what we would designate as to what would be their percentage."

Fritchey: "All right. I think the only thing I would suggest is that whether it's done through the rule making process or simply through the department's contractual authority, that it may be on a contingency but not to exceed what the commercial value of... or the commercial cost of that audit would be."

Bellock: "Absolutely."

Fritchey: "I..."

Speaker Lang: "Please bring your remarks to a close, Mr. Fritchey."

Fritchey: "Yeah. I already may have, I think. Yeah, you know what, I think I did. Never mind."

Speaker Lang: "Representative Harris."

Harris: "Thank you... thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Representative, at the... this is an important question I for you at the... at the national level during the health care debate and so on, there's been discussion of eliminating fraud and abuse of the system and so on. And some people believe that eliminating or finding ways to eliminate fraud or abuse will result in loss of services in some way, which I've never really understood. But I think it's important to ask you this question, as well. Will this program, in any way, result in any kind of loss of services to those who are currently served by these programs?"

Bellock: "No, I don't believe so. I think this is just going to be made... find where... if there were duplicate payments, or if there was some type of fraud in the system, but I definitely... in fact, if anything, my point in doing this is to be able to... all of us who see that a lot of our Medicaid bills are not being paid now, I think by this type of audit and going back after this, we will be able to pro... provide the services for those that we need to provide and not cut the others off..."

Reckless driving and speeding 40... over 40 miles over the speed limit. There's been a lot in the press about that excessive speeding. There have been several recent articles in the Chicago Tribune, a lot of them are repeat offenders. We had a Bill earlier today to take away court supervision. What this would do the court would have the... the prerogative to allow... to order that the person that is convicted of either of these two serious violations that they would pay for, in addition to any other fines, for emergency response. First violation now with this Amendment would just be up to \$100, after that it could be up to \$500. This is a Bill that I've been working with Senator Steans over in the Senate and we have been running the same Bill with Amendments in our respective chambers. This is a Bill... this is an Amendment that cleans up some of the opposition that deals with... with respect to this Bill that deals with the issue of kids in schools and how their diabetes is administered. There are four things this does. It would require that the person providing care would need to keep uniform records of the glucometer readings and insulin administered. Two, when a care aide has a question they would be required to talk to the parent or guardian, school nurse, or health care provider to confirm the issue of insulin dosage. Parents would be held responsible to provide, in a timely manner, any changes to a diabetes care plan and allow school nurses to provide assistance and consultation to delegated care aides. It's a fairly simple Amendment in an attempt to make this a better Bill. And I'd appreciate your support."

We took it out of the record so we could get some clarification from the retail merchants and I believe Representative Rose and some of the other Members on the other side of the aisle were able to talk to them. I don't know that we have a change in opinions, but I do think we got some questions clarified. Basically, this program for the Energy Star Rebates is a ten day program, runs from April 16 through the 25 of April. And retailer... there are currently 615 retailers are signed up for the program. What this legislation does is guarantee that in the event that the federal money would all be spent within the first three days of that period, that 10-day period, then the state would provide the money to back that up. The department has money in reserve, but this is to guarantee

STATE OF ILLINOIS  
96th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

to the retail community that there would be state money to keep them whole. But I would point out, that if that happened; the only way that would happen is if we sold \$90 million worth of appliances in a 3-day period. And if we were to do that, the state would realize a \$5 million do increase in sales tax revenue. So, you could make the argument that any money that we might be spending out of GRF would be made up through the gain in sales tax. But again, I would stress, that's only if we run out of funds within the first three days of the rebate program. Hopefully that clarifies some of the questions that we had earlier. Again, this is an initiative of the Illinois Retail Merchants Association. It will provide some reassurance to them that the State of Illinois fully stands behind this program, which is not only a stimulus for the economy in terms of all of the new purchasing of appliances, but also great for the environment as well by putting a whole lot of more energy-efficient appliances on the market. I'd be happy to answer any questions, Mr. Speaker. I encourage an 'aye' vote."

dollars we've received, state dollars would then be used to provide the otherwise federal benefits?"

Smith: "That is correct, yes."

Fritchey: "So, we are creating..."

Smith: "Only... and the only way that could happen I'm told is if we spent all of the federal dollars within the first three days."

Fritchey: "Understood, so if the program is a success and does exactly what the federal government wanted it to do, it would deplete the federal money and then state dollars would be being used. Correct?"

Smith: "Yes. Now the department... the department has a balance in the fund. They think they can cover that difference, but this would guarantee that."

Fritchey: "They think they can, but if they can't, we are now... and Mike this... it's tough for me to oppose and I... I know your intentions here. But at a time when were looking at, not looking at, at a time when we're seeing teachers laid off, services cut back, you know, us being unable to meet our obligations or provide basic services, we're now looking at basically subsidizing an expanded federal program. It's not the feds coming back and saying we'll give you more money if this thing works real well. It's us coming back and saying if this works real well, we'll take state dollars to subsidize these retailers to do these things at a time when, you know what... and listen, we need to support business but we need to support schools, we need to support roads and bridges, we need to support parks, we need to support a lot of things."

Smith: "Again... again, though if this were to happen it means we would have sold \$90 million worth of appliances and the state would realize a significant gain in sales tax revenue."

Fritchey: "Well, understood. They gain... they'd gain an increase in sales tax revenue offset by an incentive that we gave to give that. I mean, if that's the case we should say that this should be an unlimited fund because all these additional sales we can get, you know, we'll get sales tax revenue. And I don't mean that facetiously. It's that, you know, that argument only goes so far though that if we incentivize them to have more sales they'll sell more we'll get sales tax revenue. Well, then we should give an unlimited incentive to every retailer of every product around the state because we'll get sales tax revenue. But the fact that, again, we need to prioritize now where we're going to put our state dollars. The Federal Government decided to do this program they gave us a limited amount of money for the program; we should hope that the program is successful enough to use that money and then call it a day. You know, it would be analogous to cash for clunkers. Cash for clunkers was a..."

Speaker Lang: "Please take a minute to finish your remarks."

Fritchey: "Thank you. Cash for clunkers was a fantastic success, but when the money ran out, the money ran out. We didn't see the state coming and saying we'll underwrite it so we can keep selling cars at a reduced price. I... I get it. I get the retail merchants wanting to get the help they can for their retailers. I understand the indirect benefit

to the state, but there's a real question as to as far as whether this is where the money should be allocated. Thank you, though."

Speaker Lang: "Representative Sullivan."

Sullivan: "Thank you, Mr. Speaker. This program has \$6.3 million left in it. The idea here is to cover potentially any... any loss from the retailers. The program itself is a 15 percent instant rebate at the retail level. It's not like the consumer's going to have to go get a voucher. It's 15 percent at the retail level. So, if we go over the \$6.3 million what is going to happen in essence is the retailer's going to be on the hook for the liability. There are stopgaps in place to monitor this on a daily level to make sure we've not gone over the \$6.3 million. If at day three, they're at 600 or 6 million dollars, they are going to stop the program and have a surplus within the program. So, they're going to track this every single day. The reason why we want this legislation presently is to encourage the program to go forward because there's a lot of retailers that have said if we don't have this reassurance we might just not be part of the program. As of Monday, there's 617 retailers in the program. What will happen though is if we don't have this stopgap the people that are going to withdraw from the program are the independent retailers not the big time Lowe's and so forth, but your independent mom and pop shops that aren't going to be able to try and take advantage of selling product to help them and help their small businesses. So, that's why we need this as a stopgap to help them in the case that it

is a very successful program. But like I said, this is going to be monitored on a daily basis to make sure it does not go over, but in the event that it does, there is a... a small risk to state general revenue funds. And I'm glad that the Sponsor has explained it so eloquently. Thank you."

Speaker Lang: "Representative Coulson."

Coulson: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Coulson: "Representative, can you tell us when this program is supposed to start and supposed to stop?"

Smith: "Yes, Representative, the dates are April 16 through the 25th."

Coulson: "Okay. So, about a week and if we run out of money they'll stop it sooner, correct?"

Smith: "I'm sorry?"

Coulson: "It's about a week, maybe 10 days."

Smith: "About 10 days, 10 days."

Coulson: "If we run out... if they run out of money in the plan, they're going to stop it sooner?"

Smith: "Yeah. It's Earth Week I'm told."

Coulson: "Okay. All right. Is there a reason that we're passing this Bill today other than the fact that they want a little bit of assurance that they might get their money?"

Smith: "Is there any other reason?"

Coulson: "Yeah."

Smith: "No."

Coulson: "So, you could on April 27 have a concept of how much money we've spent or didn't spend and do a... an appropriations Bill that day, couldn't you?"

Smith: "Yeah. The other part of this, obviously, is getting retailers to participate and to make sure that they feel assured in participating. As Representative Sullivan said, you know, we want to encourage the mom and pop businesses and not the big chains who are going to participate no matter what."

Coulson: "And I would love to encourage the mom and pops that are providing mental health services and DD services and other services to people of our state already who are not getting paid by the state."

Smith: "Well, I..."

Coulson: "And I... I understand exactly what you're trying to do, but I would just warn these people if we do they might not get paid for six months. So, whether or not this is enough of an incentive, I really believe... and to the Bill, Mr. Speaker."

Speaker Lang: "I'll give you a minute to complete your remarks."

Coulson: "Thank you. I do believe that we could do an appropriations Bill after this program is done and make sure that we're not putting GRF where we shouldn't be putting it. Until we know what moneys are going to be spent on our kids in school, on Human Service providers and all the other programs that we have to fund this year, I would urge a 'no' vote and encourage all of you to think about. This does not need to come from GRF. It could come from the

other state funds or federal funds instead of the GRF fund.  
Thank you."

Speaker Lang: "Representative Rose."

Rose: "I just want to say thank you to Representative Smith for taking this out of the record. We had some discussions on it and the reality is I will probably still vote 'no'. But I wanted to say thank you to Representative Smith for doing that and giving us the time to examine it further so."

Speaker Lang: "Representative Walker."

Walker: "Will the Sponsor yield?"

Speaker Lang: "Gentleman yields."

Walker: "Representative, is it your belief that without this Bill this program will not be successful?"

Smith: "I wouldn't say that, Representative Walker. I think the program will go on, but I think this will certainly help the program, will bolster the confidence in the retail community in the program."

Walker: "To the Bill. I will support this Bill primarily because in my district we have significant manufacturing of parts for white goods and this will be a boost to our economy especially our manufacturing sector. Thanks."

Speaker Lang: "Representative Mulligan."

Mulligan: "Thank you, Mr. Speaker. To the Bill. You know, over the year we have lots of sales and.. they don't necessarily need this one in particular, but if this one goes ahead and companies choose to participate and people buy, you know, in this short length of time that's fine. But I've got to tell you, the Federal Government should stop passing Bills that make them look good and expecting

the taxpayers to pay for them. And then, then we should not also go along with passing a Bill and expecting the Illinois taxpayers to back them up just in case it doesn't work out. If you need a washing machine or a dryer or whatever is on here, you'll probably go ahead and maybe you'll get it and maybe you won't some people will determine whether they're going to buy it or not because of that. But I don't think in the... you know, if it were ten years ago and you know, we had more money, it would be one thing, but under these circumstances where we're paying interest on the bills that we don't pay and we're looking at doing a lump sum budget and walking out of here and sticking it to the people that we owe bills to, the Human Service providers and everything, I cannot understand why anyone would want to put GRF money out there just in case the Federal Government does not want to cover this or decides they don't have the money. This is the taxpayers' money. It's not our money that we're giving away for nothing. And I don't think we should cover this program 'til we find out exactly what's going to happen. I support manufacturing. I went out and bought a new one... a new washer and a new dryer recently. I didn't have to have a rebate. I needed it, so I bought it. Give me a break."

Speaker Lang: "Mr. Smith to close."

Smith: "Thank you, Mr. Speaker. I would just encourage my colleagues to take a serious look at this. We're talking about providing some minimal state protection for what could be a potentially significant boost to our economy. Not only for retailers, but also in terms of the sales tax

I'd ask you to join with the retail merchants and support this program and support business in the State of Illinois, support small business in the State of Illinois. And I'd ask for an 'aye' vote."

It provides written authorization for a pupil's health care provider for the use of an auto-injector. Now, in the authorization is from self-administration, the pupil's parents. And it also requires the parents or guardian of a pupil to provide to the school the prescription label instead of requiring the parent or the guardian of the pupil to provide to the school a written statement from the pupil's health provider containing specified information. This is excellent legislation. For years many of our children have had to carry their auto-injector inhaler and actually hide it. Provisions have been put into the statute. I think this strengthens this legislation and it brings about a hold-harmless clause for the school. I would urge an 'aye' vote."

It repeals that because it has been ruled unconstitutional. The Amendment... the Bill, as amended, does the following things: it ensures that on public works projects financed by the State of Illinois that at least 90 percent of the workers will be Illinois workers. It changes the penalty for violating the Act from a criminal offense to a civil offense, it established an arbitration system allowing any person deemed to violate the Act the opportunity to file a written request for an informal conference. It creates the Employment of Illinois Workers on Public Works Fund project fund. And it also allows an interested party to file suit in circuit court. I'd be happy to answer any questions. It occurred despite the processes that the utilities go through where we had minors whose names had utility service had been put into. So, then in one particular instance a young lady had gone to college tried to take out a college loan when she turned 18 found out she had no credit. So, she could not take out that loan and we had instances like that. So, we are trying to prevent those kinds of instances. That is the intent of this Bill."

Clerk Mahoney: "House Bill 5927, a Bill for an Act concerning insurance. Second Reading. No Amendments. All notes have been filed."

Speaker Lang: "Third Reading. House Bill 5821, Representative Hoffman. Read the Bill."

Clerk Mahoney: "House Bill 5821 has been read a second time previously. Floor Amendment #1 has been approved for consideration."

Speaker Lang: "Representative Hoffman."

Hoffman: "Yes. Floor Amendment #1 is very simple. It takes care of an issue that the long-term care facilities had with the Bill and I believe that this removes any potential opposition."

Speaker Lang: "Those in favor say 'yes'; those opposed 'no'. In the opinion of the Chair, the 'ayes' have it. And the Amendment is adopted. Mr. Clerk."

Clerk Mahoney: "No further Amendments. No Motions filed."

Speaker Lang: "You heard the Lady's Motion. Those in favor vote 'yes'; those opposed vote 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Speaker Lang: "Representative McAsey."

McAsey: "Thank you, thank you. This Bill is a clarification and a modernization of the Illinois Power of Attorney Act. It includes revisions to the Act, additions to the Act including provisions from the Uniform Power of Attorney Act. It is supported by the AARP, the State Bar Association, the Illinois Credit Union League, the Illinois State Medical Society. I would add that this Bill is the culmination of hard work by all of those agencies reviewing countless drafts resulting in this comprehensive Bill which will protect people, especially older adults against power of attorney abuses and enhance the usefulness of the

Durable powers of attorney. And I would move for passage of the Bill and will answer any questions."

Speaker Lang: "You heard the Lady's Motion. On that question, the Chair recognizes Representative Coulson."

Coulson: "Thank... thank you, Mr. Speaker. Will the Lady yield?"

Speaker Lang: "Lady yields."

Coulson: "I just have one question. Are current powers of attorney that anyone might have still good?"

McAsey: "Absolutely. There is language in the Bill that any power of attorney that has been previously executed, that there's nothing in this legislation that would undo any prior... properly executed powers."

Coulson: "Okay. Okay. Thank you."

Speaker Lang: "Those in favor of the Bill shall vote, 'yes'; those opposed 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Phelps, Reitz. Speaker Lang: "Representative Davis."

Davis, W.: "Thank you very much. On Amendment #2, and I appreciate your indulgence, such long hours on the floor without nothing to eat made me a little lightheaded. So, I'm a lot better now. Floor Amendment #2, in addition to

the first Amendment that's already been adopted, adds language that requires three youth to sit on a Youth Development Council who are also members of the Youth Advisory Group. It lowers the maximum age of the youth members to sit on that council to be 21, instead of 24. Adds language that requires DHS and an established youth organization with civic engagement to help select members of the Youth Advisory Group. Adds a provision that it gives entities with experience in providing after school programs priority to participate in demonstration programs. And finally, it does make this subject to appropriation."

Speaker Lang: "The Gentleman moves for the adoption of the Amendment. Those in favor say 'yes'; those opposed 'no'. In the opinion of the Chair, the 'ayes' have it. And the Amendment is adopted. Mr. Clerk."

Clerk Mahoney: "House Bill 5394, a Bill for an Act concerning criminal law. Third Reading."

Speaker Lang: "Representative Howard."

Howard: "Thank you, Mr. Speaker. House Bill 5394, as amended, provides that criminal records of dismissals and acquittals can be sealed. The dismissals or acquittals involved situations where the state's attorney voluntarily dismissed the complaint, the court ordered the charges to be dismissed and situations where the matter went to trial and a judge or jury found the defendant to be not guilty. This Bill would not apply to situations where the dismissal

followed the successful completion of a court supervision order and drug treatment program, where the defendant was initially found guilty or admitted his or her guilt. Where a person has not previously been convicted of a crime, he or she can now obtain an expungement of charges, which result in dismissals or acquittals. However, individuals who had previously been convicted of crimes, no matter how petty, are precluded from seeking an expungement. This Bill would address that. I will take questions."

Speaker Lang: "Lady moves for the passage of the Bill. The Chair recognizes Representative Reboletti."

Reboletti: "Will the Lady yield?"

Speaker Lang: "Lady yields."

Reboletti: "Representative, would this call for automatic expungement then?"

Howard: "It does not."

Reboletti: "My... I guess my question is, why can't these already be expunged if the person who was either found not guilty or the case was dismissed, why couldn't they come in and file a motion to expunge the record?"

Howard: "It's my understanding that there is something else that precludes that, another matter on their record. These persons... the persons I'm talking about are those that are not eligible for expungement, but we hope that their records can be sealed."

Reboletti: "And I look at the list of opponents. Have you had a chance to talk to the Cook County State's Attorneys Office regarding what their opposition was to the Bill?"

Reboletti: "Do you know when they became neutral? Is that recently 'cause I don't have them on the..."

Howard: "We found... we found that out today."

Reboletti: "One moment. I guess my concern is, why are we looking to eliminate these records from having prosecutors or police officers be able to know if there was prior criminal contact with the... with the system?"

Howard: "We are not seeking to do that. In fact, these records will still be accessible to all law enforcement officials."

Reboletti: "Okay. They would not be... if these... are these going to be expunged or sealed?"

Howard: "These would be sealed. They can... they're not eligible for expungement. We're looking for sealing."

Reboletti: "But then... I guess then what the concern the bankers or others would have is that they wouldn't have access to see..."

Howard: "I'm sorry. Would you state that question again?"

Reboletti: "I guess... I'm looking at some of the opponents. I look at the Bankers Association is opposed. And I assume that their opposition derives from the fact that they wouldn't be able to find out, in a background check, if those records were sealed. Is that a fair assessment?"

Speaker Lang: "Please... please proceed, Representative. Mr. Reboletti, I'm giving you an additional minute."

Reboletti: "I don't... I don't recall either, Representative. It's in our analysis. But quickly, to the Bill. I... I understand what the Lady's trying to do here. I just think that with the records being sealed you'd have businesses not knowing if some of these charges being involved in a person's background. And for that reason, I cannot support the Bill."

Speaker Lang: "Representative Eddy."

Eddy: "Thank you. Would the Sponsor yield?"

Speaker Lang: "Lady yields."

Eddy: "Representative Howard, it looks like that the Bill now provides for sealing of records for people who are charged with a felony offense when those charges are dismissed as one of the grounds?"

Howard: "That is correct. That is correct."

Eddy: "So, I understand it also applies to acquittals or... or the charges being vacated, but I guess the part that concerns me and... is the dismissal. Because I'm wondering under what circumstances at times felony charges can be dismissed?"

Howard: "If you would give me some indulgence. I want to give you an example of the kind of person that this would address."

Eddy: "Okay."

Howard: "The kind of issue. When George was 18 he was convicted of shoplifting, he's now 25. He has had no other contact with the criminal justice process. Then one night he's arrested and charged with murdering his neighbor. Three months later, the police find that he was not the

one. They said he did not do it, they had arrested the wrong man. He was released, but for the rest of his life he'll have to have a record of being charged with first degree murder. And so, we're trying to... to deal with the situation that apparently is unfair."

Eddy: "And I... those... that situation that you described is one type of dismissal possibly of a felony. I was wondering why in that case there wasn't some other type of action taken, maybe a vacated or some kind of reversal. My concern has to do with dismissals because a felony dismissal could be for some other type of a felony and there's some agreement reached and charges are dismissed where we might not want to seal those records. I think it may go a little farther than you even want it to and that I... that concerns me a little bit. Thank you."

Speaker Lang: "Representative Howard to close."

Howard: "Keep in mind that the judge... the courts always have the discretion as to which ones of these they can... they want to approve of. I ask for the support of my colleagues."

These third party marketers are known generally as agents, brokers, and consultants, consequently the ABCs. They market electricity to businesses, but do not operate in the residential market. This Bill went through some extensive committee hearings that were quite lengthy and the substance of the Bill that's before you today is the result of some suggestions offered by the Public Utilities committee. It amends the existing licensure law to require disclosure in writing to anyone solicited by an ABC, the price per kilowatt hour of electricity, as well as the total price inclusive of any fees received by the ABC. It also requires disclosure of the fact that the ABC will be receiving compensation from the supplier of the electricity. It has a few other provisions. It exempts out the Illinois Power Authority (sic-Agency) and retail Electric suppliers that are already regulated under the Illinois Commerce Commission Act. And finally, it removes

training from 15 hours down to 7? What... what's the advantage?"

Phelps: "We just feel, actually, this won't cause anymore food borne illnesses. Only seven states do this, 43 other states do less hours than 7. So, we just feel like we're just doing this, and we... you know, it might be harder to do business in the State of Illinois as a food service sanitation manager."

Black: "Well, I want to be known as the state where we don't have food sanitarians that know what they're doing. I don't think this would help Illinois business. I can tell you a restaurant and a hotel in my district that had a severe salmonella outbreak. The restaurant's long gone and the hotel was sold. Any food borne illness is not only a local problem. It can quickly spread across county lines, state lines. At a time when everything from hamburger to peanut butter has been recalled lately, I want somebody on duty who understands and knows how to be observant of potential food borne illnesses. For the life of me... you're reducing 8 hours of training, for what purpose, I don't understand this?"

Phelps: "Actually, Representative, like I said, 43 other states do this and we just feel like we're just getting with them to make it less easier for businesses."

Black: "Well, I don't know how many people died in California five years ago. I mean, that would be a good example. They had a botulism outbreak in California. There's got to be a reason, not just that 43 states do it, what... what's the reason? I mean, are there no registered sanitarians?"

Are people coming to state agencies and saying that we can't train people? The health department and the community college in my district offer these food handling certificate classes five, six, seven times a year. And nobody's ever complained to me in my district. I haven't had a restaurant owner, a convenience store owner, a fast food operator, nobody has complained to me about the sanitarian inspectors or having to have their people, who work for them, take this 15-hour course. I mean, I don't... you've given me some good reasons. Okay, 43 other states do it this way, but what... what's the real reason? What... what's happened here that I just don't understand?"

Phelps: "I... I just think a lot of..."

Speaker Lang: "Mr. Black, I'll give you an additional minute."

Black: "Well, you know, maybe he can answer the question."

Phelps: "I just think a lot of members with IRMA... it has been brought to their attention. They're just trying to make it more or less bureaucratic to conduct business in Illinois, believe it or not."

Black: "But I... I've got all kinds of retail merchants in my district that sell food, prepare food, serve food and no one, none of them, have ever contacted me about the burden of the food sanitation course, it's only 15 hours. You know, and not only that but they do some testing. I don't want somebody with Hepatitis frying my hamburger. I don't want somebody like Typhoid Mary working at a restaurant that I would frequent. Representative, I trust you. I'm going to say that you've looked into this Bill. And maybe it is a bureaucratic simplification, but I just find it

amazing... I think most people in my district know me and if they had a problem with this, I'm sure that they would have..."

Speaker Lang: "Please proceed. Mr... Mr. Black is finished with his remarks."

Black: "I just... nobody has contacted me about this so-called burdence of requirement. Maybe I've missed something, but I don't think I have in my district. Maybe it's worse in Chicago, maybe it's worse in bigger cities, I don't know, but this thing just caught me by surprise because I've never heard any word of complaint about the food service sanitation requirement. In fact, the restaurants that a few years ago didn't like it, once they got used to it said we don't know how we ever worked without it, but again, maybe I'm just out of the loop."

Speaker Lang: "This Bill is on Short Debate. There are six people waiting to speak. We will take it off of Short Debate, but we're going to hold everybody to the two... two-minute time limit. Chair recognizes Representative Bost."

Bost: "Thank you, Mr. Speaker. To the Bill. Maybe what we need to understand is, is there's a couple things. One, the companies that might be working around the borders, the grocery stores that also prepare food, this will provide reciprocity. It does not stop any of the testing requirements. They still must meet certain testing requirements to know they're qualified in the food handling, food service preparation. I think what we do hear from our health departments, and this is kind of interesting, is that they are in opposition to this, but

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

the reason they might be in opposition to this is is on the side they teach these classes. Now, we get into something real here. The reason why we have more hours taught in the State of Illinois gives them the opportunity to do that. What this does is just simply bring us online with other states, it allows reciprocity with the states around us and I think it's a very good Bill."

Speaker Lang: "Representative Tracy."

Tracy: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "Sponsor yields."

Tracy: "Representative Phelps, isn't this actually an initiative of the retailers that represent small, independent businesses that handle sandwiches and the like. And their concern is that they lose two days of operations and training by sending someone for two days of training?"

Phelps: "Yes. On that, yes."

Tracy: "And actually... there is actually a... a fairly frequent turnover within that industry and that that causes them a great deal of cost expense in the training?"

Phelps: "Right. Absolutely."

Tracy: "And as I understand, they... I... isn't it also true that they think that 7 hours will exactly... equate a 15-hour training session. That it's a condensed session that will only take one day."

Phelps: "Absolutely."

Tracy: "So, as I understand, you're not trying to impede or impair the health safety standards of the State of Illinois and the food handling process, but, rather, streamline it so our small, independent retailers that do this type of

restaurant processing are able to cut their costs in that area."

Phelps: "Yes. Thank you very much."

Tracy: "Thank you. I stand in support of this Bill. I think it makes good, practical sense so long as we do not jeopardize the standards of the food handling, but can allow them to streamline and to compact the training. Thank you, Mr. Speaker."

Speaker Lang: "Mr. Burns."

Burns: "Thank... thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Lang: "The Sponsor yields."

Burns: "Representative, I just wanted to make sure that everyone understands that the same exam that people would take after... under the 15-hour requirement, they'll still have to complete the same exam after 7 hours, right?"

Phelps: "Correct."

Burns: "So, they still have to learn the same material that they would learn under current law, it's just that you're reducing the training from 15 hours to 7 hours."

Phelps: "Absolutely."

Burns: "Very quickly, to the Bill. I think this is an excellent piece of legislation. This is a way to help small business owners and restaurants. We all have them in our districts. We want to make sure that we reduce their costs in tough economic times. This is a jobs Bill. The Department of Public Health is neutral, the Chicago Department of Public Health has no objection and I think we should support the Representative's Bill. Thank you."

It's probably one of the few or less than one or two, I don't know if Representative Mell has her certificate also, but the process is normally trained throughout the businesses in themselves and to take one more class for something that many already know is redundant. So, I agree with the Sponsor's Bill. I think we're streamlining it and make it a more efficient process without harming the people of the state. I think it's a good idea. I support the Bill."

Speaker Lang: "Representative Mell."

Mell: "Thank you, Mr. Speaker. I stand in opposition to this Bill actually, other than, you know, what the previous Representative just said. You know, I attended culinary school for two years, and there we had 80 hours of training on food sanitation. I don't think it's something that can be taken lightly, and I also don't think it's... I spend many times and many hours in restaurants and there isn't ongoing training. You're trying to get the food out. And what you need is really experience and knowledgeable people when you're, you know, dealing with food that you're going to feed the public with. So, I urge a 'no' vote. Thank you."

Speaker Lang: "Representative Poe."

Poe: "Mr. Speaker, the Sponsor answer questions?"

Poe: "Okay. And probably like Randy, I've probably had a food owner's license for 10, 15 years, and I went through the courses and I think that they could condense that into one day. It seems as I go through that, I've been through it in the past, they have to do quite a bit of stretching to make it last the 15 hours. And I think, the way it was explained to me the thing that we need, and we have food now in more of the service stations, convenience stores, some of those kinds of things, they have quite a bit of turnover in their staff. And this is a way that they can get their staff certified and if they have... like Randy said on-the-job training, I think that this is something that they can go ahead and do, but by going through the classes, I've been through recertification. We've done all these kinds of things in the past, and I think they could condense this in one day and make it still be safe for Illinois. So, I'd encourage an 'aye' vote."

Speaker Lang: "Last Speaker on the Bill, Representative Cole."

Cole: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Cole: "Representative, how often does a business need to recertify?"

Phelps: "I believe it's... the recertification, I believe which you are referring to, is every 5 years."

Cole: "Okay. So, this is 15 hours of training every 5 years?"

Phelps: "And then you have 5 hours... currently 15."

Phelps: "We're not changing the recertification process, whatsoever, just the initial 15 to 7."

Cole: "I was just pointing out that 15 hours of training every 5 years is not really a long period of time. I'm suggesting that."

Phelps: "It's 15 to get certified."

Cole: "Correct."

Phelps: "And we just think that's..."

Cole: "And how many hours to get recertified?"

Phelps: "Five. We're not touching that. That's the way it's always been."

Cole: "Right. Okay. And who are the proponents? Is the Northern Illinois Public Health Consortium opposed to this Bill?"

Phelps: "We thought they were neutral. Some individual health departments have been opposed because, as Representative Bost said, some of these people on... outside of their job, they're teaching some of these classes and they're getting paid. So, that's another story in it's own that we haven't looked at."

Cole: "So, the only city within the Northern Illinois Public Health Consortium that is a proponent is the City of Chicago, correct?"

County, Kane County, Kendall County, DuPage County, are all opposed to this Bill, because our counties have found that it is more cost-effective for a business to go through the training than to be shut down for two or three days for food preparation violations. I have quite a few food businesses within my district. They do not think the 15 hours is a difficult process to go through particularly because it helps them to train their employees on how to safely prepare foods. I urge a 'no' vote."

Black: "Thank you very much, Mr. Speaker. I appreciate the Gentleman's attempt to be brief, but could he explain what the Amendment does?"

Phelps: "The Amendment actually is just for all parties that were off of this a little bit, Jean Payne with the Chemical and Fertilizer Association. We put a lot of work in this to make some technical changes and this is only applies for your lawns and does not involve homeowners, whatsoever."

Black: "Well, my staff analysis says Floor Amendment #2 becomes the Bill. So, I wouldn't think that it would be just a technical Amendment."

This Bill is not constitutional pursuant to the First Amendment, pursuant to the case law that came down, pursuant to the cigarette advertisement. The Bill is not constitutional with respect to placing a restriction on a legal product. And I understand the safety, I understand the concern, I understand the good intention. The Bill does not comport with First Amendment protections plain and simple."

DeLuca: "Did you say a warning label on a legal product?"

In addition, the law prohibits the purchase of fireworks from an unregistered consumer fireworks distributor retailer or an unlicensed pyrotechnic distributor. This is a public safety issue. It would require all advertising mediums: billboards, radio, television and print, to advertise consumer fireworks including a warning label which would state, Illinois law prohibits the possession of fireworks without proper permits, check with local law enforcement prior to purchase. But the way the warning reads individuals are encouraged to check with their local fire department or law enforcement prior to purchase. So, is there consistent information that will be coming out of local law enforcement and fire departments, if somebody goes to check with them about the purchase of fireworks?"

DeLuca: "Well, I would hope that the consistent message from local law enforcement would be giving the information, explaining the information, explaining the process, explaining what the requirements are, if you were to purchase fireworks in another state."

Davis, W.: "Well, I would probably encourage, maybe a... a trailer piece of legislation to this that speaks to that. Because you read a billboard and it says that, then I go to my local fire department and say, well, this billboard told me I'm supposed to check with you, and they go what am I supposed to tell you about fireworks, or whatever the case may be. So, you might consider a trailer Bill that speaks to that. I'm not saying the fire departments or the police departments will like it, but if that's what you're encouraging people to do, assuming this legislation passes, then the follow up to that would be making sure that those individuals who will be asked to provide information know

We just passed two Bills that were Illinois jobs Bills, that means that if... if we sell more appliances on the interest rebate than the Federal Government gives us money for, the Illinois taxpayers will make good on that. But that's an Illinois jobs Bill. If you go to a convenience store and the clerk who was wiping up a gasoline spill then goes in and pops your pizza in the oven and you die of gasoline poisoning, that's a jobs Bill. They don't have to go to a sanitarian school. Now, I live on the border. I've got a huge fireworks store about 9 miles from my house in Indiana. You're telling me that if they want to advertise on a huge billboard in Illinois, I don't even remember the name of the fireworks store, but they're open 24 hours a day 12 months out of the year, that this billboard now has to have a warning label on it, Representative? What is the harm in putting an announcement on those billboards that are littered on the south-east side of Chicago every June promoting buy one get six free billboards all along Indianapolis Boulevard? How many years has that public safety warning been on there? If you're a smoker, it certainly does a lot of good. Let me ask you a question, Representative. In my hometown and in my district there are all kinds of organizations that put on professional fireworks shows: the American Legion, Gao Gratto, the Danville Country Club, the Danville Boat Club, and these displays can cost 6, 7, 8, 10 thousand dollars. Now there's where you have a concentration of high explosives. Will we make these people put up a billboard that they should check with the fire department or their public safety officer before they go to the professional firework show?"

DeLuca: "This is related to Class C fireworks, not the professional shows that you would see at some of the municipality 4th of July celebrations."

Black: "But the only people, and I'm serious, the only things that I've read in the last 15 or 20 years where people have

been killed have been at professional fireworks shows. Either a misfire or one of the mortar tubes ruptured or the shell exploded too close to the ground. So, we're not regulating those people."

DeLuca: "Well..."

Black: "If we're here in July and we might be, I'll take you out all over Springfield and I'll show you the fireworks stands that are all over just outside of Springfield where you can buy all kinds of fireworks in the City of Springfield, even though the..."

Speaker Lang: "Mr. Black. Mr. DeLuca to close."

DeLuca: "Thank you, Mr. Speaker. First, I want to thank the Representatives who stood and rise in support of the Bill. You know, this is not only a public safety issue, this could also be viewed as a jobs Bill, surprisingly, in Illinois because we want to encourage our residents in Illinois to go to the local fairs and go to the local celebrations and support those instead of going across state lines and buying fireworks. But 88 percent of the injuries related to firework class... are Class C fireworks, what this is directed at. This is not limiting the sale. This is simply and I'll read it again. This is simply informing the public that Illinois law prohibits the possession of fireworks without proper permits, check with local law enforcement prior to purchase. That's what this Bill is about. It's about notifying the public. I ask for your 'yes' vote. Thank you."

Speaker Lang: "Those in favor of the Bill will vote 'yes'; those opposed 'no'. The voting is open. Have all voted

Speaker Lyons: "Hello, again, everybody. How you doing? Nice to see you. Mr. Clerk, what's the status of House Bill 6434. Representative Rita, you have House Bill 6434? Read the Bill, Mr. Clerk."

Clerk Mahoney: "House Bill 6434, a Bill for an Act concerning public aid. Second Reading. Floor Amendment #1 has been approved for consideration."

Speaker Lyons: "Representative Rita, Amendment 1."

Rita: "Amendment #1 becomes the Bill. What it does is creates a disproportionate share adjustment payment for school nursing homes and nursing homes in which would be determined by the Department of HFS. I'd like to ask for it to be adopted."

Speaker Lyons: "Is there any discussion? Seeing none, all those in favor of the adoption of Amendment #1 signify by saying 'yes'; those opposed say 'no'. In the opinion of the Chair, the 'ayes' have it. And Amendment #1 is adopted. Anything further, Mr. Clerk?"

Clerk Mahoney: "No further Amendments. No Motions filed."

Burns: "Thank you very much, Mr. Speaker, Members of the House. This is the Illinois Safe Children Act. This is an initiative of the Cook County State's Attorneys Office. And what this Bill does is two things. On the.. it deals with child sex trafficking. What it does is that it decriminalizes the.. the crime of juvenile prostitution. And the reason we do that is that these young people have been exploited by pimps and adults and forced into a life of prostitution and the idea is to link these young people with the appropriate child protective services. On the other end of the spectrum, what we do is we increase criminal penalties for those pimps, for those who would abuse and exploit sexually these young people. This is an important initiative to Cook County State's Attorney, Anita Alvarez. I know of no opposition. I would seek an 'aye' vote."

Speaker Lyons: "Chair recognizes the Gentleman from DuPage, Representative Dennis Reboletti."

Reboletti: "Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Reboletti: "Representative, we had some long discussions in... in committee and I thought that one of the important parts the Body would need to know is that the amount of actual juvenile prostitutes that are out in the city in the county of Cook and that we've talked about the fact that since we are a transportation hub and that we have conventions, not as many as we'd like to have here, that that actually increases the amount of the trafficking that happens in our state. Is that a fair assessment?"

Burns: "That's absolutely right, Representative, because of Chicago's location and our tourism industry and conventions, prostitution is big business and especially juvenile prostitution. A pimp can make \$500 thousand off of one young person a year. It's... it's truly a crime."

Reboletti: "Was this Bill also dealing with some of the electronic, I guess if you want to call it video taping or trying to investigate some of these cases as they bring them the... to charging?"

Burns: "One of the things that this Bill does is that it gives... it gives state's attorneys the same ability to do electronic recording and monitoring that they have under current law to deal with drug gangs. And again, as I mentioned earlier the amount of money that's involved in juvenile prostitution is huge, and because of the age of the prostitutes, and they're juveniles and they've been confused, they've been manipulated, they've been pimped, it's hard to get them to work against their... the pimps. So, the Cook County State's Attorneys and the other state's Attorneys need this... these abilities so they can break up these violent gangs."

Reboletti: "We also talked about the fact that if the kids went back into that lifestyle, if they got picked up again, they would be put back into DCFS and continue to get services and counseling."

Burns: "That's exactly right."

Reboletti: "And the other thing was your commitment to work with the Senate Sponsor with respect to some mandatory

prison for the pimps. Right now, I know you are moving it up..."

Speaker Lyons: "Representative Reboletti, we'll give you another minute to finish your remarks."

Reboletti: "I know we're looking at moving it up one felony level, but I think that... what you're talking about, describing with these pimps is that they should spend some amount of time in prison and I think I have your commitment to work on that one in the Senate."

Burns: "Right. You have my commitment that we're going to add an Amendment on to this... on to the Bill in the Senate to make those convicted of juvenile... of pimping juveniles and make that a nonprobational offense."

Reboletti: "Thank you."

Speaker Lyons: "Representative Durkin."

Durkin: "Thank you. To the Bill. I support this Bill wholeheartedly. If you look at what we're trying to do, this type of practice is not something which is strictly unique to Asia or other parts of the world, it's in the City of Chicago, it's in the State of Illinois and we have to treat it accordingly. It's more pervasive than people think, but it's also important because we're now going to see that the juvenile who has been involved in this is no longer going to be the criminal, they're going to be the... they're a victim. And we are going to treat them and we're going to get them back on a right road to recovery, but it's a terrible problem which is gaining in... in strength because of the economy. I hope people can support this Bill. A lot of thought and a lot of effort has gone into

this. I think it's a very good Bill and ask for an 'aye' vote."

Speaker Lyons: "Representative Burns."

Burns: "Thank you very much, Mr. Speaker. One of the issues that we've been working on in terms of juvenile justice is making sure that juveniles have access to mental health services. One of the things that we wanted to make sure of is that juveniles use those services. And so the Juvenile Justice Initiative and the Cook County State's Attorneys Office has worked on language that would exempt the comments made by a juvenile to a mental health... to a mental

Speaker Lyons: "Is there any discussion? The Chair recognizes the Gentleman from Cook, Representative Jim Durkin."

Durkin: "Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Durkin: "Representative, is there a privilege in Illinois law regarding a mental health therapist and their patients?"

Burns: "There is for adults, but not for juveniles."

Durkin: "Is that common law or a statutory privilege?"

Burns: "Common law... common law."

Durkin: "Then it should apply to the juveniles. I'm not sure if it's necessary. Let me ask you this. Is... will these statements, if there is a civil action in which a... a victim is seeking some type of recovery against that individual who's made that statement, is it still privileged?"

Burns: "My understanding is that the judge would make that determination in a civil proceeding. Look, what we're trying to do here, Representative..."

Durkin: "'Cause this is a very specific for criminal proceedings, if not..."

Burns: "This is very specific to juvenile proceedings. It doesn't even apply..."

Durkin: "Oh, juvenile proceedings. Oh, juvenile proceedings."

Burns: "...it doesn't apply to... to adult crimes or if there are adult issues. This applies to juvenile proceedings involving juveniles in a specific instant under which they may be charged."

Durkin: "But a parent can be held liable for the torts of their child and there can be situations where the actions of that individual have caused great injury to someone and there is an admission of some sort. I will... I'm going to vote for your Bill, but I'll disagree. And I think that there is... there is that situation where this Bill is not going to cover that type of exemption or privilege."

Speaker Lyons: "The Chair recognizes the Lady from Cook, Representative Rosemary Mulligan."

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Mulligan: "Representative, I wasn't going through this fast enough so maybe it's in our analysis, I don't know. But, if they make some type of an admission that should basically mean that they need treatment of some sort, how... how would you go about it? It may not be an admission because you don't want it to be used against them in court and you'd like them to be able to talk to a professional, but what if it's something that really signifies that that young person needs some kind of intensive therapy or some kind of treatment. What would happen then?"

Burns: "Well, that's exactly the point of the Bill, is the mental health partnership, children's mental health partnership, is a proponent of this legislation because they want to make sure that when a juvenile is in front of

a mental health practitioner that they are giving that mental health practitioner the information they need so they can properly treat the mental health needs of that child."

Mulligan: "What if it's the type of treatment that would be in a closed facility?"

Burns: "You mean... in regards to institutionalization?"

Mulligan: "Right. Would a parent or someone or say the child has no immediate guardian, how would you institutionalize them?"

Burns: "Well, that would be determined during... that would be determined during the juvenile court proceeding. This happens before the court proceeding."

Mulligan: "All right. And..."

Burns: "These are services... these are services that are provided before the juvenile goes to court."

Mulligan: "Okay. I'm just wondering how you could make it more mandatory that they get that treatment if it was something particularly egregious, but... I support most of the juvenile justice initiatives, and so I'm going to support your Bill. I just wanted to know if there was some way that you would actually further help that person and particularly if they really needed significant treatment. Thank you."

House Bill 5126 deals with student confidentiality and information that students share with their school counselors, their school work... social workers, and their school psychologist. Davis, W.: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Davis, W.: "Representative, I had a lengthy discussion with school counselors yesterday about this Bill and my challenge with it is that while they claim that the Bill speaks to when a child speaks about harm to themselves or harm to others, that that allows the confidentiality to be broken. My concern is that and while I can appreciate the role that school counselors want to play in this discussion, my concern is that there are some things that parents or some conversations that parents should be

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES

brought into. And my concern is that this doesn't create enough, what I'll call gray area, that will allow the counselor in lieu of the confidentiality to really be able to bring a parent into the discussion. All they can do is recommend that... that you go to family counsel and hopefully, that issue will be brought out in family counseling. And I'm not suggesting that they're issues of mental issues, but we could be talking about kids that may be experiencing hormonal changes, you know, thinking about sex and things of that nature, you know, things that parents... conversations that parents should be brought into, that this Bill doesn't create enough gray areas to allow the counselors to bring parents into those discussions without recommending that they simply just go to family counseling."

Pihos: "Originally this Bill was brought because there was some question between administration and school counselors, social workers, and school psychologists about what needed to be kept confidential about a student between those people and the administration, was certainly not to keep the parents out of the process. There are certain things that of course all those professionals, they have certain standards they have to meet by their own profession. They have certain pieces of information they have to disclose by mandated reporting. Obviously, this Bill also says if there is a clear and present danger..."

Pihos: "Yeah... to the health or safety of the student. Anytime a disclosure is required by law and we try to address the fact that when a student has some personal issues that the counselor feels that the family could be helpful on, career issues, et cetra, that they are certainly free by those standards to bring the parent in on the discussion."

Davis, W.: "Well... "

Pihos: "So..."

Davis, W.: "Unfortunately, the counselors that I talked to really didn't articulate it that way. It was more of a very fine line. Either you're on one side of the line, or the other, and that there really were no gray areas. While they could break that confidentiality, the question then would be would they be in violation of this law?"

Pihos: "Well, there is..."

Davis, W.: "If it were to become a law."

Pihos: "There is an area in this particular piece of legislation that says in order for the student to... a counselor to talk about the certain pieces of information they can also receive permission from the student to do so. None of our discussions at the table to this point, over the last two years, have been about confidentiality and parents. So, even the counselors, the school psychologist, and the social workers have never talked about confidentiality and keeping particular issues from parents. It was more defining the line between the administration and these particular professions. So, that's something new that I'm hearing. When we pass it over to the Senate

Sponsor, if there's a concern David Koehler is picking it up, we can certainly continue these discussions with him."

Davis, W.: "Well, let me just make this statement and I'll close, Representative. When I talked to the school counselors they did... the idea about keeping or being confidential with administration came very late into the conversation. It was all about parents. So, if this is the... to deal with administration, the people that I talked to yesterday, again, did not do a very good job of articulating that this was about administration. It came in the conversation, and I suggested, well, why don't you do something specific to administration..."

Speaker Lyons: "Representative Davis, please give him 30 more seconds."

Davis, W.: "I'm done. I'm done, Mr. Speaker. Thank you."

Speaker Lyons: "Representative Pihos to close."

Pihos: "Yes. Thank you very much for your consideration of this Bill. Again, this is just clearly to define what confidentiality means in communications with the students' school counselor, school psychologist or school social worker. So, I would ask for your 'yes' vote."

Harris: "It would... there wou... would have to be a... an Amendment in the Senate, which, of course, would have to come back here for concurrence."

Have all voted who wish? Have all voted who wish? Representative McAuliffe, Saviano, backrow GOP. Mr. Clerk, take the record. On this Bill, there's 110 Members voting 'yes', 0 voting 'no'. This Bill, having received the Constitutional Majority, is hereby declared passed. Representative Connie Howard, you have House Bill 5401. Out of the record. Representative Sara Feigenholtz, on the Order of Second Reading, you have House Bill 5430. What's the status of that Bill, Mr. Clerk?"

Clerk Mahoney: "House Bill 5430, a Bill for an Act concerning regulation. Second Reading of this House Bill. Floor Amendments 1 and 2 have both been approved for consideration."

Speaker Lyons: "The Lady from Cook, Representative Connie Howard."

Howard: "Thank you very much, Mr. Speaker. Oftentimes when someone overdoses, his or her friends are scared to call 911 for fear that persons overdosing and/or the person making the call will be prosecuted for the possession of drugs. Therefore, there's a lot of pressure to not call 911. Witnesses to an overdose will often try anything they can think of to revive the person on their own. People often try home remedies, like putting the person who is overdosing into a cold bath or shower, rubbing ice on their body, or injecting the person with another drug or saline to counter... counteract the drug causing the overdose. These home remedies are life threatening. Moreover, when someone overdoses, it's a race against time. Any time wasted, in fear of calling 911, increases the chance that the victim dies. House Bill 5401 creates immunity for the person who is overdosing and the person that calls 911, unless the police already have a probable cause to arrest either person. This Bill will remove the fear of calling 911, so that we can save lives. I will accept questions."

Speaker Lyons: "The Chair recognizes the Gentleman from DuPage, Representative Dennis Reboletti."

Reboletti: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Reboletti: "Representative, what would happen in the case where two people were using heroin, let's say sharing needles, sharing the substance, and one of the people begin to die

and the other person calls 911. Could the other person under your Bill be charged with a drug-induced homicide?"

Howard: "Yes, they can."

Reboletti: "They can be?"

Howard: "If they delivered the drug."

Reboletti: "That's not how I read the Bill, Representative. I... my understanding is that the person who would make the... the 911 call would be granted immunity. Is that not what the Bill says?"

Howard: "That's not what I have interpreted it as saying. They will..."

Reboletti: "Because my concern with the legislation is, and I... and I've prosecuted drug-induced homicides before, is that many times the people will be sharing the substance, they go into convulsions, obviously people are afraid, they don't want to be arrested and I get the fact that their priorities should be to call 911. But I've seen cases where the people then drive around with that person, try to give them a shower, take them to other peoples' houses instead of driving to the hospital. And I don't think, at that point, we should be protecting the other person if eventually they call 911 because we're not set... even setting a time frame in which they could call 911."

Howard: "Representative Reboletti, immunity only applies to violations of Section 401, 402, and 404. Drugs induced homicide is a violation of Section 9-3.3. Several attorneys for law enforcement agencies have reviewed this Bill and none of them have indicated that this Bill would inhibit charging a violation of Section 9-3.1."

Reboletti: "Well, the other concern then, Representative, is 401..."

Speaker Lyons: "Representative, we'll give you another minute to conclude your questions."

Reboletti: "Thank you. The... the other one is in Section 401 is the delivering, 402 is other possession. I mean, if... if the police come in there and there's a stockpile of narcotics, the person who called 911 gets immunity and the person taken to the hospital also gets immunity. I've never seen a case where we've had those situations. Where the person calls 911 for somebody else and the person who is in cardiac arrest or convulsions is usually charged. I don't usually see it as that, but I'm concerned that this Bill would give total immunity for every other drug charge that those sections possess or that they cover. And therefore, I think it gives way to much latitude. And so, unfortunately, I cannot support your measure."

Speaker Lyons: "The Chair recognizes the Gentleman from Cook, Representative John Fritchey."

Fritchey: "Thank you, Speaker. Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Fritchey: "Rep... Representative, I... I've got to ask you, see... I don't know. What are Sections 401, 402, and 404? See, I have the same concerns as the previous speaker."

Howard: "Possession and delivery of a controlled substance."

Fritchey: "So, but... but I... I think those Sections can too... I... I apologize. I mean, I've got the sun directly in my eyes here. But the... I... but that's... that's precisely, I guess, what we're getting at. So, if an individual were to sell..."

here... let's... to make it easier. If I were to sell you heroin and... and you use it and started to overdose and I were to then... I were to then call for... I would've called the paramedics, I would then be immune from prosecution for having sold you the heroin. Correct?"

Howard: "If the person who has been given the drug dies, then there is... its drug-induced homicide.

Fritchey: "But I... but I..."

Howard: "And there is... and there is no immunity in that instance."

Fritchey: "From... from the drug-induced homicide, but there's immunity... So, if the person doesn't die, they simply overdose but don't die, is... does the immunity still attach to the possession and distribution charges?"

Howard: "Yes, it does because we're trying to save lives."

Fritchey: "Okay. To... to the Bill. I understand what the woman wants to do... what the Sponsor wants to do and she's... she's right. There's a significant issue here that, I mean, there's been cases where friends drop a friend off and leave them in the hospital driveway and drive off. I under... I understand what you were trying to get at. Everybody's going to come to their own conclusion on this Bill. I will simply ask people to recognize that what we are doing is offsetting this and really giving people a free pass for possession, or distribution, or trafficking. Simply by making a phone call, they would in turn get immunity. Connie, I... I get what you're trying to do. I don't know what the answer is. I don't know if this is it or not. Thank you."

Speaker Lyons: "Gentleman from Cook, Representative Jim Durkin."

Durkin: "To the Bill. I understand what the Sponsor's doing. It's been an issue that's been around for a few years, but I think this is a Bill where there are going to be situations of unintended consequences. The way it was posed to us in committee and in the past is that there were friends sitting around an apartment, someone overdoses, and they don't know what to do. You want... and they're afraid of calling the police for purpose of the possession. That's not the only case. In metropolitan areas all over the United States, you have drug houses and also... they're also referred to as shooting galleries, which are for-profit operations run by gangs in which people, addicts mainly, come into those places and they either shoot up or take some type of narcotic. In those types of situations, I don't think the proprietors or the individuals run those places should get the benefit of a pass for their actions. So, I... I'm going to be voting against this Bill."

Speaker Lyons: "The Lady from Cook, Representative Julie Hamos."

Hamos" "Rep... a question of the Sponsor."

Speaker Lyons: "Sponsor yields."

Hamos: "I... I'm trying to read the Bill, which once in awhile we should try to do to really understand all the words in the Bill and I read, is this not in the Bill? or property of the person who calls. I mean, doesn't that suggest that there are instances in which they will not get immunity if there's a reasonable belief that it's not real."

Howard: "That is correct."

Hamos: "It's being... it's being used to circumvent the criminal justice process. So, haven't you put in here basically a big but or however, this is not in all cases."

Howard: "That is a circumstance that would not then result in immunity."

Hamos: "So, I don't understand why all the previous speakers seem to come up with these scenarios, that in fact, this would be ap... applicable to this however clause. Right?"

Howard: "Right."

Hamos: "Okay. I'm... I was just trying to figure this out, because it doesn't seem like the previous speakers had exactly read the entire Bill. They're looking maybe at the headliner there or some synopsis But I think you've tried to protect law enforcement and criminal justice system. Right?"

Howard: "Absolutely."

Hamos: "Thank you."

Speaker Lyons: "Representative Monique Davis."

So, the question became what's more important? Saving the life of this college student, who is misguided and using drugs or is it more important that a person doesn't get caught and go to jail? Let me give you an example, I like Mike Zalewski, sitting here by me. Mike Zalewski, if Mike Zalewski, let's say he was using some heroin. He shouldn't have been doing it. He... he shouldn't have done it. Hold on. We talked about it. I told him he shouldn't do it. Okay. Mike Zalewski and I and a few friends and Mike passes out. He's unconscious. I don't want to be... I do not want to go to jail. I don't want to be accused of selling drugs. I don't want to be caught for selling drugs, but what's more important to me, Mike's life or me going to jail? Save Mike's life and dial 911. Save Mike's... save Mike's life..."

Davis, M.: "...Dial 911, dial..."

If Representative Davis and I are doing heroin and the cops are at the door, and I appear as though I'm overdosing, however I'm not, and she dials 911 on her cell phone, it's my opinion that under this Bill, she would be immune from prosecution. So, as much as I would enjoy doing heroin with Ms. Davis, I'd have to rise in opposition of Representative How... the Representative's Bill."

Durkin: "And I know the air is getting a little thin in this place, but I think we all need to realize that this is kind of a serious issue that we're talking about. If we could, you know, get to the matter at hand. But with response to a previous comment, I have read the Bill. And a matter of fact, I was a narcotics prosecutor in Cook County and I've probably tried close to 300 narcotics cases, equal amount of search warrants that I've drafted, and also a number of search warrants that I've executed. But the fact is, it is going to be that 911 call from the shooting gallery, the

drug house which is run by the gang, which is going to indemnify those individuals when they make the call that one of my clients HAS died. That's why I'm voting against it."

Speaker Lyons: "Representative Mulligan."

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Mulligan: "Representative, of all the wonderful state's attorneys and lawyers that we have on the floor, has anybody offered to help you make this Bill a doable thing? I mean, I certainly understand where you're going and I don't think it's a funny issue. I think it happens particularly with young people because they're afraid and they don't want to be accused of something and so someone unintentionally dies. Although, it's hard to support the way it's written, but have any of these fine Gentlemen offered to help you make it a Bill that could be passed or ha... have they just told you that they can't?"

Howard: "You know, Representative Mulligan, I'm not certain whether or not there is a way that I can satisfy some people. They proclaim that they want to help people. They say they understand the reason for this legislation, but then they find all kinds of excuses to not. So, I'm not certain. I will always try to do the right thing though, and I believe that saving lives is very important.

Representative Durkin, if you had a probable cause to get that search warrant, it would not apply."

Mulligan: "All right. So, my feeling is as someone who's lived for awhile, raised kids, and been around, and read articles in the newspaper then I understand what you're trying to do. And I certainly understand that it would probably mean that someone who might be afraid, if they knew about it, just like the Safe Haven Law for babies, other things, would make it so that someone would feel that they actually could call to try and save someone's life. So, I don't know how to tell you to fix this because I don't know if the Speaker's going to extend Bills or what they're going to do, but I think a couple of these fine Gentlemen ought to step up and help you make the Bill correct."

Howard: "Thank you."

Howard: "I'm sorry. Am I closing out now?"

Speaker Lyons: "There's no more... no one seeking recognition and your... yours to close, Connie."

It's not trying to get people out of being punished, and those people who ought to be, will be. But when someone has... when there's an emergency and we can save a life, this is something that we can use for that. I certainly hope that you will give me green votes on this. Thank you."

Dunkin: "Representative, its JWH-73 is simply one more carbon, it's a part of the cannabinoid or of the cannabis plant it's another compound. It's a carbon bond. The technical terms, it's just a slight difference in terms of the chemicals. Representative, legal counsel further informs me that the... the drugs are very simple... are very similar, similar compounds is a slightly more potent to lace on the marijuana and all we're trying to do is to add what Poe added, which is the JWH-18 and we want to add the plant fertilizer, as you locally described."

It's being used..."

Speaker Lyons: "Representative... Representative Mike Fortner."

Fortner: "Thank you, Mr. Speaker. I believe my name was used  
in debate. To the previous question that was raised. A  
number of agencies, particularly if you look at the  
European's drug advisory, drug enforcement arm, they  
identify a number of very similar compounds of which both  
of these are on the list as cannabinoids having the same  
effect as the active ingredients in marijuana on the brain.  
And when people look to control them given that you have  
two things that are very similar that other agencies want  
to control I think it makes sense that you ought to then be  
trying to control both of them the same way."

Speaker Lyons: "Representative Fortner, hold on one second,  
they having trouble hearing you. Ladies and Gentlemen,  
please. Could I ask the noise level to please come down.  
Shhh. Thank you. Continue Representative Fortner."

Fortner: "Thank you, Mr. Speaker. As I was saying, you have  
two very similar chemicals. The European drug agencies  
that monitor these have recognized these as having similar  
properties and should be treated in a similar fashion.  
What you... they do is they're spraying these chemicals on  
plants so that the plants would mimic marijuana because  
these chemicals act on the brain in the same way as the  
active ingredients, particularly THC, as it would from  
marijuana and they make synthetic marijuana. If you were  
to only ban one and not the other, all people are going to  
do is they're just to use the other alternative because it

Franks: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Lyons: "Sponsor yields."

Franks: "Representative, I'm reading the analysis for the first time since this came out last night, you were saying. What is the Making Home Affordable Program and who... who runs it?"

Riley: "It's a federal program."

Franks: "Okay. And are they fully staffed?"

Riley: "I'm sorry?"

Franks: "Are they fully staffed?"

Riley: "Well, I would... I'm sure that they are. It's a federal program that allows people to do workouts in their foreclosure situation."

Franks: "Are there time frames in this because when... the analysis indicates that you could require a court that enters a foreclosure judgment not to only set aside the judgment, but to set aside the judicial sale. For what

time frames are we talking about on here? I mean, can they come back two years later and try to set aside a judicial sale?"

Riley: "Well, I'm not really exactly sure of that, Representative, because, you know, each case would be different."

Franks: "Well, I think it's critically important because you need to know when a case is over. Because let's assume you are trying to be a buyer of a foreclosed property and you are going to drive away the ability for buyers to buy this if there is not a finite time and as a result, the people who have... who are losing their homes could have a much higher deficiency judgment if there's not people there to bid on a home."

Riley: "Well, Representative, with all due respect, this Bill is not about the Making Home Affordable Program itself. I mean, this is a federal program that exists."

Franks: "No, it's not what I'm asking though, because you are changing the Code of Civil Procedure and by changing the Code of Civil Procedure you could be taking away the finality of when one could appeal. And if... unless there is a time frame, you could be hurting these people much more than you could be helping them, because you could... what you could be doing is buying them deficiency judgments. I know it's an unintended consequences, but this is how the reality is because if there is a judicial sale and what you're saying now is is that judgment can be set aside if someone applies to this program. There has to be a time frame. Let me give you an example. The... if the U.S... if the

United States Government has a federal tax lien on a property, they are given an additional 100... 120 days under the Code after a judicial sale in order to set aside that sale if they're willing to go forward and purchase the..."

Speaker Lyons: "Representative Franks, one more minute."

Franks: "But with here... if there is no definitive time frame, what you could say is any sale then could be opened at any time. If you do that, you're going to drive away every potential purchaser and what you're saying is you are going to increase the deficiency judgments. So, what I'd like to see is a time certain. And I'm not... I don't have a problem with this, but without a time certain, you're going to he... you're going to hurt the people that we're trying to help. So, what I would suggest is have the same time frame that the U.S. Government has in order to redeem a property."

Riley: "Well, it is something that... that certainly can be considered especially if, you know, I get this Bill over to the... to the Senate. But again, you know, the program itself... the federal program itself was created to try to ameliorate the scourge of foreclosures and that's a very big problem."

Franks: "I agree with that, but the unintended consequence of the way this Bill is written is you could actually make it worse for the people we're trying to help. That's all I'm saying. You might want to ho..."

Speaker Lyons: "Representative Riley to close."

Riley: "Thank you. And I thank the Representative for his... for his concerns and these will be... will be taken up and... if we get this Bill over to the Senate. Essentially, we're

Speaker Lyons: "Representative Dennis Reboletti, for what purpose do you seek recognition?"

Reboletti: "A point of personal privilege."

Speaker Lyons: "State your point."

Reboletti: "Mr. Speaker, I was asking for a meeting in Representative Mulligan's office earlier with some Members from our side of the aisle. That meeting's going to be canceled for this evening. It will be in the same office, Representative Mulligan's office, tomorrow at 8:30, if you're able to attend, if I... if you got a letter from me. Thank you."

Speaker Lyons: "Thank you, Representative. And now, seeing no further business to come... to come before the House of Representatives, Representative Lang moves that the House
