1 AN ACT concerning State government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

- Section 5. The Government Buildings Energy Cost Reduction

 Act of 1991 is amended by changing Section 25 as follows:
- 6 (20 ILCS 3953/25)
- Sec. 25. Fluorescent <u>or LED</u> lighting in State buildings. In order to reduce energy consumption, all buildings owned or leased by the State that are 1,000 square feet in size or larger shall, where practicable, use:
- 11 (1) Energy Star labeled light bulbs as defined by the
 12 Energy Star Program of the United States Environmental
 13 Protection Agency; -
- 14 (2) Light-emitting diode (LED) luminaires, lamps, and systems whose efficacy (lumens per watt) and Color 15 Rendering Index (CRI) meet the <u>Department of Energy</u> 16 17 requirements for minimum luminaire efficacy and CRI for the Energy Star certification, as verified by an independent 18 19 third-party testing laboratory that the federal 20 Environmental Protection Agency Administrator and the 21 Secretary of Energy determine conducts its tests according 22 to the procedures and recommendations of the Illuminating Engineering Society of North America, even if the 2.3

luminaires, lamps, and systems have not received such 1 2 certification; or

(3) Any combination of (1) and (2).

Prior to implementing the use of Energy Star Light Bulbs, any building to which this Section applies may deplete the supply of non-Energy Star Light Bulbs it possesses on the effective date of this amendatory Act of the 95th General Assembly. Additionally, as most light bulbs contain mercury, all buildings to which this Section applies shall ensure the proper disposal of used light bulbs at a certified hazardous waste recycling facility.

Historic buildings that are listed on the Illinois Register of Historic Places, established pursuant to Section 6 of the Illinois Historic Preservation Act, are exempt from the requirements of this Section.
