

HB4376

103RD GENERAL ASSEMBLY

State of Illinois

2023 and 2024

HB4376

Introduced 1/16/2024, by Rep. Jay Hoffman

SYNOPSIS AS INTRODUCED:

20 ILCS 687/6-2

Amends the Renewable Energy, Energy Efficiency, and Coal Resources Development Law of 1997. Makes a technical change in Section concerning legislative findings.

LRB103 36694 MXP 66804 b

A BILL FOR

1 AN ACT concerning State government.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 5. The Renewable Energy, Energy Efficiency, and
5 Coal Resources Development Law of 1997 is amended by changing
6 Section 6-2 as follows:

7 (20 ILCS 687/6-2)

8 (Section scheduled to be repealed on December 31, 2025)

9 Sec. 6-2. Findings and intent. The ~~The~~ General Assembly
10 finds and declares that it is desirable to obtain the
11 environmental quality, public health, and fuel diversity
12 benefits of developing new renewable energy resources and
13 clean coal technologies for use in Illinois and to lower the
14 cost of renewable energy resources and clean coal resources
15 provided to utility consumers. The General Assembly finds and
16 declares that the benefits of electricity from renewable
17 energy resources and clean coal technologies accrue to the
18 public at large, thus consumers and electric utilities and
19 alternative retail electric suppliers share an interest in
20 developing and using a significant level of these
21 environmentally preferable resources in the State's
22 electricity supply portfolio. The General Assembly finds and
23 declares that encouraging energy efficiency will improve the

1 environmental quality and public health in the State of
2 Illinois.
