21 sensitive solutions principles for the Department of  
22 Transportation shall be early and ongoing collaboration with  
23 affected citizens, elected officials, interest groups, and  
24 other stakeholders to ensure that the values and needs of the

26 in the development of transportation projects.

27 (d) Context sensitive design and context sensitive  
28 solutions principles shall promote the exploration of  
29 innovative solutions, commensurate with the scope of each  
30 project, that can effectively balance safety, mobility,

1 enhance the relationship of the transportation facility with  
2 its setting.

3 (e) The Department shall report to the Governor and the  
4 General Assembly no later than April 1, 2004 on its efforts
