1 the annexing municipality may permit that franchisee to 2 extend its community antenna television system to the annexed area under terms and conditions that are no more burdensome 3 4 nor less favorable to that franchisee than those imposed under any community antenna television franchise applicable 5 to the annexed area at the time of annexation. 6 The authorization to extend cable television service to the 7 8 annexed area and any community antenna television system 9 authorized to provide cable television services within annexed area at the time of annexation shall not be subject 10 11 to the provisions of subsection (e) of this Section.

- (b) "Community antenna television system" as used in this Section, means any facility which is constructed in whole or in part in, on, under or over any highway or other public place and which is operated to perform for hire the service of receiving and amplifying the signals broadcast by one or more television stations and redistributing such signals by wire, cable or other means to members of the public who subscribe to such service except that such term does not include (i) any system which serves fewer than 50 subscribers or (ii) any system which serves only the residents of one or more apartment dwellings under common ownership, control or management, and establishments located on the premises of such dwellings.
- (c) The authority hereby granted does not include the authority to license or franchise telephone companies subject to the jurisdiction of the Illinois Commerce Commission or the Federal Communications Commission in connection with furnishing circuits, wires, cables or other facilities to the operator of a community antenna television system.

The County Board may, in the course of franchising such community antenna television system, grant to such franchisee the authority and the right and permission to use all public streets, rights of way, alleys, ways for public service

- 1 facilities, parks, playgrounds, school grounds, or other
- 2 public grounds, in which such county may have an interest,
- 3 for the construction, installation, operation, maintenance,
- 4 alteration, addition, extension or improvement of a community
- 5 antenna television system.
- 6 Any charge imposed by a community antenna television
- 7 system franchised pursuant to this Section for the raising or
- 8 removal of cables or lines to permit passage on, to or from a
- 9 street shall not exceed the reasonable costs of work
- 10 reasonably necessary to safely permit such passage. Pursuant
- 11 to subsections (h) and (i) of Section 6 of Article VII of the
- 12 Constitution of the State of Illinois, the General Assembly
- declares the regulation of charges which may be imposed by
- 14 community antenna television systems for the raising or
- removal of cables or lines to permit passage on, to or from
- 16 streets is a power or function to be exercised exclusively by
- 17 the State and not to be exercised or performed concurrently
- 18 with the State by any unit of local government, including any
- 19 home rule unit.
- The County Board may, upon written request by the
- 21 franchisee of a community antenna television system, exercise
- 22 its right of eminent domain solely for the purpose of
- 23 granting an easement right no greater than 8 feet in width,
- 24 extending no greater than 8 feet from any lot line for the
- 25 purpose of extending cable across any parcel of property in
- 26 the manner provided for by the law of eminent domain,
- 27 provided, however, such franchisee deposits with the county
- 28 sufficient security to pay all costs incurred by the county
- in the exercise of its right of eminent domain.
- 30 Except as specifically provided otherwise in this
- 31 Section, this Section is not a limitation on any home rule
- 32 county.
- 33 (d) The General Assembly finds and declares that
- 34 satellite-transmitted television programming should be

1 available to those who desire to subscribe to such

2 programming and that decoding devices should be obtainable at

3 reasonable prices by those who are unable to obtain

satellite-transmitted television programming through duly

5 franchised community antenna television systems.

In any instance in which a person is unable to obtain satellite-transmitted television programming through a duly franchised community antenna television system either because the municipality and county in which such person resides has not granted a franchise to operate and maintain a community antenna television system, or because the duly franchised community antenna television system operator does not make cable television services available to such person, any programming company that delivers satellite-transmitted television programming in scrambled or encrypted form shall ensure that devices for decryption of such programming are made available to such person, through the local community antenna television operator or directly, for purchase or lease at prices reasonably related to the cost of manufacture and distribution of such devices.

(e) The General Assembly finds and declares that, in order to ensure that community antenna television services are provided in an orderly, competitive and economically sound manner, the best interests of the public will be served by the establishment of certain minimum standards and procedures for the granting of additional cable television franchises.

Subject to the provisions of this subsection, the authority granted under subsection (a) hereof shall include the authority to license, franchise and tax more than one cable operator to provide community antenna television services within the territorial limits of a single franchising authority. No county shall be subject to suit for damages based upon the county's determination to grant or its refusal to grant an additional cable television franchise, provided that a public hearing as herein provided has been held and the franchising authority has determined that it is in the best interest of the county to grant or refuse to grant such additional franchise, as the case may be.
