LRB100 05665 KTG 25177 a

1 AMENDMENT TO SENATE BILL 622

2 AMENDMENT NO. \_\_\_\_\_. Amend Senate Bill 622, AS AMENDED,  
3 with reference to page and line numbers of Senate Amendment No.  
4 2 as follows:

5 on page 1, line 5, by replacing "Section 5-5" with "Sections  
6 5-5 and 5-30"; and

7 on page 29, immediately below line 18, by inserting the  
8 following:

9 "(305 ILCS 5/5-30)  
10 Sec. 5-30. Care coordination.

11 (a) At least 50% of recipients eligible for comprehensive  
12 medical benefits in all medical assistance programs or other  
13 health benefit programs administered by the Department,  
14 including the Children's Health Insurance Program Act and the  
15 Covering ALL KIDS Health Insurance Act, shall be enrolled in a

1 care coordination program by no later than January 1, 2015. For  
2 purposes of this Section, "coordinated care" or "care  
3 coordination" means delivery systems where recipients will  
4 receive their care from providers who participate under  
5 contract in integrated delivery systems that are responsible  
6 for providing or arranging the majority of care, including  
7 primary care physician services, referrals from primary care  
8 physicians, diagnostic and treatment services, behavioral  
9 health services, in-patient and outpatient hospital services,  
10 dental services, and rehabilitation and long-term care  
11 services. The Department shall designate or contract for such  
12 integrated delivery systems (i) to ensure enrollees have a  
13 choice of systems and of primary care providers within such  
14 systems; (ii) to ensure that enrollees receive quality care in  
15 a culturally and linguistically appropriate manner; and (iii)  
16 to ensure that coordinated care programs meet the diverse needs  
17 of enrollees with developmental, mental health, physical, and  
18 age-related disabilities.

19 (b) Payment for such coordinated care shall be based on  
20 arrangements where the State pays for performance related to  
21 health care outcomes, the use of evidence-based practices, the  
22 use of primary care delivered through comprehensive medical  
23 homes, the use of electronic medical records, and the  
24 appropriate exchange of health information electronically made  
25 either on a capitated basis in which a fixed monthly premium  
26 per recipient is paid and full financial risk is assumed for

1 the delivery of services, or through other risk-based payment  
2 arrangements.

3 (c) To qualify for compliance with this Section, the 50%  
4 goal shall be achieved by enrolling medical assistance  
5 enrollees from each medical assistance enrollment category,  
6 including parents, children, seniors, and people with  
7 disabilities to the extent that current State Medicaid payment  
8 laws would not limit federal matching funds for recipients in  
9 care coordination programs. In addition, services must be more  
10 comprehensively defined and more risk shall be assumed than in  
11 the Department's primary care case management program as of  
12 January 25, 2011 (the effective date of Public Act 96-1501).

13 (d) The Department shall report to the General Assembly in  
14 a separate part of its annual medical assistance program  
15 report, beginning April, 2012 until April, 2016, on the  
16 progress and implementation of the care coordination program  
17 initiatives established by the provisions of Public Act  
18 96-1501. The Department shall include in its April 2011 report  
19 a full analysis of federal laws or regulations regarding upper  
20 payment limitations to providers and the necessary revisions or  
21 adjustments in rate methodologies and payments to providers  
22 under this Code that would be necessary to implement  
23 coordinated care with full financial risk by a party other than  
24 the Department.

25 (e) Integrated Care Program for individuals with chronic  
26 mental health conditions.

1           (1) The Integrated Care Program shall encompass  
2 services administered to recipients of medical assistance  
3 under this Article to prevent exacerbations and  
4 complications using cost-effective, evidence-based  
5 practice guidelines and mental health management  
6 strategies.

7           (2) The Department may utilize and expand upon existing  
8 contractual arrangements with integrated care plans under  
9 the Integrated Care Program for providing the coordinated  
10 care provisions of this Section.

11           (3) Payment for such coordinated care shall be based on  
12 arrangements where the State pays for performance related  
13 to mental health outcomes on a capitated basis in which a  
14 fixed monthly premium per recipient is paid and full  
15 financial risk is assumed for the delivery of services, or  
16 through other risk-based payment arrangements such as  
17 provider-based care coordination.

18           (4) The Department shall examine whether chronic  
19 mental health management programs and services for  
20 recipients with specific chronic mental health conditions  
21 do any or all of the following:

22                   (A) Improve the patient's overall mental health in  
23 a more expeditious and cost-effective manner.

24                   (B) Lower costs in other aspects of the medical  
25 assistance program, such as hospital admissions,  
26 emergency room visits, or more frequent and

1           inappropriate psychotropic drug use.

2           (5) The Department shall work with the facilities and  
3           any integrated care plan participating in the program to  
4           identify and correct barriers to the successful  
5           implementation of this subsection (e) prior to and during  
6           the implementation to best facilitate the goals and  
7           objectives of this subsection (e).

8           (f) A hospital that is located in a county of the State in  
9           which the Department mandates some or all of the beneficiaries  
10          of the Medical Assistance Program residing in the county to  
11          enroll in a Care Coordination Program, as set forth in Section  
12          5-30 of this Code, shall not be eligible for any non-claims  
13          based payments not mandated by Article V-A of this Code for  
14          which it would otherwise be qualified to receive, unless the  
15          hospital is a Coordinated Care Participating Hospital no later  
16          than 60 days after June 14, 2012 (the effective date of Public  
17          Act 97-689) or 60 days after the first mandatory enrollment of  
18          a beneficiary in a Coordinated Care program. For purposes of  
19          this subsection, "Coordinated Care Participating Hospital"  
20          means a hospital that meets one of the following criteria:

21                 (1) The hospital has entered into a contract to provide  
22                 hospital services with one or more MCOs to enrollees of the  
23                 care coordination program.

24                 (2) The hospital has not been offered a contract by a  
25                 care coordination plan that the Department has determined  
26                 to be a good faith offer and that pays at least as much as

1 the Department would pay, on a fee-for-service basis, not  
2 including disproportionate share hospital adjustment  
3 payments or any other supplemental adjustment or add-on  
4 payment to the base fee-for-service rate, except to the  
5 extent such adjustments or add-on payments are  
6 incorporated into the development of the applicable MCO  
7 capitated rates.

8 As used in this subsection (f), "MCO" means any entity  
9 which contracts with the Department to provide services where  
10 payment for medical services is made on a capitated basis.

11 (g) No later than August 1, 2013, the Department shall  
12 issue a purchase of care solicitation for Accountable Care  
13 Entities (ACE) to serve any children and parents or caretaker  
14 relatives of children eligible for medical assistance under  
15 this Article. An ACE may be a single corporate structure or a  
16 network of providers organized through contractual  
17 relationships with a single corporate entity. The solicitation  
18 shall require that:

19 (1) An ACE operating in Cook County be capable of  
20 serving at least 40,000 eligible individuals in that  
21 county; an ACE operating in Lake, Kane, DuPage, or Will  
22 Counties be capable of serving at least 20,000 eligible  
23 individuals in those counties and an ACE operating in other  
24 regions of the State be capable of serving at least 10,000  
25 eligible individuals in the region in which it operates.  
26 During initial periods of mandatory enrollment, the

1 Department shall require its enrollment services  
2 contractor to use a default assignment algorithm that  
3 ensures if possible an ACE reaches the minimum enrollment  
4 levels set forth in this paragraph.

5 (2) An ACE must include at a minimum the following  
6 types of providers: primary care, specialty care,  
7 hospitals, and behavioral healthcare.

8 (3) An ACE shall have a governance structure that  
9 includes the major components of the health care delivery  
10 system, including one representative from each of the  
11 groups listed in paragraph (2).

12 (4) An ACE must be an integrated delivery system,  
13 including a network able to provide the full range of  
14 services needed by Medicaid beneficiaries and system  
15 capacity to securely pass clinical information across  
16 participating entities and to aggregate and analyze that  
17 data in order to coordinate care.

18 (5) An ACE must be capable of providing both care  
19 coordination and complex case management, as necessary, to  
20 beneficiaries. To be responsive to the solicitation, a  
21 potential ACE must outline its care coordination and  
22 complex case management model and plan to reduce the cost  
23 of care.

24 (6) In the first 18 months of operation, unless the ACE  
25 selects a shorter period, an ACE shall be paid care  
26 coordination fees on a per member per month basis that are

1 projected to be cost neutral to the State during the term  
2 of their payment and, subject to federal approval, be  
3 eligible to share in additional savings generated by their  
4 care coordination.

5 (7) In months 19 through 36 of operation, unless the  
6 ACE selects a shorter period, an ACE shall be paid on a  
7 pre-paid capitation basis for all medical assistance  
8 covered services, under contract terms similar to Managed  
9 Care Organizations (MCO), with the Department sharing the  
10 risk through either stop-loss insurance for extremely high  
11 cost individuals or corridors of shared risk based on the  
12 overall cost of the total enrollment in the ACE. The ACE  
13 shall be responsible for claims processing, encounter data  
14 submission, utilization control, and quality assurance.

15 (8) In the fourth and subsequent years of operation, an  
16 ACE shall convert to a Managed Care Community Network  
17 (MCCN), as defined in this Article, or Health Maintenance  
18 Organization pursuant to the Illinois Insurance Code,  
19 accepting full-risk capitation payments.

20 The Department shall allow potential ACE entities 5 months  
21 from the date of the posting of the solicitation to submit  
22 proposals. After the solicitation is released, in addition to  
23 the MCO rate development data available on the Department's  
24 website, subject to federal and State confidentiality and  
25 privacy laws and regulations, the Department shall provide 2  
26 years of de-identified summary service data on the targeted

1 population, split between children and adults, showing the  
2 historical type and volume of services received and the cost of  
3 those services to those potential bidders that sign a data use  
4 agreement. The Department may add up to 2 non-state government  
5 employees with expertise in creating integrated delivery  
6 systems to its review team for the purchase of care  
7 solicitation described in this subsection. Any such  
8 individuals must sign a no-conflict disclosure and  
9 confidentiality agreement and agree to act in accordance with  
10 all applicable State laws.

11 During the first 2 years of an ACE's operation, the  
12 Department shall provide claims data to the ACE on its  
13 enrollees on a periodic basis no less frequently than monthly.

14 Nothing in this subsection shall be construed to limit the  
15 Department's mandate to enroll 50% of its beneficiaries into  
16 care coordination systems by January 1, 2015, using all  
17 available care coordination delivery systems, including Care  
18 Coordination Entities (CCE), MCCNs, or MCOs, nor be construed  
19 to affect the current CCEs, MCCNs, and MCOs selected to serve  
20 seniors and persons with disabilities prior to that date.

21 Nothing in this subsection precludes the Department from  
22 considering future proposals for new ACEs or expansion of  
23 existing ACEs at the discretion of the Department.

24 (h) Department contracts with MCOs and other entities  
25 reimbursed by risk based capitation shall have a minimum  
26 medical loss ratio of 85%, shall require the entity to

1 establish an appeals and grievances process for consumers and  
2 providers, and shall require the entity to provide a quality  
3 assurance and utilization review program. Entities contracted  
4 with the Department to coordinate healthcare regardless of risk  
5 shall be measured utilizing the same quality metrics. The  
6 quality metrics may be population specific. Any contracted  
7 entity serving at least 5,000 seniors or people with  
8 disabilities or 15,000 individuals in other populations  
9 covered by the Medical Assistance Program that has been  
10 receiving full-risk capitation for a year shall be accredited  
11 by a national accreditation organization authorized by the  
12 Department within 2 years after the date it is eligible to  
13 become accredited. The requirements of this subsection shall  
14 apply to contracts with MCOs entered into or renewed or  
15 extended after June 1, 2013.

16 (h-5) The Department shall monitor and enforce compliance  
17 by MCOs with agreements they have entered into with providers  
18 on issues that include, but are not limited to, timeliness of  
19 payment, payment rates, and processes for obtaining prior  
20 approval. The Department may impose sanctions on MCOs for  
21 violating provisions of those agreements that include, but are  
22 not limited to, financial penalties, suspension of enrollment  
23 of new enrollees, and termination of the MCO's contract with  
24 the Department. As used in this subsection (h-5), "MCO" has the  
25 meaning ascribed to that term in Section 5-30.1 of this Code.

26 (i) Unless otherwise required by federal law, Medicaid

1 Managed Care Entities and their respective business associates  
2 shall not disclose, directly or indirectly, including by  
3 sending a bill or explanation of benefits, information  
4 concerning the sensitive health services received by enrollees  
5 of the Medicaid Managed Care Entity to any person other than  
6 covered entities and business associates, which may receive,  
7 use, and further disclose such information solely for the  
8 purposes permitted under applicable federal and State laws and  
9 regulations if such use and further disclosure satisfies all  
10 applicable requirements of such laws and regulations. The  
11 Medicaid Managed Care Entity or its respective business  
12 associates may disclose information concerning the sensitive  
13 health services if the enrollee who received the sensitive  
14 health services requests the information from the Medicaid  
15 Managed Care Entity or its respective business associates and  
16 authorized the sending of a bill or explanation of benefits.  
17 Communications including, but not limited to, statements of  
18 care received or appointment reminders either directly or  
19 indirectly to the enrollee from the health care provider,  
20 health care professional, and care coordinators, remain  
21 permissible. Medicaid Managed Care Entities or their  
22 respective business associates may communicate directly with  
23 their enrollees regarding care coordination activities for  
24 those enrollees.

25 For the purposes of this subsection, the term "Medicaid  
26 Managed Care Entity" includes Care Coordination Entities,

1 Accountable Care Entities, Managed Care Organizations, and  
2 Managed Care Community Networks.

3 For purposes of this subsection, the term "sensitive health  
4 services" means mental health services, substance abuse  
5 treatment services, reproductive health services, family  
6 planning services, services for sexually transmitted  
7 infections and sexually transmitted diseases, and services for  
8 sexual assault or domestic abuse. Services include prevention,  
9 screening, consultation, examination, treatment, or follow-up.

10 For purposes of this subsection, "business associate",  
11 "covered entity", "disclosure", and "use" have the meanings  
12 ascribed to those terms in 45 CFR 160.103.

13 Nothing in this subsection shall be construed to relieve a  
14 Medicaid Managed Care Entity or the Department of any duty to  
15 report incidents of sexually transmitted infections to the  
16 Department of Public Health or to the local board of health in  
17 accordance with regulations adopted under a statute or  
18 ordinance or to report incidents of sexually transmitted  
19 infections as necessary to comply with the requirements under  
20 Section 5 of the Abused and Neglected Child Reporting Act or as  
21 otherwise required by State or federal law.

22 The Department shall create policy in order to implement  
23 the requirements in this subsection.

24 (j) Managed Care Entities (MCEs), including MCOs and all  
25 other care coordination organizations, shall develop and  
26 maintain a written language access policy that sets forth the

1 standards, guidelines, and operational plan to ensure language  
2 appropriate services and that is consistent with the standard  
3 of meaningful access for populations with limited English  
4 proficiency. The language access policy shall describe how the  
5 MCEs will provide all of the following required services:

6 (1) Translation (the written replacement of text from  
7 one language into another) of all vital documents and forms  
8 as identified by the Department.

9 (2) Qualified interpreter services (the oral  
10 communication of a message from one language into another  
11 by a qualified interpreter).

12 (3) Staff training on the language access policy,  
13 including how to identify language needs, access and  
14 provide language assistance services, work with  
15 interpreters, request translations, and track the use of  
16 language assistance services.

17 (4) Data tracking that identifies the language need.

18 (5) Notification to participants on the availability  
19 of language access services and on how to access such  
20 services.

21 (k) The Department shall actively monitor the contractual  
22 relationship between Managed Care Organizations (MCOs) and any  
23 dental administrator contracted by an MCO to provide dental  
24 services. The Department shall adopt appropriate dental  
25 Healthcare Effectiveness Data and Information Set measures or  
26 other dental quality performance measures as part of its

1 monitoring and shall include additional specific dental  
2 performance measurers in its Health Plan Comparison Tool and  
3 Illinois Medicaid Plan Report Card that is available on the  
4 Department's website for enrolled individuals.

5 The Department shall collect from each MCO specific  
6 information about the types of contracted, broad-based, care  
7 coordination occurring between the MCO and any dental  
8 administrator, including, but not limited to, pregnant women  
9 and diabetic patients in need of oral care.
