

1 HOUSE RESOLUTION

2 WHEREAS, United States Secretary of Education, Margaret  
3 Spellings, has announced a New Path for the federal No Child  
4 Left Behind Act of 2001 by way of a set of common sense  
5 principles to guide states in meeting the Act's goals; this New  
6 Path equation includes the primary elements of the Act, such as  
7 the annual testing and reporting of subgroup data, but also  
8 includes increasing student achievement, narrowing the  
9 achievement gap, and overall state education policies that  
10 ensure that progress is being made; and

11 WHEREAS, The federal No Child Left Behind Act of 2001  
12 recognizes that schools serving certain designated subgroups,  
13 such as children who are limited English speakers and children  
14 who have disabilities, require flexibility in determining  
15 annual yearly progress; recent educational research indicates  
16 that this type of flexibility is also needed for schools that  
17 serve other vulnerable population groups, such as high school  
18 drop-outs who return to school and who, due to low academic  
19 achievement levels, are often confronted with multiple  
20 barriers that impede their progress; and

21 WHEREAS, One of the flexible approaches that states have  
22 requested is the use of growth-based accountability models,  
23 which show promise as fair, reliable, and innovative methods  
24 for measuring school and student improvement; growth-based  
25 accountability models give schools credit for student  
26 improvement over time by tracking individual student  
27 achievement from year to year; and

28 WHEREAS, The United States Department of Education has  
29 developed a new pilot program in order to rigorously evaluate  
30 growth-based accountability models and their ability to meet  
31 the goals of the federal No Child Left Behind Act of 2001 and  
32 to share the results with other states; as part of this pilot

1 program, states may propose a growth-based accountability  
2 model for use in determining annual yearly progress under the  
3 federal No Child Left Behind Act of 2001; and

4 WHEREAS, In order to be approved for participation in the  
5 program, a model must have the following core requirements: (i)  
6 ensure that all students are proficient by 2014 and set annual  
7 goals to ensure that the achievement gap is closing for all  
8 groups of students, (ii) set expectations for annual  
9 achievement based upon meeting grade-level proficiency, not  
10 based on student background or school characteristics, (iii)  
11 hold schools accountable for student achievement in reading,  
12 language arts, and mathematics, (iv) ensure that all students  
13 in tested grades are included in the assessment and  
14 accountability system, hold schools and districts accountable  
15 for the performance of each student subgroup, and include all  
16 schools and districts, (v) include an assessment system in each  
17 of grades 3 through 8 and high school in reading and language  
18 arts and mathematics, which must have been operational for more  
19 than one year, that must receive approval through the federal  
20 No Child Left Behind Act of 2001 peer review process for the  
21 2005-2006 school year and that must produce comparable results  
22 from grade to grade and from year to year, (vi) track student  
23 progress as part of the state data system, and (vii) include  
24 student participation rates and student achievement on a  
25 separate academic indicator in the state accountability  
26 system; and

27 WHEREAS, The United States Department of Education will  
28 approve no more than 10 high-quality growth models in this  
29 pilot program for 2005-2006, and states that wish to apply and  
30 meet the core requirements must submit their proposals to the  
31 Department by February 17, 2006; therefore, be it

32 RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE  
33 NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that

1 we urge the State Board of Education to apply for participation  
2 in the growth-based accountability pilot program established  
3 by the U.S. Department of Education; and be it further

4 RESOLVED, That we urge the United States Department of  
5 Education to use more flexible criteria in determining adequate  
6 yearly progress under the federal No Child Left Behind Act; and  
7 be it further

8 RESOLVED, That a suitable copy of this resolution be  
9 delivered to the U.S. Secretary of Education, the State Board  
10 of Education, the Speaker of the United States House of  
11 Representatives, the President pro tempore of the United States  
12 Senate, and to each member of the Illinois Congressional  
13 delegation.
