1 AN ACT concerning safety.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

- Section 5. The Renewable Energy Component Recycling Task

 Force Act is amended by changing Section 15 as follows:
- 6 (20 ILCS 4118/15)

- 7 (Section scheduled to be repealed on December 31, 2025)
- 8 Sec. 15. Duties and report.
- 9 (a) The REC Recycling Task Force shall have the following duties:
 - (1) Investigate options for recycling and other end of life management methods for renewable energy generation components and energy storage devices in accordance with State and federal requirements.
 - (2) Identify preferred methods to safely and responsibly manage end of life renewable energy generating components and energy storage devices, including the reuse or refurbishment.
 - (3) Consider the economic and environmental costs and benefits associated with each method of recycling or end of life management identified.
 - (4) Project the economically productive life cycle of various types of renewable energy generating equipment and

energy storage systems currently in use or planned for development in this State and model the impact that may be expected to the State's landfill capacity if landfill disposal is permitted for all such equipment and storage systems at end of life.

- (5) Survey federal and other states' and countries' regulatory requirements relating to the end of life management, decommissioning, and financial assurance requirements for owners, operators, developers, and manufacturers of renewable energy generation components and energy storage systems.
- (6) Identify infrastructure that may be needed to develop a practical, effective, and cost-efficient means to collect and transport end of life renewable generation components and energy storage systems in State for reuse, refurbishment, recycling, or disposal.
- (7) Receive stakeholder engagement and feedback on various recycling and end of life management proposals for renewable energy generation components and energy storage systems.
- (8) Develop recommendations for legislative, administrative, or private sector action to implement recycling and end of life management for renewable energy generation components and energy storage systems.
- (9) Consider the benefits of prohibiting a person from mixing renewable energy generation components and energy
