soon as may be after the first day of each month the Department of Transportation shall allot to each municipality its share of the amount apportioned to the several municipalities which shall be in proportion to the population of such municipalities as determined by the last preceding municipal census if conducted by the Federal Government or Federal census. If territory is annexed to any municipality subsequent to the time of the last preceding census corporate authorities of such municipality may cause a census to be taken of such annexed territory and the population so ascertained for such territory shall be added to t.he population of the municipality as determined by the last preceding census for the purpose of determining the allotment for that municipality. If the population of any municipality was not determined by the last Federal census preceding any apportionment, the apportionment to such municipality shall be in accordance with any census taken by such municipality. Any municipal census used in accordance with this Section shall be certified to the Department of Transportation by the clerk of such municipality, and the accuracy thereof shall be subject to approval of the Department which may make such corrections as it ascertains to be necessary.

As soon as may be after the first day of each month the Department of Transportation shall allot to each county its share of the amount apportioned to the several counties of the State as herein provided. Each allotment to the several counties having less than 1,000,000 inhabitants shall be in proportion to the amount of motor vehicle license fees received from the residents of such counties, respectively, during the preceding calendar year. The Secretary of State shall, on or before April 15 of each year, transmit to the Department of Transportation a full and complete report showing the amount of motor vehicle license fees received

1 from the residents of each county, respectively, during the

2 preceding calendar year. The Department of Transportation

3 shall, each month, use for allotment purposes the last such

4 report received from the Secretary of State.

5 As soon as may be after the first day of each month, the б Department of Transportation shall allot to the several 7 counties their share of the amount apportioned for the use of 8 road districts. The allotment shall be apportioned among the 9 several counties in the State in the proportion which the total mileage of township or district roads in the respective 10 11 counties bears to the total mileage of all township and district roads in the State. Funds allotted to the respective 12 counties for the use of road districts therein shall be 13 allocated to the several road districts in the county in the 14 15 proportion which the total mileage of such township or 16 district roads in the respective road districts bears to the total mileage of all such township or district roads in the 17 county. After July 1 of any year, no allocation shall 18 19 made for any road district unless it levied a tax for road and bridge purposes in an amount which will require the 20 2.1 extension of such tax against the taxable property in any such road district at a rate of not less than either .08% 22 23 the value thereof, based upon the assessment for the year immediately prior to the year in which such tax was levied 24 25 and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than \$12,000 per mile 26 road under the jurisdiction of the road district, 27 whichever is less. If any road district has levied a special 28 tax for road purposes pursuant to Sections 6-601, 6-602 and 29 30 6-603 of the Illinois Highway Code, and such tax was levied in an amount which would require extension at a rate of not 31 32 less than .08% of the value of the taxable property thereof, as equalized or assessed by the Department of Revenue, or, in 33 34 DuPage County, an amount equal to or greater than \$12,000 per

1 mile of road under the jurisdiction of the road district, 2 whichever is less, such levy shall, however, be deemed a proper compliance with this Section and shall qualify such 3 4 road district for an allotment under this Section. If a 5 township has transferred to the road and bridge fund money 6 which, when added to the amount of any tax levy of the road 7 district would be the equivalent of a tax levy requiring 8 extension at a rate of at least .08%, or, in DuPage County, 9 an amount equal to or greater than \$12,000 per mile of under the jurisdiction of the road district, whichever is 10 11 less, such transfer, together with any such tax levy, shall 12 be deemed a proper compliance with this Section and shall qualify the road district for an allotment under this 13 Section. 14

15 In counties in which a property tax extension limitation 16 is imposed under the Property Tax Extension Limitation Law, road districts may retain their entitlement to a motor fuel 17 tax allotment if, at the time the property tax extension 18 19 limitation was imposed, the road district was levying a road and bridge tax at a rate sufficient to entitle it to a motor 20 21 fuel tax allotment and continues to levy the maximum 22 allowable amount after the imposition of the property tax 23 extension limitation. Any road district may circumstances retain its entitlement to a motor fuel tax 24 25 allotment if it levied a road and bridge tax in an amount that will require the extension of the tax against the 26 taxable property in the road district at a rate of 27 not than 0.08% of the assessed value of the property, based upon 28 29 the assessment for the year immediately preceding the year in 30 which the tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or 31 32 greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less. 33

34 As used in this Section the term "road district" means

- 1 any road district, including a county unit road district,
- 2 provided for by the Illinois Highway Code; and the term
- 3 "township or district road" means any road in the township
- 4 and district road system as defined in the Illinois Highway
- 5 Code. For the purposes of this Section, "road district" also
- 6 includes park districts, forest preserve districts and
- 7 conservation districts organized under Illinois law and
- 8 "township or district road" also includes such roads as are
- 9 maintained by park districts, forest preserve districts and
- 10 conservation districts. The Department of Transportation
- 11 shall determine the mileage of all township and district
- 12 roads for the purposes of making allotments and allocations
- of motor fuel tax funds for use in road districts.
- 14 Payment of motor fuel tax moneys to municipalities and
- 15 counties shall be made as soon as possible after the
- 16 allotment is made. The treasurer of the municipality or
- 17 county may invest these funds until their use is required and
- 18 the interest earned by these investments shall be limited to
- 19 the same uses as the principal funds.
