16 other than maintenance or security personnel, employed by
17 the unit of local government, school, college, or

20 ~~indoor~~ facilities: a swimming pool; stadium; athletic
21 field; football stadium; soccer field; baseball diamond;
22 track and field facility; tennis court; basketball court;
23 or volleyball court; or similar facility as defined by

1 Department rule; or such facilities located adjacent

3 (2) Except as provided in subsection (b), any other
4 indoor or outdoor establishment, whether public or
5 private, that provides services or facilities focusing
6 primarily on cardiovascular exertion or gaming as defined

25 Sec. 15. Automated external defibrillator required.

1 (a) By the dates specified in Section 50, every physical
2 fitness facility must have at least one AED on the facility
3 premises. The Department shall adopt rules to ensure
4 coordination with local emergency medical services systems
5 regarding the placement and use of AEDs in physical fitness
6 facilities. The Department may adopt rules requiring a facility
7 to have more than one AED on the premises, based on factors
8 that include the following:

9 (1) The size of the area or the number of buildings or
10 floors occupied by the facility.

11 (2) The number of persons using the facility, excluding
12 spectators.

13 (b) A physical fitness facility must ensure that there is a

15 fitness activities. For purposes of this Act, "trained AED
16 user" has the meaning ascribed to that term in Section 10 of
17 the Automated External Defibrillator Act.

19 non-employee coach, non-employee instructor, or other
20 similarly situated non-employee anticipated rescuer who uses a
21 physical fitness facility in conjunction with the supervision
22 of physical fitness activities to complete a course of
23 instruction that would qualify such a person as a trained AED
24 user, as defined in Section 10 of the Automated External
25 Defibrillator Act.

26 (b-10) In the case of an outdoor physical fitness facility,

1 the AED must be housed in a building, if any, that is within
2 300 feet of the outdoor facility where an event or activity is
3 being conducted. If there is such a building within the
4 required distance, the building must provide unimpeded and open
5 access to the housed AED, and the building's entrances shall
6 further provide marked directions to the housed AED. If there
7 is no such building, the person responsible for supervising the
8 activity at the outdoor physical fitness facility shall ensure
9 that an AED is available at the outdoor facility during the
10 time that the event or activity at the facility is being
11 conducted.

12 (c) Every physical fitness facility must ensure that every
13 AED on the facility's premises is properly tested and
14 maintained in accordance with rules adopted by the Department.
