AN ACT concerning commissions.

2 Be it enacted by the People of the State of Illinois, 3 represented in the General Assembly:

Section 1. Short title. This Act may be cited as the
Illinois African-American Family Commission Act.

Section 5. Legislative findings. It is the policy of this 6 7 State to promote family preservation and to preserve and strengthen families. Over 12 million people live in Illinois. 8 African-Americans represent 15% of the population and 26% of 9 the residents living in Cook County. Despite some progress over 10 the last few decades, African-Americans in Illinois continue to 11 lag behind other racial groups relative to indicators of 12 well-being in education, employment, income, and health. 13 14 According to the 2000 U.S. Census, just 26% of the 15 African-American population over 25 years of age in Illinois completed their high school education; 6% held an associate's 16 17 degree; less than 10% (9%) held a bachelor's degree; less than 5% (3%) held a master's degree; and less than one percent held 18 19 either a professional (.8%) or doctoral (.4%) degree.

20 levels of education attainment reflect These more fundamental problems with retaining African-Americans 21 in 22 school. The Illinois State Board of Education reported that for 23 the 2001-2002 school year, 36,373, or 6%, of students enrolled in public high schools dropped out. Thirty-nine percent of 24 25 these students were African-Americans; 38% were White; 21% were 26 Hispanic; and 2% were classified as Other.

Although African-Americans make up 18% of the high school 27 28 population, they are disproportionately represented in the 29 number of students who are suspended and expelled. In the 30 2001-2002 school year, 29,068 students were suspended from White, 37% percent 31 school. Forty-seven were were African-American, 14% were Hispanic, and 1% were classified as 32

1 Other. In regards to expulsions Statewide, the total number of 2 high school students expelled was 1,651. Forty-three percent 3 were African-American, 41% were White, 14% were Hispanic, and 4 2% were classified as Other. Within Chicago public schools, 448 5 students were expelled. Seventy-seven of these students were 6 African-American; 27% were White; 14% were Hispanic; and 4% were classified as Other. The fact that African-Americans are 7 more likely to be suspended or expelled from school also 8 9 contributes to the high dropout rate among African-American 10 high school students.

11 In addition to educational challenges, African-Americans 12 face challenges in the areas of employment and income. In the year 2000, the unemployment rate for African-Americans age 16 13 years or older was 15% compared to only 6% for the total 14 15 Illinois population. Moreover, the median household income of 16 African-Americans in Illinois was \$31,699 compared to \$46,590 17 for the total Illinois population, and the percentage of African-American families below the poverty level in Illinois 18 19 was 26% percent in 1999 compared to 10.7% for the total 20 Illinois population in that same year.

Indicators of child welfare and criminal justice reveal 21 still more challenges that African-American families face in 22 23 Illinois. In 2000, African-American children represented 18% of children 18 years of age and under, but comprised 73% of 24 children in substitute care. African-Americans are also 25 26 overrepresented in the criminal justice population. Of the 27 total Illinois adult inmate population in the year 2000, 65% 28 African-American. During this same time were period, 29 African-American youth represented 58% of the juvenile inmate 30 population in Illinois.

While the leading causes of death among African-Americans are the same as those for the general population in Illinois, African-Americans have a higher rate of death per 100,000 residents. The rate of overall deaths per 100,000 residents among African-Americans in the year 2000 was 1,181; 847 for Whites; and 411 for those classified as Other. The rate of SB3208 Engrossed - 3 - LRB093 18976 RAS 44711 b

1 cancer-related deaths per 100,000 residents by racial or ethnic 2 groups in 2000 was: 278 African-Americans; 206 Whites; and 110 of those classified as Other. The rate of diabetes-related 3 deaths per 100,000 residents among African-Americans in 2000 4 5 was 41 compared to 23 for Whites and 13 for those classified as Other. The rate of deaths per 100,000 residents by heart 6 disease among African-Americans in 2000 was 352 compared to 257 7 for Whites and 120 for those classified as Other. The rate of 8 9 deaths per 100,000 residents by stroke among African-Americans in 2000 was 75; 60 for Whites; and 35 for those classified as 10 11 Other.

African-Americans had higher rates of smoking and obesity than other racial groups in Illinois in 2001. African-Americans accounted for more of the new adult/adolescent AIDS cases, cumulative adult/adolescent AIDS cases, and number of people living with AIDS than other racial groups in Illinois in the year 2002. Still, 23% of uninsured persons in Illinois are African-American.

19 These huge disparities in education, employment, income, 20 child welfare, criminal justice, and health demonstrate the tremendous challenges facing the African-American family in 21 Illinois. These challenges are severe. There is a need for 22 23 government, child and family advocates, and other key stakeholders to create and implement public policies to address 24 25 the health and social crises facing African-American families. 26 The development of given solutions clearly transcends any one 27 State agency and requires a coordinated effort. The Illinois 28 African-American Family Commission shall assist State agencies 29 with this task.

30 The African-American Family Commission was created in 31 October 1994 by Executive Order to assist the Illinois 32 Department of Children and Family Services in developing and implementing programs and public policies that affect the 33 34 State's child welfare system. The Commission has a proven track 35 record of bringing State agencies, community providers, and consumers together to address child welfare issues. The ability 36

1 of the Commission to address the above-mentioned health issues, 2 the community factors, and personal well-being of 3 African-American families and children has been limited due to the Executive Order's focus on child welfare. It is apparent 4 5 that broader issues of health, mental health, criminal justice, 6 education, and economic development also directly affect the health and well-being of African-American families 7 and children. Accordingly, the role of the African-American Family 8 expanded 9 Commission is hereby to encompass working 10 relationships with every department, agency, and commission 11 within State government if any of its activities impact 12 African-American children and families. The focus of the hereby restructured and shall 13 Commission is exist bv legislative mandate to engage State agencies in its efforts to 14 preserve and strengthen African-American families. 15

16 Section 10. Illinois African-American Family Commission 17 established. The African-American Family Commission shall be 18 renamed and established as the Illinois African-American 19 Family Commission.

20

Section 15. Purpose and objectives.

21 (a) The purpose of the Illinois African-American Family 22 Commission is to guide the efforts of and collaborate with the 23 Department on Aging, the Department of Children and Family 24 Services, the Department of Commerce and Economic Opportunity, 25 the Department of Corrections, the Department of Human 26 Services, the Department of Public Aid, the Department of 27 Public Health, the Department of Transportation, and others to 28 improve and expand existing human services and educational and 29 community development programs for African-Americans. This 30 will be achieved by:

31 (1) Monitoring existing legislation and programs 32 designed to address the needs of African-Americans in 33 Illinois;

34

(2) Assisting State agencies in developing programs,
