AMENDMENT NO. ____. Amend House Bill 1532 by replacing everything after the enacting clause with the following:

AMENDMENT TO HOUSE BILL 1532

4 "Section 1. Short title. This Act may be cited as the
5 Interagency Coordinating Committee on Transportation Act.

б Section 5. Findings; purpose. The General Assembly 7 finds that safe, reliable, and convenient transportation to and from (i) work and related destinations such as child care 8 and education, (ii) medical appointments and 9 related 10 destinations such as a pharmacy, and (iii) ancillary services necessary to the health, well-being, and independence of the 11 family such as grocery shopping, adult day services, and 12 pharmacy related services are extremely important in the 13 14 ability to find and retain employment and insure the continued independence and well-being of all citizens of 15 Illinois, particularly in the lower income sectors of the 16 economy. For many people, these transportation needs are not 17 met by existing mass transit. In a national survey by the 18 University of Illinois at Chicago of over 500 riders of 23 19 federally funded community transportation projects under the 20 21 Job Access and Reverse Commute (JARC) program across the nation, 68% of riders indicated that they would not be able 22

1 to reach their employment without this service. Furthermore, 2 the national evaluation of the JARC program by the General Accounting Office illustrates that 65% of all projects have 3 4 extended existing fixed routes by schedule or location as 5 well as created connections to existing services. This 6 a need for innovative transportation to work creates 7 strategies that fit within local circumstances in Illinois. 8 Many localities around Illinois do not have the resources or 9 the expertise to develop and support innovative transportation options. Localities need access to technical 10 11 assistance both in designing programs and in accessing various sources of State and federal funds. Illinois also 12 leaves substantial federal transportation funds unclaimed 13 because of the failure to put forward projects to 14 use the Illinois would benefit from an Interagency 15 funds. Thus, 16 Coordinating Committee to set priorities for improving access to transportation for the transportation disadvantaged. 17 The 18 General Accounting Office has found in its evaluation that 19 interagency collaboration has informed transit agencies of how to better serve low-income communities by knowing where 20 21 jobs are located and a system of supports are found. Illinois would also benefit from a unified State process to apply for 22 23 federal transportation assistance for innovative 24 transportation to work projects and strategies and for 25 identifying the matching funds necessary to access that 26 federal assistance. The purpose of this Act is to establish the Interagency Coordinating Committee on Transportation. 27
