(1) Conviction of, or entry of a plea of guilty or nolo contendere to, any crime that is a felony under the laws of the United States or any state or territory thereof or that is a misdemeanor of which an essential element is dishonesty, or any crime that is directly related to the practice of the profession.

(9) Failing to provide, within 60 days, information in response to a written request made by the Department.

(10) Habitual or excessive use or addiction to alcohol, narcotics, stimulants, or any other chemical agent or drug that results in a clinical psychologist's inability to practice with reasonable judgment, skill or safety.

(11) Discipline by another state, territory, the District of Columbia or foreign country, if at least one of the grounds for the discipline is the same or substantially equivalent to those set forth herein.

(12) Directly or indirectly giving or receiving from any person, firm, corporation, association or partnership any fee, commission, rebate or other form of compensation for any professional service not actually or personally

rendered.

(13) A finding by the Board that the licensee, after having his or her license placed on probationary status has violated the terms of probation.

(14) Willfully making or filing false records or reports, including but not limited to, false records or reports filed with State agencies or departments.

(15) Physical illness, including but not limited to, deterioration through the aging process, mental illness or disability that results in the inability to practice the profession with reasonable judgment, skill and safety.

(16) Willfully failing to report an instance of suspected child abuse or neglect as required by the Abused and Neglected Child Reporting Act.

(17) Being named as a perpetrator in an indicated report by the Department of Children and Family Services pursuant to the Abused and Neglected Child Reporting Act, and upon proof by clear and convincing evidence that the licensee has caused a child to be an abused child or neglected child as defined in the Abused and Neglected Child Reporting Act.

(18) Violation of the Health Care Worker Self-Referral Act.

(19) Making a material misstatement in furnishing information to the Department, any other State or federal agency, or any other entity.

(21) Failing to report to the Department any adverse final action taken against a licensee or applicant by another licensing jurisdiction, including any other state or territory of the United States or any foreign state or country, or any peer review body, health care institution, professional society or association related to the profession, governmental agency, law enforcement agency, or court for an act or conduct similar to an act or conduct that would constitute grounds for disciplinary action as set forth in this Section.

The entry of an order by any circuit court establishing that any person holding a license under this Act is subject to involuntary admission or judicial admission as provided for in the Mental Health and Developmental Disabilities Code, operates as an automatic suspension of that license. That person may have his or her license restored only upon the determination by a circuit court that the patient is no longer subject to involuntary admission or judicial admission and the issuance of an order so finding and discharging the patient and upon the Board's recommendation to the Department that the license be restored. Where the circumstances so indicate, the

Board may recommend to the Department that it require an examination prior to restoring any license so automatically suspended.

The Department may refuse to issue or may suspend the license of any person who fails to file a return, or to pay the tax, penalty or interest shown in a filed return, or to pay any final assessment of the tax penalty or interest, as required by any tax Act administered by the Illinois Department of Revenue, until such time as the requirements of any such tax Act are satisfied.

In enforcing this Section, the Board upon a showing of a possible violation may compel any person licensed to practice under this Act, or who has applied for licensure or certification pursuant to this Act, to submit to a mental or physical examination, or both, as required by and at the expense of the Department. The examining physicians or clinical psychologists shall be those specifically designated by the Board. The Board or the Department may order the examining physician or clinical psychologist to present testimony concerning this mental or physical examination of the licensee or applicant. No information shall be excluded by reason of any common law or statutory privilege relating to communications between the licensee or applicant and the examining physician or clinical psychologist. The person to be examined may have, at his or her own expense, another physician or clinical psychologist of his or her choice present during all aspects of

the examination. Failure of any person to submit to a mental or physical examination, when directed, shall be grounds for suspension of a license until the person submits to the examination if the Board finds, after notice and hearing, that the refusal to submit to the examination was without reasonable cause.

If the Board finds a person unable to practice because of the reasons set forth in this Section, the Board may require that person to submit to care, counseling or treatment by physicians or clinical psychologists approved or designated by the Board, as a condition, term, or restriction for continued, reinstated, or renewed licensure to practice; or, in lieu of care, counseling or treatment, the Board may recommend to the Department to file a complaint to immediately suspend, revoke or otherwise discipline the license of the person. Any person whose license was granted, continued, reinstated, renewed, disciplined or supervised subject to such terms, conditions or restrictions, and who fails to comply with such terms, conditions or restrictions, shall be referred to the Secretary for a determination as to whether the person shall have his or her license suspended immediately, pending a hearing by the Board.

In instances in which the Secretary immediately suspends a person's license under this Section, a hearing on that person's license must be convened by the Board within 15 days after the suspension and completed without appreciable delay. The Board

shall have the authority to review the subject person's record of treatment and counseling regarding the impairment, to the extent permitted by applicable federal statutes and regulations safeguarding the confidentiality of medical records.

A person licensed under this Act and affected under this Section shall be afforded an opportunity to demonstrate to the Board that he or she can resume practice in compliance with acceptable and prevailing standards under the provisions of his or her license.

(b) The Board shall prescribe, by rule, criteria for disciplining, suspending, or revoking the prescriptive authority of a prescribing clinical psychologist. The Board shall have the power and duty to require remediation, suspension, or revocation of a psychologist's prescriptive authority for a specified period of time, determined at the discretion of the Board and in accordance with State law.
