A BILL FOR

1 AN ACT concerning health.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 1. Short title. This Act may be cited as the
5 Outdoor Rx Program Act.

6 Section 5. Intent. Studies have shown that time outdoors
7 can be a valuable adjunct therapy in addition to more
8 traditional health care, while also reducing reliance on
9 prescription medication. The therapeutic benefits of time
10 spent outdoors is clinically proven and known to help reduce
11 stress, improve concentration, and promote overall well-being,
12 both physical and mental. Natural resource and outdoor-based
13 therapy programs, including adventure therapy, wilderness
14 therapy, horticultural therapy, walk-and-talk therapy, and
15 other nature-oriented programs, are currently being used by
16 mental health professionals and are shown to have benefits,
17 including, but not limited to, reduction of stress,
18 restoration of attention, and an improved sense of well-being.
19 Such outdoor programs aim to connect people with nature,
20 thereby proving to be particularly beneficial to individuals
21 undergoing a recovery process. Recognizing the healing
22 benefits of natural resource or outdoor-based therapy programs
23 to residents of the State, particularly veterans and

1 individuals recovering from substance abuse or a physical or
