LRB094 04513 NHT 57745 a

1 AMENDMENT TO SENATE BILL 882

2 AMENDMENT NO. _____. Amend Senate Bill 882 by replacing
3 everything after the enacting clause with the following:

4 "Section 5. The Health Services Education Grants Act is
5 amended by changing Section 4 as follows:

6 (110 ILCS 215/4) (from Ch. 111 1/2, par. 824)

7 Sec. 4. Grants may be made to the following classes of
8 institutions that offer health services programs: (i) medical,
9 dental, pharmacy, optometry, and nursing schools, (ii)
10 physician assistant programs, (iii) psychology and other
11 physical and mental health-related schools and programs, and
12 (iv) hospitals and clinical facilities used in health service
13 training programs.

14 Qualification for grants shall be on the basis of either
15 the number of Illinois resident enrollees or the number of
16 degrees granted to students who are residents of this State or
17 both. The grant amount shall be determined by the Board of
18 Higher Education for each class of institution.

19 At the discretion of the Board of Higher Education grants
20 may be made for a class of institution in any or all of the
21 following forms:

22 (1) Single nonrecurring grants for planning and
23 capital expense based on the increase in the number of
24 Illinois resident enrollees;

1 (2) Annual grants based on the number of degrees
2 granted to (a) Illinois resident enrollees, or (b) Illinois
3 resident enrollees from minority racial and ethnic groups,
4 or both (a) and (b);

5 (3) Annual stabilization grants based on the number of
6 (a) Illinois residents enrolled, or (b) Illinois residents
7 enrolled from minority racial and ethnic groups, or both
8 (a) and (b); and

9 (4) Program priority grants based on State residents
10 enrolled in eligible programs that address public demand
11 for health services, workforce needs and shortages, and
12 other programmatic priorities, such as sole service
13 providers, academic needs, or industry standards. The
14 Board of Higher Education may annually dedicate a portion
15 of appropriated funds, not to exceed 10% of appropriations,
16 to support program priority grants. In determining program
17 priority areas, the Board of Higher Education shall
18 annually consult with constituent institutions.

19 In awarding grants to nursing schools and to hospital
20 schools of nursing, the Board of Higher Education may also
21 consider whether the nursing program is located in a certified
22 nurse shortage area. For purposes of this Section "certified
23 nurse shortage area" means an area certified by the Director of
24 the Department of Public Health as a nurse shortage area based
25 on the most reliable data available to the Director.

27 Section 99. Effective date. This Act takes effect upon
28 becoming law."
