13 a home rule unit, or by a public or private elementary or

15 trade school and (ii) supervised by one or more persons,
16 other than maintenance or security personnel, employed by
17 the unit of local government, school, college, or
18 university for the purpose of directly supervising the
19 physical fitness activities taking place at any of these
20 ~~indoor~~ facilities: a swimming pool; stadium; athletic
21 field; football stadium; soccer field; baseball diamond;

6 primarily on cardiovascular exertion or gaming as defined
7 by Department rule.

8 (b) "Physical fitness facility" does not include a facility
9 serving less than a total of 100 individuals, as further
10 defined by Department rule. In addition, the term does not
11 include (i) a facility located in a hospital or in a hotel or
12 motel or (ii) any facility owned or operated by a park district

21 Sec. 15. Automated external defibrillator required.

22 (a) By the dates specified in Section 50, every physical
23 fitness facility must have at least one AED on the facility
24 premises. The Department shall adopt rules to ensure
25 coordination with local emergency medical services systems

1 regarding the placement and use of AEDs in physical fitness
2 facilities. The Department may adopt rules requiring a facility
3 to have more than one AED on the premises, based on factors
4 that include the following:

5 (1) The size of the area or the number of buildings or
6 floors occupied by the facility.

7 (2) The number of persons using the facility, excluding
8 spectators.

9 (b) A physical fitness facility must ensure that there is a

16 similarly situated non-employee anticipated rescuer who uses a
17 physical fitness facility in conjunction with the supervision
18 of physical fitness activities to complete a course of
19 instruction that would qualify such a person as a trained AED
20 user, as defined in Section 10 of the Automated External
21 Defibrillator Act.

22 (b-10) In the case of an outdoor physical fitness facility,
23 the AED must be housed in a building, if any, that is within
24 300 feet of the outdoor facility where an event or activity is
25 being conducted. If there is such a building within the
26 required distance, the building must provide unimpeded and open

1 access to the housed AED, and the building's entrances shall
2 further provide marked directions to the housed AED. If there
3 is no such building, the person responsible for supervising the
4 activity at the outdoor physical fitness facility shall ensure
5 that an AED is available at the outdoor facility during the
6 time that the event or activity at the facility is being
7 conducted.

8 (c) Every physical fitness facility must ensure that every
9 AED on the facility's premises is properly tested and
10 maintained in accordance with rules adopted by the Department.
