

Sen. Omar Aquino

Filed: 3/3/2020

10100SB2520sam002

LRB101 15492 KTG 71108 a

1 AMENDMENT TO SENATE BILL 2520

2 AMENDMENT NO. _____. Amend Senate Bill 2520 by replacing
3 everything after the enacting clause with the following:

4 "Section 5. The Illinois Public Aid Code is amended by
5 changing Section 5-5 as follows:

6 (305 ILCS 5/5-5) (from Ch. 23, par. 5-5)

7 Sec. 5-5. Medical services. The Illinois Department, by
8 rule, shall determine the quantity and quality of and the rate
9 of reimbursement for the medical assistance for which payment
10 will be authorized, and the medical services to be provided,
11 which may include all or part of the following: (1) inpatient
12 hospital services; (2) outpatient hospital services; (3) other
13 laboratory and X-ray services; (4) skilled nursing home
14 services; (5) physicians' services whether furnished in the
15 office, the patient's home, a hospital, a skilled nursing home,
16 or elsewhere; (6) medical care, or any other type of remedial

1 care furnished by licensed practitioners; (7) home health care
2 services; (8) private duty nursing service; (9) clinic
3 services; (10) dental services, including prevention and
4 treatment of periodontal disease and dental caries disease for
5 pregnant women, provided by an individual licensed to practice
6 dentistry or dental surgery; for purposes of this item (10),
7 "dental services" means diagnostic, preventive, or corrective
8 procedures provided by or under the supervision of a dentist in
9 the practice of his or her profession; (11) physical therapy
10 and related services; (12) prescribed drugs, dentures, and
11 prosthetic devices; and eyeglasses prescribed by a physician
12 skilled in the diseases of the eye, or by an optometrist,
13 whichever the person may select; (13) other diagnostic,
14 screening, preventive, and rehabilitative services, including
15 to ensure that the individual's need for intervention or
16 treatment of mental disorders or substance use disorders or
17 co-occurring mental health and substance use disorders is
18 determined using a uniform screening, assessment, and
19 evaluation process inclusive of criteria, for children and
20 adults; for purposes of this item (13), a uniform screening,
21 assessment, and evaluation process refers to a process that
22 includes an appropriate evaluation and, as warranted, a
23 referral; "uniform" does not mean the use of a singular
24 instrument, tool, or process that all must utilize; (14)
25 transportation and such other expenses as may be necessary;
26 (15) medical treatment of sexual assault survivors, as defined

1 in Section 1a of the Sexual Assault Survivors Emergency
2 Treatment Act, for injuries sustained as a result of the sexual
3 assault, including examinations and laboratory tests to
4 discover evidence which may be used in criminal proceedings
5 arising from the sexual assault; (16) the diagnosis and
6 treatment of sickle cell anemia; and (17) any other medical
7 care, and any other type of remedial care recognized under the
8 laws of this State. The term "any other type of remedial care"
9 shall include nursing care and nursing home service for persons
10 who rely on treatment by spiritual means alone through prayer
11 for healing.

12 Notwithstanding any other provision of this Section, a
13 comprehensive tobacco use cessation program that includes
14 purchasing prescription drugs or prescription medical devices
15 approved by the Food and Drug Administration shall be covered
16 under the medical assistance program under this Article for
17 persons who are otherwise eligible for assistance under this
18 Article.

19 Notwithstanding any other provision of this Code,
20 reproductive health care that is otherwise legal in Illinois
21 shall be covered under the medical assistance program for
22 persons who are otherwise eligible for medical assistance under
23 this Article.

24 Notwithstanding any other provision of this Code, the
25 Illinois Department may not require, as a condition of payment
26 for any laboratory test authorized under this Article, that a

1 physician's handwritten signature appear on the laboratory
2 test order form. The Illinois Department may, however, impose
3 other appropriate requirements regarding laboratory test order
4 documentation.

5 Upon receipt of federal approval of an amendment to the
6 Illinois Title XIX State Plan for this purpose, the Department
7 shall authorize the Chicago Public Schools (CPS) to procure a
8 vendor or vendors to manufacture eyeglasses for individuals
9 enrolled in a school within the CPS system. CPS shall ensure
10 that its vendor or vendors are enrolled as providers in the
11 medical assistance program and in any capitated Medicaid
12 managed care entity (MCE) serving individuals enrolled in a
13 school within the CPS system. Under any contract procured under
14 this provision, the vendor or vendors must serve only
15 individuals enrolled in a school within the CPS system. Claims
16 for services provided by CPS's vendor or vendors to recipients
17 of benefits in the medical assistance program under this Code,
18 the Children's Health Insurance Program, or the Covering ALL
19 KIDS Health Insurance Program shall be submitted to the
20 Department or the MCE in which the individual is enrolled for
21 payment and shall be reimbursed at the Department's or the
22 MCE's established rates or rate methodologies for eyeglasses.

23 On and after July 1, 2012, the Department of Healthcare and
24 Family Services may provide the following services to persons
25 eligible for assistance under this Article who are
26 participating in education, training or employment programs

1 operated by the Department of Human Services as successor to
2 the Department of Public Aid:

3 (1) dental services provided by or under the
4 supervision of a dentist; and

5 (2) eyeglasses prescribed by a physician skilled in the
6 diseases of the eye, or by an optometrist, whichever the
7 person may select.

8 On and after July 1, 2018, the Department of Healthcare and
9 Family Services shall provide dental services to any adult who
10 is otherwise eligible for assistance under the medical
11 assistance program. As used in this paragraph, "dental
12 services" means diagnostic, preventative, restorative, or
13 corrective procedures, including procedures and services for
14 the prevention and treatment of periodontal disease and dental
15 caries disease, provided by an individual who is licensed to
16 practice dentistry or dental surgery or who is under the
17 supervision of a dentist in the practice of his or her
18 profession.

19 On and after July 1, 2018, targeted dental services, as set
20 forth in Exhibit D of the Consent Decree entered by the United
21 States District Court for the Northern District of Illinois,
22 Eastern Division, in the matter of Memisovski v. Maram, Case
23 No. 92 C 1982, that are provided to adults under the medical
24 assistance program shall be established at no less than the
25 rates set forth in the "New Rate" column in Exhibit D of the
26 Consent Decree for targeted dental services that are provided

1 to persons under the age of 18 under the medical assistance
2 program.

3 Notwithstanding any other provision of this Code and
4 subject to federal approval, the Department may adopt rules to
5 allow a dentist who is volunteering his or her service at no
6 cost to render dental services through an enrolled
7 not-for-profit health clinic without the dentist personally
8 enrolling as a participating provider in the medical assistance
9 program. A not-for-profit health clinic shall include a public
10 health clinic or Federally Qualified Health Center or other
11 enrolled provider, as determined by the Department, through
12 which dental services covered under this Section are performed.
13 The Department shall establish a process for payment of claims
14 for reimbursement for covered dental services rendered under
15 this provision.

16 On and after July 1, 2020, the Department of Healthcare and
17 Family Services shall administer and regulate a school-based
18 dental program that allows for the out-of-office delivery of
19 preventative dental services in a school setting to children
20 under 19 years of age. The Department shall establish, by rule,
21 guidelines for participation by providers and set requirements
22 for follow-up referral care based on the requirements
23 established in the Dental Office Reference Manual published by
24 the Department that establishes the requirements for dentists
25 participating in the All Kids Dental School Program. Every
26 effort shall be made by the Department when developing the

1 program requirements to consider the different geographic
2 differences of both urban and rural areas of the State for
3 initial treatment and necessary follow-up care. No provider
4 shall be charged a fee by any unit of local government to
5 participate in the school-based dental program administered by
6 the Department.

7 The Illinois Department, by rule, may distinguish and
8 classify the medical services to be provided only in accordance
9 with the classes of persons designated in Section 5-2.

10 The Department of Healthcare and Family Services must
11 provide coverage and reimbursement for amino acid-based
12 elemental formulas, regardless of delivery method, for the
13 diagnosis and treatment of (i) eosinophilic disorders and (ii)
14 short bowel syndrome when the prescribing physician has issued
15 a written order stating that the amino acid-based elemental
16 formula is medically necessary.

17 The Illinois Department shall authorize the provision of,
18 and shall authorize payment for, screening by low-dose
19 mammography for the presence of occult breast cancer for women
20 35 years of age or older who are eligible for medical
21 assistance under this Article, as follows:

22 (A) A baseline mammogram for women 35 to 39 years of
23 age.

24 (B) An annual mammogram for women 40 years of age or
25 older.

26 (C) A mammogram at the age and intervals considered

1 medically necessary by the woman's health care provider for
2 women under 40 years of age and having a family history of
3 breast cancer, prior personal history of breast cancer,
4 positive genetic testing, or other risk factors.

5 (D) A comprehensive ultrasound screening and MRI of an
6 entire breast or breasts if a mammogram demonstrates
7 heterogeneous or dense breast tissue or when medically
8 necessary as determined by a physician licensed to practice
9 medicine in all of its branches.

10 (E) A screening MRI when medically necessary, as
11 determined by a physician licensed to practice medicine in
12 all of its branches.

13 (F) A diagnostic mammogram when medically necessary,
14 as determined by a physician licensed to practice medicine
15 in all its branches, advanced practice registered nurse, or
16 physician assistant.

17 The Department shall not impose a deductible, coinsurance,
18 copayment, or any other cost-sharing requirement on the
19 coverage provided under this paragraph; except that this
20 sentence does not apply to coverage of diagnostic mammograms to
21 the extent such coverage would disqualify a high-deductible
22 health plan from eligibility for a health savings account
23 pursuant to Section 223 of the Internal Revenue Code (26 U.S.C.
24 223).

25 All screenings shall include a physical breast exam,
26 instruction on self-examination and information regarding the

1 frequency of self-examination and its value as a preventative
2 tool.

3 For purposes of this Section:

4 "Diagnostic mammogram" means a mammogram obtained using
5 diagnostic mammography.

6 "Diagnostic mammography" means a method of screening that
7 is designed to evaluate an abnormality in a breast, including
8 an abnormality seen or suspected on a screening mammogram or a
9 subjective or objective abnormality otherwise detected in the
10 breast.

11 "Low-dose mammography" means the x-ray examination of the
12 breast using equipment dedicated specifically for mammography,
13 including the x-ray tube, filter, compression device, and image
14 receptor, with an average radiation exposure delivery of less
15 than one rad per breast for 2 views of an average size breast.
16 The term also includes digital mammography and includes breast
17 tomosynthesis.

18 "Breast tomosynthesis" means a radiologic procedure that
19 involves the acquisition of projection images over the
20 stationary breast to produce cross-sectional digital
21 three-dimensional images of the breast.

22 If, at any time, the Secretary of the United States
23 Department of Health and Human Services, or its successor
24 agency, promulgates rules or regulations to be published in the
25 Federal Register or publishes a comment in the Federal Register
26 or issues an opinion, guidance, or other action that would

1 require the State, pursuant to any provision of the Patient
2 Protection and Affordable Care Act (Public Law 111-148),
3 including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any
4 successor provision, to defray the cost of any coverage for
5 breast tomosynthesis outlined in this paragraph, then the
6 requirement that an insurer cover breast tomosynthesis is
7 inoperative other than any such coverage authorized under
8 Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and
9 the State shall not assume any obligation for the cost of
10 coverage for breast tomosynthesis set forth in this paragraph.

11 On and after January 1, 2016, the Department shall ensure
12 that all networks of care for adult clients of the Department
13 include access to at least one breast imaging Center of Imaging
14 Excellence as certified by the American College of Radiology.

15 On and after January 1, 2012, providers participating in a
16 quality improvement program approved by the Department shall be
17 reimbursed for screening and diagnostic mammography at the same
18 rate as the Medicare program's rates, including the increased
19 reimbursement for digital mammography.

20 The Department shall convene an expert panel including
21 representatives of hospitals, free-standing mammography
22 facilities, and doctors, including radiologists, to establish
23 quality standards for mammography.

24 On and after January 1, 2017, providers participating in a
25 breast cancer treatment quality improvement program approved
26 by the Department shall be reimbursed for breast cancer

1 treatment at a rate that is no lower than 95% of the Medicare
2 program's rates for the data elements included in the breast
3 cancer treatment quality program.

4 The Department shall convene an expert panel, including
5 representatives of hospitals, free-standing breast cancer
6 treatment centers, breast cancer quality organizations, and
7 doctors, including breast surgeons, reconstructive breast
8 surgeons, oncologists, and primary care providers to establish
9 quality standards for breast cancer treatment.

10 Subject to federal approval, the Department shall
11 establish a rate methodology for mammography at federally
12 qualified health centers and other encounter-rate clinics.
13 These clinics or centers may also collaborate with other
14 hospital-based mammography facilities. By January 1, 2016, the
15 Department shall report to the General Assembly on the status
16 of the provision set forth in this paragraph.

17 The Department shall establish a methodology to remind
18 women who are age-appropriate for screening mammography, but
19 who have not received a mammogram within the previous 18
20 months, of the importance and benefit of screening mammography.
21 The Department shall work with experts in breast cancer
22 outreach and patient navigation to optimize these reminders and
23 shall establish a methodology for evaluating their
24 effectiveness and modifying the methodology based on the
25 evaluation.

26 The Department shall establish a performance goal for

1 primary care providers with respect to their female patients
2 over age 40 receiving an annual mammogram. This performance
3 goal shall be used to provide additional reimbursement in the
4 form of a quality performance bonus to primary care providers
5 who meet that goal.

6 The Department shall devise a means of case-managing or
7 patient navigation for beneficiaries diagnosed with breast
8 cancer. This program shall initially operate as a pilot program
9 in areas of the State with the highest incidence of mortality
10 related to breast cancer. At least one pilot program site shall
11 be in the metropolitan Chicago area and at least one site shall
12 be outside the metropolitan Chicago area. On or after July 1,
13 2016, the pilot program shall be expanded to include one site
14 in western Illinois, one site in southern Illinois, one site in
15 central Illinois, and 4 sites within metropolitan Chicago. An
16 evaluation of the pilot program shall be carried out measuring
17 health outcomes and cost of care for those served by the pilot
18 program compared to similarly situated patients who are not
19 served by the pilot program.

20 The Department shall require all networks of care to
21 develop a means either internally or by contract with experts
22 in navigation and community outreach to navigate cancer
23 patients to comprehensive care in a timely fashion. The
24 Department shall require all networks of care to include access
25 for patients diagnosed with cancer to at least one academic
26 commission on cancer-accredited cancer program as an

1 in-network covered benefit.

2 Any medical or health care provider shall immediately
3 recommend, to any pregnant woman who is being provided prenatal
4 services and is suspected of having a substance use disorder as
5 defined in the Substance Use Disorder Act, referral to a local
6 substance use disorder treatment program licensed by the
7 Department of Human Services or to a licensed hospital which
8 provides substance abuse treatment services. The Department of
9 Healthcare and Family Services shall assure coverage for the
10 cost of treatment of the drug abuse or addiction for pregnant
11 recipients in accordance with the Illinois Medicaid Program in
12 conjunction with the Department of Human Services.

13 All medical providers providing medical assistance to
14 pregnant women under this Code shall receive information from
15 the Department on the availability of services under any
16 program providing case management services for addicted women,
17 including information on appropriate referrals for other
18 social services that may be needed by addicted women in
19 addition to treatment for addiction.

20 The Illinois Department, in cooperation with the
21 Departments of Human Services (as successor to the Department
22 of Alcoholism and Substance Abuse) and Public Health, through a
23 public awareness campaign, may provide information concerning
24 treatment for alcoholism and drug abuse and addiction, prenatal
25 health care, and other pertinent programs directed at reducing
26 the number of drug-affected infants born to recipients of

1 medical assistance.

2 Neither the Department of Healthcare and Family Services
3 nor the Department of Human Services shall sanction the
4 recipient solely on the basis of her substance abuse.

5 The Illinois Department shall establish such regulations
6 governing the dispensing of health services under this Article
7 as it shall deem appropriate. The Department should seek the
8 advice of formal professional advisory committees appointed by
9 the Director of the Illinois Department for the purpose of
10 providing regular advice on policy and administrative matters,
11 information dissemination and educational activities for
12 medical and health care providers, and consistency in
13 procedures to the Illinois Department.

14 The Illinois Department may develop and contract with
15 Partnerships of medical providers to arrange medical services
16 for persons eligible under Section 5-2 of this Code.
17 Implementation of this Section may be by demonstration projects
18 in certain geographic areas. The Partnership shall be
19 represented by a sponsor organization. The Department, by rule,
20 shall develop qualifications for sponsors of Partnerships.
21 Nothing in this Section shall be construed to require that the
22 sponsor organization be a medical organization.

23 The sponsor must negotiate formal written contracts with
24 medical providers for physician services, inpatient and
25 outpatient hospital care, home health services, treatment for
26 alcoholism and substance abuse, and other services determined

1 necessary by the Illinois Department by rule for delivery by
2 Partnerships. Physician services must include prenatal and
3 obstetrical care. The Illinois Department shall reimburse
4 medical services delivered by Partnership providers to clients
5 in target areas according to provisions of this Article and the
6 Illinois Health Finance Reform Act, except that:

7 (1) Physicians participating in a Partnership and
8 providing certain services, which shall be determined by
9 the Illinois Department, to persons in areas covered by the
10 Partnership may receive an additional surcharge for such
11 services.

12 (2) The Department may elect to consider and negotiate
13 financial incentives to encourage the development of
14 Partnerships and the efficient delivery of medical care.

15 (3) Persons receiving medical services through
16 Partnerships may receive medical and case management
17 services above the level usually offered through the
18 medical assistance program.

19 Medical providers shall be required to meet certain
20 qualifications to participate in Partnerships to ensure the
21 delivery of high quality medical services. These
22 qualifications shall be determined by rule of the Illinois
23 Department and may be higher than qualifications for
24 participation in the medical assistance program. Partnership
25 sponsors may prescribe reasonable additional qualifications
26 for participation by medical providers, only with the prior

1 written approval of the Illinois Department.

2 Nothing in this Section shall limit the free choice of
3 practitioners, hospitals, and other providers of medical
4 services by clients. In order to ensure patient freedom of
5 choice, the Illinois Department shall immediately promulgate
6 all rules and take all other necessary actions so that provided
7 services may be accessed from therapeutically certified
8 optometrists to the full extent of the Illinois Optometric
9 Practice Act of 1987 without discriminating between service
10 providers.

11 The Department shall apply for a waiver from the United
12 States Health Care Financing Administration to allow for the
13 implementation of Partnerships under this Section.

14 The Illinois Department shall require health care
15 providers to maintain records that document the medical care
16 and services provided to recipients of Medical Assistance under
17 this Article. Such records must be retained for a period of not
18 less than 6 years from the date of service or as provided by
19 applicable State law, whichever period is longer, except that
20 if an audit is initiated within the required retention period
21 then the records must be retained until the audit is completed
22 and every exception is resolved. The Illinois Department shall
23 require health care providers to make available, when
24 authorized by the patient, in writing, the medical records in a
25 timely fashion to other health care providers who are treating
26 or serving persons eligible for Medical Assistance under this

1 Article. All dispensers of medical services shall be required
2 to maintain and retain business and professional records
3 sufficient to fully and accurately document the nature, scope,
4 details and receipt of the health care provided to persons
5 eligible for medical assistance under this Code, in accordance
6 with regulations promulgated by the Illinois Department. The
7 rules and regulations shall require that proof of the receipt
8 of prescription drugs, dentures, prosthetic devices and
9 eyeglasses by eligible persons under this Section accompany
10 each claim for reimbursement submitted by the dispenser of such
11 medical services. No such claims for reimbursement shall be
12 approved for payment by the Illinois Department without such
13 proof of receipt, unless the Illinois Department shall have put
14 into effect and shall be operating a system of post-payment
15 audit and review which shall, on a sampling basis, be deemed
16 adequate by the Illinois Department to assure that such drugs,
17 dentures, prosthetic devices and eyeglasses for which payment
18 is being made are actually being received by eligible
19 recipients. Within 90 days after September 16, 1984 (the
20 effective date of Public Act 83-1439), the Illinois Department
21 shall establish a current list of acquisition costs for all
22 prosthetic devices and any other items recognized as medical
23 equipment and supplies reimbursable under this Article and
24 shall update such list on a quarterly basis, except that the
25 acquisition costs of all prescription drugs shall be updated no
26 less frequently than every 30 days as required by Section

1 5-5.12.

2 Notwithstanding any other law to the contrary, the Illinois
3 Department shall, within 365 days after July 22, 2013 (the
4 effective date of Public Act 98-104), establish procedures to
5 permit skilled care facilities licensed under the Nursing Home
6 Care Act to submit monthly billing claims for reimbursement
7 purposes. Following development of these procedures, the
8 Department shall, by July 1, 2016, test the viability of the
9 new system and implement any necessary operational or
10 structural changes to its information technology platforms in
11 order to allow for the direct acceptance and payment of nursing
12 home claims.

13 Notwithstanding any other law to the contrary, the Illinois
14 Department shall, within 365 days after August 15, 2014 (the
15 effective date of Public Act 98-963), establish procedures to
16 permit ID/DD facilities licensed under the ID/DD Community Care
17 Act and MC/DD facilities licensed under the MC/DD Act to submit
18 monthly billing claims for reimbursement purposes. Following
19 development of these procedures, the Department shall have an
20 additional 365 days to test the viability of the new system and
21 to ensure that any necessary operational or structural changes
22 to its information technology platforms are implemented.

23 The Illinois Department shall require all dispensers of
24 medical services, other than an individual practitioner or
25 group of practitioners, desiring to participate in the Medical
26 Assistance program established under this Article to disclose

1 all financial, beneficial, ownership, equity, surety or other
2 interests in any and all firms, corporations, partnerships,
3 associations, business enterprises, joint ventures, agencies,
4 institutions or other legal entities providing any form of
5 health care services in this State under this Article.

6 The Illinois Department may require that all dispensers of
7 medical services desiring to participate in the medical
8 assistance program established under this Article disclose,
9 under such terms and conditions as the Illinois Department may
10 by rule establish, all inquiries from clients and attorneys
11 regarding medical bills paid by the Illinois Department, which
12 inquiries could indicate potential existence of claims or liens
13 for the Illinois Department.

14 Enrollment of a vendor shall be subject to a provisional
15 period and shall be conditional for one year. During the period
16 of conditional enrollment, the Department may terminate the
17 vendor's eligibility to participate in, or may disenroll the
18 vendor from, the medical assistance program without cause.
19 Unless otherwise specified, such termination of eligibility or
20 disenrollment is not subject to the Department's hearing
21 process. However, a disenrolled vendor may reapply without
22 penalty.

23 The Department has the discretion to limit the conditional
24 enrollment period for vendors based upon category of risk of
25 the vendor.

26 Prior to enrollment and during the conditional enrollment

1 period in the medical assistance program, all vendors shall be
2 subject to enhanced oversight, screening, and review based on
3 the risk of fraud, waste, and abuse that is posed by the
4 category of risk of the vendor. The Illinois Department shall
5 establish the procedures for oversight, screening, and review,
6 which may include, but need not be limited to: criminal and
7 financial background checks; fingerprinting; license,
8 certification, and authorization verifications; unscheduled or
9 unannounced site visits; database checks; prepayment audit
10 reviews; audits; payment caps; payment suspensions; and other
11 screening as required by federal or State law.

12 The Department shall define or specify the following: (i)
13 by provider notice, the "category of risk of the vendor" for
14 each type of vendor, which shall take into account the level of
15 screening applicable to a particular category of vendor under
16 federal law and regulations; (ii) by rule or provider notice,
17 the maximum length of the conditional enrollment period for
18 each category of risk of the vendor; and (iii) by rule, the
19 hearing rights, if any, afforded to a vendor in each category
20 of risk of the vendor that is terminated or disenrolled during
21 the conditional enrollment period.

22 To be eligible for payment consideration, a vendor's
23 payment claim or bill, either as an initial claim or as a
24 resubmitted claim following prior rejection, must be received
25 by the Illinois Department, or its fiscal intermediary, no
26 later than 180 days after the latest date on the claim on which

1 medical goods or services were provided, with the following
2 exceptions:

3 (1) In the case of a provider whose enrollment is in
4 process by the Illinois Department, the 180-day period
5 shall not begin until the date on the written notice from
6 the Illinois Department that the provider enrollment is
7 complete.

8 (2) In the case of errors attributable to the Illinois
9 Department or any of its claims processing intermediaries
10 which result in an inability to receive, process, or
11 adjudicate a claim, the 180-day period shall not begin
12 until the provider has been notified of the error.

13 (3) In the case of a provider for whom the Illinois
14 Department initiates the monthly billing process.

15 (4) In the case of a provider operated by a unit of
16 local government with a population exceeding 3,000,000
17 when local government funds finance federal participation
18 for claims payments.

19 For claims for services rendered during a period for which
20 a recipient received retroactive eligibility, claims must be
21 filed within 180 days after the Department determines the
22 applicant is eligible. For claims for which the Illinois
23 Department is not the primary payer, claims must be submitted
24 to the Illinois Department within 180 days after the final
25 adjudication by the primary payer.

26 In the case of long term care facilities, within 45

1 calendar days of receipt by the facility of required
2 prescreening information, new admissions with associated
3 admission documents shall be submitted through the Medical
4 Electronic Data Interchange (MEDI) or the Recipient
5 Eligibility Verification (REV) System or shall be submitted
6 directly to the Department of Human Services using required
7 admission forms. Effective September 1, 2014, admission
8 documents, including all prescreening information, must be
9 submitted through MEDI or REV. Confirmation numbers assigned to
10 an accepted transaction shall be retained by a facility to
11 verify timely submittal. Once an admission transaction has been
12 completed, all resubmitted claims following prior rejection
13 are subject to receipt no later than 180 days after the
14 admission transaction has been completed.

15 Claims that are not submitted and received in compliance
16 with the foregoing requirements shall not be eligible for
17 payment under the medical assistance program, and the State
18 shall have no liability for payment of those claims.

19 To the extent consistent with applicable information and
20 privacy, security, and disclosure laws, State and federal
21 agencies and departments shall provide the Illinois Department
22 access to confidential and other information and data necessary
23 to perform eligibility and payment verifications and other
24 Illinois Department functions. This includes, but is not
25 limited to: information pertaining to licensure;
26 certification; earnings; immigration status; citizenship; wage

1 reporting; unearned and earned income; pension income;
2 employment; supplemental security income; social security
3 numbers; National Provider Identifier (NPI) numbers; the
4 National Practitioner Data Bank (NPDB); program and agency
5 exclusions; taxpayer identification numbers; tax delinquency;
6 corporate information; and death records.

7 The Illinois Department shall enter into agreements with
8 State agencies and departments, and is authorized to enter into
9 agreements with federal agencies and departments, under which
10 such agencies and departments shall share data necessary for
11 medical assistance program integrity functions and oversight.
12 The Illinois Department shall develop, in cooperation with
13 other State departments and agencies, and in compliance with
14 applicable federal laws and regulations, appropriate and
15 effective methods to share such data. At a minimum, and to the
16 extent necessary to provide data sharing, the Illinois
17 Department shall enter into agreements with State agencies and
18 departments, and is authorized to enter into agreements with
19 federal agencies and departments, including, but not limited
20 to: the Secretary of State; the Department of Revenue; the
21 Department of Public Health; the Department of Human Services;
22 and the Department of Financial and Professional Regulation.

23 Beginning in fiscal year 2013, the Illinois Department
24 shall set forth a request for information to identify the
25 benefits of a pre-payment, post-adjudication, and post-edit
26 claims system with the goals of streamlining claims processing

1 and provider reimbursement, reducing the number of pending or
2 rejected claims, and helping to ensure a more transparent
3 adjudication process through the utilization of: (i) provider
4 data verification and provider screening technology; and (ii)
5 clinical code editing; and (iii) pre-pay, pre- or
6 post-adjudicated predictive modeling with an integrated case
7 management system with link analysis. Such a request for
8 information shall not be considered as a request for proposal
9 or as an obligation on the part of the Illinois Department to
10 take any action or acquire any products or services.

11 The Illinois Department shall establish policies,
12 procedures, standards and criteria by rule for the acquisition,
13 repair and replacement of orthotic and prosthetic devices and
14 durable medical equipment. Such rules shall provide, but not be
15 limited to, the following services: (1) immediate repair or
16 replacement of such devices by recipients; and (2) rental,
17 lease, purchase or lease-purchase of durable medical equipment
18 in a cost-effective manner, taking into consideration the
19 recipient's medical prognosis, the extent of the recipient's
20 needs, and the requirements and costs for maintaining such
21 equipment. Subject to prior approval, such rules shall enable a
22 recipient to temporarily acquire and use alternative or
23 substitute devices or equipment pending repairs or
24 replacements of any device or equipment previously authorized
25 for such recipient by the Department. Notwithstanding any
26 provision of Section 5-5f to the contrary, the Department may,

1 by rule, exempt certain replacement wheelchair parts from prior
2 approval and, for wheelchairs, wheelchair parts, wheelchair
3 accessories, and related seating and positioning items,
4 determine the wholesale price by methods other than actual
5 acquisition costs.

6 The Department shall require, by rule, all providers of
7 durable medical equipment to be accredited by an accreditation
8 organization approved by the federal Centers for Medicare and
9 Medicaid Services and recognized by the Department in order to
10 bill the Department for providing durable medical equipment to
11 recipients. No later than 15 months after the effective date of
12 the rule adopted pursuant to this paragraph, all providers must
13 meet the accreditation requirement.

14 In order to promote environmental responsibility, meet the
15 needs of recipients and enrollees, and achieve significant cost
16 savings, the Department, or a managed care organization under
17 contract with the Department, may provide recipients or managed
18 care enrollees who have a prescription or Certificate of
19 Medical Necessity access to refurbished durable medical
20 equipment under this Section (excluding prosthetic and
21 orthotic devices as defined in the Orthotics, Prosthetics, and
22 Pedorthics Practice Act and complex rehabilitation technology
23 products and associated services) through the State's
24 assistive technology program's reutilization program, using
25 staff with the Assistive Technology Professional (ATP)
26 Certification if the refurbished durable medical equipment:

1 (i) is available; (ii) is less expensive, including shipping
2 costs, than new durable medical equipment of the same type;
3 (iii) is able to withstand at least 3 years of use; (iv) is
4 cleaned, disinfected, sterilized, and safe in accordance with
5 federal Food and Drug Administration regulations and guidance
6 governing the reprocessing of medical devices in health care
7 settings; and (v) equally meets the needs of the recipient or
8 enrollee. The reutilization program shall confirm that the
9 recipient or enrollee is not already in receipt of same or
10 similar equipment from another service provider, and that the
11 refurbished durable medical equipment equally meets the needs
12 of the recipient or enrollee. Nothing in this paragraph shall
13 be construed to limit recipient or enrollee choice to obtain
14 new durable medical equipment or place any additional prior
15 authorization conditions on enrollees of managed care
16 organizations.

17 The Department shall execute, relative to the nursing home
18 prescreening project, written inter-agency agreements with the
19 Department of Human Services and the Department on Aging, to
20 effect the following: (i) intake procedures and common
21 eligibility criteria for those persons who are receiving
22 non-institutional services; and (ii) the establishment and
23 development of non-institutional services in areas of the State
24 where they are not currently available or are undeveloped; and
25 (iii) notwithstanding any other provision of law, subject to
26 federal approval, on and after July 1, 2012, an increase in the

1 determination of need (DON) scores from 29 to 37 for applicants
2 for institutional and home and community-based long term care;
3 if and only if federal approval is not granted, the Department
4 may, in conjunction with other affected agencies, implement
5 utilization controls or changes in benefit packages to
6 effectuate a similar savings amount for this population; and
7 (iv) no later than July 1, 2013, minimum level of care
8 eligibility criteria for institutional and home and
9 community-based long term care; and (v) no later than October
10 1, 2013, establish procedures to permit long term care
11 providers access to eligibility scores for individuals with an
12 admission date who are seeking or receiving services from the
13 long term care provider. In order to select the minimum level
14 of care eligibility criteria, the Governor shall establish a
15 workgroup that includes affected agency representatives and
16 stakeholders representing the institutional and home and
17 community-based long term care interests. This Section shall
18 not restrict the Department from implementing lower level of
19 care eligibility criteria for community-based services in
20 circumstances where federal approval has been granted.

21 The Illinois Department shall develop and operate, in
22 cooperation with other State Departments and agencies and in
23 compliance with applicable federal laws and regulations,
24 appropriate and effective systems of health care evaluation and
25 programs for monitoring of utilization of health care services
26 and facilities, as it affects persons eligible for medical

1 assistance under this Code.

2 The Illinois Department shall report annually to the
3 General Assembly, no later than the second Friday in April of
4 1979 and each year thereafter, in regard to:

5 (a) actual statistics and trends in utilization of
6 medical services by public aid recipients;

7 (b) actual statistics and trends in the provision of
8 the various medical services by medical vendors;

9 (c) current rate structures and proposed changes in
10 those rate structures for the various medical vendors; and

11 (d) efforts at utilization review and control by the
12 Illinois Department.

13 The period covered by each report shall be the 3 years
14 ending on the June 30 prior to the report. The report shall
15 include suggested legislation for consideration by the General
16 Assembly. The requirement for reporting to the General Assembly
17 shall be satisfied by filing copies of the report as required
18 by Section 3.1 of the General Assembly Organization Act, and
19 filing such additional copies with the State Government Report
20 Distribution Center for the General Assembly as is required
21 under paragraph (t) of Section 7 of the State Library Act.

22 Rulemaking authority to implement Public Act 95-1045, if
23 any, is conditioned on the rules being adopted in accordance
24 with all provisions of the Illinois Administrative Procedure
25 Act and all rules and procedures of the Joint Committee on
26 Administrative Rules; any purported rule not so adopted, for

1 whatever reason, is unauthorized.

2 On and after July 1, 2012, the Department shall reduce any
3 rate of reimbursement for services or other payments or alter
4 any methodologies authorized by this Code to reduce any rate of
5 reimbursement for services or other payments in accordance with
6 Section 5-5e.

7 Because kidney transplantation can be an appropriate,
8 cost-effective alternative to renal dialysis when medically
9 necessary and notwithstanding the provisions of Section 1-11 of
10 this Code, beginning October 1, 2014, the Department shall
11 cover kidney transplantation for noncitizens with end-stage
12 renal disease who are not eligible for comprehensive medical
13 benefits, who meet the residency requirements of Section 5-3 of
14 this Code, and who would otherwise meet the financial
15 requirements of the appropriate class of eligible persons under
16 Section 5-2 of this Code. To qualify for coverage of kidney
17 transplantation, such person must be receiving emergency renal
18 dialysis services covered by the Department. Providers under
19 this Section shall be prior approved and certified by the
20 Department to perform kidney transplantation and the services
21 under this Section shall be limited to services associated with
22 kidney transplantation.

23 Notwithstanding any other provision of this Code to the
24 contrary, on or after July 1, 2015, all FDA approved forms of
25 medication assisted treatment prescribed for the treatment of
26 alcohol dependence or treatment of opioid dependence shall be

1 covered under both fee for service and managed care medical
2 assistance programs for persons who are otherwise eligible for
3 medical assistance under this Article and shall not be subject
4 to any (1) utilization control, other than those established
5 under the American Society of Addiction Medicine patient
6 placement criteria, (2) prior authorization mandate, or (3)
7 lifetime restriction limit mandate.

8 On or after July 1, 2015, opioid antagonists prescribed for
9 the treatment of an opioid overdose, including the medication
10 product, administration devices, and any pharmacy fees related
11 to the dispensing and administration of the opioid antagonist,
12 shall be covered under the medical assistance program for
13 persons who are otherwise eligible for medical assistance under
14 this Article. As used in this Section, "opioid antagonist"
15 means a drug that binds to opioid receptors and blocks or
16 inhibits the effect of opioids acting on those receptors,
17 including, but not limited to, naloxone hydrochloride or any
18 other similarly acting drug approved by the U.S. Food and Drug
19 Administration.

20 Upon federal approval, the Department shall provide
21 coverage and reimbursement for all drugs that are approved for
22 marketing by the federal Food and Drug Administration and that
23 are recommended by the federal Public Health Service or the
24 United States Centers for Disease Control and Prevention for
25 pre-exposure prophylaxis and related pre-exposure prophylaxis
26 services, including, but not limited to, HIV and sexually

1 transmitted infection screening, treatment for sexually
2 transmitted infections, medical monitoring, assorted labs, and
3 counseling to reduce the likelihood of HIV infection among
4 individuals who are not infected with HIV but who are at high
5 risk of HIV infection.

6 A federally qualified health center, as defined in Section
7 1905(1)(2)(B) of the federal Social Security Act, shall be
8 reimbursed by the Department in accordance with the federally
9 qualified health center's encounter rate for services provided
10 to medical assistance recipients that are performed by a dental
11 hygienist, as defined under the Illinois Dental Practice Act,
12 working under the general supervision of a dentist and employed
13 by a federally qualified health center.
