

101ST GENERAL ASSEMBLY

State of Illinois

2019 and 2020

HB4903

Introduced 2/18/2020, by Rep. Joyce Mason

SYNOPSIS AS INTRODUCED:

New Act

Creates the Veterans Bill of Rights Act. Requires the Department of Veterans' Affairs to make specified efforts to: (1) increase loans to small business concerns owned and controlled by veterans or service-disabled veterans; (2) increase veterans' access to health care coverage and services; (3) take specified steps toward preventing veteran suicide; and (4) develop and implement a strategy to end veteran homelessness within 3 years. Directs the Department of Financial and Professional Regulation to review all State licenses for which military members may have relevant training or experience, produce a report recommending steps that can be taken to increase recognition of military training and experience toward licensing, and take those steps within one year of issuing the report. Contains provisions regarding veterans at public institutions of higher education receiving college credit, registering for courses, and being called to active duty. Requires the Department of Commerce and Economic Opportunity to annually review apprentice, training, and other vocational programs focused on providing job training and placement to returning military service members and veterans. Contains other provisions.

LRB101 15656 CPF 65005 b

FISCAL NOTE ACT
MAY APPLY

A BILL FOR

1 AN ACT concerning veterans.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 1. Short title. This Act may be cited as the
5 Veterans Bill of Rights Act.

6 Section 5. Definitions. In this Act:

7 "Department" means the Department of Veterans' Affairs.

8 "EMS personnel" has the same meaning provided in Section
9 3.5 of the Emergency Medical Services (EMS) Systems Act.

10 "Public institution of higher education" has the same
11 meaning provided in Section 10 of the Illinois Prepaid Tuition
12 Act.

13 Section 10. Loans to veteran business concerns; monthly
14 reports.

15 (a) The Department may target any loans granted by the
16 Department toward small business concerns owned and controlled
17 by veterans or service-disabled veterans, with a goal of 7% of
18 annual loaned funds reaching such businesses.

19 (b) The Department shall produce monthly electronic
20 reports of workforce need projections by industry, job type,
21 geography, and credentials needed. The report shall include a
22 comparison of workforce needs to existing and projected

1 workforce and credential availability in Illinois, a list of
2 top in-demand industries, job types, and credentials by
3 geographic area, and a mapping of which in-demand job titles
4 and credentials would leverage skills, experience, and
5 credentials possessed by veterans. The Department shall
6 forward the report monthly to appropriate military
7 out-placement offices, education centers, nonprofit programs,
8 and any State agencies working to connect veterans with jobs.

9 Section 15. Recognition of military training and
10 experience.

11 (a) The Department shall take all necessary steps to
12 annually increase the number of veterans taking advantage of
13 the Federal Motor Carrier Safety Administration's Military
14 Skills Test Waiver Program. These steps shall include, but are
15 not limited to, ensuring information on the Program is
16 accessible on the Department's website, coordinating with
17 military placement and training programs, including, but not
18 limited to, the Credentialing Opportunities On-Line program,
19 and disseminating information on the Program to veterans with
20 relevant experience who are newly located or locating in
21 Illinois.

22 (b) The Department of Public Health shall immediately
23 review all licensing practices and take all necessary and
24 appropriate steps to increase recognition of military training
25 and experience toward licensing of EMS personnel. Within one

1 year after the effective date of this Act, the Department of
2 Public Health shall report to the General Assembly any
3 additional steps that may require legislation and request that
4 the General Assembly pass that legislation.

5 (c) The Department of Financial and Professional
6 Regulation shall review all State licenses for which military
7 members may have relevant training or experience and, within
8 one year after the effective date of this Act, produce a report
9 recommending steps that can be taken to increase recognition of
10 military training and experience toward licensing. As soon as
11 practicable, but by no later than one year after issuance of
12 the report, the Department of Financial and Professional
13 Regulation shall then take any steps identified in the report
14 that can be taken without further legislation and shall report
15 to the General Assembly annually to request it enact any
16 necessary legislation.

17 Section 20. College credit; course registration; students
18 called to active duty.

19 (a) A veteran who enrolls as a student in good standing at
20 a public institution of higher education shall upon application
21 be granted academic credits without limitation toward his or
22 her degree for completion of courses that were part of the
23 veteran's military training or service if the completed courses
24 meet the standards of the American Council on Education, or its
25 equivalent, for the awarding of academic credits. No fee,

1 tuition, or other charge shall be assessed against a veteran
2 who qualifies for academic credit under this subsection.

3 (b) A public institution of higher education that offers an
4 early course registration period for any segment of the student
5 population shall have a process in place to offer early course
6 registration to students who are veterans or National Guard
7 members. A veteran with no previous college experience shall be
8 permitted to file applications up to the end of registration
9 and begin classes pending completion of his or her application
10 and provision of supporting documents.

11 (c) A student who is called to active duty in the armed
12 forces of the United States after having attended a public
13 institution of higher education regularly for 13 weeks or more,
14 or having completed 85% of the term's work through
15 acceleration, shall be given full credit for each course in
16 which he or she has a grade of C or better. A student called to
17 active duty who does not meet attendance requirements
18 sufficient to earn a grade shall be entitled to a 100% refund
19 of tuition and fees. Upon a veteran's return from active duty,
20 he or she may register after normal registration periods end
21 without late fees or other penalties.

22 (d) A public institution of higher education shall adopt
23 any and all procedures that are necessary to fully implement
24 this Section.

25 Section 25. Training programs. The Department of Commerce

1 and Economic Opportunity shall annually review apprentice,
2 training, and other vocational programs focused on providing
3 job training and placement to returning military service
4 members and veterans. The annual review shall evaluate the
5 costs and results and recommend programs for expansion using
6 State funding, including, but not limited to, an estimate of
7 future returns to the State of improved outcomes from the
8 expansion of programs. The Department of Commerce and Economic
9 Opportunity shall provide an annual report to the General
10 Assembly and Governor on January 1 of each year for 5 years
11 after the effective date of this Act, to be used by the General
12 Assembly to inform annual budget decisions.

13 Section 30. Access to health care.

14 (a) The Department shall develop and operate veteran health
15 navigator services to increase access to health care coverage
16 and services. The Department shall identify, train, and deploy
17 veteran health navigators who have direct knowledge of the
18 veteran communities they serve. Leveraging existing resources
19 and structures where veterans and their families are likely to
20 be found, the veteran health navigators shall:

21 (1) help identify all federal and other health
22 benefits, coverage, and services available to veterans and
23 their families; and

24 (2) coordinate with relevant departments, health care
25 providers, and health insurance programs to help veterans

1 and their beneficiaries apply for coverage under such
2 programs, including helping veterans overcome barriers
3 within the health care system to ensure enrollment in
4 health plans and effective delivery and coordination of
5 health services.

6 (b) Using the veteran health services and navigators
7 described in subsection (a) as a source of information about
8 the unique needs, coverage, and treatment gaps faced by
9 veterans and their families, the Department shall examine all
10 existing programs designed to increase access to affordable,
11 quality health care and evaluate whether the needs of veterans
12 and their families are met by those programs or whether further
13 coordination with the veteran health navigators or other steps
14 would better meet the needs of veterans and their families. The
15 Department shall then produce a report of its findings,
16 recommendations, and any additional legislative or budget
17 action it recommends, deliver that report to the General
18 Assembly and the Governor, and release it to the news media.

19 (c) The Department shall prepare a report showing the
20 impacts that Medicaid expansion has had to date for the
21 community of veterans and their families in Illinois, including
22 any recommendations for better including or serving veterans
23 and their families in that expansion. The Department shall
24 deliver that report to the General Assembly and the Governor
25 and release it to the news media.

1 Section 35. Suicide prevention.

2 (a) The Department shall ensure that access to mental
3 health coverage, services, and treatment is included as a full
4 focus stream of the veteran health navigator services described
5 in subsection (a) of Section 30, and that veteran health
6 navigators help identify all federal and other mental health
7 benefits, coverage, and services available to veterans and
8 their families, including, but not limited to, those relating
9 to post-traumatic stress disorder, depression, and suicide
10 prevention.

11 (b) In coordination with local, State, and federal
12 governmental agencies, and in consultation with nonprofits,
13 the U.S. Department of Veterans Affairs, localities,
14 municipalities that have effective prevention and treatment
15 systems for mental health, and service providers such as
16 Veterans Affairs medical centers, the Department shall develop
17 and implement a strategy to reduce barriers to access to mental
18 health services and treatment for veterans and their families.
19 The Department shall develop the strategy using methods
20 including, but not limited to, the following:

21 (1) Identifying structural and logistical barriers to
22 accessing treatment, including, but not limited to,
23 perceived stigma, long travel distances to receive care,
24 and any other barriers. The Department shall create an
25 annual report on the barriers, which shall be delivered to
26 the General Assembly and the Governor and made available on

1 the Department's website.

2 (2) Resolving all barriers identified in paragraph (1)
3 that can be resolved without legislative or budgetary
4 action, including, but not limited to, the following:

5 (A) increased coordination between State agencies,
6 nonprofit providers, and the federal government;

7 (B) application for and use of private and federal
8 grants; and

9 (C) any other actions.

10 (3) Reporting annually to the General Assembly and the
11 Governor and making available on the Department's website
12 any additional legislative or budgetary steps that would
13 resolve the barriers identified in paragraph (1) that have
14 not been resolved by the steps taken in paragraph (2).

15 (c) In coordination with local, State, and federal
16 government agencies, and in consultation with nonprofits, the
17 U.S. Department of Veterans Affairs, localities, cities that
18 have effective prevention and treatment systems for mental
19 health, and service providers such as Veterans Affairs medical
20 centers, the Department shall enhance and strengthen suicide
21 prevention programs in keeping with proven best practices and
22 research, using methods including, but not limited to, the
23 following:

24 (1) Identifying and applying for federal and private
25 grants focused on veteran suicide prevention.

26 (2) Coordinating local, State, federal, and nonprofit

1 programs that include community-based approaches for
2 at-risk veterans and veterans at large.

3 (3) Providing technical assistance to communities to
4 develop strategic plans to reduce veteran suicide,
5 including, but not limited to, coordination and
6 participation by local leaders, faith communities,
7 schools, workplaces, and other stakeholders.

8 (4) Evaluating community strategic plans within
9 Illinois and disseminating methods and best practices to
10 optimize the impact of efforts by all partners and
11 stakeholders.

12 (d) The Department shall create a centralized provider
13 database, identifying, by region, mental health providers with
14 the expertise and ability to assist veterans and their
15 families. The database shall highlight providers with training
16 or experience in the prevention and treatment of veteran
17 suicide.

18 (e) Using existing resources, and incorporating best
19 practices and research from the U.S. Department of Veterans
20 Affairs and State and nonprofit service providers in Illinois,
21 the Department shall develop a continuing education course for
22 mental health providers in Illinois to obtain expertise in
23 veteran suicide assessment, prevention, treatment, and risk
24 management and shall make the program available for free to
25 providers in regions of the State lacking sufficiently trained
26 providers, as determined by the database created under

1 subsection (d).

2 (f) Using existing or appropriated resources, the
3 Department shall identify evidence-based best practices to
4 increase awareness of any veteran suicide prevention hotline
5 and other crisis resources in Illinois or nationally with
6 proven effectiveness in reducing veteran suicide.

7 Section 40. Strategy for ending veteran homelessness.

8 (a) In coordination with local, State, and federal
9 government agencies and nonprofits, and in consultation with
10 states and municipalities that have achieved an end to veteran
11 homelessness, the Department shall develop and implement a
12 strategy to end veteran homelessness within 3 years. The
13 strategy shall include, but is not limited to, the following:

14 (1) Coordinated community outreach and a common
15 assessment tool.

16 (2) A community-wide, comprehensive list of veterans
17 by name who are experiencing homelessness, prioritized
18 based on vulnerability.

19 (3) Data-sharing among all relevant providers, State
20 agencies, and Veterans Affairs medical centers.

21 (4) Increased coordination and streamlined processes
22 for appropriate housing placements.

23 (5) Connecting veterans experiencing homelessness to
24 health, mental health, employment, and training resources
25 through the services described in this Act.

1 (6) A commitment to housing first principles, as
2 propounded by the National Alliance to End Homelessness.

3 (7) Identification of and application for funding, as
4 needed, from private and foundation sources and other
5 partners.

6 (b) In this Section, "end veteran homelessness" means an
7 outcome meeting the criteria identified and most recently
8 released by the United States Interagency Council on
9 Homelessness.
