1 AMENDMENT TO HOUSE BILL 4165

2 AMENDMENT NO. \_\_\_\_\_. Amend House Bill 4165 by replacing  
3 everything after the enacting clause with the following:

4 "Section 1. Short title. This Act may be cited as the Lake  
5 Michigan Rescue Equipment Act.

6 Section 5. Definitions. As used in this Act:

7 "Drop-off" means an area of a lake's shoreline that is  
8 intended to facilitate direct public access to the water.

9 "High-incident drowning area" means an area within 100  
10 feet of a pier or drop-off where more than one fatal drowning  
11 incident has occurred in the span of 5 years.

12 "Pier" means a man-made, raised structure (such as a  
13 breakwater) extending into navigable water for use as a  
14 landing place or promenade or to protect or form a harbor.

15 "Public rescue equipment" includes a range of water rescue  
16 devices available for public use in case of emergency, such as

1 ring life buoys, throw bags, rescue tubes, and rescue poles.

2 Section 10. Public rescue equipment on piers and  
3 drop-offs.

4 (a) The owner of a pier or drop-off on Lake Michigan shall  
5 install public rescue equipment, including, at a minimum, ring  
6 life buoys, on each of the owner's piers or drop-offs along the  
7 Lake Michigan coast. The ring life buoy must not be  
8 permanently secured in any way to the station, rack, or pier.  
9 Each ring life buoy must be stowed inside a station to protect  
10 it from constant weather exposure. The station must be a  
11 bright orange or yellow color for high visibility and to allow  
12 for quick access to the ring.

13 To reduce vandalism and theft, the station shall have  
14 signage that warns lakefront patrons that tampering with or  
15 misuse of public rescue equipment is strictly prohibited.

16 (b) The owner of the pier or drop-off on Lake Michigan  
17 shall oversee the installation and maintenance of the public  
18 rescue equipment. The State or unit of local government owning  
19 a pier or drop-off shall also provide public education  
20 regarding public rescue equipment.

21 Section 15. Ring life buoy requirements. Ring life buoys  
22 installed under Section 10 must meet the following:

23 (1) The ring life buoy shall meet the requirements of  
24 46 CFR Part 160 Subpart 160.050 or 46 CFR Part 160 Subpart

1 160.150 for SOLAS-approved equipment or successor  
2 standards issued by the United States Coast Guard.

3 (2) There shall be attached to each ring life buoy a  
4 buoyant line of at least 100 feet in length with a breaking  
5 strength of at least 5 kilonewtons. The end of the line  
6 must not be secured to the shore.

7 (3) Each ring life buoy shall be marked with type II  
8 retroreflective material meeting the requirements of 46  
9 CFR Part 160, Subpart 164.018.

10 (4) Each ring life buoy shall be placed at a distance  
11 not to exceed 200 feet from the shoreline of the lake and  
12 be available for emergency rescue operations.

13 (5) Each pier shall have a ring life buoy installed  
14 with appropriate signage.

15 Section 20. Tracking, reporting, and analyzing drownings.  
16 Each unit of local government owning a pier or drop-off on Lake  
17 Michigan shall track and, at a minimum of twice per year,  
18 publish on the unit's website a report on lakefront drownings  
19 of which the unit is aware that have occurred within 100 feet  
20 of the unit's piers and drop-offs. The report shall include,  
21 at a minimum, a description of access to and use of public  
22 rescue equipment, location, temperature, time of day,  
23 conditions, demographics, and type of entry into the water. If  
24 there have been drownings during the reporting period, each  
25 unit of local government must also publish a water safety plan

1 on the unit's website.

2 Section 25. High-incident drowning area plans. Within one  
3 year after an owner's property becoming a high-incident  
4 drowning area, the owner shall update and disseminate a water  
5 safety plan as well as upgrade installed safety equipment as  
6 needed, which may include, but is not limited to, installing  
7 equipment that automatically contacts 9-1-1 or other safety  
8 improvements.

9 Section 99. Effective date. This Act takes effect one year  
10 after becoming law.".
