virtue of this Section. Such liability on his official bond shall exist in addition to the liability upon any separate bond given by him. All sums recovered for losses sustained by the clearing account Fund herein described shall be deposited therein.

In lieu of contributions required of other employers under this Act, the State Treasurer, upon the direction of the Director, shall transfer to and deposit in the clearing account established by Section 2100, an amount equivalent to the amount of regular benefits and one half the amount of extended benefits (defined in Section 409) paid for weeks which begin before January 1, 1979, and to the amount of all benefits paid weeks which begin on and after January 1, 1979, individuals who, during there respective base periods, were paid wages for insured work by the State or any of its wholly owned instrumentalities. If an individual was paid such wages his base period both by the State or any of instrumentalities and by one or more other employers, amount to be so transferred by the State Treasurer with respect to such individual shall be a sum which bears the same ratio to the total benefits paid to the individual as the wages for insured work paid to the individual during his base period by the State and any such instrumentalities bear to the total wages for insured work paid to the individual during the base period by all of the employers. Notwithstanding the previous provisions of this Section with respect to benefit years beginning prior to July 1, 1989, any adjustment after September 30, 1989 to the base period wages paid to the individual by any employer shall not affect the ratio for determining the amount to be transferred to the clearing account by the State Treasurer. Provided, however, that with respect to benefit years beginning on or after July 1, 1989, the State Treasurer shall transfer to and deposit in the clearing account an amount equal to 100% of regular benefits, including dependents' and 100% of extended benefits, including allowances, dependents' allowances paid to an individual, but only if the 1 State: (a) is the last employer as provided in Section 1502.1

and (b) paid, to the individual receiving benefits, wages for

insured work during his base period. If the State meets the

requirements of (a) but not (b), with respect to benefit years

beginning on or after July 1, 1989, it shall be required to

make payments in an amount equal to 50% of regular benefits,

including dependents' allowances, and 50% of extended

benefits, including dependents' allowances, paid to an

individual.

On and after July 1, 2005, transfers to the clearing account pursuant to this Section shall be made directly from such funds and accounts as the appropriations to the Department authorize, as designated by the Director. On July 1, 2005, or as soon thereafter as may be reasonably practicable, all remaining funds in the State Employees' Unemployment Benefit Fund shall be transferred to the clearing account, and, upon the transfer of those funds, the State Employees' Unemployment Benefit Fund is abolished.

The Director shall ascertain the amount to be so transferred and deposited by the State Treasurer as soon as practicable after the end of each calendar quarter. The provisions of paragraphs 4 and 5 of Section 1404B shall be applicable to a determination of the amount to be so transferred and deposited. Such deposit shall be made by the State Treasurer at such times and in such manner as the Director may determine and direct.

Every department, institution, agency and instrumentality of the State of Illinois shall make available to the Director such information with respect to any individual who has performed insured work for it as the Director may find practicable and necessary for the determination of such individual's rights under this Act. Each such department, institution, agency and instrumentality shall file such reports with the Director as he may by regulation prescribe.
