LRB102 13807 CPF 25299 a

1 AMENDMENT TO SENATE BILL 2265

2 AMENDMENT NO. _____. Amend Senate Bill 2265 by replacing
3 everything after the enacting clause with the following:

4 "Section 5. The Nursing Home Care Act is amended by
5 changing Section 2-106.1 as follows:

6 (210 ILCS 45/2-106.1)

7 Sec. 2-106.1. Drug treatment.

8 (a) A resident shall not be given unnecessary drugs. An
9 unnecessary drug is any drug used in an excessive dose,
10 including in duplicative therapy; for excessive duration;
11 without adequate monitoring; without adequate indications for
12 its use; or in the presence of adverse consequences that
13 indicate the drugs should be reduced or discontinued. The
14 Department shall adopt, by rule, the standards for unnecessary
15 drugs contained in interpretive guidelines issued by the
16 United States Department of Health and Human Services for the

1 purposes of administering Titles XVIII and XIX of the Social
2 Security Act.

3 (b) Except in the case of an emergency, psychotropic
4 medication shall not be administered without the informed
5 consent of the resident or the resident's surrogate decision
6 maker. "Psychotropic medication" means medication that is used
7 for or listed as used for psychotropic, antidepressant,
8 antimanic, or antianxiety behavior modification or behavior
9 management purposes in the latest editions of the AMA Drug
10 Evaluations or the Physician's Desk Reference. "Emergency" has
11 the same meaning as in Section 1-112 of the Nursing Home Care
12 Act. A facility shall (i) document the alleged emergency in
13 detail, including the facts surrounding the medication's need,
14 and (ii) present this documentation to the resident and the
15 resident's representative. The ~~No later than January 1, 2021,~~
16 ~~the~~ Department shall adopt, by rule, a protocol specifying how
17 informed consent for psychotropic medication may be obtained
18 or refused. The protocol shall require, at a minimum, a
19 discussion between (i) the resident or the resident's
20 surrogate decision maker and (ii) the resident's physician, a
21 registered pharmacist ~~(who is not a dispensing pharmacist for~~
22 ~~the facility where the resident lives)~~, or a licensed nurse,
23 including, but not limited to, a licensed practical nurse,
24 about the possible risks and benefits of a recommended
25 medication and the use of standardized consent forms
26 designated by the Department. The protocol shall include

1 informing the resident, surrogate decision maker, or both of
2 the existence of a copy of: the resident's care plan; the
3 facility policies and procedures adopted in compliance with
4 subsection (b-15) of this Section; and a notification that the
5 most recent of the resident's care plans and the facility's
6 policies are available to the resident or surrogate decision
7 maker upon request. Each form designated or developed by the
8 Department (i) shall be written in plain language, (ii) shall
9 be able to be downloaded from the Department's official
10 website or another website designated by the Department, (iii)
11 shall include information specific to the psychotropic
12 medication for which consent is being sought, and (iv) shall
13 be used for every resident for whom psychotropic drugs are
14 prescribed. The Department shall utilize the rules, protocols,
15 and forms developed and implemented under the Specialized
16 Mental Health Rehabilitation Act of 2013 in effect on the
17 effective date of this amendatory Act of the 101st General
18 Assembly, except to the extent that this Act requires a
19 different procedure, and except that the maximum possible
20 period for informed consent shall be until: (1) a change in the
21 prescription occurs, either as to type of psychotropic
22 medication or an increase or decrease in dosage, dosage range,
23 or titration schedule of the prescribed medication that was
24 not included in the original informed consent; or (2) a
25 resident's care plan changes. The Department may further amend
26 the rules after January 1, 2021 pursuant to existing

1 rulemaking authority. In addition to creating those forms, the
2 Department shall approve the use of any other informed consent
3 forms that meet criteria developed by the Department. At the
4 discretion of the Department, informed consent forms may
5 include side effects that the Department reasonably believes
6 are more common, with a direction that more complete
7 information can be found via a link on the Department's
8 website to third-party websites with more complete
9 information, such as the United States Food and Drug
10 Administration's website. The Department or a facility shall
11 incur no liability for information provided on a consent form
12 so long as the consent form is substantially accurate based
13 upon generally accepted medical principles and if the form
14 includes the website links.

15 Informed consent shall be sought from the resident. For
16 the purposes of this Section, "surrogate decision maker" means
17 an individual representing the resident's interests as
18 permitted by this Section. Informed consent shall be sought by
19 the resident's guardian of the person if one has been named by
20 a court of competent jurisdiction. In the absence of a
21 court-ordered guardian, informed consent shall be sought from
22 a health care agent under the Illinois Power of Attorney Act
23 who has authority to give consent. If neither a court-ordered
24 guardian of the person nor a health care agent under the
25 Illinois Power of Attorney Act is available and the attending
26 physician determines that the resident lacks capacity to make

1 decisions, informed consent shall be sought from the
2 resident's attorney-in-fact designated under the Mental Health
3 Treatment Preference Declaration Act, if applicable, or the
4 resident's representative.

5 In addition to any other penalty prescribed by law, a
6 facility that is found to have violated this subsection, or
7 the federal certification requirement that informed consent be
8 obtained before administering a psychotropic medication, shall
9 thereafter be required to obtain the signatures of 2 licensed
10 health care professionals on every form purporting to give
11 informed consent for the administration of a psychotropic
12 medication, certifying the personal knowledge of each health
13 care professional that the consent was obtained in compliance
14 with the requirements of this subsection.

15 (b-5) A facility must obtain voluntary informed consent,
16 in writing, from a resident or the resident's surrogate
17 decision maker before administering or dispensing a
18 psychotropic medication to that resident. When informed
19 consent is not required for a change in dosage, the facility
20 shall note in the resident's file that the resident was
21 informed of the dosage change prior to the administration of
22 the medication or that verbal, written, or electronic notice
23 has been communicated to the resident's surrogate decision
24 maker that a change in dosage has occurred.

25 (b-10) No facility shall deny continued residency to a
26 person on the basis of the person's or resident's, or the

1 person's or resident's surrogate decision maker's, refusal of
2 the administration of psychotropic medication, unless the
3 facility can demonstrate that the resident's refusal would
4 place the health and safety of the resident, the facility
5 staff, other residents, or visitors at risk.

6 A facility that alleges that the resident's refusal to
7 consent to the administration of psychotropic medication will
8 place the health and safety of the resident, the facility
9 staff, other residents, or visitors at risk must: (1) document
10 the alleged risk in detail; (2) present this documentation to
11 the resident or the resident's surrogate decision maker, to
12 the Department, and to the Office of the State Long Term Care
13 Ombudsman; and (3) inform the resident or his or her surrogate
14 decision maker of his or her right to appeal to the Department.
15 The documentation of the alleged risk shall include a
16 description of all nonpharmacological or alternative care
17 options attempted and why they were unsuccessful.

18 (b-15) Within 100 days after the effective date of any
19 rules adopted by the Department under subsection (b) of this
20 Section, all facilities shall implement written policies and
21 procedures for compliance with this Section. When the
22 Department conducts its annual survey of a facility, the
23 surveyor may review these written policies and procedures and
24 either:

25 (1) give written notice to the facility that the
26 policies or procedures are sufficient to demonstrate the

1 facility's intent to comply with this Section; or

2 (2) provide written notice to the facility that the
3 proposed policies and procedures are deficient, identify
4 the areas that are deficient, and provide 30 days for the
5 facility to submit amended policies and procedures that
6 demonstrate its intent to comply with this Section.

7 A facility's failure to submit the documentation required
8 under this subsection is sufficient to demonstrate its intent
9 to not comply with this Section and shall be grounds for review
10 by the Department.

11 All facilities must provide training and education on the
12 requirements of this Section to all personnel involved in
13 providing care to residents and train and educate such
14 personnel on the methods and procedures to effectively
15 implement the facility's policies. Training and education
16 provided under this Section must be documented in each
17 personnel file.

18 (b-20) Upon the receipt of a report of any violation of
19 this Section, the Department shall investigate and, upon
20 finding sufficient evidence of a violation of this Section,
21 may proceed with disciplinary action against the licensee of
22 the facility. In any administrative disciplinary action under
23 this subsection, the Department shall have the discretion to
24 determine the gravity of the violation and, taking into
25 account mitigating and aggravating circumstances and facts,
26 may adjust the disciplinary action accordingly.

1 (b-25) A violation of informed consent that, for an
2 individual resident, lasts for 7 days or more under this
3 Section is, at a minimum, a Type "B" violation. A second
4 violation of informed consent within a year from a previous
5 violation in the same facility regardless of the duration of
6 the second violation is, at a minimum, a Type "B" violation.

7 (b-30) Any violation of this Section by a facility may be
8 enforced by an action brought by the Department in the name of
9 the People of Illinois for injunctive relief, civil penalties,
10 or both injunctive relief and civil penalties. The Department
11 may initiate the action upon its own complaint or the
12 complaint of any other interested party.

13 (b-35) Any resident who has been administered a
14 psychotropic medication in violation of this Section may bring
15 an action for injunctive relief, civil damages, and costs and
16 attorney's fees against any facility responsible for the
17 violation.

18 (b-40) An action under this Section must be filed within 2
19 years of either the date of discovery of the violation that
20 gave rise to the claim or the last date of an instance of a
21 noncompliant administration of psychotropic medication to the
22 resident, whichever is later.

23 (b-45) A facility subject to action under this Section
24 shall be liable for damages of up to \$500 for each day after
25 discovery of a violation that the facility violates the
26 requirements of this Section.

1 (b-55) The rights provided for in this Section are
2 cumulative to existing resident rights. No part of this
3 Section shall be interpreted as abridging, abrogating, or
4 otherwise diminishing existing resident rights or causes of
5 action at law or equity.

6 (c) The requirements of this Section are intended to
7 control in a conflict with the requirements of Sections 2-102
8 and 2-107.2 of the Mental Health and Developmental
9 Disabilities Code with respect to the administration of
10 psychotropic medication.
