- 8 conversion and renovation grants; Department of Human

- 10 (a) The legislature finds that the demand for quality

- 12 for our children. The purpose of this Section is to increase

As an economic development program, the project's focus is to foster individual self-sufficiency through an entrepreneurial approach by the creation of new jobs and opening of new small home-based child care businesses. The demonstration project shall involve coordination among State and county governments and the private sector, including but not limited to: the community college system, the Departments of Labor and Commerce and Economic Opportunity, the State Board of Education, large and small private businesses, nonprofit programs, unions, and child care providers in the State.

- (c) The Department of Human Services may from appropriations from the Child Care Development Block Grant provide grants to family child care providers and center based programs to convert and renovate existing facilities, to the extent permitted by federal law, so additional family child care homes and child care centers can be located in such facilities.
  - (1) Applications for grants shall be made to the Department and shall contain information as the Department shall require by rule. Every applicant shall provide assurance to the Department that:
    - (A) the facility to be renovated or improved shall be used as family child care home or child care center for a continuous period of at least 5 years;

requirement the Department may prescribe to ensure adherence to applicable federal, State, and county laws;

- (F) all renovations and improvements undertaken with funds received under this Section shall comply with all applicable State and county statutes and ordinances including applicable building codes and structural requirements of the Department; and
- (G) the applicant shall indemnify and save harmless the State and its officers, agents, and employees from and against any and all claims arising out of or resulting from the renovation and improvements made with funds provided by this Section, and, upon request of the Department, the applicant shall procure sufficient insurance to provide that indemnification.
- (2) To receive a grant under this Section to convert an existing facility into a family child care home or child care center facility, the applicant shall:

    - (B) agree that, if the facility is to be altered or

improved, or is to be used by other groups, moneys appropriated by this Section shall be used for renovating or improving the facility only to the proportionate extent that the floor space will be used by the child care program; and

- (C) establish, to the satisfaction of the Department that sufficient funds are available for the effective use of the facility for the purpose for which it is being renovated or improved.
- (3) In selecting applicants for funding, the Department shall make every effort to ensure that family child care home or child care center facilities are equitably distributed throughout the State according to demographic need. The Department shall give priority consideration to rural/Downstate areas of the State that are currently experiencing a shortage of child care services.
- (4) In considering applications for grants to renovate or improve an existing facility used for the operations of a family child care home or child care center, the Department shall give preference to applications to renovate facilities most in need of repair to address safety and habitability concerns. No grant shall be disbursed unless an agreement is entered into between the applicant and the State, by and through the Department. The agreement shall include the assurances and conditions

- 1 required by this Section and any other terms which the
- Department may require.
