1 AMENDMENT TO SENATE BILL 2807

2 AMENDMENT NO. _____. Amend Senate Bill 2807 by replacing
3 everything after the enacting clause with the following:

4 "Section 1. Short title. This Act may be cited as the Right
5 to Shop Act.

6 Section 5. Applicability. This Act applies to health
7 benefit plans amended, delivered, issued, or renewed in this
8 State on or after January 1, 2019.

9 Section 10. Definitions. In this Act:

10 "Allowed amount" means the contractually agreed upon
11 amount paid by a carrier to a provider participating in the
12 carrier's network.

13 "Carrier" means an entity that provides a health benefit
14 plan in this State and is subject to State insurance
15 regulation.

1 "Comparable health care service" means a covered
2 non-emergency health care service or bundle of services. The
3 Director may limit what is considered a comparable health care
4 service if a carrier demonstrates that the allowed amount
5 variation among network providers is less than \$50.

6 "Department" means the Department of Insurance.

7 "Director" means the Director of Insurance.

8 "Enrollee" means an individual enrolled in a health benefit
9 plan.

10 "Health benefit plan" or "health plan" means a policy,
11 contract, certificate, plan, or agreement offered or issued by
12 a carrier to provide, deliver, arrange for, pay for, or
13 reimburse any of the costs of health care services. "Health
14 benefit plan" or "health plan" does not include individual,
15 accident-only, credit, dental, vision, Medicare supplement,
16 hospital indemnity, long term care, specific disease,
17 stop-loss or disability income insurance, coverage issued as a
18 supplement to liability insurance, workers' compensation or
19 similar insurance, or automobile medical payment insurance.

20 "Health care services" means services for the diagnosis,
21 prevention, treatment, cure, or relief of a health condition,
22 illness, injury, or disease.

23 "Network" means the group or groups of preferred providers
24 providing services to a network plan.

25 "Network plan" means an individual or group policy of
26 health plans that either requires a covered person to use or

1 creates incentives, including financial incentives, for an
2 enrollee to use providers managed, owned, under contract with,
3 or employed by the carrier.

4 "Program" means the comparable health care service
5 incentive program established by a carrier pursuant to this
6 Act.

7 "Provider" means a physician, hospital facility, or other
8 health care practitioner licensed or otherwise authorized to
9 furnish health care services consistent with State law.

10 Section 15. Health care service incentive program.

11 (a) Beginning January 1, 2019, a carrier offering a health
12 benefit plan in this State shall develop and implement a
13 program that provides incentives for enrollees in a health plan
14 who elect to receive a comparable health care service that is
15 covered by the health plan from a provider that collects less
16 than the average in-network allowed amount paid by that carrier
17 to a network provider for that comparable health care service.

18 (b) Incentives may be calculated as a percentage of the
19 difference in allowed amounts to the average, as a flat dollar
20 amount, or by some other reasonable methodology approved by the
21 Department. The carrier shall provide the incentive as a cash
22 payment, gift cards, or credits toward the enrollee's annual
23 in-network deductible and out-of-pocket limit or premium
24 reductions.

25 (c) A carrier shall make the health care service incentive

1 program available as a component of all health plans offered in
2 the individual and small group markets by the carrier in this
3 State, but not including plans in which enrollees receive a
4 premium subsidy under the federal Patient Protection and
5 Affordable Care Act. Annually at enrollment or renewal, a
6 carrier shall provide notice about the availability of the
7 program, a description of the incentives available to an
8 enrollee and how to earn such incentives to an enrollee who is
9 enrolled in a health plan eligible for the program. A carrier
10 may contract with a third-party vendor to satisfy the
11 requirements of this subsection.

12 Section 20. Administrative expense; filing requirements.

13 (a) A comparable health care service incentive payment made
14 by a carrier in accordance with this Act is not an
15 administrative expense of the carrier for rate development or
16 rate filing purposes.

17 (b) Prior to offering the health care service incentive
18 program to an enrollee, a carrier shall file a description of
19 the program with the Department in the manner determined by the
20 Department. The Director may review the filing made by the
21 carrier to determine whether the carrier's program complies
22 with the requirements of this Act. Filings and any supporting
23 documentation are confidential until the filing has been
24 approved or denied by the Department.

1 Section 25. Health care price transparency tools.

2 (a) Beginning upon approval of the next health insurance
3 rate filing after the effective date of this Act, a carrier
4 offering a health plan in this State shall comply with the
5 following requirements:

6 (1) A carrier shall establish an interactive mechanism
7 on its publicly-accessible website that enables an
8 enrollee to request and obtain from the carrier information
9 on the payments made by the carrier to network providers
10 for comparable health care services, as well as quality
11 data for those providers, to the extent available. The
12 interactive mechanism must allow an enrollee seeking
13 information about the cost of a particular health care
14 service to:

15 (A) compare allowed amounts among network
16 providers;

17 (B) estimate out-of-pocket costs applicable to
18 that enrollee's health plan; and

19 (C) provide the average paid within a reasonable
20 timeframe (not to exceed one year) to network providers
21 for the procedure or service under the enrollee's
22 health plan.

23 The out-of-pocket estimate must provide a good faith
24 estimate of the amount the enrollee will be responsible to
25 pay out-of-pocket for a proposed non-emergency procedure
26 or service that is a medically necessary covered benefit

1 from a carrier's network provider, including a copayment,
2 deductible, coinsurance, or other out-of-pocket amount for
3 a covered benefit, based on the information available to
4 the carrier at the time the request is made. A carrier may
5 contract with a third-party vendor to satisfy the
6 requirements of this paragraph.

7 (2) A carrier shall notify an enrollee that the
8 information provided under paragraph (1) is an estimation
9 of costs and that the actual amount the enrollee will be
10 responsible to pay may vary due to unforeseen services that
11 arise out of the proposed non-emergency procedure or
12 service.

13 (b) Nothing in this Section prohibits a carrier from
14 imposing cost-sharing requirements disclosed in the enrollee's
15 certificate of coverage for unforeseen health care services
16 that arise out of the non-emergency procedure or service or for
17 a procedure or service provided to an enrollee that was not
18 included in the original estimate.

19 Section 30. Patient freedom and choice; lower prices.

20 (a) If an enrollee elects to receive a covered health care
21 service from an out-of-network provider at a price that is the
22 same or less than the average that an enrollee's carrier pays
23 for that service to providers in its provider network within a
24 reasonable timeframe, not to exceed one year, the carrier shall
25 allow the enrollee to obtain the service from the

1 out-of-network provider at the provider's price and, upon
2 request by the enrollee, shall apply the payments made by the
3 enrollee for that health care service toward the enrollee's
4 deductible and out-of-pocket maximum as specified in the
5 enrollee's health plan as if the health care services had been
6 provided by a network provider. The carrier shall provide a
7 downloadable or interactive online form to the enrollee for the
8 purpose of submitting proof of payment to an out-of-network
9 provider for purposes of administering this Section.

10 (b) A carrier may base the average paid to a network
11 provider on what that carrier pays to providers in the network
12 applicable to the enrollee's specific health plan or across all
13 of its plans offered in this State. A carrier shall, at a
14 minimum, inform enrollees of its ability to pay and the process
15 to request the average allowed amount paid for a procedure or
16 service, both on its website and in benefit plan material.

17 Section 35. State group health benefits plan; analysis. The
18 Director of Central Management Services shall conduct an
19 analysis no later than one year from the effective date of this
20 Act of the cost effectiveness of implementing an
21 incentive-based program for enrollees and retirees of the State
22 group health benefits plan offered under the State Employees
23 Group Insurance Act of 1971. A program found to be cost
24 effective shall be implemented as part of the next open
25 enrollment. The Director of Central Management Services shall

1 communicate the rationale for the decision to relevant General
2 Assembly committees in writing.

3 Section 40. Rulemaking authority. The Director may adopt
4 reasonable rules as necessary to implement the purposes and
5 provisions of this Act.

6 Section 99. Effective date. This Act takes effect upon
7 becoming law.".
